Anthoceros endiviæfolius Mont. in *Voyag. au Pôle Sud, I, Bot. Crypt.* p. 211; G. L. et N. *Syn. Hep.* p. 590. Borja Bay.

6. LIST OF LICHENS FROM SOUTHERN PATAGONIA.

By J. W. ECKFELDT.

Cladonia rangiferina var. *Sylvatica* Hffm. Mayo Harbor.

Nephroma antarcticum Jacq.

Cora¹ pavonia Web. Island Harbor.

Pannaria subcinnata Nyl.

Sphærophoron australe Laur.

Stricta Freycinetii Del.

Stricta Urvillei Del. var. *Flavicans* Hook.

¹ It is technically a lichen, having gonidia interspersed among the hyphae, but it is usually classed among the *Fungi*. The genus stands next to *Thelephora* among the Hymenomycetes. The plant has nothing to do with *Padina pavonia*, though it resembles it in general appearance.—D. C. EATON.
