cerned, however, that this and similar facilities in the East may be

The managers direct that none of the position reductions apply to
classroom teachers.
The managers are in agreement that the reduction of $200,000 in
housing administrative expenses is in lieu of the House action to reduce
housing administrative expenses by $1,000,000 and make that amount
available for housing construction and renovation.
The managers are concerned about the effectiveness of the central
office of Indian Education within the Bureau of Indian Affairs and
agree that the Commissioner of Indian Affairs should be allowed to
make necessary changes to improve the operation and administration
of the Bureau's educational programs. However, the managers feel
that useful program monitoring, technical assistance, and research
activities may be carried out by a field component such as the Albu-
querque Indian Education Resource Center.
The managers are in agreement with the House Committee position
that $6,300,000 shall be available for operation and maintenance of the
Intermountain Indian school in fiscal year 1977, but direct the Bureau

The managers are in agreement that the additional $500,000 provided for law enforcement retrocession assistance shall include assistance to the Washoe Tribe, among others.

The managers agree that within available funds the Metlakatla Indian community resource management program, Alaska, will be continued at no less than the level for fiscal year 1976.

The managers agree with the directives in the Senate report regarding limitations on the fiscal year 1977 assessments for the Bureau's "3599" account. Any proposed program assessments or total account level in excess of the fiscal year 1976 amount shall be submitted as a supplemental or reprogramming request. The "3599" account is to be justified as a line item in the 1978 budget with no further assessments of programs.
