

CATALOGUE OF THE BIRDS OF COSTA RICA, INDICATING THOSE SPECIES OF WHICH THE UNITED STATES NATIONAL MUSEUM POSSESSES SPECIMENS FROM THAT COUNTRY.

V.

By JOSÉ C. ZELEDON, of San José, Costa Rica.

PREFACE.

During a short residence in Washington, I have thought it advisable to avail myself of the excellent facilities afforded by the extensive ornithological collections of the United States National Museum, under the Smithsonian Institution, for the preparation of the present catalogue of the birds of Costa Rica, my native country, with a view to correct the several errors contained in a former one which I published at San José, in the Spanish language, in June, 1882, and to add all of the new species described since then, chiefly by Mr. Robert Ridgway, besides several species of adjoining countries which have recently been obtained within our limits by myself and others. It is intended as a preliminary publication of a work of a more extensive nature, on the same subject, which I have in contemplation, embracing descriptions of genera and species, besides notes on habits and geographical distribution.

The descriptions of *Vireolanius verticalis*, *Cyanocorax cucullatus*, and *Cancromia zeledoni* form the subject of special papers to be soon published by Mr. Robert Ridgway, curator of the department of birds of the United States National Museum. To this gentleman I feel under deep obligations for his very kind assistance in the preparation of this publication.

I have made use of some of the many important changes of nomenclature, published as well as unpublished, which we owe to the labors of the active investigator, Mr. Leonhard Stejneger.

On this, as on former occasions, Professor Baird, Secretary of the Smithsonian Institution, has kindly granted me the most free access to the collections. It gives me particular pleasure to acknowledge this fact, and to thank him very cordially.

J. C. Z.

[Species represented in the United States National Museum by Costa Rica specimens are marked with an asterisk (*).]

ORDER PASSERES.

(OSCINES.)

Family TURDIDÆ.

- *1. *Catharus melpomene* (*Cab.*)
- *2. *Catharus frantzii* *Cab.*
- *3. *Catharus gracilirostris* *Salv.*
- *4. *Catharus mexicanus* (*Bonap.*)

- *5. *Catharus fuscater* (*Lafr.*)
- 6. *Hylocichla mustelina* (*Gm.*)
- 7. *Hylocichla fuscescens* (*Steph.*)
- *8. *Hylocichla aliciae* (*Baird*).
- *9. *Hylocichla swainsoni* (*Cab.*)
- 10. *Hylocichla ustulata* (*Nutt.*)

- *11. *Turdus grayi Bonap.*
- *12. *Turdus plebeius Cab.*
- *13. *Turdus nigrescens Cab.*
- *14. *Turdus obsoletus Lawr.*
- *15. *Turdus tristis (Sw.)*
- 16. *Turdus infuscatus (Lafr.)*
- *17. *Myadestes melanops Salv.*

Family MIMIDÆ.

- 18. *Mimus gilvus (Vieill.)*
- *19. *Galeoscoptes carolinensis (Linn.)*

Family CINCLIDÆ.

- +*20. *Cinclus ardesiacus Salv.*

Family SYLVIIDÆ.

- +*21. *Polioptila bilineata (Bonap.)*

Family TROGLODYTIDÆ.

- 22. *Rhodinicichla rosea (Less.)*
- +*23. *Campylorhynchus capistratus (Less.)*
- +*24. *Campylorhynchus zonatus (Less.)*
- +*25. *Cyphorinus lawrencii Sel.*
- +*26. *Microcerulus luscinia Salv.*
- +*27. *Henicorhina leucosticta (Cab.)*
- +*28. *Henicorhina leucophrys (Tschudi)*.
- + 29. *Thryophilus pleurostictus (Sel.)*
- *30. *Thryophilus rufalbus (Lafr.)*
- +*31. *Thryophilus costaricensis Sharpe.*
- *32. *Thryophilus thoracicus (Salv.)*
- +*33. *Thryophilus modestus (Cab.)*
- +*34. *Thryophilus semibadius (Salv.)*
- +*35. *Thryophilus zeledoni Lawr.*
- +*36. *Thryothorus hyperythrus Salv. & God.*
- +*37. *Thryothorus fasciativentris Lafr.*
- +*38. *Thryothorus atrogularis Salv.*

IDENTIFICATION OF THE SPECIES OF CYPRINIDÆ AND CATOSTOMIDÆ, DESCRIBED BY DR. CHARLES GIRARD, IN THE PROCEEDINGS OF THE ACADEMY OF NATURAL SCIENCES OF PHILADELPHIA FOR 1856.

By DAVID S. JORDAN.

In the years from 1851 to 1855 large collections of fresh-water fishes were made in the western parts of the United States by naturalists attached to the United States and Mexican Boundary Commission and to the Pacific Railroad Survey.

The new species in these collections were described by Dr. Charles Girard in different papers in the Proceedings of the Academy of Natural Sciences of Philadelphia, 1853 to 1859, and again in the report of the United States and Mexican Boundary Survey and the United States and Pacific Railroad Explorations, Vol. X, both works being issued in 1859.
