

SEMINAR

The luncheon seminar scheduled for Tuesday, October 28, will be given by Rosendo Fraga from the University of California at Santa Barbara. His subject: The Baywinged Cowbird and its Two Parasites.

1987 COMBINED FEDERAL CAMPAIGN

STRI is part of the Panama Canal Area Combined Federal Campaign, and its goal this year is to collect \$1000 through voluntary participation of its employees. The person giving may designate all or part of their contribution to a specific agency, and if they would like their contribution to remain in Panama, there are 9 local agencies receiving funds this year. Brochures will be sent to all facilities with more detailed information.

STRI forma parte de la Campaña Federal Combinada del Area del Canal, y su meta este año es reunir \$1000 con contribuciones de sus empleados. Los contribuyentes pueden designar todo o parte de su contribución a una agencia en especial. Si desean que su contribución se quede en Panamá, hay 9 agencias locales que recibirán fondos este año. Habrá una distribución de folletos con mayor información a todas las instalaciones.

ANNUAL LEAVE REMINDER

STRI employees who expect to have accrued more annual leave than can be carried over into the next year (240 hours) should make arrangements to use the excess soon or risk forfeiting it. Remember that the 1986 federal leave year ends January 3, 1987.

VOLUNTEERS

Lynn Stone is a junior biology student at Western Maryland College, which allots the month of January for independent studies. She is interested in working with any STRI scientist during that time. Her address is PSC BOX 617, APO MIAMI 34002.

Bonnie Stahlman is a biology mayor also interested in volunteering for any type of study. Her telephone: 52-5509.

WEDDING ANNOUNCEMENT

Janie Wulff, STRI postdoctoral fellow, and Kenneth Sweeney were married on October 7 in New Hampshire during Janie's recent visit to the US. Congratulations!

NOTES OF INTEREST

The hawk migration has been a spectacular sight over Panamá City this past week. The species involved include the Broad-Winged Hawk, Swaison's Hawk, Turkey Vulture, Plumbeous Kite, and the Mississippi Kite. Most of these migrants soar and glide instead of flying to minimize the use of their own body fuel.

LIBRARY NEWS

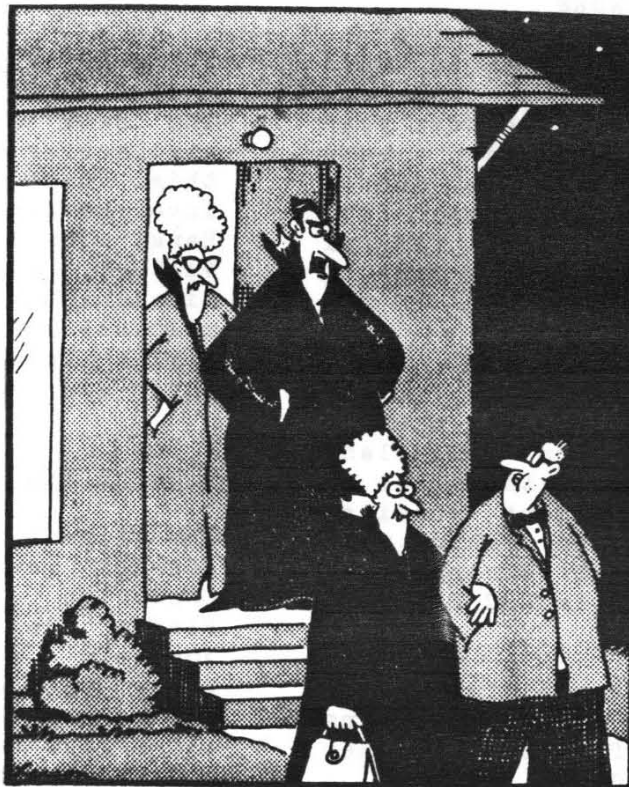

The library is continuing the journal usage survey that was conducted last fiscal year. Please do NOT reshelve the journals used in the stacks. Place them on either the reading tables or book trucks. The librarians need your co-operation to make the survey valid.
