JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 3512), making supplemental appropriations for the fiscal year ending September 30, 1981, rescinding certain budget authority, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

TITLE I

CHAPTER I—DEPARTMENT OF AGRICULTURE

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

Amendment No. 1: Appropriates \$13,250,000 for the Animal and Plant Health Inspection Service as proposed by the Senate instead of \$7,000,000 as proposed by the House. The additional funds will be used to meet emergency outbreaks of plant and animal diseases and infestation such as the khapra beetle, the grasshopper and the Mediterranean fruitfly; and to meet a shortfall in brucellosis indemnity funding and to continue whole herd depopulation.

Amendment No. 2: Deletes House language providing that the funds are only for emergency control programs.

AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE

DAIRY AND BEEKEEPER INDEMNITY PROGRAMS

(RESCISSION)

Amendments No. 3 and 4: Defer \$1,500,000 for the Beekeeper Indemnity Program until October 1, 1981, as proposed by the House. The Senate amendment proposed to rescind the \$1,500,000.

FEDERAL CROP INSURANCE CORPORATION

ADMINISTRATIVE AND OPERATING EXPENSES

Amendment No. 5: Appropriates \$28,181,000 for administrative and operating expenses for the Federal Crop Insurance Corporation as proposed by the Senate instead of \$42,181,000 as proposed by the House.

The Federal Crop Insurance Act of 1980 has resulted in the marketing and servicing of Federal Crop Insurance by private brokers and companies, represented by over 10,000 agents. The conferees are concerned over the potential for misrepresentation (either intentional or inadvertant) on the part of agents performing the sale

and servicing of policies, as well as loss adjustment work. The conferees are aware of misunderstandings between insurance salesmen and farmers which have been substantial enough to result in litigation. The conferees direct that the Corporation take appropriate steps to ensure that both the insurance agent and the farmer have a clear understanding of the salesman's limited delegation of authority as an agent of the Federal Government.

SUBSCRIPTION TO CAPITAL STOCK

Amendment No. 6: Deletes House language appropriating \$150,000,000 for subscription to capital stock.

FARMERS HOME ADMINISTRATION

AGRICULTURAL CREDIT INSURANCE FUND

(RESCISSION)

Amendments No. 7 and 8: Restore House language rescinding \$50,000,000 in farm ownership loans.

RURAL DEVELOPMENT INSURANCE FUND

INSURED WATER AND SEWER FACILITY LOANS

Amendment No. 9: Deletes House language deferring \$110,000,000 and rescinding \$50,000,000 for water and sewer facility loans.

ALCOHOL FUEL PRODUCTION FACILITY LOANS

The Department of Agriculture has developed procedures for loan guarantees for alcohol fuel production facilities. Therefore, it is the intent of the conferees that the Department expeditiously implements the program as specified in the House and Senate Reports.

RURAL DEVELOPMENT PLANNING GRANTS

(DEFERRAL)

Amendments No. 10 and 11: Defer \$2,000,000 for rural development planning grants as proposed by the House. The Senate proposed that these funds be rescinded.

RURAL HOUSING SUPERVISORY ASSISTANCE GRANTS

(RESCISSION)

Amendment No. 12: Changes sub-title from "(Deferral)" to "(Rescission)" as proposed by the Senate.

Amendment No. 13: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which rescinds \$500,000 in rural housing supervisory assistance grants. The House language had proposed that these funds be deferred.

RURAL ELECTRIFICATION ADMINISTRATION

RURAL ELECTRIFICATION AND TELEPHONE REVOLVING FUND

Amendment No. 14: Deletes House language deferring \$62,000,000 in electric loans and \$50,000,000 in telephone loans as proposed by the Senate. The conferees agree that these loan funds shall continue to be available for generation and transmission facilities, including loans for distribution cooperatives which involve transmission facilities. Furthermore, the conferees expect that the Rural Electrification Administration will continue to have access to the Federal Financing Bank for loan guarantee borrowers.

SOIL CONSERVATION SERVICE

WATERSHED AND FLOOD PREVENTION OPERATIONS

The Conferees direct that the Soil Conservation Service return immediately to the States all funds which have been withdrawn in the last 60 days for projects, where local taxes have been paid or plans for construction have been completed or bids announced. The Conferees expect to be notified that such action has been taken prior to the reporting of the Agriculture Appropriations Act for fiscal year 1982. Furthermore, the Conferees concur in the Senate report language which directs that the Office of Management and Budget not act as an impediment to the timely authorization of watershed projects and to forward these projects to the Congress at the earliest possible time.

FOOD AND NUTRITION SERVICE

Amendment No. 15: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

CHILD NUTRITION PROGRAMS

For an additional amount for "Child nutrition programs", \$109,875,000: Provided, That this appropriation shall be available only to the extent an official supplemental request is transmitted to the Congress.

FOOD STAMP PROGRAM

For an additional amount for the "Food stamp program", \$1,740,724,000: Provided, That this appropriation shall be available only upon enactment into law of authorizing legislation, but pending the enactment into law of such legislation, funds received from the sale of surplus agricultural commodities shall be available to the extent and in the manner provided in this paragraph: Provided further, That this appropriation shall be subject to any work registration or workfare requirements as may be required by law: Provided further, That of the amounts provided herein, \$536,124,000

shall be available upon certification by the Secretary of Agriculture that the Department of Agriculture is using all regulatory and administrative methods available under law to curtail fraud, waste, error, and abuse in the program: Provided further, That this appropriation shall be available only to the extent an official amended supplemental request is transmitted to the Congress: Provided further, That the funds provided herein shall remain available until September 30, 1981.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

CHILD NUTRITION PROGRAMS

Appropriates \$109,875,000 for the Child Nutrition Programs as proposed by the Senate. The conference agreement provides that this appropriation shall be available only to the extent an official supplemental request is transmitted to the Congress.

FOOD STAMP PROGRAM

Appropriates \$1,740,724,000 for the Food Stamp Program instead of \$1,204,600,000 as proposed by the House and \$1,742,600,000 as proposed by the Senate. This appropriation, together with the previously appropriated \$9,739,276,000, provides a total of \$11,480,000,000 for the Food Stamp Program for 1981. This total amount is equal to the fiscal year 1981 "cap" on the Food Stamp Program contained in pending legislation (S. 1007 and H.R. 3603). The conference agreement provides: (1) that this appropriation shall be available only upon enactment of authorizing legislation, except that pending enactment of such legislation, funds received by the Commodity Credit Corporation from the sale of surplus agricultural commodities shall be available to the extent and in the manner provided in this paragraph; (2) that the appropriation shall be subject to any work registration or workfare requirements as may be required by law; (3) that of the amounts provided, \$536,124,000 shall be available upon certification by the Secretary that all methods available under the law are being used to curtail fraud, waste, error, and abuse; (4) that this appropriation shall be available only to the extent an official amended supplemental request is transmitted to the Congress; and (5) that this appropriation shall remain available until September 30, 1981.

CHAPTER II—DEPARTMENT OF COMMERCE

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

(RESCISSION)

Amendment No. 16: Rescinds \$187,850,000 as proposed by the Senate instead of \$181,350,000 as proposed by the House.

The conferees are agreed that with regard to the projects funded as a result of the Federal Government's "moral commitment" to do so, first priority and consideration will be given those projects listed in House Report No. 97-29, and should any of those projects fail to continue to meet legal and technical requirements for funding, EDA should have the flexibility to:

1. Make such adjustments to the funding levels of individual projects as may be appropriate based on the final review of applications and
2. Fund projects not previously identified on which it is determined that a commitment exists.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

OPERATIONS, RESEARCH, AND FACILITIES

Amendment No. 17: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which prohibits any funds available to the National Oceanic and Atmospheric Administration from being used to either reduce or plan for a reduction in full-time permanent employment of less than 12,580.

The conferees are agreed that the personnel reductions proposed by the Administration for the National Oceanic and Atmospheric Administration would seriously impair the ability of this agency to carry out the responsibilities and programs mandated by the Congress. The conferees have therefore limited the Administration's proposed reduction in force (RIF) to allow for an employment level of not less than 12,580 permanent full-time employees. It is the intent of the conferees that the reduction in the level of the NOAA RIF should not be allocated to other bureaus and agencies within the Department of Commerce or other departments and agencies of the Federal Government. Employment in these other areas of the Department of Commerce or in other departments and agencies of the Government should be maintained at levels consistent with other provisions of this conference agreement.

(RESCISSION)

Amendment No. 18: Rescinds \$23,640,000 instead of \$26,236,000 as proposed by the House and \$22,645,000 as proposed by the Senate. The following table displays the conference agreement on each individual item in the amendment:

The conferees are agreed that Coastal States should not anticipate receiving any Federal funding beyond the funds provided in this Act, and that these funds shall be used to phase-down the grants to States for the period fiscal year 1982-fiscal year 1984.

PROMOTE AND DEVELOP FISHERY PRODUCTS AND RESEARCH PERTAINING TO AMERICAN FISHERIES

(DISAPPROVAL OF DEFERRAL)

Amendment No. 21: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede

The Congress disapproves \$2,500,000 of the proposed deferral D 81-105, relating to Department of Commerce, National Oceanic and Atmospheric Administration, "Promote and Develop Fishery Products and Research Pertaining to American Fisheries", as set forth in the message of April 27, 1981, which was transmitted to the Congress by the President. This disapproval shall be effective upon enactment into law of this Act, and the amount of the proposed deferral disapproved herein shall be made available for obligation.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

FISHERMEN'S GUARANTY FUND

Amendment No. 22: Inserts language proposed by the Senate which permits \$450,000 of the appropriation of \$1,900,000 to be derived from receipts instead of deriving the entire \$1,900,000 from receipts as proposed by the House.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement includes \$2,931,000 to be derived by transfer from the Juvenile Justice program of the "Law enforcement assistance" appropriation. Amendment No. 40: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede

and concur in the amendment of the Senate which appropriates \$8,300,000 to remain available until expended.

The conferees note the significant increase in the number of seizures of American fishing vessels by foreign countries during the last two years. The conferees are concerned that in these instances, the Secretary of State did not exercise his authority under 22 U.S.C. 1975 which permits the withholding of foreign assistance payments, as appropriate, for those countries that seize American fishing vessels and fail or refuse to reimburse the United States Government for payments made to owners of fishing vessels for certain losses sustained by such seizures. If the Secretary withholds such foreign assistance payments, he is required to deposit such amounts in the Fishermen's Protective Fund in accordance with the above section of law. The conferees are agreed that the Secretary should exercise his authority to withhold foreign assistance payments as appropriate with regard to any future seizures of American fishing vessels by foreign countries, so that requirements for payments from the fund will not have to be financed wholly from additional appropriations as has been the case in the past.

INTERNATIONAL COMMUNICATION AGENCY

Special Pay for Aviation Officers.—The Conferees agreed to provide \$55,500,000 in a special account as discussed elsewhere in this report as recommended by the Senate instead of a total of \$50,140,000 in the separate service military personnel accounts as recommended by the House.

Mileage Reimbursement.—The Conferees agreed to provide a total of \$71,100,000 for reimbursement of military personnel undergoing a change of station move at an estimated incremental cost of 13¢ per mile of vehicle operation.

MILITARY PERSONNEL, ARMY

Amendment No. 46: Appropriates \$8,400,000 instead of \$15,400,000 as proposed by the Senate. The agreement on items in conference is as follows:

The Managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The agreement on items in conference is as follows:

[In thousands of dollars]

	Budget estimate	House	Senate	Conference

In lieu of the matter proposed by said amendment, insert:

SPECIAL PAY FOR AVIATION OFFICERS

For the payment of special pay under section 301b of title 37, United States Code, \$55,500,000, to be transferred to the various military personnel accounts.

The Managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Pending transfer to the proper appropriations, the Conferees agreed to provide \$55,500,000 in a special account as recommended by the Senate instead of a total of \$50,140,000 in the separate service military personnel accounts as recommended by the House. The Conferees agreed that DOD should submit a prior approval reprogramming request to the House and Senate Appropriations Committees outlining which aviators DOD plans to include in the bonus program and the amounts to be transferred to the military personnel appropriation of each service. The Conferees agreed that no bonuses are to be paid directly from the special account.

OPERATION AND MAINTENANCE

The supplemental request was developed with the assumption of an 8 percent inflation rate for non-stock funded Operation and Maintenance purchases in fiscal year 1981. The conferees have agreed that the estimating assumptions are unrealistically low and consequently, have added funds to provide for a rate of inflation of approximately 10 percent. The conferees direct the Department of Defense to seek the prior approval of the Appropriations Committees for the expenditure and allocation of the additional inflation

funds within each appropriation. The Department shall provide a detailed plan for the use of the funds to the Appropriations Committees by July 15, 1981.

The following tables provide a summary of the agreements reached by the conferees on the Operation and Maintenance Appropriations in conference.

VIPER

While approving \$15,000,000 procurement funding for VIPER, the Conferees are concerned that the Army may make a production decision that is premature and unjustified. Despite the technical and cost problems that have plagued VIPER through development, the Army now proposes to decrease the number of weapons fired in Operational Testing II and to shorten the testing and analysis time. The Conferees agree that before a production decision is made, the correction of all significant technical problems should be demonstrated by testing. Furthermore, a rigorous analysis should be made of the cost-benefit of VIPER. The Conferees further direct the Army to secure the prior approval of the House and Senate Committees on Appropriations before signing a production contract. The Army should be able to support its conclusion that testing and analysis demonstrate the VIPER system to perform according to specification and to be cost effective.

OTHER PROCUREMENT, ARMY

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

BATTLESHIP REACTIVATION

In agreeing to appropriate \$89,000,000 for reactivating the battleship *New Jersey*, the conferees note the Secretary of the Navy has publicly stated the Navy will "commit to a reactivation/modernization of *New Jersey* in a West Coast Shipyard for a top price of \$326M SCN/\$3M R&D". The conferees will expect the Navy to honor this \$329,000,000 ceiling for all appropriations for phase I improvements as outlined in testimony; and if the Navy is not certain the work can be performed for this amount, the *New Jersey* reactivation project should not proceed.

Amendment No. 80: Appropriates \$113,609,000 instead of \$101,664,000 as proposed by the House and \$211,407,000 as proposed by the Senate.

DDG-X PROGRAM

The conference denies the \$14,298,000 request for the DDG-X. The conferees believe that the Navy must more sufficiently define the engineering goals and performance specifications for the DDG-X before funds be appropriated for a new surface ship combatant. The conferees request that the Department of the Navy present a written report to both Appropriations Committees of Congress defining the engineering goals and performance specifications for the DDG-X program similar to that requested by the Senate Armed Services Committee in its fiscal year 1982 Defense Authorization report. Until DDG-X design goals and performance parameters are more sufficiently defined to meet capability requirements, rather than cost constraints, further R. & D. funding for the DDG-X program should be deferred. The denial of the Administration's supplemental request for the DDG-X is made without prejudice for

fiscal year 1982, pending full justification of the DDG-X development effort.

SHIP DEVELOPMENT (ENGINEERING)

The Senate recedes to the House on the elimination of the TAH hospital ship. The conference appropriation for this account includes \$2,000,000 for research and development for the reactivation of the battleship *New Jersey* and \$1,000,000 for research and development for the reactivation of the battleship *Iowa*.

The Managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

Amendment No. 82: Appropriates \$308,976,000 instead of \$285,127,000 as proposed by the House and \$423,706,000 as proposed by the Senate.

The Conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget estimate	House	Senate	Conference

SPACE COMMUNICATIONS

The conferees are in agreement that \$5,021,000 is approved for Space Communications. The funds are to be used to upgrade existing systems and the issue of providing funds for a new satellite system will be addressed in the regular fiscal year 1982 bill.

CHEMICAL/BIOLOGICAL DEFENSE EQUIPMENT (BIGEYE)

The House recommended \$1,870,000 for BIGEYE binary agent bomb development. The Senate recommended no funds. The Senate recessed.

The Committee of Conference has agreed to fund initiatives in chemical weaponry, but remains deeply concerned about the many as yet unanswered questions surrounding this effort. Therefore, the Committee directs the Administration to determine the long-range costs of the chemical warfare modernization program and provide a country-by-country report from our NATO allies with respect to their official views on that long-range program. The information provided to the Committee has been insufficient in this regard.

The Committee also believes it imperative that the Administration provide an overview of the mission-oriented requirements for the various binary weapons, as well as an arms control impact study of such requirements, before further funding is approved.

M-X WATER SURVEYS

The conferees agreed that no funds will be provided in this supplemental appropriation for M-X Water Surveys, and that this denial is without prejudice to consideration of a reprogramming request following submission by the Administration of its report on the M-X basing mode.

LOW ALTITUDE AIRFIELD ATTACK SYSTEM (JP-233)

The conferees agreed to provide \$25,400,000 only to pay termination costs of the cancelled JP-233 system. These funds are not to be used for continuation of the program.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE AGENCIES

Amendment No. 83: Appropriates \$44,346,000 instead of \$30,763,000 as proposed by the House and \$74,958,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

LONG HAUL COMMUNICATIONS

The conferees deny this request without prejudice, and agree that the examination of the fiscal year 1982 budget will include a

thorough review of the justification and projected costs of this program.

GENERAL PROVISIONS

Amendment No. 84: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken by said amendment, insert:

None of the funds appropriated to the Department of Defense for fiscal year 1981 and hereafter shall be available for obligation to reimburse a contractor for the cost of commercial insurance (other than insurance normally maintained by the contractor in connection with the general conduct of his business) that would protect against the costs of the contractor for correction of the contractor's own defects in materials or workmanship incident to the normal course of construction (those defects in materials or workmanship which do not constitute a fortuitous or casualty loss).

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees adopted language which will preclude the funds appropriated from being available to reimburse defense contractors for the cost of commercial insurance which would cover the cost of correcting the contractors' own defects in materials and workmanship incident to the normal course of construction.

The denial of premium payments would extend to all contractors' own workmanship and material defects (such as mismanagement, improper or omitted work) except those which were fortuitous or casualty losses. This latter category for which premium payments would not be denied, would be the unforeseeable, out of the ordinary incidents—such as a negligent workman causing an extensive fire, material defects resulting in a catastrophic loss, or other defects which cannot be anticipated in the normal course of construction.

In summary, this language makes clear that the funds appropriated for fiscal year 1981 and hereafter will not be available for the reimbursement of commercial insurance premiums for contractor workmanship and material defects which management would be expected to avoid.

Amendment No. 85: Deletes House language relating to the inflation factor used for the military and other governmental activities.

Both the House and Senate Committees on Appropriations have requested data from the Department with regard to the proposed implementation of Public Law 96-368. The conferees agree with the Senate report language directing that the Department not proceed beyond its planning activities until this information has been provided and considered by the Committees on Appropriations in connection with the fiscal year 1982 appropriation request.

OPERATING EXPENSES
GENERAL SCIENCE AND RESEARCH ACTIVITIES
(DEFERRAL)

Amendment No. 88: Restores matter proposed by the House and stricken by the Senate to defer obligation of \$5,000,000 from Operating Expenses, General Science and Research Activities until October 1, 1981. The conferees agree that the deferral of funds should be made against lowest priority funding requirements so as to minimize any programmatic impact.

OPERATING EXPENSES
ATOMIC ENERGY DEFENSE ACTIVITIES

The conferees agree that \$10,000,000 of the \$41,000,000 supplemental appropriation shall be available for the Special Isotopes Separations program.

(DISAPPROVAL OF DEFERRAL)

Amendment No. 89: Restores matter proposed by the House and stricken by the Senate to disapprove the proposed deferral of \$10,000,000 from Operating Expenses, Atomic Energy Defense Activities, set forth in D81-29A submitted March 10, 1981. The conferees agree that the proposed redirection of the inertial confinement fusion program will be further considered in connection with the fiscal year 1982 bill.

PLANT AND CAPITAL EQUIPMENT
ENERGY SUPPLY, RESEARCH AND DEVELOPMENT ACTIVITIES
(RESCISSION AND DEFERRAL)

Amendment No. 90: Restores language in heading stricken by the Senate.

Amendment No. 91: Rescinds \$2,500,000 from Plant and Capital Equipment, Energy Supply, Research and Development Activities as proposed by the House instead of \$16,100,000 as proposed by the Senate.

Amendment No. 92: Defers obligation of \$36,647,000 from Plant and Capital Equipment, Energy Supply, Research and Development Activities until October 1, 1981, as proposed by the House instead of \$1,367,000 as proposed by the Senate.

The conferees agree that the fiscal year 1982 funding levels for the individual projects included in this account will be considered further in connection with action on the fiscal year 1982 appropriation bill.

GEOTHERMAL RESOURCES DEVELOPMENT FUND

GEOTHERMAL LOAN GUARANTEE AND INTEREST ASSISTANCE PROGRAM

(RESCISSION AND DEFERRAL)

The conferees agree with Senate report language regarding the rescission of funds from the loan guarantee reserve and the authority to guarantee loans.

NUCLEAR REGULATORY COMMISSION

SALARIES AND EXPENSES

(RESCISSION)

Amendment No. 96: Restores language proposed by the House and stricken by the Senate amended to rescind \$5,000,000 from the Nuclear Regulatory Commission instead of \$10,000,000 as proposed by the House. The conferees direct the Commissioners to eliminate all unnecessary travel and agree that travel by Commissioners for emergencies, to visit facilities currently licensed or under consideration for license or permit, laboratories engaged in NRC research and NRC regional offices is permissible under the terms of the rescission. No funds are provided for official entertainment activities without approval of the Committees on Appropriations. Because the Commission has taken steps on its own initiative to reallocate staff to licensing activities, a total of 25 additional positions shall be allocated, as the Chairman determines appropriate, to NRR and the Executive Legal Director. The Commission's personnel ceiling for fiscal year 1981 is 3,300. No funds are to be used for public hearings on the "safety goal", but previously planned safety goal workshops may continue. The Committees agree to review progress made by the Commission in licensing during review of the fiscal year 1982 budget.

The conferees agree that the remaining funds for the proposed coal gasification project may be available only for detailed design and other activities, while the Synthetic Fuels Corporation evaluates a proposal submitted for the project.

Further, the conferees understand and are in agreement that no additional funds will be appropriated for the project, including termination and close-out costs.

(RESCISSION)

Amendment No. 108: Middle East Special Requirements Fund and Security Supporting Assistance (Syria): Deletes a rescission of \$25,000,000 as proposed by the House.

The Managers on the part of the House and Senate insist that no additional funds for Syria will be disbursed during the remainder of fiscal year 1981 and that the issue of the remaining undisbursed funds in the Syrian "pipeline" should be resolved in the fiscal year 1982 authorization and appropriation process.

DEPARTMENT OF STATE

INTERNATIONAL NARCOTICS CONTROL

(RESCISSION)

Amendment No. 109: Rescinds \$12,785,000 instead of \$2,600,000 as proposed by the House and \$13,285,000 as proposed by the Senate.

EXPORT-IMPORT BANK OF THE UNITED STATES

CHAPTER VI—DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

HOUSING PROGRAMS

(RESCISSION AND DEFERRAL)

Amendment No. 111: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Of the amounts of additional contract authority provided under this head in the Department of Housing and Urban Development—Independent Agencies Appropriation Act, 1981, as authorized by section 5 of the United States Housing Act of 1937, \$30,611,609 for existing units under section 8, including section 8(j), of such Act, \$197,102,148 for newly constructed and substantially rehabilitated units assisted under such Act, and \$5,219,104,150 of budget authority, are rescinded.

(DEFERRAL)

Of the amounts of additional contract authority provided under this head in the Department of Housing and Urban Development—Independent Agencies Appropriation Act, 1981, as authorized by section 5 of the United States Housing Act of 1937, \$15,000,000 for modernization of existing low-income housing projects and \$300,000,000 of budget authority shall be withheld from obligation until October 1, 1981.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees stress that the reduction in the 1981 Indian housing program in no way reflects a retreat from a commitment to provide adequate levels of subsidized Indian housing.

SOLAR ENERGY AND ENERGY CONSERVATION BANK

(RESCISSION)

Amendment No. 112: Rescinds \$121,000,000 from assistance for solar and conservation improvements as proposed by the Senate, instead of \$101,000,000 as proposed by the House.

COMMUNITY PLANNING AND DEVELOPMENT

(RESCISSION)

Amendment No. 113: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

COMPREHENSIVE PLANNING GRANTS

(RESCISSION)

Any amount not reserved from appropriations provided under this head in the Department of Housing and Urban Development—Independent Agencies Appropriation Acts, 1981 and prior years, including any amounts becoming available from cancellation of prior year reservations, but excluding \$19,000,000, are rescinded.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree that the \$19,000,000 made available for comprehensive planning grants includes \$2,000,000 to be used only for the work study program. The conferees further agree that the \$19,000,000 shall be made available only to metropolitan and non-metropolitan areawide planning organizations.

The Senate report indicated that no funding has been requested for the comprehensive planning grants program for 1982 and that 1981 is expected to be the program's final year. The Committee of Conference emphasizes that it expects no funding will be provided for the comprehensive planning grants program after 1981. The conferees' recommendation will allow areawide planning organizations to transition to other funding sources.

NEIGHBORHOODS, VOLUNTARY ASSOCIATIONS AND CONSUMER PROTECTION

(RESCISSION)

Amendment No. 114: Restores language proposed by the House and stricken by the Senate amended to rescind \$3,000,000 from housing counseling assistance, instead of \$6,000,000 as proposed by the House.

(RESCISSION)

Amendment No. 115: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate making available \$501,500 from the Secretary's Discretionary Fund for the balance of grant commitments to nine neighborhood self-help development projects.

INDEPENDENT AGENCIES

ENVIRONMENTAL PROTECTION AGENCY

(RESCISSION)

Amendment No. 116: Rescinds \$499,300 from research and development, instead of \$849,300 as proposed by the House and \$149,300 as proposed by the Senate.

The conferees are concerned that the total Federal radiation research effort is in disarray. Many departments and agencies have inadequately defined and partially overlapping radiation research responsibilities. The Administration is urged to review current assignments and recommend alternatives with the objective of better coordinated and more effective Federal radiation research.

(RESCISSION)

Amendment No. 117: Rescinds \$4,953,100 from abatement, control and compliance, instead of \$6,371,100 as proposed by the House and \$1,253,100 as proposed by the Senate. The conferees agree that the \$1,418,000 made available above the House recommendation is for resource conservation and recovery technical assistance panels.

(RESCISSION)

Amendment No. 118: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Of the funds appropriated under this head, \$880,000,000 in the Department of Housing and Urban Development-Independent Agencies Appropriation Act, 1980, and \$756,000,000 in the Department of Housing and Urban Development-Independent Agencies Appropriation Act, 1981, are rescinded. The reduction in each appropriation will be distributed among the States according to the allotment formula specified in section 205(c) of Public Law 92-500, as amended by Public Law 95-217. Whenever a State's share of the reduction from an appropriation, as determined by the formula, is greater than its unobligated balance for that appropriation, as determined by the Administrator of the Environmental Protection Agency upon the date of enactment of this Act, the shortfall will be distributed according to the allotment formula among all the States which still have funds remaining from that appropriation. This process of distributing the shortfall will continue until the amount of the reduction has been allocated among the States.

Of the funds appropriated under this head in the Public Works Employment Appropriation Act, 1977, \$64,000,000 are rescinded.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees urge the Environmental Protection Agency, in the use of funds remaining, to place high priority on projects under Federal court order.

FEDERAL EMERGENCY MANAGEMENT AGENCY

(RESCISSION)

Amendment No. 119: Rescinds \$8,000,000 from funds appropriated to the President, disaster relief as proposed by the House, instead of \$20,000,000 as proposed by the Senate.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

(RESCISSION)

Amendment No. 120: Rescinds \$4,500,000 from research and development as proposed by the House, instead of \$37,900,000 as proposed by the Senate.

The conferees agree that NASA may reprogram \$52,000,000 to the space shuttle of the \$60,000,000 proposed for such purpose. The conferees direct that the remaining \$8,000,000 be made available for the following program activities:

International Solar Polar Mission.....	\$3,000,000
Solar Electric Propulsion System.....	533,000,000
Technology Utilization	532,000,000

The conferees have restored \$3,000,000 for the International Solar Polar Mission (ISPM). The European Space Agency (ESA) has invested over \$100,000,000 in this program with the understanding that the United States would provide one of the two spacecrafts. The Administration has now indicated its intent to terminate the development of the U.S. spacecraft and has requested the transfer of \$14,600,000 from the program to the space shuttle.

Various spokesmen for the Administration have expressed different opinions as to the proper course of action relative to terminating work on the U.S. spacecraft. Furthermore, ESA has submitted a proposal to NASA for the development of a second European spacecraft in lieu of a U.S. spacecraft. This ESA proposal would permit many of the originally envisioned mission objectives to be accomplished—but it would eliminate some U.S. instrumentation, including the important coronagraph.

The conferees understand that restoring \$3,000,000 will maintain the viability of a fully instrumented U.S. spacecraft option, including the coronagraph, until a final mission configuration can be determined. Retaining \$3,000,000 for ISPM expresses the support of the conferees to keep open various options for a two-spacecraft mission. However, it is clear that if any option is to succeed, the Administration must make a firm commitment to support that option over the life of the program.

To assist the Administration and Congress in making a decision, the conferees instruct NASA to initiate a review of ISPM, with the National Academy of Sciences, through the procedures established in House Report 96-1476. The conferees expect this review to consider the scientific merits and costs of all of the two spacecraft options. Because of the time criticality of the decision, the conferees

expect to be briefed by the review panel on its recommendations by September 11, 1981.

NATIONAL CONSUMER COOPERATIVE BANK

(RESCISSION)

Amendments No. 121 and 122: Rescinds \$16,990,000 from self-help development and establishes a loan limitation of \$19,700,000 as proposed by the House, instead of \$29,990,000 and \$6,700,000, respectively, as proposed by the Senate.

NATIONAL SCIENCE FOUNDATION

(RESCISSION)

Amendment No. 123: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. Section 9(b) of Public Law 96-355 authorizes \$68,100,000 for construction of the WEB project. It further states that if the Oahe unit is not deauthorized by September 30, 1981, the authorization for appropriations is terminated. This amendment defers the planning and design funds until the conditions of Section 9(b) are met. The

DEPARTMENT OF THE TREASURY

ENERGY SECURITY RESERVE

(RESCISSION)

Amendment No. 179: Rescinds \$250,600,000 for the purposes of subtitle A of Title II of the Energy Security Act as proposed by the Senate. The amendment would not provide a \$30 million loan guarantee reserve for biomass energy projects.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH SERVICES ADMINISTRATION

Amendment No. 182: Appropriates \$120,000 for Indian health services as proposed by the House for the Masters in Public Health program for American Indians and Alaska Natives. The managers are informed that \$1,100,000 is being administratively withheld as a result of not awarding any new scholarships to Indian students in Indian health professions. These funds should either be used for the purpose for which they were appropriated or reported as a rescission or deferral as required by the Impoundment Control Act of 1974.

Amendment No. 183: Deletes language proposed by the Senate providing that (1) medicaid and medicare reimbursement could be used for planning and design of new and replacement facilities and (2) that appropriated funds could be used for lease of 200 units of housing to be constructed near the Chinle Hospital and at Inscription House Health Center. The managers prefer that planning and design funds be provided in the construction account and that fiscal year 1981 reimbursements be used for accreditation and certification. The matter of leasing housing units will be addressed in connection with the fiscal year 1982 bill.

Amendment No. 184: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows: In lieu of the matter stricken by said amendment, insert the following:

For an additional amount for "Indian health facilities," \$2,500,000, to remain available until expended, for site reviews, water investigations, and preliminary engineering and design of sanitation facilities for 2,840 Indian housing units.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The managers are aware that the Department of Housing and Urban Development will not approve housing projects for construction unless a commitment has been made for the provision of sanitation facilities. Because of this, more than 1,700 HUD Indian housing units scheduled for construction this fiscal year will be delayed because the Indian Health Service does not have funds to provide essential sanitation facilities.

In order that these housing projects, as well as housing provided by the Bureau of Indian Affairs and others not be delayed, an additional \$2,500,000 is provided to the Indian Health Service to initiate preliminary engineering design, rights of way and archeological clearances, soil and water source investigations, and other related pre-project planning for 2,840 Indian housing units.

The managers recommend that the housing agencies also request funds for sanitation facilities rather than continuing the existing procedures.

Amendment No. 185: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment

rescinding \$3,916,000 instead of \$8,871,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

(RESCISSION)

Of the funds provided for "Employment and training assistance" for fiscal year 1981 in Public Law 96-536, as amended, \$82,500,000 are rescinded: Provided, That notwithstanding any other provision of law, \$696,000,000 shall be available for the Youth Employment and Training Program authorized under title IV, part A, subpart 3, of the Comprehensive Employment and Training Act: Provided

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees are concerned about the precipitous staffing reductions planned for the Bureau of Apprenticeship and Training during fiscal year 1981. The planned reductions amount to about 20 percent of the Bureau's staff. The conferees believe that this should not take place without Congressional review and therefore direct the Department of Labor to postpone any reductions in the Bureau until the Congress has an opportunity to consider the matter in connection with the fiscal year 1982 appropriation bill. At the same time, the conferees direct that no further offsetting reduction in other Labor Department staff be made in order to maintain Bureau of Apprenticeship and Training staff.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

In view of the tremendous rise in violent crime involving the criminal misuse of firearms and the epidemic level of drug abuse in this country, the Conferees are agreed that the level of employment (including administrative and support personnel) in the U.S. Customs Service and in the Bureau of Alcohol, Tobacco and Firearms, be maintained at the April 30, 1981, level.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Governmental Direction and Support.—The conference action rescinds \$3,665,500 in budget authority as proposed by the Senate. The conferees have not approved the language proposed by the Senate concerning the collection and use of program fees collected from the issuance of debt by the District of Columbia government. The conferees have approved language which will allow for claims and suits not to exceed \$200,000 in total to be paid in the same manner as judgments rendered against the District of Columbia government. The settlement of these claims is authorized under D.C. Code 1-904, and involve property damage in excess of \$1,500 and personal injury in excess of \$5,000, but not to exceed \$10,000 in either category.

Economic Development and Regulation.—The conference action rescinds \$40,500 instead of appropriating \$19,400 including an increase of \$3,527,300 in new authority and a reduction of \$3,507,900 in current authority as proposed by the Senate. This action by the conferees reflects approval of \$136,400 in new budget authority for the Public Service Commission instead of \$196,300 as proposed by the Senate.

Public Safety and Justice.—The conference action appropriates \$3,394,000 instead of \$2,919,400 including an increase of \$3,874,900 in new authority and a reduction of \$955,500 in current authority

as proposed by the Senate. The conferees were concerned about the possible shortfall in juror fees, witness fees and indigent defense funds in the criminal justice system of the District of Columbia courts which could have resulted in a cessation of criminal trials in the District during the remainder of the fiscal year. Accordingly, the conferees have included an additional \$474,600 for the courts to insure that jury trials will be continued throughout the balance of fiscal year 1981. This increase will provide an additional \$236,800 for witness and juror fees and an additional \$237,800 for the Criminal Justice Act Program. This action by the conferees coupled with reprogramming requests presently being considered by District officials will provide the District of Columbia Courts with their full supplemental budget request of \$436,800 for witness and juror fees and \$759,600 for the Criminal Justice Act Program.

METROPOLITAN POLICE DEPARTMENT

The conferees are displeased that District of Columbia officials have not followed the directive of Congress with respect to the Metropolitan Police Department. The Congressional directive was explicitly expressed in the Joint Explanatory Statement of the Committee of Conference (House Report No. 96-1477) that accompanied the regular fiscal year 1981 District of Columbia appropriations bill. Because of the low level of staffing, District officials were directed to move aggressively toward a hiring and training program which would bring the Police Department employment level above that of 3,800 filled sworn police officer positions immediately. Although an additional \$6 million was appropriated for this purpose, District officials have neither complied nor offered a suitable explanation for their non-compliance.

The conferees hereby place District officials on notice that if this critical problem is not resolved at once, future Federal payments to the City will be jeopardized.

Public Education System.—The conference action appropriates \$2,970,000 instead of \$2,662,700 as proposed by the Senate, and allocates \$1,100,000 to the District of Columbia Public Schools and \$1,870,000 to the School Transit Subsidy. The conferees have also approved rescissions of \$298,800 in the Public Library, \$5,000 in the Commission on the Arts and Humanities, and \$3,500 in the Educational Institution Licensure Commission.

Human Support Services.—The conference action provides \$20,754,100 instead of \$20,922,000 including an increase of \$7,300,000 in new authority and an increase of \$13,622,000 in current authority as proposed by the Senate. This action by the conferees will provide a total of \$3,632,100 for the unemployment compensation program, instead of \$3,800,000 as proposed by the Senate. The conferees have also approved language providing that \$3,500,000 for the disability compensation program should remain available until expended as proposed by the Senate. A total of \$13,622,000 is provided for the Department of Human Services instead of \$17,436,000 as proposed by the Senate.

Transportation Services and Assistance.—The conference action rescinds \$3,031,600 instead of \$2,724,900 including an increase of \$4,432,100 in new authority and a reduction of \$7,157,000 in current authority as proposed by the Senate. This action by the confer-

ees will provide a total of \$4,125,400 to cover electricity costs for streetlighting in accordance with a court judgment against the District of Columbia government and to cover other utility costs under the Department of Transportation.

Environmental Services and Supply.—The conference action rescinds \$121,600 of budget authority available to the Department of Environmental Services as proposed by the Senate.

Water and Sewer Enterprise Fund.—The conference action appropriates \$3,017,800 to cover debt service requirements and sludge disposal costs under the Department of Environmental Services as proposed by the Senate.

Washington Convention Center Enterprise Fund.—The conference action provides \$382,600 to establish the Washington Convention Center Enterprise Fund as proposed by the Senate.

Capital Outlay.—The conferees have agreed to provide \$696,000 to increase the capacity of storm sewers to eliminate the periodic flooding of basements and backyards which residents in the areas of Kearney and Jackson Streets, N.E. experience during heavy rainfalls.
