

A Dictionary of Non-Scientific
Names of Freshwater Crayfishes
(Astacoidea and Parastacoidea),
Including Other Words and Phrases
Incorporating Crayfish Names

C.W. HART, JR.

SMITHSONIAN CONTRIBUTIONS TO ANTHROPOLOGY • NUMBER 38

SERIES PUBLICATIONS OF THE SMITHSONIAN INSTITUTION

Emphasis upon publication as a means of "diffusing knowledge" was expressed by the first Secretary of the Smithsonian. In his formal plan for the institution, Joseph Henry outlined a program that included the following statement: "It is proposed to publish a series of reports, giving an account of the new discoveries in science, and of the changes made from year to year in all branches of knowledge." This theme of basic research has been adhered to through the years by thousands of titles issued in series publications under the Smithsonian imprint, commencing with *Smithsonian Contributions to Knowledge* in 1848 and continuing with the following active series:

- Smithsonian Contributions to Anthropology*
- Smithsonian Contributions to Botany*
- Smithsonian Contributions to the Earth Sciences*
- Smithsonian Contributions to the Marine Sciences*
- Smithsonian Contributions to Paleobiology*
- Smithsonian Contributions to Zoology*
- Smithsonian Folklife Studies*
- Smithsonian Studies in Air and Space*
- Smithsonian Studies in History and Technology*

In these series, the Institution publishes small papers and full-scale monographs that report the research and collections of its various museums and bureaux or of professional colleagues in the world of science and scholarship. The publications are distributed by mailing lists to libraries, universities, and similar institutions throughout the world.

Papers or monographs submitted for series publication are received by the Smithsonian Institution Press, subject to its own review for format and style, only through departments of the various Smithsonian museums or bureaux, where the manuscripts are given substantive review. Press requirements for manuscript and art preparation are outlined on the inside back cover.

A B S T R A C T

Hart, C.W., Jr. A Dictionary of Non-Scientific Names of Freshwater Crayfishes (Astacoidea and Parastacoidea), Including Other Words and Phrases Incorporating Crayfish Names. *Smithsonian Contributions to Anthropology*, number 38, 127 pages, 6 figures, 1994.—A dictionary encompassing 1474 non-scientific names (vernacular, common, and fabricated) of freshwater crayfishes, including place-names and slang/argot expressions employing the word "crayfish" or its synonyms. Citations of most source materials are included, as well as examples of uses in literature over time. A Language Index of approximately 100 languages and/or dialects gives access to sources and other data in the word list. A Species Index lists the non-scientific names usually associated with discrete crayfish species.

OFFICIAL PUBLICATION DATE is handstamped in a limited number of initial copies and is recorded in the Institution's annual report, *Smithsonian Year*. SERIES COVER DESIGN: Natives Fishing (or "Treading") for Crayfish. "The method adopted by the Aborigines in South Australia when fishing for freshwater crayfish is as follows: The fisher puts between his teeth an ordinary rush bag, to hold the crayfish, which he first dislodges with his toes and then catches them with his hands, bagging them rapidly." After Worsnop, 1897:96 and plate 48.

C.W. Hart, Jr.

*His ineffable effable
Efanineffable
Deep and inscrutable singular Name.*

T.S. Eliot

Introduction

Douglas Adams, in *The More Than Complete Hitchhiker's Guide*, briefly discussed Macbeth's attitude toward murdering people—"the initial doubts, followed by cautious enthusiasm and then greater and greater alarm at the sheer scale of the undertaking and still no end in sight."

I had a similar progression of feelings about this dictionary, which I innocently started because I have long been troubled by the odd assortment of animals generally referred to as "crayfish." There was an initial feeling of "who cares," followed by a bit of enthusiasm when I discovered others had also compiled lists of crayfish common names (*somebody* cares), followed by an alarm phase when I realized how many names there are and the impossibility of my finding them all.

After the alarm phase, there was panic—when I realized that I was treading on some very unfamiliar ground. Indeed, I, as a zoologist, was deep in a swamp inhabited by alien beings such as ethnobiologists, linguists, and no doubt other things.

C.W. Hart, Jr., Department of Invertebrate Zoology,
National Museum of Natural History, Smithsonian
Institution, Washington, D.C. 20560 •

I soon realized that I would never get out of that swamp as long as I continued with the project, so I decided to proceed and to avoid at least some trouble by defining myself as a naïve lexicographer, *sensu* Samuel Johnson—i.e., "... a harmless drudge...." That, I felt, might lend some frail shelter from my fellow swamp dwellers.

The scientific identities (in the Western sense), the non-scientific names, and the distributions of freshwater crustaceans are important because crayfishes, shrimps, crabs, and other crustaceans sometimes inhabit the same watercourses and are often indiscriminately called "crayfish," "crawfish," or, indeed, hundreds of other vernacular names by the uninitiated. References to "crayfish" where no crayfishes live, to crabs where there are no crabs, and to shrimps where only crayfishes live not only give rise to questions about the validity of observations, but to erroneous conclusions.

This, then, is largely a list of the non-scientific names used locally, worldwide, infrequently, or over a long period of time to refer to the freshwater crayfishes belonging to the superfamilies Astacoidea and the Parastacoidea. Where possible, I have associated those names with the appropriate scientific names, and also pointed out where confusion is possible, rampant, or even intractable. But a dream is usually finer than reality, and so it is with this. I set out simply to find

the vernacular equivalents for "crayfish" in as many languages as possible, and while I believe I have found most, I would be foolish to bet on it.

I have taken what might be considered the narrow view—limiting this to those freshwater crustaceans belonging to the Astacoidea and the Parastacoidea—and hope to encourage the use of other terms for reference to marine and other freshwater species.

In addition, as a *lagniappe*, crayfish vernacular names that are used as verbs are included, as well as argot and slang expressions, and place names associated with crayfishes.

As a zoologist, I bring with me some traditions and emotional baggage that a linguist would probably scorn. But my aims are not linguistic in any formal sense, and follow more the desire for completeness and synonymic integrity that underlie zoological practices.

Almost all of the names have appeared in print (at the moment I can think of only four that I have attributed to individuals), and I have attempted to provide full citations and page data for each name. Where names were listed in publications citing other publications, I have verified as many as possible by going to the original sources. Occasionally I have been unsuccessful in this and have provided the information that was available.

I do not doubt that some will say that "écrevisse" is the same word as "ecrevisse"; that "yaabitch" and "yabbie" and "yabby" and "yappi" are but variations on a theme, and that the delightful and wildly variable spelling associated with pre-Johnsonian English is merely a quaint artifact of the past. They could be right, I suppose. But in zoology if a species name is misspelled by so much as a letter, it is considered a synonym, and it is listed as such. That is the model I used here.

Some of the differences among similar words are probably caused by carelessness, some by lack of guidelines, some by poor hearing or speech defects, some by regional practices, some by the passing of time. I have not judged, merely recorded them as I found them.

I hope that my colleagues—anthropologists, translators, denizens of the *belles lettres*, and even zoologists—who sometimes fall into the trap of erroneously calling an animal a "crayfish" or a "lobster" or a "shrimp" when it is something else will find this useful. It should enable ethnologists to be more specific when they question their informants regarding crustaceans in local waters; it might help art historians and catalogers describe more accurately their subject matter; it should help translators to be more accurate in their transla-

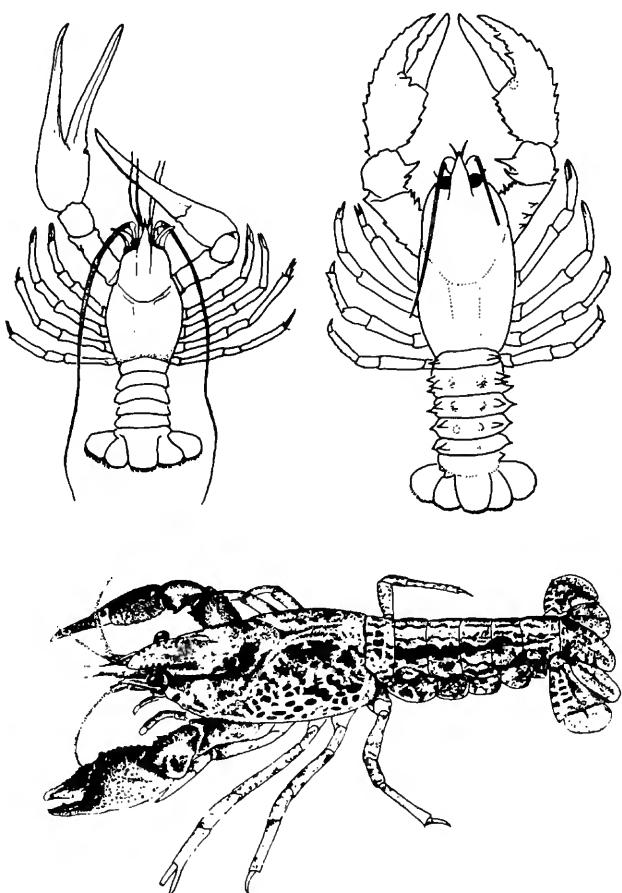

FIGURE 1.—Representative crayfishes: European (top left, after Huxley, 1886); Australian (top right, after Huxley, 1886); North American (bottom, from Hobbs, 1990).

tions; and it will, above all, give some appreciation of the verbal diversity associated with this relatively small group of animals.

WHAT IS A NON-SCIENTIFIC NAME?—Non-scientific names of crayfishes fall into two general categories: (1) Those that developed over time and probably without conscious design—generally called "common names," but which I prefer to call "vernacular names," and (2) Those that have come about through some bureaucratic or biopolitical fiat—also called "common names" by the bureaucrats and the compilers, but which I prefer to call "fabricated names".

The vernacular names are usually quite general and are often used indiscriminately to refer to any freshwater crayfish. Unfortunately they are often used to refer to other organisms as well. "Crayfish" itself is an

example, all too often used to refer to lobsters and other crustaceans.

Fabricated names usually refer to specific species, and their proper use, if, indeed, there is one, calls for some scientific sophistication.

To call a word "common" that has been invented by an individual or committee and published in an obscure journal might charitably be called exaggeration. If taken seriously, it begs for a redefinition of the word "common," which is usually accepted to mean universal, widespread, or ubiquitous.

Such wonderous words as crawldaddy, crow pappy, koura, mudbug, yabbie, shawgashee, tiskagili, and koongooloo are examples of vernacular names, but one would be hard-pressed to find such poetic creations in latter day fabrications, where "common names" have been contrived according to rules almost as complex as those used in the composition of scientific names.

WHAT ARE CRAYFISHES?—Freshwater crayfishes, *sensu stricto*, belong to the crustacean superfamilies Astacoidea and Parastacoidea. They superficially resemble marine lobsters, and some of the vernacular names even incorporate the word "lobster," as in freshwater lobster. In Australia the term lobster is commonly used for the larger crayfishes such as *Euastacus* and *Astacopsis*.

Crayfishes range in size from the tiny *Cambarellus diminutus* found in the southeastern United States (~ 20 mg), to the large *Astacopsis gouldi* of Tasmania (up to 4.5 kg).

Persons not trained in zoology or in the distributions of animals sometimes call freshwater atyid and palaeomonid shrimps "crayfish," a mistake that is more common in places where shrimp and crayfish distributions overlap or where crayfishes do not exist. The same problem occurs with freshwater crabs, although to a lesser extent. Crayfishes may be distinguished from salt water lobsters, freshwater shrimps, and crabs by bearing in mind the following guidelines:

Crayfishes (found in fresh to slightly brackish water) Figures 1, 2, and 6 (pages 2, 3, and 84).

1. The body is elongate and not dorsoventrally flattened.

2. The segmented abdomen is usually freely extended and is not carried flexed against the sternum (i.e., the belly of the leg-bearing part of the body).

3. The first three pairs of walking legs are chelate (i.e., bear opposable claws).

4. A rostrum is present and flattened dorsoventrally.

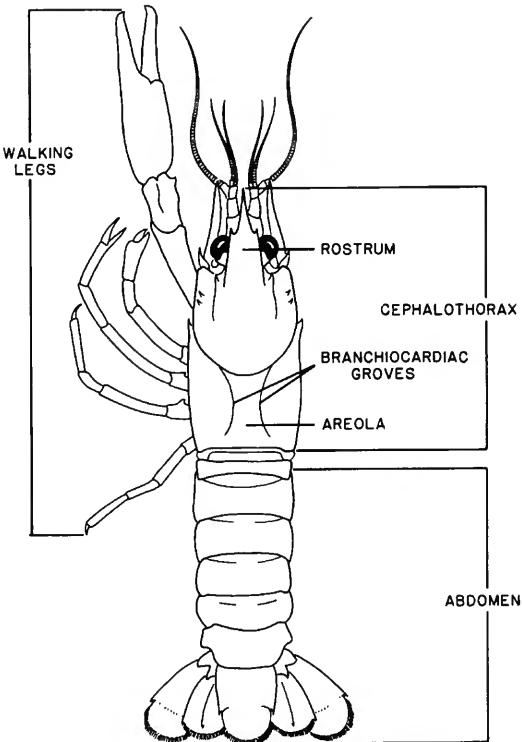

Figure 2.—Crayfish with parts labeled that are used in identifications. Note body shape, abdomen, areola, and rostrum.

5. An hour-glass shaped "areola" (on the dorsal midline between two paired branchiocardiac grooves) is found in the posterior portion of the carapace.

6. Swimming is restricted to backward movement resulting from rapid flexion of the entire abdomen (the abdominal pleopods have little locomotor function). This backward movement is widely recognized as a salient crayfish behavioral trait (see crayfish as a verb). **Lobsters** (found in salt water)

Lobsters look much like crayfishes, and the two names are frequently used interchangably. True lobsters and spiny lobsters are most readily differentiated from crayfishes by living in salt rather than fresh water. In addition, they do not have an areola (see Figure 2).

Shrimps (found in fresh and salt water) Figure 5 (page 83).

1. Body elongate and not dorsoventrally flattened.

2. The first pair of walking legs are chelate; the second *may* be chelate; the third pair *are not* chelate.

3. A rostrum is present and laterally flattened (except in the Atyidae, which are easily distinguished

from crayfishes and other shrimps by the conspicuous tufts of hairs on the fingers of the chelae of the first two pairs of walking legs.

Crabs (found in fresh and salt water) Figure 4, (page 8).

1. Body usually broad and often dorsoventrally flattened when viewed from above.
2. Abdomen carried flexed tightly against sternum (or cupped against it in females carrying eggs).
3. Only the first pair of walking legs are chelate.
4. Rostrum not present.

Aeglid crabs, found in freshwater in temperate South America, might be considered a special case in that they superficially resemble crayfishes. They may be distinguished from them because they are dorsoventrally flattened (as are other crabs) and look much like crayfish that have been stepped on.

WHERE DO CRAYFISHES LIVE?—Freshwater crayfishes occur naturally in the general areas shown in Figure 3 and as outlined below:

Northern Hemisphere: North America (from Canada southward into Guatemala, Honduras, and Belize; Cuba and Isla de la Juventud (formerly Isla de Piños); Europe (from Scandinavia southward to Turkey, and from Spain eastward into what was formerly the U.S.S.R.); and Asia (in northern China, Korea, and Japan).

Southern Hemisphere: Southern Brazil, Argentina, Uruguay, and Chile; Australia (including Tasmania), New Zealand (North Island and South Island), New Guinea, Misool, the Aru Islands, and Madagascar.

Introductions: Since the first recorded crayfish introduction (from Poland into Sweden by King John III in the mid-16th century), they have often been transferred to places where other crayfishes already lived. They have, however, also been introduced into South Africa, central Africa, Belize, Costa Rica, Nicaragua, Guatemala, Ecuador, Colombia, Venezuela, Hawaii, and no doubt other places where no crayfishes had been found before. As with so many species introductions, some have caused inappropriate ecological problems. Additional information on crayfish distributions and introductions may be found in Hobbs, Jr., 1988, and Hobbs III et al, 1989.

THE AUSTRALIAN ABORIGINAL NAMES.—Most of the more than 300 Aboriginal names for crayfishes listed here were taken from Edward Curr's encyclopedic compilation, *The Australian Race: Its Origin, Language, Customs....*, published in 1886 and 1887. The seemingly disproportionate number of Aboriginal words is not so surprising because in pre-European times the

Aborigines spoke more than 200 distinct languages, with numerous dialects (Wurm, 1988:252). Thus Curr's compilation made in the latter part of the 19th century probably contains a large percentage of the words for crayfishes that existed in those pre-European times. And it must be remembered that each of Curr's correspondents probably had different abilities to record what the Aborigines said, and each of the Aborigines had different abilities to communicate what they knew. Thus, for instance, the many congeners of the word "yabby" may have represented actual tribal or regional differences, or may have resulted from speech and hearing problems among the informants and recorders.

It is unclear what sort of guidelines Curr set for his correspondents in the field, but most of the word lists completed by those correspondents contained the same words—including those related to animals, personal relationships, body parts, implements, weather, and behavior. Both "Crayfish" and "Lobster" were on almost all lists, but there was no mention of what Curr had in mind, or how the informants explained the differences to the Aborigines. Because "lobster" in Australia today is used to refer to the larger freshwater crayfishes, particularly *Astacopsis* and *Euastacus*, it is possible that Curr expected answers along those lines—names for the larger "lobsters" and the smaller "crayfish." At any rate, tabulations suggest that many Aborigines recognized "Crayfish," some recognized "Lobster" as different, and a few gave the same name to both. In the Word List, the family PARASTACIDAE is followed by "crayfish" or "lobster," reflecting the designations given by Curr. In the Language Index, words that Curr designated "lobster" are so defined; words he designated "crayfish" are left undefined. In some localities crayfishes might be confused with other crustaceans—the palaemonid shrimps *Palaemonetes* and *Macrobrachium* in the southwest of Western Australia, the atyid and some palaemonid shrimps in northern and eastern Australia. But there is little or no competition in the more central dryer localities, where there are (were) a plethora of names about which there could be little chance of confusion.

With the aid of Curr's locality map and his written descriptions of the tribes his informants encountered, together with the maps and tribal notes of Tindale (1974), I have associated most of Curr's localities with Tindale's more modern delineations of tribal boundaries and have included the longitude and latitude coordinates used by Tindale—as well as his preferred tribal designations where applicable and presumed tribal designations where none were given.

FIGURE 3.—Natural distribution of freshwater crayfishes (Astacoidea and Parastacoidea). Circles indicate Misool and Aru islands (W and SW of New Guinea), King and Flinders islands (NW and NE of Tasmania, Australia); and Isla de la Juventud, formerly Isla de Pinos (SW of Cuba). Crayfish introductions are not indicated; see text, page 4. These maps reflect neither the relative locations nor the relative sizes of the countries.

Based on locality data, I have tentatively associated Aboriginal crayfish names with what might be crayfish species known today. These are usually preceded by "probably" or "possibly" in the Word List citations, but I have not included them in the Species Index be-

cause no correlations were made at the time the Aboriginal words were recorded. Exceptions to this arise with chelgi, gilgie, jilgie, jilgy, maramie, marron, moramny, yabbie, and yabby—modern Australian English words recognized as derived from Aboriginal

words, and dib-dib, dibil, and lib-lib-wil—Aboriginal words recorded as associated with distinct species.

Present-day crayfish distributions are from Austin, 1985; Horwitz, 1988, 1990a, 1990b; Morgan, 1988; Riek, 1969; Sumner, 1978; Swain et al., 1982; Zeidler, 1982; and Zeidler and Adams, 1990.

THE AMERICAN INDIAN NAMES.—Unfortunately, there was no Edward Curr to survey the names used by Indians in the Americas, there were only uncoordinated word-lists compiled by many individuals over time. In addition, crayfishes do not appear to have been as high on the list of Indian priorities as they were with the Australian Aborigines, probably due to the greater abundance of food from other sources in the Americas.

Due to the greater degree of crayfish speciation in the Americas, it is generally difficult to assign scientific names to Indian names. "Crayfish" to the Indians of the western United States meant, without doubt, members of the genus *Pacifastacus*—and are so designated—for no other crayfish lived there. It is likely that Indians living in what is now Louisiana, and who spoke of "red crayfish," meant the Louisiana red crawfish *Procambarus (Scapulicambarus) clarkii*. And in México *chacal* and *ca'äm* may well refer to *Cambarellus montezumae*, but they might also refer to the larger *Procambarus (Bouvieri) digueti*. From the data have seen, it would generally be foolhardy to attempt other associations closer than the family level.

ORGANIZATION.—Five sections make up this compilation: Introduction, Word List, References, Language Index, and Species Index.

The Word List is arranged alphabetically and contains the information included in the indices plus reference citations, more specific locality data, cross-references, and comments. Most of the entries in it are set up according to the following general scheme:

common name or other usage FAMILY/genus/species/comments [Country/specific locality/people] Reference(s) Additional comments and cross references
--

I say "general scheme" because the scheme is not rigid. Some of the entries do not contain all of those elements, simply because they are either unknown or are not applicable. Some contain additional comments or annotations that seemed relevant. Common names make up the bulk of the work, but I have also included verbal forms of common names, place names that include crayfish, the names of peoples that incorporate

crayfish, and slang/argot expressions incorporating crayfish.

In compiling this word list, it has sometimes been difficult or impossible to determine whether some of the non-scientific names for "crayfish" actually designated true freshwater crayfishes, or if they referred to other organisms such as freshwater shrimps, marine "crayfish" (lobsters), or crabs. This dilemma is especially acute when dealing with the vernacular names used by American Indians, Australian Aborigines, and other groups whose languages are known to me only through dictionaries and sometimes poorly annotated word-lists—for word-list compilers and lexicographers differ widely in the details which they provide for "lower" animals, varying from simply saying that a given word equals "crayfish" (not particularly enlightening), to calling Mexican crayfish *Astacus* in papers published since Girard's 1852 revision (improbable), to connecting scientific names with specific crayfish vernacular names (rare and wonderful).

In many cases, I simply determined whether it was likely that crayfishes inhabited the part of the world under consideration. If the record might be considered unlikely (the Torres Strait, for instance) a "?" was placed after the family name in the Word List, and a "(?)" was placed after the common name in the Geographical Index. If someone called an amphipod or other crustacean a "crayfish," for instance, it was not included unless evidence was found that the name was also applied to freshwater crayfishes as well.

If a dictionary includes meanings in both directions (i.e. English-French, French-English), I find it prudent to look at the definitions in both directions. All too often one direction will imply freshwater crayfishes, the reverse will specify marine organisms—an indication that the compiler is probably not trained in, or appreciative of, zoology.

This is not an attempt to discover priority. I did not set out to find the first use of any names, except that some of the modern fabricated names and no doubt many of the aboriginal names appeared in print for the first time in the cited sources. Because of my personal interests and because of the materials available, multiple early references are often given for the word "crayfish" and its relatives and antecedents. More than one reference may also be included if additional references indicate the use of a word in significant additional geographic areas.

Following the lead of the Oxford English Dictionary (OED) and the Middle English Dictionary (MED), I have included occasional text passages illustrating

contemporary usage. Where I have been able to examine copies of the original texts, I have included some of those cited in the OED and the MED and given full citations.

The Language Index is relatively straightforward, with words being listed under specific language headings without regard to country (Spanish, English, German, for instance).

The Species Index lists crayfish scientific names followed by non-scientific names attributed to them, and I have attempted to include only those non-scientific names that have been associated with crayfish species in published accounts. Using "probably =" or "possibly =" as qualifiers, I have associated many non-scientific names (particularly Australian Aboriginal names) with scientific names in Word List. These are not included in the Species Index because the associations are usually only my assumptions based on congruent distributions of names and species. Most names, including the "classics" like crayfish, crawfish, écrevisse, Flusskrebs, and góamero cannot be associated with species level scientific names.

In many cases, however, possible or probable correlations between scientific and vernacular names are given in the Word List. These assumptions are usually based on the use of a name where only a certain crayfish exists. It does not imply that the speaker would recognize the difference between the local crayfish species and another species from elsewhere.

MISTAKEN IDENTITIES.—Mistaken identities range from the trivial to the seriously misleading. Lack of attention to biological detail appears to be more common in dictionaries and word-lists than elsewhere, although Eisler's recent *Dürer's Animals* (1991), a beautiful book in many respects, suffers from less-than-careful attention to crayfish-crab-lobster differences—and is fairly typical of the *belles lettres*. Referring on page 119 to an illustration by de Villard de Honnecourt, Eisler identifies a freshwater crayfish in fig. 5.2 as a "lobster." His discussion of the "Lobster" on page 133 is detailed but confused. The "lobster" shown in Color Plate 18 is indeed a lobster, but most of the remainder of his discussion of lobsters in heraldry and religious symbolism is based on pictures (p. 134) of what are undoubtedly freshwater crayfishes. However, on page 127, he correctly notes that Dürer's astrological sign of the crab (p. 129) "looks more like a crayfish or a lobster than a crab." It is, indeed, probably a crayfish, which often appears as the "crab" in astrological devices. See the Moon Card in the Rider Tarot Deck (Smith, 1971).

An interesting *lapsus* occurs in *Vocabulario Mixe de Tontepéc* (Schoenhals and Schoenhals, 1965:325). There, the crayfish *Cambarellus montezuma* (sic) and its vernacular names ca'am, chacalín, and chacal appear in a list of Mammals, probably due to the congruence of the Mexican word *chacal* (= "camarón grande") with the Spanish word *chacal* (= jackal).

Inaccurate commercial translations can cause obvious problems and are probably largely due to the enormous volumes of information that must be processed and often translated from obscure languages. Examples include *Palaemonetes varians*, a shrimp, called a crayfish in an electronic database abstract of an English language paper by Umoh and Bassir (1977); *Gecarcinus* sp., a crab, called a crayfish in an electronic database translation of a Spanish language paper by Hernández, et al. (1979); and *Argulus foliaceus* and *Ergasilus*, two copepods, called crayfish in an electronic database translation of a Serbo-Croatian publication by Kazic (1980). These latter three examples might be considered trivial, but they point to a lack of attention to detail.

ACKNOWLEDGMENTS.—I thank the following persons, who, at one time or another, have seemed mystified, amused, or intrigued by this project—but all of whom helped in many ways: Vicki Chang, Janice Clark, Mary Kay Davies, Christian Feuillet, Carolyn Hahn, Chang-Su Houchins, Robert Laughlin, Cesare Marino, William Merrill, Mayda Riopelde, Margaret Sealor, Gregory Sohn, Rochelle Smith-Terrell, Theodore Spilman, Herman Viola, and Ching-Hsien Wang, all of the Smithsonian Institution. F.M. (Ted) Bayer puzzled with me over the Japanese words and introduced me to the mysterious (to a Westerner) Hiragana and Katakana. Horton H. Hobbs, Jr., Dean of Crayfishes and "crawdaddy" (q.v.) to so many people, patiently worked with me on locality data, correct scientific names of crayfishes, and many other details. Understandably, he has often wondered aloud, "Bill, when are you going to finish this?" Austin B. Williams, National Marine Fisheries Service, NOAA, who is responsible for a paper often cited here, listened to my doubts, accepted with grace my less-than-charitable opinions of fabricated names, and provided many helpful insights. J.F. Fitzpatrick, Jr., University of Southern Alabama, sent me United States historical material that I would otherwise never have found, and supplied many of the Slavic crayfish names; William C. Goff, Jr., of Limerick, Maine, helped with interpretations of 19th century French literary nuances; Joan Higbee, Rosenwald Rare Book Room, Library of

Congress, made available rare books in her care; Alain Crosnier, Muséum National d'Histoire Naturelle, Paris, kindly helped with the provincial words of Bretagne; and Lipke B. Holthuis, Rijksmuseum van Natuurlijke Historie, Leiden, provided many thoughtful additions, critically reviewed much of the manuscript, and talked with me about words and myths one cold, wet March day in Leiden—when we forgot the time and barely escaped being locked in the Museum at closing.

I also thank Hoyt N. Duggan, Dept. of English, University of Virginia, Charlottesville; Mark Grygier, Seto Marine Laboratory, Honshu, Japan; Laura Hurley, University of Washington; Kenneth Manaha, U.S. Dept. of Health and Human Services, Washington; James Marchand, Center for Advanced Studies, University of Illinois; George Marinenko, MITRE Corporation, McLean, Virginia; Laili Nasr, Bethesda, Maryland; Rev. Robert Pettigrew, Vienna, Virginia, retired; Ron Schwarz, MITRE Corporation, McLean, Virginia; Ruth Sternglantz, Dept. of English, New York University; Pieter van der Veer, I.B.M. Corporation, Rockville, Maryland; Barbara Wright, MITRE Corporation, McLean, Virginia; and Wolfgang Zeidler, South Australian Museum, Adelaide, for their thoughtful and diverse contributions.

In addition, I am indebted to Stan Shetler, Associate Director of the National Museum of Natural History, for support from the Research Opportunities Fund

which enabled me to visit libraries in the U.K. and Australia during 1992; and to Donald Fisher, Smithsonian Institution Press, for his thoughtful help with editorial matters. To the staff members of the British Library, London; the Library of the British Museum (Natural History), London; the Library of New South Wales, Sydney; the Library of Congress, Washington; and the Fairfax County George Mason Regional Library, Annandale, Virginia, go my thanks—all were knowledgable, cheerful, and seemingly possessed of unlimited patience.

My wife, Dabney, warmly encouraged me with this project even as I became somewhat fixated on crayfish names and managed to insinuate them into unrelated conversations over the past 8 years.

And finally, I am grateful to those who built the INTERNET, that unparalleled electronic highway for cross-disciplinary research. In particular, the BITNET discussion list MEDTEXT-L@UIUCVMD—devoted to the philology, codicology, and analysis of medieval texts—led me to a number of individuals, acknowledged elsewhere, who generously contributed more than they probably realize.

In spite of the remarkable help I have received from so many people, I must add that errors, omissions, inconsistencies (there are many), and statements contrary to fact or offensive to anyone are entirely my fault and are certainly unintentional.

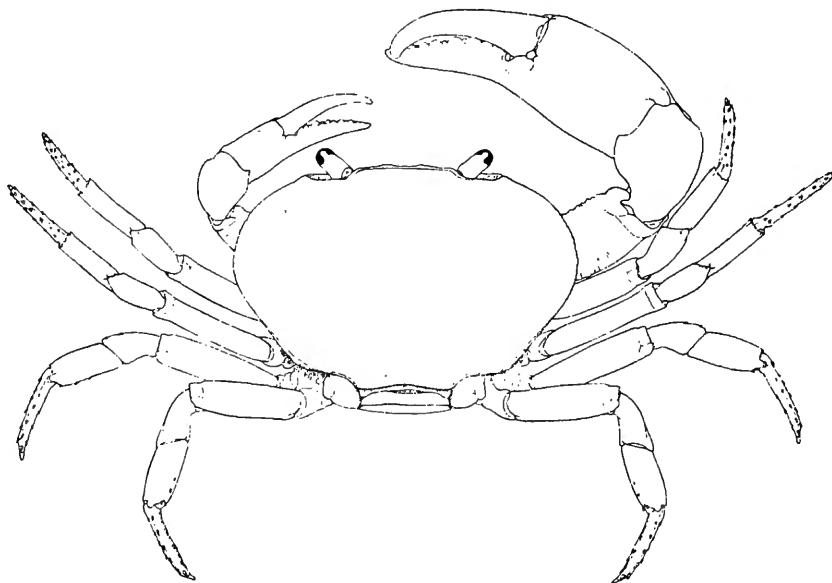

FIGURE 4.—A representative of freshwater crabs. Note the broad, flattened body (cephalothorax) discussed on page 4, as well as the almost hidden abdomen (see figure 2) which, in crabs, is usually tucked under the body. From Chace and Hobbs, 1969, figure 42.

ácacáci Probably from the adverb radical *ácE*, “backward,” through *ácacE*, “to move backwards.” CAMBARIDAE [Canada: Ontario, Skügog Island, Mississauga [Mississauga] Indians] Chamberlain, 1892: 30. See **acâge**, **ajageshi**, **ócacáci**, **ashaahkiiwa**, **as-shog-aish-i**, and **shawgashee**.

acâge CAMBARIDAE [Canada, eastern: Algonquin Indians] Lemoine, 1911:216. See **ácacáci**, **ajageshi**, **ócacáci**, **ashaahkiiwa**, **as-shog-aish-i**, and **shawgashee**.

acheroo PARASTACIDAE, “crayfish,” probably = *Cherax destructor*. [Australia: Queensland; Blackall, Barcoo River (probably = Kuungkari Aboriginal tribe of Tindale, 1974:179 (144°20'E x 24°35'S))] Dudley and Williams, in Curr, 1887(III):76, Sta. 154. See **ovarroo**, **quarroo**, and **thoombur**.

acocil CAMBARIDAE, *Cambarellus montezumae*. [México: Mexican Spanish, derived from Aztec (Nahuatl) *atl* (water), and *cuitzilli* or *coitzilli* (twisted)] Santamaría, 1978:21. Acocil is also defined as “petit homard, langouste, écrevisse (camaron pequeño)” by Simeon 1885:10. See next three entries.

acocile (of Santamaría, 1978:21). See **acocil**.

acocili (of Simeon, 1885:10). See **acocil**.

acocilin (of Simeon, 1885:10). See **acocil**.

ahzhahgashe CAMBARIDAE Wilson says **ahzhahgashe** = “crab,” but most evidence indicates = crayfish. [U.S.: Ojibwa (Chippewa) Indians] Wilson, 1874:200. See **acâge**, **ácacáci**, **ajageshi**, **ashaahkiiwa**, **as-shog-aish-i**, **ócacáci**, and **shawgashee**.

ajageshi CAMBARIDAE [U.S.: Chippewa, Ojibwa, Ottawa, Potawatami, and Algonquin Indians] Baraga, 1853:468. See **acâge**, **ácacáci**, **ahzhahgashe**, **ashaahkiiwa**, **as-shog-aish-i**, **ócacáci**, and **shawgashee**.

Alabama cave crayfish CAMBARIDAE, *Cambarus (Aviticambarus) jonesi*. [U.S.: Alabama] Williams, et al., 1989:22.

American river crab CAMBARIDAE, *Procambarus (Scapulicambarus) clarkii*. [Germany/English] Wolnik, 1982:341.

amerikaanse rivierkreeft CAMBARIDAE, *Orconectes limosus*. [Netherlands] Holthuis, in Westman et al., 1990:132.

amerikanischer Flusskrebs CAMBARIDAE, *Orconectes limosus*. [Germany] Mosimann and Hofman, 1985:38.

amerikanischer Krebs CAMBARIDAE, *Orconectes limosus*. [Germany] Kuhlmann, in Westman et al., 1990:94.

amerikanskii rechnoi crab = **американский речной краб**, see next entry.

американский речной краб ASTACIDAE [Russia] Ricker, 1973:113. See **amerikanskii rechnoi crab**, above.

amerikanskii signal'nyi rak = **американский**

сигнальный рак, next citation.

американский сигнальный рак ASTACIDAE, *Pacifastacus leniusculus*. [Russia] Cherry, 1992:21. See amerikanskii signal'nyi rak, above.

amerýkans'kýi sýhnal'nyi rak = американский сигнальный рак, see next citation.

американский сигнальный рак ASTACIDAE, *Pacifastacus leniusculus*. [Ukraine] Cherry, 1992:21. See amerýkans'kýi sýhnal'nyi rak, above.

amerikazarigani CAMBARIDAE, *Procambarus (Scapulicambarus) clarkii*. [Japan] Okada and Uchida, 1961:98. = アメリカザリガニ and あめりかざりがに, see next citation.

アメリカザリガニ = amerikazarigani, q.v.

あめりかざりがに = amerikazarigani, q.v.

andar PARASTACIDAE, "crayfish," probably *Cherax destructor*. [Australia: Queensland, Main Range (Great Dividing Range) between Belyando and Cape rivers, Koombokkaburra Aboriginal tribe (= Mian tribe of Tindale, 1974:181 (146°20'E x 21°50'S))] MacGlashan, in Curr, 1887(III):24, Sta. 142.

ander PARASTACIDAE, "crayfish," probably *Cherax destructor*. [Australia: Queensland, Belyando River (possibly = Jagalingu Aboriginal tribe of Tindale, 1974:169 (146°40'E x 23°20'S))] Muirhead, in Curr, 1887(III):32, Sta. 143. See ngobbera.

Appalachian brook crayfish CAMBARIDAE, *Cambarus (Cambarus) bartonii bartonii*. [U.S.: Canada to Georgia, and eastern Kentucky and Tennessee to Atlantic Ocean] Williams, *et al.*, 1989:21.

armure à écrevisse Slang, = splint armour. [France: 20th century] Mansion, 1972:E:10. See avoir une ecrevisse dans la tourte, avoir une ecrevisse dans le vol-au-vent, crevice (Sense 2), ecrevice, ecrevisse de rempart, écrevisse, and quatorzième ecrevisse.

ascarbicho ASTACIDAE, *Astacus astacus* (*A. nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118.

ashaahkiiwa (double vowels = long vowels.) CAMBARIDAE [U.S.: midwest, Fox Indians] Ives Goddard, personal communication. See ácagáci, acâge, ajageshi, ócagáci, ahzhahgashe, as-shog-aish-i, and shawgashee.

āshagā'shī CAMBARIDAE [Canada: Ontario, Skū-gog Island, Mississauga Indians] Chamberlain, 1889:142. See ácagáci, acâge, ajageshi, ócagáci, ahzhahgashe, as-shog-aish-i, and shawgashee.

asho'ni CAMBARIDAE [U.S., southeast: Ofu Indians] Dorsey & Swanton, 1912:321. See ácagáci, acâge, ahzhahgashe, ajageshi, ócagáci, ashaahkiiwa, as-shog-aish-i, and shawgashee.

as-shog-aish-i CAMBARIDAE [U.S., north-central: Ojibwa] Schoolcraft, 1956 (1974):175. See ácagáci, acâge, ahzhahgashe, ajageshi, ócagáci, ashaahkiiwa, and shawgashee.

àstac ASTACIDAE [Spain: Catalonia] Oliva and Buxton, 1983:183.

astaci ASTACOIDEA and PARASTACOIDEA [Latin (ancient)] Aristotle, 384-322 b.c.:351. Translator's note indicates astaci, from astakos, = crayfishes as opposed to lobsters (carabi), shrimps and prawns (carides), or crabs (carcini).

astaco ASTACOIDEA [Latin (ancient)] Belloc, 1899:140. [Portugal] Pietzschke, 1957 (1982), vol. 1:249. [Spain] Amador, 1983:190. See kankro.

astacus ASTACOIDEA "Contra anginam...Astacos circiter decem vivos contere, & stillatios liquores intybi rosarum & papaveris erratici affunde, inde expressus vinum rubellum refert. Eo linguam abluere & diligenter ac penitus gargarizare oportet, deinde etiam haustum ejus mediocrem bibere, Linguam abstersam & purgatam lardo insulso peringe, post horam & dimidiam, quicquid viscidæ pituitæ insederit...& succo Astacorum præscripto denuò lava." ["Against angina...mash up about ten live *Astacus*, drop on them liquors of chicory, roses, and wandering poppies, the juice is pressed from them with red wine. Wash the tongue with this and diligently and deeply gargle it; then also drink a little of it...cover the...tongue with unsalted lard...after an hour and a half clean off viscous slime ... and again

wash it with the Astacus preparation.”] [Latin] Jonstonus, 1665:16. [Latin] Riddle and Arnold, 1849:157.

astako ASTACIDAE [Esperanto] Butler, 1967, p.196.

astakos See next citation.

ἀστακός ASTACOIDEA [Greece] Riddle and Arnold, 1849:157. See *astakos*, above.

astakos tou glikou nerou See **ἀστακός του γλυκού νερού**, next citation.

ἀστακός του γλυκού νερού = freshwater lobster. ASTACIDAE and CAMBARIDAE Used for *Astacus astacus*, *Pacifastacus leniusculus*, and *Procambarus clarkii*—all of which have been recently introduced into Cyprus. [Cyprus] Stephanou, in Westman *et al.*, 1990:49. See *astakos tou glikou nerou*, above.

Atlantic crayfish ASTACIDAE, *Austropotamobius pallipes* (current usage = *Austropotamobius (Atlantastacus) pallipes pallipes*). [U.K.] Thompson, 1989, 53.

Atlantic stream crayfish ASTACIDAE, *Austropotamobius pallipes* (current usage = *Austropotamobius (Atlantastacus) pallipes pallipes*). [U.K.] Holdich and Lowery, 1988:482.

atta PARASTACIDAE ?, “lobster.” This locality does not coincide with the known present-day distribution of Australian freshwater crayfishes, and may refer to some other animal or to an earlier distribution pattern. [Australia: Western Australia, Central Division, Champion Bay (N of Geraldton), Watchandi Aboriginal tribe (probably = Amangu tribe of Tindale, 1974:239 (115°30'E x 29°20'S))] Goldsworthy, in Curr, 1886(I):316, Sta. 15. See *marthera*.

aurugut PARASTACIDAE? I do not know of freshwater crayfishes reported from this island group, so this word may refer to marine crustaceans, and not to freshwater crayfishes. [Papua New Guinea: New Britain, Duke of York Island group] Brown, in Curr, 1887(III):694. See *oelang gamò* and *udang-karang*.

Australkrebs PARASTACIDAE, *Cherax tenuimanus*. [Germany] Mosimann and Hofman, 1985:38. See *marron*.

avoir une ecrevisse dans la tourte Argot, = “to be crazy.” [France: popular in 19th century] Barrère, 1887:124. See also *armure à écrevisse*, *avoir une ecrevisse dans le vol-au-vent*, *ecrevise*, *ecrevisse de rempart*, *écrevisse*, and *quatorzième ecrevisse*.

avoir une ecrevisse dans le vol-au-vent Argot, = “to be crazy.” [France: popular in 19th century] Barrère, 1887:124. See also *armure à écrevisse*, *avoir une ecrevisse dans la tourte*, *ecrevise*, *ecrevisse de rempart*, *écrevisse*, and *quatorzième ecrevisse*.

bab “[E]l cangrejo,” crayfish, if not crabs. CAMBARIDAE? [México: Yucatán, Maya] Alvarez, 1980:262; Pérez, 1866-1877:15.

bach Krebss ASTACIDAE [Germany] Anonymous, 1487, chapter cxlii.

balkans'kyi shirokopolyi rak See next citation.

балканський широкопалий рак ASTACIDAE, *Astacus astacus balcanicus*. [Ukraine] Brodsky, 1981:144. = *balkans'kyi shirokopolyi rak*, see above.

balkanskyi shirokopolyi rak See next citation.

балканский широкопалый рак ASTACIDAE, *Astacus astacus balcanicus*. [Russia] Brodsky, 1981:144. = *balkanskyi shirokopolyi rak*, see above.

bambam PARASTACIDAE, probably = *Cherax destructor* and/or *Engaeus* sp. [Australia: Victoria; Victorian Region groups, Lal Lal (probably = Wathaurung Aboriginal tribe of Tindale, 1974:208 (143°55'E x 38°0'S))] Mathew, 1899:230-231.

baranjak PARASTACIDAE, “crayfish,” probably = *Cherax destructor*, *Engaeus* sp., and/or *Eustacus* sp. [Australia: Victoria; Omeo (Jaitmathang Aboriginal tribe of Tindale, 1974:205 (147°35'E x 36°50'S))] Bulmer, in Curr, 1887(III):558, Sta. 211. See *than-gambooloa*.

barranjerk PARASTACIDAE, “crayfish,” probably = *Cherax destructor*, *Engaeus* sp., and/or *Eustacus* sp. [Australia: New South Wales; Moneroor Manèra district, Ngawago Aboriginal tribe (probably = Ngarigo

Aboriginal tribe of Tindale, 1974:198 (148°50'E x 36°25'S)] Bulmer, in Curr, 1887(III):432, Sta. 197. See **notkun**.

barrinjook PARASTACIDAE, "crayfish," probably = *Cherax destructor*, *Engaeus* sp., and/or *Euastacus* sp. [Australia: New South Wales; Moneroor or Manèra district, Ngawago Aboriginal tribe (probably = Ngarigo Aboriginal tribe of Tindale, 1974:198 (148°50'E x 36°25'S))] du Vé, in Curr, 1887(III):430, Sta. 197.

batata CAMBARIDAE, probably *Procambarus (Austrocambarus) cubensis* ssp. (**batata** also = sweet-potato) [Cuba] Pérez-Farfante, Isabel, personal communication.

bau CAMBARIDAE? [México: Tabasco, Chiapas, and Oaxaca; Zoque Indians] La Grasserie, 1898:64. See also **tzas**, **meatzas**, and **vetze**.

baupit PARASTACIDAE, possibly = *Cherax bicarinatus*. [Australia: Northern Territory; Cobourg Peninsula, "Raffles Bay to Port Essington Harbor...to Popham Bay," Unalla Aboriginal tribe (probably = Iwaidja Aboriginal tribe of Tindale, 1974:226-227 (132°35'E x 11°25'S)]) Curr, 1886(I):274, Sta. 4. See **ma-a**.

bearded red crayfish CAMBARIDAE, *Procambarus (Girardiella) pogum*. [U.S., southeast: Mississippi, Chickasaw County] Williams, *et al.*, 1989:26; Hobbs, 1989:57.

beekodl PARASTACIDAE, "crayfish," probably = *Cherax destructor* or *C. quadricarinatus*. [Australia: Queensland; East Central groups, Mythergoody dialect (probably = Maithakari Aboriginal tribe of Tindale, 1974:180 (140°40'E x 20°5'S))] Mathew, 1899:230-231. See **begool**, **pe-kool**, **piccool**, and **pikquol**. See Sign Language.

beelahingar Place name, = a "creek with crayfish." [Australia: New South Wales] Reed, 1967:12. See **belleringham** and **Belleringah**.

begool PARASTACIDAE, "crayfish," probably = *Cherax bicarinatus*. [Australia: Queensland; between Gregory and Leichardt rivers, Mykoolan Aboriginal tribe (= Maikulan Aboriginal tribe of Tindale, 1974:180 (141°50'E x 18°55'S))] Lamond, in Curr, 1886(II):324, Sta. 97. See **beekodl**, **pe-kool**, **piccool**,

and **pikquol**.

belleringham PARASTACIDAE, "river crayfish." [Australia: probably Queensland and/or New South Wales] Endacott, 1924 (1973):11. As this word appears to be derived from **beelah**, creek + **ingar**, crayfish, see **inga** and **ingar** for possible more specific localities. See also **beelahingar**, and **Belleringah**.

Belleringah Place name, = "creek with crayfish," from **beelahingar**, q.v. [Australia: New South Wales] Reed, 1967:12, 103. See also **belleringham**.

belonogyi rak, = белоногий рак, see next entry.

белоногий рак ASTACIDAE, *Austropotamobius (Atlantastacus) pallipes pallipes*. [Russia] Brodsky, 1981:184. See **belonogyi rak**, above.

belyi dnistrovskyi rak = белый днестровский рак, see next citation.

белый днестровский рак ASTACIDAE, *Pontastacus eichwaldi bessarabicus*. [Russia] Brodsky, 1981:169. See **belyi dnistrovskyi rak**, above.

belyi dunays'kyi rak = белый дунайский рак, see next citation.

белый дунайский рак ASTACIDAE, *Pontastacus eichwaldi danubialis*. [Russia] Brodsky, 1981:165.

benda boaa = "camarón." CAMBARIDAE? [México: Oaxaca; Zapoteco del Istmo] Pickett *et al.*, 1959:23, 135.

benda buaa See **benda boaa**.

Big Blue Springs cave crayfish CAMBARIDAE, *Procambarus (Ortmannicus) horsti*. [U.S.: Florida; Jefferson, Wakulla, and Leon counties] Williams, *et al.*, 1989:26; Hobbs, 1989:67.

bigcheek cave crayfish CAMBARIDAE, *Procambarus (Ortmannicus) delicatus*. [U.S.: Florida; Lake County, subterranean waters] Williams, *et al.*, 1989:25; Hobbs, 1989:65.

Big South Fork crayfish CAMBARIDAE, *Cambarus (Jugicambarus) bouchardi*. [U.S.: Tennessee; Scott Co.] Williams, *et al.*, 1989:21; Hobbs, 1989:21.

bilonoghyi rak See білоногий рак, see next citation.

білоногий рак ASTACIDAE, *Austropotamobius (Atlantastacus) pallipes pallipes*. [Ukraine] Brodsky, 1981:184. See bilonoghyi rak, above.

bilyi dnistrovs'kyi rak See білий дністровський рак, next citation.

білий дністровський рак ASTACIDAE, *Pontastacus eichwaldi bessarabicus*. [Ukraine] Brodsky, 1981:169. See bilyi dnistrovs'kyi rak, above.

bilyi dunays'kyi rak See білий дунайський рак, next citation.

білий дунайський рак ASTACIDAE, *Pontastacus eichwaldi danubialis*. [Ukraine] Brodsky, 1981:165. See bilyi dunays'kyi rak, above.

birrooa PARASTACIDAE, "crayfish," probably = *Euastacus* sp. [Australia: New South Wales; Jervis Bay to Mt. Dromedary (probably = Wandandian Aboriginal tribe of Tindale, 1975:199-200 (150°15'E x 35°5'S))] Curr, 1887(III):422, Sta. 194.

black spider PARASTACIDAE, *Cherax tenuimanus*. [Australia: Western Australia; a name used by "local fishermen"] Olszewski, 1980:20. See also marron.

благородnyi rak See благородный рак, next citation.

благородный рак ASTACIDAE, *Astacus astacus (Astacus nobilis, A. fluviatilis, and Potamobius fluviatilis)*. [Russia] Gozmány, 1979:119. According to Cherry, 1992:20, this is a "non traditional devised name," probably = "fabricated name."

blednonogii rak See бледноногий рак, next citation.

бледноногий рак ASTACIDAE, *Astacus pallipes (Potamobius pallipes)*. Current usage, *Austropotamobius pallipes*. [Russia] Gozmány, 1979:119.

bluegrass crayfish CAMBARIDAE, *Cambarus (Jugicambarus) batchi*. [U.S.: Kentucky] Williams, et al., 1989:21.

boagalli PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; near Lake Yamma Yamma, Kungarditchi Aboriginal tribe (= Kungadutji Aboriginal tribe of Tindale, 1974:178 (142°5'E x 26°25'S))] Heagney, in Curr, 1886(II):380, Sta. 107. See bogally, boligar, boagal, boogali, boogalli, boogarli boogurrie, bookill, bookilee, bowgili, buggilla, and bugili. See also thornabun.

böcekgi ASTACIDAE? Dictionary definition is ambiguous; without a preceding "su," q.v., the word may refer only to the spiny lobster. (The "k" is not used in subsequent listings, as with su böcegi on p. 431) [Turkey] Hony and Iz, 1984:82.

bodardi PARASTACIDAE?, "crayfish"? This locality does not coincide with the known present-day distribution of Australian freshwater crayfishes, and may refer to some other animal or to an earlier distribution pattern. [Australia: Western Australia; Central Division, Northampton (near Chapman River), Eaw Aboriginal tribe (probably = Nokaan Aboriginal tribe of Tindale, 1974:254 (115°20'E x 27°35'S))] Goldsworthy, in Curr, 1886(I):314, Sta. 14, See marrida.

bogally PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Upper Paroo River (possibly = Kunja Aboriginal tribe of Tindale, 1974:178 (146°10'E x 26°50'S))] Playfair, in Curr, 1887(III):280, Sta. 177. See boagalli, boligar, boagal, boogali, boogalli, boogarli, boogurrie, bookill, bookilee, bowgili, buggilla, bugili, and mamuru.

boligar PARASTACIDAE, "lobster," probably = *Cherax destructor*. [Australia: Queensland; Alice River (probably = Iningai Aboriginal tribe of Tindale, 1974:188 (144°55'E x 23°0'S))] Ahern, in Curr, 1887(III):70, Sta. 152. See boagalli, bogally, boagal, boogali, boogalli, boogarli, boogurrie, bookill, bookilee, bowgili, buggilla, and bugili.

boagal PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Tower Hill and Cornish Creeks, Tateburra Aboriginal tribe (probably = Jirandali Aboriginal tribe of Tindale, 1974:171 (144°20'E x 21°15'S))] Dalhunty, in Curr, 1887(III):8, Sta. 137. See boagalli, bogally, boligar, boogali, boogalli, boogarli, boogurrie, bookill, boo-

killee, bowgili, buggilla, and bugili. See also **karkoora, marooroo, and munuya.**

boogali PARASTACIDAE, "crayfish," probably = yabbies and other smaller crayfish. [Australia: Queensland; Lower Bulloo River, Thargominda (= Thargomindah), Wonkomarra Aboriginal tribe; (probably = Bitjara Aboriginal tribe of Tindale, 1974:166 (143°0'E x 28°30'S). See additional notes under **buggilla**]

Sullivan, in Curr, 1886(II):42, Sta. 53. See **boagalli, bogally, boligar, boogal, boogalli, boogarli, boogurrie, bookill, bookilee, bowgili, buggilla, and bugili.** See also **thandulya.**

boogalli PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Barcoo River, Torraburri Aboriginal tribe (probably = Wadjalang Aboriginal tribe of Tindale, 1974:186-187 (145°-20'E x 25°50'S))] Bell, in Curr, 1887(III):82, Sta. 155. See **boagalli, bogally, boligar, boogal, boogalli, boogarli, boogurrie, bookill, bookilee, bowgili, buggilla, bugili, kandura, koarow, and quarroo.**

boogarli PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Ravensbourne Creek, Mokaburra Aboriginal tribe (probably = Wadjalang Aboriginal tribe of Tindale, 1974:186-187 (145°20'E x 25°50'S)), Tarawalla dialect] Powell, in Curr, 1887(III):84, Sta. 155. See **boagalli, bogally, boligar, boogal, boogalli, boogurrie, bookil, bookilee, bowgili, buggilla, bugili, and quarroo.**

boogurrie PARASTACIDAE?, "lobster" ? This locality does not coincide with the known present-day distribution of freshwater crayfishes. [Australia: Queensland; mouths of the Burdekin River (possibly = Bindal Aboriginal tribe of Tindale, 1974:166 (147°15'E x 19°35'S))] O'Connor, in Curr, 1886(II):454, Sta. 126. See **boagalli, bogally, boligar, boogal, boogalli, boogalli, boogarli, bookil, bookilee, bowgili, buggilla, bugili, and inundah.**

bookill PARASTACIDAE, "lobster," probably = *Cherax destructor*. [Australia: Queensland; Barcoo River, Torraburri Aboriginal tribe (= Wadjalang Aboriginal tribe of Tindale, 1974:186-187 (145°20'E x 25°50'S))] Hyde, in Curr, 1887(III):80, Sta. 155. See **boagalli, bogally, boligar, boogal, boogalli, boogalli, boogarli, boogurrie, bookilee, bowgili, buggilla, bugili, kandera, koarow, and quarroo.**

bookilee PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland and northern New South Wales; Warrego and Paroo rivers (possibly = Kunja Aboriginal tribe of Tindale, 1974:178 (146°-10'E x 26°50'S))] Hollingsworth, in Curr, 1887(III):282, Sta. 177. See **boagalli, bogally, boligar, boogal, boogali, boogalli, boogarli, boogurrie, bookill, bookilee, bowgili, buggilla, bugili, and mamuru.**

boongangooloom PARASTACIDAE, "lobster," probably = *Euastacus* sp. [Australia: Victoria; Healesville, Upper Yarra, Oorongir Aboriginal tribe (= Wurundjeri Aboriginal tribe of Tindale, 1974:208-9 (145°25'E x 37°40'S))] Curr, 1887(III):530, Sta. 209b. See **boongangooloom** and **galoom.** See also **boongangooloom, talakborong, and tooiyung.**

boonggāngooloom PARASTACIDAE, "lobster," probably = *Euastacus* sp. [Australia: Victoria; Seymour to Murchison, part of Goulburn River, Whroo, etc.; Ngooraialum Aboriginal tribe (= Ngurelban Aboriginal tribe of Tindale, 1974:207 (144°45'E x 36°40'S))] Curr, 1887(III):528, Sta. 209a. See **Yellami Boongangooloom.**

boorkoom PARASTACIDAE, "crayfish," probably = *Cherax neopunctatus* and/or *Euastacus* sp. [Australia: New South Wales; Clarence River (probably = Badjalang Aboriginal tribe of Tindale, 1974:191 (152°55'E x 29°15'S))] Bruce, in Curr, 1887(III):332, Sta. 184.

bopá PARASTACIDAE, *Cherax boschma*. [New Guinea] Holthuis, 1949:295, 324.

bōrpa PARASTACIDAE, "crayfish," probably = *Cherax* sp. and/or *Engaeus* sp. [Australia: Victoria; Murray River, Bangerang Aboriginal tribes (= Pangerang Aboriginal tribe of Tindale, 1974:207 (145°40'E x 36°25'S))] Curr, 1887(III):574. See **bōr-pa.**

bōr-pa PARASTACIDAE, "crayfish," probably = *Cherax* sp. and/or *Engaeus* sp. [Australia: Victoria; Murray River, near junction of the Murray and the Goulburn, the Bangerang Aboriginal tribes proper (= Pangerang Aboriginal tribe of Tindale, 1974:207 (145°-40'E x 36°25'S))] Curr, 1887(III):582, Sta. 214a. See **bōrpa** and **yinangī.**

bottlebrush crayfish CAMBARIDAE, *Barbicambarus*

cornutus. [U.S.: Barren and Green river systems in Kentucky and Tennessee] Williams, *et al.*, 1989:21; Hobbs, 1989:12.

bouragin PARASTACIDAE, "crayfish," probably = *Cherax neopunctatus* and/or *Engaeus* sp. [Australia: New South Wales; Richmond River (possibly = Arakwal Aboriginal tribe of Tindale, 1974:191 (153°-20'E x 28°50'S))] Edwards, in Curr, 1887(III):288, Sta. 178. See **burnicum** and **murry**.

bowgili PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Upper Warrego and Paroo rivers (probably = Kunja Aboriginal tribe of Tindale, 1974:178 (146°10'E x 26°50'S))] Conn, in Curr, 1887(III):278, Sta. 177. See **boagalli**, **bogally**, **boligar**, **boegal**, **boogali**, **boogalli**, **boogarli**, **boogurrie**, **bookill**, **bookilee**, **bowgili**, **buggilla**, **bugili**, and **mamuru**.

Brazoria crayfish CAMBARIDAE, *Procambarus (Capillicambarus) brazoriensis*. [U.S.: Texas; Brazoria Co.] Williams, *et al.*, 1989:25; Hobbs, 1989:55.

buggilla PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Bulloo River, Thargominda (= Thargomindah), Wonkomarra Aboriginal tribe, which may = Wongkumara Aboriginal tribe of Tindale, 1974:190 (141°50'E x 27°35'S), but more likely, from the map in Curr, 1887(I)IV, = Maranganji Aboriginal tribe of Tindale, 1974:181 (144°35'E x 27°20'S)]. The exact place designation of this tribe is confusing in that Tindale places the Wonkomarra tribe on Cooper's Creek, some 125 km W of Thargomindah. It is probable that Myles was referring to several tribes in the region with similar languages, but Curr's map shows Sta. 52 in the Maranganji tribal area] Myles, in Curr, 1886(II):36-40, Sta. 52. See **boagalli**, **bogally**, **boligar**, **boegal**, **boogali**, **boogalli**, **boogarli**, **boogurrie**, **bookill**, **bookilee**, **bowgili**, **buggilla**, and **bugili**.

bugili PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Paroo and Warrego rivers, Margany Aboriginal tribe (= Maranganji Aboriginal tribe of Tindale, 1974:181 (144°35'E x 27°20'S)), and Gunya Aboriginal tribe (= Kunja Aboriginal tribe of Tindale, 1974:178 (146°10'E x 26°50'S)). Note that this area is adjacent to the Bulloo

River] Dixon and Blake, 1981, Vol. 2:366. See **boagalli**, **bogally**, **boligar**, **boegal**, **boogali**, **boogalli**, **boogarli**, **boogurrie**, **bookill**, **bookilee**, **bowgili**, **buggilla**, and **mamuru**.

burnicum PARASTACIDAE, "lobster," probably = *Cherax neopunctatus* and/or *Eustacus* sp. [Australia: New South Wales; Ballina (possibly = Arakwal Aboriginal tribe of Tindale, 1974:191 (153°20'E x 28°-50'S))] Ross, in Curr, 1887(III):290, Sta. 178. See **bouragin** and **murry**.

buster CAMBARIDAE Used for crayfish just before or after molting. [U.S., especially in mid-West] Fitzpatrick, J.F., personal communication. See **Butterkrebs** and associated cross-references.

Butterkrebs ASTACOIDEA and PARASTACOIDEA Used for crayfish immediately after moulting, so-called because of softness of body. [Germany] Hoffman, 1980:24. See also **soft craw**, **soft crayfish**, **softie**, **soft shell crayfish**, and **soft-shelled crawfish**.

ca'am CAMBARIDAE, *Cambarellus (Cambarellus) montezumae*. [México: Totontepec Mixe Indians] Schoenhals and Schoenhals, 1965:325. See discussion under "crayfish Symbolism."

Cacchuma Literally, "Red Crawfish [People]." Spelling variation of **Shákci Homma**, q.v. Hodge, 1907, vol. 1:232, citing Jefferys, 1776:5.

caimbre ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Jura] Gozmány, 1979:118. André, 1960:133, also specifies Jura; Rolland, 1881, p. 231, specifies "Saint-Amour (Jura)," citing Monnier, 1823, which is likely also = Monnier, 1831, q.v.

Cajun dwarf crayfish CAMBARIDAE, *Cambarellus (Dirigicambarus) shufeldtii*. [U.S.: Missouri, southern Illinois, Kentucky, Tennessee, Arkansas, Louisiana, Texas, Mississippi, Georgia, and Alabama] Williams, *et al.*, 1989:21; Hobbs, 1989:10.

Cajun popcorn CAMBARIDAE, probably *Procambarus clarkii*, when cooked. [U.S.: Louisiana] Quinn, 1989:35. Also = "fried spiced crawfish tails." [Louisiana] Raichlen, 1991:F2.

calico crayfish CAMBARIDAE, *Orconectes (Gremi-*
cambarus) immunis. [U.S.: Maine to Colorado and
 Wyoming; Alabama to Manitoba, Ontario, and Quebec]
 Williams, et al., 1989:24; Hobbs, 1989:41.

California crayfish ASTACIDAE, *Pacifastacus*
(Pacifastacus) leniusculus. [U.S.: California, Idaho,
 Nevada, Oregon, Utah, and Washington. Canada:
 British Columbia. Introduced into Finland, Japan, and
 Sweden] Goldman, 1973:105; Hobbs, 1989:8.

californische rivierkreeft ASTACIDAE, *Pacifastacus*
(Pacifastacus) leniusculus. [Netherlands] Adema,
 1989:7.

camarão-de-água-doce ASTACIDAE [Portugal]
 Pietzschke, 1957 (1982), vol. 1:249.

camaron ASTACIDAE, *Astacus astacus* (*Astacus*
nobilis, *A. fluviatilis*, and *Potamobius fluviatilis*).
 [France: Île de France] Gozmány, 1979:118. Belloc,
 1899:142.

camarón de Las Vegas PARASTACIDAE, *Par-*
astacus pugnax and/or *P. nicolet*. [Chile] Rudolph and
 Zapata, 1986:37, say *P. nicolet*; Rudolph and Rios,
 1987:45, say *P. pugax*.

camarón de agua dulce ASTACOIDEA and PAR-
 ASTACOIDEA. [Spanish] Erize, 1960:151.

camaron reculador CAMBARIDAE, *Procambarus*
(Austrocambarus) llamasí. [Spanish] Morales and
 Bozada, 1987:201. See **crawdad** (verb, sense 1),
crawfish (verb, sense 1), **crayfish** (verb), **crayfish**
 (Symbolism), **gambero** (verb), and **mudbug** (verb).

cambarus crayfish CAMBARIDAE, *Orconectes*
(Faxonius) limosus (= *Cambarus affinis*). [Eu-
 rope/English] Mosimann and Hofman, 1985:38.

Camberkrebs CAMBARIDAE, *Orconectes limosus*.
 [Germany] Kuhlmann, in Westman et al., 1990:94.

cammaro ASTACIDAE [Italy (northern)] Belloc,
 1899:141; [Italy] Olszewski, 1980:21.

cammarus ASTACIDAE [Latin (ancient)] Belloc,
 1899:140. [Latin] Rolland, 1881:231, indicates the
 Basque **chamarra** derived from Latin *cammarus*, citing

Fabre, 1862.

Camp Shelby burrowing crayfish CAMBARIDAE,
Fallicambarus (Creaserinus) gordoni [U.S.] Fitz-
 patrick, J.F., personal communication, citing reports of
 the Champaign, Illinois, office of U.S. Corps of Engi-
 neers.

cancer ASTACIDAE [Belgium: Wallonia] van
 Maerland, 1266-1269 (1878), Boek v:9, line 251.
 [Latin] Anonymous, 1487, chapter cxlii.

cancre ASTACIDAE, *Astacus astacus* (*Astacus*
nobilis, *A. fluviatilis*, and *Potamobius fluviatilis*).
 [France] Gozmány, 1979:118. [France: Bourgogne]
 André, 1960:133. [France: Côte-d'Or (Bussy-le-
 Grand)] Rolland, 1881:231, citing personal communica-
 tion.

cangrejo ASTACIDAE, *Astacus fluviatilis* (*Astacus*
astacus). [Spain] Rolland, 1881:231.

cangrejo autoctono [ASTACIDAE, *Austropotamobius*
pallipes. [Spain] Habsburgo-Lorena, in Westman et
 al., 1990:161.

cangrejo blanco ASTACIDAE, pale forms from
 rivers. [Spain: Avila] Pardo, 1940:29. See **cangrejo**
mollar.

cangrejo de agua dulce ASTACOIDEA and PARAS-
 TACOIDEA. [Spanish] Erise, 1960:151.

cangrejo de las marismas = swamp crayfish.
 CAMBARIDAE, *Procambarus clarkii* (introduced).
 [Spain] Matehache, 1982:1.

cangrejo de río ASTACIDAE, *Astacus pallipes*
(Potamobius pallipes). Current usage is *Austropotamo-*
bius pallipes. [Spain] Gozmány, 1979:119; Ama-
 dor, 1983, p.190; Mosimann and Hofman, 1985:36,
 erroneously specify *Astacus astacus*; Gozmány,
 1979:118, cites this as Spanish for all ASTACIDAE.

cangrejo de rio americano CAMBARIDAE, *Orconec-*
tes limosus. [Spain] Cherry, 1992:21.

cangrejo de señal ASTACIDAE, *Pacifastacus (Pacif-*
astacus) leniusculus. [Spain] Cherry, 1992:21. See
cangrejo senjal.

cangrejo fluvial ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [Spain] Gozmány, 1979:118.

cangrejo mollar ASTACIDAE, pale forms from rivers. [Spain: Avila] Pardo, 1940:29. See **cangrejo blanco**.

cangrejo negro ASTACIDAE, dark forms from mill ponds. [Spain: Avila] Pardo, 1940:29.

cangrejo rojo CAMBARIDAE, *Procambarus clarkii* (introduced). [Spain] Robles-Clavijo, 1982:1.

cangrejo senjal ASTACIDAE, *Pacifastacus* (*Pacifastacus*) *leniusculus*. [Spain] Habsburgo-Lorena, in Westman et al., 1990:161. See **cangrejo de señal**.

cangrejo turco ASTACIDAE, *Astacus leptodactylus*. [Spain] Habsburgo-Lorena, in Westman et al., 1990:161.

carabus ASTACIDAE = "crab, cray-fish, or crevice." [U.K., (Latin)] Ainsworth, 1783.

caranguejo do rio ASTACIDAE [Portugal] Ferreira, 1975:174.

carauidia ASTACIDAE [Greek, "vulgaire"] Belloc, 1889:141. See **karavida**.

carauis ASTACIDAE [Greek, "vulgaire"] Belloc, 1889:141. See **karavida**.

cardinal ASTACIDAE "Cardinal, écrevisse dans l'argot des voleurs, qui ont l'honneur de se rencontrer avec Jules Janin, lequel a employé le même trop à propos du Homard, 'ce cardinal de la mer.' Cardinaux sans doute, ces crustacés décapodes, écrevisse mais seulement lorsqu'ils ont subi la douloureuse épreuve du court-bouillon." [France: on 19th century argot] Delvau, 1889:143. Also, "...excepté pour les homards et écrevisses que l'on cardinalise à la cuisson." [France: 16th century] Rabelais, 1553 (1942):139. See **armure à écrevisse**, **avoir une ecrevisse dans la tourte**, **avoir une ecrevisse dans le vol-au-vent**, **ecrevise**, **écrevisse** (Slang, sense 3), **écrevisse cuite**, **écrevisse de rempart**, **quatorzième ecrevisse**, and **rouge comme un écrevisse**.

carranc ASTACIDAE [Spain: Valencia] Pardo, 1940:29.

carranc de río ASTACIDAE [Spain: Valencia] Pardo, 1940:29.

carrda PARASTACIDAE, "crayfish," probably = *Cherax destructor*, *Eustacus* sp., and/or *Engaeus* sp. [Australia: Victoria; Upper Murray River (possibly = Duduroa Aboriginal tribe of Tindale, 1974:204 (147°-20E x 36°15'S))] Mitchell, in Curr, 1887(III):562, Sta. 213.

Carrollton crayfish CAMBARIDAE, *Procambarus (Girardiella) connus*. [U.S.: Mississippi] Williams, et al., 1989:25; Hobbs, 1989:56.

cave crayfish See **Dohlenkrebs**.

ceimwch afonydd = "river lobster." ASTACIDAE [N.W. Europe, Celts, *passim*: Gaelic] Evans, 1852:407. See also **cimwch**.

ceimwch coch = "red crayfish." ASTACIDAE [N.W. Europe, Celts, *passim*: Gaelic] Evans, 1852:407. See also **cimwch**.

ceimwch dwr croew = "fresh water lobster." ASTACIDAE [N.W. Europe, Celts, *passim*: Gaelic] Evans, 1852:407. See also **cimwch**.

ceimwch yr afon = "river lobster." ASTACIDAE [N.W. Europe, Celts, *passim*: Gaelic] Evans, 1852:407. See also **cimwch**.

chacal CAMBARIDAE Usually considered synonymous with *Cambarellus montezumae*, but Kreger and de Stairs, 1981:218) say the word refers to "crustáceo de agua dulce." However, the same authors (p. 407) say **chacal** probably = *Cambarellus montezuma* (sic). [México: derived from the Nahuatl (Aztec) *chacalin*, camarón grande] Santamaría, 1978:343. The congruence of the Mexican word *chacal* with the Spanish *chacal*, meaning "jackal," has caused confusion, as when Schoenhals and Schoenhals (1965:325) include: "ca' am *Cambarellus montezuma*[æ?] *chacalín*, *chacal*" in an appendix listing of the names of mammals in the Mixe de Totontepec language. See **chacalín**, "crayfish Symbolism" and **nas**.

chacalín See **chacal**.

Chacchooma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing Romans, 1775:315. Note: this probably = p. 209 of 1961 reprint edition, cited here.

Chacchouma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing La Harpe = Bénard de la Harpe, 1721:106, q.v.

Chacchuma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing Lattré, 1781, which probably = Lattré, 1783.

Chacci cuma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing Boudinot, 1816:126.

Chacci Ouma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing McKenney and Hall, 1854, vol. 3:80. Apparently = McKenney, 1868:80, cited here.

Chacehouma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing Jefferys, 1776:7.

Chachachouma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing McKenney and Hall, 1854(III):81. Apparently = McKenney, 1868:81.

Chachouma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing La Harpe = Bénard de la Harpe, 1721:110, q.v.

Chachuma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232,

citing Hervas, 1781(17):90 (= Hervas y Panduro, 1778-1787).

Chackchi-ooma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing Keane:506, in Stanford's Compendium by Bates, 1878, which = Kean, p. 506 (Appendix), in Bates, 1878.

Chacksihooma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing Keane:506, in Stanford's Compendium by Bates, 1878. See Keane, p. 506 (Appendix), in Bates, 1878.

Chacouma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing Tonti 1688:72, in French, 1849. See French, 1846-1853.

Chacoume Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing Coxe, 1741.

Chacsihoma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing Hawkins, 1799 (1848):15, in Collections of the Georgia Historical Society, 1848 (3).

Chacsihooma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing Romans, 1775:90. Note: this = p. 209 of 1961 reprint edition, cited here.

Chacsihoomi Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] McKenney, 1868:80.

Chactchi-ouma Literally, "Red Crawfish [People]." Variation of **Sháktci Homma**, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I): 232, citing du Pratz, 1758. = Le Page du Pratz, 1758.

Chactiouma Literally, "Red Crawfish [People]."

Spelling variation of Sháktci Homma, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing Jefferys, 1761.

Chacxouma Literally, “Red Crawfish [People].” Spelling variation of Sháktci Homma, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing Pénicaut in Margry, 1883(5): 575.

Chakchiuma “Red Crawfish [People].” Spelling variation of Sháktci Homma, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Swanton, 1953:176, 185.

chamarra ASTACIDAE [Spain: Basque provinces] Belloc, 1899:141. Rolland, 1881:231, indicates this word is derived from the Latin *cammarus*, citing Fabre, 1862.

chamberiot ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118; Belloc, 1899:142, specifies “Suisse française.”

chamberrot ASTACIDAE [France: Pays Romand] André, 1960:133. Rolland, 1881:231, specifies “Suisse romande,” citing Bridel, 1866. See *tsamberrot*.

chambre ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Gard, Isère, and a spring near Alais (= Alès)] Belloc, 1899:141; Rolland, 1881:231, specifies Isère, citing Charvet, 1846.

chambré ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Languedoc and Dauphiné; Rolland, 1881:231, specifies “provençal moderne,” citing Castor, 1843.

chambré de la Sorgo (écrevisse de la fontaine de Vaucluse). ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Provence] André, 1960:133.

chambri ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Provence, as does Belloc, 1899:141; Rolland, 1881:231, specifies “provençal moderne,” citing Honnorat, 1846.

chambrô ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Dauphiné] Gozmány, 1979:118; André, 1960:133; Belloc, 1899:144.

chambrô ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Dauphiné] Rolland, 1881:231, citing Champollion-Figeac, 1809.

changurru ASTACIDAE [Spain: Guipúzcoa] Rolland, 1881:231, citing Eys, 1873; Belloc, 1899:142.

chanvri ASTACIDAE [France: Provence] André, 1960:133.

Chiquesauma Literally, “Red Crawfish [People].” Spelling variation of Sháktci Homma, q.v. [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907(I):232, citing Iberville, 1699, in Margry, 1880(4): 180.

chawl' ASTACIDAE, probably *Pacifastacus* sp. [U.S.: California; Chimariko Indians (Hokan)] Merriam, 1979:231.

cheewagga PARASTACIDAE, “crayfish,” probably = *Cherax wasselli*. [Australia: Queensland; Thornborough Diggings, near head of Mitchell River (possibly = Djankun Aboriginal tribe of Tindale, 1974:167 (144°50'E x 17°5'S))] Hodgkinson, in Curr, 1886(II):412, Sta. 115.

chelgi PARASTACIDAE, *Cherax quincarinatus* and *C. crassimanus*. Australian English derived from Aboriginal word. [Australia: Northern Territory] Olszewski, 1980:16. See *chielghi*, *gilga*, *gilgie*, *goolgie*, *jilgi*, *jilgie*, *jilgy*, *joolgie*, and *julegie*.

chervonyi kubans'kyi rak See червоний кубанський рак, next citation.

червоний кубанський рак ASTACIDAE, *Pontastacus cubanicus daucinus*. [Ukraine] Brodsky, 1981:161. See *chervonyi kubans'kyi rak*, above.

cheval du diable = devil's horse. CAMBARIDAE [U.S.: Louisiana, New Orleans, Cajun French] Watson, 1843:233. See *grasshopper*, *Haschreckenkrebs*, *masan cay*, and *piau du diable*.

Chiachi-oumo Literally, “Red Crawfish [People].” Spelling variation of **Shákci Homma**, q.v. [U.S.: Mississippi; Shákci Homma Indians] Hodge, 1907(I):232, citing Schermerhorn, 1814, in Collections of the Massachusetts Historical Society, 1814(2nd series, vol. 2):15.

Chickamauga crayfish CAMBARIDAE, *Cambarus (Puncticambarus) extraneus*. [U.S.: Georgia and Tennessee; South Chickamauga Creek basin] Williams, et al., 1989:22; Hobbs, 1989:26. See **Crawfish Spring**.

chiboli PARASTACIDAE, “lobster,” probably = *Euastacus* sp. [Australia: Victoria; Piangil, Wotti-wotti Aboriginal tribe (= Watiwati Aboriginal tribe of Tindale, 1974:208 (143°25'E x 35°5'S))] Macredie, in Curr, 1887(III):448, Sta. 201. See **yappi**.

chielghi PARASTACIDAE, possibly = *Cherax* sp., although no freshwater crayfishes are now known from this locality. [Australia: Western Australia; Central Division, New Norcia and Leschenault Bay (100-125 km. N of Perth) (probably = Juat Aboriginal tribe of Tindale, 1974:243 (115°55'E x 30°55'S))] Salvado, in Curr, 1886(I):318, Sta. 16. See **chelgi**, **gilga**, **gilgie**, **goolgie**, **jilgi**, **jilgie**, **jilgy**, **joolgie**, and **julegie**.

chīpel PARASTACIDAE, “lobster,” probably = *Euastacus* sp. [Australia: Victoria, Swan Hill and Tyntynder, Wotti-wotti Aboriginal tribe (= Watiwati Aboriginal tribe of Tindale, 1974:208 (143°25'E x 35°5'S))] Beveridge, in Curr, 1887(III):444, Sta. 199. See **yāpi**.

Chocchuma Literally, “Red Crawfish [People].” Spelling variation of **Shákci Homma**, q.v. [U.S.: Mississippi; Shákci Homma Indians] Hodge, 1907(I):232, citing Durant, 1843:135.

Choccmaw Literally, “Red Crawfish [People].” Spelling variation of **Shákci Homma**, q.v. [U.S.: Mississippi; Shákci Homma Indians] Hodge, 1907(I):232, citing Pickett, 1851(I):131.

Choctaw riverlet crayfish CAMBARIDAE, *Hobbseus valleculus*. [U.S.: Mississippi; Choctaw, Attila, and Kemper counties] Williams, et al., 1989:23; Hobbs, 1989:33.

Chokchoomah Literally, “Red Crawfish [People].” Spelling variation of **Shákci Homma**, q.v. [U.S.:

Mississippi; Shákci Homma Indians] Hodge, 1907(I):232, citing Adair, 1775:66 and 352.

choo-ah ASTACIDAE, probably *Pacifastacus* sp. [U.S.: California; Yana Indians (Hokan)] Merriam, 1979:232.

choorn-gu PARASTACIDAE, “crayfish,” probably = *Cherax quadricarinatus*. [Australia: Queensland; Leichardt River 20 mi. below Kamilaroi Station (probably = Maijabi Aboriginal tribe of Tindale, 1974:180 (140°35'E x 19°10'S))] E. Curr, in Curr, 1886(II): 316, Sta. 95. See **jin-ju** and **junju**.

Choquichouman Literally, “Red Crawfish [People].” Spelling variation of **Shákci Homma**, q.v. [U.S.: Mississippi; Shákci Homma Indians] Hodge, 1907(I):232, citing Iberville, 1700, in Margry, 1880 (part 4):430.

Chouchouma Literally, “Red Crawfish [People].” Spelling variation of **Shákci Homma**, q.v. [U.S.: Mississippi; Shákci Homma Indians] Hodge, 1907(I):232, citing Tonti, 1684, in Margry, 1875(part 1):604.

Chowanoke crayfish CAMBARIDAE, *Orconectes (Crockerinus) virginianus*. [U.S.: North Carolina and Virginia, Chowan drainage system] Williams, et al., 1989:25; Hobbs, 1989:38.

Christmas tree crayfish CAMBARIDAE, *Procambarus (Hagenides) pygmaeus*. [U.S.: Savannah River to Putnam County, Florida, and also the Florida panhandle] Williams, et al., 1989:26; Hobbs, 1989:59.

cifrarák CAMBARIDAE, *Orconectes limosus*. [Hungary] Thuránszky and Pinter, in Westman et al., 1990:108.

cimwch coch = “red crayfish or lobster.” ASTACIDAE [N.W. Europe, Celts, *passim*: Gaelic] Anwyl and Anwyl, 1922:68. See also **ceimwch**.

cimwch yr afon = “river lobster.” ASTACIDAE [N.W. Europe, Celts, *passim*: Gaelic] Anwyl and Anwyl, 1922:68. See also **ceimwch**.

clawchee PARASTACIDAE. [Australia: Queensland; Australian English] Olszewski, 1980:16.

Coastal Lowland cave crayfish CAMBARIDAE,

Procambarus (Ortmannicus) leitheuseri. [U.S.: Florida; Hernando and Pasco counties] Williams, et al., 1989:26; Hobbs, 1989:67.

common crayfish ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [English] Gozmány, 1979:118. The term is ubiquitously used to denote any freshwater crayfish. See *obyknovennyi rak* (обыкновенный рак).

common river crayfish ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [English] Gozmány, 1979:118.

Conchas crayfish CAMBARIDAE, *Orconectes (Hespericambarus) deanae.* [U.S.: New Mexico; Canadian River basin, San Miguel and Quay counties] Williams, et al., 1989:24; Hobbs, 1989:43.

cooy CAMBARIDAE?, = "camaron, pescado." CAMBARIDAE? "el cangrejo," crayfish, if not crabs. [México: Yucatán; Maya] Alvarez, 1980:261; Pérez, 1866-1877:15.

coy' CAMBARIDAE?, = "camarón de río." [México: Chiapas; Ciudad de Copainalá, Zoque] Harrison et al., 1981:266.

crab CAMBARIDAE [U.S. (southern)] Olszewski, 1980:20.

crabba ASTACIDAE?, = "A crab, crawfish, a sign of the zodiac." [U.K.: Old English] Bosworth, 1881:61.

crab-fish ASTACIDAE, "...ou de l'Anglois *Crab-fish*, qui signifie Ecrevice." [U.K.] Corneille, 1694(I):349.

cradie PARASTACIDAE [Australia: central Queensland; Australian English] Olszewski, 1980:16.

craebbe See **crabba**.

cra-fish ASTACIDAE [U.K.] Bacon, 1635:189.

craigbosse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Côte-d'Or, Bourgogne] Gozmány, 1979:118. André, 1960:133, specifies Bourgogne; Rolland, 1881:230, and Belloc, 1899:141, specify Côte-d'Or.

cranc ASTACIDAE [France: Provence (ancient)] Belloc, 1899:141, referring to Belon, 1555; André, 1960:133 [Spain: Catalonia] Pardo, 1940:29.

cranc de ríu ASTACIDAE [Spain: Catalonia] Colomer, 1983:83; Pardo, 1940:29.

crang From the Latin *cancer*. ASTACIDAE [France: "ancien provençal"] Rolland, 1881:231, citing Raynouard, 1836-1844.

crauish ASTACIDAE [U.K.: Middle English?] "Pilles of certain fishes, as of Crauishes." Cooper, 1565.

cravaise ASTACIDAE, "the cray-fish." [U.K.: Anglo-Norman (the variety of Norman French spoken in England after the Norman Conquest)] Halliwell, 1904:278.

cravésse Gozmány, 1979:118, lists this word as French, perhaps taking it from Belloc, 1899:141. While the word apparently appears first in Belloc, who quotes Rolland, 1881:230, the word is not in Rolland, and is probably a misreading of "gravésse," q.v.

cravousse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Lorraine, as does Belloc, 1899:141. Rolland, 1881:230, cites Oberlin, 1775, on the patois of Lorraine in the vicinity of Ban de la Roche. See **gravousse**.

craw CAMBARIDAE [U.S.: northwest Arkansas] Carr, 1905:76; [U.S.] Vernon, in Hoey, et al., 1982:175.

crawbob PARASTACIDAE. [Australia: W. New South Wales, Australian English] Olszewski, 1980:16.

crawchee PARASTACIDAE. [Australia: western New South Wales, Australian English] Olszewski, 1980:16.

crawchie PARASTACIDAE. [Australia: Queensland, Australian English] Olszewski, 1980:16.

crawcrab CAMBARIDAE [U.S.: West Virginia] Cassidy, 1985:833.

crawdab CAMBARIDAE [U.S.: Missouri] Taylor, J.L.B., 1923:204.

crawdabber CAMBARIDAE [U.S.] Krishtalka, 1989:30.

craw-dabber CAMBARIDAE [U.S.: midwest] Ade, 1912:39.

crawdad CAMBARIDAE [U.S.: northwest Arkansas] Carr, 1905:76; [U.S.] North, 1963:38. [U.S.] Gozmány, 1979:118; PARASTACIDAE. [Australia: New South Wales] Olszewski, 1980:16.

crawdad Verb (slang, sense 1), = "to back out." [U.S.] Berrey and van den Bark, 1942 (1947):240. See **camaron reculador**, **crawfish** (verb, sense 1), **crayfish** (verb), **crayfish** (Symbolism), **écrevisse qui renifle**, and **gambero** (verb), **hsiang làgǔ** I yang hou t'ui, **hsiang làgǔ** I yang sa so, **kajae körüm**, marcher comme les **écrevisses**, and **marcher en écrevisses**.

crawdad Verb (slang, sense 2), = "to be obsequious." [U.S.] Berrey and van den Bark, 1942 (1947):308. See **crawfish**, **crayfish**, **cray-fish**, and **mudbug** as verbs.

Crawdad Place name, private airport. [U.S.: Georgia; SW of Savannah, (31°59'N x 81°15'W)] Aeronautical Chart, Jacksonville Section, scale 1:500,000.

Crawdad Creek Place name, stream. [U.S.: Washington; Snohomish Co.] Abate, 1991(9):708.

Crawdad Slough Place name, stream. [U.S.: Illinois, Cook Co.] Abate, 1991(6):27.

craw dad CAMBARIDAE [U.S.: Missouri] Taylor, J.L.B., 1923:204.

craw-dad CAMBARIDAE [U.S.: Kentucky] Shearin, 1911:37.

craw-daddy CAMBARIDAE [U.S.: Louisiana] Brown, Brown, & Brown, 1949.

crawdaddy CAMBARIDAE [U.S.] Krishtalka, 1989:30.

crawfffish ASTACIDAE "...at Burrowbridge I pass'd the River...Ouse... [which] affords very good fish

salmon and codffish and plenty of crawffish" [U.K.: Yorkshire] Fiennes, 1697 (1949):219. See Fiennes under **craw fish** and **crawfish**.

craw fish ASTACIDAE "From Knarsborough we went to Rippon [Ripon] a pretty little market town...and Craw fish 2 pence a Dozen so we bought them...." [U.K.: Yorkshire] Fiennes, 1697 (1949):83. See Fiennes under **crawffish** and **crawfish**.

Craw Fish Sp. Place name. Spelling variation of **Crawfish Spring**, q.v.

craw-fish ASTACIDAE [Norway] Pontoppidan, 1755, part II:175-175; CAMBARIDAE [U.S.] Say, 1817:168, 169.

craw-fish Verb (slang), = "to back out; refuse to any thing after starting to do it." Tefft, 1848:316. See **crawfish**, verb, sense 1.

crawfish This term is widely used for members of the ASTACOIDEA and PARASTACOIDEA, as well as for many marine crustaceans. Webster, 1852:280, suggests **craw** is derived from "crab" or from the Welsh "crag," a shell as in "*pysgod cragen*," shell-fish. He also suggests the "fish" in **crawfish** is from the last syllable of **écrevisse**. ASTACIDAE "...I went with my mother into Oxfordshire...to Hungerford 16 mile which is famous for Crawfish...." [U.K.: Berkshire; probably the Kennet River] Also, "...Kanck-wood [Cannock Wood], which is but a barren heath ground but...its full of little brooks and rivulets which abounds with crawfish...." [U.K.: Stafford] Fiennes, 1697 (1949):23, 166; "...But all must stoop to Crawfish Soop...." [U.K.] D'Urfe, 1719(I):268; "The Cray-fish or Crawfish is an inhabitant of fresh water." [U.K.] Donovan, 1837, II, 213. CAMBARIDAE [U.S.: northwest Arkansas] Carr, 1905:76; [U.S.: New York] Kieran, 1959:74; [U.S.: very common usage in south]. PARASTACIDAE. [Australia] Johnston, 1976:192.

Penn (1943:1) discussed his feelings on the crayfish/crawfish controversy, and, while somewhat dated and limited in scope, is worth repeating here (my notes in brackets):

"The name *crawfish* is used in this paper because it is believed to be the most common common-name for the species of crawfishes of the genus *Cambarus* to which they belong; and, it is the only common name for these animals throughout the South and in other

rural sections of the United States, notwithstanding the belief of many who propound that our 'crawfish' are known elsewhere by the "correct name of *crayfish*." *Crawfish* has long been credited as correct in scientific writing and not only occurs almost as frequently as *crayfish*, but was used as a common name by Say (1817, ["craw-fish," pp. 168-169, q.v.]) many years earlier than *crayfish* by Huxley (1884 [1880, *passim*]). The European word *crayfish* is used by teachers of zoology probably because of Huxley's classic contribution; however, *crawfish* is still the usual term applied to fresh-water crustaceans of the genus *Cambarus* in the U.S...."

See Fiennes under *crawffish* and *craw fish*. See also *crayfish*, *écrevisse* and *shrimp*.

crawfish Verb (slang, sense 1), = "to back out." "But no sooner did they see the old British Lion rising up..than they crawfished back to 49 [degrees]." [U.S.: United States Congress, possibly first recorded use of *crawfish* as a verb] Charles E. Stuart of Michigan, *The Congressional Globe*, 1848:277; "I crawfished as fast as I could about two yards" [U.S.: midwest] Twain, 1884:103; [U.S.: southeastern Missouri] Crumb, D.S. 1903:310; "To withdraw unreservedly from an untenable position" [New Zealand soldiers in WW II] Partridge, 1950:189.

Crawfish Lake Place names, lakes. [U.S.: Oregon, Grant Co. and Lane Co.] Abate, 1991(9):524; [U.S.: Washington, Okanongan Co.] Abate, 1991(9):708.

crawfish land Low, watersoaked ground. CAMBARIDAE [U.S.: northwest Arkansas] Carr, 1906:132.

Crawfish Meadow Place name, meadow. [U.S.: Oregon; Grant Co.] Abate, 1991(9):524.

crawfish policy Disparaging term used by Jefferson Davis referring to the practices of Beauregard and J. Johnston in the 1861-62 U.S. Civil War campaigns. [U.S.] Davis, 1991:459, line 23. See *camaron reculador*, *crawdad* (verb, sense 1), *crayfish* (verb), *gambero* (verb), *hsiang làgǔ I yang hou t'ui*, *marcher comme les écrevisses*, and *marcher en écrevisse*.

Crawfish Pond Place name, lake. [U.S.: Alabama; Talladega Co.] Abate, 1991, volume 4:61.

Crawfish River Place name, river. [U.S.: Wisconsin, Jefferson Co.] Abate, 1991, volume 6:670.

Crawfish-Spring Place name. Spelling variation of **Crawfish Spring**, q.v.

Crawfish Spring Place name. [U.S.: NW Georgia; Walker Co., SW corner of Chickamauga Battlefield (U.S. Civil War)] Turchin, 1888, pocket maps, text maps, and pp. 64-65. Spelling variations in same volume: **Crawfish-Spring** (p.63), **Craw Fish Sp.** (Maps 2,3,4) and **Crawfish Springs** (Map No. 6). See also **Crawfish Spring Lake** and **Chickamauga crayfish**.

Crawfish Spring Lake Place name, lake. [U.S.: Georgia, Walker Co.] Abate, 1991, volume 3:187. Lake is apparently on site of **Crawfish Spring** (see above) and associated stream leading into Chickamauga Creek. See **Crawfish Spring**, above.

Crawfish-Spring road Place name. See **Crawfish Spring**.

Crawfish Tank Place name, reservoir. [U.S.: Texas; Garza Co.] Abate, 1991, volume 5:442.

Crawfish Springs Place name. Spelling variation of **Crawfish Spring**, q.v.

Crawfish Town Place name, [U.S.: Louisiana; New Orleans] Berrey and van den Bark, 1942 (1947):48.

Crawfish Valley Place names, valleys. [U.S.: Georgia; Walker Co.] Abate, 1991, volume 3:187; [U.S.: Virginia, Wythe Co.] Abate, 1991, volume 3:628.

crawjinny CAMBARIDAE [U.S.: Iowa] Strong, 1940:249.

crawldaddy CAMBARIDAE [U.S.] Krishtalka, 1989:30.

crawl-daddy CAMBARIDAE [U.S.: Louisiana] Brown, Brown, & Brown, 1949.

crawler PARASTACIDAE. [Australia: South Aus-

tralia; Australian English] Olszewski, 1980:16.

crawley-fish PARASTACIDAE. [Australia: New South Wales; English] Olszewski, 1980:16.

craw-pappy CAMBARIDAE [U.S.: Arkansas] Randolph, 1931:99.

crawpappy CAMBARIDAE [U.S.] Krishtalka, 1989:30.

cray PARASTACIDAE. [Australia] Johnston, 1976:192. ASTACIDAE? "Soup Vermecell, souc'd turbet, cray and soals." [U.K.: Scotland; Scottish] Grant and Murison, 1952, vol. III:239, quoting Allan Ramsay, 1728, vol. 2:10.

craybob PARASTACIDAE. [Australia: south-western New South Wales and New England; Australian English] Olszewski, 1980:16.

craydad CAMBARIDAE [U.S.: midwest] Cassidy, 1985:833.

cray fish PARASTACIDAE [New Zealand] Taylor, Richard, 1870:295. CAMBARIDAE [U.S.: Missouri] Taylor, J.L.B., 1923:204.

cray-fish ASTACIDAE "The Cray-fish or Crawfish is an inhabitant of fresh water." [U.K.] Donovan, 1837, II, 213; [U.K.] Wood, 1858:60; "From his lurking hole Had pulled the Cray-fish." [U.K.] Browne, 1613, II, iii; "crab, cray-fish, or crevice." [U.K.] Ainsworth, 1783. CAMBARIDAE [U.S.: Kentucky] Shearin, 1911:37; [U.S.: midwest] Ade, 1912:39.

cray-fish Verb, = to catch crayfishes. "Others were engaged in the delicate amusement of cray-fishing" [U.S.] Ingraham, 1835:174. See **crawdad**, **crawfish**, **crayfish**, **mudbug**, and **yabbie** as verbs.

crayfish ASTACIDAE, CAMBARIDAE, PARASTACIDAE [English: (Europe, North America, Australasia)] Mosimann and Hofman, 1985:37, 39. CAMBARIDAE [U.S., northeast: New York] Kieran, 1971:74, says it is colloquially spelled and pronounced "crawfish." PARASTACIDAE. [Australia] Johnston, 1976:192; [New Zealand] Olszewski, 1980:21. Although "crayfish" and "crawfish" are universally used correctly by English-speakers to denote freshwater

crustaceans belonging to the Astacoidea and Parastacoidea, both words are also used by some to designate lobsters, shrimp, or other aquatic animals as well. This lack of consistency causes much confusion.

Almost a century ago, Stebbings (1902:187) attempted to "nail the name crayfish hard and fast to the ...river-liver...reserving [crawfish] for the marine animal sometimes called the rock-lobster." Despite his eloquence and reasoning, his and other's attempts to lessen the confusion have been unsuccessful. I strongly favor using "crayfish" and "crawfish" solely for the Astacoidea and Parastacoidea—leaving other words for the lobsters, shrimps, and miscellany. See **crawfish**.

crayfish Verb, slang, = "to back out or retreat." "The steamer was just crayfishing away from a mud island, where she had tied up for more wool." [Australia] Lawson, 1900:63. "Such hedging and crayfishing about only postponed the dread business." [Australia] Hackston, 1966:203; "But from time to time, as if his vital spirit had something of the crayfish, he moved backward in moments of inertia...." Eco, 1983:16. See **camaron reculador**, **crawdad** (verb, sense 1), **crawfish** (verb, sense 1), **crawfish policy**, **crayfish** (verb), **crayfish** (symbolism), **gambero** (verb), **hsiang làgǔ** I yang hou t'ui, **Incaktcakáfa**, **kajae körüm**, **lung hia**, **marcher comme les écrevisses**, and **marcher en écrevisse**, **ooy**, **rabouiller**, and **sas**.

crayfish Symbolism. Crayfish are said, without amplification, (de Vries, 1974:116) to symbolize "1. nonchalance; 2. laziness; 3. loss of faith; 4. Synagogue, as personification of the Jewish religion." On p. 328, de Vries also discusses the Moon Card of the Tarot deck (Smith, 1971) which depicts what he refers to as "a lobster-like crab." This "crab," which is more likely a crayfish, is said to denote "involution, regression to a more primitive state (the crab eating away what is transitory)...." The negative "laziness," "loss of faith," and "regressive" associations are reflected in the English, Chinese, and Korean slang verb forms, q.v., but are in contrast with the Chickasaw **Incaktcakáfa** ("They are crayfish," i.e. a very bright and active people") and the Mayan **rebus** which associates crayfish and shrimp with goodness, nobility, and beauty.

This latter sense is discussed by Stross (1989:143-164), who proposes that the crayfish icon used by the Mayas is a rebus usage, representing a word by depicting a homophone of it—i.e. by depicting something else bearing a similar sounding name. In this case he cites the Zoque **sas** (= crayfish) with the Zoque **sa'sa** (=

beautiful); the Popoluca **ooy** (= shrimp/ crayfish) with the Popoluca **oy** (= good, fine, nice); and the Mixe **kAA'xm** (= shrimp) with **kAhxm** (= high, exalted).

Magette, 1983:61, discusses Balzac's use of crayfish-related symbolism in *La Rabouilleuse* (Balzac, 188? (1966):131 et seq. Here, Balzac explains that *rabouiller*, q.v., is a provincial word denoting the trapping freshwater crayfishes by stirring up the water with a tree branch to frighten the crayfishes into traps. Flore Brazier, a young *rabouilleuse* whom Dr. Rouget meets, snares Jean-Jacques, who corresponds to the crayfish.

de Tervarent (1958:151-152) discusses **écrevisse** as a symbol of inconstancy, contrary fortune, and idleness—using the crayfish in medieval art to illustrate these attributes.

See **ca'am**, **camaron reculador**, **crawdad** (verb, sense 1), **crawfish** (verb, sense 1), **crawfish policy**, **crayfish** (verb) **crayfish** (Symbolism), **gambero** (verb), **hsiang làgǔ** I yang hou t'ui, **Incaktcakáfa**, **kajae körüm**, **lung hia**, **marcher comme les écrevisses**, **marcher en écrevisse**, **ooy**, **rabouiller**, and **sas**.

Crayfish Creek Place name, stream. [Australia: Tasmania, (147°21'E x 42°57'S)] See **Yellami Boon-gangooloom**.

creauis ASTACIDAE "A freshwater Creauis" [England: Middle English] Dodoens, 1557:426. Also, "Creauises are good for Hectickes" [England: Middle English] Benvenuto Italiano, 1612, paragraph 87:163.

Crebs ASTACIDAE [Germany] Corneille, 1694(I):349.

creeft ASTACIDAE [Netherlands] van Maerlant, 1266-1269 (1878), Boek V:9, line 251.

creekcrab CAMBARIDAE [U.S., southeast: Louisiana] Raichlen, 1991:F2.

crefish ASTACIDAE "The Crefish are some of them red, when they are raw, and some Azure coloured, some of them are not red after boyling, they are taken notice of to have three teeth in the Stomack, and the Males to have a double Penis" [U.K.] Wagnero, 1683:269.

crefysshe ASTACIDAE "...yf you take a good sort of Crefyshes...." [U.K.: English] Heresbach, 1496-1576 (1601), Book II:69. See **crefysshe**.

crefysshe Although freshwater crayfishes are found naturally in Mexico, Guatemala, Honduras, and Belize, this is a doubtful reference to freshwater crayfishes *sensu stricto*, as the description apparently is of animals inhabiting southern Central America, probably Panama. More likely, the animals referred to were atyid shrimps. "...full of gressehoppers, grylles, crabbes or crefysshes...." [U.K.: Middle English?] Eden, 1555:115. See *crefyshe* and *creuysshe*.

créifis ASTACIDAE [Romania] Schoenkron, 1952:100.

crepel = "a little creeper, or crawfish." ASTACIDAE [U.K.: Old English] Bosworth, 1881:61. Toller, 1921:134, says *crépel* = crib. In this case, *crib* may be a form of *crab*, as in Wright, 1898, vol. 1:761. But Toller, 1898:170, shows *crépel* = a burrow. There may be a certain obscure consistency in all of this.

creues ASTACIDAE "A creues, dyght hym thus: depart hym a-sonder, & slytee the belly...." [U.K.: Middle English] Wynken de Worde, 1413, in Furnivall, 1868, page 281, line 20.

creuesses ASTACIDAE "Pan comes ðare-out creues-
ses ·of manykins hewis, Scorpions þaim to scere ·&
scalid neddirs, And þai so large & so laith ·& so lowd
schrikis, bat all be soile of þa sidis...." [U.K.: Middle
English; probably 1400-1450] The Wars of Alexander,
edited from MS. Ashmole 44 in the Bodleian Library,
Oxford, and MS. D.4.12 in the Library of Trinity
College, Dublin, by Walter W. Skeat 1886:219, line
3864. Hendrickson, 1987:139, says crayfish, first
recorded as *creuesse* in England early in the 15th
century, was corrupted to crayfish by 1597, but he
gives no additional details; he may have this reference
in mind. See *crevesses*. But also see *creuez* and *creu-*
is, dating from 1390-1 and 1345-6, respectively.

creuez ASTACIDAE "Item, pro pikerell et creuez, j
duc. lxiijj. s." [U.K.: Middle English] Expeditions to
Prussia and the Holy Land... 1390-1 and 1392-3, in
Smith, Lucy T., 1894, 215/20.

creuis ASTACIDAE "In creuis empt. pro pitancia
Conuentus." [U.K.: Middle English, 14th century]
Sacrist Rolls of Ely, 1345-6, in Chapman, 1908, vol.
2:129; "The tayle of a lobster, or river Creuis."
[U.K.: Middle English] Dodoens, 1557:60.

creuviche ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Bourgogne; Rolland, 1881:230, specifies Côte-d'Or.

creuvisse ASTACIDAE, *Astacus astacus* (*A. nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Bourgogne; Belloc, 1899:141. specifies Côte-d'Or.

creuysshe ASTACIDAE "...hath in the steade of
flesshe a certeyne substance like vnto the fleshe of
creuysshes" [U.K.: Middle English] Eden, 1555:302.
See *crefysshe*.

creveiceron ASTACIDAE, "petite écrevisse."
[France: 13th century] Greimas, 1969:150-151.

crevesses ASTACIDAE "Than comes thare out
crevesses/ of manykins hewis/ Scorpions thaim to
scere/and scalid neddirs..." [U.K.: Middle English;
1400-1450] Stevenson, 1849, line 3864. Note that this
is another rendition of the same manuscript described
under *creuesses*, above, but using the "th" instead of
the thorn and a v instead of a u in *crevesses*.

crevet ASTACIDAE [Netherlands] van Maerlant,
1266-1269 (1878), Boek V:9, footnote to line 252.

crevette ASTACIDAE [Netherlands] van Maerlant,
1266-1269(1878), p.10, foot- note to line 274.

creveys ASTACIDAE [U.K.: Middle English]
Anonymous, 1460, Ms. K.

crevez dew douz ASTACIDAE "...to rost Eles/
lampurnes/ Crevez dew douz, and breme de mere...."
[U.K.: England; Middle English] Russell, ca. 1475, in
Furnivall, 1868:174, line 848.

crevice (Sense 1) ASTACIDAE, [France: end of
13th century] Belloc, 1899:141, referring to Belon,
1555; [France: 11-14th centuries, dialects of northern
France (Langue d'Oil)] Bos, 1891:114; "(A) crevice,
first a spron frey, then a shrimp, then a sprawn, and
when it is large then called a crevice." [U.K.: English]
Randle Holme ca. 1688, quoted by Phipson, 1883:435;
"Crab, cray-fish, or crevice" [U.K.: Middle English]
Ainsworth, 1783. Said by Rolland, 1881:230, to be
related to Old High German *Krebiz*, and to date from

the 13th century in France; but also said by Bos (see above) to be derived from German **Krevisse**, q.v., and to have been used from 11-14th centuries. See also **armure à écrevisse**. See also next entry.

crevice (sense 2) = **armure** [France: 11-14th centuries, dialects of northern France (*Langue d'Oil*)] Bos, 1891:114. Greimas, 1969:150-151, describes it as "Armure faite de bandes d'acier articulées à la manière des anneaux d'une écrevisse." See **armure à écrevisse**. See also **krevisse**.

crevicia ASTACIDAE [U.K.: medieval Latin] Latham, 1981:517.

crevik ASTACIDAE [Netherlands] Olszewski, 1980:14.

crevis ASTACIDAE "In sperling", crevis, lopsters, et pisc aque dulcis, 4s. 10p." [U.K.: Middle English, 14th century] Account Rolls of the Abbey of Durham, 1311-2, in Fowler, 1898, vol. 99:9; "...because swine [having fed on henbane] seek after Crevises...." [U.K.: Middle English] Coles, 1657, lviii. According to Webster, 1852:283, this was little used by the mid-19th century. See also **river crevis**.

crevis dewe douze ASTACIDAE "A Crevis dewe douze, Cut his belly away..." [U.K.: England; Middle English] Russell, ca. 1475, in Furnivall, 1868:159, line 616.

crevis douse ASTACIDAE "Porpas rosted. Munse fried. Crevis douse." [U.K.: England; Middle English] Kurath, 1959, vol. C-DYWE:727.

crevise ASTACIDAE "Crevise/bus wise ye must dight:" [U.K.: England; Middle English] Russell, ca. 1475, in Furnivall, 1868:158, lines 604-5. Thomas Wright, 1857:355, crevise was used in England before the 19th century.

crevise dewe douz ASTACIDAE "Perche in gely/ Crevise dewe douz/ pety perueis with þe moost." [U.K.: England; Middle English] Russell, ca. 1475, in Furnivall, 1868:166, line 707. In a footnote Furnival says "pety perueis" may be pies of carp and eels roasted and minced with spices.

crevish ASTACIDAE "If crabs or river Crevish,

were hanged up and exposed to the Sun for ten daies, they will drive out Catterpillers from Pot herbs." [U.K.] Muffett, 1658:1041; "But this Sir Christopher [Metcalfe] is also memorable for stocking the river Yower in this County...with Crevishes (which he brought out of the South) where they thrive in plenty and bigness." [U.K.: Yorkshire] Fuller, 1662:223; [U.K.: Scotland] Jamieson, 1818, unpaginated; 1846:170.

crevit ASTACIDAE [Netherlands] van Maerlant, 1266-1269 (1878), Boek V:9, line 252.

crevy ASTACIDAE "...for v. crevys ij. d." [England: Middle English] Anonymous, 1481-1490:84.

crevyse deau douce ASTACIDAE "Shell fyshe, excepte crevyse deau douce." [U.K.: England; Middle English] Elyot, 1539:15a.

cribisse CAMBARIDAE, probably *Procambarus clarkii*. [U.S.: Louisiana; Cajun French] Botkin, 1955:580.

Crittenden crayfish CAMBARIDAE, *Orconectes (Crockerinus) bisectus*. [U.S.: Kentucky; Crittenden County, Ohio River drainage] Williams, et al., 1989:23; Hobbs, 1989:35.

crow dab CAMBARIDAE [U.S.: Missouri] Taylor, J.L.B., 1923:204.

crow dad CAMBARIDAE [U.S.: Missouri] Taylor, J.L.B., 1923:204.

crow pappy CAMBARIDAE [U.S.: Missouri] Taylor, J.L.B., 1923:204.

crófis ASTACIDAE [Romania] Schoenkron, 1952:100.

csókarák ASTACIDAE, *Astacus pallipes* (*Potamobius pallipes*). Current usage, *Austropotamobius pallipes*. [Hungary] Gozmány, 1979:119.

csúllós rák ASTACIDAE, *Astacus leptodactylus* (*Potamobius leptodactylus*). [Hungary] Gozmány, 1979:119.

Cuban slender digit crayfish See **kubanskogo**

dlinnopalogo rak.

cuinci PARASTACIDAE, probably = *Cherax destructor*. [Australia: Queensland: vicinity of Mt. Isa, Kalkatunga Aboriginal tribe (= Kalkadunga Aboriginal tribe of Tindale, 1974:173 (140°0'E x 20°55'S)) Blake, 1969:84. See *jakalaan* and *tumpan*.

cunder PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Natal Downs Station, Cape River, Pegulloburra Aboriginal tribe (= Ilba Aboriginal tribe of Tindale, 1974:181 (146°50'E x 20°50'S))] Chatfield, in Curr, vol. II:482, Sta. 131.

cypress crayfish CAMBARIDAE, *Cambarellus (Pandicambarus) blacki*. [U.S.: Florida; Escambia County] Williams, et al., 1989:21.

сухопалый рак ASTACIDAE, *Pontastacus leptodactylus salinus*. [Ukraine] Brod-sky, 1981:154. = *sukhopalyi rak*, q.v.

сухопалый рак ASTACIDAE, *Pontastacus leptodactylus salinus*. [Russia] Brod-sky, 1981:154. = *sukhopalyi rak*, q.v.

dagllu PARASTACIDAE, = "Camarón o cangrejo de agua dulce." Also = "*Parastocus*" sp. [Argentina/Chile: Araucano, Pehuenche, Pampa, Picunche, Rancülche, and Huilliche Indians; Mapuche language] Erize, 1960:151,451. = **daullu** and **sagllu**, q.v.

dalai in naimalchin "Cray-fish" in primary reference, but in vol. II:1072 it is translated as "blue-crab in ocean" and as "sea crayfish" and "lobster." [Mongolia] Boberg, 1955, vol. III:124.

= **dalai in naimalchin**, see above. Note that the Mongolian language is written and read perpendicularly from the left to the right; thus these words would normally be rotated 90° to the right. See also **sam khorokhai**.

Dalhousie Springs yabbie PARASTACIDAE, *Cherax destructor-albidus*. [Australia: South Australia; NE of Oodnadatta] Horwitz, 1990:90.

danbee PARASTACIDAE ?, "lobster"? This does not coincide with any present-day freshwater crayfish distribution, and could be some organism other than the

crayfish, or an unknown crayfish inhabiting subterranean waters. [Australia: Western Australia; South-Eastern Division, Nullarbor Plain, Eyre's Sand Patch, Wonunda Meening Aboriginal tribe (= Mirning Aboriginal tribe of Tindale, 1974:248 (128°0'E x 31°-10'S))] Williams, in Curr, 1886(I):398, Sta. 34. Note similarity of word with **danibutch**a, q.v.

danibutcha PARASTACIDAE, "lobster," probably = *Cherax destructor*. [Australia: South Australia; Yorke's (Yorke) Peninsula (not Cape York Peninsula, Queensland), (probably = Narangga Aboriginal tribe of Tindale, 1974:214 (137°35'E x 34°35'S))] Kühn, in Curr 1886(II):146, Sta. 67. See **worronguna**. Note similarity of word with **danbee**, q.v.

daullu See **dagllu**.

deda PARASTACIDAE, as well as shrimps and lobsters. [Madagascar: Fort Dauphin region] Poisson, 1947:13.

dede Pronounced dayday. PARASTACIDAE, *Cherax longipes* and *Cherax solus*. [New Guinea: Tigi Lake area] Holthuis, 1949:295, 319.

dendong PARASTACIDAE. [Australia: Gippsland; Victorian Region groups] Mathew, 1899:230-231. Because of the number of Aboriginal tribes in the Gippsland area in the 1890s, greater specificity is impossible.

devil crawfish CAMBARIDAE, *Cambarus (Lacunicambarus) diogenes*. [U.S.: widespread east of the Rockies and south of the Great Lakes, except Florida peninsula, the Alleghenies, and northeast of New Jersey and east of western Pennsylvania in Mississippi drainage; primary burrowing crayfish] Williams, et al., 1989:22; Hobbs, 1989:24.

devil's fleas See **piau du diable**.

devil's horse CAMBARIDAE [U.S.: Louisiana; New Orleans] Watson, 1843:233. See **cheval du diable**, **grasshopper**, **Haschreckenkrebs**, and **masan cay**.

dib-dib PARASTACIDAE, *Eustacus armatus*. [Australia: New South Wales; Victorian group, Madi-madi Aboriginal tribe (= Muthimuthi Aboriginal tribe of Tindale, 1974:197 (143°20'E x 34°25'S))] Hercus, 1969a:332, 422.

dibil PARASTACIDAE, *Euastacus armatus*. [Australia: New South Wales; Victorian group, Madimadi Aboriginal tribe (= Muthimuthi Aboriginal tribe of Tindale, 1974:197 (143°20'E x 34°25'S))] Hercus, 1969b:3.

didbee PARASTACIDAE, "crayfish," probably = *Cherax gladstonensis*. [Australia: Queensland; Keppel Bay, Calliope River, and Curtis Island, Byellee Aboriginal tribe (= Baiali Aboriginal tribe of Tindale, 1974:164 (150°55'E x 23°40'S))] Curr, 1887(III):114, Sta. 160.

dirndung-dirnduk PARASTACIDAE. Same word used for "crayfish" and freshwater "lobster," probably = *Cherax* sp., *Engaeus* sp., and *Euastacus* sp. [Australia: Victoria; "Gippsland," (data given do not allow tribal designation)] Curr, 1887(III):552, Sta. 210.

ditch bugs CAMBARIDAE [U.S.] Strung, 1985, p.58.

ditch fencing crayfish CAMBARIDAE, *Faxonella clypeata*. [U.S.: Oklahoma and Texas, east to Florida and South Carolina] Williams, et al., 1989:23; Hobbs, 1989:32.

dixie lobster CAMBARIDAE [U.S.: southeast] Olszewski, 1980:20.

djambre ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Gard] Rolland, 1881:231.

djambré ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Languedoc] Gozmány, 1979:118; André, 1960:133; Belloc, 1899:141, species Gard.

dlinnonogī rechnoī rak See **длинноногий речной рак**, next citation.

длинноногий речной рак ASTACIDAE, *Astacus leptodactylus* (*Potamobius leptodactylus*). [Russia] Gozmány, 1979:119.

dlinnopalyī rak See **длиннопалый рак**, see next citation.

длиннопалый рак ASTACIDAE, *Pontastacus leptodactylus leptodactylus*. [Russia] Brodsky,

1981:151. See **dlinnopalyī rak**, above.

dlinnopalyī rechnoī rak See **длиннопалый речной рак**, next citation.

длиннопалый речной рак ASTACIDAE, *Astacus leptodactylus* (*Potamobius leptodactylus*). [Russia] Gozmány, 1979:119.

Dohlenkrebs ASTACIDAE, *Austropotamobius pallipes*. [Germany] Mosimann and Hofman, 1985:37.; [Austria] Wintersteiger, in Westman et al., 1990:38.; [Switzerland] Büttiker et al., in Westman et al., 1990:180.

dookami PARASTACIDAE, "lobster," probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: New South Wales; Wagga Wagga (probably = Wiradjuri Aboriginal tribe of Tindale, 1974:201 (147°30'E x 33°50'S))] Bayles, in Curr, 1887(III):392, Sta. 190. See **yingar**.

Doughtery Plain cave crayfish CAMBARIDAE, *Cambarus (Jugicambarus) cryptodytes*. [U.S.: several caves in Georgia and Florida] Williams, et al., 1989:22; Hobbs, 1989:22.

dovghopalyī rak See **довгопалий рак**, next entry.

довгопалий рак ASTACIDAE, *Astacus leptodactylus* (*Potamobius leptodactylus*). [Ukraine] Cherry, 1992:20. See **dovghopalyī rak**, above.

dunays'kyī kam'yanī rak See **дунайський кам'яний рак**, next citation.

дунайський кам'яний рак ASTACIDAE, *Austropotamobius (Austropotamobius) torrentium natio danubicus*. [Ukraine] Brodsky, 1981. p. 183. See **dunays'kyī kam'yanī rak**, above.

dunayskyī kamennyī rak See **дунайский каменяный рак**, next citation.

дунайский каменяный рак ASTACIDAE, *Austropotamobius (Austropotamobius) torrentium natio danubicus*. [Russia] Brodsky, 1981. p. 183. See **dunayskyī kamennyī rak**, above.

ecreuisse ASTACIDAE, *Astacus astacus* (*Astacus*

nobilis, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Bourgogne and Poitou; Belloc, 1899:141, specifies Poitou and Côte-d'Or.

écrebisse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Poitou and Bussy-le-Grand] Rolland 1881:231.

écrevice ASTACIDAE [France] Corneille, 1694(I):349; Phipson, 1883:435, quoting Holme 1688 (but I was unable to find the word in Holme); [France: Champagne] André, 1960:133.

écrevice Slang, = “Sorte d’armes anciennes. C'estoient des cuirasses faites de lames de fer, mises les unes fur les autres à la maniere des écailles d’Ecrevices.” [France: 17th century] Corneille, 1694(I):349. See **armure à écrevisse** and **écrevisse de rempart**.

écrevice d'eau douce ASTACIDAE [France] Corneille, 1694(I):349.

écrevice de rivière ASTACIDAE [France] Corneille, 1694(I):349.

écrevisse CAMBARIDAE [Canada (eastern)] Lemoine, 1911:216.

écrevisse ASTACOIDEA and PARASTACOIDEA [France] Gozmány, 1979:118; Rolland, 1881:231, designates its use as both “français” and “français vulgaire”; Belloc, 1899:140, says “vulg. et étrang.” [Belgium: Wallonia] Cherry, 1992:19. CAMBARIDAE [Canada] Vinay et al., 1962:142. See **crawfish**, **crayfish**, **crevice** (Sense 1), **shrimp**, and **vissécre**.

écrevisse Slang, (sense 1), = *blacksmith's lever-grip tongs*. [France: 20th century] Ferrar and Biard, 1980:179 (French-English); Mansion, 1972:E:10.

écrevisse Slang, (sense 2), = *Englishman*. [Spain: 19th century] Dupouy, in Mérimée, 1846 (1927):66, says, “Nom que le peuple en Espagne donne aux Anglais à cause de la couleur de leur uniforme.” See **cardinal**.

Écrevisse Name of stream. [France: 47°35'N x 6°58'E] France: Official Standard Names Gazetteer, U.S. Board on Geographic Names, Washington, D.C.

écrevisse américaine banale ASTACIDAE *Orco-*

nectes (Faxonius) limosus [France] Noel, 1992:73.

écrevisse à pattes blanches ASTACIDAE *Astacus pallipes pallipes* [France] Noel, 1992:72.

écrevisse à pattes rouges ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118; [Switzerland] Büttiker et al., in Westman et al., 1990:180.

écrevisse à pieds blancs ASTACIDAE, *Austropotamobius pallipes*. [France] Laurent, 1985:77. [Belgium: Wallonia] Cherry, 1992:19.

écrevisse à pieds pâles ASTACIDAE *Astacus pallipes pallipes* [France] Noel, 1992:72.

écrevisse à pieds grèles ASTACIDAE, *Astacus leptodactylus* (*Potamobius leptodactylus*). [France] Gozmány, 1979:119.

écrevisse à pieds rouges ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118.

écrevisse américaine signal ASTACIDAE, *Pacifastacus leniusculus*. [France] Duris and Holzer, 1988:3.

écrevisse californienne ASTACIDAE, *Pacifastacus leniusculus*. [France] Laurent, in Westman et al., 1990:78.

écrevisse commune ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118.

écrevisse cuite Slang, (sense 1), literally = “cooked crayfish,” but slang usage = red. “...sans excepter le consul du pape, qui s’habille en écrevisse cuite....” [France: 19th century] About, 1854:381. See **cardinal** and **écrevisse de rempart**.

écrevisse cuite Slang, (sense 2), = fantassin (footsoldier) [France: early 20th century argot] Esnault (1965:252) says footsoldiers (*fantassins*) were called **écrevisses de rempart**, q.v., because of their red pants—whence, by twisting, prostitutes came to call cooked crayfishes (**écrevisses cuites**) “fantassins,” q.v. See also **cardinal**.

écrevisse de boulanger Argot, = hypocrite. [France: popular in 19th century] Barrère, 1887:124.

écrevisse de californie ASTACIDAE, *Pacifastacus leniusculus*. [France] Gerard, in Westman et al., 1990:44. [Switzerland] Büttiker et al., in Westman et al., 1990:180.

écrevisse de la boue ASTACIDAE, *Astacus leptodactylus*. [France] Duris and Holzer, 1988:2.

écrevisse de rempart Slang/argot, = foot soldier. [France: used by 19th century by French cavalry] Barrère, 1887:124; Ecrevisse de Rempart [book title] [France: 20th century] Thérive, 1969. See **armure à écrevisse**, **cardinal**, **ecrevise**, and **écrevisse cuite**.

écrevisse de rocher ASTACIDAE, *Astacus torrentium* (*Astacus saxatilis*, *A. longicornis* and *Potamobius saxatilis*). Current usage, *Austropotamobius torrentium*. [France] Duris and Holzer, 1988:2.

écrevisse des marais ASTACIDAE *Astacus leptodactylus leptodactylus* [France] Noel, 1992:71.

écrevisse des torrents ASTACIDAE, *Astacus torrentium* (*Astacus saxatilis*, *A. longicornis* and *Potamobius saxatilis*). Current usage, *Austropotamobius torrentium*. [France] Gozmány, 1979:119; [Switzerland] Büttiker et al., in Westman et al., 1990:180.

écrevisse de Turquie ASTACIDAE, *Astacus leptodactylus*. [Belgium] Gerard, in Westman et al., 1990:44.

écrevisse dulcaquicoles ASTACIDAE [France] Gozmány, 1979:118.

écrevisse fluviatile ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118.

Ecrevisse Rouge “Red Crawfish [People].” [U.S.: Mississippi; Sháktci Homma Indians] Hodge, 1907, vol. 1:232, citing du Pratz (= Le Page du Pratz), 1758, vol. 2:226. See **Sháktci Homma**.

écrevisse rouge CAMBARIDAE, *Procambarus clarkii*. [France] Mosimann and Hofman, 1985:38.

écrevisse rouge de Louisiane ASTACIDAE *Procambarus (Scapulicambarus) clarkii* [France] Noel, 1992:73.

écrevisse russe ASTACIDAE *Astacus leptodactylus leptodactylus* [France] Noel, 1992:71.

écrevisset ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, and Belloc, 1899:141, specify Tarentaise.

écrevisset ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Rolland, 1881:231, citing Pont, 1872.

écrevisse tonnerre CAMBARIDAE [U.S.: Louisiana, Cajun folklore] 1. = “[A] crawfish, smaller than regular crawfish with large pincers. People find them in ditches and they say if one of these bites you, it won’t let go until it thunders.” Theobald Courville, in Hollier, 1971:105; = “...[L]ittle crawfish with big blue pincers...and boy is it mean. It’s tail is hollow. I believe the tonnerre is a *bourreau*.” Leona Martin Guirard, in Hollier, 1971:105.

écrevisse turque ASTACIDAE, *Astacus leptodactylus*. [France] Laurent, in Westman et al., 1990:78.

Edelkrebs = noble crayfish. ASTACIDAE, *Astacus astacus* (*A. nobilis*, *A. fluviatilis* and *Potamobius fluviatilis*). [Germany] Belloc, 1899:142; Mosimann and Hofmann, 1985:36. [France: “En idiome strasbourgeois du XVII siècle,” (p. 141), and “Suisse allemande,” (p. 142)] Belloc, 1899. [Austria] Wintersteiger, in Westman et al., 1990, p.38; [Switzerland] Büttiker et al., in Westman et al., 1990:180. p. 180.

eel PARASTACIDAE, “lobster,” possibly = *Cherax robustus*, *C. dispar depressus*, and/or *Euastacus* sp., and/or *Cherax* sp. [Australia: Queensland; upper

Brisbane River (probably = Dalla Aboriginal tribe of Tindale, 1974:166 (152°25'E x 26°55'S)) Landsborough and M. Curr, in Curr, 1887(III):210, Sta. 167. See illai, il'lai, yil, yil, yil'ai, yil'lai.

Eguchi's Crayfish Pupa Not a crayfish, but a mutant pupa of the silkworm, *Bombyx mori*. Fujimaki, 1976: 507.

eicorobisso ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Limousin; as do Belloc, 1899:141, and Rolland, 1881:231, who cites Foucaud, 1866.

einga PARASTACIDAE, "crayfish," probably = *Cherax davisi*. [Australia: Queensland; Balonne, Baleandoon, Nogara, and Nerran rivers; Wolleroi or Yerraleroi Aboriginal tribe (= Mandandanji Aboriginal tribe of Tindale, 1974:181 (148°35'E x 27°5'S))] Hammond, in Curr, 1887(III):260, Sta. 175. See keeraui.

el amarillo CAMBARIDAE, color morph of *Procambarus clarkii* in Spain. [Spain] Gaudé, 1986. p. 126.

elin PARASTACIDAE, "crayfish," possibly = *Cherax gladstonensis*. [Australia: Queensland; Broad Sound, Yaamba, Maryborough, and St. Lawrence (probably = Koinjmal Aboriginal tribe of Tindale, 1974:176 (149°-45'E x 22°20'S))] Muller, in Curr, 1887(III):52, Sta. 148. See goowarra.

ella PARASTACIDAE, "crayfish," possibly = *Cherax gladstonensis*. [Australia: Queensland; Rockhampton and Gracemere (probably = Darambal Aboriginal tribe of Tindale, 1974:167 (150°20'E x 23°5'S))] Archer, in Curr, 1887(III):56, Sta. 149. See wambein.

elli PARASTACIDAE, "lobster," possibly = *Cherax dispar depressus* and/or *Euastacus* sp. [Australia: Queensland; between Brisbane and Gympie, Mooloola Aboriginal tribe (= Undanbi Aboriginal tribe of Tindale, 1974:186 (153°5'E x 26°55'S))] Landsborough, in Curr, 1887(II):142, Sta. 164.

elparra PARASTACIDAE, "crayfish," probably = *Cherax quadricarinatus*. [Australia: Queensland; Middle Norman River, Wollongurmee Aboriginal tribe (= Bugulmara Aboriginal tribe of Tindale, 1974:166

(142°0'E x 18°20'S))] Armit, in Curr, 1886(II):312, Sta. 93; [Australia: Tasmania] Ingamells, 1955:51. Note that in light of the Sta. 93 detail, this latter locality seems somewhat questionable. See yandurrer.

encravisso ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. Belloc, 1899:141, specifies Limousin.

English crayfish ASTACIDAE, *Astacus pallipes* (*Potamobius pallipes*). Current usage, *Austropotamobius pallipes*. [English] Gozmány, 1979:119.

engravisso ASTACIDAE [France: Limousin] André, 1960:133. Rolland, 1881:231, cites Chabaneau, 1871-1872. See Chabaneau, 1876.

enkodko PARASTACIDAE, probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: South Australia; Murray River alluvial flats (possibly = Jarildekald (139°20'E x 35°30'S) and/or Portalun (139°-15'E x 35°15'S) Aboriginal tribes of Tindale, 1974:212 and 217-218] Olszewski, 1980:17, citing Gray in Eyre, 1845. See eukodko, ukodko, ukot, and yukalto.

epucher des écrevisses Slang, = "to pick up straws." [France] Billaudeau, 1903:182.

equeurvisse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Morvan, as do Belloc, 1899:141, and Rolland, 1881:230, who cites Chambure, 1878.

erambie PARASTACIDAE. [Australia: Tasmania] Ingamells, 1955:51. [Australia] Endacott, 1924 (1973):21.

escarabicho ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. Belloc 1899:141, specifies Toulouse and Aude.

escarabido ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Limousin; as do Belloc, 1899, p.141, and Rolland, 1881:231, who cites Sauger-Preneuf, 1825.

escarabissa ASTACIDAE [France: Languedoc] André, 1960:133. Belloc, 1899:141, specifies Hérault, as does Rolland, 1881:231, specifies Hérault, who cites "Marcel de Serres..1822." See Serres, 1822.

escarabisso ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Limousin, as does Rolland, 1881:231, who cites Sauger-Preneuf, 1825. Rolland (*ibidem*) also specifies Gard, citing personal communication; Belloc, 1899:141, specifies Gard and Toulouse.

escarabîsso ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Limousin] Belloc, 1899:141.

escaraviso ASTACIDAE [France: Limousin] André, 1960:133.

escarbísso ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. Belloc, 1899:141, specifies Toulouse.

escarbicho ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Toulouse] Belloc, 1899:141.

eschscholtz This is not a vernacular name for any crayfish. Its appearance under "Common name(s)" on pages 46 and 132 in Westman et al., 1990, was an editorial *lapsus*. Eschscholtz was the individual who described *Astacus leptodactylus*, the crayfish discussed on both pages.

escorobísso ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, and Belloc, 1899:141, specify Limousin.

escorobîsso ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Tulle, Bas-Limousin] Rolland, 1881:231, specifies Tulle, citing Béronie, but omitting date. See Béronie, 1823.

escrabicho ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Limousin] Gozmány, 1979:118; André, 1960,

p.133. Belloc, 1899:141, specifies Toulouse.

escrabissa ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118.

escrabisso ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Languedoc; Belloc, 1899:141, specifies Lot; Rolland, 1881, specifies Toulouse, citing Poumarède, 1860. See Poumarède, 1841, as possibly the same reference.

escreuisse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Middle French] Belloc, 1899:140, citing Belon, 1555.

escrevice ASTACIDAE [France: Old French] Rolland, 1881:231; Belloc, 1899:141, referring to Belon, 1555.

escreviche ASTACIDAE [France: Old French] Rolland, 1881:231; Belloc, 1899:141, referring to Belon, 1555.

escrevisse ASTACIDAE [France: Old French] Rolland, 1881:231.

etelänrapu ASTACIDAE, *Austropotamobius pallipes* and *A. torrentium*. [Finland: (a "non-traditional devised term," (= fabricated name))] Cherry, 1992:19.

etgrévisse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. Belloc, 1899:142, and André, 1960:133, specify Vosges; Rolland, 1881:231, specifies "Vagney Vosges."

éti rak ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [Hungary] Gozmány, 1979:118.

eukodko PARASTACIDAE, probably = *Cherax destructor* and/or *Eustacus* sp. [Australia: South Australia; Murray River alluvial flats (possibly = Jarildekald (139°20'E x 35°30'S) and/or Portalun (139°-15'E x 35°15'S) Aboriginal tribes of Tindale, 1974:212

and 217-218] Olszewski, 1980,p.17, citing Gray in Eyre, 1845. See enkodko, ukodko, ukot, and yukalto.

Eungella spiny crayfish PARASTACIDAE, *Eustacus eungella*. [Australia:Queensland; Eungella National Park (147°50'E x 20°40'S)] Winter and McDonald, 1986:42; Morgan, 1988:8-11.

europäischer Flusskrebs ASTACIDAE, *Astacus astacus* (*A. nobilis*, *Astacus fluviatilis*, and *Potamobius fluviatilis*). [Germany] Gozmány, 1979:118.

ezeren rak See **езерен рак**, next citation.

езерен рак ASTACIDAE, *Astacus leptodactylus*. [Bulgaria] Cherry, 1992:20. See **ezeren rak**, above.

fantassin = cooked crayfishes [France: early 20th century prostitute's argot] See **écrevisse cuite** (sense 2).

ferskranns kreps ASTACIDAE [Norway] Fauchald, Kristian, personal communication.

ferskvannskreps ASTACIDAE, *Astacus astacus*. [Norway] Skurdal et al., 1985:77.

fire back crayfish CAMBARIDAE, *Cambarus (Depressicambarus) pyronotus*. [U.S.: Florida; Liberty Co., burrows along tributary of Apalachicola River] Williams, et al., 1989:22; Hobbs, 1989:16.

floodräfsta = "River crayfish." ASTACIDAE in Swedish waters, as well as imported CAMBARIDAE [Sweden] Fürst, in Westman et al., 1990:168; Cherry, 1992:19.

floodkrebs ASTACIDAE, *Astacus astacus* and *A. pallipes*. [Denmark] Hørlyck and Rasmussen, in Westman et al., 1990:53; Cherry, 1992:19.

floodkreps ASTACIDAE [Denmark] Schmidt-Nielsen, 1941:1.

Florida cave crayfish CAMBARIDAE, *Procambarus (Ortmannicus) lucifugus*. [U.S.: Florida; Citrus and Hernando counties northward to Marion Co., caves] Williams, et al., 1989:26; Hobbs, 1989:69.

Florida longbeak crayfish CAMBARIDAE, *Procambarus (Ortmannicus) youngi*. [U.S.: Florida; Gulf

County] Williams, et al., 1989:27; Hobbs, 1989:72.

Flusskrebs ASTACIDAE, *Astacus astacus* (*A. nobilis*, *Astacus fluviatilis*, and *Potamobius fluviatilis*). Also = any freshwater crayfish. [Germany] Gozmány, 1979:118; Belloc, 1899:142. Note that this word is sometimes literally translated "river crab," as in BioSciences Information Service (BIOSIS) B-I-T-S Abstracts, (Philadelphia, PA), translation of the title of a paper by Pretzmann, 1988:153.

folyami rák ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [Hungary] Gozmány, 1979:118.

folyami rákok ASTACIDAE [Hungary] Gozmány, 1979:118.

folyamirákók See **folyami rákok**.

freckled crayfish CAMBARIDAE, *Cambarus (Erebicambarus) maculatus*. [U.S.: Missouri] Pfleiger, 1987:7; Hobbs and Pfleiger, 1988:644; Hobbs, 1989:91.

French Broad crayfish CAMBARIDAE, *Cambarus (Puncticambarus) reburrus*. [U.S.: North Carolina; Buncombe, Henderson, Jackson, Madison, and Transylvania counties] Williams, et al., 1989:22; Hobbs, 1989:27.

fresh-water cray-fish ASTACIDAE [England] Kirby, 1897:52.

fresh-water lobster ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [English] Gozmány, 1979:118.

freshwater crayfish ASTACIDAE, *Astacus astacus*, *As. leptodactylus*. [English] Mosimann and Hofman, 1985:36, 37. Cited by Gozmány, 1979:118, as encompassing the entire family ASTACIDAE. This is generally used for any member of the ASTACOIDEA and PARASTACOIDEA.

Furneaux burrowing crayfish PARASTACIDAE, *Engaeus* sp. [Australia: Victoria; Flinders Island, Strzelecki Peaks] Horwitz, 1990:96.

gadjunja PARASTACIDAE, probably = *Cherax*

destructor and/or *Euastacus* sp. [Australia: New South Wales; lower Darling River, Victorian group, Bagandji Aboriginal tribe (= Barkindji Aboriginal tribe of Tindale, 1974:192 (142°25'E x 32°40'S))] Hercus, 1982:284, 308. Spelling variation, *gadunja*. See *gunghulu* and *ilidja*.

gadunja See *gadjunja*.

géorenn pl., **géorenned** ASTACIDAE [France: Bretagne] Belloc, 1899:142; André, 1960:133. Rolland, 1881:231, citing Troude, 1876, specifies "breton de Tréguier. See **géoren** and **guéorenn**.

gevlekte CAMBARIDAE, *Orconectes limosus*. [Netherlands] Holthuis, in Westman et al., 1990:132.

gevlekte amerikaanse rivierkreeft ASTACIDAE, *Orconectes (Faxonius) limosus*. [Netherlands] Adema, 1989:5.

gewone rivierkreeft ASTACIDAE, *Astacus astacus*. [Netherlands] Adema, 1989:3.

ghost nipper PARASTACIDAE? [Australia: Queensland] Anonymous, 1981 (1987):1976, associates *yabby* with ghost nipper in Queensland. However, it seems unlikely that ghost nippers are freshwater crayfishes, as Dixon, Ramson, and Thomas, 1990:102, state that, "In Queensland *yabby* may refer to any of several small, burrowing, shrimp-like marine crustaceans known as *nippers*."

giant Tasmanian lobster PARASTACIDAE, *Astacopsis gouldi*. [Australia: Tasmania] Horwitz, 1990:74.

gidda PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: New South Wales; Wellington, Wiratheri Aboriginal tribe (= Wiradjuri Aboriginal tribe of Tindale, 1974:201 (147°30'E x 33°50'S))] Keightly, in Curr, 1887(III):374, Sta. 190.

gidyar PARASTACIDAE, "lobster," possibly =

Cherax destructor and/or *Euastacus* sp. [Australia: New South Wales; Castlereagh River, Talbraga, and Mudgee; Wiraduri Aboriginal tribe (= Wiradjuri Aboriginal tribe of Tindale, 1974:210 (147°30'E x 33°-50'S))] Gunther, in Curr, 1887(III):368, Sta. 190. Also Threlkeld, 1892:85. See **inka**, **maramie**, **marra-min**, **morramma** and **moramy**.

giju PARASTACIDAE, probably *Cherax wasselli*. [Australia: Queensland; Bloomfield River and its tributaries, Gugu-Yalanji Aboriginal tribe (= Kokojelandji Aboriginal tribe of Tindale, 1974:176 (144°30'E x 16°-15'S))] Oates et al., 1964:96. **Giju** is defined as "crab or lobster," but considering the range of the Gugu-Yalanji on the Bloomfield River and its tributaries, together with the limited distribution of *C. wasselli*, there seems a good likelihood that the word does refer to the PARASTACIDAE.

gilga PARASTACIDAE, probably = *Cherax* sp. [Australia: Western Australia; South-West Division, Pinjarra (probably = Wiilman Aboriginal tribe of Tindale, 1974, p. 260 (117°10'E x 33°10'S))] Scott, in Curr, 1886(I):346, Sta. 22. See also **chelgi**, **chielghi**, **gilgie**, **goolie**, **jilgi**, **jilgie**, **jilgy**, **joolgie**, and **julegie**.

gilgai See **gilga** and **gilgie**.

gilgie PARASTACIDAE, *Cherax quinquecarinatus* and *C. crassimanus*; Australian English word derived from the Aboriginal gilgai or gilgie, a natural saucer-shaped depression in the ground that serves as a reservoir for rain water. Gilgies are freshwater crayfishes found in such holes (Wilkes, 1978 (1988):155. [Australia: Western Australia, Perth-Albany region; Nyungar Aboriginal tribe (probably = Wudjari Aboriginal tribe of Tindale, 1974:261 (119°45'E x 33°40'S))] Dixon, Ramson, and Thomas, 1990:98. Note that Mosimann and Hofmann, 1985:39, say gilgie = *Cherax plebejus* and *C. glaber*. See **chelgi**, **chielghi**, **gilga**, **goolie**, **jilgi**, **jilgie**, **jilgy**, **joolgie**, **julegie**, and **to do a gilgie**.

Gillendoon A place name. Literally, "a place of crayfish." PARASTACIDAE. [Australia: New South Wales; Lachlan blacks, Wiiratheri (= Wiradjuri Aboriginal tribe of Tindale, 1974:201 ((147°30'E x 33°50'S))] Curr, 1887(III):365. Note that Reed, 1967, p.103, says **Gillendoon** = "Crowd."

gindangia PARASTACIDAE, "crayfish," probably =

Cherax rotundus and/or *Euastacus* sp. [Australia: New South Wales; Queenbulla, Ashford, and Quininguillan (possibly = Kwiambal Aboriginal tribe of Tindale 1974:196 (151°15'E x 29°25'S))] District Bench of Magistrates, in Curr, 1887(III):298, Sta. 180. See **gonon**.

giomach-cuain ASTACIDAE [N.W. Europe: Celts, *passim*: Gaelic] Dwelly, 1901 (1977):494.

giomach-uisge ASTACIDAE [N.W. Europe: Celts, *passim*: Gaelic] MacLennon, 1925 (1979):416.

Glenelg River cray PARASTACIDAE, *Euastacus bispinosus*. [Australia: Victoria and New South Wales] Horwitz, 1990:74.

gliomach fionnuisce ASTACIDAE, *Austropotamobius pallipes*. [N.W. Europe: Celts, *passim*: Gaelic] Cherry, 1992:19.

göl istakozu ASTACIDAE, *Austropotamobius pallipes*. [Turkey] Cherry, 1992:19.

golyam rechen rak See **голям речен рак**, below.

голям речен рак ASTACIDAE, *Astacus astacus*. [Bulgaria] Cherry, 1992:20. See above **golyam rechen rak**, above. See also **rechen rak**.

gonak PARASTACIDAE, possibly = *Cherax* sp. [Australia: Western Australia; Toodyay (Newcastle) (probably = Balardong Aboriginal tribe of Tindale, 1974:239-240 (117°05'E x 31°45'S))] Mathew, 1899:230-231. See **goonack**, **goonak**, **gunag**, **koonac**, and **koonak**.

gonon PARASTACIDAE, "lobster," possibly = *Cherax rotundus* and/or *Euastacus* sp. [Australia: New South Wales; Queenbulla, Ashford, and Quininguillan (possibly = Kwiambal Aboriginal tribe of Tindale 1974:196 (151°15'E x 29°25'S))] District Bench of Magistrates, in Curr, 1887(III):298, Sta. 180. See **gindangia**.

goolie PARASTACIDAE, *Cherax quinquecarinatus*. [Australia: Western Australia, possibly a modern word derived from Aboriginal word] Olszewski, 1980:20. See **chelgi**, **chielghi**, **gilga**, **gilgie**, **jilgi**, **jilgie**, **jilgy**, **joolgie**, and **julegie**.

goombarroo PARASTACIDAE, "crayfish." This locality does not appear to be within the present-day known range of any freshwater crayfish. [Australia: Queensland; Lower Burdekin River (probably = Warungu Aboriginal tribe (146°0'E x 19°30'S) or Juru Aboriginal tribe (147°40'E x 19°55'S) of Tindale, 1974:188, 172))] Cunningham and Gorton, in Curr, 1886(II):488, Sta. 134. See goonaway, koongooya, mokin, reri-teri, and tararukau.

goonack PARASTACIDAE, possibly = *Cherax* sp. [Australia: Western Australia; Midlands Division (NE of Perth between Northam and Toodyay), Newcastle (probably = Balardong Aboriginal tribe of Tindale, 1974:239-240 (117°05'E x 31°45'S))] Whitfield, in Curr, 1886(I):326, Sta. 18. See gonak, goonak, gunag, koonac, and koonak.

goonak PARASTACIDAE, possibly = *Cherax* sp. [Australia: Western Australia; Perth Division, Perth (probably = Whadjuk Aboriginal tribe of Tindale, 1974:260 (116°5'E x 32°0'S))] Knight and Armstrong, in Curr, 1886(I):332, 334, Sta. 19; [Australia: Western Australia; Midlands Division, York District (probably about 75 km. W of Perth), Ballardong (Ballerdokking) Aboriginal tribe (probably = Balardong tribe of Tindale, 1974:239-240 (117°05'E x 31°45'S))] Hackett, in Curr, 1886(I):344, Sta. 21; [Australia: Western Australia; South-West Division (about 75 km. S of Perth), Pinjarra (probably = Pindjarup Aboriginal tribe of Tindale, 1947:256 (115°55'E x 32°55'S))] Scott, in Curr, 1886(I):346, Sta. 22. See gonak, goonack, gunag, koonac, and koonak. See also gilga and marine.

goonalk PARASTACIDAE. [Australia: Tasmania] Ingamells, 1955:51.

goonaway PARASTACIDAE, "lobster." This locality does not appear to be within the present-day known range of any freshwater crayfish. [Australia: Queensland; Lower Burdekin River, (probably = Warungu Aboriginal tribe (146°0'E x 19°30'S) and/or Juru Aboriginal tribe (147°40'E x 19°55'S) of Tindale, 1974:188, 172))] Gorton, in Curr, 1886(II):490, Sta. 134. See goombarroo, koongooya, mokin, reri-teri, and tararukau.

goowarra PARASTACIDAE, "lobster," possibly = *Cherax gladstonensis*. [Australia: Queensland; Broad Sound, Yaamba, Maryborough, and St. Lawrence

(probably = Koinjmal Aboriginal tribe of Tindale, 1974:176 (149°45'E x 22°20'S))] Muller, in Curr, 1887(III):52, Sta. 148. See elin.

go'ya' ASTACIDAE, probably *Pacifastacus* sp. [U.S.: Oregon; Klamath Reservation, Northern Paiute Indians] Kelly, 1932:73, supposes this word, used in the two combinations given below, is of Klamath origin, and cites Spier, 1930:15.

Go'ya'tikadü Literally, "crawfish-eaters." Name of Paiute Indian band. ASTACIDAE [U.S.: Oregon; Northern Paiute Indians of Yainax and Beatty. As these Paiute were brought from Silver Lake in recent times, the name is thought to be postreservation] Kelly, 1932:72, 73.

GoyEske'Egis Place name, = "crawfish crawl out." [U.S.: Oregon; Klamath, Paiute Indians] Spier, 1930: 15.

grabusse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. Belloc, 1899:142, and André, 1960:133, specify Jura; Rolland 1881:230, also specifies Jura, citing Monnier, 1823, which is likely = Monnier, 1831, q.v.

grabeusse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Montbéliard] Belloc. 1899:142.

graibeusse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Franche-Comté; Rolland, 1881:230, specifies Montbéliard, citing Contejean:282. Spelling variation, graibeusse.

graibusse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Franche-Comté; Rolland, 1881:230, specifies Montbéliard, citing Contejean, 1876.

graibusse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Montbéliard] Belloc, 1899:142.

gránchezio ASTACIDAE? [Italy] Wessely, 1891:51. As commonly happens, there appears to be confusion as

to whether granchio refers to fresh-water crayfishes, freshwater crabs, marine crabs, or all three. Millhouse, 1870, vol. 2:279, defines it as "crab, cráy-fish"; Wessley, 1891, defines crawfish as granchio and gambero; Rolland, 1881:231, lists granchio and gambero under "*Astacus fluviatilis*" (= *Astacus astacus*), as does Belloc, 1899:242; and Hoare, 1923, vol. I:174, says granchio = crab, crayfish, claw of a hammer, locksmith's clamp, cramp in a muscle." To compound the confusion, Millhouse, 1870, vol. 2, p.279, lists *pigliare un gránchio a sècco* = to pinch one's finger; *esser mórso dal gránchio* = to be a pinch-penny; and *i gránchi vòglion mórdre le baléne* as a provincial expression = the weakest attack the strongest. However, in vol. II:93, Hoare defines crayfish as *gàmbero fluviale*, and contemporary usage favors granchio = crab and gambero = crayfish (Cesare Marino, personal communication).

graouisse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Lorraine; Belloc, 1899:142, and Rolland, 1881:230, citing Oberlin, 1775, specify Lunéville.

grasscrab CAMBARIDAE [U.S.] Olszewski, 1980:20.

grasshopper CAMBARIDAE [U.S.: Louisiana, New Orleans. Probably very rare usage] Watson, 1843:233. See also **cheval du diable**, **grilh-dour**, **Hirschschreckenkrebs**, and **masan cay**.

gravase ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [Belgium: Namur, Wallonia] Rolland, 1881:230, citing Grandgagnage, 1846 & 1857.

gravasse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [Belgium] Belloc, 1899:142.

gravesse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Lorraine. [Belgium: Wallonia] Belloc, 1899:142.

gravésse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*).

[France: "pays messin" (vicinity of Metz) patois of Lorraine] Rolland, 1881:230, citing Jaclot, 1853-54. **graviche** ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. [Belgium] André, 1960:133, specifies Hainaut; [Belgium: Rouchi, the dialect of Valenciennes and its vicinity] Belloc, 1899:142, and Rolland, 1881:230, citing Hécart, 1834.

gravisse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Lorraine; Rolland, 1881:230, specifies "pays messin," vicinity of Metz.

grâvisse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: "pays messin," vicinity of Metz, Lorraine] Rolland, 1881:230.

gravousse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Lorraine; Rolland, 1881:230, cites Oberlin, 1775, who discussed the patois of Lorraine in the vicinity of Ban de la Roche. See also **cravousse**.

grawet ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Vosges] Rolland, 1881:230.

grawetz ASTACIDAE [France: Vosges] André, 1960:133. See **grawet**.

grébeusse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, specifies Vosges; Rolland, 1881:230 specifies La Bresse (Vosges).

grèbeusse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Vosges] Belloc, 1899:142.

grebosse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979, p.118. André, 1960,p. 133, specifies Franche-Comté; Belloc, 1899:142 specifies Doubs, as does Rolland, 1881:230, who specifies the patois of Les Fourgs (Doubs), citing Tissot, 1865.

Greensboro burrowing crayfish CAMBARIDAE, *Cambarus (Depressicambarus) catagius*. [U.S.: North Carolina; Guilford County] Williams, et al., 1989, p. 22.

greeur PARASTACIDAE, "crayfish," probably = yabbies and other smaller crayfish. [Australia: Victoria; "Gippsland," (data given do not allow tribal designation)] Howitt, in Curr, 1887(II):556, Sta. 210.

greuche ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. André, 1960:133, species Morvan, as do Belloc, 1899:141, and Rolland, 1881:230, who cites Chambure, 1878.

grevesse ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Flanders] André, 1960:133. [Belgium: "wallon," = Wallonia] Rolland, 1881:230, citing "Carlier..publ. par Vandermaelen," which apparently = Maelen, 1831, q.v.

grilh-dour a neologism; **grilh** = grasshopper, **dour** = freshwater. ASTACIDAE [France: Bretagne] Crosnier, personal communication. See **grasshopper**, **Haschreckenkrebs**, **masan cay**, and **piau du diable**.

grita ASTACIDAE, *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979, p.118. André, 1960:133, species Comté de Nice; Belloc, 1899:142, specifies Menton (a border dialect between Provençal and the Italian dialect of Genoa), as does Rolland, 1881,p.231, citing Andrews, 1877.

grosse Austral-Krebs PARASTACIDAE, *Euastacus armatus*. [Germany] Schlüter, 1989:526.

grosser Australkrebs PARASTACIDAE, *Euastacus armatus*. [Germany] Mosimann and Hofman, 1985:38.

guéorenn ASTACIDAE [France: Bretagne] André, 1960:133. Rolland, 1881:231, citing Troude, 1876, specifies "breton de Tréguier. See **géoren** and **géoren**.

gunag PARASTACIDAE, possibly *Cherax* sp. [Australia: Western Australia; Nyungar Aboriginal tribe, (= Wudjari Aboriginal tribe of Tindale,

1974:261 (119°45'E x 33°40'S)) Aboriginal language] Dixon, Ramson, and Thomas, 1990:98. See **gonak**, **goonack**, **goonak**, **koonac**, and **koonak**. See also **marran** and **marron**.

zungulu PARASTACIDAE, probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: New South Wales; lower Darling River, Victorian group, Bagandji Aboriginal tribe (= Barkindji Aboriginal tribe of Tindale, 1974:192 (142°25'E x 32°40'S))] Hercus, 1982:284, 308. See **gadjunga** and **ilidja**. See also **koongoola** and its variants.

gunnok PARASTACIDAE, "lobster," probably = *Cherax* sp. [Australia: Western Australia; South-West Division, Geographe Bay and Vasse (probably = Kaneang Aboriginal tribe of Tindale, 1974:244 (116°-40'E x 34°0'S))] Barlee, in Curr, 1886(I):356, Sta. 24. See **jilgy**, **koonak**, **marran**, **murrin**, and **perran**.

gurinein PARASTACIDAE, "crayfish," probably = *Cherax davisi*. [Australia: Queensland; Dumaresque or Upper MacInyre River, Bigambel Aboriginal tribe (= Bigambul Aboriginal tribe of Tindale, 1974:166 (150°-10'E x 28°10'S))] Turbayne and Taylor, in Curr, 1887(II):266, Sta. 176. See **gannoona**.

hah-tsoo ASTACIDAE, probably *Pacifastacus* sp. [U.S.: California, Achomawi Indians (Hokan)] Merriam, 1979:225.

hairy land yabby [PARASTACIDAE, *Engaeus* spp.. [Australia: Victoria] Olszewski, 1980:16. See **yabby**.

Haschreckenkrebs = grasshopper crab, from **Heuschreckenkrebs**. ASTACIDAE [Germany: Hessen] James Marchand, Center for Advanced Studies, University of Illinois, Urbana, tells me he found this word used for freshwater crayfishes while he was serving in the occupation forces in the town of Borken, Hessen, Germany, following World War II. Lipke Holthuis, Nationaal Natuurhistorisch Museum, Leiden, has informed me that this is an accepted German vernacular name for the Stomatopoda (which do not occur in Germany or along its coasts), and that the word is uncommon in German literature except in nature-guides for tourists visiting the Mediterranean. See **cheval du diable**, **devil's horse**, **grasshopper**, and **masan cay**.

Hatchie burrowing crayfish CAMBARIDAE, *Falliscambarus (Creaserinus) hortoni*. [U.S.: Tennessee;

McNairy County] Williams et al., 1989:23.

Hell Creek cave crayfish CAMBARIDAE, *Cambarus (Jugicambarus) zophonastes*. [U.S.: Arkansas; Stone County, cave] Williams, et al., 1989:23; Hobbs, 1989:24.

hellgamite CAMBARIDAE [U.S.: New Jersey and New York] Cassidy, 1991:962.

Heuschreckenkrebs See **Haschreckenkrebs**.

histahle'k me'emda'h naseh' le'heezahche'r See next citation.

histahle'k me'emda'h naseh' le'heezahche'r Slang = “to leave position, and try to go backward.” [Hebrew] Alcalay, 1962 (1965):853. See **crawfish** (verb, sense 1). See citation above. Note that these words are read from right to left. See also **histahle'k me'emda'h naseh' le'heezahche'r**, above.

hon-thoon ASTACIDAE, probably *Pacifastacus* sp. [U.S.: California; Karok Indians (Hokan)] Merriam, 1979:230.

Houma Literally, “red,” a spelling variation of the second word in **Shákci Homma**, Red Crawfish [People], q.v. [U.S.: Mississippi; Shákci Houma Indians, whose emblem was the red crawfish] Swanton, 1953:185. See also **shakchi**, **Shákci Homma**, **shatje**, **Shatje-Ogla**, and various words beginning with **Chac**, **Chiach**, **Choc**, and **Tch**.

hsiang làgǔ I yang hou t'ui Slang, = (move) backward like a crayfish. [Chinese] Anonymous, 1975:271. = 象蜊蛄一樣后退, next citation. See **camaron reculador**, **crawdad** (verb, sense 1), **crawfish policy**, **crayfish** (verb), **crayfish** (symbolism), **gambero** (verb), **hsiang làgǔ I yang sa so**, **kajae körüm**, **marcher comme les écrevisses**, and **marcher en écrevisses**.

象蜊蛄一樣后退 See **hsiang làgǔ I yang hou t'ui**, above.

hsiang làgǔ I yang pien chieh Slang, = to change loyalty like a crayfish. [Chinese] Zheng and Cao, 1984:315. = 象蜊蛄一樣变节, next citation.

象蜊蛄一樣变节 See **hsiang làgǔ I yang pien chieh**, above.

hsiang làgǔ I yang sa so Slang, = withdraw like a crayfish. [Chinese] Zheng and Cao, 1984:315. = 象蜊蛄一樣撒手, next citation.

象蜊蛄一樣撒手 See **hsiang làgǔ I yang sa so**, above.

hsiang làgǔ I yang t'ui ch'üeh Slang, = to be afraid like a crayfish. [Chinese] Anonymous, 1975:271. = 象蜊蛄一樣退却, next citation.

象蜊蛄一樣退却 See **hsiang làgǔ I yang t'ui ch'üeh**, above.

hsiang làgǔ I yang t'ui so Slang, = to shrink away [withdraw] like a crayfish. [Chinese] Anonymous, 1975:271. = 象蜊蛄一樣退缩, next citation.

象蜊蛄一樣退缩 See **hsiang làgǔ I yang t'ui so**, above.

iammaru di ciumi ASTACIDAE Stream (or river) crayfish. [Sicilian] Bellestri, 1988:109.

ilidja PARASTACIDAE. [Australia: New South Wales; lower Darling River, Victorian group, Bagandji Aboriginal tribe (= Barkindji Aboriginal tribe of Tindale, 1974:192 (142°25'E x 32°40'S))] Hercus, 1982:284, 308. See **gadjunja** and **gungulu**.

illai PARASTACIDAE, probably = *Cherax robustus*, *C. dispar depressus*, and/or *C. gladstonensis*. [Australia: Queensland groups, Kabi and Mary River dialects, (= Kabikabi Aboriginal tribe of Tindale, 1974:172, (152°25'E x 25°45'S))] Mathew, 1899:230-231. See **eel**, **illai**, **yil**, **yil**, **yil'ai**, **yil'lai**.

il'lai PARASTACIDAE, “crayfish,” probably = *Cherax robustus*, *C. dispar de- pressus*, and/or *C. gladstonensis*. [Australia: Queensland; Mary River and Bunya Bunya County, Kabi Aboriginal tribe (= Dalla Aboriginal tribe of Tindale, 1974:166-167 (152°25'E x 26°55'S))] Curr, 1887(II):196, Sta. 166, and p. 199. See **eel**, **illai**, **yil**, **yil**, **yil'ai**, **yil'lai**.

Iltjanma The Crayfish Ancestor. [Australia: Northern

Territory; Aranda Aboriginal mythology, the Northern Fish Legend of the flood] Strehlow, T.G.H., 1947:26-27. See *iltjanma*, *Iltjanmalitnjaka* *iltjénma*, *injiltjinjiltja*, and *Ityanma*.

iltjanma PARASTACIDAE, probably = *Cherax destructor*. [Australia: Northern Territory; Aranda (probably = Aranda (western) Aboriginal tribe of Tindale, 1974:220-221 (134°45'E x 24°40'S))] Strehlow, T.G.H., 1947:27. See *Iltjanma*, *Iltjanmalitnjaka*, *iltjénma*, *injiltjinjiltja*, and *Ityanma*. See also Sign Language.

Iltjanmalitnjaka Place name, = "Where the Crayfish had dug." Possible reference to *Cherax destructor*. [Australia: Northern Territory; Parke's Pass (a gap in the Krichauff Ranges south of Hermannsburg Community) (= Aranda (western) Aboriginal tribe of Tindale, 1974:220-221 (134°45'E x 24°40'S))] Strehlow, T.G.H., 1969:36. See *Iltjanma*, *iltjanma*, *iltjénma*, *injiltjinjiltja*, and *Ityanma*.

iltjénma PARASTACIDAE, probably *Cherax destructor*. [Australia: Northern Territory; Aranda (probably = Aranda (western) Aboriginal tribe of Tindale, 1974:220-221 (134°45'E x 24°40'S))] Strehlow, Carl, in Umiker-Sebeok and Sebeok, 1978:356. This reference indicates = "crab," whereas Strehlow, T.G.H., 1947:27, indicates *iltjanma* = crayfish. See *Iltjanma*, *iltjanma*, *Iltjanmalitnjaka*, *injiltjinjiltja*, and *Ityanma*. See also sign language.

Incaktcakáfa Literally, "They are crawfish," i.e. they are very bright and active people. [U.S.: southeast; Incaktcakáfa clan of the Chickasaw Indians] Speck, 1908:52. See **Sháktci Homma**. Compare with **crawfish** (verb, sense 1) and **long xia** for opposite meanings. See also **crayfish** (Symbolism).

inga PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Mungalella Creek, Peechera Aboriginal tribe (= Pitjara Aboriginal tribe of Tindale, 1974:184 (147°10'E x 24°55'S))] Looker, in Curr, 1887(II)I:276, Sta. 177; [New South Wales; Warren (probably = Kawambarai Aboriginal tribe of Tindale, 1974:195 (148°30'E x 31°30'S))] Rouse, in Curr, 1887(II)I:370, Sta. 190; [New South Wales; sources of Bogan River (= Wongaibon Aboriginal tribe of Tindale, 1974:201 (146°30'E x 32°0'S))] Bench of Magistrates at Obley, in Curr, 1887(II)I:382, Sta. 190; [New South Wales; Carcoar (= Wiradjuri

Aboriginal tribe of Tindale, 1974:201 (147°30'E x 33°50'S))] Bench of Magistrates at Obley, in Curr, 1887(II)I:384, Sta. 190.

ingah PARASTACIDAE. [Australia: New South Wales] Reed, 1967:103.

ingar PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: New South Wales; Dubbo (probably = Wiradjuri Aboriginal tribe of Tindale, 1974:201 (147°30'E x 33°50'S))] Bench of Magistrates at Dubbo, in Curr, 1887(II)I:372, Sta. 190. See **wangar**.

Ingar Place name, = "Crayfish." [Australia: New South Wales] Reed, 1967:103.

inglebar = crayfish hole. [Australia: Tasmania] Ingamells, 1955:51.

injiltjinjiltja PARASTACIDAE ?, probably = *Cherax destructor*. This reference indicates = "a small variety of crab," but also says "Same as [iltjénma]"; whereas Strehlow, T.G.H., 1947, indicates *iltjanma* = crayfish. [Australia: Northern Territory; Aranda Aboriginal tribe (probably = Aranda (western) Aboriginal tribe of Tindale, 1974:220-221 (134°45'E x 24°40'S))] Strehlow, Carl, in Umiker-Sebeok and Sebeok, 1978:356. See *Iltjanma*, *iltjanma*, *Iltjanmalitnjaka*, *iltjénma*, and *Ityanma*. See also Sign Language.

inka PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: New South Wales; Castlereagh River, Yooaba Aboriginal tribe on Lachlan River, Talbragar, and Mudgee; Wiiratheri Aboriginal tribe (= Wiradjuri Aboriginal tribe of Tindale, 1974:201 (147°30'E x 33°50'S))] Curr, 1887(II)I:366, 368, Sta. 190. [New South Wales; Candoblin, (Wiradjuri Aboriginal tribe of Tindale, 1974:201 (147°30'E x 33°50'S))] Suttor, in Curr, 1887(II)I:388, Sta. 190. PARASTACIDAE?, = "lobster" [New South Wales; Bogan River (probably = Wongaibon Aboriginal tribe of Tindale, 1974:201 (146°30'E x 32°0'S))] Balfie, in Curr, 1887(II)I:380, Sta. 190. See **gidyar**.

inkka PARASTACIDAE, "lobster," possibly = *Cherax destructor*, but the exact position of "Waljeers" is unknown. [Australia: New South Wales; Waljeers (probably = Wuradjuri Aboriginal tribe of Tindale, 1974:201 (147°30'E x 33°50'S))] Pearce, in Curr, 1887(II)I:390, Sta. 190.

inundah PARASTACIDAE, "crayfish." This locality does not fall within the present-day known distribution of freshwater crayfishes. [Australia: Queensland; mouths of Burdekin River (probably = Bindal Aboriginal tribe of Tindale, 1974:166 (147°15'E x 19°35'S))] O'Connor, in Curr, 1886(II):454, Sta. 126. See **boogurrie**.

Irishman's friend CAMBARIDAE, probably *Cambarus (Lacunicambarus) diogenes* or *C. (L.) ludovicianus* [U.S.: Louisiana] When levee construction in lower Louisiana became a public work, Irish immigrants were employed in the building and maintenance of the structures. Crawfish burrows in the embankments caused them to fail, and thus repair work provided additional jobs for the Irish workers. Crawfish were thus called "The Irishman's Friend." Botkin, 1955:282. Note that as early as 1811 crayfish were noted as the cause of levee leakage (Brackenridge, 1814:177).

isim cay = "whisker fish." CAMBARIDAE, probably *Procambarus (Austrocamarus) acanthophorus* or *P. (A.) llamasii*. [México: Chiapas; Tenejapa Indians (Tzetal dialect of Mayan)] Hunn, 1977, p.253; Hobbs, 1989:52.

ital'ianskyi rak See **итальянский рак**, next citation.

итальянский рак ASTACIDAE, *Austropotamobius (Atlantastacus) italicus italicus*. [Russia] Brodsky, 1981:186. See **ital'ianskyi rak**, above.

italiys'kyi rak = **італійський рак**, see next citation.

італійський рак ASTACIDAE, *Austropotamobius (Atlantastacus) italicus italicus*. [Ukraine] Brodsky, 1981:186. See **italiys'kyi rak**, above.

ix baan "[E]l cangrejo," crayfish, if not crabs. CAMBARIDAE? [México: Yucatán, Mayan] Alvarez, 1980:262. See **ix-baan**.

ix-baan CAMBARIDAE? (if not crabs). [México: Yucatán; Mayan] Pérez, D.J.P., 1866-1877:157.

ix bab "[E]l cangrejo," (crayfish, if not crabs). CAMBARIDAE? [México: Yucatán; Mayan] Alvarez, 1980:261. See also **ó ixbab**.

Jackson prairie crayfish CAMBARIDAE, *Procambarus (Girardiella) barbiger*. [U.S.: Mississippi; Newton and Scott counties, Jackson Prairie area] Williams, et al., 1989:25; Hobbs, 1989:56.

jakalaan PARASTACIDAE, probably = *Cherax destructor*. [Australia: Queensland; vicinity of Mt. Isa, Kalkatunga Aboriginal tribe (= Kalkadunga Aboriginal tribe of Tindale, 1974:173 (140°0'E x 20°55'S))] Blake, 1969:87. See **cuinci** and **tumpan**.

jambre ASTACIDAE, *Astacus astacus* (*A. nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Gard] Rolland, 1881:231.

jambré ASTACIDAE, *Astacus astacus* (*A. nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Languedoc] Gozmány, 1979:118; André, 1960:133. Belloc, 1899:141. species Gard.

javelin crayfish CAMBARIDAE, *Procambarus (Ortmannicus) jaculus*. [U.S.: Mississippi and Louisiana; Black and Pearl river basins] Williams, et al., 1989:26; Hobbs, 1989:67.

jilgi PARASTACIDAE. This is probably a case in which the word has been recently imported from Western Australia to Tasmania, where it is used for crayfishes other than *Cherax* sp. [Australia: Tasmania] Ingamells, 1955:51. See *chelgi*, *chielghi*, *gilga*, *gilgie*, *goolgie*, *jilgi*, *jilgy*, *joolgie*, and *julegie*.

jilgie PARASTACIDAE, probably = *Cherax* sp. An Australian English word from the Aboriginal. [Australia: Western Australia; Perth (probably = Whadjuk Aboriginal tribe of Tindale, 1974:260 (116°5'E x 32°0'S))] Anonymous, 1972; Dixon, Ramson, and Thomas, 1990:98. See *chelgi*, *chielghi*, *gilga*, *gilgie*, *goolgie*, *jilgi*, *jilgy*, *joolgie*, and *julegie*.

jilgy PARASTACIDAE, "crayfish," probably = *Cherax* sp. [Australia: Western Australia; South-West Division, Bunbury (probably = Kaneang Aboriginal tribe of Tindale, 1974:244 (116°40'E x 34°0'S))] Barlee, in Curr, 1886(I):354, Sta. 24. See *chelgi*, *chielghi*, *gilga*, *gilgie*, *goolgie*, *jilgi*, *jilgie*, *julegie*. See also *gunnok*, *koonak*, *marran*, *murrin*, and *perran*.

jin-ju PARASTACIDAE, "crayfish," probably = *Cherax quadricarinatus*. [Australia: Queensland; Kamilaroi Station (as Curr, 1886(II):318, indicates this locality at 140°E x 19°S, it is probable that it refers to the Maijabi Aboriginal tribe of Tindale, 1974:180 (140°35'E x 19°10'S)] M. Curr, in Curr, 1886(II):320, Sta. 96. See *choorn-gu* and *junju*.

joeri PARASTACIDAE, *Cherax paniacus*. [New Guinea] Holthuis, 1949:295, 325.

jõevähk ASTACIDAE [Estonia] Purre, 1948:81.

jõevähk ASTACIDAE, *Astacus astacus*. [Estonia] Cherry, 1992:20.

jokiäyriäinen ASTACIDAE [Finland] Wuolle, 1947:

103.

jokirapu ASTACIDAE, *Astacus astacus*. [Finland] Westman, 1990:58.

joolgie PARASTACIDAE, *Cherax quinquecarinatus*. Possibly Australian English derived from Aboriginal. [Australia: Western Australia] Olszewski, 1980:20. See *chelgi*, *chielghi*, *gilga*, *gilgie*, *goolgie*, *jilgi*, *jilgie*, *jilgy*, and *julegie*.

julegie PARASTACIDAE, *Cherax quinquecarinatus*. Possibly Australian English derived from Aboriginal. [Australia: Western Australia] Olszewski, 1980:20. See *chelgi*, *chielghi*, *gilga*, *gilgie*, *goolgie*, *jilgi*, *jilgie*, *jilgy*, and *joolgie*.

juju'na-oyo CAMBARIDAE, = "camarón reculador," q.v. Possibly = *Procambarus (Austrocambarus) llamasí*. [México: Veracruz; Popoluca de Oluta] Clark, 1981:76, 151. See *ju'navitpa'-oyo*. See also *camarón reculador*.

ju'navitpa'-oyo CAMBARIDAE, = "camarón reculador," q.v. Possibly = *Procambarus (Austrocambarus) llamasí*. [México: Veracruz; Popoluca de Oluta] Clark, 1981:76, 151. See *juju'na-oyo*. See also *camarón reculador*.

junju PARASTACIDAE, "crayfish," probably = *Cherax quadricarinatus*. [Australia: Queensland; Cloncurry River, Miappe Aboriginal tribe (= Maithakari Aboriginal tribe of Tindale, 1974:180 (140°40'E x 20°5'S))] Palmer, in Curr, 1886(II):338, Sta. 99. See *choorn-gu*, and *jin-ju*. See also *beekodl*, and *pekkool*.

kācay chita Slang. Literally, "beats the crayfish," = returns (a purchase) to the seller. [Korea] Martin, Lee, and Chang, 1967:24. See *가재 치다*, below.

가재 치다 = *kācay chita*, q.v.

kah-shah-ko ASTACIDAE, probably *Pacifastacus* sp. [U.S.: California; Northern Pomo Indians (Hokan)] Merriam, 1979:233.

kajae CAMBARIDAE, probably = *Cambaroides similis*, but as with *lägū* and *crayfish*, may be a broader vernacular word referring to any member of the ASTACOIDEA or PARASTACOIDEA. [Korean]

Martin, Lee, and Chang, 1967:24; Chang-Su Houchins, personal communication. See **가재**, next citation.

가재 = *kajae*, q.v.

kajae körüm [Korean] Slang, walking (or crawling) backward (like a crayfish). Martin, Lee, and Chang, 1967:24; Chang-Su Houchins, personal communication. See **camaron reculador**, **crawdad** (verb, sense 1), **crawfish** (verb, sense 1), **crawfish policy**, **crayfish** (verb), **crayfish** (symbolism), **gambero** (verb), **hsiang làgǔ I yang hou t'ui, hsiang làgǔ I yang sa so, lung hia**, **marcher comme les écrevisses**, and **marcher en écrevisse**. See also **가재 걸음**, next citation.

가재 걸음 = *kajae körüm*, q.v.

kaiaru PARASTACIDAE? Given the locality of this record, the “crayfish” referred to may not be a freshwater crayfish. [New Guinea: Saibai dialect] Mathew, 1899:230-231.

kakine PARASTACIDAE, “crayfish,” probably = *Cherax destructor*. [Australia: Queensland; upper Burnett River, Mt. Debateable, and Gayndah (probably = Wakawaka Aboriginal tribe of Tindale, 1974:187 (151°45'E x 25°50'S))] Riley and M. Curr, in Curr, 1887(III):150, Sta. 165.

kalifornischen Krebs ASTACIDAE, *Pacifastacus (Pacifastacus) leniusculus*. [Germany] Goldman, 1973:118.

Kamberkrebs CAMBARIDAE, *Orconectes (Faxonius) limosus* (*Cambarus affinis*). [Germany] Hoffman, 1980:12; [Switzerland] Büttiker et al., in Westman et al., 1990:180; [Austria] Wintersteiger, in Westman et al., 1990:38.

kamburo CAMBARIDAE? [Esperanto] Butler, 1967:196. See **kankro**.

kamenný rak See **камений рак**, next citation.

каменный рак ASTACIDAE *Astacus torrentium* (*A. saxatilis*, *A. longicornis*, and *Potamobius saxatilis*). Current usage, *Austropotamobius* (s. str.) *torrentium natio torrentium*. [Russia] Gozmány, 1979:119; Brodsky, 1981:181. See **kamenný rak**,

above.

kams'kyi dovghopalyi rak See **камський довгопалий рак**, next citation.

камський довгопалий рак ASTACIDAE, *Pontastacus leptodactylus boreoorientalis*. [Ukraine] Brodsky, 1981:156. See **kams'kyi dovghopalyi rak**, see above.

kamskyi dlinnopalyi rak See **камский длиннопалый рак**, next citation.

камский длиннопалый рак ASTACIDAE, *Pontastacus leptodactylus boreoorientalis*. [Russia] Brodsky, 1981:156. See **камский длиннопалый рак**, above.

kam'yanyi rak See **кам'яний рак**, next citation.

кам'яний рак ASTACIDAE, *Austropotamobius* (s. str.) *torrentium natio torrentium*. [Ukraine] Brodsky, 1981:181. See **kam'yanyi rak**, above.

kandera PARASTACIDAE, “crayfish,” probably = *Cherax destructor*. [Australia: Queensland; Tambo (probably = Wadjalang Aboriginal tribe of Tindale, 1974:186-187 (145°20'E x 25°50'S))] Dalhunty, in Curr, 1887(III):86, Sta. 155. See **boogalli**, **boogarli**, **bookill**, **koarow**, and **quarroo**.

kankro ASTACOIDEA and PARASTACOIDEA? Includes “**astako**” and “**kamburo**,” q.v. [Esperanto] Butler, 1967:196. See also **konkro**.

kaapeasaksirapu ASTACIDAE *Astacus leptodactylus*. [Finland] Westman et al., 1990:58.

kapich PARASTACIDAE, “crayfish,” probably = *Cherax destructor* and/or *Eustacus* sp. [Australia: Victoria; Glenelg River above Woodford (exact locality uncertain because Woodford not shown on available maps or designated on Glenelg River in the Official Standard Names Gazetteer of the U.S. Board on Geographical Names (Anonymous, 1957)) (possibly = Bunganditj Aboriginal tribe of Tindale, 1974:210-211 (141°10'E x 37°35'S))] Curr, 1887(III):480, Sta. 207d. Kiamichi crayfish CAMBARIDAE, *Orconectes (Procericambarus) saxatilis*. [U.S.: Oklahoma; LaFlore County, Pigeon Creek] Williams, et al., 1989:25; Hobbs, 1989:49.

kidneykooderi PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: South Australia; Cooper's Creek, Yowerawoolka Aboriginal tribe (probably = Jauraworka Aboriginal tribe of Tindale, 1974:212 (140°25'E x 26°40'S))] Cornish, in Curr, 1886(II):28, Sta. 48. See narraminyeh.

kinid *sensu stricto*, a spider, but loosely used for crayfishes; probably an archaic usage. ASTACIDAE *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France: Bretagne] André, 1960:133. See **kefnid**, **kefniden-zour**, **kinid-dour**, and **shawgashee**.

kinid-dour *sensu stricto*, a freshwater spider, but loosely used for crayfishes; probably an archaic usage; **zour** = **dour** = **douce** = freshwater. ASTACIDAE *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France] Gozmány, 1979:118. [France: Bretagne] Belloc, 1899:142. See **kefnid**, **kefniden-zour**, **kinid**, and **shawgashee**.

kipil PARASTACIDAE, "lobster," possibly = *Euastacus* sp. [Australia: S.E. Victoria; "Gippsland," (data given are insufficient for tribal designation)] Hagenauer, in Curr, 1887(III):554, Sta. 210. See **yappy**.

kitihy PARASTACIDAE (small **oranakely** and **zanak'orana**, q.v.) [Madagascar: Betsileo] Poisson, 1947:13.

kitika PARASTACIDAE (small **oranakely** and **zanak'orana**, q.v.) [Madagascar: Betsileo] Poisson, 1947:13.

koarow PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Barcoo River, Torrabitri Aboriginal tribe (probably = Wadjalang Aboriginal tribe of Tindale, 1974:186-187 (145°20'E x 25°-50'S))] Hyde, in Curr, 1887(III):80, Sta. 155. See **bookill** and **boogalli**.

когда на горе рак свистнет Slang, loosely, "when the crayfish whistles on the mountain." English equivalent, "once in a blue moon." [Russia] Ricker, 1973:202.

kolkhids'kyi rak See next two citations: **колхідський рак** and **колхидский рак**.

колхідський рак ASTACIDAE, *Astacus colchicus*. [Ukaraine] Brodsky, 1981:146. See **kolkhids'kyi rak**, above.

колхидский рак ASTACIDAE, *Astacus colchicus*. [Russia] Brodsky, 1981:146. See **kolkhids'kyi rak**, above.

komdar PARASTACIDAE, "crayfish," probably = *Cherax davisi*. [Australia: Queensland; Nogoa River, Bimurraburra Aboriginal tribe (= Kairi Aboriginal tribe of Tindale, 1974:173 (147°55'E x 23°55'S))] Middleton, in Curr, 1887(III):92, Sta. 156.

kongola PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: New South Wales; Menindie, Darling River (probably = Barkindji Aboriginal tribe of Tindale, 1974:192 (143°30'E x 32°40'S))] Mair, in Curr, 1886(II):234, Sta. 80; [Marowera Aboriginal tribe (= Kureinji Aboriginal tribe of Tindale, 1974:196 (142°25'E x 34°15'S))] Bulmer, in Curr, 1886(II):240, Sta. 82. See **thupul**.

konkro PARASTACIDAE, probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: South Australia/Victoria; "Victorian Region groups," Booandik (Aboriginal tribe) (= Bunganditj Aboriginal tribe of Tindale, 1974:210-211 (141°10'E x 37°35'S))] Mathew, 1899:230-231; [South Australia; Mt. Gambier (Bunganditj Aboriginal tribe of Tindale, 1974:210-211 (141°10'E x 37°35'S))] Curr 1887(III):464, Sta. 205. Olszewski, 1980:17, quotes Mrs. James Smith, a 19th century missionary, saying that members of the Booandik Aboriginal tribe spread from western Victoria to eastern South Australia. See **kapich**, **keler**, **maraija**, **monagur**, and **murangir**.

koonac PARASTACIDAE, *Cherax plebejus* and *C. glaber*. Australian English word derived from Aboriginal **gunag**. [Australia: Western Australia, Perth-Albany region; Nyungar Aboriginal tribe (probably = Wudjari Aboriginal tribe of Tindale, 1974:261 (119°-45'E x 33°40'S))] Dixon, Ramson, and Thomas, 1990:98; Horwitz, 1983:11. See **gonak**, **goonack**, **goonak**, **gunag**, and **koonak**.

koonak PARASTACIDAE, *Cherax* sp. [Australia: Western Australia; South-West Division, Bunbury (probably = Kaneang Aboriginal tribe of Tindale, 1974:244 (116°40'E x 34°0'S))] Barlee, in Curr, 1886(I):354, Sta. 24; [Australia: Western Australia; South-West Division, Uduc, Harvey, Bunbury and Lower Blackwood (probably = Kaneang Aboriginal tribe of Tindale, 1974:244 (116°40'E x 34°0'S))] Small, in Curr, 1886(I):358, Sta. 24; [Australia: Western Australia; South-West Division, Blackwood District, Kardagab Aboriginal tribe (probably = Kane-

ang Aboriginal tribe of Tindale, 1974:244 (116°40'E x 34°0'S)] Hester, in Curr, 1886(I):360, Sta. 24. See **gonak**, **goonack**, **goonak**, **gunag**, and **koonac**. See also **gunnok**, **jilgy**, **koonac**, **marran**, **murrin**, and **perran**.

koon-da-chi PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Boulia District, Pitta-Pitta Aboriginal tribe (= Pitapita Aboriginal tribe of Tindale, 1974:184 (139°45'E x 22°45'S))] Roth, 1897:93. See **koondagi**, **kuntatyi**, and **tunanyty**. See Sign Language.

koondagi PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Burke River, Yelina Aboriginal tribe (= Jalanga Aboriginal tribe of Tindale, 1974:169 (140°0'E x 21°55'S))] Eglinton, in Curr, 1886(II):348, Sta. 101. See **koon-da-chi**, **koondagi**, **kuntatyi**, and **trunagi**.

koongala PARASTACIDAE, probably = *Cherax destructor* and/or *Eustacus* sp. [Australia: South Australia; Murray River alluvial flats (possibly = Ngaiawang Aboriginal tribe of Tindale, 1974:214 (139°35'E x 34°15'S))] Olszewski, 1980:17, citing Gray in Eyre, 1845.

koongideri PARASTACIDAE, probably = *Cherax destructor*. [Australia: South Australia; W of Lake Eyre (probably = Arabana (Ngarabana) Aboriginal tribe of Tindale, 1974:210 (136°0'E x 28°30'S))] Curr, 1886(II):16, Sta. 45. See **koonkooderi**, **koonkoodirri**, **kuniekoondie**, **kuniekundi**, **kurnkuderri**, and **kurukudirri**.

koongoola PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: New South Wales; Lower Paroo and Warrego rivers, Parooinge Aboriginal tribe (= Parundji Aboriginal tribe of Tindale, 1974:198 (144°15'E x 29°35'S))] Scrivener, in Curr, 1886(II):184, Sta. 74. See **koongoolo**, **koon-gooloo**, and **koongooloo**.

koongoolo PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: New South Wales; Weintēriga, on Darling River, to (Main) Barrier Range (possibly the adjacent Milpulo Aboriginal tribe (142°25'E x 31°55'S) and Wiljakali Aboriginal tribe (141°0'E x 31°55'S) of Tindale, 1974:196 and 200)] McLennan, in Curr, 1886(II):232, Sta. 79. See **koongoola**, **koon-**

gooloo, and **koongooloo**.

koon-gooloo PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Eustacus* sp. [Australia: New South Wales; south and east central groups, Darling dialects (probably = Barkindji Aboriginal tribe of Tindale, 1974:192 (142°25'E x 32°40'S))] Mathew, 1899:230-231; [Australia: New South Wales; Darling River from Wilcannia downstream to Avoka, Bahkunjy Aboriginal tribe (= Barkindji Aboriginal tribe of Tindale, 1974:192 (142°25'E x 32°40'S))] Teulon, in Curr, 1886, vol. II:208, Sta. 75. See **koongooloo**, **koongoola**, and **koongoolo**.

koongooloo PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Eustacus* sp. [Australia: New South Wales; Tolarno Station, near Menindie (probably Barkindji Aboriginal tribe of Tindale, 1974:192 (142°25'E x 32°40'S))] Shaw, in Curr, 1886(II):236, Sta. 81. See **koongoola**, **koongoolo**, and **koon-gooloo**.

koongooya PARASTACIDAE, "lobster." This locality is not within the known present-day distribution of freshwater crayfishes. [Australia: Queensland; Lower Burdekin River (probably = Warungu Aboriginal tribe (146°0'E x 19°30'S) and/or Juru Aboriginal tribe (147°40'E x 19°55'S) of Tindale, 1974:188, 172] Cunningham and Gorton, in Curr, 1886(II):488, Sta. 134. See **goombarroo**, **goonaway**, **mokin**, **rer-i-reri**, and **tararukau**.

koonkooderi PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: SW Queensland and NE South Australia; Warburton River [sometimes designated "Creek"]—Ominee, Wongonooroo, Kuranyooroo, and Yarloeyandee Aboriginal tribes (probably = Jeljendi Aboriginal tribe (138°45'E x 25°40'S), Karanguru Aboriginal tribe (138°40'E x 26°25'S), Ngameni Aboriginal tribe (139°5'E x 26°50'S), and Wongkanguru Aboriginal tribe (137°10'E x 26°40'S) of Tindale, 1974:212-213, 215, and 219)] Paull and Cornish, in Curr, 1886(II):22, Sta. 47. See also **koongideri**, **koonkoodirri**, **kuniekoondie**, **kuniekundi**, **kurnkuderri**, and **kurukudirri**.

koonkoodirri PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: South Australia; "Central Division," Warburton River, Ominee Aboriginal tribe (probably = Wongkanguru Aboriginal tribe of

Tindale, 1974:219 (137°10'E x 26°40'S)] Curr, 1886(II):20, Sta. 46. See also *koongideri*, *koonkooderi*, *kuniekoondie*, *kuniekundi*, *kurnkuderri*, and *kurukudirri*.

koorey PARASTACIDAE, "lobster," probably = *Cherax esculus* and/or *Euastacus* sp. [Australia: New South Wales; Bogabrie, Kamaroi Aboriginal tribe (148°35'E x 30°15'S)] Bench of Magistrates at Bogabrie, in Curr, 1887(III):322, Sta. 181.

kooura = "freshwater crayfish." PA-RASTACIDAE, *Paranephrops* sp. [New Zealand: Maori] Biggs, 1981: 42. See *koura*.

kósuhk?áriya (Orthography employed by Haas) CAMBARIDAE, "red crawfish." The word means, literally, "crawfish shaman"; the rainbow was believed to be the painting on the face of the shaman in the sky, who was supposed to suck up little fish and crawfish and then let them drop again to earth. [U.S.: Louisiana, Tunica Indians] Haas, 1953:225.

kósuhki (Orthography employed by Haas) CAMBARIDAE, "crawfish." [U.S.: Louisiana, Tunica Indians] Haas, 1953:311.

kósuhk?úhkent?e (Orthography employed by Haas) CAMBARIDAE, "large-fingered crawfish," (or crab). [U.S.: Louisiana, Tunica Indians] Haas, 1953:225.

kottingeri PARASTACIDAE, "crayfish," probably = *Euastacus* sp. [Australia: New South Wales; lower Macleay River (probably = Ngaku Aboriginal tribe of Tindale, 1974:197 (152°40'E x 31°0'S))] Curr, 1887 (III):336, Sta. 185.

koura PARASTACIDAE. [New Zealand, Maori language] Taylor, 1870:639; PARASTACIDAE, *Paranephrops planifrons*, as well as *Jasus lalandii*; [New Zealand, Maori language] Williams, 1957:151. McLintock, 1966:706, says *koura* is used only for *Jasus* sp., but Best, 1974:282, discusses the use of fern traps used to catch crayfish ("koura") in the freshwater Rotorua district. See also *koura wai*.

koura wai PARASTACIDAE, *Paranephrops planifrons*. [New Zealand: Maori] McLintock, 1966 (3):706. See *koura*.

kövi rák ASTACIDAE *Astacus torrentium* (*A. saxatilis*, *A. longicornis*, and *Potamobius saxatilis*). Current usage, *Austropotamobius torrentium*. [Hungary] Gozmány, 1979:119.

kövirak See **kövi rák**.

Louisiana red swamp crawfish CAMBARIDAE, *Procambarus clarkii*. [U.S. and elsewhere, widely used in commercial trade] Fitzpatrick, J.F., personal communication.

Louisiana swamp crayfish CAMBARIDAE, *Procambarus clarkii*. [U.S.] Mosimann and Hofman, 1985:38.

louisiana-Sumpfkrebs CAMBARIDAE, *Procambarus clarkii*. [Germany] Schlüter, 1989:526.

Louisville crayfish CAMBARIDAE, *Orconectes (Crockerinus) jeffersoni*. [U.S.: Kentucky; Jefferson County, tributaries to Beargrass Creek, Ohio River] Williams, et al., 1989:24; Hobbs, 1989:36.

Iltjanma PARASTACIDAE, probably = *Cherax destructor*. [Australia: Northern Territory; "North Australia and Central Australia groups, Macdonnell Ranges" (probably = Aranda (western) Aboriginal tribe of Tindale, 1974:220-221 (134°45'E x 24°40'S))] Mathew, 1899:230-231. See *Iltjanma*, *iltjanma*, *Iltjanmalitnjaka*, *iltjénma*, and *injiltjinjiltja*.

lung hia Pronounced roughly "loong-hsyah," a contrived compound whose literal meaning is "dragon shrimp." Probably does not usually = freshwater crayfish, but = lobster. [Chinese] Leang, 1878:201; Yutang, 1972:421. The "crayfish" in the following quotation is probably an inaccurate translation of the word: "'Da long xia!' cried the same voice ... describing officials in terms of large crayfish." (Ludlum, 1986:454). Note that the "da" = "large." Note also that "crayfish" is said to be used as a term of scorn or derision in China, probably because of the backward mode of locomotion. Spelled also *long xia*, *lung xia* and *shia*. See *camaron reculador*, *crawdad* (verb, sense 1), *crawfish* (verb, sense 1), *crawfish policy*,

crayfish (verb), **gambero** (verb), **hsiang làgǔ** I yang hou t'ui, **hsiang làgǔ** I yang sa so, **marcher comme les écrevisses**, and **marcher en écrevisses**. Compare with **Incaktcakáfa** for opposite connotation. = 龍蝦, see next entry..

македонський кам'яний рак ASTACIDAE, *Austropotamobius (Austropotamobius) torrentium natio macedonicus*. [Ukraine] Brodsky, 1981. p. 183. See **makedons'kyi kam'yanii rak**, above.

makedonskyi kamennyi rak See македонский каменный рак, next citation.

македонский каменный рак ASTACIDAE, *Austropotamobius (Austropotamobius) torrentium natio macedonicus*. [Russia] Brodsky, 1981. p. 183. See **makedonskyi kamennyi rak**, above.

maloaziys'kyi dovgopalyi rak See малоази-

ський довгопалий рак, next citation.

малоазійський довгопалий рак ASTACIDAE, *Pontastacus leptodactylus intermedius*. [Ukraine] Brodsky, 1981:158. See **maloaziys'kyi dovgopalyi rak**, above.

maloazyiskiyi dlinnopalyi rak See малоазийский длиннопалый рак, next citation.

малоазийский длиннопалый рак ASTACIDAE, *Pontastacus leptodactylus intermedius*. [Russia] Brodsky, 1981:158. See **maloazyiskiyi dlinnopalyi rak**, above.

Mallacoota burrowing crayfish PARASTACIDAE, *Engaeus* "sp. VSL." [Australia: Victoria; Gippsland] Horwitz, 1990:99.

mal"k rechen rak See малък речен рак, below.

малък речен рак ASTACIDAE *Austropotamobius torrentium*. [Bulgaria] Cherry, 1992:19. See **mal"k rechen rak**.

mamaroo PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: New South Wales; Culgoa River (possibly = Morowari Aboriginal tribe of Tindale, 1974:175 (146°25'E x 29°0'S))] Foott, in Curr, 1887(III):328, Sta. 182.

mamuru PARASTACIDAE, probably = *Cherax destructor*. [Australia: "Queensland groups," Warrego River (possibly = Kunja Aboriginal tribe of Tindale, 1974:169 (146°10'E x 26°50'S)), Aboriginal dialect] Mathew, 1899:230-231. See **mamaroo**.

mangaba PARASTACIDAE, "lobster," possibly = *Cherax destructor* and/or *Euastacus* sp. [Australia: New South Wales; Yass (possibly = Ngunawal Aboriginal tribe of Tindale, 1974:198 (149°10'E x 34°55'S))] Browne and Bench of Magistrates at Yass, in Curr, 1887(III):426, Sta. 196. See **mooroonong** and **murragolong**.

mannata PARASTACIDAE, "lobster," probably = *Astacopsis* sp. [Australia: Tasmania; "southern" Tasmanian (possibly = South East Tasmanian Aboriginal tribe of Jones, in Tindale, 1974:336-338 (147°10'E x 43°10'S))] Jorgenson, in Curr, 1887(III):627.

manshiuzarigani "Manchurian crayfish." CAMBARIDAE, *Cambaroides dauricus*. [Japan] Uchida, 1953:758. See next citation.

マゾシウザリガニ = **manshiuzarigani**, q.v.

まんしゅざりがに = **manshuzarigani**, q.v.

man-shkan = "Scamperers over the ground." CAMBARIDAE [U.S.: midwest, Dakotah Indians] Dorsey, 1884:238.

maraija PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: Victoria; Upper Glenelg and Wannon, Bunganditj Aboriginal tribe of Tindale, 1974:210-211 (141°10'E x 37°35'S)] Curr, 1887(III):478, Sta. 207c. See **kapich**, **keler**, **konkro**, **monagur**, and **murangir**.

maramie PARASTACIDAE, probably = *Cherax destructor*, *Euastacus* sp. and/or *Geoherax* sp. Australian English word probably derived from the Aboriginal **marramin**. [Australia: southwest New South Wales] Dixon, Ramson, and Thomas, 1990:99. See **marramin**, and **moramy**, and **morramma**.

marcher comme les écrevisses Slang, = to walk backward or to travel at a snail's pace. [France: 20th century] Mansion, 1972:E:10. See **camaron reculador**, **crawdad** (verb, sense 1), **crawfish** (verb, sense 1), **crawfish policy**, **crayfish** (verb), **gambero** (verb), **hsiang làgǔ** I yang hou t'ui, and **marcher en écrevisse**.

marcher en écrevisse Slang, = to walk backward or to travel at a snail's pace. [France: 20th century] Mansion, 1972:E:10. See **camaron reculador**, **crawdad** (verb, sense 1), **crawfish** (verb, sense 1), **crawfish policy**, **crayfish** (verb), **gambero** (verb), **hsiang làgǔ** I yang hou t'ui, and **marcher comme les écrevisses**.

maren PARASTACIDAE, probably = *Cherax* sp. [Australia: Western Australia; South-West Division, Lower Blackwood, Peopleman Aboriginal tribe (probably = Pibelmen Aboriginal tribe of Tindale, 1974:255 (115°50'E x 34°20'S))] Gifford, in Curr, 1886(I):362, Sta. 26. See also **marin**, **marine**, **marra**, **marran**, **marrida**, **marron**, and **murrin**.

marin PARASTACIDAE, probably = *Cherax* sp.

[Australia: Western Australia; South-West Division, Bunbury (probably = Kaneang Aboriginal tribe of Tindale, 1974:244 (116°40'E x 34°0'S))] Barlee, in Curr, 1886, v. 1:354, Sta. 24; [Australia: Western Australia; Lower Great Southern Division, King George's Sound, Minung or Meening Aboriginal tribes (probably = Minang Aboriginal tribe of Tindale, 1974:248 (117°40'E x 34°45'S))] Spencer et al., in Curr, 1886, v. 1:388, Sta. 31. See **maren**, **ma-rine**, **marra**, **marran**, **marrida**, **marron**, and **murrin**.

marine PARASTACIDAE, probably = *Cherax* sp. [Australia: Western Australia; South-West Division, Pinjarra Aboriginal tribe (probably = Pindjarup Aboriginal tribe of Tinsdale, 1974:256 (115°55'E x 32°55'S))] Scott, in Curr, 1886(I):346, Sta. 22. See **maren**, **marin**, **marra**, **marran**, **marrida**, **marron**, and **murrin**. See also **gilga** and **goonak**.

marooroo PARASTACIDAE, "lobster," probably = *Cherax destructor*. [Australia, Queensland; Upper Flinders, Hughenden, Dutton River, etc; Pooroga Aboriginal tribe (= Jirandali Aboriginal tribe of Tindale, 1974:171 (144°20'E x 21°15'S))] M. Curr, in Curr, 1886(II). p. 460, Sta. 129. See **boogal**, **karkoora**, and **munya**.

marra PARASTACIDAE, = *Cherax* sp. [Australia: Western Australia; Perth Division, Perth (probably = Whadjuk (Witjari) Aboriginal tribe of Tindale, 1974:260 (116°5'E x 32°0'S))] Armstrong, in Curr, 1886(I):334, Sta. 19. These people also use **marran**, q.v. See also **maren**, **marin**, **marine**, **marran**, **marron** and **murrin**.

marramin PARASTACIDAE, possibly = *Cherax destructor*, *Euastacus* sp., and/or *Geoherax* sp. [Australia: New South Wales; Wiradhuri Aboriginal tribe of Threlkeld, 1892:97; Wiradhuri Aboriginal tribe of Dixon, Ramson, and Thomas, 1990:99 (both = Wiradjuri Aboriginal tribe of Tindale, 1974:201 (147°-30'E x 33°50'S))]. See **gidyar**, **maramie**, **morramma** and **moramy**.

marran PARASTACIDAE, probably = *Cherax* sp. [Australia: Western Australia; South-West Division, Blackwood District, Kardagur Aboriginal tribe (probably = Kaneang Aboriginal tribe of Tindale, 1974:244 (116°40'E x 34°0'S))] Hester, in Curr, 1886(I):360, Sta. 24; [Australia: Western Australia; Perth Division,

Perth (probably = Whadjuk (Witjari) Aboriginal tribe of Tindale, 1974:260 (116°5'E x 32°0'S)) Armstrong, in Curr, 1886, v. 1:334, Sta. 19; [Australia: Western Australia; Perth-Albany region, Nyungar Aboriginal tribe (probably = Wudjari Aboriginal tribe of Tindale, 1974:261 (119°45'E x 33°40'S))] Dixon, Ramson, and Thomas, 1990:99. See also **maren**, **marin**, **marine**, **marra**, **marron** and **murrin**.

marrida PARASTACIDAE? This locality does not coincide with the known present-day distribution of Australian freshwater crayfishes, and may be some other animal or an unknown distribution. [Australia: Western Australia; Central Division, Northampton (near Chapman River), Eaw tribe (probably = Nokaan Aboriginal tribe of Tindale, 1974:254 (115°20'E x 27°35'S))] Goldsworthy, in Curr, 1886(I):314, Sta. 14. See **atta**, **bodardi**, and **marthera**.

marron PARASTACIDAE, *Cherax tenuimanus*. [Australian English probably from the Aboriginal **marran**. [Australia: Western Australia, Perth-Albany region; Nyungar Aboriginal tribe (probably = Wudjari Aboriginal tribe of Tindale, 1974:261 (119°45'E x 33°40'S))] Dixon, Ramson, and Thomas, 1990:99; Schlüter, 1989:526. See **maren**, **marin**, **marine**, **marra**, **marran** and **murrin**.

marthera PARASTACIDAE?, "crayfish"? This locality does not coincide with the known present-day distribution of Australian freshwater crayfishes, and may refer to some other animal or to an earlier distribution pattern. [Australia: Western Australia; Central Division, Champion Bay (N of Geraldton), Watchandi Aboriginal tribe (probably = Amangu Aboriginal tribe of Tindale, 1974:239 (115°30'E x 29°20'S))] Goldsworthy, in Curr, 1886(I):316, Sta. 15. See **atta**, **bodardi**, and **marrida**.

masan cay = "meadow grasshopper fish." CAMBARIDAE. Hunn says "ASTACIDAE," which, because of the locality, is erroneous. [México: Chiapas, Tenejapa Indians (Tzotzil dialect of Mayan)] Hunn, 1977:253. See also **grilh-dour**, **grasshopper** and **Heuschreckenkrebs**.

meatzas = "[C]amarón, pescado." CAMBARIDAE? [México: Tabasco, Chiapas, and Oaxaca, Zoque Indians] La Grasserie, 1898:64. See also **cooy**, **tzas**, and **vetze**.

meauke PARASTACIDAE. [Australia: "South Australian Aborigines"] Taplin, 1879:128. See **meauki**.

meauki PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: South Australia; Narrinyeri language (possibly = Jarildekald (139°20'E x 35°30'S) and/or Portalun (139°15'E x 35°15'S) Aboriginal tribes of Tindale, 1974:212 and 217-218] Mathew, 1899:230-231; [Australia: South Australia; Pytu Reach (Pt. McLeay?) (possibly = Jarildekald Aboriginal tribe of Tindale, 1974:212 (139°20'E x 35°30'S))] Taplin, in Curr, 1886(II):272, Sta. 83. See **meauke**.

mel-oo-shata ASTACIDAE, probably *Pacifastacus* sp. [U.S.: California, Coast Yuki Indians (Yukian)] Merriam, 1979:222.

Miami cave crayfish CAMBARIDAE, *Procambarus (Leconticambarus) milleri*. [U.S.: Florida; Dade County, subterranean waters] Williams, et al., 1989:26; Hobbs, 1989:62.

Mieter Literally a tenant or renter. Said of a crayfish that sheds its carapace. ASTACIDAE [Germany] Rolland, 1881:231, citing Poëtevin, 1754.

Mieterkrebs Literally a tenant or renter + krebs. Said of a crayfish that sheds its carapace. ASTACIDAE [Germany] Rolland, 1881:231, citing Poëtevin, 1754.

mimic crayfish CAMBARIDAE, *Distocambarus (Fitzcambarus) carlsoni*. [U.S.: South Carolina; Saluda and Savannah river basins] Williams, et al., 1988:23; Hobbs, 1989:28.

mimüm tixem CAMBARIDAE? [México: Oaxaca, Istmo de Tehuantepec, San Mateo del Mar, Huave Indians] Kreger and de Stairs, 1981:110 "la langosta," and 407 "*Astacus fluviatilis*." Neither of these is very informative; if they indeed mean freshwater crayfishes, then *Astacus astacus* (ASTACIDAE) is highly unlikely and the most likely crayfish would belong to the CAMBARIDAE

mini-lobster ASTACIDAE [U.S.: Oregon] Olszewski, 1980:20.

mintoola PARASTACIDAE, "crayfish," probably =

Cherax quadricarinatus. [Australia: Queensland; Burketown (probably = Mingin Aboriginal tribe of Tindale, 1974:181 (139°35'E x 18°10'S))] Coward, in Curr, 1886(II):298, Sta. 90.

Mississippi flatwoods crayfish CAMBARIDAE, *Procambarus (Girardiella) cometes*. [U.S.: Mississippi; Lowndes and Oktibbeha counties, burrows] Williams, et al., 1989:25; Hobbs, 1989:56.

mistahle'k me'emdaḥ' Verb, slang = "to retreat from a position." [Hebrew] Alcalay, 1962 (1965):853. See **crawfish** (verb, sense 1), **histahle'k me'emdaḥ'**, and **naseh' le'heezahche'r**. See next citation.

מִשְׁתָּהַלְךָ מֵעַדְתָּה Note that these words are read from right to left. See **mistahle'k me'emdaḥ'**, above.

mkoda PARASTACIDAE, *Cherax boschma*. [New Guinea] Holthuis, 1949:324.

moak PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: New South Wales; Mallee Cliffs Station to Wentworth, "The Darling Tribes" (probably = Kureinji Aboriginal tribe of Tindale, 1974:196 (142°25'E x 34°15'S))] Curr, 1886(II):282, Sta. 87.

Mobile crayfish CAMBARIDAE, *Procambarus (Ortmannicus) lecontei*. [U.S.: Mississippi and Louisiana] Williams, et al., 1989:26.

moch' = "pigua (*crustáceos*).". CAMBARIDAE?. It is highly doubtful that this refers specifically to crayfishes. [México: Ch'ol Indians] Aulie and de Aulie, 1978:80.

mocsári rák ASTACIDAE *Astacus leptodactylus* (*Potamobius leptodactylus*). [Hungary] Gozmány, 1979:119.

moerido Pronounced mooreedo. PARASTACIDAE, *Cherax murido*. [New Guinea] Holthuis, 1949:295, 315.

mokin PARASTACIDAE, "lobster," probably = *Cherax destructor*. [Australia: Queensland; "Mount Black, Oriba-Kulba Aboriginal tribe" (this locality is uncertain, but probably = Jirandali Aboriginal tribe (144°20'E x 21°15'S)), see Tindale, 1974:188] Curr,

1886(II):486, Sta. 133.

monagur PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: Victoria; Dartmoor (probably = Bunganditj Aboriginal tribe of Tindale, 1974:210-211 (141°10'E x 37°35'S))] Curr, 1887(III):484, Sta. 207f. See **kapich**, **keler**, **konkro**, **maraija**, and **murangir**.

mooban PARASTACIDAE, "lobster," probably = *Euastacus* sp. [Australia: New South Wales; Nerang Creek (possibly = Kalibal Aboriginal tribe of Tindale, 1974:171 (153°5'E x 28°15'S))] Fowler, in Curr, 1887(III):240, Sta. 172. See **moolan** and **mul'aim**.

moolan PARASTACIDAE, "crayfish," probably = *Euastacus* sp. [Australia: New South Wales; Nerang Creek (possibly = Kalibal Aboriginal tribe of Tindale, 1974:171 (153°5'E x 28°15'S))] Fowler, in Curr, 1887(III):240, Sta. 172. See **mooban** and **mul'aim**.

mooragonong PARASTACIDAE, "lobster," possibly = *Euastacus* sp. [Australia: New South Wales; Howlong (probably = Jeithi Aboriginal tribe of Tindale, 1974:193 (145°55'E x 35°25'S))] Byrne, in Curr, 1887(III):398, Sta. 190. See **moorogognong**, **murrami**, and **thugamong**.

moorogonong PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Engaeus* spp. [Australia: New South Wales; Deniliquin (probably = Jeithi Aboriginal tribe of Tindale, 1974:193 (145°55'E x 35°25'S))] Gordon, in Curr, 1887(III):396, Sta. 190. See **mooragognong**, **murrami**, and **thugamong**.

mooroonong PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: New South Wales; Yass (probably = Ngunawal Aboriginal tribe of Tindale, 1974:198 (149°10'E x 34°-55'S))] Browne and Bench of Magistrates at Yass, in Curr, 1887(III):426, Sta. 196. See **mangaba** and **murragolong**.

moramy PARASTACIDAE, probably = *Cherax* sp. and/or *Euastacus* sp. Australian English word probably derived from the Aboriginal **marramin**. [Australia: New South Wales] Dixon, Ramson, and Thomas, 1990:99. See **maramie**, **marramin** and **moramma**.

Morongla Place name, = "Crayfish." [Australia:

New South Wales; possible same as Morongla Creek (148°41'E x 33°56'S)] Reed, 1967:103.

morramma PARASTACIDAE, probably = *Euastacus* sp. [Australia: New South Wales; Sydney (probably = Daruk Aboriginal tribe of Tindale, 1974:193 (150°35'E x 33°35'S))] Dixon, Ramson, and Thomas, 1990:99, quoting Balfour, 1845:35 ("A small crayfish, called by the aborigines 'morramma,' is better eating than any shell fish I ever tasted, and is very abundant and easily caught.")] See **maramie**, **marramin** and **moramy**. See also **wirra**.

morski rak ASTACIDAE [Yugoslavia: Serbocroatia] Grujic, 1969:68.

motoga PARASTACIDAE?, "lobster"? This locality is not within the present-day known range of freshwater crayfishes. [Australia: Queensland (probably = Warakamai Aboriginal tribe of Tindale, 1974:188 (146°15'E x 18°55'S))] Cassady, in Curr, 1886(II): 428, Sta 120.

motogar Same as **motoga**, above, except Johnstone, in Curr, 1886(II):430, Sta. 120.

Mount Arthur burrowing crayfish PARASTACIDAE, *Engaeus* "sp. TA." [Australia: Tasmania; Mt. Arthur] Horwitz, 1990:99.

mousse d'ecrивисse Not a crayfish, but = crawfish moss. Used to refer to various members of the *Utricularia*, which are slender-stemmed, perennial herbs that are often free-floating. Holmes, 1990:89.

mouwa PARASTACIDAE, "crayfish," possibly = *Cherax cairnsensis*. [Australia: Queensland; Hinchinbrook Island and adjacent mainland (probably = Keramai Aboriginal tribe of Tindale, 1974:175 (145°-45'E x 18°15'S))] Murray, in Curr, 1886(II):420, Sta. 118. See **yeekerra**.

mucheecan PARASTACIDAE, "crayfish," probably = *Cherax wasselli* and/or *C. cairnsensis*. [Australia: Queensland; Granite Range, head of Mitchell River (possibly = Muluridji Aboriginal tribe of Tindale, 1974:182 (145°10'E x 16°40'S))] Mowbray, in Curr, 1886(II):406, Sta. 113.

mudbug CAMBARIDAE, *Procambarus clarkii*.

[U.S., southeast: particularly Louisiana] Viosca, 1961: 5. This word is also used in the New Orleans area to refer to any crayfish.

mudbug Verb, to catch mudbugs. See next citation.

mudbugging Known in print only in the gerund form **mudbugging**. [U.S.: southeast, particularly Louisiana] Washburn, 1953:1.

mud crayfish CAMBARIDAE, *Orconectes immunis*. [U.S., midwest] Rach and Bills, 1987:601.

mul'aim PARASTACIDAE, probably = *Euastacus* sp. [Australia: Queensland; Jukambe Aboriginal tribe (153°0'E x 27°55'S)] Watson, 1943-1944:42.

mulam PARASTACIDAE. [Australia: Tasmania] Ingamells, 1955:51.

mulpo PARASTACIDAE, probably *Cherax destructor*. [Australia: Queensland; "East Central groups," Murunuda dialect (possibly = Mitaka Aboriginal tribe of Tindale, 1974:181-182 (139°25'E x 25°0'S))] Mathew, 1899:230-231.

mundi PARASTACIDAE, "lobster," probably = *Cherax destructor*. [Australia: Queensland; Western River (probably = Koa Aboriginal tribe of Tindale, 1974:175 (142°20'E x 22°10'S))] Haines, in Curr, 1887(III):16, Sta. 141. See **pirrinoo**.

munya PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; upper Thompson River (probably = Jirandali Aboriginal tribe of Tindale, 1974:169, 171, (144°20'E x 21°15'S))] Christison, in Curr, 1887(III):10, Sta. 138. See **boogal**, **karkoora**, and **marooroo**.

muracuru PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: New South Wales; Evelyn Creek, Pono Aboriginal tribe (probably = Wanjiwalku Aboriginal tribe of Tindale, 1974:200 (142°40'E x 30°25'S))] Crozier, in Curr, 1886(II): 154, Sta. 69.

murangir PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: South Australia/Victoria; "Woodford," (Woodford should be in the vicinity of the Glenelg River (see

kapich), but I have been unable to find it on maps or locate it on the Glenelg River in the Official Standard Names Gazetteer of the U.S. Board on Geographical Names (Anonymous, 1957)) (possibly = Bunganditj Aboriginal tribe of Tindale, 1974:210-211 (141°10'E x 37°35'S)]) Curr, 1887(III):482, Sta. 207e. See **kapich, keler, konkro, maraija, and monagur.**

murido PARASTACIDAE, *Cherax murido*. [New Guinea, Paniai Lake area] Holthuis, 1958, illustration caption.

murragolong PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: New South Wales; Queanbeyan (probably = Ngunawal Aboriginal tribe of Tindale, 1974:198 (149°10'E x 34°55'S))] Police Magistrate at Queanbeyan, in Curr, 1887(III):424, Sta. 195. See **mangaba** and **mooroonong**.

murrami PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Engaeus* sp. [Australia: New South Wales; Yanko, Urana, Billebong, and Jerrilderie (probably = Jeithi Aboriginal tribe of Tindale, 1974:193 (145°55'E x 35°25'S))] McLean, in Curr, 1887(III):394, Sta. 190. See **mooragonong, moorogonong, and thugamong**.

Murrami Place name, = "Crayfish." [Australia: New South Wales] Reed, 1967:103.

Murray cray PARASTACIDAE, *Euastacus armatus*. [Australia] Hercus, 1969a:422.

Murray crayfish PARASTACIDAE, *Euastacus armatus*. [Australia] Anonymous, 1973.

Murray lobster PARASTACIDAE, *Euastacus armatus*. [Australia] Cited by Mosimann and Hofman, 1985:39, as = *Astacopsis gouldi*. Surely a *lapsus*, as *A. gouldi*, the tasmanischer Krebs, is unknown outside of Tasmania. See next citation.

Murray River cray PARASTACIDAE, *Euastacus armatus*. [Australia] Horwitz, 1990:74.

Murray River crayfish PARASTACIDAE, *Euastacus armatus*. [Australia] Mosimann and Hofman, 1985:39.

Murray River lobster ASTACIDAE *Euastacus arma-*

tus. [Australia] Holdich and Lowery, 1988:492.

murrin PARASTACIDAE, probably = *Cherax* sp. [Australia: Western Australia: South-West Division, Uduc, Harvey, Bunbury, and Lower Blackwood (probably = Kaneang Aboriginal tribe of Tindale, 1974:244 (116°40'E x 34°0'S))] Small, in Curr, 1886(I):358, Sta. 24. See **maren, marin, marine, marra, marran, marrida, marron, and murrin**. See also **gunnok, jilgy, koonak, and perran**.

murry PARASTACIDAE, "lobster," possibly = *Cherax neopunctatus* and/or *Euastacus* sp. [Australia: New South Wales; Ballina (possibly = Arakwal Aboriginal tribe of Tindale, 1974:191 (153°20'E x 28°-50'S))] Ross, in Curr, 1887(III):290, Sta. 178. See **burnicum**.

myngul PARASTACIDAE, "crayfish," probably = *Cherax davisi*. [Australia: Queensland; head of the Comet River, Kanoloo Aboriginal tribe (= Kanolu Aboriginal tribe of Tindale, 1974:174 (149°0'E x 23°40'S))] Josephson, in Curr, 1887(III):98, Sta. 157. See **yegari**.

nadan PARASTACIDAE, small crayfish, probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: New South Wales/Victoria; Wembawemba Aboriginal tribe (144°0'E x 35°20'S)] Hercus, 1969a:422. See **naingan**.

naingan PARASTACIDAE, probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: New South Wales; "New South Wales groups," upper Murray River, Woorajery Aboriginal tribe (probably = Wiradjuri Aboriginal tribe of Tindale, 1974:210 (147°30'E x 33°50'S)), Aboriginal dialect] Mathew, 1899:230-231. See **nadan**.

naloan PARASTACIDAE, "lobster," possibly = *Cherax rotundus*, *C. neopunctatus*, *C. cuspidatus*, and/or *Euastacus* sp. [Australia: New South Wales; New England, Glen Innes (possibly = Jukambal Aboriginal tribe of Tindale, 1974:194 (152°10'E x 29°15'S))] Lowe, in Curr, 1887(III):296. See **ganoon**.

naloro PARASTACIDAE, "crayfish," probably = yabbies and other smaller crayfish. [Australia: Queensland; Maryborough (probably = Kabikabi Aboriginal

tribe of Tindale, 1974:172 (152°25'E x 25°45'S)] Curr, 1887(III):134, Sta. 164.

nark PARASTACIDAE, probably = *Cherax destructor* and/or *Eustacus* sp. [Australia: New South Wales/Victoria; "Victorian Region groups," Gunbower dialect (probably = Baraparapa Aboriginal tribe of Tindale, 1974:191-192 (144°45'E x 35°20'S))] Mathew, 1899:230-231. Note that Mathew places a "?" by this word, indicating uncertainty. See **lip-lip-kill** and **yampitch**.

Narracan burrowing crayfish PARASTACIDAE, *Engaeus phyllocercus*. [Australia: Victoria, South Gippsland, Western Strzelecki Ranges] Horwitz, 1990:96.

narraminyeh PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: South Australia; Cooper's Creek, Coongy Lake Station (probably = Coongee, S of Lake Goyder, Innamincka Regional Reserve) (probably = Jauraworka Aboriginal tribe of Tindale, 1974:212 (140°25'E x 26°40'S))] Curr, 1886(II):26, Sta. 48. See **kidneykooderi**.

narrow-pincered crayfish ASTACIDAE *Astacus leptodactylus*. [English, common]

"nas CAMBARIDAE Kreger and de Stairs, 1981:407, say:

"nas *Cambarellus montezuma* [sic, ae?] langosta del río, chacal"

[México: Oaxaca, Istmo de Tehuantepec, San Mateo del Mar (Huave Indians)] Kreger and de Stairs, 1981:125, 407. See **chacal**.

Nashville crayfish CAMBARIDAE, *Orconectes (Crotterinus) shoupi*. [U.S.: Tennessee; Davidson County, vicinity of Nashville] Williams, et al., 1989:25; Hobbs, 1989:38.

ndaag PARASTACIDAE, "crayfish," probably = *Cherax quadricarinatus*. [Australia: Queensland; Mouth of the Norman River (Kareldi Aboriginal tribe of Tindale, 1974:174 (141°0'E x 17°25'S))] Armit, in Curr, 1886(II):308, Sta. 92. See **laamballay**.

nemes rák ASTACIDAE *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [Hungary] Gozmány, 1979:118.

nenewn PARASTACIDAE, "crayfish," probably = *Cherax gladstonensis*. [Australia: Queensland; "Dawson River," "Wokka, Wogga, or Woga dialects,"] O'Connor, in Curr, 1887(III):104, Sta. 159. The Dawson River locality and the "Wokka," etc. dialect designations are a puzzle when I attempt to reconcile them with Tindale's tribal boundaries. The Wokka dialect is likely associated with the Wakawaka Aboriginal tribe of Tindale, 1974:187 (151°45'E x 25°50'S) on the Burnet River, whereas the Dawson River is in the territory of the Kangulu Aboriginal tribe of Tindale:174 (150°15'E x 24°15'S). The problem is also associated with **ninyouen**, but the similarity of the words favors the Wakawaka. See also **newn-newn**.

Neuseelandkrebs PARASTACIDAE, *Paranephrops*. [Germany] Mosimann and Hofman, 1985:39.

nevskii rak See **невский рак**, next citation.

невский рак ASTACIDAE *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [Russia] Gozmány, 1979:118. See **nevskii rak**, above.

New River crayfish CAMBARIDAE, *Cambarus (Hiaticambarus) chasmodactylus*. [U.S.: North Carolina and Virginia; New River drainage system. West Virginia: Blue Stone and Greenbrier basins] Williams, et al., 1989:22; Hobbs, 1989:19.

newn-newn PARASTACIDAE, "crayfish," possibly = *Cherax gladstonensis*. [Australia: Queensland; Burnett River, Wokka, Wogga, or Woga dialects (= Wakawaka Aboriginal tribe of Tindale, 1974:187 (151°45'E x 25°50'S))] O'Connor, in Curr, 1887(III):108, Sta. 159. See **nenewn** and **ninyouen**.

ngaltaitye PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: South Australia; Adelaide and vicinity (probably = Kaurna Aboriginal tribe of Tindale, 1974:213 (138°30'E x 34°35'S))] Teichelmann et al., in Curr, 1886(II):150, Sta. 68. See **kung-gurla**.

ngobbera PARASTACIDAE, "crayfish," possibly = *Cherax destructor*, although somewhat out of present-day known distribution. [Australia: Queensland; Belyando River (possibly = Jagalingu Aboriginal tribe of Tindale, 1974:169 (146°40'E x 23°20'S))] Lowe,

in Curr, 1887(III):34, Sta. 143. See **ander**.

nguchul PARASTACIDAE, "crayfish." This locality does not appear to be within the known present-day distribution of fresh water crayfishes. [Australia: Queensland; Port Mackay and its neighbors (probably = Juipera Aboriginal tribe of Tindale, 1974:171 (149°5' E x 21°15'S))] Bridgeman, in Curr, 1887(III):50, Sta. 147.

ngumat PARASTACIDAE. [Australia: Tasmania] Ingamells, 1955:51.

ninge-ninge PARASTACIDAE, "crayfish," probably = *Euastacus* sp. [Australia: New South Wales; Tweed River and Point Dangar (probably = Minjungbal Aboriginal tribe of Tindale, 1974:196 (153°25'E x 28°-15'S))] Braye and Fowler, in Curr, 1887(III):246, Sta. 173.

ninyouen PARASTACIDAE, "crayfish," probably = *Cherax gladstonensis*. [Australia: Queensland; "Dawson River," "Wokka, Wogga, or Woga dialects,"] Cunningham, in Curr, 1887(III):106, Sta. 159. The Dawson River locality and the "Wokka," etc. dialect designations are a puzzle when I attempt to reconcile them with Tindale's tribal boundaries. The Wokka dialect is likely associated with the Wakawaka Aboriginal tribe of Tindale, 1974:187 (151°45'E x 25°50'S) on the Burnet River, whereas the Dawson River is in the territory of the Kangulu Aboriginal tribe of Tindale:174 (150°15'E x 24°15'S). The problem is also associated with **nenevn**, q.v., but the similarity of the words favors the Wakawaka tribe. See also **newn-newn**.

pungari PARASTACIDAE, "crayfish." There are no

known freshwater crayfishes in this area. [Australia: Western Australia; Pilbara Division, mouth of De Grey River to 20 miles inland, Ngurla Aboriginal tribe (probably = Ngarla Aboriginal tribe of Tindale, 1974:251-252 (119°30'Ex20°10'S))] Harper, in Curr, 1886(I): 292, Sta. 8.

qrebasse ASTACIDAE [France: Jura] André, 1960: 133.

quarra PARASTACIDAE, "lobster." This locality is not within the present-day known distribution of crayfishes. [Australia: Queensland; "Fort Cooper" (possibly = Barada Aboriginal tribe of Tindale, 1974:165 (149°0'E x 23°5'S))] Hodgkinson, in Curr, 1887(III):40, Sta. 145.

quarroo PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Ravensbourne Creek, Mokaburra Aboriginal tribe (= Wadjalang Aboriginal tribe of Tindale, 1974:186-187 (145°-20'E x 25°50'S)), Tarawalla dialect] Powell, in Curr, 1887(III):84, Sta. 155. See **acheroo**, **boogalli**, **boogarli**, **bookill**, **kandera**, **koarow**, and **oovarroo**.

quatorzième ecrevisse Argot, = female supernumerary. [France: 19th century French theatrical] Barrère, 1887:124. See also **armure à ecrevisse**, **avoir une ecrevisse dans la tourte**, **avoir une ecrevisse dans le vol-au-vent**, **ecrevise**, **ecrevisse de rempart**, and **écrevisse**.

Queensland marron PARASTACIDAE, *Cherax quadricarinatus*. [Australia: Australian English, probably in Queensland and Northern Territory] Anonymous, 1989:10.

rabouiller (Verb, t.) Balzac, in *La Rabouilleuse*, 1842 (1966):131, defines this word as pertaining to catching crayfish:

— "Je rabouille pour mon oncle Brazier que voilà.
Rabouiller est un mot berrichon qui peint admirablement ce qu'il veut exprimer: l'action de troubler l'eau grosse branche d'arbre dont les rameaux sont disposés en forme de raquette. Les écrevisses effrayées par cette opération, dont le sens leur échappe, remontent précipitamment le cours d'eau, et dans leur trouble se jettent au milieu des engins que le pêcheur a placés à la main son rabouilloir avec la grâce naturelle à l'innocence."

On the other hand, Girard et al., 1962:609, define it in a more general manner: "To stir up, to muddy (water before fishing)." [France].

See **crayfish** (Symbolism). See also **mudbugging**.

rac ASTACIDAE [Romania] Schoenkron, 1952:100. According to Cherry (1992:19) this is also specifically = *Austropotamobius pallipes*.

rac albastru ASTACIDAE, *Astacus leptodactylus* (blue colored variety). [Romania] Cherry, 1992:20.

rac de apă dulce ASTACIDAE [Romania] Papadopol et al., 1987:5.

rac-de-ponoare ASTACIDAE, *Austropotamobius torrentium*. [Romania] Cherry, 1992:19.

rac-de-riu ASTACIDAE, *Astacus astacus*. [Romania] Cherry, 1992:20.

rak ASTACIDAE, "crayfish." [Poland] Stanislawski, 1968:177. Widely used in Slavic languages.

רַקְ ASTACIDAE [Yiddish] Weinreich, 1968:71.

rak amerykanski = "American crayfish." CAMBARIDAE, *Orconectes limosus*. [Poland] Kossakowski, in Westman et al., 1990:147.

rak barski ASTACIDAE *Astacus leptodactylus*. [Yugoslavia] Obradovic, in Westman et al., 1990:196.

rak bjelonogi ASTACIDAE *Austropotamobius palipes*. [Yugoslavia] Obradovic, in Westman et al., 1990:196.

rak błotny = "swamp crayfish." ASTACIDAE *Astacus leptodactylus*. [Poland] Kossakowski, in Westman et al., 1990:147.

rak długoszczypcy = "long-pincered crayfish." ASTACIDAE *Astacus leptodactylus*. [Poland] Kossakowski, in Westman et al., 1990:147.

rak kamenák = "rock crayfish." ASTACIDAE *Austropotamobius torrentium*. [Czechoslovakia] Lohníský, 1984:198.

rak kamenjak ASTACIDAE *Austropotamobius torrentium*. [Yugoslavia] Obradovic, in Westman et al., 1990:196.

rak kamenjar ASTACIDAE *Austropotamobius torrentium*. [Yugoslavia: Slovak] Obradovic, in Westman et al., 1990:196.

rak kesslera See **рак кесслера**, next citation.

рак кесслера ASTACIDAE, *Pontastacus kessleri* [Ukraine] Brodsky, 1981:171. See **rak kesslera**, above. See also *turkestans'kyi rak*.

rak pil'tsova See next two citations: **рак пильцова** and **рак пыльцова**.

рак пильцова ASTACIDAE, *Pontastacus pylzowi*. [Ukraine] Brodsky, 1981. p. 173. See **rak pil'tsova**, above. See also *kavkaz'kyi rak*.

рак пыльцова ASTACIDAE, *Pontastacus pylzowi*. [Russia] Brodsky, 1981. p. 173. See **rak pil'tsova**, above. See also *kavkaz'kyi rak*.

rak plavu ASTACIDAE *Astacus* sp. [Yugoslavia] Obradovic, in Westman et al., 1990:196.

rak pregowaty = "striped crayfish." CAMBARIDAE, *Orconectes limosus*. [Poland] Kossakowski, in Westman et al., 1990:147.

rak ríčního ASTACIDAE *Astacus astacus*. [Czechoslovakia] Lohníský, 1984:195.

rak ríčný = "river crayfish." ASTACIDAE *Astacus astacus*. [Czechoslovakia] Fitzpatrick, J.F., personal communication.

rak riecný = "river crayfish." ASTACIDAE *Astacus astacus*. [Czechoslovakia] Fitzpatrick, J.F., personal communication.

rak rzeczny ASTACIDAE [Poland] Chodzko, 1874:71.

rak skalný = "rock crayfish." ASTACIDAE *Astro-*

potamobius torrentium. [Czechoslovakia] Fitzpatrick, J.F., personal communication.

rak stawowy = "pond crayfish." ASTACIDAE *Astacus leptodactylus*. [Poland] Kossakowski, in Westman et al., 1990:147.

rak szerokoszczypcy = "broad-pincered crayfish." ASTACIDAE *Astacus astacus*. [Poland] Kossakowski, in Westman et al., 1990:147.

rak szlachetny = "noble crayfish." ASTACIDAE *Astacus astacus*. [Poland] Kossakowski, in Westman et al., 1990:147.

rak uskoskari ASTACIDAE *Astacus leptodactylus*. [Yugoslavia] Obradovic, in Westman et al., 1990:196.

rak waskoszczypcy = "narrow-pincered crayfish." ASTACIDAE *Astacus leptodactylus*. [Poland] Kossakowski, in Westman et al., 1990:147.

rapu ASTACIDAE *Astacus astacus*. [Finland] Wuolle, 1947:103; Westman, et al, 1990:58.

rascó ASTACIDAE [Spain: Gypsy dialect in Basque region] Pardo, 1940:29.

rechen rak See **речен рак**, next citation.

речен рак ASTACIDAE, *Astacus astacus*. [Bulgaria] Cherry, 1992:20. See **rechen rak**, above. See also *golyam rechen rak*.

rechnoi crab See **речной краб**, next citation.

речной краб ASTACIDAE [Russia] Ricker, 1973: 113. See **rechnoi crab**, above.

rechnoi rak See **речной рак**, next citation.

речной рак ASTACIDAE *Astacus astacus*. [Russia] Ivanov et al., 1946:267. See **rechnoi rak**, above.

recni rak ASTACIDAE [Yugoslavia: Serbocroatia] Grujic, 1969:68.

red claw PARASTACIDAE, *Cherax quadricarinatus*. [Australia] Anonymous, 1989:10.

red-clawed crayfish ASTACIDAE *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [English] Gozmány, 1979:118.

red claw marron PARASTACIDAE, *Cherax quadricarinatus*. [Australia] Anonymous, 1989:10.

Red Crayfish Rough translation of "Red Crawfish [People]." See *Shákctei homma*. Hodge, 1907, vol. 1:232, citing Boudinot, 1816:126.

red swamp crawfish CAMBARIDAE, *Procambarus (Scapulicambarus) clarkii*. [U.S. and México: northern México to Florida and north to Illinois and Ohio; widespread throughout the world because of introductions] Williams, et al., 1989:25; Hobbs, 1989:76.

red swamp crayfish See **red swamp crawfish**, above.

peri-peri PARASTACIDAE, "lobster," probably = *Cherax destructor*. Mount Black, Oriba-Kulba Aboriginal tribe (probably = Jirandali Aboriginal tribe (144°-20'E x 21°15'S)), see Tindale, 1974:188] Curr, 1886(II):486, Sta. 133. See *mokin* and *tararukau*.

ribbon crayfish CAMBARIDAE, *Procambarus (Ortmannicus) bivittatus*. [U.S.: Florida, Mississippi, Louisiana] Williams, et al., 1989:25; Hobbs, 1989:64.

rijecni rak ASTACIDAE *Astacus astacus*. [Yugoslavia] Obradovic, in Westman et al., 1990:196.

ringwong PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Eustacus* sp. [Australia: Victoria; Murray River, Bumbang, probably Jarijari Aboriginal tribe of Tindale, 1974:205 (142°20'E x 35°10'S)] Corney, in Curr, 1887(III):452, Sta. 202. See *wolona*.

river crab See *Flusskrebse*.

river crayfish ASTACIDAE *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [English] Gozmány, 1979:118. See ὁ ἐν τοῖς ποταμοῖς ἀστακός.

river crevis ASTACIDAE [U.K.: English] Democritus, quoted by Thomas Hill (1593), quoted by Phipson, 1883:435, speaking of animal lore in Shakespeare's time 1564-1616. See also *crevis*.

river garbo PARASTACIDAE. [Australia: Victoria; New South Wales] Olszewski, 1980:16.

rivierkreef CAMBARIDAE and freshwater shrimps. Word ordinarily used for freshwater shrimps, but now applied to introduced *Procambarus clarkii*. [South Africa] Kritzinger et al., 1981:938.

rivierkreeft ASTACIDAE *Astacus astacus*. [Netherlands] Mosimann and Hofman, 1985:36. ASTACOIDEA and PARASTACOIDEA [Belgium: Flanders] Cherry, 1992:19.

rode rivierkreeft CAMBARIDAE, *Procambarus clarkii*. [Netherlands] Holthuis, in Westman et al., 1990:132.

Rotscherling = "red claw." ASTACIDAE *Astacus astacus*. [Austria] Wintersteiger, in Westman et al., 1990:38.

rouge comme un écrevisse Slang, = "red as a boiled lobster (or crayfish)." [France] Mansion, 1972:E:10.

Ruisseau des Écrevisses Place name, stream. [France: 43°33'N x 6°1'E] France: Official Standard Names Gazetteer, Washington, D.C.

ruja PARASTACIDAE, "lobster," probably = *Cherax quadricarinatus*. [Australia: Queensland; Mouth of the Leichardt River, Ngarra Aboriginal tribe (= Marrago Aboriginal tribe of Tindale, 1974:181 (140°10'E x 18°20'S))] Armit, in Curr, 1886(II):304, Sta. 91.

russischer Krebs ASTACIDAE *Astacus leptodactylus* (*Potamobius leptodactylus*). [Germany] Gozmány, 1979, p.119.

russischer Sumpfkrebs ASTACIDAE *Astacus leptodactylus* (*Potamobius leptodactylus*). [Germany] Gozmány, 1979:119.

russkii rak See **русский рак**, next citation.

русский рак = Russian crayfish. ASTACIDAE *Astacus leptodactylus* (*Potamobius leptodactylus*). [Russia] Gozmány, 1979:119. See **russkii rak**, above.

russu comu un gammaru Slang, term of comparison,

"red as a crayfish." [Sicily] Mortillaro, 1862:539.

rusty crayfish CAMBARIDAE, *Orconectes (Proceri-cambarus) rusticus*. [U.S. and Canada: Southern Ontario and Michigan to Kentucky and Tennessee; presumably introduced into other states] Williams, et al., 1988:24; Hobbs, 1989:49.

rusty grave digger CAMBARIDAE, *Cambarus (Lacunicambarus) miltus*. [U.S.: Alabama; Baldwin Co., burrower] Williams, et al., 1989:22; Hobbs, 1989:25.

sagllu See **dagllu**.

sa'kew CAMBARIDAE? [Canada: Quebec, Ontario, Manitoba, Saskatchewan, and Alberta (Cree Indians)] Watkins, 1938:49 and 444. Note that *usa'kāo* and *sa'kew* are identified with "crawfish" on p. 49, but on p. 444 those two words are defined as "A crab the crustaceous animal, a lobster." See *Usa'kāo*.

sam khorokhai Possibly (but not probably) CAMBARIDAE = "A kind of small crayfish. A shrimp or crab." Note that Mongolia borders on Siberia near where *Cambaroides dauricus* has been reported. [Mongolia] Boberg, 1955, vol. II:1379. See next citation.

ሸፋ ብኩስኩ = **sam khorokhai**, see above. See also **dalai** in **naimalchin**. Note that the Mongolian language is written and read perpendicularly from the left to the right; thus these words would normally be rotated 90° to the right.

sa³ng¹ o¹ ya³y²cu²⁴ (Orthography employed by Anderson and Roque) CAMBARIDAE [México: Distrito de Cuicatlán, Edo. de Oaxaca; Cuiteco Indians] Anderson & Roque, 1983:82.

Santa Fe cave crayfish CAMBARIDAE, *Procambarus (Ortmannicus) erythrops*. [U.S.: Florida; subterranean waters] Williams, et al., 1989:25.

Saquechuma Literally, "Red Crawfish [People]." Spelling variation of **Shákci Homma**, q.v. Hodge, 1907, vol. 1:232, citing Gentleman of Elvas, 1557, in French, 1850, vol. 2:162. See **Shákci Homma**.

sahrtah'n mah'yim ahroa'ch-zahnah'v See next entry.

שַׁרְטֹן מִים אֶרְזָךְ-נָגֵב ASTACOIDEA and PARASTACOIDEA, literally, = "long-tailed water scorpion." It seems possible that this is simply a figurative translation of the English "crayfish," the noun and the verbal usages. [Hebrew] Alcalay, 1962 (1965):853. Note that these words are read from right to left. See **sahrtah'n mah'yim ahroa'ch-zahnah'v**, above.

sas CAMBARIDAE [México: Chiapas; Ciudad de Copainalá, Zoque Indians] Harrison et al., 1981:147, 285. See **crayfish**, (symbolism) and **chacalín**.

scháhamuīs CAMBARIDAE [U.S.: Delaware Indians] Zeisberger, 1887:48. Also, **schahamuis** CAMBARIDAE [U.S., northeast: Lenápé Indians] Brinton & Anthony, 1888:126.

Schmalscherenkrebs ASTACIDAE *Astacus leptodactylus* (*Potamobius leptodactylus*). [Germany] Gozmány, 1979:119.

schmalscheriger Krebs ASTACIDAE *Astacus leptodactylus* (*Potamobius leptodactylus*). [Germany] Gozmány, 1979:119.

Schnerenkrebse ASTACIDAE [Germany] Gozmány, 1979:118.

Scottsdale burrowing caryfish PARASTACIDAE, *Engaeus* "sp. TF." [Australia: Tasmania, Surveyors Creek] Horwitz, 1990:92.

secar goch ASTACIDAE *Austropotamobius pallipes*. [N.W. Europe, Celts, *passim*: Gaelic] Cherry, 1992:19. See **siacar goch**.

se-duk ASTACIDAE, probably *Pacifastacus* sp. [U.S., western: California, Shasta Indians (Hokan)] Merriam, 1979:224.

seiþ-m ɔ n-tei (Orthography used by Harrington) CAMBARIDAE [U.S., midwestern: Kiowa Indians] Harrington, 1928:212.

shakchi CAMBARIDAE, probably *Procambarus (Scapulicambarus) clarkii*. [U.S., southeast: Louisiana; Choctaw Indians] Byington, 1915:325, 421.

shakchi inchuka The hole or house of a crayfish. CAMBARIDAE [U.S., southeast: Louisiana; Choctaw

Indians] Byington, 1915:325, 421.

Sháktci Homma Literally, “Red Crawfish [People].” [According to Swanton, 1953:176, this is the proper spelling for the North American Indian tribe that, in the 18th century, lived in Mississippi on the “Yalobusha River where it empties into the Yazoo but at an earlier period extending to the head of the Yalobusha and eastward between the territories of the Choctaw and Chickasaw tribes as far as West Point.”] See Ecrevisse Rouge, Houma, Incaktcakáfa, Saquechua, shatchi, shatje, Shatje-Ogla, and words beginning with Chac, Chiach, Choc, and Tch.

Shasta crayfish ASTACIDAE *Pacifastacus (Hobbs-astacus) fortis*. [U.S., western: California; Shasta County] Williams, et al., 1989:21; Hobbs, 1989:6.

shatje CAMBARIDAE [U.S., southeast: Louisiana; Choctaw Indians] Bushnell, 1909:16. See also Byington, 1915:325, 421. See **Sháktci Homma**.

Shatje-Ogla Crayfish People, part of a tribe, who lived near Chinchuba, 12 miles W of Bayou Lacombe. [U.S., southeast: Louisiana; Choctaw Indians] Bushnell, 1909:16. See also **Sháktci Homma**.

shawgashee “See the Shawgashee, the craw-fish,/ Like a spider on the bottom....” CAMBARIDAE [U.S., north-central: Ojibway Indians] Longfellow, 1898:170 [Part viii, *Hiawatha's Fishing*]. See ácagáci, acâge, ajageshi, asho'ni ócagáci, ahzhahgashe, ashaahkiiwa, and as-shog-aish-i. See also kefnid, kefniden-zour, kinid, and kinid-dour.

shipovaty rak See **Шиповатый рак**, next entry.

широкопалый рак *rechnoi rak* See **широкопалый речной рак**, next citation.

широкопалый речной рак ASTACIDAE *Astacus astacus (Astacus nobilis, A. fluviatilis, and Potamobius fluviatilis)*. [Russia] Gozmány, 1979:118. See **широкопалый rechnoi rak**, above.

short lobster ASTACIDAE [U.S.: Oregon] Olszewski, 1980:20.

shrimp “(A) crevice, first a spron frey, then a shrimp, then a sprawn, and when it is large then called a crevice.” ASTACIDAE [U.K.] Randle Holme (ca. 1688), quoted by Phipson, 1883:435. [I was unable to find this quotation in Holme.]

“One of the courses was whole écrevisses in a rich sauce.... The guest of honor...muttered...‘What do I do now?’ ...[B]ecause I had struggled before with the same somewhat overrated delicacy...I winked at him and said, ‘Watch me.’ I picked up a shrimp between my left thumb and forefinger....” [France: Dijon] Fisher, 1943 (1954):430 (*Noble and Enough*); and:

“The season for shrimps is short, and Madame Mossu paid well for all the boys and old men could find in their hundred icy streams.” [Switzerland: Châtel St. Denis] Fisher, 1943 (1954):506 (*I Remember Three Restaurants*); and

“A light curry of shrimps or crayfish tails.” [Unspecified locality] Fisher, 1943 (1954):708 (*W is for Wanton*).

Fisher’s apparent lack of attention to her crayfish/shrimp food-stuffs is puzzling, considering she is

(was) an important figure in gastronomy. In the first reference she speaks of écrevisses and shrimps as if they are the same animal; in the second she is undoubtedly speaking of crayfishes that live in the streams of Switzerland; in the third she paradoxically distinguishes between shrimps and crayfishes. I suppose, like so many people, she just didn't care. See also **crawfish**, **crayfish** and **écrevisse**.

Shutispear crayfish CAMBARIDAE, *Procambarus (Pennides) lylei*. [U.S.: Mississippi; Calhoun County] Williams, et al., 1989:26; Hobbs, 1989:74.

sicar goch ASTACIDAE *Austropotamobius pallipes*. [Celts, N.W. Europe, *passim*: Gaelic] Cherry, 1992:19. See **secar goch**.

siauraznyplis vėzys = longfingered crayfish. ASTACIDAE *Austropotamobius leptodactylus*. [Lithuania] Fitzpatrick, J.F., personal communication.

signal ASTACIDAE *Pacifastacus (Pacifastacus) leniusculus*. [English] Thompson, 1989:52. See also **signal crayfish**, **Signalkrebs**, and **tankaizarigani**.

signal crayfish ASTACIDAE *Pacifastacus (Pacifastacus) leniusculus*. [U.S., California, Idaho, Nevada, Oregon, Utah, and Washington; Canada: British Columbia; introduced into Sweden] Williams, et al., 1989:21; Hobbs, 1989:8. See also **signal**, **Signalkrebs**, and **tankaizarigani**.

Signalkrebs ASTACIDAE *Pacifastacus (Pacifastacus) leniusculus*. [Germany] Mosimann and Hofman, 1985:37; [Austria] Wintersteiger, in Westman et al., 1990:38; [Switzerland] Büttiker et al., in Westman et al., 1990:180; [Denmark] Hørlyck and Rasmussen, in Westman et al., 1990:53. See also **signal**, **signal crayfish**, and **tankaizarigani**.

sumpfkrebs Galizier ASTACIDAE *Astacus leptodactylus*. [Germany] Kuhlmann, in Westman et al., 1990:94.

svábrák ASTACIDAE *Astacus leptodactylus* (*Potamobius leptodactylus*). [Hungary] Gozmány, 1979:119.

tak potocni ASTACIDAE *Austropotamobius pallipes*. [Yugoslavia] Obradovic, in Westman et al., 1990:196.

tako PARASTACIDAE, *Cherax communis*. [New Guinea: Tigi Lake area] Holthuis, 1949:295, 322.

talakborong PARASTACIDAE, probably *Cherax*, *Eustacus*, and/or *Euastacus* spp. [Australia: Victorian Region groups, Yarra River dialect (probably = Wurundjeri Aboriginal tribe of Tindale, 1974:208 (145°25'E x 37°40'S))] Mathew, 1899:230-231. See **boongangooloom**, **talakborong**, and **tooiyung**.

taliá PARASTACIDAE, *Cherax communis*. [New Guinea: Enarotali word] Holthuis, 1949:295, 322.

talò PARASTACIDAE. [New Guinea: Holthuis quotes La Roux, 1948:317: “According to information which I obtained from the inhabitants of the Doraboe Valley, a large species of crayfish, named talò, is much fished for in the country of the Ndani by the Mbagimèloma and the Zoegimè-koma [Prau-people] of the Great Balim Valley.”] Holthuis, 1950:15.

tankaizarigani “signal crayfish.” ASTACIDAE, *Pacifastacus leniusculus*. [Japan] Kishida, 1961:66.

See next two entries. See also **signal**, **signal crayfish**, and **Signalkrebs**.

タノカイザリガニ See **tankaizarigani**, above.

たんかいざりがに See **tankaizarigani**, above.

täpläräpu = signal crayfish. CAMBARIDAE, *Pacifastacus leniusculus*. [Finland: Finnish] Westman et al., 1990:58.

tararukau PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Mount Black, Oribe-Kulba Aboriginal tribe (probably = Jirandali Aboriginal tribe (144°20'E x 21°15'S)), see Tindale, 1974:188)] Curr, vol. II:486, Sta. 133. See **reri-reri** and **mokin**.

tarnarerer PARASTACIDAE, "like the claw of a crawfish." [Australia: Tasmania; eastern Aboriginal tribes (possibly = Oyster Bay Aboriginal tribes of Jones, in Tindale, 1974, pp.338-341 (147°40'E x 42°30'S))] Plomley, 1976:262.

tasmanische Krebs PARASTACIDAE, *Astacopsis gouldi*. [Germany] Schlüter, 1989:526.

tasmanische Riesenkrebs = Tasmanian giant crab. PARASTACIDAE, *Astacopsis gouldi*. [Germany] Schlüter, 1989:528.

tatete PARASTACIDAE, ("freshwater lobster"), possibly *Astacopsis* sp. [Australia: Tasmania; Brune Island (probably = South East Aboriginal tribe of Jones, in Tindale, 1974:336-338 (147°10'E x 43°-10'S))] Plomley, 1976:262.

tateyer PARASTACIDAE, ("freshwater lobster"), possibly *Astacopsis* sp. [Australia: east coast of Tasmania; Oyster Bay (probably = Oyster Bay Aboriginal tribes of Jones, in Tindale, 1974, pp.338-341 (147°40'E x 42°30'S))] Plomley, 1976:262.

tatli su istakozu ASTACIDAE [Turkey] Hony and Iz, 1984:455.

tatlisu istakozu ASTACIDAE [Turkey] Iz and Hony, 1978:119.

tavi rák ASTACIDAE *Astacus leptodactylus* (*Potamo-*

bius leptodactylus). [Hungary] Gozmány, 1979:119.

tayatea PARASTACIDAE, = "lobster freshwater," probably = *Astacopsis* sp. and/or *Engaeus* sp. [Australia: Tasmania; Oyster Bay to Pittwater (probably = Oyster Bay Aboriginal tribe of Jones, in Tindale, 1974, pp.338-343 (147°40'E x 42°30'S))] Milligan, in Curr, 1887(III):654. Note that the specific epithet of *Engaeus tayatea*, found in northeastern Tasmania, is taken from this aboriginal word. See **tay-a-teh**.

tay-a-teh PARASTACIDAE, ("lobster freshwater"), probably = *Astacopsis* sp. and/or *Engaeus* sp. [Australia: Tasmania; Aboriginal tribes about Mt. Royal, Brune Island, Recherche Bay, and the south of Tasmania; (probably = South East Aboriginal tribe of Jones, in Tindale, 1974:336-338 (147°10'E x 43°10'S))] Milligan, in Curr, 1887(III):654. See **tayatea**.

Tchaouma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S., southeast: Mississippi, Sháktci Homma Indian tribe] Hodge, 1907, vol. 1:232, citing Martin, 1827, vol. 1:280.

tchoriong PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Engaeus* sp. [Australia: Victoria; Moorabool, Jibberin language, (= Kurung Aboriginal tribe of Tindale, 1974:206 (144°25'E x 37°45'S))] Curr, 1887(III):518, Sta. 208j.

Tchouchouma Literally, "Red Crawfish [People]." Spelling variation of **Sháktci Homma**, q.v. [U.S., southeast: Mississippi, Sháktci Homma Indian tribe] Hodge, 1907, vol. 1:232, citing LaSalle (ca. 1680) in Margry, 1877, part 2:198.

te-hah-cha-o ASTACIDAE, probably *Pacifastacus* sp. [U.S., western: California, Hupa (or Hoopah) Indians (Athabascan)] Merriam, 1979:214.

te-kah-che ASTACIDAE, probably *Pacifastacus* sp. [U.S., western: California, Lolangkok, Eel River Wailaki, and Kato Indians (Athabascan)] Merriam, 1979:216.

Teichkrebs ASTACIDAE *Astacus leptodactylus*. [Germany] Mosimann and Hofman, 1985:37.

Tennessee cave crayfish CAMBARIDAE, *Orconectes*

(Orconectes) incomptus. [U.S.: Tennessee; Jackson Co.] Williams, et al., 1989:24; Hobbs, 1989:44.

terndang PARASTACIDAE. [Australia] Endacott, 1924 (1973):50.

teusenzarigani probably = "Korean crayfish." CAMBARIDAE, *Cambaroides similis*. [Japan] Uchida, 1953:757. See next citation.

テウセンザリガニ See **teusenzarigani**, above.

てうせんざりがに See **teusenzarigani**, above.

Texas prairie crayfish CAMBARIDAE, *Fallicambarus (Fallicambarus) devastator*. [U.S.: Texas, Neches River basin] Williams et al., 1989:23; Hobbs, 1989:91.

thamoga PARASTACIDAE, "lobster," possibly = *Cherax* sp., *Euastacus* sp., and/or *Engaeus* sp. [Australia: Victoria; Albury (possibly = Duduroa Aboriginal tribe of Tindale, 1974:204 (147°20'E x 36°15'S))] Stuckey, in Curr, 1887(III):400, Sta. 190. See **tongambalanga**.

thandoola PARASTACIDAE, "lobster," probably = *Cherax destructor*. [Australia: Queensland?, "Cooper's Creek, near the Booloo River," (probably Wongkumara Aboriginal tribe of Tindale, 1974:190 (141°50'E x 27°-35'S))] Sullivan and Eglinton, in Curr, 1886(II):32, Sta. 50.

thandulya PARASTACIDAE, probably = *Cherax destructor*. [Australia: Queens- land; Wangkumara Aboriginal tribe (probably = Wongkumara Aboriginal tribe of Tindale, 1974:190 (141°50'E x 27°35'S))] Robertson, 1985:280. See **boogali** and **buggilla**.

thangambooloa PARASTACIDAE, "lobster," probably = *Cherax destructor*, *Engaeus* sp., and/or *Euastacus* sp. [Australia: Victoria; Omeo (Jaitmathang Aboriginal tribe of Tindale, 1974:205 (147°35'E x 36°50'S))] Bulmer, in Curr, 1887(III):558, Sta. 211. See **baranjak**.

thappooll PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: Queensland; between the Lachlan, Murray, and Darling rivers, Yit-tha Aboriginal tribe (= Jitajita Aboriginal

tribe of Tindale, 1974:194 (144°0'E x 33°25'S))] Mcdonald, in Curr, vol. II:288, Sta. 88. See **thumal** and **thupul**.

thinta PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Nockatoonga (= Nockatunga), Wilson River (probably = Ngandangara Aboriginal tribe of Tindale, 1974:182 (143°10'E x 26°50'S))] Foott, in Curr, vol. II:34, Sta. 54.

thoombur PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Thomson and Barcoo (Cooper) rivers, Koongerri Aboriginal tribe (= Kulumali Aboriginal tribe of Tindale, 1974:178 (144°20'E x 24°35'S))] Heagney, in Curr, vol. II:382, Sta. 107.

thornabun PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; near Lake Yamma Yamma, Kungarditchi Aboriginal tribe (= Kungadutji Aboriginal tribe of Tindale, 1974:178 (142°5'E x 26°25'S))] Heagney, in Curr, vol. II:380, Sta. 107. See **boagalli**.

thugamong PARASTACIDAE, "lobster," probably = *Euastacus* sp. [Australia: New South Wales; Deniliquin (probably = Jeithi Aboriginal tribe of Tindale, 1974:193 (145°55'E x 35°25'S))] Gordon, in Curr, 1887(III):396, Sta. 190. See **morragonong**, **moorogonong**, and **murrami**.

thumal PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: New South Wales; Brewarrina and Barwan rivers, Wailwun Aboriginal tribe (= Weilwan Aboriginal tribe of Tindale, 1974:200 (147°40'E x 30°30'S))] Bench of Magistrates at Brewarrina, in Curr, 1887(III):330, Sta. 183. See **thappooll**, **thupul**, and **winga**.

thupul PARASTACIDAE, "lobster," possibly = *Cherax destructor* and/or *Euastacus* sp. [Australia: New South Wales; Ned's Corner Station on Murray River, probably Maraura Aboriginal tribe of Tindale, 1974:196, (141°30'E x 33°45'S))] Pegler, in Curr, 1886(II):280, Sta. 86. See also **thappool** and **thumal**.

ticandutya yutya CAMBARIDAE?, = camarón del río. [México: Oaxaca; Jamiltepec, Mixteco] Campbell et al., 1986:107. See **ticandutya yútya**.

ticandutya yútya See **ticandutya yutya**, above.

tinungi PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; Hamilton River, Roxburgh Downs Station, Runga-Rungawah Aboriginal tribe (= Wongkadjera Aboriginal tribe of Tindale, 1974:190 (138°50'E x 22°55'S))] Craigie, in Curr, vol. II:356, Sta. 102.

тovстопалий рак ASTACIDAE, *Pontastacus pachypus pachypus*. [Ukraine] Brodsky, 1981. p. 177. See **товстопалий рак**, below.

to do a gilgie Slang, = "to withdraw or back out." [Australia: Western Australia] Olszewski, 1980:22.

toing PARASTACIDAE, "lobster," probably = *Euastacus* sp. [Australia: Victoria; Mordiyalook (probably = Bunurong Aboriginal tribe of Tindale, 1974:203 (145°30'E x 38°20'S))] Curr, 1887(III):534, Sta. 209d. See **boongangooloom, talakborong**, and **tooiyung**.

tolstopalyí rak See **толстопалый рак**, next entry.

толстопалый рак ASTACIDAE, *Pontastacus pachypus pachypus*. [Russia] Brodsky, 1981. p. 177. See **толstopalyí rak**, above

Tombigbee riverlet crayfish CAMBARIDAE, *Hobbs-eus petilus*. [U.S.: Mississippi, Itawamba, Lee, and Monroe counties] Williams, et al., 1989:23; Hobbs, 1989:33.

tongambalanga PARASTACIDAE, possibly = *Cherax* sp., *Engaeus* sp., and/or *Euastacus* sp. [Australia: New South Wales; Barwidgee, upper Murray River dialect (possibly = Duduroa Aboriginal tribe of Tindale, 1974:204 (147°20'E x 36°15'S))] Mathew, 1899:230-231. See **thamoga**.

tooiyung PARASTACIDAE, "crayfish," probably = *Cherax* and/or *Engaeus* spp. [Australia: Victoria; Lower Yarra (probably = Wurundjeri Aboriginal tribe of Tindale, 1974:208-9 (145°25'E x 37°40'S))] Daniel Bunce, in Curr, 1887(III):532, Sta. 209c. See **boongangooloom, talakborong**, and **toing**.

toomban PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; head of

Hamilton River, Yanda Aboriginal tribe (= Janda Aboriginal tribe of Tindale, 1974:170 (140°50'E x 22°10'S))] Eglinton, in Curr, vol. II:362, Sta. 103.

toró PARASTACIDAE, *Cherax communis*. [New Guinea: Enarotali word] Holthuis, 1949:295, 322.

touretshi PARASTACIDAE? This "New Hebrides" record indicates the "crayfish" may be a marine crustacean, and not of the PARASTACIDAE. [New Hebrides, Aniwa dialect] Mathew, 1899:230-231.

товстопалий рак See **толстопалый рак**.

trahl' ASTACIDAE, probably *Pacifastacus* sp. [U.S., western: California, Chimariko Indians (Hokan)] Merriam, 1979:321.

tropical blue crayfish PARASTACIDAE, *Cherax quadricarinatus*. [Australia: English] Anonymous, 1989:10.

trunagi PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: Queensland; junction of Kings Creek and Georgina River, Moorloobullo Aboriginal tribe (= Karanja Aboriginal tribe of Tindale, 1974:174 (139°50'E x 23°50'S))] Machattie and Little, in Curr, vol. II:368, Sta. 105. See also **koon-da-chi, koondagi, kuntatyi, and tunanyty**.

ts'sáýxa (Orthography as used by Somday) ASTACIDAE, probably *Pacifastacus* sp. [U.S.: Washington State; Colville Indians (Interior Salishan languages)] Somday, 1980:199.

tsah-mah-tah ASTACIDAE, probably *Pacifastacus* sp. [U.S., western: California, St. Helena Creek, Lake Miwok Indians (Penutian)] Merriam, 1979:253.

tsamberrot ASTACIDAE *Astacus astacus* (*Astacus nobilis*, *A. fluviatilis*, and *Potamobius fluviatilis*). [France and Switzerland: Suisse Romande] Gozmány, 1979:118; André, 1960:133, specifies Pays Romand; Rolland, 1881:231, specifies "Suisse romande," citing Bridel, 1866; Belloc, 1899:142 specifies "Suisse française." See **chamberrot**.

tsia'xtsaonq' (Orthography employed by Wagner) CAMBARIDAE, = "the crayfish." [U.S.: southeast; from folk mythology of Yuchi Indians describing the

creation of the world] Wagner, 1931:4.

tsi s dv na (Orthography employed by Alexander CAMBARIDAE [U.S., southeast: Cherokee Indians] Alexander, J.T., 1971:37. Reference also gives Cherokee orthography (*tsi s dv na*) as invented by Sequoyah, see next entry.

tsi s dv na CAMBARIDAE = **tsi s dv na**, see above.

tsiskagili CAMBARIDAE; “the Red Crayfish,” probably *Procambarus clarkii*. [U.S., southeast: Cherokee Indians] Alexander, H.B., 1916:60.

tumpan PARASTACIDAE, probably = *Cherax destructor*. [Australia: Queensland; vicinity of Mt. Isa, Kalkatunga Aboriginal tribe (= Kalkadunga Aboriginal tribe of Tindale, 1974:173 (140°0'E x 20°55'S))] Blake, 1969:121. See also *cuiinci* and *jakalaan*.

tunanyty PARASTACIDAE, probably *Cherax destructor*. [Australia: Queensland; Pitta-Pitta Aboriginal tribe (= Pitapita Aboriginal tribe of Tindale, 1974:184 (139°45'E x 22°45'S))] Dixon and Blake, 1979, vol. 1:236. See *koon-da-chi*, *koondage*, *kuntatyi*, and *tunanyty*. See also Sign Language.

turkestans'kyi rak See туркестанський рак, next citation.

white footed crayfish ASTACIDAE *Austropotamobius pallipes*. [English] Cherry, 1992:19.

white river crawfish CAMBARIDAE, *Procambarus*

(*Ortmannicus*) *zonangulus*. [U.S., along the lower Gulf of Mexico slope from Texas to Alabama] Hobbs, H.H., Jr., and Fitzpatrick, J.F., Jr., personal communications, inform me that this name has been wrongly applied to *Procambarus* (*Ortmannicus*) *acutus*, and should refer only to *Procambarus* (*Ortmannicus*) *zonangulus*.

white yabby PARASTACIDAE, refers to a local Victorian grey-white colored variant of the *yabby*, q.v. [Australia: Victoria; English and derivative] Olszewski, 1980:16.

wijja PARASTACIDAE, "crayfish," probably = *Cherax destructor*, *Engaeus* sp., *Euastacus* sp., and/or *Geocharax* sp. [Australia: Victoria; Hopkins River (possibly = Tjapwurong Aboriginal tribe of Tindale, 1974:707-9 (142°40'E x 37°30'S))] Curr, 1887(III): 429, Sta. 197. Curr, 1887(III):492, Sta. 207j. See *yaram*.

winka PARASTACIDAE, "lobster," possibly = *Cherax destructor*. [Australia: New South Wales; Brewarrina and Barwan rivers, Wailwun Aboriginal tribe (= Weilwan Aboriginal tribe of Tindale, 1974:200 (147°40'E x 30°30'S))] Bench of Magistrates at Brewarrina, in Curr, 1887(III):330, Sta. 183. See *thumal*.

wirra PARASTACIDAE, "lobster," probably = *Euastacus* sp. [Australia: New South Wales; Hawkesbury River and Broken Bay (probably = Daruk Aboriginal tribe of Tindale, 1974:193 (150°35'E x 33°35'S))] Tuckerman, in Curr, 1887(III):358, Sta. 189. See *morramma*.

wolkoo PARASTACIDAE, "lobster," probably = *Cherax destructor*. [Australia: South Australia; Mt. Remarkable, Doora Aboriginal tribe (probably = Nukunu Aboriginal tribe of Tindale, 1974:216 (138°-10'E x 32°55'S))] Valentine, in Curr, 1886(II):138, Sta. 65.

wolona PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Euastacus* sp. [Australia: Victoria; Kulkyne (probably Latjilatji Aboriginal tribe of Tindale, 1974:206, (141°45'E x 34°40'S))] Curr, 1887(III):454, Sta. 203.

wolonuk PARASTACIDAE, "crayfish," probably =

Cherax destructor and/or *Euastacus* sp. [Australia: Victoria; Lake Hindmarsh, Upper Regions Station, and Lower Wimmera (probably = Wotjobaluk Aboriginal tribe of Tindale, 1974:208 (141°45'E x 35°50'S))] Curr, 1887(III):474, Sta. 207a.

Woodville Karst cave crayfish CAMBARIDAE, *Procambarus (Ortmannicus) orcinus*. [U.S.: Florida; Leon Co., subterranean waters] Williams, et al., 1989:26; Hobbs, 1989:69.

woorrewor = "Horn of crayfish." PARASTACIDAE?. [Australia: Tasmania; Bruny Island (probably = South East Aboriginal tribe of Jones, in Tindale, 1974:336-338 (147°10'E x 43°10'S))] Plomley, 1976:262.

worronguna PARASTACIDAE, "crayfish," probably = *Cherax destructor*. [Australia: South Australia; Yorke's (Yorke) Peninsula (*not* Cape York Peninsula, Queensland) (probably = Narangga Aboriginal tribe of Tindale, 1974:214 (137°35'E x 34°35'S))] Kühn, in Curr, vol. II:146, Sta. 67. See *danibutcha*.

wunmeen PARASTACIDAE, "crayfish," probably = *Cherax gladstonensis*. [Australia: Queensland; Boyne River, Toolooa or Dandan Aboriginal tribe (= Tulua Aboriginal tribe of Tindale, 1974:186 (151°10'E x 24°15'S))] Curr, 1887(III):124, Sta. 161.

wurenag PARASTACIDAE, small crayfish, probably = *Cherax destructor*, and/or *C. albodus*. [Australia: South Australia/Victoria; Djadjala dialect of Wergaia Aboriginal tribe (= Potaruwutj Aboriginal tribe of Tindale, 1974:218 (140°30'E x 36°25'S))] Hercus, 1969a:422. See *jabidj*, *lib-lib-wil*, and *yapitch*.

wura?ja?á [Orthography employed by Olmsted] ASTACIDAE, probably *Pacifastacus* sp. [U.S., western: Atsugewi Indians] Olmsted, 1984:175. See *wərə?já?*.

xbau CAMBARIDAE? (if not crabs). [México: Yucatán, Mayan] Pérez, D.J.P., 1866-1877:21. See *ix bau*.

yaabitch PARASTACIDAE, probably = *Engaeus* sp., *Cherax destructor*, and/or *C. albodus*. [Australia: Victoria; "Victorian Region groups" Ercildoune dialect (probably = Wathaurung Aboriginal tribe of Tindale,

1974:208 (143°55'E x 39°0'S))] Mathew, 1899:230-231. See also *Jabby*, *jabidj*, *kapich*, *lobbie*, *yaapitch* *yabbechi*, *yabbie*, *yabby*, *yampit*, *yāpi*, *yapit*, *yapitch*, *yappi*, *yappitch*, *yappy*, *yobbie*, and *yobbis*.

yaam PARASTACIDAE, probably = *Cherax destructor*, *Euastacus* sp., *Engaeus* sp., and/or *Geocharax* sp. [Australia: Victoria; "Victorian Region groups" (probably = Gunditjmara Aboriginal tribe of Tindale, 1974:204 (142°0'E x 38°5'S)), Warrnambool dialect] Mathew, 1899:230-231. See *yarrun*.

yaapitch PARASTACIDAE, "crayfish," probably = *Engaeus* sp. and/or *Cherax destructor*. [Australia: New South Wales/Victoria; Kerang, Loddon River (probably = Baraparapa Aboriginal tribe of Tindale, 1974:191-2 (144°45'E x 35°20'S))] Curr, 1887(III):512, Sta. 208g. See also *Jabby*, *jabidj*, *lobbie*, *yaabitch*, *yaapitch*, *yabbie*, *yabby*, *yampit*, *yāpi*, *yapit*, *yapitch*, *yappi*, *yappi*, *yappy*, *yobbie*, and *yobbis*.

yabbechi PARASTACIDAE, "crayfish," probably = *Engaeus* sp., *Cherax destructor*, and/or *C. albodus*. [Australia: Victoria; Piangil, Wotti-wotti Aboriginal tribe (= Watiwati Aboriginal tribe of Tindale, 1974:208 (143°25'E x 35°5'S))] Curr, 1887(III):450, Sta. 201. See also *Jabby*, *jabidj*, *kapich*, *lobbie*, *yaabitch*, *yaapitch*, *yabbie*, *yabby*, *yampit*, *yāpi*, *yapit*, *yapitch*, *yappi*, *yappi*, *yappy*, *yobbie*, and *yobbis*.

yabbee PARASTACIDAE. As a contemporary word derived from the Aboriginal, it is used specifically for *Cherax destructor* and *Engaeus* sp., but is also used loosely for all Australian crayfish and sometimes for Western Australian crayfishes other than **marron**, q.v. [Australia: outmoded South Australian derivative of unspecified Aboriginal language] Olszewski, 1980:16. See also *Jabby*, *jabidj*, *kapich*, *lobbie*, *yaapitch* *yabbechi*, *yabbie*, *yabby*, *yampit*, *yāpi*, *yapit*, *yapitch*, *yappi*, *yappi*, *yappy*, *yobbie*, and *yobbis*.

yabber PARASTACIDAE. As a contemporary word derived from the Aboriginal, it is used specifically for *Cherax destructor* and *Engaeus* sp., but is also used loosely for all Australian crayfish and sometimes for Western Australian crayfishes other than **marron**, q.v. [Australia: obsolete South Australian derivative of unspecified Aboriginal language] Olszewski, 1980:15. See also *Jabby*, *jabidj*, *kapich*, *lobbie*, *yaapitch*, *yabbechi*, *yabbie*, *yabby*, *yampit*, *yāpi*, *yapit*,

yapitch, yappi, yappitch, yappy, yobbie, and yobbis.

yabbie PARASTACIDAE. As a contemporary word derived from the Aboriginal, it is used specifically for *Cherax destructor* and *Engaeus* sp., but is also used loosely for all Australian crayfish and sometimes for Western Australian crayfishes other than **marron**, q.v. [Australia: Australian English, from Aboriginal] Carey, 1985:441. See also **Jabby, jabidj, kapich, lobbie, yaabitch, yaapitch, yabbechi, yabby, yampit, yāpi, yapit, yapitch, yappi, yappī, yappy, yobbie, and yobbis.**

yabbity PARASTACIDAE. As a contemporary word derived from the Aboriginal, it is used specifically for *Cherax destructor* and *Engaeus* sp., but is also used loosely for all Australian crayfish and sometimes for Western Australian crayfishes other than **marron**, q.v. [Australia: unspecified Aboriginal language] Olszewski, 1980:15. See also **Jabby, jabidj, kapich, lobbie, yaapitch, yabbechi, yabbie, yabby, yampit, yāpi, yapit, yapitch, yappi, yappī, yappy, yobbie, and yobbis.**

yabby PARASTACIDAE. As a contemporary word derived from the Aboriginal, it is often used specifically for *Cherax destructor*, *Engaeus* sp., and Western Australian crayfishes other than **marron**, q.v. It is also used loosely for all Australian crayfishes. [Australia: Australian English, from Aboriginal] Becker, 1985:107. Olszewski, 1980:16, says that while there is no fast rule, he prefers singular **yabby** and plural **yabbies**. See also **Jabby, jabidj, kapich, lobbie, yaabitch, yaapitch, yabbechi, yabbie, yampit, yāpi, yapit, yapitch, yappi, yappī, yappy, yobbie, and yobbis.**

yabby Slang, = a wicket-keeper in cricket. From the "curious stance and gauntlets of the pudgy breed." [Australia] Dixon, Ramson, and Thomas, 1992:103.

yabby Slang, = to catch, or fish for, yabbies; to yabbie; or to go yabbying. [Australia] Baker, 1959:88. See **cray-fish, crawfish, and mudbug** as verbs.

yabij PARASTACIDAE, probably = *Engaeus* spp, *Cherax destructor*, and/or *C. albidus*. [Australia: Victoria; Wemba-wemba Aboriginal tribe (= Wembawemba tribe of Tindale, 1974:200 (144°0'E x

35°20'S))] Dixon, Ramson, and Thomas, 1990:102. See also **Jabby, jabidj, kapich, lobbie, yaabitch, yaapitch, yabbechi, yabbie, yampit, yāpi, yapit, yapitch, yappi, yappī, yappy, yobbie, and yobbis.**

yampit PARASTACIDAE, "crayfish," probably = *Engaeus* spp, *Cherax destructor*, and/or *C. albidus*. [Australia: New South Wales/Victoria; Gunbower Station (possibly = Jotijoti Aboriginal tribe of Tindale, 1974:194 (144°50'E x 35°50'S))] Messrs. Mickie and Sandy, Curr, 1887(III):508, Sta. 208e. See also **Jabby, jabidj, kapich, lobbie, yaabitch, yaapitch, yabbechi, yabbie, yabby, yāpi, yapit, yapitch, yappi, yappī, yappy, yobbie, and yobbis.**

yandurrer PARASTACIDAE, "lobster," probably = *Cherax quadricarinatus*. [Australia: Queensland; Middle Norman River, Wollongurmee Aboriginal tribe (= Bugulmara Aboriginal tribe of Tindale, 1974:166 (142°0'E x 18°20'S))] Armit, in Curr, 1886(II):312, Sta. 93. See **elparra**.

yaparte PARASTACIDAE, "crayfish," probably = *Engaeus* spp, *Cherax destructor*, and/or *C. albidus*. [Australia: Victoria; Mount Emu (probably = Wathaurung Aboriginal tribe of Tindale, 1974:208 (143°55'E x 38°0'S))] Wilson, in Curr, 1887(III):516, Sta. 208i. See also **Jabby, jabidj, kapich, lobbie, yaabitch, yaapitch, yabbechi, yabbie, yabby, yāpi, yapit, yapitch, yappi, yappī, yappy, yobbie, and yobbis.**

yāpi PARASTACIDAE, "crayfish," probably = *Engaeus* spp, *Cherax destructor*, and/or *C. albidus*. [Australia: Victoria; Swan Hill and Tyntynder, Wottiwotti Aboriginal tribe (= Watiwati Aboriginal tribe of Tindale, 1974:208 (143°25'E x 35°5'S))] Beveridge, in Curr, 1887(III):444, Sta. 199. See **Jabby, jabidj, kapich, lobbie, yaabitch, yaapitch, yabbechi, yabbie, yabby, yampit, yapit, yapitch, yappi, yappī, yappy, yobbie, and yobbis**. See also **chipel**.

yapit PARASTACIDAE, "crayfish," probably = *Engaeus* spp, *Cherax destructor*, and/or *C. albidus*. [Australia: Victoria; Natti-Yalook and Stuart-Mill (probably = Jaara Aboriginal tribe of Tindale, 1974:204 (143°40'E x 36°40'S))] Curr, 1887(III):514, Sta. 208h. See also **Jabby, jabidj, kapich, lobbie, yaabitch, yaapitch, yabbechi, yabbie, yabby, yampit, yāpi, yapitch, yappi, yappī, yappy, yobbie, and yobbis.**

yapitch PARASTACIDAE, "crayfish," probably = *Engaeus* sp., *Cherax destructor*, and/or *C. albidus*. [Australia: South Australia; Tatiarra country (= Potaruwutj Aboriginal tribe of Tindale, 1974:218 (140°30'E x 36°25'S)) Curr 1887(III):458, Sta. 204; [Australia: Victoria; Avoca River, Victorian group (probably = Jaara Aboriginal tribe of Tindale, 1974:204 (143°40'E x 36°40'S)) Mathew, 1899:230-231; [Australia: Victoria; Lake Wallace and neighborhood (possibly = Marditjali Aboriginal tribe of Tindale, 1974:206 (141°10'E x 36°45'S)) Curr, 1887(III):476, Sta. 207b; [Australia: Victoria; Lake Boga neighborhood, probably Moorerbat and the lower Loddon (possibly = Wembawemba Aboriginal tribe of Tindale, 1974:200 (144°0'E x 35°20'S)) Curr, 1887(III):504, Sta. 208c. See also *Jabby*, *jabidj*, *kapich*, *lobbie*, *yaabitch*, *yaapitch*, *yabbechi*, *yabbie*, *yabby*, *yampit*, *yāpi*, *yapit*, *yappi*, *yappītch*, *yappy*, *yobbie*, and *yobbis*. See also *lib-lib-wil* and *wurenag*.

yappée PARASTACIDAE, "crayfish," probably = *Engaeus* spp., *Cherax destructor*, and/or *C. albidus*. [Australia: Victoria; Natti-Yallook and Stuart Mill (probably = Jaara Aboriginal tribe of Tindale, 1974:204 (143°40'E x 36°40'S)) Curr, 1887(III):514, Sta. 208h. See also *Jabby*, *jabidj*, *kapich*, *lobbie*, *yaabitch*, *yaapitch*, *yab-bechi*, *yabbie*, *yabby*, *yampit*, *yāpi*, *yapitch*, *yappi*, *yappītch*, *yappy*, *yobbie*, and *yobbis*.

yappi PARASTACIDAE, "crayfish," probably = *Engaeus* spp., *Cherax destructor*, and/or *C. albidus*. [Australia: Victoria; Piangil, Wotti-wotti Aboriginal tribe (= Watiwati Aboriginal tribe of Tindale, 1974:208 (143°25'E x 35°5'S)) Macredie, in Curr, 1887(III):448, Sta. 201. See *Jabby*, *jabidj*, *kapich*, *lobbie*, *yaabitch*, *yaapitch*, *yabbechi*, *yabbie*, *yabby*, *yampit*, *yāpi*, *yapit*, *yapitch*, *yappītch*, *yappy*, *yobbie*, and *yobbis*. See also *chiboli*.

yappitch PARASTACIDAE, probably = *Engaeus* spp., *Cherax destructor*, and/or *C. albidus*. [Australia] Endacott, 1924 (1973):62.

yappītch PARASTACIDAE, "crayfish," probably = *Engaeus* spp., *Cherax destructor*, and/or *C. albidus*. [Australia: Victoria; Hamilton (possibly = Tjapwurong Aboriginal tribe of Tindale, 1974:707-9 (142°40'E x 37°30'S)) Curr, 1887(III):486, Sta. 207g. See also *Jabby*, *jabidj*, *kapich*, *lobbie*, *yaabitch*, *yaapitch*,

yabbechi, *yabbie*, *yabby*, *yampit*, *yāpi*, *yapit*, *yapitch*, *yappi*, *yappy*, *yobbie*, and *yobbis*.

yappy PARASTACIDAE, "crayfish," probably = *Engaeus* spp., *Cherax destructor*, and/or *C. albidus*. [Australia: Victoria; "Gippsland," (data given do not allow specific tribal designation) Curr, 1887(III):554. See *Jabby*, *jabidj*, *kapich*, *lobbie*, *yaabitch*, *yaapitch*, *yabbechi*, *yabbie*, *yabby*, *yampit*, *yāpi*, *yapit*, *yapitch*, *yappi*, *yappītch*, *yobbie*, and *yobbis*. See also *kipil*.

yaram PARASTACIDAE, "lobster," probably = *Euastacus* sp. [Australia: Victoria; Hopkins River (possibly = Tjapwurong Aboriginal tribe of Tindale, 1974:707-9 (142°40'E x 37°30'S)) Curr, 1887(III):492, Sta. 207j. See *wija*.

yarrun PARASTACIDAE, "crayfish," probably = *Cherax destructor*, *Euastacus* sp., *Engaeus* sp. and/or *Geocharax* sp. [Australia: Victoria; Portland, Lake Condah, and Eumeralla (probably = Gunditjmara Aboriginal tribe of Tindale, 1974:204 (142°0'E x 38°-5'S)) Curr, 1887(III):490, Sta. 207i. See *yaam*.

yeekerra PARASTACIDAE, "lobster," probably = *Cherax cairnesensis*. [Australia: Queensland; Hinchinbrook Island and adjacent mainland (probably = Keramai Aboriginal tribe of Tindale, 1974:175 (145°-45'E x 18°15'S)) Murray, in Curr, 1886(II):420, Sta. 118. See *mouwa*.

egari PARASTACIDAE, "lobster," probably = *Cherax davi*. [Australia: Queensland; head of the Comet River, Kanoloo Aboriginal tribe (= Kanolu Aboriginal tribe of Tindale, 1974:174 (149°0'E x 23°40'S)) Josephson, in Curr, 1887(III):98, Sta. 157. See *myngul*.

Yellami Boongangoolum Place name, = Crayfish Creek. [Australia: Victoria; between the "Old Crossing Place [present day Tabilk (145°10'E x 36°51'S)] on the Goulburn [and] the present Toolamba, "Ngooraiulum Aboriginal tribe" (= Ngurelban Aboriginal tribe of Tindale, 1974:207 (144°45'E x 36°40'S))] Curr, 1887(III):523-525. Massola, 1968:18, lists this locality as "near Seymour." He also includes **Yellami Goloro** as = **yellami Boongangoolum**, but I cannot find evidence that Goloro really = crayfish. See **boongan-gooloom**, **galoom**, and **Yellami Goloro**.

Yellami Goloro Place name, = Crayfish Creek ? [Australia: Victoria; near Seymour (probably = Taungurong Aboriginal tribe of Tindale, 1974:207 (145°-35'E x 37°10'S))] Massola, 1968:18. Note that Curr, 1887(III):525, places a "?" instead of a translation of **Yellami Goloro**. See **yellami Boongangooloom**.

угловатый рак ASTACIDAE, *Pontastacus leptodactylus leptodactylus morpha angulosus*. [Russia] Brodsky, 1981:156. See **ughlovatyi rak**, above.

yigara PARASTACIDAE. This locality does not appear to coincide with known present-day crayfish distributions. [Australia: Queensland; vicinity of the Herbert River, Wargamay Aboriginal tribe (= Warakamai Aboriginal tribe of Tindale, 1974:188 (146°15'E x 18°55'S))] Dixon and Blake, 1981, vol. 2:126.

yil PARASTACIDAE, probably = *Cherax gladstonensis*. [Australia: Queensland; basins of the upper Burnett River, Wakka, Aboriginal tribe (= Wakawaka Aboriginal tribe of Tindale, 1974:187 (151°45'E x 25°50'S))] Watson, 1943-1944:78. See **eel**, **illai**, **il'-lai**, **yil**, **yil'ai**, and **yil'lai**.

yil PARASTACIDAE. Word defined as both "crayfish" and "lobster," probably = *Cherax gladstonensis*. [Australia: Queensland; Wakka Aboriginal tribe (= Wakawaka Aboriginal tribe of Tindale, 1974:187 (151°45'E x 25°50'S))] Mathew, 1910:230. See **eel**, **illai**, **il'-lai**, **yil**, **yil'ai**, and **yil'lai**.

yil'ai PARASTACIDAE. [Australia: southeast Queensland; basins of Mary and Burrum rivers as well as those of smaller streams that drain the eastern slope of the Blackall Range, Kabi Aboriginal tribe (= Kabikabi Aboriginal tribe of Tindale, 1974:172 (152°25'E x 25°45'S))] Watson, 1943-1944:12. See **eel**, **illai**, **il'-lai**, **yil**, **yil'ai**, and **yil'lai**.

yil'lai PARASTACIDAE, "crayfish," probably = yabbies and other smaller crayfish. [Australia: Queensland; Kabi Aboriginal tribe (= Kabikabi Aboriginal tribe of Tindale, 1974:172 (152°25'E x 25°45'S))] Mathew, 1910:230. See **eel**, **illai**, **il'-lai**, **yil**, **yil'ai**, **yil'**ai.

yimbala PARASTACIDAE. [Australia: possibly South Australia] Cooper, 1949:29.

yīnangī PARASTACIDAE, probably = *Cherax* sp. and/or *Engaeus* sp. [Australia: Victoria; "Victorian Region groups," Broken River (probably = Pangerang Aboriginal tribe of Tindale, 1974:207 (145°40'E x 36°-25'S))] Mathew, 1899:230-231. See **bōrpa** and **bōr-pa**.

yinga PARASTACIDAE, "lobster," possibly = *Cherax cuspidatus*, *C. rotundus*, and/or *Euastacus* sp. [Australia: New South Wales; Manning River (probably = Birpai Aboriginal tribe of Tindale, 1974:192 (152°-15'E x 31°50'S))] Bench of Magistrates at Wingham, in Curr, 1887(III):350, Sta. 187. Ingamells, 1955:39, says this word signifies "crab" in Northern Territory.

yingar PARASTACIDAE, "crayfish," probably = *Cherax cuspidatus*, *C. rotundus*, and/or *Euastacus* sp. [Australia: New South Wales; Port Macquarie (probably = Ngamba Aboriginal tribe of Tindale, 1974:197 (152°40'E x 31°35'S))] Curr, 1887(III):340, Sta. 186; [Australia: New South Wales; Wagga Wagga (probably = Wiradjuri Aboriginal tribe of Tindale, 1974:201 (147°30'E x 33°50'S))] Curr, 1887(III):392, Sta. 190. See **dookami**. Note that the list of additional words, on page 350, indicates **yingar** also = crab.

yingo PARASTACIDAE, "crayfish," probably = yabbies and other smaller crayfish. [Australia: Queensland; Weir and Moonie rivers (Curr, 1887(III):258, implies this locality is in territory of the Ualarai (Wollerri), but the Station locality (175) together with the localities of the Weir and the Moonie rivers points to the Bigambul Aboriginal tribe of Tindale, 1974:166 (150°10'E x 28°10'S))] O'Byrne, in Curr, 1887(III):262, Sta. 175. See **nolaka**.

yobbi PARASTACIDAE, "crayfish." As a contemporary word derived from the Aboriginal, it is used specifically for *Cherax destructor* and *Engaeus* sp., but is also used loosely for all Australian crayfish and sometimes for Western Australian crayfishes other than **marron**, q.v. [Australia: South Australia; Adelaide, Aboriginal derivative] Olszewski, 1980:16. See **Jabby**, **jabidj**, **kapich**, **lobbie**, **yaabitch**, **yaapitch**, **yabbechi**, **yabbie**, **yabby**, **yampit**, **yāpi**, **yapit**, **yapitch**, **yappi**, and **yappy**.

yobbie PARASTACIDAE, "crayfish." As a contemporary word derived from the Aboriginal, it is used specifically for *Cherax destructor* and *Engaeus* sp., but

is also used loosely for all Australian crayfish and sometimes for Western Australian crayfishes other than **marron**, q.v. [Australia: South Australia; Adelaide, Australian English from the Aboriginal] Olszewski, 1980:16. See **Jabby**, **jabidj**, **kapich**, **lobbie**, **yaa-bitch**, **yaapitch**, **yabbechi**, **yabbie**, **yabby**, **yampit**, **yāpi**, **yapit**, **yapitch**, **yappi**, and **yappy**.

yobbis See **yobbie**, above.

youri PARASTACIDAE, "crayfish," probably = **yabbies** and other smaller crayfish. [Australia: Victoria; Hopkins River (possibly = Tjapwurong Aboriginal tribe of Tindale, 1974:707-9 (142°40'E x 37°30'S))] Goodall, in Curr, 1887(III):494, Sta. 207k. See **weechong**.

yukalto PARASTACIDAE, "crayfish," probably = *Cherax destructor* and/or *Eustacus* sp. [Australia: South Australia; Wellington, Murray River (possibly = Jarildekald (139°20'E x 35°30'S) and/or Portalun (139°15'E x 35°15'S) Aboriginal tribes of Tindale, 1974:212, 217-218] Moorehouse, in Curr, 1886(II): 276, Sta. 84.

zametn'ī tolstopalyī rak See **заметный толстопалый рак**, next entry.

заметный толстопалый рак ASTACIDAE, *Pontastacus pachypus notabilis*. [Russia] Brodsky, 1981. p. 177. See **заметн'ī tolstopalyī rak**, above. See also **pomitnyī tovstopalyī rak**.

zanak'orana PARASTACIDAE. [Madagascar: Betsileo] Poisson, 1947:13. See **kitihy** and **kitika**.

zarigani CAMBARIDAE, *Cambaroides japonicus*. [Japan] Okada and Uchida, 1961:98. See next two entries.

ザリガニ See **zarigani**.

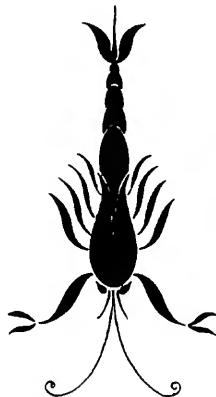

さりがに See **zarigani**.

zarny rak = black crayfish. ASTACIDAE, *Astacus* sp. [Hungary] Marsigli, 1726, v. 4, plate caption.

zoetwater kreeft See **zoetwaterkreeft**.

zoetwaterkreeft ASTACIDAE and CAMBARIDAE [Netherlands] Anonymous, 1974:9.

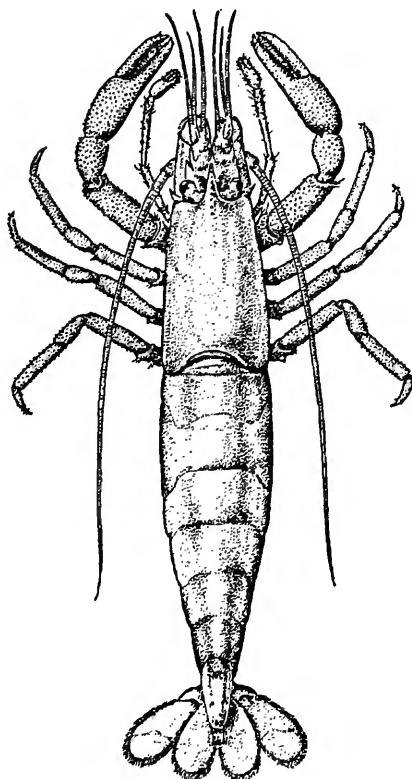

zymetasis vēzys = signal crayfish. ASTACIDAE, *Pacifastacus leniusculus*. [Lithuania] Fitzpatrick, J.F., personal communication.

Sign Language

PARASTACIDAE. [Australia: Queensland; Pitta-Pitta and Mitakoodi Aboriginal tribes. These tribal designations = Pitapita ($139^{\circ}45'E \times 22^{\circ}45'S$) and Maithakari ($140^{\circ}40'E \times 20^{\circ}5'S$) of Tindale, 1974:180 and 184] Roth, 1897:93 and Plate V (fig. 86). See **bee-kodl**, **koon-da-chi**, **kuntatyi**, **pe-kool**, and **tunanyty**.

PARASTACIDAE. [Australia: Northern Territory; Aranda Aboriginal tribes ($134^{\circ}45'E \times 24^{\circ}40'S$)] Strehlow, Carl, in Umiker-Sebeok and Sebeok. 1978:356. Strehlow says this = *iltjénma*, q.v., and specifies, "Close [fingers] 4, 5 on the ball of the thumb, spread fingers 2, 3—which are held in the shape of a boomerang (back of the hand up)—close them together a few times, and rest them on 1, as if they would grip something."

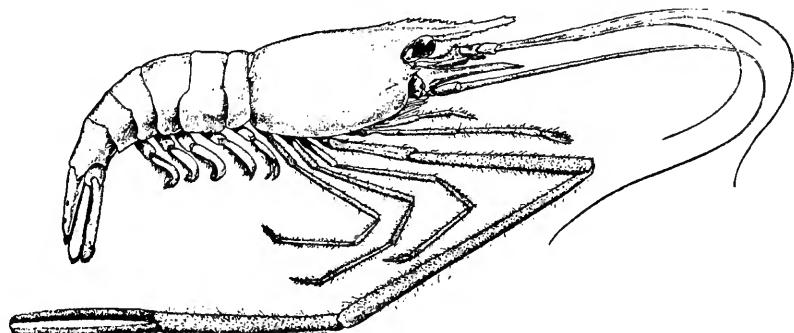

FIGURE 5.—Representative freshwater shrimps from Peru and Chile (left) and from Central America (right). Note the elongated body (cephalothorax) and the laterally flattened rostrum discussed on page 3. From Holthuis, 1952, plates 10 and 34.

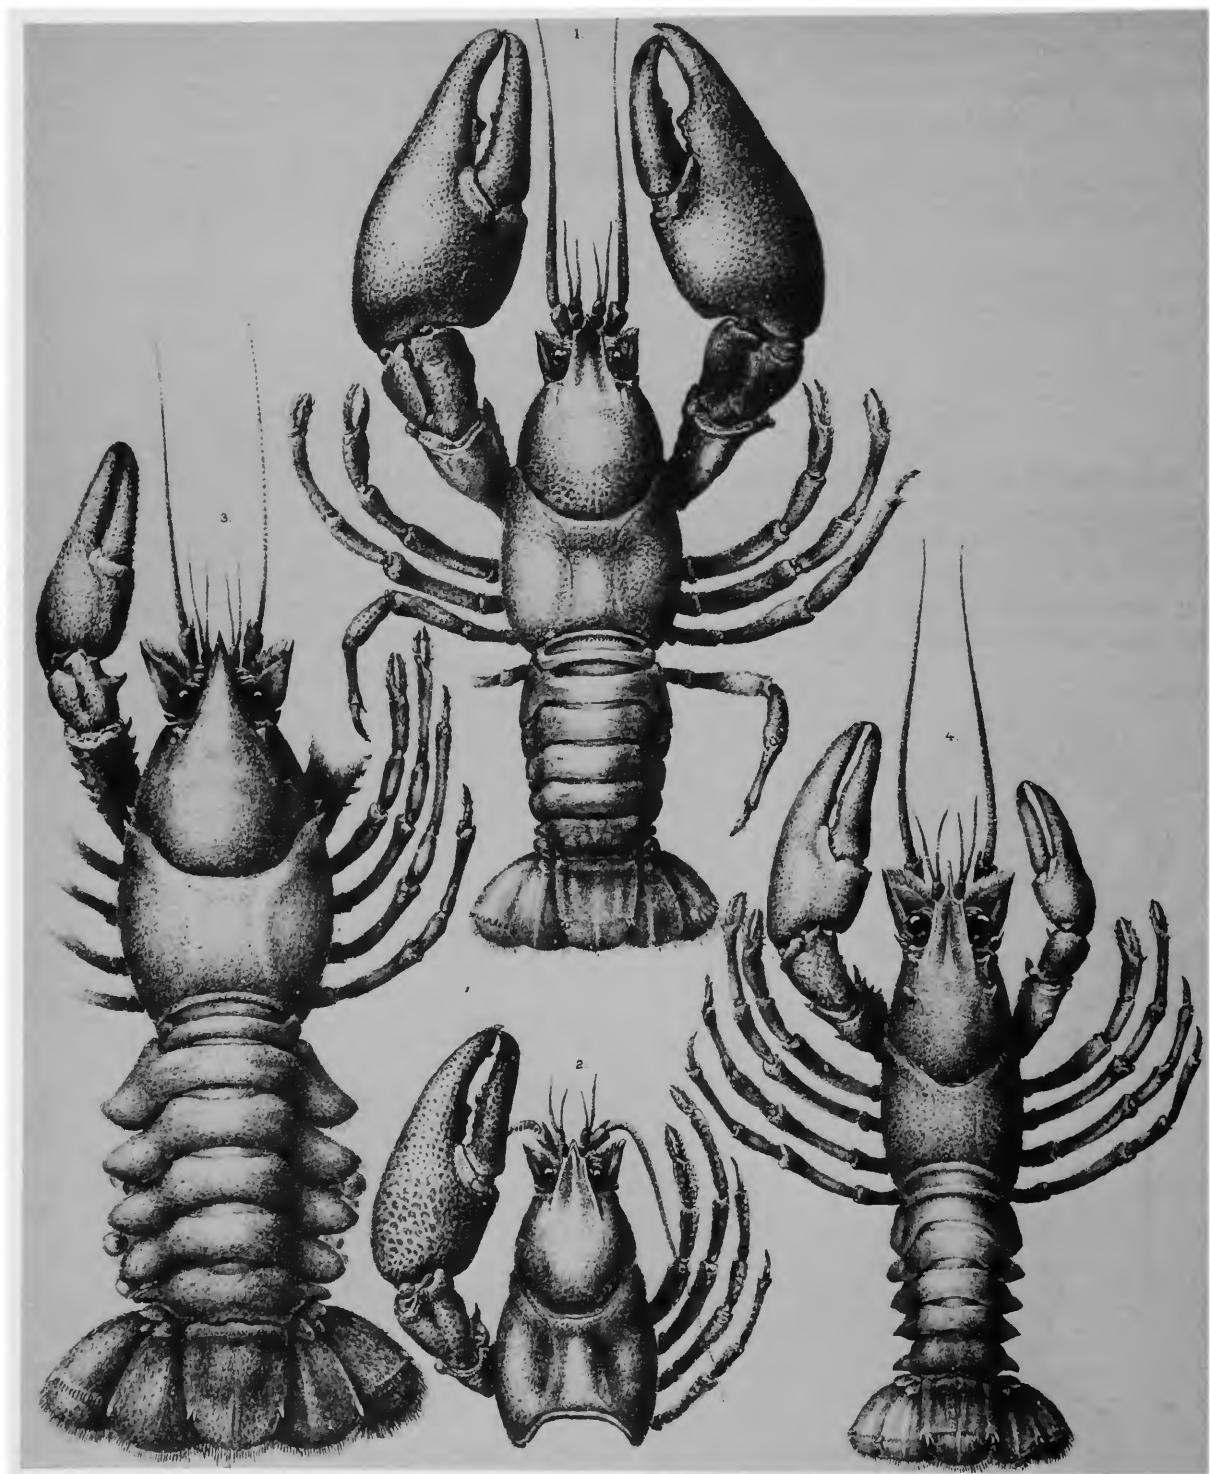

FIGURE 6.—Representative crayfishes from the northwestern United States and British Columbia (1, 2, and 4); northeastern China, the eastern Russian Federation, and Sakhalin Island (3). See page 3. From Faxon, 1885, plate VI.

Language Index

ABORIGINAL (Australia) *For non-Aboriginal Australian words, see English. Note that the words designated ("lobster") are, in most cases, actually crayfish; see discussion on page 4.*

acheroo	carrda
andar	cheewagga
ander	chelgi (see English)
atta ("lobster")	chiboli ("lobster")
bambam	chielghi
baranjak	chīpel ("lobster")
baranjerk	choorn-gu
barrinjook	cuinci
baupit	cunder
beekodl	danbee ("lobster")
beelahingar (place name)	danibutcha ("lobster")
begool	dendong
bellingah	dib-dib
Belleringah (place name)	dibil
birrooa	didbee
boagalli	dirndung-dirnduk ("lobster")
bodardi	dookami ("lobster")
bogally	eel ("lobster")
boligar ("lobster")	einga
boogal	elin
boogali	ella
boogalli	elli ("lobster")
boogarli	elparra
boogurrie ("lobster")	enkodko
bookill ("lobster")	erambie
bookillee	eukodko
boongangooloom ("lobster")	gadjunja
boonggāngooloom ("lobster")	gadunja
boorkoom	galoom
bōrpa	ganoon ("lobster")
bōr-pa	gannoon ("lobster")
bouragin	geary
bowgili	gidda
buggilla	gidyar ("lobster")
bugili	giju ("lobster")
burnicum ("lobster")	gilga
	gilgie (see English)
	Gillendoon (place name)
	gindangia
	gonak
	gonon ("lobster")
	goolgie

goombarroo	koarow
goonack	komdar
goonak	kongola
goonalk	konkro
goonaway ("lobster")	koonac (see English)
goowarra ("lobster")	koonak
greeur	koon-da-chi
gunag	koondagi
gungulu	koongala
gunnok	koongideri
gurinein	koongoola
ilidja	koongoolo
illai	koon-gooloo
il'lai	koongooloo
Iltjanma (Crayfish Ancestor, Aboriginal mythology)	koongooya ("lobster")
iltjanma	koonkooderi
Iltjanmalitnjaka (place name)	koonkoodirri
iltjénma	koorey ("lobster")
inga	kottingeri
ingah	krangalang ("lobster")
ingar	kumbooloo
Ingar (place name)	kunggurla ("lobster")
inglebar (crayfish hole)	kuniekoondie
injiltjinjiltja	kuniekundi
inka ("crayfish" and "lobster")	kuntatyi
inkka ("lobster")	kurnkuderri ("lobster")
inundah	kurukudirri ("lobster")
jabid	kutera
jabidj	laamballay ("lobster")
jakalaan	lang-gunya
jilgi	langunia
jilgie (see English)	lib-lib-wil
jilgy	lip-lip-kill
jin-ju	lip-lip-till
joolgie	lippekil
julegie	lobbie
junju	lobby
kakine	loetererlepeenne
kandera	ltyanma
kapich	ma-a
karee	mamaroo
karkoora ("lobster")	mamuru
kary	mangaba ("lobster")
keerai ("lobster")	mannta ("lobster")
keerie	maraija
keery	maramie (see English)
keler	mareen
kidneykooderi	marin
kipil ("lobster")	marine
	marooroo ("lobster")

marra	ninyouen
marramin	nolaka ("lobster")
marran	notkun ("lobster")
marrida	nubé
marron (see English)	nubena
marthera	nubyma
meauke	nubyana
meauki	nuele
mintoola	nunnya

REQUIREMENTS FOR SMITHSONIAN SERIES PUBLICATION

Manuscripts intended for series publication receive substantive review (conducted by their originating Smithsonian museums or offices) and are submitted to the Smithsonian Institution Press with Form SI-36, which must show the approval of the appropriate authority designated by the sponsoring organizational unit. Requests for special treatment—use of color, foldouts, case-bound covers, etc.—require, on the same form, the added approval of the sponsoring authority.

Review of manuscripts and art by the Press for requirements of series format and style, completeness and clarity of copy, and arrangement of all material, as outlined below, will govern, within the judgment of the Press, acceptance or rejection of manuscripts and art.

Copy must be prepared on typewriter or word processor, double-spaced, on one side of standard white bond paper (not erasable), with 1 1/4" margins, submitted as ribbon copy (not carbon or xerox), in loose sheets (not stapled or bound), and accompanied by original art. Minimum acceptable length is 30 pages.

Front matter (preceding the text) should include: title page with only title and author and no other information; abstract page with author, title, series, etc., following the established format; table of contents with indents reflecting the hierarchy of heads in the paper; also, foreword and/or preface, if appropriate.

First page of text should carry the title and author at the top of the page; second page should have only the author's name and professional mailing address, to be used as an unnumbered footnote on the first page of printed text.

Center heads of whatever level should be typed with initial caps of major words, with extra space above and below the head, but no other preparation (such as all caps or underline, except for the underline necessary for generic and specific epithets). Run-in paragraph heads should use period/dashes or colons as necessary.

Tabulations within text (lists of data, often in parallel columns) can be typed on the text page where they occur, but they should not contain rules or numbered table captions.

Formal tables (numbered, with captions, boxheads, stubs, rules) should be submitted as carefully typed, double-spaced copy separate from the text; they will be typeset unless otherwise requested. If camera-copy use is anticipated, do not draw rules on manuscript copy.

Taxonomic keys in natural history papers should use the aligned-couplet form for zoology and may use the multi-level indent form for botany. If cross referencing is required between key and text, do not include page references within the key, but number the keyed-out taxa, using the same numbers with their corresponding heads in the text.

Synonymy in zoology must use the short form (taxon, author, year:page), with full reference at the end of the paper under "Literature Cited." For botany, the long form (taxon, author, abbreviated journal or book title, volume, page, year, with no reference in "Literature Cited") is optional.

Text-reference system (author, year:page used within the text, with full citation in "Literature Cited" at the end of the text) must be used in place of bibliographic footnotes in all Contributions Series and is strongly recommended in the Studies Series: "(Jones, 1910:122)" or "...Jones (1910:122)." If bibliographic footnotes are

required, use the short form (author, brief title, page) with the full citation in the bibliography.

Footnotes, when few in number, whether annotative or bibliographic, should be typed on separate sheets and inserted immediately after the text pages on which the references occur. Extensive notes must be gathered together and placed at the end of the text in a notes section.

Bibliography, depending upon use, is termed "Literature Cited," "References," or "Bibliography." Spell out titles of books, articles, journals, and monographic series. For book and article titles use sentence-style capitalization according to the rules of the language employed (exception: capitalize all major words in English). For journal and series titles, capitalize the initial word and all subsequent words except articles, conjunctions, and prepositions. Transliterate languages that use a non-Roman alphabet according to the Library of Congress system. Underline (for italics) titles of journals and series and titles of books that are not part of a series. Use the parentheses/colon system for volume (number):pagination: "10(2):5-9." For alignment and arrangement of elements, follow the format of recent publications in the series for which the manuscript is intended. Guidelines for preparing bibliography may be secured from Series Section, SI Press.

Legends for illustrations must be submitted at the end of the manuscript, with as many legends typed, double-spaced, to a page as convenient.

Illustrations must be submitted as original art (not copies) accompanying, but separate from, the manuscript. Guidelines for preparing art may be secured from the Series Section, SI Press. All types of illustrations (photographs, line drawings, maps, etc.) may be intermixed throughout the printed text. They should be termed **Figures** and should be numbered consecutively as they will appear in the monograph. If several illustrations are treated as components of a single composite figure, they should be designated by lowercase italic letters on the illustration; also, in the legend and in text references the italic letters (underlined in copy) should be used: "Figure 9b." Illustrations that are intended to follow the printed text may be termed **Plates**, and any components should be similarly lettered and referenced: "Plate 9b." Keys to any symbols within an illustration should appear on the art rather than in the legend.

Some points of style: Do not use periods after such abbreviations as "mm, ft, USNM, NNE." Spell out numbers "one" through "nine" in expository text, but use digits in all other cases if possible. Use of the metric system of measurement is preferable; where use of the English system is unavoidable, supply metric equivalents in parentheses. Use the decimal system for precise measurements and relationships, common fractions for approximations. Use day/month/year sequence for dates: "9 April 1976." For months in tabular listings or data sections, use three-letter abbreviations with no periods: "Jan, Mar, Jun," etc. Omit space between initials of a personal name: "J.B. Jones."

Arrange and paginate sequentially every sheet of manuscript in the following order: (1) title page, (2) abstract, (3) contents, (4) foreword and/or preface, (5) text, (6) appendices, (7) notes section, (8) glossary, (9) bibliography, (10) legends, (11) tables. Index copy may be submitted at page proof stage, but plans for an index should be indicated when the manuscript is submitted.
