# GENERAL STATEMENT

#### SENATE BILL REPORTED

The Committee has reported the District of Columbia appropriations bill for fiscal year 1989 as S. 2562. This action has been taken in the absence of final House of Representatives consideration of H.R. 4776, the House version of the District of Columbia appropriations bill.

The report that follows reflects action by the House as of June 9, 1988, the date on which the Committee on Appropriations of the House of Representatives reported H.R. 4776. All references to House action in the following report should be interpreted with reference to that date.

#### DISTRICT RESIDENCY REQUIREMENTS FOR EMPLOYMENT

The Committee remains concerned about continued application of the District's residency requirement for employment with the city government. Several key positions have already been exempted from the requirement due to difficulty in attracting qualified individuals. It also appears that additional positions will be exempted from the law in order to employ necessary personnel. The Committee has heard diametrically opposing views on the effects of the current residency requirement during its hearings.

The Committee is sensitive to the principle of home rule. At the same time, the Committee is mindful of the unique relationship that exists between the Federal and District governments and jurisdictions in

the Washington metropolitan region.

As a result, the Committee has not chosen to take the step of including bill language which prohibits the District from enforcing the residency requirement. The Committee notes that the D.C. government, at the direction of the Mayor, has undertaken a new study on the feasibility of implementing residency preference system of hiring and believes this is a step in the right direction.

At the same time, the Committee has heard considerable discussion about the benefits of a residency preference system instead of a residency requirement. Further, the Committee believes that a preference system designed by the District would be better able to meet the District's need for qualified personnel. Such a system would still ensure that city residents would get a preference over noncity residents for District government positions. The Committee has received testimony that the District will, in the near future, be hiring large numbers of teachers and public safety officers. These needs and others will put an extra burden on the current system.

If by May 1, 1989, the District government has not adopted its own preference system that does not preclude the hiring of noncity residents, the Committee intends to include language in its fiscal year 1990 appropriations bill prohibiting the continued enforcement of the residency requirement and replacing it with a preference system developed by the Committee. In the interim, the Committee urges the District not to dismiss any employees for failure to comply with the current residency requirement.

#### AMBULANCES

The Committee is aware of the reported inadvertant inclusion in the District of Columbia budget documents of a request to reduce the number of ambulances on duty during so-called nonpeak periods from 22 to 16. This was included despite a directive by the District Council which stated: "The Committee directs the (Ambulance) Division to maintain at least 22 ambulances in service at all times."

The Mayor has indicated that an error was made in the budget documents and a revised budget for the Fire Department has been submitted to the Committee deleting the reference to nonpeak hours. This Committee concurs with the council and with the revised budget that the number of ambulances in service at all times not be reduce below 22.

#### NEW PRISON

The bill includes language that requires that certain steps be taken to mitigate the impact of the proposed new prison in Southeast Washington on its neighborhood. The bill requires:

One, that construction traffic and parking be limited to the rear of

the site in an area away from the neighborhood streets.

Two, that when the facility opens, parking for staff will be provided at Robert F. Kennedy Stadium or other remote location away from neighborhood streets.

Three, that the Mayor take steps to ensure that a portion of the old

jail site be used for a small neighborhood shopping center.

Four, that city officials meet reguarly with neighborhood residents, at

least monthly, to discuss plans and problems.

Five, that the District establish a 24-hour telephone hotline that residents may call to obtain timely and accurate information during disturbances at the facility.

In addition, the Committee directs that the District take other measures that will mitigate the impact on the neighborhood. Further, the Committee directs that parking and building code regulations, particularly relating to hours of permitted construction, be strictly enforced.

# TOTAL RESOURCES

Based on recommendations in this bill, it is estimated that a total of \$4,049,840,000 and 47,633 positions will be available to the District of Columbia during the next fiscal year. Included in this figure are appropriations from District funds recommended in the bill, Federal grants, and other grants and reimbursements. The financing of appropriations from District funds is from the Federal payment, and revenues accruing from various local taxes, fees, charges, and other collections.

The recommendations included in the bill total \$3,216,916,000 and 41,669 positions from all District of Columbia funds in fiscal year 1989.

The following summary describes the total resources by appropriation title:

#### COUNCIL OF THE DISTRICT OF COLUMBIA

The Committee recommends \$8,067,000 and 172 positions for the Council of the District of Columbia. This is an increase of \$553,000 and one position over the fiscal year 1988 budget.

The Council exercises its legislative responsibilities through 10 standing committees. Proposed legislation is referred to an appropriate committee where all data collection, hearings, analysis and other related activities are conducted.

The increased funding is for the estimated cost of the fiscal year 1988 and fiscal year 1989 pay adjustments and an administrative assistant position to meet the increased workload requirements in the Office of the General Counsel. Also reflected is a transfer-in of ceremonial funds from the Office of the Secretary.

#### DISTRICT OF COLUMBIA AUDITOR

The Committee recommends the requested appropriation for fiscal year 1989 of \$784,000 and 18 positions. This is \$95,000 above and the same number of positions appropriated for fiscal year 1988. This appropriated request will maintain the current level of service. The D.C. Auditor is required to audit the accounts and operations of the D.C. government annually and certify revenue assumptions underlying budgetary and financial actions.

#### ADVISORY NEIGHBORHOOD COMMISSIONS

The amount recommended for fiscal year 1989 is \$1,172,000. The commissions have the responsibility for advising the District government on matters of public policy and issues as planning, transportation, social services, health, safety, and sanitation, especially as they relate to their respective Neighborhood Commission areas. The 37 chartered ANC's, which are made up of 323 single-member districts, serve as a liaison between the District government and the community. The increased funding is to meet the inflationary operating cost of the advisory neighborhood commissions.

#### OFFICE OF THE MAYOR

The amount recommended for the Office of the Mayor is \$1,837,000 and 31 positions, an increase of \$149,000 and 1 position over the fiscal year 1988 level.

The Mayor, as chief executive officer of the D.C. government, has overall responsibility for the implementation of programs and the administration of District agencies. The Mayor interacts with State, national and international representatives of both government and private sector businesses.

The fiscal year 1989 budget request for the Office of the Mayor maintains the current level of services. Increased funds are recommended for the estimated cost of the fiscal year 1988 and fiscal year 1989 pay adjustments. Funding for an administrative officer position

has been transferred-in to the Office of the Mayor from the Office of Intergovernmental Relations for the Regional and National Affairs Unit.

#### OFFICE OF THE SECRETARY

The Committee recommends the full budget request of \$2,233,000 and 31 positions for fiscal year 1989. This is an increase of \$198,000

and one position above the fiscal year 1988 budget level.

The Office of the Secretary serves as the administrative and logistical staff support to the Mayor and the immediate executive offices of the Mayor. The Office of the Secretary consists of two main entities, the Secretarial and the Archival and Records Management Unit.

### OFFICE OF THE INSPECTOR GENERAL

The sum of \$1,576,000 and 27 positions is recommended for the inspector general. This is an increase of \$188,000 over the fiscal year 1988 budget. The Office of the Inspector General is reponsible for the prevention and detection of fraud, abuse, waste, and mismanagement in

the programs and operations of the D.C. government.

The fiscal year 1989 recommendation maintains the current level of services. Increased funding is recommended for the fiscal 1988 and fiscal year 1989 pay adjustments. Also, rental funds for the agency which is located in the multileased facility at 415 12th Street, NW., and the Ombudsman Office located at 918 16th Street, NW., have been transferred-in from the Department of Administrative Services to reflect the total cost of the agency's operation.

#### OFFICE OF COMMUNICATIONS

The Committee recommends the sum of \$629,000 and 11 positions for the fiscal year 1989 budget. This amount is an increase of \$97,000 over fiscal year 1988 with no change in positions.

The Office of Communications has the responsibility of coordinating and disseminating official information to the news media and the

public.

The fiscal year 1989 recommendation will enhance the quality and flow of information to the public and the executive offices, departments, and agencies.

#### OFFICE OF INTERGOVERNMENTAL RELATIONS

The Committee recommends the full fiscal year 1989 budget request of \$2,470,000 and 37 positions for the Office of Intergovernmental Relations. This amount is an increase of \$389,000 and one position over

the fiscal year 1988 budget.

#### DEPARTMENT OF HUMAN SERVICES

The Committee recommends a total of \$617,319,000 and 5,784 positions, a net increase of \$38,554,000 and 477 positions over the fiscal year 1988 budget. The fiscal year 1989 Federal funds budget is \$354,953,000 and 4,023 positions, a decrease of \$19,063,000 and 97 positions below the fiscal year 1988 level. This reflects a decrease in the federal subsidy (Public Law 98–621) and a loss in Federal training funds for mental health. The private and other funds budget is \$8,391,000 and 29 positions, an increase of \$2,845,000 over fiscal year 1988 and no change in the number of positions.

The recommendation includes \$500,000 to continue Project Volta, a project of early identification and intervention of hearing impaired children in the District of Columbia. Project Volta is a joint project of the District and the Alexander Graham Bell Association for the Deaf. The funds provided will be matched by a like amount to be raised from

private sources, and together with \$990,000 previously appropriated, will insure the long-term viability of the program. The Committee directs that the full \$990,000 remain available to the project under the funding

agreement between the District and the association.

Project Volta responds to a nation's most widespread communicative disorder, hearing loss. This handicap affects over 1 million children. Recent studies have suggested that a great deal of hearing impairment is both preventable and treatable. Research has identified several factors which, if implemented, could lead to successful efforts to overcome this handicap. Factors such as early detection; early intervention using modern technology; early implementation of education programs for parents and children; and, consistant application of developmental and educational programs for hearing-impaired children throughout their early years. In addition research has demonstrated that the factors that contribute to infant deafness are those that most often affect low-income minority populations. Project Volta will augment its early identification and intervention efforts with a community outreach program, including exposing educators and physicians to new educational and medical techniques available to support hearing impaired children.

The recommendation includes \$264,000 to continue a 3-year pilot project begun in fiscal year 1988 that provides housing and supportive services to enable mentally disabled mothers to live with their infants.

The recommended amount will enable the department to place 250 families and 150 single adults in transitional housing units; provide 50 units of first phase emergency shelter for families referred by the intake unit; provide 40 units of specialized transitional housing for handicapped and disabled individuals; provide 10 units of emergency housing for pregnant women or mothers with infants and 10 units of emergency shelter for battered women; continue providing health and social services at family shelters and in transitional apartments; and convert scattered site shelters to contracts.

Funding is recommended to annualize the fiscal year 1988 child day care rate increase and fund 232 new day care slots for infants and preschoolers in center-based care and family day care; and annualize the hourly increase in the salary level of homemaker and chore aids.

Additional funds will also help to expand the Drug Prevention, Education, and Information program; provide stipends to drug treatment applicants; expand the therapeutic assistance program; continue providing substance abuse treatment services at D.C. General Hospital; fully staff the multimodality drug treatment clinic; and expand surveillance, outreach, and treatment services to AIDS victims.

The Committee is aware of the District's efforts with regard to implementation of reorganization plan No. 3 of 1986; final mental health system implementation plan, and deinstitutionalization of St. Elizabeths Hospital. The Committee intends that the District follow all applicable requirements and laws in establishing facilities to meet the mental health needs of District residents.

## DEPARTMENT OF RECREATION

The sum of \$34,900,000 and 608 positions are recommended for the department's activities during fiscal year 1989. The department develops and provides a comprehensive recreation program for all residents of the District from preschoolers to senior citizens.

The Committee's recommendation will enable the department to maintain its high level of services and expand its program efforts. One program increase is for the Youth Assistance Administration. This administration will continue its objectives of assisting those youth, ages 9 to 21, at risk of becoming drug abusers, juvenile delinquents and teenage parents. Special emphasis will be placed on those youth in public housing developments. Other program increases include funding for the Roving Leader Program to assist in preventing, neutralizing and controlling hostile and aggressive behavior in youth between the ages 9 and 17, and the CINEMA Program to assist youth in understanding the dangers associated with drug abuse, teenage sex promiscuity, and AIDS.

Additional funds are also recommended for recreation centers and playgrounds to provide teen clubs and tutorial programs. Increased funding is also provided for the increased cost of energy, communications, and building rent, and the estimated cost of the fiscal years 1988 and 1989 pay adjustments.

#### FINANCING PAY-AS-YOU-GO CAPITAL PROJECTS

The Committee recommends \$950,000 to finance pay-as-you-go capital projects in order to enable the Department of Recreation to make minor and major repairs and renovations to recreation facilities.

# OFFICE ON AGING

The fiscal year 1989 recommendation for the Office on Aging is \$13,699,000 and 20 positions. This amount is an increase of \$1,061,000 over the fiscal year 1988 budget.

The Office on Aging was created to develop a comprehensive system of health and social services for the District's elderly and to administer

the provisions of the Older Americans Act, Public Law 89–73.

The increased appropriation for fiscal year 1989 is to develop and expand essential and life support programs to preserve the elderly's functional independence and to prevent their premature institutionalization. Law 1–134, to insure that any D.C. resident needing medical care and unable to obtain it elsewhere, can be treated and if necessary, admitted to the hospital, and to insure that he will receive efficient, economical, quality hospital care, and services. No District resident will be refused care because he is unable to pay.

## UNEMPLOYMENT COMPENSATION FUND

The sum of \$2,940,000 is recommended for the unemployment compensation fund for fiscal year 1989. This amount is the same as the budget request and the House reported bill. Additional funding is not required in fiscal year 1989, as the number of claimants is projected to remain at 1,600, the same level as in fiscal year 1988 based on the assumptions of continued stability in the District work force and continued moderate economic growth.

## DISABILITY COMPENSATION FUND

The Committee recommends \$17,000,000 for the disability compensation fund for fiscal year 1989. This amount is an increase of \$2,300,000 over fiscal year 1988.

The office reviews, approves, and monitors equal employment opportunities provided by contractors with contracts totaling \$10,000 or more, and the affirmative action plans of all District departments and agencies. The office also has the authority to enforce affirmative action by banks, savings and loans associations, and the cable television industry.

## COMMISSION FOR WOMEN

The Committee recommends a total of \$420,000 and eight positions, an increase of \$146,000 above the fiscal year 1988 budget request. The recommendation will enable the commission to maintain its activities and continue its goal of improving the status of women in the District.

The commission functions are to improve the economic status of women and their families through legislative initiatives; community-based forums; policy dialogs and roundtable discussions; public testimonies; debates; and educational conferences on socioeconomic issues. The commission provides an avenue for women's groups and organizations to coordinate efforts around specific issues important to women's roles in society and initiates and conducts programs to improve the status of women in the District of Columbia.

#### **ENERGY OFFICE**

An appropriation of \$3,653,000 and 11 positions is recommended for the Energy Office in fiscal year 1989.

The Energy Office was established by D.C. Law 3-132, the Energy Act of 1980, to coordinate the energy activities occurring in the District of Columbia. The office prepares energy plans, identifies energy issues, prepares energy supply and demand forecasts, develops energy emergency contingency plans, and participates in various proceedings before the Public Service Commission.

The fiscal year 1989 recommendation includes increased funding for staff support to the Gasoline Station Advisory Board. This board is charged with the responsibility of maintaining the current level of retail and station outlets in the District. Increased funding is also recommended for the estimated cost of the fiscal year 1988 and fiscal year 1989 pay adjustments.

#### DEPARTMENT OF PUBLIC WORKS

The Committee's recommendation is \$106,727,000 and 1,926 positions, an increase of \$5,092,000 above the fiscal year 1988 budget and the same as the budget request and the House reported bill.

The Committee's recommendation will provide program enhancements in three major areas. One is the Residential Parking Permit Program where increased staff and support costs are provided to enhance enforcement through increased patrol in order to further discourage commuters from parking all day on residential streets. Another area involves the centralization of resources in the new Fleet Management Administration which will maintain and operate the vehicle and equipment fleet of most District agencies. In order to provide adequate resources, increased funds are required for maintenance and fuel of the motor fleet.

The third area is underfunded rent costs. The Office of Traffic Adjudication and Public Space Adjudication have moved to a new facility at 65 K St., NW, in order to provide a central location and adequate space, especially for traffic adjudication. In addition, a new facility is being leased to house a new motor vehicle services satellite station in the downtown area in order to make it more convenient for citizens to obtain drivers' permits and register motor vehicles as opposed to waiting in long lines at the municipal center. Increased funds are requested to meet these leased costs.

Other program increases include funding to initiate the Eastern Market renovation project; funding to assess the risks associated with the transport, storage, and use of hazardous materials in the Washington metropolitan region; funding to begin a recycling program; funding to develop a long-range training program to improve the basic skills of blue-collar workers; and funding to continue the highway gateway landscaping and signage beautification program.

Funding is also recommended for the estimated cost of the fiscal years 1988 and 1989 pay adjustments and the increased cost of energy based on projections furnished by the Department of Administrative services. Funds have been transferred-in from the Department of Ad-

ministrative Services for the maintenance of the newly acquired Potomac Building.

# PAY-AS-YOU-GO CAPITAL PROJECTS

The Committee recommends \$4,703,000 for replacement and maintenance of the existing Department of Public Works fleet.

## TAXICAB COMMISSION

The Committee has included \$1,945,000 and 32 positions for the Taxicab Commission, an increase of \$356,000 and 12 positions above the 1988 level. The Committee expects that the new commission will address issues including the frequency of taxicab inspection, age of vehicles used as cabs, condition of heating and air-conditioning systems, and the cleanliness of vehicles. With regard to the last item, the commission should consider a plan that would require taxicabs to be washed and vacuumed every few days. A system of fees or a portion of the fare rate could be used to offset these expenses. The commission should also consider providing for a uniform color code, as is done in other cities, for taxicabs, so that they will be more easily identified. It may also be useful to provide for each taxicab to be radio equipped to provide drivers with greater security and better service to all areas of the District.

The Committee also intends that certain standards be established concerning the drivers. It should be noted at the outset that many taxicab drivers approach their responsibilities in a professional manner and generally perform a valuable service to the residents and visitors to the District. It is important that drivers in the District present an acceptable appearance, be familiar with the taxicab geography of the area, and, while it is useful for some taxicab drivers to be conversant in other languages, they should be able to demonstrate an understanding of English. Drivers should be periodically tested on these points.

The Committee recognizes that taxicab fares will undoubtedly rise as a result of efforts to improve service, however the Committee believes that, as long as increased fares are coupled with better service to all parts of the District, the increases will be accepted.

#### WASHINGTON METROPOLITAN AREA TRANSIT COMMISSION

The Committee recommends the full requested appropriation of \$86,000 for the commission for fiscal year 1989.

The commission administers and carries out the delegated powers of the Washington metropolitan area regulation compact. The compact confers upon the commission jurisdiction over the regulation and improvement of specified transportation within the metropolitan area.

#### WASHINGTON METROPOLITAN AREA TRANSIT AUTHORITY

The sum of \$101,564,000 is recommended for fiscal year 1989. This amount is an increase of \$64,000 over the fiscal year 1988 budget level.

The responsibility of the transit authority includes the planning and construction of a 103-mile Metrorail system, the establishment of recommended fares; and the determination of funding sources for the various programs. During fiscal year 1989 the authority is expected to provide over 284,000,000 Metrorail and Metrobus passenger trips in the Washington metropolitan area.

#### SCHOOL TRANSIT SUBSIDY

The recommended amount for the school transit subsidy is \$3,900,000, a decrease of \$241,000 from fiscal year 1988. This program provides a subsidy for reduced fare transportation of school children who use Metrobus or Metrorail for educationally related transportation.

During fiscal year 1989 the student ridership on Metrobus will continue to decline because more students will be traveling on Metrorail.

# WASHINGTON CONVENTION CENTER FUND

The Committee recommends \$7,274,000 for the Washington Convention Center in fiscal year 1989. This amount is an increase of \$516,000 over fiscal year 1988.

The recommendation of \$7,274,000 will finance the difference between the convention center's estimated fiscal year 1989 operating revenue of \$6,100,000 and its spending needs of \$13,374,000. The primary objective for fiscal year 1989 will be to: (1) increase operating revenue and maximize profits, especially from food service concessions; and (2) to implement a comprehensive maintenance and building improvements program to enable the center to adequately meet the increased client demands.

# REPAYMENT OF LOANS AND INTEREST

The Committee recommends approval of the budget request of \$235,796,000 for fiscal year 1989. This allowance is \$14,891,000 above the 1988 appropriation.

The repayment of loans and interest provides funds for cash outlays for debt service on the District's long-term borrowing to finance capital project expenditures, and a portion of the amortized cost for private hospitals.

# REPAYMENT OF GENERAL FUND DEFICIT

The Committee recommends that a total of \$1,000,000 be budgeted to help reduce the general fund deficit. To date, the District has reduced its accumulated deficit by 47 percent, from \$387,509,000 at the end of fiscal year 1980 to \$204,593,000 at the end of fiscal year 1987. The District has been able to reduce the deficit by adhering to GAAP,

balancing its budget on a modified accrual basis, and managing its finances very closely.

The District has made significant progress in eliminating this deficit in recent years, and this level will continue that progress.

# SHORT-TERM BORROWINGS

The Committee recommends approval of \$4,570,000 for interest on short-term borrowings. These funds will be used to pay interest as well as costs incurred in issuing short-term revenue anticipation notes which will allow the District government to meet its seasonal cash flow needs.

# OPTICAL AND DENTAL BENEFITS

The Committee recommends approval of \$2,569,000 for vision and dental care benefits for nonunion D.C. government employees and their dependents.

# INAUGURAL EXPENSES

The Committee has approved the request of \$2,300,000 for necessary expenses incurred in connection with the Presidential inauguration activities. These expenses are reimbursed through a special Federal payment included earlier under the Federal funds portion of this bill.

# Personal Services Adjustment

The bill includes a reduction of \$2,747,000 to the personal services object class 11, 12, 13, and 14, as requested.

# ENERGY ADJUSTMENTS

The bill includes a reduction of \$2,070,000 to the energy object class 30a, as requested.

# CAPITAL OUTLAY

The total request of \$172,536,000 is recommended for the city's fiscal year 1989 Capital Improvements Program. This allowance includes \$148,336,000 and 54 projects to be funded from the general fund and \$24,200,000 and 6 projects from the water and sewer enterprise fund.

A brief explanation of the Committee's recommendations for projects financed from the general fund is provided starting below. Projects financed by the water and sewer enterprise fund are described under the water and sewer enterprise fund portion of the report. The following tabulation summarizes the amounts requested and recommended by general categories:

# DISTRICT OF COLUMBIA ENTERPRISE FUNDS

The Committee recommends a total of \$209,855,000 for the activities funded through this appropriation. This allowance is \$35,134,000 above the 1988 appropriation, the same as the budget estimate and House reported bill.

The following table summarizes by department and agency the amounts recommended in the bill compared with appropriations for fiscal year 1988, budget estimates for fiscal year 1989, and the House reported bill:

## ENTERPRISE FUNDS

Activity	Appropriation 1988	Budget estimate 1989	. House reported bill	Committee recom- mendation

# DEPARTMENT OF PUBLIC WORKS (WATER AND SEWER UTILITY ADMINISTRATION)

The bill includes \$184,755,000 and 1,287 positions in operating expenses from the water and sewer fund for the Department of Public Works—Utility Administration. This allowance reflects an increase of \$31,971,000 and one position below the 1988 level.

Capital outlay.—The Committee recommends \$24,200,000 for water and sewer replacements throughout the District. This authority will be financed by enterprise fund revenue.

# WASHINGTON AQUEDUCT

The Committee recommends the appropriation of \$16,050,000 and 275 positions for the operations of the Washington Aqueduct which collects, purifies, and pumps potable water for the District of Columbia, Arlington County, and approximately 40 square miles of Fairfax County. The appropriation recommended by the Committee is the same as the budget estimate and House reported bill.

# LOTTERY AND CHARITABLE GAMES CONTROL BOARD

The Committee recommends \$8,050,000 and 124 positions for 1989, which is an increase of \$2,592,000 and 30 positions above the 1988 level.

The lottery and charitable games fund was established in fiscal year 1983 to budget and account for the financial operations of the Lottery and Charitable Games Control Board. The board operates an instant lottery and four on-line numbers games.

# OFFICE OF CABLE TELEVISION

The Committee recommends \$1,000,000 and 13 positions for this office during fiscal year 1989, which is \$750,000 and nine positions above the 1988 level.

The Cable Television Communications Act of 1981 (D.C. Law 4–142) established the cable television enterprise fund to account for the financial operations of the Office of Cable Television according to enterprise fund standards. The Office of Cable Television monitors the installation and operation of the District's cable television system to ensure compliance with cable television laws and agreements.

# GENERAL PROVISIONS

The bill contains various general provisions which are contained annually in appropriations bills. The following summarizes the Committee

recommendations pertaining to these provisions:

The Committee has retained language in section 103 that requires District officials to obligate and expend the full amount appropriated for programs and activities of the Metropolitan Police Department and for repayment of general fund deficit. The Committee expects District officials to comply fully with this language which requires the obligation and expenditure of all funds included in the bill for the general fund deficit and the police department and prohibits any effort to reprogram or redirect the funds for other purposes, regardless of the circumstances.

The Committee has retained language in section 116 prohibiting the use of funds in the bill for publicity or propaganda purposes or implementation of any policy including boycott designed to support or defeat legislation pending before Congress or any State legislature.

Language in section 118 requires an annual plan by quarter and by

project for any capital outlay borrowings.

The Committee has retained language in section 121 prohibiting the use of funds in the bill for implementation of a personnel lottery to hire police and firefighters.

The Committee has included section 123 which prohibits the use of Federal funds for a personal cook, chauffeur, or other personal servants

for D.C. officers or employees.

The Committee has included a general provision, section 138, prohibiting the use of funds provided by this or any other act be used to comdemn, vacate, or raze the Employment Security Building, located at 500 C Street NW., Washington, DC, until December 31, 1989.

According to information provided by the mental health law project, there is a strong preference for keeping families together and, whenever possible, preventing a child's entry into the foster care program, the Committee believes that the pilot project would benefit mentally disabled mothers by contributing both to the mother's growth as well as the child's development.

The organization chosen should have experience in providing residential and supportive services, including psychological and psychosocial services, as well as parenting education and vocational rehabilitation to

mentally disabled people and mother/child pairs.

The program consists of three stages, corresponding to the mother's ability to function independently. The first stage is to include a one-time grant to purchase and renovate housing for 12 mothers with their infants. The first is to be a residential facility with 24-hour residential supervision. The organization will operate the residence for this purpose for at least 10 years after the date of purchase. The second stage consists of supervised apartments, each housing two mothers with their infants, with on-site supervision depending on client need. If the project is successful, a third stage will be added, which is to provide independent apartments, each designed for one mother with her infant.

As stated in Senate Report 100–162, the program will also include an annual payment to be immediately awarded by the Commissioner of Mental Health Services to the nonprofit organization for a period of 3

years.

Each judge subject to this section shall be deemed to consent and agree to such deductions from basic salary, and payment less such deductions shall constitute a full and complete discharge and acquittance of all claims and demands whatsoever for all regular service during the period covered by such payment, except the right to the benefits to which he shall be entitled under this subsection, notwithstanding any law, rule, or regulation affecting the judge's salary.

(b) If he has not previously so deposited, each judge subject to this section shall deposit in the fund, with interest computed in accordance with section 11-1564(d)(2), a sum equal to 3½ per centum of his basic salary received for judicial service performed by him as a judge prior to the date he became subject to the District of Columbia Judges Retirement Act of 1964. Each judge may elect to make such deposits in installments during the continuance of his judicial service in such amounts as may be determined in each instance by the Commissioner [Mayor]. Notwithstanding the failure of any judge to make such deposits, credit shall be allowed for the service rendered but the retirement pay for such judge shall be reduced by 10 per centum of such deposit remaining unpaid unless the judge shall elect to eliminate the service involved for purposes of retirement salary computation, except as provided in section 11-1564(d).

The receipt of the lump-sum credit for retirement by the judge voids all retirement salary rights under this subchapter, until he is reemployed in judicial service subject to this subchapter.

(d) If a judge who has not elected to bring himself within the survivor annuity provisions of this subchapter dies while in regular service, or while receiving retirement salary under this subchapter but before having recouped all contributions, the lump-sum credit for retirement shall be paid, upon the establishment of a valid claim therefor, to the person or persons surviving him in the order of precedence established in section 11–1569(b). (b) The Executive Officer shall be selected by, and subject to removal by, the Joint Committee with the concurrence of the respective chief judges. He shall be selected from a list of at least three qualified persons, submitted by the Director of

If an Executive Officer of the District of Columbia Courts, who has served at least five years as Executive Officer and is at least fifty (50) years of age is removed from office, in accordance with this section, the removal shall be treated for all purposes of retirement as an involuntary retirement of a judge in accordance with sections 11–1526(b) and 11–1564(b).
