## SUMMARY OF BILL

Estimates totaling \$1,569,454,500, which includes new obligational authority and amounts necessary to liquidate contract authorization, were considered by the committee for the programs and activities of the agencies and bureaus of the Department of the Interior—except the Federal Water Pollution Control Administration, the Alaska Power Administration, the Southeastern Power Administration, the Southwestern Power Administration, the Bonneville Power Administration, and the Bureau of Reclamation—and the following related agencies:

Forest Service (Department of Agriculture).

Federal Coal Mine Safety Board of Review.

Commission of Fine Arts.

Indian Health Service, Health Services and Mental Health Administration (Department of Health, Education, and Welfare).

Indian Claims Commission.

National Capital Planning Commission.

National Foundation on the Arts and the Humanities.

Public Land Law Review Commission.

Smithsonian Institution.

National Gallery of Art.

National Council on Marine Resources and Engineering Development.

Federal Field Committee for Development Planning in Alaska.

Lewis and Clark Trail Commission.

American Revolution Bicentennial Commission.

National Council on Indian Opportunity.

The committee recommends appropriations totaling \$1,544,819,900 (\$1,225,277,900 for definite appropriations, \$127,444,000 for indefinite appropriations of receipts, \$165,898,000 to liquidate contract authorizations and authorization to spend \$26,200,000 from public debt receipts) for the programs and activities of these agencies. The sum recommended by the committee is a decrease of \$24,634,600 under the budget estimates considered, an increase of \$4,635,200 over the sums included in the House bill, and an increase of \$14,653,765 over the appropriations for the current fiscal year.

It is estimated that the agencies included in this bill will produce \$1,355,344,096 in receipts during fiscal year 1970. The committee's recommendations of appropriations are only \$189,475,804 more than receipts accruing from the activities of the several agencies included in this bill.

## FUNDING OF INTERAGENCY ACTIVITIES

The committee has again included a provision in the bill to prohibit the funding of committees, boards, and other interagency groups by assessments against the various activities included in this bill. This action does not indicate that the committee disapproves of the entity concerned, but does mean that the committee desires to know what financing it is providing and prefers not to have approved budgets reduced without committee consideration.

The committee reiterates its position of last year that the entities concerned receive specific prior congressional approval of their financing.

## EMPLOYEE HOUSING

In this committee's report on the appropriations act for fiscal year 1963, the limitation on the cost of employee housing, except in Alaska, was set at \$21,500, including engineering and design costs but excluding provision for utilities to the lot line. The committee increases the cost limitation to \$29,000 in all areas, but directs continued adherence to remaining requirements heretofore established.

### ADMINISTRATIVE PROVISIONS

The committee recommends revision of section 102 of the bill pertaining to fire suppression costs by agencies of the Department of the Interior to delete the phrase "within each bureau or office." This will permit the Secretary of the Interior to make temporary transfers of funds between bureaus of the Department to meet firefighting costs when such action is deemed necessary to avoid disrupting other bureau programs. This action is taken with the explicit understanding that such fund transfers are to be made from "no-year" appropriations. Such transfers are not to become permanent but are to be of a temporary nature only. The bureau from which funds are transferred is to be repaid either from funds made available in a supplemental appropriation or from funds appropriated to the receiving bureau in a subsequent year.

## TITLE I—DEPARTMENT OF THE INTERIOR

### BUREAU OF LAND MANAGEMENT

<b>Total</b>	<b>53,640,000</b>	<b>52,600,000</b>	<b>52,573,000</b>

The committee recommends the following reductions:

\$700,000—The increase proposed in the budget for forestry management in western Oregon. In the opinion of the committee this activity should be financed with Oregon and California grant lands receipts.

\$300,000—The budget increase proposed for initiation of a watershed evaluation program.

\$67,000—General administration.

#### CONSTRUCTION AND MAINTENANCE

Appropriation, 1969	\$3, 081, 000
Budget estimate, 1970	2, 936, 000
House allowance	2, 925, 000
Committee recommendation	2, 873, 000

The committee recommends an appropriation of \$2,873,000, which is \$52,000 less than the House allowance and \$63,000 less than the budget estimate. The reduction below the budget estimate is to be applied to:

Survey and design of recreation facilities	\$11, 000
Expansion of Johnny Horizon antilitter campaign	52, 000

#### PUBLIC LANDS DEVELOPMENT ROADS AND TRAILS

(Liquidation of contract authorization)

Appropriation, 1969	\$3, 500, 000
Budget estimate, 1970	3, 500, 000
House allowance	3, 500, 000
Committee recommendation	3, 500, 000

The committee recommends an appropriation of \$3,500,000, the same as the House allowance and the budget estimate for liquidation of contracts for construction of roads on the public domain.

#### OREGON AND CALIFORNIA GRANT LANDS

(Indefinite appropriation of receipts)

Appropriation, 1969	\$12, 750, 000
Budget estimate, 1970	13, 750, 000
House allowance	13, 750, 000
Committee recommendation	13, 750, 000

The committee recommends an indefinite appropriation of 25 percent of the gross revenues from the revested Oregon and California grant lands for construction and acquisition, forest development and protection, and operation and maintenance on the revested lands and on other Federal lands in the Oregon and California land-grant counties of Oregon. It is estimated that the appropriation will amount to \$13,750,000 in fiscal year 1970.

As indicated earlier in this report, the committee believes that the \$700,000 increase for forestry work in the Oregon and California grant lands should be funded with receipts from these lands.

## RANGE IMPROVEMENTS

(Indefinite appropriation of receipts)

Appropriation, 1969.....	\$1, 460, 000
Budget estimate, 1970.....	1, 788, 000
House allowance.....	1, 788, 000
Committee recommendation.....	1, 788, 000

The committee recommends an indefinite appropriation estimated at \$1,788,000 to be derived from public lands and Bankhead-Jones Farm Tenant Act lands grazing receipts for the construction, purchase, and maintenance of range improvements.

## BUREAU OF INDIAN AFFAIRS

In addition to the amount which the committee recommends for direct appropriation to the Bureau of Indian Affairs in this bill, it is estimated that more than \$235,729,000 will be available from other Federal agencies (exclusive of social security and veterans benefits) in the coming fiscal year. This is an incomplete estimate, because fiscal year 1970 figures for some agencies are not available. In fiscal year 1969, these agencies provided over \$36 million. The following table sets forth these 1969 and 1970 estimates:

Agency	Fiscal year 1969	Fiscal year 1970
Department of Agriculture.....	\$12, 236, 000	\$11, 925, 000
Department of Commerce.....	30, 000, 000	31, 500, 000
Office of Economic Opportunity.....	38, 480, 000	38, 000, 000
Department of Health, Education, and Welfare (except Public Health Service).....	29, 322, 000	28, 007, 000
Department of Housing and Urban Development.....	1, 110, 000	(1)
Department of the Interior (except Bureau of Indian Affairs).....	2, 950, 000	3, 116, 000
Department of Labor.....	2, 300, 000	2, 300, 000
Small Business Administration.....	509, 000	(1)
Public Health Service.....	121, 751, 000	120, 881, 000
Total.....	238, 658, 000	235, 729, 000

<sup>1</sup> Not available.

The amount shown above for fiscal year 1970, even though incomplete, plus the amount recommended by the committee, will provide over \$1,200 per capita for the 440,000 Indians under the jurisdiction of the Bureau of Indian Affairs.

## EDUCATION AND WELFARE SERVICES

Appropriation, 1969.....	\$147, 769, 000
Budget estimate, 1970.....	184, 445, 000
House allowance.....	176, 000, 000
Committee recommendation.....	173, 658, 000

The committee recommends an appropriation of \$173,658,000 for education and welfare services. This is \$2,342,000 less than the House allowance and \$10,587,000 under the budget estimate. The committee's recommendation is summarized in the following table:

Activity	Budget estimate	House allowance	Committee recommendation
Educational assistance, facilities, and services.....	\$112,900,000	\$110,600,000	\$108,258,000
Welfare and guidance services.....	23,778,000	23,778,000	23,778,000
Relocation and adult vocational training.....	43,026,000	36,881,000	36,881,000
Maintaining law and order.....	4,741,000	4,741,000	4,741,000
Total.....	184,445,000	176,000,000	173,658,000

The committee proposes the following decreases in the budget request:

\$2,300,000—Kindergarten in public schools.

\$45,000—Four scholarship officers.

\$400,000—92 special personnel to improve curriculum program.

The committee directs that the remaining \$300,000 proposed for this purpose be utilized for additional dormitory personnel as indicated in the report of the House Committee on Appropriations.

\$400,000—A part of the increased amount (\$500,000) for development of curriculum materials. For the language arts area \$100,000 is allowed.

\$292,000—One half of the amount requested for establishment of a college work-study intern program. This will provide training for 32 teachers and should indicate the value of this new program. The committee will then question and evaluate the results at future appropriations hearings.

\$300,000—Development and establishment of Indian boards of education.

\$300,000—Initiation of a system for research and evaluation of Indian education program.

\$605,000—Increased community development program (contracting, \$400,000; advance community development thrust, \$150,000; training activities, \$55,000). The amount available in the current fiscal year is provided.

\$6,145,000—Relocation services.

The committee directs that no new housing be constructed unless sanitation facilities are available to serve that housing at completion of construction. The Bureau should exert every effort to assure that any major renovation or replacement of buildings have sanitation facilities available upon completion.

The committee also directs that within the appropriation for adult vocational training a sufficient amount be made available for operation of the vocational training center at the Lewis and Clark Job Corps Center, Fort Lincoln, Bismarck, N. Dak.

#### RESOURCES MANAGEMENT

Appropriation, 1969.....	\$52,940,000
Budget estimate, 1970.....	55,692,000
House allowance.....	55,692,000
Committee recommendation.....	55,242,000

For resources management the committee recommends an appropriation of \$55,242,000 which is \$450,000 less than the allowance of the House of Representatives and the budget estimate. The following table indicates the distribution of the committee's recommendations on the activities under this heading:

Activity	Budget estimate	House allowance	Committee recommendation
Forest and range lands.....	\$6,860,000	\$6,860,000	\$6,710,000
Fire suppression.....	140,000	140,000	140,000
Agricultural and industrial assistance.....	10,700,000	10,700,000	10,400,000
Soil and moisture conservation.....	5,975,000	5,975,000	5,975,000
Maintenance of roads.....	4,286,000	4,286,000	4,286,000
Development of Indian arts and crafts.....	579,000	579,000	579,000
Management of Indian trust property.....	7,774,000	7,774,000	7,774,000
Repair and maintenance of buildings and utilities.....	17,988,000	17,988,000	17,988,000
Operation, repair, and maintenance of Indian irrigation systems.....	1,390,000	1,390,000	1,390,000
Total.....	55,692,000	55,692,000	55,242,000

The committee recommends the following reductions in the budget estimates:

\$150,000—Part of the \$500,000 increase to ease national timber shortage.

\$300,000—Housing development. There will remain \$1,188,000 for this program.

The committee directs that the \$350,000 recommended to increase timber production from Indian reservations to ease the current timber shortage in the United States be so utilized that none of it contribute in any way to the harvest of logs or timber for export from the United States; and also directs that the Bureau of Indian Affairs establish appropriate requirements to prevent the use of any other appropriated funds to substitute for this appropriation so as to permit timber harvest for export.

#### CONSTRUCTION

Appropriation, 1969.....	\$25,471,000
Budget estimate, 1970.....	23,373,000
House allowance.....	25,373,000
Committee recommendation.....	26,264,000

The committee proposes an appropriation of \$26,264,000 for construction by the Bureau of Indian Affairs. This is \$891,000 more than the allowance of the House of Representatives and \$2,891,000 more than the budget estimate.

In addition to the projects included in the budget estimate, the committee proposes the following additional amounts for construction:

\$491,000—Kitchen and dining room facility, Wahpeton Indian School, North Dakota.

\$400,000—Jail, Crow Indian Reservation, Montana.

\$2,000,000—Navajo irrigation project, New Mexico.

The committee concurs with the directive of the House Committee on Appropriations that \$250,000 of previously appropriated funds be used to provide equipment for the Sisseton, S. Dak., high school. It is the committee's understanding that these funds will be obtained from appropriations heretofore provided for the Pierre, S. Dak., boarding school.

#### ROAD CONSTRUCTION

(Liquidation of contract authorization)

Appropriation, 1969.....	\$18,000,000
Budget estimate, 1970.....	20,000,000
House allowance.....	20,000,000
Committee recommendation.....	20,000,000

The committee recommends an appropriation of \$20 million to meet the contract liquidation obligations of the Bureau of Indian Affairs in fiscal year 1970. This is the same as the allowance of the House of Representatives and the budget estimate.

#### GENERAL ADMINISTRATIVE EXPENSES

Appropriation, 1969	\$5, 013, 000
Budget estimate, 1970	5, 113, 000
House allowance	5, 013, 000
Committee recommendation	5, 013, 000

The committee concurs with the House of Representatives in allowing \$5,013,000 for general administrative expenses of the Bureau of Indian Affairs for the coming fiscal year.

#### TRIBAL FUNDS

Appropriation, 1969	\$3, 000, 000
Budget estimate, 1970	3, 000, 000
House allowance	3, 000, 000
Committee recommendation	3, 000, 000

The committee recommends an appropriation of \$3 million, the same as the budget estimate and the House allowance, for tribal funds in fiscal year 1970.

The annual appropriations act for the Department of the Interior provides that judgments arising from claims before the Indian Claims Commission may not be expended without further authorization from Congress. In the past, many months have elapsed before the Bureau of Indian Affairs was prepared to submit the recommended legislation to Congress for the use of these moneys. The committee strongly recommends that the Commissioner of Indian Affairs—once he has learned that an award has been made—immediately instruct the appropriate division within the Bureau of Indian Affairs to consult with the Indian tribe about the use that would be made of the award and formulate an appropriate plan. Undue delay in the preparation and submittal of these plans has been costly to the Government in terms of interest payments and has denied tribes and their members funds to which they are entitled. Prompt planning by the Bureau will result in more rapid expenditure of these moneys to the benefit of tribes and individual Indians.

#### BUREAU OF OUTDOOR RECREATION

##### SALARIES AND EXPENSES

Appropriation, 1969	\$4, 315, 000
Budget estimate, 1970	4, 290, 000
House allowance	3, 500, 000
Committee recommendation	4, 090, 000

The committee recommends an appropriation of \$4,090,000 for salaries and expenses of the Bureau of Outdoor Recreation. This is \$590,000 more than the House allowance and \$200,000 less than the budget estimate.

The committee recommends that the proposed increases of \$100,000 each for outdoor recreation research and resource area studies not be approved.

Also, the committee recommends against approval of legislative language authorizing partial support by the Bureau of Outdoor Recreation of the Environmental Quality Council or the Citizens' Advisory Committee on Environmental Quality for which no funds were included in the budget proposal. These are agencies established by Executive Order 11472, May 29, 1969, and apparently are to be directed by the Office of Science and Technology. It is the committee's view that the total budget for the council and the committee should be funded by the Office of Science and Technology.

The Citizens' Advisory Committee on Environmental Quality is successor to the Citizens' Advisory Committee on Recreation and Natural Beauty for which the Bureau of Outdoor Recreation has supplied \$50,000 in each of the past 2 years, the remainder of the necessary expenses having been provided through private donations. Donations will also be available for the new committee. On this basis, there is no objection to the continued use of not to exceed \$50,000 in fiscal year 1970 for expenses of the Citizens' Advisory Committee on Environmental Quality pending action on authorizing legislation now in Congress.

Appropriation, 1969.....	\$99, 500, 000

Total, 1970	124,000,000	124,000,000	124,000,000

The committee proposes an appropriation equal to the budget estimate, and recommends equal amounts for assistance to States and for the Federal land acquisition program. This accords with this committee's practice of the last 2 years. Additions to the Federal program recommended by the committee restore part of the reductions made by the April 15, 1969, budget amendments and provide

funds instead of approving contract authorization with respect to some areas. In view of proposed appropriations in some instances in lieu of authorization to enter into purchase contracts during fiscal year 1970, for which funds would be provided in fiscal year 1971, the committee has not acted on the advance contract authorization proposal submitted with the budget estimate. The committee desires that the proposal be reexamined and resubmitted at a later date.

The following sums included in the fiscal year 1970 contract authorization proposal are recommended for appropriation in fiscal year 1970 as increases over the House allowances:

Biscayne Bay National Monument.....	\$850,000
Indiana Dunes National Lakeshore.....	3,000,000
Pictured Rocks National Lakeshore.....	1,177,100
Recreation lands, Toiyabe National Forest.....	2,200,000

The committee approves an appropriation of \$674,182 for acquisition of inholdings in national park areas authorized prior to fiscal year 1960. It is the desire of the committee that none of this amount be obligated prior to approval by the committee, and that this fund shall be used only to acquire land which may become available from a willing seller or on which adverse development is threatened or occurs after the beginning of fiscal year 1969.

The committee concurs with the denial by the House of Representatives of the request for \$1 million for advance planning and emergency acquisition.

The committee directs that funds provided in this bill for acquisition by the Forest Service of recreation land in the Spruce Knob-Seneca Rocks National Recreation Area, W. Va., shall not be available for such acquisition by means of a declaration of taking or by any condemnation proceeding, except with respect to those properties sold on the open market subsequent to September 18, 1969, or offered for sale on the open market.

The committee is still of the opinion, as stated in its report No. 233, May 16, 1967, that funds for State matching should be used to the greatest extent possible for land acquisition. However, as set forth in that report, the committee realizes that the amount of State assistance to be used for land purchases cannot be prescribed on a State-by-State basis but that the circumstances prevailing in individual States should be considered in approving State programs.

## OFFICE OF TERRITORIES

### ADMINISTRATION OF TERRITORIES

Appropriation, 1969.....	\$14,697,000
Budget estimate, 1970.....	14,921,400
House allowance.....	14,700,000
Committee recommendation.....	14,921,400

The committee recommends an appropriation of \$14,921,400 for Administration of Territories. This is the amount of the budget estimate and \$221,400 more than the allowance of the House of Representatives. The amount recommended will provide for the Washington staff of the Office of Territories and for the Governments of the Virgin Islands, Guam, and American Samoa. This amount will provide \$2,796,334 for rehabilitation loans and grants to Guam and \$6,534,245 for grants to American Samoa.

## TRUST TERRITORY OF THE PACIFIC ISLANDS

Appropriation, 1969	\$30,000,000
Budget estimate, 1970	41,612,000
House allowance	41,612,000
Committee recommendation	40,612,000

The committee recommends an appropriation of \$40,612,000, which is \$1,000,000 less than the budget estimate and the House allowance, for continuation of the development program of the Trust Territory of the Pacific Islands.

The reduction of \$1 million is offset by an unobligated balance of that amount carrying over from fiscal year 1969. Therefore, there will be no adverse effect on the fiscal year 1970 budget proposals.

The committee did not consider a proposed addition of \$8,380,000 to the budget for accelerated development of Micronesia pursuant to recommendations of a task force which has just returned from the Trust Territory. The budget amendment reached the Senate late on September 12, 1969. While the committee is sympathetic to the economic and political situation in Micronesia, it believes that an appropriation of this size covering over 20 different matters should be gone into fully in hearings before the committee, and suggests that this be considered in the next supplemental appropriations bill.

## GEOLOGICAL SURVEY

## SURVEYS, INVESTIGATIONS, AND RESEARCH

Appropriation, 1969	\$90,917,000
Budget estimate, 1970	95,628,000
House allowance	95,628,000
Committee recommendation	95,115,000

The Senate committee recommends an appropriation of \$95,115,000 for conduct of surveys, investigations, and research by the Geological Survey. This is an amount \$513,000 under the budget estimate and the allowance of the House of Representatives. The various allowances are indicated in the following table:

Activity	Budget estimate	House allowance	Committee recommendation
Topographic surveys and mapping	\$26,011,000	\$26,011,000	\$25,911,000
Geologic and mineral resources surveys and mapping	28,002,000	27,762,000	28,002,000

Water resources investigations	28,036,600	28,276,600	28,023,600
Soil and moisture conservation	217,000	217,000	217,000
Conservation of lands and minerals	6,907,000	6,907,000	6,207,000
Earth Resource Observation Satellite (EROS)	3,800,000	3,800,000	4,100,000
General administration	2,415,400	2,415,400	2,415,400
Total	95,628,000	95,628,000	95,115,000

The committee concurs with the budget estimates for artificial ground water recharge and for the heavy metals program, and recommends the following reductions:

\$100,000—Standard mapping in 25 major cities.

\$100,000—Initiation of a water-use data program.

\$700,000—Initiation of a program to evaluate exploratory geophysical data of unleased Outer Continental Shelf areas.

The committee proposes that the amount for the phreatophyte clearance project in the Gila River, Ariz., be increased by \$87,000. This amount is necessary in order to maintain the project on a standby basis. It will not permit any progress on the project but will prevent a loss of the work already accomplished.

Also, it is proposed that an additional \$300,000 be provided for the Earth Resources Observation Satellite program for initiation of a data reception center.

## BUREAU OF MINES

### CONSERVATION AND DEVELOPMENT OF MINERAL RESOURCES

Appropriation, 1969	\$38,001,000
Budget estimate, 1970	39,683,000
House allowance	39,000,000
Committee recommendation	38,536,000

The committee recommends an appropriation of \$38,536,000, which is \$1,147,000 under the budget estimate and \$464,000 under the amount allowed by the House of Representatives.

Distribution of the committee's recommendations is indicated in the following table:

Minerals	4,140,000	4,135,000	4,040,000
International activities	605,000	605,000	605,000
Total	39,683,000	39,000,000	38,536,000

The committee recommends that the increase of \$300,000 proposed for the synthetic fuels research program be denied. There will still remain \$1,915,000 for this program. Also, the committee recommends that only \$600,000 of the proposed \$1,200,000 increase for research on development of technology for mining methane laden coal deposits be approved. The amount then available will be \$993,000.

The committee concurs with the action of the House of Representatives in denying the request for \$190,000 for waste minerals research formerly under solid waste disposal appropriations.

The committee does not approve the \$200,000 requested to initiate study on petroleum energy supply problems; or the \$100,000 to begin a program of mine subsidence inventories and mine mapping.

The committee recommends an appropriation of \$243,000 for research at the Morgantown Coal Research Center on problems relating to transportation of coal in mines.

Total	14,782,000	14,782,000	14,332,000

The reductions proposed by the committee are \$130,000 for hiring and training of mine inspectors, and \$320,000 for research on dust production and control. These amounts were provided in the Second Supplemental Appropriations Act, 1969 in order to initiate these programs as early as possible.

The committee approves the amount of direct appropriation (\$314,000) for the economics subactivity of the "Marketing and technology" activity. However, it does not recommend an increase of \$400,000 in the use of Saltonstall-Kennedy funds to start studies on factors affecting fishermen as far as probability of catches is concerned.

The committee recommends that the following unbudgeted amounts be provided:

\$250,000—Replacement of Saltonstall-Kennedy funds for general research.

\$152,000—Research on production and marketing of catfish.

\$200,000—Research on fish migration over dams.

The committee recommends an appropriation of \$7,200,000 for the migratory bird conservation account, an amount of \$2,200,000 over the budget estimate and the House allowance. This appropriation, together with receipts available from Federal hunting stamps, will provide a total of \$12,200,000 for the acquisition of needed waterfowl habitats. This amount will make it possible to acquire 160,000 acres during the coming fiscal year, either in fee or through easement.

#### NATIONAL PARK SERVICE

##### MANAGEMENT AND PROTECTION

Appropriation, 1969	\$45, 740, 000
Budget estimate, 1970	49, 475, 000
House allowance	49, 000, 000
Committee recommendation	49, 100, 000

The following table compares the budget estimate, the House allowance, and the committee recommendation for each of the various activities:

Activity	Budget estimate	House allowance	Committee recommendation
Management of park and other areas	\$42, 544, 800	\$42, 069, 800	\$42, 224, 800
Forestry and fire control	2, 250, 000	2, 250, 000	2, 250, 000
Park and recreation programs	4, 680, 200	4, 680, 200	4, 625, 200
Total	49, 475, 000	49, 000, 000	49, 100, 000

Included in the committee's recommendation is the requested increase of \$2,800,000 to restore park operations to acceptable standards. This will eliminate periods during which park service facilities are closed.

The recommendation does not include \$125,000 additional proposed for the domestic travel program; the \$55,000 increase asked for landmarks and master planning; or the \$195,000 inadvertently proposed for Biscayne National Monument.

#### MAINTENANCE AND REHABILITATION OF PHYSICAL FACILITIES

Appropriation, 1969	\$32, 918, 000

The committee recommends an appropriation of \$40,037,000 for maintenance and rehabilitation of physical facilities of national park

areas. This is the \$37,000 more than the House allowance and \$115,000 less than the budget estimate.

The committee's proposal provides a \$3,500,000 budgeted increase to maintain park service facilities at acceptable standards. This is in addition to \$2,280,000 budgeted to meet partially a deficiency of funds needed to provide standards of maintenance at established and acceptable levels.

The committee's recommendation deletes from the budget estimate \$115,000 inadvertently included for Biscayne National Monument.

#### CONSTRUCTION

Appropriation, 1969.....	\$5, 471, 000
Budget estimate, 1970.....	7, 805, 000
House allowance.....	7, 600, 000
Committee recommendation.....	7, 700, 000

The committee recommends an appropriation of \$7,700,000 for construction activities of the National Park Service. This is \$100,000 more than the House allowance and \$105,000 less than the budget estimate.

Of the reduction below the budget estimate, \$80,000 is to be applied to the request for the Virgin Islands National Park, and \$25,000 is applicable to the request for Kenilworth demonstration landfill area, Anacostia Park, D.C.

It has been brought to the attention of the committee that the final phase of construction work on the American Museum of Immigration is ready to proceed. The National Park Service estimates that \$1,100,000 in Federal funds are required, and that \$165,000 are available in non-Federal donations, which, under authorizing legislation, may be accepted on a matching basis. The committee urges that funds for construction of the museum be included in a budget request as soon as the national fiscal situation will permit.

The committee has not included funds to construct a parking area and prepare a pier site for use on a tour service between Charleston, S.C., and the Fort Sumter National Monument. No request was contained in the budget estimate. It is urged that careful consideration be given by the administration to inclusion of this item in the next budget submission.

#### PARKWAY AND ROAD CONSTRUCTION

(Liquidation of contract authorization)

Appropriation, 1969.....	\$17, 000, 000
Budget estimate, 1970.....	24, 500, 000
House allowance.....	21, 500, 000
Committee recommendation.....	21, 500, 000

The committee concurs with the action of the House of Representatives in allowing \$21,500,000 for liquidation of obligations incurred under the provisions of the Federal-Aid Highway Act. This is \$3,000,000 less than the budget estimate.

Although the committee proposes appropriations of less than the budget estimate, the currently projected carryover balance is greater than was estimated when the budget was prepared. However, the actual expenditure requirement projected in the budget estimate has not changed, and to avoid the necessity of deferring construction

projects to a later date in this fiscal year, the committee approves the estimated expenditure request of \$26,000,000.

The committee directs that not to exceed \$100,000 of funds available for the Blue Ridge Parkway be used for establishing the center line of the extension of the Blue Ridge Parkway from the vicinity of Beach Gap, N.C., to the vicinity of Kennesaw Mountain National Battlefield Park north of Atlanta and Marietta, Ga.

Budget estimate, 1970	1, 604, 000
House allowance	1, 600, 000
Committee recommendation	1, 600, 000

The committee recommends an appropriation of \$1,600,000, the same amount as the allowance of the House of Representatives and \$4,000 less than the budget estimate. The amount proposed by the committee is to be distributed as follows:

Grants-in-aid	\$969, 000
National Register and administration of grants-in-aid program	153, 900
Advisory Council on Historic Preservation	71, 500
Historic sites survey	173, 800
Historic American buildings	170, 800
Administrative and technical support	61, 000

#### GENERAL ADMINISTRATIVE EXPENSES

Appropriation, 1969	\$3, 127, 000
Budget estimate, 1970	3, 127, 000
House allowance	3, 317, 000
Committee recommendation	3, 317, 000

The committee recommends an appropriation of \$3,317,000, the amount of the House allowance and \$190,000 more than the budget estimate for general administrative expenses of the National Park Service. The increase of \$190,000 is to establish a regional office in Seattle, Wash.

#### OFFICE OF SALINE WATER

##### SALINE WATER CONVERSION

Appropriation, 1969	\$24, 642, 835
Budget estimate, 1970	26, 000, 000
House allowance	25, 000, 000
Committee recommendation	25, 000, 000

The committee recommends an appropriation of \$25 million for saline water conversion. This is the same as the House allowance and \$1 million less than the budget estimate.

#### OFFICE OF WATER RESOURCES RESEARCH

##### SALARIES AND EXPENSES

Appropriation, 1969	\$11, 181, 000
Budget estimate, 1970	11, 229, 000
House allowance	11, 229, 000
Committee recommendation	11, 229, 000

The committee recommends an appropriation of \$11,229,000 for the Office of Water Resources Research. This is the same as the budget estimate and the House allowance. The amount recommended will provide \$5,100,000 for assistance to States for water resources research institutes; \$3 million for matching grants to State institutes; \$2 million for additional water resources research under title II of Public Law 88-379, as amended; \$506,000 for the Water Resources Scientific Information Center; and \$623,000 for administration.

Because of its appreciation of the importance of water to the continued development of our culture and civilization, indeed to our very survival, the committee has consistently supported funds for the Office of Water Resources Research. It believes, however, that one important phase of this research has been neglected; namely, the measurement of benefits resulting from water resource projects. To accomplish this purpose, in the formulation of future research programs consideration should be given to a study of existing water resource projects for irrigation, water supply, flood control, and multiple purposes, with a view to identifying the full range of benefits and effects on the economy of the project area. These benefits should then be compared with the projected benefits used to justify the project. After developing the available facts an assessment of the validity of the procedures used in project formulation and evaluation can be made, together with any appropriate recommendations for changes in the methodology used.

Water resource research is of limited value if the methodology of project formulation and project justification is so antiquated as to preclude the development of our available water resources.

In this connection, the committee believes such a research project would be of assistance in carrying out the recommendations of the special panel, convened by the Secretary of the Interior to advise on operations of the Office of Water Resources Research, that concerted attention be given to research on opportunities for Federal-State water resources development and management to advance the Nation's high priority social goals.

#### OFFICE OF THE SOLICITOR

##### SALARIES AND EXPENSES

Appropriation, 1969.....	\$5, 683, 000
Budget estimate, 1970.....	5, 625, 800
House allowance.....	5, 530, 000
Committee recommendation.....	5, 555, 800

The committee recommends an appropriation of \$5,555,800, an amount \$25,800 more than the House allowance and \$70,000 less than the budget estimate. The decrease approved by the committee applies to the amount proposed for additional positions and related costs.

#### OFFICE OF THE SECRETARY

##### SALARIES AND EXPENSES

Appropriation, 1969.....	\$8, 755, 000
Budget estimate, 1970.....	10, 187, 400
House allowance.....	9, 887, 000
Committee recommendation.....	9, 912, 700

The committee recommends an appropriation of \$9,912,700, which is \$224,700 less than the budget estimate and \$25,700 more than the amount passed by the House of Representatives.

The reductions recommended by the committee include:

\$75,400—program increase, Office of Program Analysis.

\$33,900—Office of Legislation.

\$43,400—Office of Marine Resources.

\$22,400—Office of Survey and Review.

\$1,200—Office of the Commissioner of Fish and Wildlife.

\$98,400—National Resources Library.

The amount recommended by the Committee for Administrative Management includes \$103,000 to provide an increase of five positions over the current personnel level for the Office of Budget. This office has been understaffed for several years while the activities of the Department and demands on the Budget Office are increasing.

The committee's denial of the requested increase of \$33,900 and two positions for the Office of Legislation is based on the recent transfer of this Office with its personnel to the Office of the Secretary from the Office of the Solicitor. It is the view of the committee that there should be a period of operation to determine by experience whether additional personnel actually are required.

#### SALARIES AND EXPENSES

(Special foreign currency program)

Appropriation, 1969	None
Budget estimate, 1970	\$25,000
House allowance	25,000
Committee recommendation	None

The committee recommends denial of the request for \$25,000 to purchase foreign currency for translation of technical and scientific material. It was testified that this activity is intended to supplement similar funds now provided to the Bureau of Commercial Fisheries in this bill and similar funds received from the National Science Foundation.

The committee's recommendation includes \$3,460,000 to prepare and sell an additional 640-million board feet of timber in a partial effort to ease the national lumber shortage.

Included in the committee's proposed appropriation are additions over the budget estimate of:

\$742,000—Water resource related development activities.

\$65,000—Correction of sanitation problem at Camp Horseshoe, Monongahela National Forest, W. Va.

\$200,000—Completion of the visitors' center, Sylvania Recreation Area, Ottawa National Forest, Mich.

The committee suggests that early consideration be given by the administration to budgeting funds for construction of the forest service headquarters building at Custer, S. Dak., for which plans have been prepared.

The committee is advised of a decision of the Department of Agriculture on December 31, 1968, to modify the use of surety bonds or deposit of Government securities as guarantees for payment for national forest timber once that timber has been removed from national forest land and is awaiting scaling. Deferred measurement-payment bond procedures were initiated in August 1957 and the number of deferred payments under the bond procedure has increased since 1962. In 1967, 78 purchasers out of a total of 2,289 purchasers took advantage of the deferred measurement procedure. These 78 purchasers produced from Forest Service timber 2 billion board feet out of a total of 10.5 billion board feet produced by all timber purchasers.

The committee directs that during fiscal year 1970 the Forest Service continue the practice which was effective until December 31, 1968, with respect to surety bond and Government security payment guarantees. It is the committee's intention not to renew this directive in fiscal year 1971, but expects it to be operational until July 1, 1970. Therefore, the committee urges that during fiscal year 1970 the Department of Agriculture and the forest products industry study

this matter with a view to formulating an appropriate legislative proposal resolving differences between the Forest Service and the forest products industry.

## STATE AND PRIVATE FORESTRY COOPERATION

Appropriation, 1969.....	\$19,957,000
Budget estimate, 1970.....	20,529,000
House allowance.....	22,529,000
Committee recommendation.....	22,729,000

The committee recommends an appropriation of \$22,729,000 for State and private forestry cooperation. This is \$200,000 more than the House allowance and \$2,200,000 more than the budget estimate. Of the addition to the budget \$2,000,000 is for cooperation in forest fire control as authorized by section 2 of the Clarke-McNary Act.

As a result of Hurricane Camille, almost 2 million acres of land in private ownership in Mississippi, Alabama, and Louisiana were damaged. On at least 900,000 acres losses were severe enough to make timber salvage operations feasible. However, to be effective, these operations must be completed within 60 to 90 days. The committee recommends an additional appropriation of \$200,000 for general forestry assistance for this purpose. In the event legislation now pending in Congress to authorize disaster relief for the areas damaged by Hurricane Camille includes assistance of this kind, consideration will be given to the appropriation of these funds.

## FOREST ROADS AND TRAILS

Committee recommendation.....	100,570,000

The committee recommends an appropriation of \$100,570,000, the amount of the House allowance and \$7 million less than the budget estimate for forest roads and trails. This amount, together with the sum to be available from forest receipts, will provide funds to meet contract obligations to accrue in the coming fiscal year under the Federal-Aid Highway Act.

## ACQUISITION OF LANDS FOR NATIONAL FORESTS, SPECIAL ACTS

The committee recommends an appropriation of \$80,000 for purchase with national forest receipts of lands in various national forests in Utah, Nevada, and California. Purchase of these lands will be made in order to minimize erosion and flood damage. The amount recommended by the committee is the same as the House allowance and the budget estimate.

## COOPERATIVE RANGE IMPROVEMENTS

(Indefinite appropriation of receipts)

Appropriation, 1969.....	\$700,000
Budget estimate, 1970.....	700,000
House allowance.....	700,000
Committee recommendation.....	700,000

The committee recommends \$700,000, the amount of the budget estimate and the House allowance, for cooperative range improvements. This money is to be derived from grazing fees received by the Treasury for each national forest under the provisions of the Granger-Thye Act.

#### ASSISTANCE TO STATES FOR TREE PLANTING

Appropriation, 1969	\$1, 000, 000
Budget estimate, 1970	1, 000, 000

The committee recommends \$1 million for assistance to States for tree planting under the authorization of title IV of the Agricultural Act of 1956. This is the same amount as the budget estimate and the House allowance. These funds are matched by States participating in the program, and, in addition to timber production, provide benefits to soil conservation, watershed protection, wildlife habitat, and recreation.

#### FEDERAL COAL MINE SAFETY BOARD OF REVIEW

##### SALARIES AND EXPENSES

The committee recommends an appropriation of \$148,000, the amount of the budget estimate and the House allowance, for salaries and expenses of the Federal Coal Mine Safety Board of Review.

#### COMMISSION OF FINE ARTS

##### SALARIES AND EXPENSES

Appropriation, 1969	\$115, 000

\$40,000—Registered nurse training.

\$350,000—Contract dental care.

#### INDIAN HEALTH FACILITIES

Appropriation, 1969.....	\$18,156,000

House allowance.....	19,000,000
Committee recommendation.....	19,345,000

The committee recommends an appropriation of \$19,345,000 for construction of hospitals and clinics, personnel quarters, alterations, and sanitation facilities. This is \$345,000 more than the House allowance and \$655,000 less than the budget estimate.

The committee recommendations include the following unbudgeted sums:

\$300,000 for sanitation facilities in California. This will provide a total of \$500,000 which the agency advises is its capability during fiscal year 1970.

\$70,000 for three units of employee quarters at Neah Bay, Wash.

The committee directs that \$1,025,000, which was appropriated in fiscal year 1967 for stabilization of the Anchorage hospital site, be used for construction of Indian health facilities proposed in the budget submission. The funds for the Anchorage stabilization have not been obligated; and testimony presented to the committee indicates that the hospital is to be replaced at a different location at some now undetermined future date. Reprogramming of this sum will permit all construction proposals in the budget submission, as well as the above additions, to be accomplished.

The committee directs that the Indian Health Service coordinate with the Bureau of Indian Affairs and the Department of Housing and Urban Development to assure that no new Indian housing will be constructed unless sanitation facilities are available for connection to the houses.

#### INDIAN CLAIMS COMMISSION

##### SALARIES AND EXPENSES

Appropriation, 1969.....	\$619,000
Budget estimate, 1970.....	800,000

The committee's recommendation includes \$50,000 for staffing of the Investigation Division of the Indian Claims Commission. It is the committee's view that proper use of this Division will be of great assistance in completing the Commission's work by April 10, 1972. The Committee urges that all claims be disposed of by that date.

#### NATIONAL CAPITAL PLANNING COMMISSION

##### SALARIES AND EXPENSES

Appropriation, 1969.....	\$1, 047, 000
Budget estimate, 1970.....	1, 248, 000
House allowance.....	922, 700
Committee recommendation.....	300, 000

The committee recommends an appropriation of \$300,000, which is \$622,700 under the House allowance and \$948,000 under the budget estimate. The recommended reduction includes the \$65,000 increase requested for consultant fees and \$113,000 in personnel and related funds.

The committee proposal includes a transfer to "Salaries and expenses" of \$770,000 of funds heretofore appropriated for land acquisition. These funds have been available and unobligated for at least 6 years. This amount plus the \$300,000 appropriation will provide \$1,070,000 for fiscal year 1970.

The committee recommendation will make available \$77,300 for the Temporary Commission on Pennsylvania Avenue. In hearings the Chairman of the Temporary Commission testified that in 2 years its unfinished business could be sufficiently completed to permit whatever remains to be turned over to another agency. The committee urges that this goal be reached.

The committee has approved the request of the National Capital Planning Commission that \$6,545 of the amount budgeted for "Printing and binding" be used for personnel pay in order to provide one full grade increase to each of five employees.

#### NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

##### SALARIES AND EXPENSES

Appropriation, 1969.....	\$14, 500, 000

Of the amount recommended by the committee, \$5,250,000 is for the National Endowment for the Arts under section 5(c) of the act, and \$2,000,000 is for grants to States under section 5(h) of the act; \$6,950,000 is for the National Endowment for the Humanities under section 7(c) of the act; and \$1,490,000 is for administrative expenses.

For matching grants for each of the endowments there is included in this recommendation \$1,000,000 for use under the requirements of section 11(b) of the act.

The reduction of \$300,000 below the House allowance for the National Endowment on the Humanities applies as follows: \$100,000 for the Bicentennial of the American Revolution under the public program, and \$200,000 for senior fellowships under the fellowship program. The committee also proposes denial of the request for \$10,000 in administrative funds for a study of using computerization in connection with National Endowment for the Humanities grant and application information.

Appropriation, 1969.....	\$100, 000
Budget estimate, 1970.....	300, 000
House allowance.....	None
Committee recommendation.....	None

The committee has not approved the request for funds for the National Council on Indian Opportunity. The committee is not convinced that the Council can be of greater help to the Indians of this country than the Bureau of Indian Affairs for which over two hundred eighty million dollars are recommended in this bill; and in addition about two hundred seventy-two million dollars will be provided by agencies of the Government other than the Department of the Interior.

Furthermore, testimony was presented to the committee to the effect that without authorizing legislation the Council is without authority to receive funds and employ personnel. Such legislative authority does not exist.
