

ADDITIONS AND CORRECTIONS FOR ATOLL RESEARCH BULLETIN 250

Below we list the many additions and a few corrections that have been compiled during the 14 months from completion of the MS to publication in November (not July) 1981.

Charles L. Hogue and Scott E. Miller, December 1981.

NUMBER

- Collembola: add Lepidocyrtus sp.
 1 should be Meinertellidae not Machilidae
 28-29 Mallophaga: add Pectinopygus annulatus (Piaget);
Austromenopon transversum (Denny); Quadriceps punctatus
 (Burmeister); Saemundssonina lari (O. Fabr.)
 34 Ozophora cocosensis Slater
 36 Dogbertus sp.
 37 Chlamudatus sp.
 38 near Diaphnocoris spp.
 44-47 Coelidiinae undetermined; Penestrangania confusa or
 near; P. (?) sp.; Typhlocybinae undetermined;
Typhlocybella minima Baker; Empoasca spp.; E. fabalis
 DeLong or near; Xestocephalus desertorum (Berg);
Balcultha sp.; Planicephalus flavicosta (Stal)
 70 Chrysoperla externa n. ssp. Adams in ms.
 131 Spodoptera frugiperda (Smith) and S. androgea (Stoll), not
dolichos (Fabricius).
 133 Mocis disseverans (Walker) and M. latipes (Guenée).
 134 Noctuidae add Anicla infecta (Oschsenheimer); Anticarsia
gemmatialis Hübner; Metalectra praecisalis Hübner;
Platysenta mobilis (Walker); Pseudoplusia includens (Walker);
Stictoptera clara (Cramer); Syllectra congemmalis Hübner
 144 specimen has been located
 146 proper spelling is Canacidae
 172-173 Hippelates n. sp. near collusor
 -- Rhopalopterum sp. new? nr. limitatum. Under study by Sabrosky
 -- Add Hippoboscidae: Olfersia aenescens Thomson and O.
fossulata Macquart

- 194 Poecilominettia n. sp. near breviplumata. Under study by Mathis.
- Add Syrphidae: Toxomerus new species. Under study by Thompson.
- 215 Gonomyia (Lipophleps) puer Alexander and G. (Paralipophleps) pleuralis (Williston)
- 216 Helius brunneus Byers
- 217 Limonia (Caenoglochina) paniculata Byers
- 218 L. (Geranomyia) cocoensis Alexander
- 219 L. (G.) wigginsii Alexander
- 222 Orimarga (Diotrepha) flavescens Byers
- 223 L. (Rhipidia) domestica (Osten Sacken)
- 224 L. (R.) hoguei Byers
- 263 Cyphon bromelius Klausnitzer
- 284 Neoxantholinus sp.
- Staphylinidae add Carpelimus spp. & Thinusa sp.
- 286 Neomida new species
- 288 Strongylium impressicole Maklin
- Chalcidoidea should be Chalcidae
- Araneidae add Cyclosa turbinata (Walckenaer)
- 312 Corythalia sulphurea (F. Cambridge)
- Stitticus? sp.
- 344 Theridion cocosense Strand (See Levi, 1963)
- 346 En Eucynorta insularis (Banks)
- 347 Au not En
- 352 family should be Paradoxosomatidae; proper name is Asimorpha coarctata (Saussure); it is Ad not En
- 356 Au Otocryptops melanostomus (Newport)

page 20: paragraph 2: delete Bombyliidae, Syrphidae; para.
4: delete myriapods
