PARADOX RELATIONAL DATABASE PROGRAM

Carl Hansen in the Photo Department has received a trial version of Borland's Paradox Relational Database program for IBM. Borland encourages the sharing of this version of the program. It comes on three disks and has documentation that can be photocopied. If anyone decides they want the full version (version 3.0, regularly \$725), there is a coupon included which entitles the purchaser to one full copy of this program plus full documentation for \$99. Anyone who would like a copy of this trial version of Paradox can send Carl three blank disks and he will copy the program for you.
