LIST OF PUBLICATIONS OF THE BUREAU OF AMERICAN ETHNOLOGY

NOTE.

The series of Contributions, in quarto, was begun in 1877 by the Geographical and Geological Survey of the Rocky Mountain Region (J. W. Powell, Director). Of the earlier numbers, printed under authority of special resolutions of Congress, volumes i, ii (in two parts), and iii had been completed when, in the year 1879, the Bureau of Ethnology was organized, with J. W. Powell as Director. In March, 1881, the publication of volumes vi, vii, viii, ix, and x was authorized by concurrent resolution of Congress, but the series was discontinued in 1895, after volumes i to vii and ix had been completed.

The publication of the Annual Reports in royal octavo form began with that for the fiscal year ending June 30, 1880. Until 1895 the successive reports were each authorized by Congress, usually by concurrent resolution; since that time they have been published under authority of the law providing for the printing and binding and the distribution of public documents, approved January 12, 1895.

At the close of the fiscal year 1906–7, twenty-four Annual Reports had appeared (the Fourteenth, Seventeenth, Eighteenth, Nineteenth, and Twenty-second each in two parts), in all twenty-nine volumes. The Twenty-fifth and Twenty-sixth Reports are in press.

The present maximum edition of the Annual Reports is 9,850 copies. Of these the Senate receives 1,500, the House of Representatives 3,000, and the Bureau of American Ethnology 3,500 copies. Of the Bureau edition 500 are distributed by the Smithsonian Institution. From the remaining 1,850 copies are drawn the personal copies of Senators, Representatives, and Delegates, and 500 copies for distribution to Government libraries and to designated public depositories throughout the country. The remainder are sold by the Superintendent of Documents, Government Printing Office, at a slight advance on the cost.

* Each Senator, Representative, and Delegate in Congress is entitled to designate one depository to receive all public documents (see annual reports of the Superintendent of Documents, Government Printing Office).
In August, 1886, the Director of the Bureau was authorized by joint resolution of Congress to begin the publication of a series of Bulletins, which were issued in octavo form and in paper covers, and in July, 1888, the continuation of the series was authorized by concurrent resolution. Provision for publishing the Bulletins was omitted from the public printing law of Jan. 12, 1895, and the issue terminated in 1894. Up to that time 24 bulletins had been published. By concurrent resolution in April, 1900, Congress authorized the resumption of the Bulletin series in royal octavo form. No. 25, 26, and 27 were issued under this provision, and in February, 1903, by joint resolution of Congress the octavo form was again resumed. Since then Bulletins 28, 29, 30, 31, and 32 have appeared, while no. 33, 34, 35, 36, 37, and 38 are in press. The maximum edition of the Bulletin series is 9,850 copies, of which the Senate receives 1,500, the House of Representatives 3,000, and the Bureau of American Ethnology 3,500 copies. The remaining 1,850 copies are distributed by the Superintendent of Documents, Government Printing Office. Of these about 500 copies are sent to designated libraries; the rest are held by him for sale at a price slightly above cost.

Besides the series mentioned there have been issued small editions of four Introductions and of eight Miscellaneous Publications, intended wholly or chiefly for the use of collaborators and correspondents. These were not specially authorized by Congress, but as a rule were paid for from the annual appropriations for continuing researches.

With the exception of the few copies of the publications of the Bureau disposed of by the Superintendent of Documents the editions are distributed free of charge. The quota allowed the Bureau is distributed mainly to libraries and institutions of learning and to collaborators and others engaged in anthropological research or in instruction.
