Madagascar: a slide show

### ARRIVALS/DEPARTURES

January 17 - Leaving, OLGA LINARES and MARTIN MOYNIHAN for one week to California. They will be visiting the University of California at San Diego.

Arrived, DONALD WALLER, University of Wisconsin on a Smithsonian Visiting Fellowship. Dr. Waller will be working with S. Hubbell on the limb architecture of trees on BCI until February 10.

Arrived, JAMES HOWE, Massachusetts Institute of Technology, for two weeks. Dr. Howe will be continuing his research on the Marsh Darien expedition and the Kuna revolution of 1925.

Arrived, JEROME & CATHERYN HOWARD, for one year. Dr. Howard has a SI Postdoctoral Fellowship to work on effects of quality and recruitment dynamics on host plant fidelity of leafcutting ants.

### PLAN AHEAD

Gloria Maggiori will be taking leave from Feb. 15 - March 15. Any staff member who is planning to travel around that time, should see Gloria, as soon as possible, to make advance arrangements.

### REMINDER

Please remember that changes to the included in the revised STRI directory are due January 24. Please give information to your facility secretary or send to the Director's Office.

### DATA FROM ESP PROGRAM

We have reproduced on the back 1985 rainfall and temperature data for BCI obtained by the Environmental Sciences Program.

### NEW HOLIDAY-NUEVO DIA FERIADO \*\*\*\*\*

El 20 de enero se añadió este año a la lista de feriados oficiales en los Estados Unidos. En esta fecha se conmemora el nacimiento del finado doctor MARTIN LUTHER KING, JR. Las oficinas de STRI permanecerán cerradas.

The 20th of January has been added to the list of U.S. legal holidays in commemoration of the birthday of the late Doctor MARTIN LUTHER KING, JR. STRI offices will be closed.

### OFFICIAL LONG DISTANCE CALLS

In view of the current budgetary situation, we remind you once again to be conscientious when placing official long distance phone calls. Before placing a commercial call, ask the facility secretary or the person placing the call, to try to get the call through Autovon. If this is not possible, please be conservative in your telephone calls, trying to make it as short as possible. Remember to always complete the slip of paper reporting your calls. Your cooperation in following this procedure will be very greatly appreciated.

### POSTDOCTORAL POSITIONS AVAILABLE

Six postdoctoral positions are available in the fall of 1986 for research in estuarine lagoon and nearshore continental shelf waters. Research areas include physical oceanography, macroalgal botany, invertebrate larval biology, zooplankton biology, invertebrate reproduction and development and fish ecology and behavior. Deadline for application is April 1st, 1986. Request information brochure and application packet from:
