TRANSFER AUTHORITY

The President of the United States, in his March 24, 1961, message relative to budget and fiscal policy, proposed that the Congress—

in enacting appropriations for each department and agency,

* * * provide the necessary authority for the transfer of a
modest amount or percentage of the funds and personnel
available to an agency head for operating expenses.

The committee does not concur in this proposal.

EMPLOYEE HOUSING

The committee agrees with the recommendation contained in the House report that the unit cost of employee housing in the United States, excluding Alaska, shall be limited to \$20,000, including engineering and design costs but excluding provisions of utilities to the lot lines. The standards heretofore set forth shall be continued, and shall apply to the Public Health Service (Division of Indian Health), which is now included in this appropriation bill.

PER DIEM FOR CONSULTANTS

It has come to the attention of the committee that some agencies whose funds are included in this bill pay per diem to consultants at a rate greater than \$75. The committee directs that unless an agency is otherwise limited by law to payment of a lesser per diem, the rate be no greater than \$75.

PUBLIC LAND RANGE APPRAISAL

The committee has received proposals to authorize an appropriation

to begin a comprehensive range resources appraisal.

Recently, the Department of Agriculture has completed, and is now in the process of editing and publishing, a comprehensive report on "National Inventory of Soil and Water Conservation Needs." This survey was undertaken to provide the Department of Agriculture with up-to-date knowledge for carrying out soil and water conservation programs on the privately owned farm and range lands of this Nation, most of which lie in organized soil conservation districts.

A similar inventory of public lands appears to have merit, provided that such a program is planned with specific objectives covering such phases as protection of range from misuse, providing better vegetative cover, water management, and related measures from which to develop an improved range management program which will bring

about the full productive potential of these lands.

The committee directs the Secretaries of the Interior and Agriculture, based upon knowledge, techniques, and data available, to initiate a trial program of range appraisal within the existing resources available to the respective Departments. In proceeding with the range study, the two cooperating Departments will utilize existing data available within their respective agencies and cooperate with State and local agencies of government which administer lands, as well as consult with the private users of publicly owned lands.

The committee believes that within the agencies concerned the best standards, methods, and procedures can be developed and incorporated in an effective inventory of public-owned rangelands.

SUMMARY OF THE BILL

The committee considered budget estimates totaling \$782,387,000 (\$754,579,000 for definite appropriations, \$12,808,000 for indefinite appropriations of receipts and \$15 million borrowing authority) for the programs and activities for the agencies and bureaus of the Department of the Interior, exclusive of the Southeastern Power Administration, the Southwestern Power Administration, the Bonneville Power Administration, and the Bureau of Reclamation, and the following related agencies:

Commission on Fine Arts.

Federal Coal Mine Safety Board of Review. Forest Service (Department of Agriculture).

Indian Claims Commission.

Division of Indian Health (Department of Health, Education and Welfare).

National Capital Planning Commission. National Capital Transportation Agency.

Smithsonian Institution. National Gallery of Art.

Civil War Centennial Commission.

Outdoor Recreation Resources Review Commission.

Transitional Grants to Alaska, and The Virgin Islands Corporation.

The committee recommends appropriations totaling \$822,649,850 (\$799,841,850 for definite appropriations, \$12,808,000 for indefinite appropriations of receipts and \$10 million borrowing authority) for the programs and activities of these agencies. The sum recommended by the committee is an increase of \$40,262,850 over the budget estimates considered, an increase of \$69,330,850 over the sums included in the House bill, and an increase of \$68,113,150 over the sums appropriated for the current fiscal year.

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

House allowanceCommittee recommendation	500, 0	

¹ Includes \$1,000,000 in 3d Supplemental Appropriations Act, 1961, for welfare services.

The committee recommends \$71,500,000, which will provide for the program included in the budget estimate, except for \$21,000 in pay act costs, which is to be absorbed.

RESOURCES MANAGEMENT

Appropriation, 1961	1 \$24,	861, 000
Budget estimate, 1962	2 29,	227, 000
House allowance	29,	000, 000
Committee recommendation	29,	275, 000

1 Includes \$940,000 forest fire deficiency, and \$131,000 for Gila River Indians in 3d Supplemental Appropriations Act.

² Includes budget amendment increase of \$1,136,000 in H. Doc. 113.

The committee recommends an appropriation of \$29,275,000. This amount will provide funds for the activities included in the budget estimate for this appropriation item except for a decrease of \$27,000 in pay act costs, which is to be absorbed. \$75,000 has been added for the development of Indian arts and crafts.

Of the increase in this item over 1961 appropriation, the committee directs that not less than \$1,325,664 be used for timber sale administration, with particular attention to be given to harvesting overmature

timber.

CONSTRUCTION

Budget estimate, 1962	2 39,	561, 000
House allowance	. 35,	000, 000
Committee recommendation	. 41,	708, 000

¹ Includes \$2,050,000 in 2d Supplemental Appropriations Act, 1961. ² Includes budget amendment increase of \$20,000,000 in H. Doc. 113.

The committee's recommendation will permit the Bureau of Indian Affairs to carry forward its construction program as set forth in the budget estimate, with the exception of the rehabilitation of a larger surplus ship to replace the present *North Star*. The committee disallows the \$375,000 requested for this purpose.

In addition to the construction program which was proposed by the Bureau, the committee has included the following amounts for

the purposes indicated:

1. \$82,000 for construction of new jail facilities on the Hualapai Reservation in Arizona. It is the desire of the committee that in addition the Hualapai Tribe contribute not less than \$15,000 for this purpose.

2. \$225,000 for additional classrooms and facilities, including living quarters at Loneman Day School, Pine Ridge Indian Reservation.

3. \$550,000 for construction of a 120-pupil dormitory at Aztec, N. Mex., to replace an existing temporary-type dormitory.

4. \$805,000 for construction of additional classrooms and facilities, including employees' quarters, at the White Shield High School, White Shield, N. Dak.

5. \$860,000 for construction of two dormitories and a storm drainage system at the Wahpeton School, Wahpeton, N. Dak.

ROAD CONSTRUCTION

(Liquidation of contract authorization)

Appropriation, 1961	\$14, 500, 000
Budget estimate, 1962	17, 000, 000
House allowance	16,000,000
Committee recommendation	17,000,000

The committee recommends an appropriation of \$17 million, the amount of the budget estimate, to liquidate obligations incurred under appropriate provisions of the Federal-Aid Highway Act and the Navajo-Hopi Rehabilitation Act. This will provide \$12 million for Federal-aid highway roads and \$5 million for Navajo-Hopi roads.

It is the desire of the committee that the Bureau of Indian Affairs construct a bituminous-surfaced road from St. Francis, S. Dak., south to the Nebraska State line, a distance of about 10.5 miles. Information furnished to the committee is that the cost of this work will be

about \$220,000.

GENERAL ADMINISTRATIVE EXPENSES

Appropriation, 1961	\$3, 967, 000
Budget estimate, 1962	3, 972, 000
House allowance	3, 967, 000
Committee recommendation	3, 967, 000

The committee concurs with the allowance of the House of \$3,967,000 for general administrative expenses, Bureau of Indian Affairs. The committee grants the request of the Bureau of Indian Affairs that the amount to be transferred from program funds for administrative expenses be increased by \$346,300. It is the view of the committee that the increase in the programs of this Bureau are such as to warrant an increase in funds to handle the administrative workload.

LIQUIDATION OF KLAMATH AND MENOMINEE AGENCIES

Appropriation, 1961	\$152,000
Budget estimate, 1962 Budget estimate, 1962	31, 000
House allowance	31, 000
Committee recommendation	31, 000

The committee concurs with the House allowance of \$31,000 necessary in termination of the Federal Government's supervision over the trust property of the Klamath Indians of Oregon in accordance with law.

NATIONAL PARK SERVICE

MANAGEMENT AND PROTECTION

Appropriation, 1961	1 \$20, 509, 000
Budget estimate, 1962	² 22, 790, 000

Committee recommendation	22, 786, 500

Includes \$1,125,000 forest fire deficiency in the 3d Supplemental Appropriations Act, 1961.
Includes budget amendment increase of \$1,000,000 in H. Doc. 113.

The committee recommendation will provide funds for all programs included in the budget estimate except \$100,000 of pay act costs, which the committee expects the National Park Service to absorb. An increase of \$96,500 over the budget estimate (to provide a total of \$422,750) is provided for archeological investigations and salvage in accordance with the following table:

Committee recommendation	18, 238, 000

¹ Includes \$129,000 for emergency repairs in 3d Supplemental Appropriations Act, 1961.

The committee recommends the full amount of the budget estimate, \$18,238,000, for maintenance and rehabilitation of physical facilities. It is the view of the committee that no less than the budget estimate is necessary in view of the very large number of visitors to the national parks.

CONSTRUCTION

Appropriation, 1961Budget estimate, 1962	¹ \$21, 528, 000 ² 38, 997, 000

¹ Includes \$2,953,000 in 1st Supplemental Appropriations Act, 1961; \$275,000 in 2d Supplemental Appropriations Act, 1961; and \$300,000 for emergency repairs in 3d Supplemental Appropriations Act, 1961.

2 Includes budget amendment increase of \$10,000,000 in H. Doc. No. 113.

The \$39,807,500 recommended by the committee will provide for the amounts indicated in the House allowance for continued development of the Jefferson National Expansion Memorial Historic Site, additional development of Independence National Historic Park, camping and picnicking facilities, and employee housing. The amount will also provide \$176,500 for construction of a golf concessions building in Rock Creek Park, District of Columbia, \$301,000 for a training center building at Grand Canyon National Park, and \$2 million requested for roads and trails under authority of 16 United States Code 8, as well as the full amount of the budget estimate for acquisition of lands and water rights.

The \$450,000 budget request for acquiring an additional 30,000 acres of land in the Everglades National Park, Fla., has been restored. This would be the first Federal expenditure for land acquisition in the park, about 1,290,091 acres having been donated by the State, local agencies, and private donors, some of which was acquired by the \$2 million cash grant made by the State of Florida. This acquisition would carry out the authorization in Public Law 85–482 (July 2, 1958), which fixed final but greatly reduced boundaries for the park and authorized up to \$2 million to complete land acquisition.

The State has carried out its part of the exchange contemplated under that act by granting 64,000 acres for the park in exchange for 65,000 Federal acres. It has also conveyed 30,000 acres previously donated by the Collier interests for purposes of the park in contemplation of the redefining of the boundaries by the 1958 act. Thus, only the Federal Government is in default on obligations imposed by

that act.

Sizable Federal funds are now being expended in building a west coast headquarters for the park at Everglades City. Unless the intervening lands are acquired, this headquarters will be cut off from

the main body of the park.

The owners of the private property are in the position of having to make tax and other payments without being able to develop or sell their property. The proposed acquisition is necessary not only from the standpoint of equity to them and to the west coast area of Florida but also from the standpoint of the park's optimum development. Among the lands which cannot be acquired without Federal appropriation are such critical areas as the lands close by Duck Rock, one of the major birdlife attractions, and the Indian Mound areas on Turner River.

The committee has included the following amounts above the budget

estimates:

\$880,000 as the National Park Service's portion of the construction cost of an airport at the Grand Canyon National Park, which is equal to 40 percent of the total cost. The remaining 60 percent is to be financed by the Federal Aviation Agency.

\$1,500,000 as the full amount of the construction cost required for

restoration of Ford's Theater.

The Senate committee agrees with the House of Representatives that the \$2,500,000 requested for development of recreation facilities in the Upper Colorado River Reservoir Area sites should be considered and included in the public works appropriations bill.

Budget estimate, 1962	30, 000, 000

Committee recommendation	30, 000, 000

The committee concurs with the House of Representatives in an allowance of \$30 million for liquidation of contract authorizations contained in the Federal-aid highway acts. It is the opinion of the committee that no part of the contract authorization should be used for construction of the zoo bypass in Rock Creek Park, District of Columbia.

The committee concurs with the House allowance for this item. The appeal for restoration of \$2,000 in pay act costs is not approved, inasmuch as the committee believes that this small amount can be absorbed by the National Park Service.

2 Reflects budget amendment decrease of \$565,000 in H. Doc. 113.

The committee recommends the budget estimate of \$5,834,000, the amount of the House allowance. In addition to the cost of administration in the Washington headquarters office, this appropriation provides funds for the governments of the Virgin Islands, Guam, and American Samoa, and for administration of Canton Island, as well as for grants to American Samoa.

1 Includes \$400,000 in the Supplemental Appropriation Act, 1961, and \$224,000 for aircraft overhaul in the 3d Supplemental Appropriation Act, 1961.

The committee recommends the amount of the budget estimate, which is the same as the amount allowed by the House. This amount will provide funds for the Office of the High Commissioner, the judiciary, and grants for public health, education, political and economic development, and public works.

The committee recommends that \$108,000 of appropriations previously made be continued available for administrative expenses necessary for the liquidation of the public works program. It is expected that transfer of all public works will be completed by the end of this calendar year.

ALASKA RAILROAD

The committee approves the use of \$1,295,000, to be derived from the operations of the Alaska Railroad, for additions and betterments to the system.

GEOLOGICAL SURVEY

Committee recommendation	50,	200, 000

¹ Includes \$300,000 in the 2d Supplemental Appropriation Act, 1961.

The committee recommendation allows all but \$29,000 of the \$329,000 restoration from the House reduction requested by the Department. The committee has approved \$300,000, of which \$220,000 is to be applied to pay act costs in connection with cooperative water resources investigations. The Geological Survey will absorb the remaining \$29,000 in other parts of its program. The amount recommended by the committee also includes an additional \$400,000, to be distributed to topographic surveys and mapping (\$100,000) and geological and mineral resource surveys and mapping (\$300,000).

The committee recommendation concurs with the House allowance of \$10 million in borrowing authority. The committee agrees that this sum, together with the amount available in the current helium fund, about \$5 million, will be sufficient to meet requirements during the

However, the committee is advised that 8 to 10 contracts for the acquisition of helium from producing gas wells will be executed by January 1, 1962. The maximum annual payments under these contracts will total \$60 million during a single fiscal year. The committee has, therefore, recommended that there be made available \$60 million in payment authority, inasmuch as to approve less would have the effect of prohibiting the Secretary from entering into acquisition contracts. This approval does not provide for expenditure of any funds.

The committee concurs with the House allowance of \$1 million for salaries and expenses, Office of Coal Research. The committee also agrees with the House limitation of \$225,000 for administration and supervision. This is larger than the amount included in the current appropriation act.

The committee concurs in the House allowance of \$750,000, and has not acceded to the Departmental request that a limitation on expenditures for administrative and technical services be increased

beyond \$213,600.

It is the opinion of the committee that the views of the conferees set forth in the conference report on the 1959 supplemental appropriations bill (H.R. 13450) are still valid. At that time the conferees indicated that participation by the Federal Government in exploration contracts should not exceed 50 percent of the actual project costs. There have not been presented to the committee any persuasive reasons for changing this opinion. If Federal participation is limited to 50 percent, the committee recommendation of \$750,000 will be sufficient for the Office of Minerals Exploration during fiscal year 1962, and the limitation on administrative and technical services will also be sufficient.

Appropriation, 1961	\$364,000
Budget estimate, 1962	364, 000
House allowance	364, 000
Committee recommendation	364, 000

The committee recommends concurrence in the House allowance of \$364,000, the same as the sum appropriated for the current fiscal year. This amount will provide for general supervision by the Office of the Commissioner over the programs of the Bureau of Sport Fisheries and Wildlife and the Bureau of Commercial Fisheries.

Budget estimate, 1962	² 11, 796, 000
House allowance	11, 700, 000
Committee recommendation	12, 225, 000

1 Includes \$100,000 in the 2d Supplemental Appropriation Act, 1961, and \$1 million for salmon research in the 3d Supplemental Appropriation Act, 1961.

Reflects transfer in the estimates of \$1,915,000 from "Operation and maintenance, general, Corps of Engineers," for the Columbia River fishery facilities and includes budget amendment increase of \$2,500,000 in H. Doc. 113.

The amount recommended by the committee provides for all of the programs set forth in the budget estimate, except that only \$75,000 for pay act costs of the \$96,000 reduction by the House has been restored. In addition, the committee recommends that the following studies and research programs be initiated during fiscal year 1962 in the amounts indicated:

Research to improve the efficiency of blue crab plant operations	\$100,000
Research on shrimp resources in the Gulf of Mexico	175, 000
Time-temperature tolerance study on frozen fish and shellfish	30, 000
Investigations into the effect control techniques have on shellfish	30, 000

MANAGEMENT AND INVESTIGATIONS OF RESOURCES

(Special foreign currency program)

Appropriation, 1961	None
Budget estimate, 1962	\$1,000,000
House allowance	300,000
Committee recommendation	300,000

The committee concurs with the House allowance of \$300,000 for purchase of foreign currencies to be used for research contracts in foreign areas. However, the committee recommends that the following language be placed in the bill:

On page 22, line 24, strike out the period and insert:

and in addition, the Secretary of the Interior is authorized to enter into contracts for the purposes of this appropriation in an amount not to exceed \$700,000.

The committee believes that this language will permit the Bureau of Commercial Fisheries to enter into research contracts which will require longer than 1 year to complete, and at the same time will provide the Congress with an opportunity to review the contracts each year.

¹ Included in the 2d Supplemental Appropriation Act, 1961.

The committee concurs in the House allowance of \$750,000 for subsidy payments for fishing vessels constructed in U.S. shipyards. The data furnished to the committee do not indicate that the full amount of \$1 million is necessary now. In the event applications should be received which require more than \$750,000 during the coming fiscal year, the Bureau should submit a supplemental request.

¹ Includes \$55,000 for fire suppression and storm damage in the 3d Supplemental Appropriation Act, 1961.

The committee recommendation allows all but \$50,000 of the pay act costs included in the program set forth in the budget estimate.

The committee has increased the budget estimate by the following amounts for the purposes indicated:

Establishment of a cooperative wildlife research unit at Louisiana State University	\$17,000
Research on reservoir fish productivity on the white River interstate	170,000
Research on reservoir fish productivity in an interstate reservoir on the	220, 000

1 Includes \$250,000 in the 2d Supplemental Appropriation Act, 1961, and \$350,000 in the 3d Supplemental Appropriation Act, 1961, including \$200,000 for emergency repairs.

The committee is in agreement with the House allowance, including additions to the requested construction program and disallowance of funds for full construction cost of the new fish hatchery at Jordan River, Mich., and assurance of consideration in the public works appropriations bill of the \$200,000 item proposed for development of fish and wildlife facilities in connection with the Upper Colorado River Storage Project, except that the \$387,350 requested in the budget estimate for construction on the Arctic and Izembek National Wildlife Ranges in Alaska are deleted.

The committee has recommended increases in the following amounts

for the purposes indicated:

Committee recommendation	1, 071, 000

The committee recommends the full amount of the budget estimate of \$1,071,000, and is concerned that the new accounting system required by the Budget and Accounting Procedures Act be installed. The committee also approves the Bureau's request to transfer an additional \$89,000 of program funds to the "General administrative expenses" item.

The committee concurs in the House allowance of the budget estimate of \$1,755,000, as well as with the limitation of \$220,000 on the amount available for administration and coordination.

CONSTRUCTION, OPERATION AND MAINTENANCE

Appropriation, 1961	\$2, 040, 000
Budget estimate, 1962	4, 800, 000
House allowance	4, 550, 000
Committee recommendation	4, 685, 000

The committee recommendation of \$4,685,000 is a reduction of \$115,000 from the budget estimate. This reduction is equal to the gain from a bid experience more favorable than was contemplated when the budget estimates were prepared.

Office of the Solicitor

SALARIES AND EXPENSES

The committee concurs with the House allowance of \$3,492,000 for the Office of the Solicitor, and declines to approve the departmental request for restoration of \$55,000 to bring the amount up to the budget estimate. The committee feels that \$5,000 included in the reduction for pay act costs can be absorbed, and has noted that the proposed new Division of Appeals will not be created.

¹ Includes budget amendment increase of \$325,000 in H. Doc. 113.

The committee recommends an appropriation of \$3,185,000 for fiscal year 1962. This is \$60,000 more than the House allowance, and the increase is to be used for additional positions on the Technical Review Staff.

TITLE II—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE—FOREST PROTECTION AND UTILIZATION

FOREST LAND MANAGEMENT

Appropriation, 1961	1 \$128, 489, 700
Budget estimate, 1962	² 118, 517, 000
House allowance	118, 000, 000
Committee recommendation	149, 200, 200

1 Includes \$750,000 in 2d Supplemental Appropriation Act, 1961, and \$31,500,000 forest fire deficiency in

3d Supplemental Appropriation Act, 1961.

Includes budget amendment increase of \$13,000,000 in H. Doc. 112.

The committee recommendation is the same as the House allowance, \$118 million, plus the following:

1. \$200,000 as an additional sum for acquisition of lands (Weeks

Act).

2. \$45,200 for repairs to Sheridan Dam, S. Dak.

3. \$955,000 as an additional sum for forest fire protection in southern California.

4. \$30 million additional for national forest protection and management.

FOREST RESEARCH

Appropriation, 1961	1 \$18,	778, 000
Budget estimate, 1962	2 23,	278,000
House allowance	22,	978, 000
Committee recommendation	27,	313, 000

¹ Includes \$500,000 in 2d Supplemental Appropriation Act, 1961.
² Includes budget amendment increase of \$3,000,000 in H. Doc. 112.

The committee recommendation disapproves the request of \$300,000 to prepare detailed design and cost estimates for constructing additional laboratory facilities at the Forest Products Laboratory at Madison, Wis. The recommendation, however, does approve the request of \$350,000 for a forest research laboratory at Fairbanks, Alaska.

In addition, the committee has approved the establishment or improvement of the following research facilities at a cost of \$3,185,000:

Location	Research facilities	Estimated
Sewanee, Tenn	Forest Soil and Silviculture Laboratory	\$125,000
Crossett, Ark	Loblolly Pine Silviculture Laboratory	50,000

Bozeman, Mont	Forest and Range Management Laboratory	175,000
Warren, Pa	Forest Recreation and Wildlife Habitat Laboratory	200,000
Total .		3, 185, 000

In addition, the sum of \$350,000 is recommended as an addition to the amount already included in the budget estimate for laboratory facilities at West Thornton, N.H.; and \$450,000 is proposed for establishment and construction of a market development center and related experimental-demonstration forest in the Bluefield-Princeton area of southern West Virginia.

House allowanceCommittee recommendation	15, 500, 000 15, 800, 000

¹ Includes budget amendment increase of \$2,000,000 in H. Doc. 112.

The committee recommendation is \$209,000 less than the budget estimate and \$300,000 more than the House allowance. It is the desire of the committee that the reduction below the budget estimate be distributed to the following activities:

\$189,000 to cooperation in forest management and processing;

and

\$20,000 to general forestry assistance.

FOREST ROADS AND TRAILS

House allowance	35, 000, 000
Committee recommendation	35, 000, 000

¹ Includes budget amendment increase of \$3,000,000 in H. Doc. 112.

The committee has concurred in the House allowance of \$35 million for forest roads and trails during fiscal 1962 and also in the provision for advance of contract authorization from fiscal year 1963.

ACCESS ROADS	
Budget estimate, 1962	\$1,000,000 1,000,000
House allowance	1, 000, 000
Committee recommendation	4, 000, 000

The committee has recommended an increase of \$3 million over the budget estimate in the firm conviction that use of these funds will open up vast areas of marketable timber to sustained-yield use. It is believed that the income from the additional timber will more than repay the amount of this increase.

ACQUISITION OF LANDS FOR NATIONAL FORESTS

SUPERIOR NATIONAL FOREST	
Appropriation, 1961	\$750,000
Budget estimate, 1962	250, 000
House allowance	250, 000
Committee recommendation	250 000

The committee concurs in the House allowance of \$250,000 for acquisition of lands in the Superior National Forest. This amount will complete appropriation of the \$2,500,000 authorized for this purpose.

SPECIAL ACTS-CACHE NATIONAL FOREST

(Indefinite appropriation of receipts)	
Appropriation, 1961	\$10,000
Budget estimate, 1962	10,000
House allowance	10,000
Committee recommendation	10,000

The committee concurs with the House allowance of \$10,000 of receipts from the Cache National Forest. These funds are used to acquire private lands within the Cache National Forest which are critical from watershed and erosion standpoints and on which control measures are to be taken.

COOPERATIVE RANGE IMPROVEMENTS

¹ Includes budget amendment increase of \$1 million in H. Doc. 112.

The committee concurs in the House allowance of \$1 million for assistance to States for tree planting. These funds must be matched by contributions from the States; and will provide for actual planting of trees in the field as well as for direct seeding and measures to contribute to natural seeding.

FEDERAL COAL MINE SAFETY BOARD OF REVIEW

The committee concurs in the House allowance of \$70,000 for this activity. This is the same amount as was available to the Board in 1961.

COMMISSION OF FINE ARTS

SALARIES AND EXPENSES	
Appropriation, 1961	1 \$69,000
Budget estimate, 1962	70, 000
House allowance	70, 000
Committee recommendation	70,000

¹ Includes \$26,700 in Supplemental Appropriation Act, 1961.

The committee recommendation is the same as the House allowance, \$70,000, an increase of only \$1,000 over the appropriation for fiscal year 1961.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PUBLIC HEALTH SERVICE

INDIAN HEALTH ACTIVITIES

ARTHURANA AND ARTHURAN AND ARTH	
Appropriation, 1961	\$50, 271, 000
Budget estimate, 1962	52, 430, 000
House allowance	52, 430, 000
Committee recommendation	54, 590, 000

The committee recommends an increase in the budget estimates and in the House allowance of \$2,160,000. It is the committee's belief that \$2 million more than the amount budgeted for contract patient care can be used to meet the need for surgical services which are not considered emergent. Experience indicates that in the past non-emergent surgical cases have been deferred because of fund limitations. Eventually these cases become emergencies and, therefore, must be treated on that basis. Such a situation would be unnecessary if it were possible for proper surgical attention to be given when need first arises.

In addition, the committee has added \$160,000 to meet staffing requirements made necessary by the committee's recommendation below for construction of \$2 million additional in Indian sanitation facilities. It is the information of the committee that this additional construction requires consultation, design, and supervision, as well as development of operational and maintenance organizations within Indian groups for operation and care of the completed facilities, and instruction of the Indian people in maintenance, repair, and protection of sanitary facilities.

CONSTRUCTION OF INDIAN HEALTH FACILITIES

Appropriation, 1961	\$9, 714, 000
Budget estimate, 1962	6, 616, 000
House allowance	6, 616, 000
Committee recommendation	9, 285, 000

The committee recommendation, which exceeds the budget estimate by \$2,669,000, will provide all of the services set forth in the budget estimates, and, in addition, will make possible construction of a health center and necessary personnel quarters at McLaughlin, S. Dak., at a cost of \$319,000. Also, \$350,000 is included for the purpose of planning a medical center and training facility in Phoenix, Ariz.

The committee has added \$2 million for the construction of Indian health facilities in various parts of the United States as indicated in the following table. The Indians themselves contribute to the cost of these facilities and to their operation.

Included within the budget estimate is \$70,000 to plan the construction of a general hospital to replace the existing hospital at the Standing Rock service unit. Subsequent to the hearings before the House Committee on Appropriations, a referendum was held among the Indians at Standing Rock which indicates that the Indians themselves prefer the hospital at Fort Yates. Both the Under Secretary, Department of Health, Education, and Welfare, and the Chief of the Division of Indian Health advised the Senate committee that the hospital should be located at Fort Yates rather than at McLaughlin, S. Dak. The committee agrees that the location should be Fort Yates.

The committee concurs with the House allowance of the budget estimate for salaries and expenses of the Indian Claims Commission during fiscal year 1962.

NATIONAL CAPITAL PLANNING COMMISSION

SALARIES AND EXPENSES

Appropriation, 1961	\$435,000
Budget estimate, 1962	573, 000
House allowance	525, 000
Committee recommendation	525, 000

The committee agrees with the House that \$525,000 is an adequate amount for salaries and expenses of the National Capital Planning Commission during fiscal year 1962.

LAND ACQUISITION, NATIONAL CAPITAL PARK, PARKWAY, AND PLAYGROUND SYSTEM

Appropriation, 1961	\$	250, 000
Budget estimate, 1962	1,	400, 000
House allowance	1	200, 000
Committee recommendation	2,	700, 000

The committee recommends the appropriation of \$2,700,000 for land acquisition programs of the National Capital Planning Commission. The recommended funds, all of which are to be matched by State, local, or private funds, are to be divided among the following programs:

Stream valley parks, Maryland, \$600,000.
 Stream valley parks, Virginia, \$600,000.

With respect to the two preceding items, the Senate committee is impressed with the fact that the lands which can be purchased with this \$1,200,000 are in danger of being developed by private interests. If this development continues, it will be only a short time until the value of the land will have increased to the point where purchase of it for needed park purposes will be impossible.

3. Extension of the George Washington Memorial Parkway from the District line to Fort Washington, Prince Georges County, Md., \$1,500,000. The committee's comments relative to the two preceding items are, if anything, more applicable to this particular section of the

Potomac River shoreline.

In view of the action of the Fairfax County Board of Commissioners indicating that the board is not interested in matching funds for the purchase of the Madeira School property in that county, and in view of the opposition to the purchase expressed before the committee, the committee has not approved the budget estimate for this purpose.

NATIONAL CAPITAL TRANSPORTATION AGENCY

SALARIES AND EXPENSES	
	\$250, 000 975, 000
House allowanceCommittee recommendation	650, 000 925, 000

1 Appropriated in the 2d Supplemental Appropriation Act, 1961.

The committee recommends an appropriation of \$925,000 for the National Capital Transportation Agency, which is \$50,000 below the budget estimate. It is the view of the committee that the amount

requested for contractual services can be reduced by \$50,000.

Data presented to the Senate committee indicates that the General Services Administration is unable to locate federally owned office space for this Agency and has advised that the only assistance to be offered is to lease appropriate commercial space with funds of the National Capital Transportation Agency. Therefore, the Senate committee believes that there should be no bar on expenditure of \$70,000 for rent during the coming fiscal year.

Budget estimate, 1962	550, 000
House allowance	550, 000
Committee recommendation	550, 000

The committee approves the budget estimate and House allowance of \$550,000 for the Outdoor Recreation Resources Review Commission. This amount completes the full authorization of funds for this Commission.

SMITHSONIAN INSTITUTION

SALARIES AND EXPENSES	
Appropriation, 1961	\$8, 114, 000
Budget estimate, 1962	9, 275, 000
	9, 125, 000
House allowance	9, 125, 000
Committee recommendation	3, 123, 000

The committee concurs in the House allowance of \$9,125,000 for "Salaries and expenses, Smithsonian Institution." This amount is \$150,000 less than the budget estimate for the reason that the Smithsonian Institution indicates that that sum would be unnecessary since the new Museum of History and Technology probably would not be completed until September of 1962, a delay resulting from weather factors.

ADDITIONS TO THE NATURAL HISTORY BUILDING

Appropriation, 1961		00, 000
Budget estimate, 1962	14,0	36, 000 36, 000
House allowance		36, 000

¹ Reflects budget amendment decrease of \$974,000 in H. Doc. 129.

The committee concurs in the House allowance of \$4,336,000 for completion of additions to the Natural History Building.

REMODELING OF CIVIL SERVICE COMMISSION BUILDING

Appropriation, 1961	None
Budget estimate, 1962	\$400,000
House allowance	400, 000
Committee recommendation	100,000

The committee concurs in the allowance of the House of \$400,000 for the purpose of preparing plans and specifications for remodeling the Civil Service Commission Building to house the National Collection of Fine Arts and the National Portrait Gallery.

NATIONAL GALLERY OF ART

SALARIES AND EXPENSES	
Appropriation, 1961	\$1,920,000
Budget estimate, 1962	1, 932, 000
House allowance	1, 932, 000
Committee recommendation	1, 932, 000

The Senate committee concurs in the allowance of the House of Representatives of \$1,932,000 for the National Gallery of Art.

TRANSITIONAL GRANTS TO ALASKA

Appropriation, 1961	\$6,000,000
Budget estimate, 1962	6, 000, 000
House allowance	6, 000, 000
Committee recommendation	6, 000, 000

The committee recommends the amount of the budget estimate, \$6 million, which is provided for by the Alaska Omnibus Act to facilitate an orderly transition from territorial status to statehood and to assist the State in financing those functions previously performed by the Federal Government.

CIVIL WAR CENTENNIAL COMMISSION

EXPENSES

Appropriation, 1961	1 \$103, 750
Budget estimate, 1962	The second secon
House allowance	75, 000
Committee recommendation	100, 000

1 Includes \$3,750 in 2d Supplemental Appropriation Act, 1961.

The committee recommends the full amount of the budget estimate for the Civil War Centennial Commission, \$25,000 more than the House allowance. It is the committee's belief that the work of the Commission is sufficient to require the full amount of the request.

TITLE III—VIRGIN ISLANDS CORPORATION

CONTRIBUTIONS

CONTRIBUTIONS	
Budget estimate, 1962	669,000
House allowanceCommittee recommendation	(1)

¹ To be derived by transfer from internal revenue collections appropriated to the Virgin Island government.

The committee agrees with the House that the sum of the internal revenue collections in the Virgin Islands which are matched by the U.S. Government is adequate to meet the operating losses of the Virgin Islands Corporation. It is the committee's hope that officials of the Virgin Islands government and the Virgin Islands Corporation will be able to work out a satisfactory agreement whereby the government can underwrite the losses of the Corporation.

REVOLVING FUND

Appropriation, 1961	\$2, 538, 000
Budget estimate, 1962	881, 000
House allowance	881, 000
Committee recommendation	881, 000

The committee recommends the full budget estimate of \$881,000, the same as allowed by the House.

LIMITATION ON ADMINISTRATIVE EXPENSES

Appropriation, 1961	\$172,000
Budget estimate, 1962	180, 000
House allowance	180,000
Committee recommendation	180, 000

The committee concurs with the House in authorizing the use of \$180,000 of corporate funds for administrative expenses during fiscal year 1962, as recommended by the Virgin Islands Corporation.
