At the sole discretion of the Secretary concerned and to the extent the Secretary concerned considers appropriate and feasible, the document prepared under this paragraph must consider the environmental effects of the salvage timber sale and consider the effect, if any, on threatened or endangered species.

(B) USE OF EXISTING MATERIALS.—In lieu of preparing a new document under this paragraph, the Secretary concerned may use a document prepared pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) before the date of the enactment of this Act, a biological evaluation written before such date, or information collected for such a document or evaluation if the document,
evaluation, or information applies to the Federal lands covered by the proposed sale.

(C) SCOPE AND CONTENT.—The scope and content of the documentation and information prepared, considered, and relied on under this paragraph is at the sole discretion of the Secretary concerned.

(2) REPORTING REQUIREMENTS.—Not later than August 30, 1995, the Secretary concerned shall submit a report to the appropriate committees of Congress on the implementation of this section. The report shall be updated and resubmitted to the appropriate committees of Congress every six months thereafter until the completion of all salvage timber sales conducted under subsection (b). Each report shall contain the following:

(A) The volume of salvage timber sales sold and harvested, as of the date of the report, for each National Forest and each district of the Bureau of Land Management.

(B) The available salvage volume contained in each National Forest and each district of the Bureau of Land Management.

(C) A plan and schedule for an enhanced salvage timber sale program for fiscal years 1995, 1996, and 1997 using the authority provided by this section for salvage timber sales.

(D) A description of any needed resources and personnel, including personnel reassignments, required to conduct an enhanced salvage timber sale program through fiscal year 1997.

(E) A statement of the intentions of the Secretary concerned with respect to the salvage timber sale volume levels specified in the joint explanatory statement of managers accompanying the conference report on this Act.

(3) ADVANCEMENT OF SALES AUTHORIZED.—The Secretary concerned may begin salvage timber sales under subsection (b) intended for a subsequent fiscal year before the start of such fiscal year if the Secretary concerned determines that performance of such salvage timber sales will not interfere with salvage timber sales intended for a preceding fiscal year.

(4) DECISIONS.—The Secretary concerned shall design and select the specific salvage timber sales to be offered under subsection (b) on the basis of the analysis contained in the document or documents prepared pursuant to paragraph (1) to achieve, to the maximum extent feasible, a salvage timber sale volume level above the program level.

(5) SALE PREPARATION.—

(A) USE OF AVAILABLE AUTHORITIES.—The Secretary concerned shall make use of all available authority, including the employment of private contractors and the use of expedited fire contracting procedures, to prepare and advertise salvage timber sales under subsection (b).

(B) EXEMPTIONS.—The preparation, solicitation, and award of salvage timber sales under subsection (b) shall be exempt from—

(i) the requirements of the Competition in Contracting Act (41 U.S.C. 253 et seq.) and the implement-
ing regulations in the Federal Acquisition Regulation issued pursuant to section 25(c) of the Office of Federal Procurement Policy Act (41 U.S.C. 421(c)) and any departmental acquisition regulations; and

(ii) the notice and publication requirements in section 18 of such Act (41 U.S.C. 416) and (e) of the Small Business Act (15 U.S.C. 637(e)) and the implementing regulations in the Federal Acquisition Regulations and any departmental acquisition regulations.

(C) INCENTIVE PAYMENT RECIPIENTS; REPORT.—The provisions of section 3(d)(1) of the Federal Workforce Restructuring Act of 1994 (Public Law 103-226; 5 U.S.C. 5597 note) shall not apply to any former employee of the Secretary concerned who received a voluntary separation incentive payment authorized by such Act and accepts employment pursuant to this paragraph. The Director of the Office of Personnel Management and the Secretary concerned shall provide a summary report to the appropriate committees of Congress, the Committee on Government Reform and Oversight of the House of Representatives, and the Committee on Governmental Affairs of the Senate regarding the number of incentive payment recipients who were rehired, their terms of reemployment, their job classifications, and an explanation, in the judgment of the agencies involved of how such reemployment without repayment of the incentive payments received is consistent with the original waiver provisions of such Act. This report shall not be conducted in a manner that would delay the rehiring of any former employees under this paragraph, or affect the normal confidentiality of Federal employees.

(6) COST CONSIDERATIONS.—Salvage timber sales undertaken pursuant to this section shall not be precluded because the costs of such activities are likely to exceed the revenues derived from such activities.

(7) EFFECT OF SALVAGE SALES.—The Secretary concerned shall not substitute salvage timber sales conducted under subsection (b) for planned non-salvage timber sales.

(8) REFORESTATION OF SALVAGE TIMBER SALE PARCELS.—The Secretary concerned shall plan and implement reforestation of each parcel of land harvested under a salvage timber sale conducted under subsection (b) as expeditiously as possible after completion of the harvest on the parcel, but in no case later than any applicable restocking period required by law or regulation.

(9) EFFECT ON JUDICIAL DECISIONS.—The Secretary concerned may conduct salvage timber sales under subsection (b) notwithstanding any decision, restraining order, or injunction issued by a United States court before the date of the enactment of this section.

(d) DIRECTION TO COMPLETE TIMBER SALES ON LANDS COVERED BY OPTION 9.—Notwithstanding any other law (including a law under the authority of which any judicial order may be outstanding on or after the date of enactment of this Act), the Secretary concerned shall expeditiously prepare, offer, and award timber sale
contracts on Federal lands described in the “Record of Decision for Amendments to Forest Service and Bureau of Land Management Planning Documents Within the Range of the Northern Spotted Owl”, signed by the Secretary of the Interior and the Secretary of Agriculture on April 13, 1994. The Secretary concerned may conduct timber sales under this subsection notwithstanding any decision, restraining order, or injunction issued by a United States court before the date of the enactment of this section. The issuance of any regulation pursuant to section 4(d) of the Endangered Species Act of 1973 (16 U.S.C. 1533(d)) to ease or reduce restrictions on non-Federal lands within the range of the northern spotted owl shall be deemed to satisfy the requirements of section 102(2c) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2c)), given the analysis included in the Final Supplemental Impact Statement on the Management of the Habitat for Late Successional and Old Growth Forest Related Species Within the Range of the Northern Spotted Owl, prepared by the Secretary of Agriculture and the Secretary of the Interior in 1994, which is, or may be, incorporated by reference in the administrative record of any such regulation. The issuance of any such regulation pursuant to section 4(d) of the Endangered Species Act of 1973 (16 U.S.C. 1533(d)) shall not require the preparation of an environmental impact statement under section 102(2c) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2c)).

(e) ADMINISTRATIVE REVIEW.—Salvage timber sales conducted under subsection (b), timber sales conducted under subsection (d), and any decision of the Secretary concerned in connection with such sales, shall not be subject to administrative review.

(f) JUDICIAL REVIEW.—

(1) PLACE AND TIME OF FILING.—A salvage timber sale to be conducted under subsection (b), and a timber sale to be conducted under subsection (d), shall be subject to judicial review only in the United States district court for the district in which the affected Federal lands are located. Any challenge to such sale must be filed in such district court within 15 days after the date of initial advertisement of the challenged sale. The Secretary concerned may not agree to, and a court may not grant, a waiver of the requirements of this paragraph.

(2) EFFECT OF FILING ON AGENCY ACTION.—For 45 days after the date of the filing of a challenge to a salvage timber sale to be conducted under subsection (b) or a timber sale to be conducted under subsection (d), the Secretary concerned shall take no action to award the challenged sale.

(3) PROHIBITION ON RESTRAINING ORDERS, PRELIMINARY INJUNCTIONS, AND RELIEF PENDING REVIEW.—No restraining order, preliminary injunction, or injunction pending appeal shall be issued by any court of the United States with respect to any decision to prepare, advertise, offer, award, or operate a salvage timber sale pursuant to subsection (b) or any decision to prepare, advertise, offer, award, or operate a timber sale pursuant to subsection (d). Section 705 of title 5, United States Code, shall not apply to any challenge to such a sale.

(4) STANDARD OF REVIEW.—The courts shall have authority to enjoin permanently, order modification of, or void an individual salvage timber sale if it is determined by a review of the
record that the decision to prepare, advertise, offer, award, or operate such sale was arbitrary and capricious or otherwise not in accordance with applicable law (other than those laws specified in subsection (i)).

(5) TIME FOR DECISION.—Civil actions filed under this subsection shall be assigned for hearing at the earliest possible date. The court shall render its final decision relative to any challenge within 45 days from the date such challenge is brought, unless the court determines that a longer period of time is required to satisfy the requirement of the United States Constitution. In order to reach a decision within 45 days, the district court may assign all or part of any such case or cases to one or more Special Masters, for prompt review and recommendations to the court.

(6) PROCEDURES.—Notwithstanding any other provision of law, the court may set rules governing the procedures of any proceeding brought under this subsection which set page limits on briefs and time limits on filing briefs and motions and other actions which are shorter than the limits specified in the Federal rules of civil or appellate procedure.

(7) APPEAL.—Any appeal from the final decision of a district court in an action brought pursuant to this subsection shall be filed not later than 30 days after the date of decision.

(g) EXCLUSION OF CERTAIN FEDERAL LANDS.—

(1) EXCLUSION.—The Secretary concerned may not select, authorize, or undertake any salvage timber sale under subsection (b) with respect to lands described in paragraph (2).

(2) DESCRIPTION OF EXCLUDED LANDS.—The lands referred to in paragraph (1) are as follows:

(A) Any area on Federal lands included in the National Wilderness Preservation System.

(B) Any roadless area on Federal lands designated by Congress for wilderness study in Colorado or Montana.

(C) Any roadless area on Federal lands recommended by the Forest Service or Bureau of Land Management for wilderness designation in its most recent land management plan in effect as of the date of the enactment of this Act.

(D) Any area on Federal lands on which timber harvesting for any purpose is prohibited by statute.

(h) RULEMAKING.—The Secretary concerned is not required to issue formal rules under section 553 of title 5, United States Code, to implement this section or carry out the authorities provided by this section.

(i) EFFECT ON OTHER LAWS.—The documents and procedures required by this section for the preparation, advertisement, offering, awarding, and operation of any salvage timber sale subject to subsection (b) and any timber sale under subsection (d) shall be deemed to satisfy the requirements of all applicable Federal laws (and regulations implementing such laws) including but not limited to the following:

(7) Other Federal environmental and natural resource laws.

(j) EXPIRATION DATE.—The authority provided by subsections (b) and (d) shall expire on September 30, 1997. The terms and conditions of this section shall continue in effect with respect to salvage timber sale contracts offered under subsection (b) and timber sale contracts offered under subsection (d) until the completion of performance of the contracts.

(k) AWARD AND RELEASE OF PREVIOUSLY OFFERED AND UNAWARDED TIMBER SALE CONTRACTS.—

(1) AWARD AND RELEASE REQUIRED.—Notwithstanding any other provision of law, within 30 days after the date of the enactment of this Act, the Secretary concerned shall act to award, release, and permit to be completed in fiscal years 1995 and 1996, with no change in originally advertised terms, volumes, and bid prices, all timber sale contracts offered or awarded before that date in any unit of the National Forest System or district of the Bureau of Land Management subject to section 318 of Public Law 101-121 (103 Stat. 745). The return of the bid bond of the high bidder shall not alter the responsibility of the Secretary concerned to comply with this paragraph.

(2) THREATENED OR ENDANGERED BIRD SPECIES.—No sale unit shall be released or completed under this subsection if any threatened or endangered bird species is known to be nesting within the acreage that is the subject of the sale unit.

(3) ALTERNATIVE OFFER IN CASE OF DELAY.—If for any reason a sale cannot be released and completed under the terms of this subsection within 45 days after the date of the enactment of this Act, the Secretary concerned shall provide the purchaser an equal volume of timber, of like kind and value, which shall be subject to the terms of the original contract and shall not count against current allowable sale quantities.

(l) EFFECT ON PLANS, POLICIES, AND ACTIVITIES.—Compliance with this section shall not require or permit any revisions, amendment, consultation, supplementation, or other administrative action in or for any land management plan, standard, guideline, policy, regional guide, or multi-forest plan because of implementation or impacts, site-specific or cumulative, of activities authorized or required by this section. No project decision shall be required to be halted or changed by such documents or guidance, implementation, or impacts.

SEC. 2006. (a) In General.—None of the funds made available in this Act may be used to provide any direct benefit or assistance to any individual in the United States when it is made known to the Federal entity or official to which the funds are made available that—

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 1158) making emergency supplemental appropriations for additional disaster assistance and making rescissions for the fiscal year ending September 30, 1995, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effects of the action agreed upon by the managers and recommended in the accompanying conference report.

Report language included by the House in the report accompanying H.R. 1158 (H. Rept. 104-70) and the report accompanying H.R. 1159 (H. Rept. 104-71) which is not changed by the report of the Senate (S. Rept. 104-17), and Senate Report language which is not changed by the conference are approved by the committee of conference. The statement of the managers while repeating some report language for emphasis, is not intended to negate the language referred to above unless expressly provided herein.

ENACTING CLAUSE

The conference agreement contains an amended enacting clause that reflects the inclusion of emergency supplemental appropriations for recovery operations in response to the tragedy that occurred at Oklahoma City and for anti-terrorism initiatives. Neither the House nor Senate bills included these purposes in their respective enacting clauses.

TITLE I—SUPPLEMENTALS AND RESCISSIONS

CHAPTER I

DEPARTMENT OF AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

AGRICULTURAL RESEARCH SERVICE

The conference agreement transfers $2,218,000 back to the Agricultural Research Service as proposed by the Senate. These funds were appropriated to the Agricultural Research Service and subsequently transferred to a new account, "Nutrition Initiatives," established by the Department. The Food and Nutrition Service can continue to fund "Nutrition Initiatives" from funds made available to the Service, such as those for Dietary Guidelines. The House bill contained no similar provision.
The conference agreement provides a supplemental appropriation of $9,082,000 for the Food Safety and Inspection Service as proposed by the Senate instead of $9,048,000 as proposed by the House.

**AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE SALARIES AND EXPENSES**

The conference agreement provides a supplemental appropriation of $5,000,000 for Agricultural Stabilization and Conservation Service, Salaries and Expenses instead of $10,000,000 as proposed by the House. The Senate bill contained no similar provision.

**COMMODITY CREDIT CORPORATION FUND**

**FOOD FOR PROGRESS**

The conference agreement includes language raising the limit from $30,000,000 to $50,000,000 on transport and other noncommodity funds available from the Commodity Credit Corporation to facilitate donations of commodities under the Food for Progress Program. Both the House and the Senate bills contained similar provisions.

**RURAL ELECTRIFICATION ADMINISTRATION**

**RURAL ELECTRIFICATION AND TELEPHONE LOANS PROGRAM ACCOUNT**

The conference agreement includes language to eliminate the interest cap on the Treasury rate telephone loan program as proposed by the Senate. The House bill contained no similar provision.

**FOOD AND NUTRITION SERVICE**

**COMMODITY SUPPLEMENTAL FOOD PROGRAM**

The conference agreement includes language allowing 20 percent of funds carried over from fiscal year 1994 to be available for administrative costs of the Commodity Supplemental Food Program as proposed by the Senate. The House bill contained no similar provision.

**GENERAL PROVISIONS**

**MARKET PROMOTION PROGRAM**

The conference agreement includes language permitting the operation of the Market Promotion Program at a level not to exceed $110,000,000 as proposed by the Senate. The House bill contained no similar provision.

**DELINEATION OF WETLANDS**

The conference agreement deletes Senate language prohibiting the Department from making wetland delineations through December 31, 1995, unless the owner or operator of the land requests such a determination. On April 6, 1995, the Secretary of Agri-
culture announced that the Department would make wetland delin-
etations and certifications only on request of the landowner until
Congress completes action on the 1995 Farm Bill and the National
Academy of Sciences completes work on a wetlands study. The con-
ferees strongly support this position and direct the Secretary to en-
force his policy until the 1995 Farm Bill is enacted into law.

OFFICE OF THE SECRETARY

The conference agreement rescinds $31,000 from the Office of
the Secretary as proposed by both the House and the Senate. The
conference agreement also includes language limiting the use of the
Secretary’s transfer authority without prior notification to the
Committees on Appropriations as proposed by both the House and
the Senate.

ALTERNATIVE AGRICULTURAL RESEARCH AND COMMERCIALIZATION

The conference agreement rescinds $1,500,000 from Alter-
native Agricultural Research and Commercialization instead of
$3,000,000 as proposed by the House. The Senate bill contained no
similar provision.

AGRICULTURAL RESEARCH SERVICE

BUILDINGS AND FACILITIES

The conference agreement rescinds $1,400,000 from Agricul-
tural Research Service, Buildings and Facilities instead of
$12,678,000 as proposed by the House and $1,500,000 as proposed
by the Senate. The amount rescinded is to be taken from unobli-
gated balances of the U.S. Salinity Laboratory in Riverside, Califor-
nia, and other miscellaneous projects. The House bill proposed re-
scinding $12,678,000 from amounts appropriated for the National
Swine Research Facility in Ames, Iowa. The conference agreement
provides that the $12,678,000 for the National Swine Research Fa-
cility be provided as a grant to Iowa State University to construct
that facility at Ames, Iowa. The conferees direct the Agricultural
Research Service to convey ownership to Iowa State University.
The conferees are aware of the interest and need for important
swine research; however, financial constraints require difficult
choices. The conferees expect that any future costs of operation as-
associated with that facility be provided by sources other than the
federal government. Iowa State University should work in collabo-
ration with the industry to cover research and additional construc-
tion costs or to offset these costs through the consolidation of fed-
eral research activities.

COOPERATIVE STATE RESEARCH SERVICE

The conference agreement rescinds $1,051,000 from the Coop-
erative State Research Service as proposed by the House instead
of $958,000 as proposed by the Senate. The conference agreement
rescinds $524,000 from the Oregon/Massachusetts/Pennsylvania
biotechnology project; $434,000 from the American Indian Initiative
of the Arid Lands Development Fund; and $93,000 from the Potato
Tariff and Trade Association. The conference agreement also makes
a technical correction to Public Law 103–330 for the 1890 capacity building grants program as proposed by both the House and the Senate.

BUILDINGS AND FACILITIES

The conference agreement rescinds $2,184,000 from Cooperative State Research Service, Buildings and Facilities instead of $20,994,000 as proposed by the House. The Senate bill contained no similar provision. The conference agreement rescinds funds from projects at Minot State University, North Dakota—$280,000; Cornell University, New York—$143,000; and the University of Idaho—$1,761,000. The conferees note that continuation of feasibility studies and/or planning or construction funds in fiscal year 1995 do not signal potential for continued funding. The conferees expect a thorough review and significant changes to the criteria for future consideration of any funding. Universities should be aware that potential future restrictions on subcommittee allocations make future funding in doubt.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

BUILDINGS AND FACILITIES

The conference agreement rescinds $2,000,000 from Animal and Plant Health Inspection Service, Buildings and Facilities instead of $6,000,000 as proposed by the Senate. The amount rescinded is to be taken from unobligated balances. The House bill contained no similar provision.

RURAL DEVELOPMENT ADMINISTRATION AND FARMERS HOME ADMINISTRATION

RURAL HOUSING INSURANCE FUND PROGRAM ACCOUNT

The conference agreement rescinds $15,500,000 from the section 515 Rural Rental Housing Program instead of $115,500,000 as proposed by the House. The Senate bill contained no similar provision. The conferees agree that available funds should be used to rehabilitate projects in need of repair.

LOCAL TECHNICAL ASSISTANCE AND PLANNING GRANTS

The conference agreement rescinds $1,750,000 from Local Technical Assistance and Planning Grants as proposed by both the House and the Senate.

ALCOHOL FUELS CREDIT GUARANTEE PROGRAM ACCOUNT

The conference agreement rescinds $9,000,000 from the Alcohol Fuels Credit Guarantee Program Account as proposed by both the House and the Senate.

RURAL ELECTRIFICATION ADMINISTRATION

RURAL ELECTRIFICATION AND TELEPHONE LOANS PROGRAM ACCOUNT

The conference agreement rescinds $1,500,000 from the Rural Electrification and Telephone Loans Program Account for 5 percent
telephone loans as proposed by the Senate instead of $3,000,000 as proposed by the House.

**FOOD AND NUTRITION SERVICE**

**SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)**

The conference agreement rescinds $20,000,000 from the Special Supplemental Food Program for Women, Infants, and Children (WIC) instead of $25,000,000 as proposed by the House. The Senate bill contained no similar provision.

The conference agreement also deletes Senate language allowing $10,000,000 of WIC administrative funds to be available for grants to state agencies to promote immunization. The conferees are aware of studies, such as the Chicago WIC Study, that show a direct link between increased immunizations among low-income children and immunization screening at WIC clinics. In fiscal year 1994, the average monthly participation of infants and children under the age of five in the WIC program was five million. Providing immunization screening and incentives for this population would result in future health care savings to both states and the federal government. The conferees direct the Department to provide a report to the House and Senate authorizing and Appropriations Committees that outlines legislative changes needed to allow state WIC agencies to provide incentives to participants to increase immunization activities by July 31, 1995. The conferees also expect the Department to provide assistance to state agencies interested in obtaining Center for Disease Control and Prevention grants for immunization support activities.

**FOREIGN AGRICULTURAL SERVICE**

**PUBLIC LAW 480 PROGRAM ACCOUNT**

**TITLE III—COMMODITY GRANTS**

The conference agreement rescinds $40,000,000 from the Public Law 480 title III Program Account. The House bill proposed a rescission of $20,000,000 from title III—Commodity Grants. The Senate bill proposed rescissions of $43,865,000 from title I—Credit Sales, $6,135,000 from Ocean Freight Differential, and $92,500,000 from title III—Commodity Grants.

**CHAPTER II**

**DEPARTMENTS OF COMMERCE, JUSTICE, AND STATE, THE JUDICIARY, AND RELATED AGENCIES**

**RELATED AGENCIES**

**NATIONAL BANKRUPTCY REVIEW COMMISSION**

(TRANSFER OF FUNDS)

The conference agreement includes the transfer of $1,000,000 from the Department of Justice Working Capital Fund to the National Bankruptcy Review Commission. The Senate bill included a
transfer of $1,500,000 from the Working Capital Fund for the National Bankruptcy Review Commission, as proposed by the Administration. The House bill did not provide funds to the National Bankruptcy Review Commission, but rescinded $1,500,000 in unobligated balances from the Working Capital Fund.

Given the obvious constraints on the Committees' resources in fiscal year 1996, the conferees urge the Commission to explore ways to accomplish its mission within the amounts provided.

**UNITED STATES INFORMATION AGENCY**

**INTERNATIONAL BROADCASTING OPERATIONS**

The conference agreement includes a supplemental appropriation of $7,290,000, the amount requested by the Administration, to be provided to Radio Free Europe/Radio Liberty (RFE/RL) to make up for currency exchange losses, as proposed by the House. The Senate proposed a rescission of $27,710,000 from International Broadcasting Operations, which includes RFE/RL and the Voice of America (VOA).

International broadcasting programs are in the middle of a major downsizing and reorganization mandated by the 1994 authorization bill, the United States International Broadcasting Act of 1994. As it is being implemented, the total savings of the reorganization over the four-year period 1994–1997 will exceed $400 million. The rescission proposed by the Senate would make it impossible to complete that action, and, in fact, in the words of the Director of the United States Information Agency, "will throw both VOA and RFE/RL into a complete state of chaos for the remainder of FY 1995, with ramifications extending well beyond."

RFE/RL has already been severely impacted by the fall of the dollar against the German mark, totaling potentially $24 million, which is the reason for the supplemental recommendation by the conferees, to at least partially offset the costs of the exchange losses.

In lieu of the Senate passed rescission of International Broadcasting funds, the conferees have agreed to rescind $28,000,000 from other USIA broadcasting and exchange programs, which are set forth under the rescissions portion of this chapter.

**DEPARTMENT OF JUSTICE**

**OFFICE OF JUSTICE PROGRAMS**

**DRUG COURTS**

The conference agreement includes a rescission of $22,100,000 from the Drug Courts program, instead of $27,750,000 as proposed by the House and $17,100,000 as proposed by the Senate.

**OUNCE OF PREVENTION COUNCIL**

The conference agreement includes language requested by the Administration which allows funds appropriated for grants by the Ounce of Prevention Council in Public Law 103–317 to also be available for administrative expenses of the Council. The language also allows the Council to accept, hold, administer and use gifts,
both real and personal, for the purpose of facilitating its work. This language was included in both the House and Senate versions of the bill.

The conference agreement does not include the rescission of $1,000,000 from this account as proposed by the Senate.

GENERAL ADMINISTRATION

WORKING CAPITAL FUND

The conference agreement includes a rescission totaling $5,500,000 from unobligated balances available in the Working Capital Fund, instead of $1,500,000 as proposed by the House and $5,000,000 as proposed by the Senate. The conferees have also agreed to the transfer of $1,000,000 from the Working Capital Fund for necessary expenses of the National Bankruptcy Review Commission, instead of $1,500,000 as proposed by the Senate.

LEGAL ACTIVITIES

ASSETS FORFEITURE FUND

The conference agreement includes a rescission of $5,000,000 from the Assets Forfeiture Fund as proposed by the Senate. The House bill contained no provision on this matter.

IMMIGRATION AND NATURALIZATION SERVICE

SALARIES AND EXPENSES

The conference agreement includes a rescission of $1,000,000 from the Immigration and Naturalization Service as proposed by both the House and the Senate.

FEDERAL PRISON SYSTEM

SALARIES AND EXPENSES

The conference agreement includes a rescission of $28,037,000 as proposed by the Administration, not included in either the House or Senate bills, to partially offset the anti-terrorism supplemental included in a separate title. These funds represent balances the Bureau of Prisons has indicated are not necessary and will expire at the end of this fiscal year due to adjustments in the schedule of new facility activations.

DEPARTMENT OF COMMERCE

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

The conference agreement includes a rescission of $17,000,000 from the National Institute of Standards and Technology (NIST) internal research account, instead of $16,500,000 as proposed by the House, and $19,500,000 as proposed by the Senate. The conferees expect NIST and the Department of Commerce to submit a reprogramming notification, under the Committee's standard reprogramming procedures, indicating the proposed distribution of
this reduction by research category in accordance with the guidance given in the House and Senate reports accompanying this bill.

**INDUSTRIAL TECHNOLOGY SERVICES**

The conference agreement includes a rescission of $16,300,000 from the NIST Industrial Technology Services account for Manufacturing Extension Partnership (MEP) Program and the Quality Program, instead of $27,100,000 as proposed by the House and $3,100,000 as proposed by the Senate.

**CONSTRUCTION OF RESEARCH FACILITIES**

The conference agreement includes a rescission of $30,000,000 from unobligated balances available in the NIST Construction account as proposed by the Senate. The House bill included no provision on this matter.

**NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION**

**OPERATIONS, RESEARCH AND FACILITIES**

The conference agreement includes a rescission of $24,200,000 from the National Oceanic and Atmospheric Administration (NOAA), instead of $37,000,000 as proposed by the House and $23,100,000 as proposed by the Senate. The distribution of this rescission is as follows:

- National Undersea Research Program (NURP) $3,500,000
- Coastal Ocean Program $3,000,000
- High Performance Computing $1,000,000
- Climate and Global Change $14,000,000
- Aircraft Services (Doppler Radar) $2,700,000

The conferees expect NOAA to submit a notification under the Committees' standard reprogramming procedures, informing the Committees of the proposed distribution by activity of the rescissions provided for the NURP and Coastal Ocean programs.

The conferees direct the National Marine and Fisheries Service (NMFS) to immediately convene a team of experts to scientifically peer review and examine all the information available on its March 14, 1995, Sea Turtle, Shrimp Fishery Emergency Response Plan (ERP) and the NMFS and NOAA Sea Turtle Conservation Restrictions Applicable to Shrimp Trawling Activities announced in the May 3, 1995 Federal Register. The conferees direct that individuals with appropriate scientific expertise nominated by the shrimp fishing industry and the conservation community be part of the peer process and team.

The conferees also direct NMFS to immediately seek detailed recommendations and analysis from affected shrimp industry members and the conservation community on its March 14, 1995 restrictions, including a detailed assessment of the economic impact on the affected shrimp fishing industry. The Assistant Administrator shall convene immediate meetings with representatives of such groups to review and develop such recommendations.

The conferees direct NMFS to work with the shrimp fishing industry to revise its March 14, 1995 Emergency Response Plan and its May 3, 1995 restrictions to include the results of the scientific peer review and the alternatives for lessening the economic impact
on the shrimp fishing industry. These alternatives may include ex­
emptions to using turtle excluder devices (TEDs) in smaller try nets. NMFS is directed to publish for public comment and input only the revised plans for the May 14, 1995 Emergency Response Plan and the May 3, 1995 restrictions by June 30, 1995. The con­
ferees direct NMFS and the Department of Commerce not to imple­
ment any shrimp fishery closures, that may result from the March 14, 1995 ERP, prior to September 30, 1995. 
Due to the urgency of this situation, the conferees intend that the scientific peer review process and the meetings between NMFS and the affected industry and conservation groups will be exempt from Federal Advisory Committee Act (FACA) requirements.

CONSTRUCTION

The conference agreement rescinds $15,000,000 from the NOAA Construction account, as proposed by the Senate. The House bill contained no provision on this matter. The conferees intend that this rescission be distributed as follows: $9,000,000 from unobligated balances for the replacement of the Tiburon laboratory and $6,000,000 from unobligated balances designated for above standard costs at the Boulder laboratory.

GOES SATELLITE CONTINGENCY FUND

The conferees have included a rescission of $2,500,000 from the remaining balances in the GOES Contingency Fund, as proposed by the Senate. The House bill contained no provision on this matter.

TECHNOLOGY ADMINISTRATION

UNDER SECRETARY FOR TECHNOLOGY/OFFICE OF TECHNOLOGY POLICY

The conference agreement includes a rescission of $1,750,000 from the Under Secretary for Technology/Office of Technology Policy account, instead of $3,300,000 as proposed by the House. The Senate bill includes no provision on this matter.

NATIONAL TECHNICAL INFORMATION SERVICE

NTIS REVOLVING FUND

The conference agreement includes a rescission of $1,000,000 from the NTIS Revolving Fund, including appropriated amounts and offsetting collections received into the Fund. The House bill re­sinded $4,000,000 of appropriated amounts from this account, and the Senate bill a rescission of $7,600,000 of appropriated amounts.

NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION

INFORMATION INFRASTRUCTURE

The conference agreement includes a rescission of $4,000,000 from the National Telecommunications and Information Adminis­tration (NTIA) Information Infrastructure Grant program. The House bill included a rescission of $30,000,000 from this account. The Senate bill included no provision on this matter. An additional
rescission of $15,000,000 from this account was included in the conference agreement on H.R. 889 (Public Law 104–6).

**ECONOMIC DEVELOPMENT ADMINISTRATION**

**ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS**

The conference agreement includes a rescission totaling $30,250,000 from the Economic Development Assistance Programs account under the Economic Development Administration. This amount includes $5,250,000 in remaining balances from prior year emergency appropriations for Hurricanes Andrew and Iniki and the Midwest floods, and $25,000,000 from amounts provided in fiscal year 1995 that were set aside for the proposed Competitive Communities program, which was never approved by Congress. The $25,000,000 rescission should be distributed proportionately to the categories which served as the source of the original reprogramming proposal—Defense Conversion and traditional Title IX grants. The conferees note that more than $2,000,000 in unobligated balances related to the emergency supplements for Hurricanes Andrew and Iniki and the Midwest floods will remain available for projects currently in the funding pipeline.

The House bill included a rescission totaling $45,084,000 under this heading, of which $37,584,000 was from prior year emergency appropriations and $7,500,000 was from the other prior year projects. Most of these funds have since been obligated. The Senate rescissions totaled $47,384,000, of which $7,384,000 was from prior year emergency appropriations and $40,000,000 was from funds made available to EDA for fiscal year 1995.

Although EDA's proposed Competitive Communities program was denied by the Congress, the conferees are disturbed by recent actions that appear to pursue the Competitive Communities proposal. The conferees note that the cornerstone of the Competitive Communities proposal was to provide single grant-loans to private industries. The conferees also note that the Congress specially rejected this policy change when the Competitive Communities proposal was denied. The conferees understand that while single purpose grant-loans have been awarded by EDA in the past, these types of grants had been the exception rather than the rule: between 1982 and 1992, only 18 single grant-loans were awarded. In the last two years, however, 8 single grant-loans have been awarded. The conferees believe that this dramatic increase in the number of single grant-loans awarded represent a major policy change away from the traditional Title IX programs—a change of which the Appropriations Committees were not apprised. The conferees strongly disagree with this policy shift, and expect EDA to continue to give highest priority to the traditional and more flexible Title IX programs: multi-purpose revolving loan funds, infrastructure and technical assistance. The conferees strongly encourage EDA to use remaining unobligated Title IX funds for traditional Title IX programs.
THE JUDICIARY

UNITED STATES COURT OF INTERNATIONAL TRADE

SALARIES AND EXPENSES

The conference agreement includes a rescission of $1,000,000 from amounts provided in fiscal year 1995 for the U.S. Court of International Trade, as proposed by the Senate. The House bill contained no provision on this matter. This amount has been identified as excess by the Court, and will have no impact on its operations.

COURTS OF APPEALS, DISTRICT COURTS, AND OTHER JUDICIAL SERVICES

DEFENDER SERVICES

The conference agreement includes a rescission totaling $9,500,000 from the Judiciary's Defender Services account. The House bill included a rescission of $1,100,000 from this account, and the Senate bill rescinded $4,100,000. The conferees have agreed to the Senate level, plus the additional $5,400,000 proposed by the Judiciary as an offset to the anti-terrorism supplemental included in a separate title in this bill.

FEES OF JURORS AND COMMISSIONERS

The conference agreement includes a rescission of $5,000,000 from the Judiciary's Fees of Jurors and Commissioners account. This rescission was not included in either the House or Senate version of the bill, but was proposed by the Judiciary as an offset to the anti-terrorism supplemental request which is addressed in another title in this bill.

RELATED AGENCIES

SMALL BUSINESS ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes no rescission under this heading. Both the House and Senate versions of the bill included a rescission of $15,000,000 from the Small Business Administration's tree planting program, but this rescission was included in the conference agreement on H.R. 889 (Public Law 104-6) and is no longer available.

BUSINESS LOANS PROGRAM ACCOUNT

The conference agreement includes a rescission of $6,000,000 from the Small Business Administration's Business Loans Program Account, instead of $15,000,000 as proposed by the Senate. The House bill contained no provision on this matter.

The conferees intend that the rescission of $6,000,000 be applied as follows: $4,000,000 from the subsidy amounts available under the Microloan program, and $2,000,000 from other loan programs referenced in the Senate report.
The conference agreement also includes language clarifying the availability of funds provided to the SBA in fiscal year 1994 and fiscal year 1995 for the National Center for Genome Resources.

**LEGAL SERVICES CORPORATION**

**PAYMENT TO THE LEGAL SERVICES CORPORATION**

The conference agreement includes language not in either bill that delineates reductions to the Legal Services Corporation included in a prior rescission of funds and provides no further rescission. The House bill included a rescission of $5,849,000. The Senate bill contained no provision on this matter. The conferees note that a $15,000,000 rescission to the Corporation was included in Public Law 104–6.

The conference agreement includes language, not in either bill, allocating the reductions contained in Public Law 104–6. The conferees believe that any reductions should be taken out of lower priority programs, in order to minimize the impact on the basic field programs which provide direct legal assistance of individuals and are the central mission of the Corporation. The reductions delineated are based on: (1) reductions of the unanticipated carryover balances by program; (2) reductions of the supplemental and specialized delivery programs, which are in addition to the basic field programs, to their Fiscal Year 1994 levels; (3) reductions of support programs, which do not provide direct legal assistance to individuals, to their Fiscal Year 1993 levels; and (4) reductions of Corporation management and grant administration to the Fiscal Year 1994 levels.

**DEPARTMENT OF STATE**

**ADMINISTRATION OF FOREIGN AFFAIRS**

**DIPLOMATIC AND CONSULAR PROGRAMS**

The conference agreement includes a rescission of $2,250,000 from Diplomatic and Consular Programs of the Department of State. The House bill included a rescission of $2,000,000, and the Senate bill included a rescission of $2,500,000.

**ACQUISITION AND MAINTENANCE OF BUILDINGS ABROAD**

The conference agreement includes a rescission of $30,000,000 from unobligated balances in the State Department’s overseas construction and maintenance account, as proposed by the Senate. The House Bill included a rescission of $23,000,000.

**INTERNATIONAL ORGANIZATIONS AND CONFERENCES**

**CONTRIBUTIONS FOR INTERNATIONAL PEACEKEEPING ACTIVITIES**

The conference agreement includes a rescission of $14,617,000 from the International Peacekeeping Activities account, which funds the payment of assessed costs of United Nations peacekeeping operations, as proposed by both the House and the Senate. Of this amount, $1,216,000 is rescinded from the amount previously appropriated for the United Nations Operation in Somalia and
$13,401,000 is rescinded from the amount previously provided for
the United Nation's Mission for the Referendum in Western Sa-
haba.

RELATED AGENCIES

ARMS CONTROL AND DISARMAMENT AGENCY

ARMS CONTROL AND DISARMAMENT ACTIVITIES

The conference agreement includes a rescission of $4,000,000,
of which $2,500,000 is rescinded from the amount appropriated for
the implementation of the Chemical Weapons Conventions, and
$1,500,000 is rescinded as a general administrative reduction. The
House proposed a rescission of $3,000,000, of which $2,000,000 was
from the Chemical Weapons Convention, and $1,000,000 was a
general administrative reduction. The Senate proposed a rescission
of $4,000,000, of which $2,000,000 was from the Chemical Weapons
Convention, and $2,000,000 was a general administrative reduc-
tion.

BOARD FOR INTERNATIONAL BROADCASTING

ISRAEL RELAY STATION

The conference agreement includes a rescission of $2,000,000
from unobligated funds available for a canceled project, the Israel
Relay station, as proposed by both the House and the Senate.

UNITED STATES INFORMATION AGENCY

EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS

The conference agreement includes a rescission of $5,000,000
from the United States Information Agency’s exchange programs,
as proposed by both the House and the Senate. The conferees direct
USIA to submit its proposal to carry out this rescission through the
normal reprogramming procedures prior to implementing specific
program reductions.

RADIO CONSTRUCTION

The conference agreement includes a rescission of $16,000,000
from unobligated balances in USIA’s Radio Construction account.
Both the House and the Senate had proposed a rescission of
$6,000,000.

RADIO FREE ASIA

The conference agreement includes a rescission of $5,000,000
of the $10,000,000 appropriated in fiscal year 1995 for Radio Free
Asia, instead of $6,000,000, as proposed by the Senate. The House
bill had no similar provision.

None of the fiscal year 1995 appropriation for Radio Free Asia
has been spent or obligated. Under the authorizing legislation, the
United States International Broadcasting Act of 1994, no funds can
be spent on Radio Free Asia until a new Broadcasting Board of
Governors is in place and has submitted a detailed plan within 90
days for the establishment and operation of Radio Free Asia. As of
this point, the full Board has not been nominated, let alone confirmed, and obviously, no plan has been submitted. Since the fiscal year is more than half over, and the likelihood of the full appropriation being obligated this year is remote, the conferees have agreed to rescind one-half of the appropriation for this fiscal year.

CHAPTER III
ENERGY AND WATER DEVELOPMENT
DEPARTMENT OF DEFENSE—CIVIL
DEPARTMENT OF THE ARMY
CORPS OF ENGINEERS—CIVIL
GENERAL INVESTIGATIONS

The conference agreement includes a rescission of $10,000,000 as proposed by the House and the Senate.

CONSTRUCTION, GENERAL

The conference agreement includes a rescission of $60,000,000 as proposed by the Senate instead of $40,000,000 as proposed by the House.

Columbia River Juvenile Fish Mitigation, Oregon and Washington.—The conferees reiterate language regarding the juvenile fish mitigation program and surface collection bypass systems contained in Senate Report 103-291 and agreed to in the statement of the managers accompanying Public Law 103-316, the Energy and Water Development Appropriations Act, 1995. The conferees expect the Corps of Engineers to move forward aggressively to test and install project modifications that improve the effectiveness and efficiency of bypass systems. One modification, identified by both Federal and private engineers, is baffled or slotted spillway gates. Experience from non-Federal Columbia River dams indicates that slotted spillway gates could improve fish passage efficiency and reduce dissolved gas saturation levels, as well as the cost of the fish spill program. A larger percentage of juvenile fish could be passed through the project using significantly less water than would occur with existing, unmodified spillways.

The conferees direct the Corps to begin work immediately to design, construct and test spillway gate modifications at The Dalles and on one other project by next spring. The Corps is encouraged to use private sector engineering firms and any other available means to accelerate the work, as necessary, to assist in completing this effort early in 1996. The Corps shall report to the Committees on Appropriations on the progress of this effort by August 15, 1995.

DEPARTMENT OF THE INTERIOR
BUREAU OF RECLAMATION
OPERATION AND MAINTENANCE

The conference agreement includes a rescission of $10,000,000 as proposed by the House and the Senate.
DEPARTMENT OF ENERGY

GENERAL APPLICATION OF RESCSSIONS

The conferees direct that the reductions be applied as broadly as possible without targeting, disproportionately affecting or terminating any single project or activity, including congressional directives and priorities. Reductions should be taken against low priority, noncritical activities to the greatest extent possible, and the Department should use this as an opportunity to review and reduce uncosted balances remaining in many program areas.

ENERGY SUPPLY, RESEARCH AND DEVELOPMENT ACTIVITIES

The conference agreement rescinds $74,000,000 for Energy Supply, Research and Development Activities instead of $116,500,000 as proposed by the House and $71,500,000 as proposed by the Senate. Differences between the House and Senate recommendations are explained below.

Solar and Renewable Energy.—The conferees agree to rescind $30,000,000 instead of $35,000,000 as proposed by the House and $25,000,000 as proposed by the Senate. The conferees direct that renewable energy programs that are being cost-shared with U.S. industry for research and development and commercialization collaboratives and technology validation be preserved, to the extent possible, so that program downsizing will not adversely affect the industry co-investors in U.S. programs. Also, reductions should be applied, to the extent possible, to increases provided in fiscal year 1995 over the fiscal year 1994 levels including the global climate change programs in order to preserve needed research priorities.

Environmental, Safety and Health.—The conference agreement includes a rescission of $6,000,000 as proposed by the House and the Senate.

Biological and Environmental Research.—The conferees agree to rescind $10,000,000 instead of $15,000,000 as proposed by the House and $5,000,000 as proposed by the Senate.

Fusion Energy.—The conferees agree to rescind $7,500,000 instead of $15,000,000 as proposed by the Senate. The House had proposed no rescission for this program. The conferees direct that the fiscal year 1995 rescission be taken evenly from every component of the program, domestic and international, and that no program or project should be held harmless.

Basic Energy Sciences.—The conference agreement rescinds $5,000,000 as proposed by the House and the Senate.

Advanced Neutron Source.—The conference agreement rescinds $7,500,000 as proposed by the House and the Senate.

Energy Oversight, Research Analysis & University Support.—The conference agreement rescinds $8,000,000 as proposed by the House and the Senate.

Environmental Restoration and Waste Management (Nondefense).—The conferees have proposed no rescission for this program as proposed by the Senate instead of $45,000,000 as proposed by the House.
ATOMIC ENERGY DEFENSE ACTIVITIES

DEFENSE ENVIRONMENTAL RESTORATION AND WASTE MANAGEMENT

The conferees have proposed no rescission for this program instead of $28,000,000 as proposed by the House and $13,000,000 as proposed by the Senate.

MATERIALS SUPPORT AND OTHER DEFENSE PROGRAMS

The conference agreement rescinds $15,000,000 from the security investigation program as proposed by the Senate. The House had proposed no rescission for this program.

DEPARTMENTAL ADMINISTRATION

The conference agreement includes a rescission of $20,000,000 as proposed by the House and the Senate.

POWER MARKETING ADMINISTRATIONS

CONSTRUCTION, REHABILITATION, OPERATION AND MAINTENANCE

WESTERN AREA POWER ADMINISTRATION

The conference agreement rescinds $30,000,000 as proposed by the Senate. The House had proposed no rescission for this program.

The conference agreement includes a rescission of $10,000,000 as proposed by the House and the Senate.

TENNESSEE VALLEY AUTHORITY

The conference agreement includes a rescission of $5,000,000 as proposed by the House and the Senate.

DEBT RESTRUCTURING

DEBT RELIEF FOR JORDAN

The conference agreement provides new budget authority of $275,000,000 for "Debt relief for Jordan", the same as the budget request. The House had proposed an appropriation of $50,000,000 for this purpose to cover debt owed by Jordan for direct loans issued by the Department of Defense, the Agency for International Development, and the Export-Import Bank. The Senate amendment would have provided new budget authority of $275,000,000 to cover debt owed by Jordan for direct loans issued by these agencies as well as by the Department of Agriculture's P.L. 480 program.
and by the Commodity Credit Corporation. However, the Senate amendment would have limited obligations in fiscal year 1995 to $50,000,000. The conference agreement does not contain any such limitation on obligations.

The House bill contained rescissions totaling $191,575,000 from specific appropriations accounts. The conference agreement does not identify specific program cuts for the research, inventory and monitoring, and information transfer activities.

The managers recognize that rescissions at this time of year have significant impacts on agency programs, facilities, and personnel. Future budgets are unlikely to allow for restoration of the funds proposed for rescission, thus, lower priority areas should be the focus of fiscal year 1995 adjustments. The agency should try to avoid facility closures in this fiscal year. But, in preparing for action on the fiscal year 1996 budget, the National Biological Service should review all programs and facilities in light of the need for possible future reductions, closures, or consolidations.

**URBAN PARK AND RECREATION FUND**

The conference agreement rescinds $7,480,000 from the Urban Park and Recreation Fund as proposed by both the House and the Senate. This will eliminate the program in fiscal year 1995.

While the program’s goal of providing incentives for cities to improve their recreational opportunities is of value, the managers believe that, given the size of the federal deficit, programs of this nature are appropriately left to State and local governments.

**LAND ACQUISITION AND STATE ASSISTANCE**

The conference agreement rescinds $13,634,000 from Land Acquisition and State Assistance, instead of $16,509,000 as proposed by the House and $9,983,000 as proposed by the Senate. The managers agree to the following rescissions:

The managers expect that the funds remaining for the gasification product improvement facility in West Virginia and the mild gasification facility in Illinois, after necessary closeout costs, will be made available for high priority, in-house gasification research activities.

The managers have included a rescission of $2,000,000 which is an offset for funds which are available from unobligated prior year balances in the gas research ($720,000) and coal research ($1,280,000) programs. These reductions are taken to replace partially the fiscal year 1995 funds that were recommended for rescission by both the House and the Senate but which have been obligated by the Department since the original rescission recommendations were made.

NAVAL PETROLEUM AND OIL SHALE RESERVES

The conference agreement does not include a general reduction in transportation programs, as proposed by the Senate, but has replaced that rescission with reductions of $500,000 for alternative fuels activities, excluding Federal fleet purchases, and $500,000 for electric and hybrid vehicles.

The managers agree that the Department of Energy should ensure that all the remaining, available funds for Federal fleet vehicle purchases of alternatively fueled vehicles should be used for a well-balanced program which includes both original equipment manufactured vehicles and converted vehicles. The Department should concentrate its limited resources on getting these vehicles widely spread across all non-Defense Federal agencies. The long-term viability of the program depends on participation by all Federal agencies. The Department of Defense funds its own program for alternatively fueled vehicle purchases. The funds currently available to the Department of Energy should concentrate on the other agencies. None of the funds available from fiscal year 1995 or from prior year appropriations should be used for the purchase of alternatively fueled vehicles for the Department of Defense. Fur-
ther, all Federal agencies should be encouraged to budget for future alternatively fueled vehicle purchases in their own budget requests.

The managers expect that the rescission for the weatherization assistance program should not interfere with the adoption of the new distribution formula. The new formula should be applied and this rescission should then be assessed against each State in the same proportion as the funds were distributed under the new formula.

The managers agree that the many new programs funded in fiscal year 1995 and proposed for funding in fiscal year 1996, through the climate change action plan, should not be protected at the expense of successful, ongoing programs.

The managers have restored $19.4 million of the funds proposed for rescission by the House to begin construction of the National Museum of the American Indian Cultural Resources Center in Suitland, Maryland. This will bring the total federal contribution to date for this project to $27.8 million including all planning and design costs.

While the managers are sensitive of the need to provide for the adequate storage and conservation needs of the National Museum
of the American Indian collection, the managers are concerned about the total operating and construction costs associated with the Custom House facility in New York, the Cultural Resource Center in Maryland and the proposed Mall Museum. The managers encourage the Smithsonian to seek non-Federal funding to assist with the construction of the Suitland facility and further urge the Smithsonian to work with the House and Senate Appropriations Committees to reduce the scope and cost of the resource center.

The managers also direct the Smithsonian to develop additional cost scenarios for the proposed Mall facility, including downsizing the museum building and decreasing the amount of Federal appropriations.

The managers urge the Smithsonian to name an independent board to review the Institution's complete collections. The Smithsonian currently owns or leases 40 storage facilities to house the 138 million objects in its collections. Providing adequate and appropriate space for these collections emerges repeatedly as the most critical collections management priority. Because of the severe lack of adequate space, objects are stored in potentially dangerous conditions. In light of current budget constraints the managers believe it is prudent for the Smithsonian to begin to evaluate all its collections with a view towards possible downsizing of the collections as one means to address the storage problems.

Of the $375,000 currently available for planning of the National Air and Space Museum Extension, $275,000 is rescinded. The managers continue to have serious concerns regarding the federal government's ultimate responsibility for costs associated with the Smithsonian's involvement in this project. The managers understand that construction costs for this project will be financed through a combination of state and local funding, including bonds and an interest-fee loan. Prior to appropriating additional planning dollars for this project, the managers require more detailed information and binding commitments regarding the revised scope of the project and how it will be financed. Documentation of estimated operating costs will be necessary in order for the managers to make an informed decision on future funding. It is the managers' intention that no federal funds will be appropriated for the construction of this facility.

Section 501. The conference agreement includes language proposed by the Senate in Section 501 of the Senate bill which prohibits the Department of the Interior from expending funds to search for the Alabama sturgeon in the Alabama River, the Cahaba
River, the Tombigbee River or the Tennessee-Tombigbee Waterway in Alabama or Mississippi. The House bill included no similar provision.

Section 502. The conference agreement includes language proposed by the Senate in Section 503 of the Senate bill which prohibits the Forest Service from expending funds to implement Habitat Conservation Areas (HCAs) in the Tongass NF, AK for unlisted species except in certain cases for goshawks, and requires Congressional notification of timber sales which may be delayed or canceled due to Goshawk HCAs. The House bill included no similar provision.

Section 503. The conference agreement includes language proposed by the Senate in Section 2011 of the Senate bill which deems sufficient certain environmental impact statements or subsistence evaluations prepared for a timber sale to one party if the Forest Service sells the timber to an alternate buyer. The House bill included no similar provision.

Section 504. The conference agreement modifies language proposed by the Senate in Section 2013 of the Senate bill which requires each Forest Service unit to establish and adhere to a schedule for completion of NEPA analyses for grazing permits and further addresses expired permits for grazing on Forest Service lands. The House bill included no similar provision.

The conference agreement deletes language proposed by the Senate in Section 502 of the Senate bill regarding access to Back Bay NWR, VA. The House bill included no similar provision. The managers understand that an agreement has been reached between the Fish and Wildlife Service and the State of Virginia regarding access to the refuge and False Cape State Park.

The conference agreement deletes language proposed by the Senate in Section 504 of the Senate bill relating to grazing permits. Section 504 of the conference agreement includes alternative language on grazing permits which modifies Section 2013 of the Senate bill. The House bill included no similar provision.

The conferees encourage the Labor Department to consider closing Job Corps centers with persistently poor performance to offset increased costs necessary in subsequent years to complete opening of new centers.

The conferees note that $184,788,000 of the 1995 summer youth funds were provided as an add-on in the fiscal 1995 bill, over the amount originally provided in fiscal year 1994. These supplemental funds are available July 1, 1995. Given the uncertainty over fiscal year 1996 appropriations due to extremely tight budget constraints, the Labor Department should not discourage project sponsors from reserving these funds for the 1996 summer program.

The conference agreement for JTPA pilots and demonstrations includes $1,400,000 for the Microenterprise Grants program and $2,500,000 for the American Samoan employment and training program. For microenterprise grants, the agreement is sufficient to fund continuation costs. For the American Samoan program, priority should be given to continuing activities of a State agency with a proven track record involving American Samoan job training.

COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

Rescinds $14,440,000 as proposed in both the House and Senate bills.

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

Rescinds $20,000,000 for one-stop career centers as proposed by the Senate, instead of $12,000,000 as proposed by the House, and reduces the limitation on trust funds by $67,700,000 as proposed by the Senate instead of $47,700,000 as proposed by the House.

EMPLOYMENT STANDARDS ADMINISTRATION

SALARIES AND EXPENSES

Deletes rescission of $2,487,000 proposed by the House. The Senate included no rescission for this account.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

Deletes rescission of $19,572,000 proposed by the House. The Senate included no rescission for this account. The conference agreement includes bill language in section 602 under General Provisions related to the proposed ergonomics standards.

BUREAU OF LABOR STATISTICS

SALARIES AND EXPENSES

Rescinds $700,000 instead of $1,100,000 as proposed by the Senate. The House included no rescission for this account.
GENERAL PROVISION

Inserts a general provision (section 602) that prohibits the Occupational Safety and Health Administration from promulgating or issuing any proposed or final standard or guideline with respect to ergonomic protection but permits the agency to conduct any peer-reviewed risk assessment activity regarding ergonomics.

Deletes a Department of Labor general provision proposed by the Senate that would have rescinded $8,975,000 throughout the Department for compliance assistance and enforcement activities. The House included no similar provision.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH RESOURCES AND SERVICES ADMINISTRATION

HEALTH RESOURCES AND SERVICES

The conferees intend that the agency may use $3,000,000 of funds appropriated for the National Health Service Corps for State offices of rural health. The conferees intend that $3,000,000 of the funds rescinded come from field placements rather than recruitment activities.

The conferees intend that $300,000 of the Native Hawaiian health care funding shall be made available for the administrative grant and that of the funds remaining, priority shall be given to the health systems network and scholarship program in that order.

The conferees are agreed that the $1,500,000 in remaining funding for the Pacific Basin initiative is to be used only for the continuation costs of students currently receiving assistance in the medical officer training program. Upon completion of the training of the current cohort of students, the training program will be terminated. The conferees are agreed that the portion of the program which supports projects to build capacity and improve health services and systems is terminated.

The conferees encourage the agency to use the remaining funds in the rural health outreach program consistent with the priorities indicated in the 1995 appropriations bill reports.
The conferees intend that rural telemedicine initiatives continue to be given high priority in the rural research program.

The conference agreement includes a rescission of $60,000,000 in fiscal year 1995 and prior year funds for intramural research construction projects that are no longer anticipated to be built. The House proposed a $50,000,000 rescission and the Senate proposed a $79,289,000 rescission.

ASSISTANT SECRETARY FOR HEALTH

The rescission for the Byrd Honors Scholarship program is less than proposed by the House and Senate bills because funds were obligated prior to the meeting of the conference. The conference agreement deletes the supplemental appropriation of $28,197,000 for Coast Guard operating expenses proposed by the House. These funds were intended to cover the incremental costs associated with Haitian and Cuban migrant interdiction activities during 1994. Funding of $28,297,000 for these expenses was included in the Emergency Supplemental Appropriations and Rescissions Act for the Department of Defense (Public Law 104–6).
The conference agreement rescinds $4,300,000 in Coast Guard operating expenses instead of $6,440,000 as proposed by the House and $3,700,000 as proposed by the Senate. A comparison of the House and Senate proposals and the conference agreement follows:

HH-65 LTS-101 engine replacement.—The conferees agree not to rescind funds for this project due to its impact on Coast Guard operational missions such as search and rescue. However, the conferees note that these funds were provided in fiscal year 1991 for proof of concept evaluation of possible re-engining options for the HH-65 helicopter, due to severe reliability problems with the engine. That effort was later terminated when design changes improved the engine’s performance. Since that time, the Coast Guard developed plans to use these funds for general purpose improve-
ments to the existing LTS–101 engine gearbox. The conferees believe using funds for this new project constituted a significant change in the scope of a project, requiring Congressional approval through the formal reprogramming process.

_Night vision goggles reprogramming._—The conferees approve the reprogramming of funds from the cockpit voice and flight data recorders program to the night vision goggles program, as proposed by the Senate. These funds are no longer needed for the original program, and will be used instead to accelerate installation of night vision capability in Coast Guard aircraft. This capability is particularly important for search and rescue, drug interdiction, and maritime law enforcement missions.

**ENVIRONMENTAL COMPLIANCE AND RESTORATION**

The conference agreement rescinds $2,500,000 in “Environmental compliance and restoration” instead of $3,500,000 as proposed by the House and $400,000 as proposed by the Senate. According to the Coast Guard, as of March 31, 1995, this appropriation had a total unobligated balance of $20,198,103. The conference agreement rescinds 12.4 percent of this amount.

**FEDERAL AVIATION ADMINISTRATION**

**OPERATIONS**

The conference agreement rescinds $1,000,000 in operating expenses of the Federal Aviation Administration as proposed by the Senate. The House bill contained no similar rescission. The conference agreement deletes bill language proposed by the Senate repealing the set-aside in the Department of Transportation and Related Agencies Appropriations Act, 1995 for permanent change of station moves for air traffic controllers.

**FACILITIES AND EQUIPMENT**

_(AIRPORT AND AIRWAY TRUST FUND)_

The conference agreement rescinds $24,850,000 from “Facilities and equipment” instead of $69,825,000 as proposed by the House and $31,850,000 as proposed by the Senate. An additional rescission of $35,000,000 from this appropriation was contained in the recently-enacted Emergency Supplemental Appropriations and Rescissions Act for the Department of Defense (Public Law 104–6). This rescission was included in the House version of H.R. 1158, which accounts for most of the difference between the House and Senate bills. RESEARCH, ENGINEERING, AND DEVELOPMENT

(AIRPORT AND AIRWAY TRUST FUND)

The conference agreement rescinds $7,500,000 in unobligated balances from the FAA research, engineering, and development appropriation, as proposed by both the House and the Senate. The conferees agree that none of the reduction is to be allocated to human factors research or safety research.

Grants-In-Aid for Airports

(Airport and Airway Trust Fund)

The conference agreement rescinds $2,094,000,000 in unused contract authority for grants-in-aid for airports, instead of $2,000,000,000 proposed by the Senate. The House bill contained no similar rescission. The agreement includes the rescission proposed by the Senate and, in addition, the $94,000,000 proposed for rescission in a Presidential message transmitted to the Congress on May 2, 1995. The entire amount of the rescission is above the obligation limitation placed on this appropriation by the Department of Transportation and Related Agencies Appropriations Act, 1995 and is therefore not available for obligation during fiscal year 1995.

FEDERAL HIGHWAY ADMINISTRATION

Limitation on General Operating Expenses

The fiscal year 1995 obligation limitation for general operating expenses for the Federal Highway Administration is reduced by $54,550,000, instead of $45,950,000 is proposed by the Senate and $42,500,000 as proposed by the House. The conference agreement includes the following program rescissions:

The conferees agree that the joint program officer should coordinate all ITS program activities and should have the flexibility to manage each of these reductions, notwithstanding where the funding may have been originally earmarked.

Federal-Aid Highways

(Limitation on Obligations)

(Highway Trust Fund)

The conference agreement includes the rescission of $132,190,000 in contract authority for the federal-aid highways program instead of $70,140,000 as proposed by the House and $123,590,000 as proposed by the Senate. The conference agreement provides for the rescission of the following programs:

</tbody>
</table>

The conferees have agreed to rescind $50,000,000 from the congestion pricing pilot program as proposed by the Senate. The House bill contained no similar rescission.

The conferees agree not to rescind $139,948,000 in contract authority for highway demonstration projects provided in Public Laws 97-424 and 100-17, as proposed by the Senate. The House bill contained no similar rescissions.

Ellis Island Bridge.—The conferees agree to make available for other parkways and park highways under the Federal Lands program the $15,000,000 set aside for the Ellis Island Bridge as proposed by the House.

Federal-Aid Highways

(Highway Trust Fund)

The conference agreement deletes the Senate provision to rescind $690,074 of contract authority from Public Law 100-17. The House bill contained no similar rescission.

Emergency Relief Program

(Highway Trust Fund)

The conferees agree to rescind $100,000,000 in emergency relief, instead of $50,000,000 as proposed by the Senate and $351,000,000 as proposed by the House.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

Highway Traffic Safety Grants

(Highway Trust Fund)

The conference agreement deletes the Senate provision to rescind $20,000,000 in contract authority from the highway traffic
safety grants program. The House bill contained no similar rescission.

**FEDERAL RAILROAD ADMINISTRATION**

**Office of the Administrator**

The conferees agree to include language permitting the Office of the Administrator to transfer recoveries received from section 511 loan guarantees. Both the House and the Senate bills included this provision.

**Northeast Corridor Improvement Program**

The conference agreement includes a rescission of $9,707,000 from the Northeast Corridor Improvement Program. The House and Senate bills contained identical provisions to rescind $7,768,000. The Department of Transportation identified an additional $1,939,000 of unobligated balances that are being held as a contingency for litigation in connection with station work done in the 1980s and not expected to be required in fiscal year 1995.

**National Magnetic Levitation Prototype Development Program**

*(Highway Trust Fund)*

The conference agreement rescinds $250,000,000 in contract authority for the national magnetic levitation (maglev) prototype development program as proposed by the Senate. The House bill contained no similar rescission. The maglev funds are not available for obligation due to annual obligation limitations.

**FEDERAL TRANSIT ADMINISTRATION**

**Transit Planning and Research**

The conferees agree to rescind $7,000,000 for transit planning and research, instead of $8,800,000 as proposed by the House. The Senate bill contained no similar rescission. The conferees direct the Federal Transit Administration to reduce expenditures for unnecessary and lower priority programs, such as "Coming and Going", other transit education programs and the transit ambassadors program, and to limit expenditures for "livable communities" to no more than $350,000 in fiscal year 1995.

The conferees reiterate their support for the important, ongoing planning and research activities included in the fiscal year 1995 Department of Transportation and Related Agencies Appropriations Act and direct the Federal Transit Administration to make available immediately the following amounts:

- **Advanced transportation systems and electric vehicle technology**: $2,500,000
- **Inertial navigation technology for transit vehicles**: $500,000
- **Research on large circuit breakers and switch gear**: $750,000
- **Fuel cell transit bus program**: $2,500,000
- **Team transit**: $500,000
- **Criteria and cost-benefit studies**: $200,000

The conferees direct the Federal Transit Administration to allocate $1,000,000 of the funds made available for the Advanced Transportation Systems and Electric Vehicle Technology Program.
to the Advanced Lead-Acid Battery Consortium (ALABC). This is
the second and final phase of funding for the consortium and will
enable the ALABC to place prototype, advanced valve-regulated
lead-acid batteries in electric bus facilities for inservice testing and
demonstration.

Discretionary Grants

(Limitation on Obligations)

(Highway Trust Fund)

The conference agreement includes rescissions of $33,911,500
in unobligated balances from the Federal Transit Administration's
discretionary grants, instead of $67,293,000 as proposed by the
Senate and $131,651,000 as proposed by the House.

The conferees have agreed not to rescind any new start or bus
funds that were made available in fiscal year 1993. Public Law
102–388 provided that such discretionary transit funds shall be
available for obligation through the end of fiscal year 1995. The
conferees also agreed not to rescind unallocated bus and bus facili­
ties funds made available in fiscal year 1995.

The conference agreement rescinds, without prejudice, the fol­
lowing amounts made available before fiscal year 1993:

Section 3 new starts:

Fiscal year 1991:
  Cleveland Dual Hub ..................................................  $2,230,000

Fiscal year 1992:

  Seattle-Tacoma CR .....................................................  $1,620,000
  Detroit LRT ....................................................................  $4,890,000

  Total, section 3 new starts ........................................... $32,630,000

Section 3 buses and bus facilities:

Fiscal year 1992:
  Eureka Springs, AR .......................................................  $31,500
  San Francisco, CA ........................................................  $1,250,000

  Total, section 3 buses and bus facilities ................................ $1,281,500

  Grand total, section 3 ................................................. $33,911,500

Mass Transit Capital Fund

(Liquidation of Contract Authorization)

(Highway Trust Fund)

The conference agreement includes an appropriation of
$350,000,000 in liquidating cash for mass transit capital programs.
The Federal Transit Administration has identified a $350,000,000
shortfall in this account due to an increased pace of obligation and
outlays this year and insufficient reestimates of liquidating cash in
prior years. This appropriation does not score as new discretionary budget authority under the Budget Enforcement Act of 1990.

**General Provisions**

The conference agreement includes language (Section 801) that rescinds $6,000,000 from the working capital fund and limits the fiscal year 1995 obligational authority to no more than $87,000,000. The Senate proposed to rescind $4,000,000 and limit obligational authority to no more than $89,000,000. The House proposed to rescind $8,000,000 and limit obligational authority to no more than $85,000,000.

The conference agreement includes language (Section 802) that rescinds $15,000,000 for fiscal year 1995 civilian and military compensation and benefits and other administrative expenses, instead of $10,000,000 as proposed by the Senate and $20,000,000 as proposed by the House. In making this reduction, the conferees agree that the Department is to reduce each modal administration (except for the Maritime Administration) by an amount equal to its pro-rata share of staffing and administrative resources. Further, the Department is to report to the House and Senate Committees on Appropriations the amounts reduced, by account, not later than fifteen days after the enactment of this Act.

The conference agreement includes a technical correction (Section 803) to the fiscal year 1994 Department of Transportation and Related Agencies Appropriations Act (Public Law 103–122) regarding the availability of transit funds.

**CHAPTER IX**

**INDEPENDENT AGENCIES**

**ADVISORY COMMISSION ON INTERGOVERNMENTAL RELATIONS**

**Salaries and Expenses**

The conferees deny $500,000 in supplemental funding for the Advisory Commission on Intergovernmental Relations (ACIR) as proposed by the Senate. The conferees agree that the Committees may entertain an increase in funding for ACIR should a FY 1996 budget amendment be submitted.

**GENERAL SERVICES ADMINISTRATION**

**Federal Buildings Fund**

**Christopher Columbus Research Center**

The conferees included this provision which was in both the House and Senate passed bills. The available funds will be paid to the Christopher Columbus Research Center in Baltimore, Maryland, for space, equipment, and facilities related to seafood research.
Government Payment for Annuitants, Employee Life Insurance Benefits

The conferees included this provision, which was requested by the President and which was in both the House and Senate passed bills. This will allow an additional $9,000,000 for the Government's contribution to basic life insurance premium payments for Federal retirees under 65 years of age. This is a technical adjustment in a mandatory program due to an inaccurate estimate on the part of the Administration.

DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES

Salaries and Expenses

The conferees have agreed to eliminate FTE floors on certain Treasury activities, as proposed by the House and requested by the President.

The conferees agree with the Senate position that the $100,000 rescission to the Departmental Offices appropriation may be applied at the discretion of the Secretary.

FEDERAL LAW ENFORCEMENT TRAINING CENTER

Salaries and Expenses

The conferees agree to provide $11,000,000 to the Federal Law Enforcement Training Center to partially offset the cost of FY 1996 operations. This is consistent with the President's Budget, which proposes to transfer unobligated balances with FLETC construction to this account to offset FY 1996 appropriations. With this change, the conferees agree to regard the FY 1996 appropriation request to be $36,428,000, for a total program level of $47,228,000.

The conferees have agreed to allow FLETC to provide short-term medical services to students, as proposed by the House and requested by the President.

Acquisition, Construction, Improvements and Related Expenses

The conferees have agreed to terminate the construction of a permanent facility at Davis-Monthan Air Force Base and to rescind $11,000,000 to offset FLETC Salaries and Expenses in FY 1996.

FINANCIAL MANAGEMENT SERVICE

Salaries and Expenses

The conferees agree with the Senate position that the $160,000 rescission to the Financial Management Service appropriation may be applied at the discretion of the Commissioner.
Administering the Public Debt

The conferees agree to rescind $1,500,000. This rescission was included in both the House and Senate passed bills.

UNITED STATES MINT

Salaries and Expenses

The conferees included a provision which was requested by the President and included in both the House and Senate passed bills. This change will allow the Mint to use funds provided for facility improvements to be used for coin production if demand requires increased production.

INTERNAL REVENUE SERVICE

Information Systems

The conferees agree to rescind $1,490,000. This rescission was included in both the House and Senate passed bills.

The conferees have agreed with the Senate position to deny lowering the amount dedicated to Tax Systems Modernization from $650,000,000 to $640,000,000, as proposed by the House.

Administrative Provision

The conferees included a provision which was included in both the House and Senate passed bills. This provision allows the IRS to use up to $119,000,000 in fees collected annually for operations.

EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

THE WHITE HOUSE OFFICE

Salaries and Expenses

The conferees agree with the Senate position that the $171,000 rescission to the White House Office appropriation may be applied at the discretion of the President.

FEDERAL DRUG CONTROL PROGRAMS

Special Forfeiture Fund

The conferees agree with the Senate’s technical adjustment making $13,200,000 available for Customs interdiction activities through a General Fund appropriation. The conferees direct that all of these resources be used to fund “Operation Hardline”, the Customs initiative directed at making ports of entry along the Southern border safer and narcotics smuggling more difficult.
The conferees agree to rescind a total of $580,412,000 from the Federal Buildings Fund instead of $136,593,000 as proposed by the House and $1,894,840,000 as proposed by the Senate, as follows:

Food and Drug Administration Consolidation

The conferees agree to rescind $228,000,000 in funds previously appropriated for the consolidation of the Food and Drug Administration (FDA), instead of no rescission as proposed by the House and $284,650,000 as proposed by the Senate. This rescission affects only the Montgomery County, Maryland phase of the FDA consolidation.

The conferees agree that this rescission should not prejudice future efforts at consolidation and restructuring in Montgomery County, Maryland. The conferees note that there is considerable congressional concern and interest in both the restructuring and
the consolidation of FDA. The conferees support the concept of FDA consolidation in Montgomery County, Maryland, in accordance with Public Law 101–635, the FDA Revitalization Act of 1990, and Conference Report 102–919 to accompany the FY 1993 Treasury, Postal service, and General Government Appropriations Act, but believe that any future FDA restructuring may present opportunities for downsizing the next phase of FDA consolidation. The conferees urge FDA to work with the General Services Administration to create a more cost effective site and construction plan for this phase of consolidation in order that future consolidation may continue.

Tampa, Florida U.S. Courthouse

The conferees agree to rescind $5,994,000 from funds previously appropriated for the U.S. Courthouse in Tampa, Florida. This is the amount identified by the GSA during its Time Out and Review process.

While the conferees agree that this reduction should not affect the completion of the planned project, should additional funds be required, GSA should submit a reprogramming to the Committees on Appropriations of the House and Senate.

Operating Expenses

The conferees agree to no rescission from the Operating Expenses account as proposed by the Senate instead of $2,065,000 as proposed by the House.

The conferees are very pleased with the General Services Administration’s (GSA’s) rapid response to the tragic bombing of the Alfred P. Murrah Federal Building in Oklahoma City, Oklahoma, and commend GSA employees for their efforts in this area. Additionally, the conferees note with pleasure that, in response to a request from the Committees on Appropriations, the GSA provided the conferees with timely and extensive information on the construction and repair and alteration projects considered for rescission in both the House and Senate-passed rescission packages.

Telecommuting Center

The funds previously specified in Public Law 103–329 for the flexiplace work telecommuting center project in Southern Maryland are to be transferred to the Charles County Community College to complete the establishment of the two additional telecommuting centers in Southern Maryland. This is in recognition of the results of the interim report to the Congress on Federal Interagency telecommuting Centers which show that the Southern Maryland project, developed and operated by the Charles County Community College, resulted in the highest utilization rate and lowest cost per user of any telecommuting demonstration project, and the demonstrated efficiencies of the private sector to accomplish and expand developmental projects in the most timely and cost effective manner.
FEDERAL ELECTION COMMISSION

Salaries and Expenses

The conferees agree to rescind $1,396,000 from FEC’s salaries and expenses, instead of $2,792,000 as proposed by the House. The conferees also agree to the FEC’s request to carry over $20,000 of FY 1994 unobligated balances for use in FY 1995. The conferees note that, since 1992, FEC has received an increase of 37 percent in its annual appropriations and that the total FY 1995 revised appropriations for FEC in the amount of $25,730,000 represents an increase of 9 percent over the FY 1994 appropriated level. Within this amount, the conferees expect FEC to fulfill its commitment, as expressed before the House Appropriations Committee on March 1, 1995, to spend not less than $972,000 on computer modernization and electronic filing initiatives in FY 1995. The conferees further direct the FEC to complete strategic plans, including both a requirements and cost-benefit analysis, on (1) internal ADP modernization efforts and (2) electronic filing and provide these plans to the House and Senate Committees on Appropriations no later than August 1, 1995.

MERIT SYSTEMS PROTECTION BOARD

Salaries and Expenses

The conferees agree with the report language detailed in the Senate Report accompanying H.R. 1158 and reiterate the intent of that language in this statement of the managers.

Congressional oversight and the work of the General Accounting Office have raised the conferees’ concern over the direction, in recent years, of the U.S. Merit Systems Protection Board. In particular the conferees believe the statutory accountability and responsibility of the MSPB Chairman must be more adequately described to ensure the proper operation of the agency. Concern for the accountability of the MSPB Chairman to Congress necessitates the use of this vehicle to reiterate the intent of the statute.

The second sentence of the language at 5 USC 1203(a) and the first sentence of section 1204(j) shall be construed as the official named therein to include authorities of the predecessor official described at 5 USC 1104(a)(3) up to the word “except” in said paragraph and section 1104(a), paragraph (4) in its entirety prior to amendment by P.L. 94-454, Title II, sec. 201(a), October 13, 1978, 92 Stat. 1120. It is the intent of the conferees that this interpretation shall be used to expand only, and not derogate from, the authorities and responsibilities of the official named at 5 USC 1203(a) set forth in existing law.

OFFICE OF PERSONNEL MANAGEMENT

Salaries and Expenses

The conferees agree to rescind $3,140,000. This rescission was included in both the House and Senate passed bills. This rescission is from amounts appropriated in FY 1995 for OPM training and from its Office of International Affairs.
GENERAL PROVISIONS

Section 901. The conferees agree to changes affecting availability pay for criminal investigators in certain Offices of Inspectors General as proposed by the Senate. This was originally identified in the Senate bill as Section 2002.

Section 902. The conferees agree to extend Law Enforcement Availability Pay to Customs pilots. This was originally identified in the Senate bill as section 2005.

Section 903. The conferees have included a new general provision allowing agencies to exceed estimates of travel expenses in the event of emergency requirements.

The conferees agree to delete Section 2003 and Section 2004 of the Senate bill.

CHAPTER X

DEPARTMENTS OF VETERANS AFFAIRS AND HOUSING AND URBAN DEVELOPMENT, AND INDEPENDENT AGENCIES

INDEPENDENT AGENCIES

FEDERAL EMERGENCY MANAGEMENT AGENCY

Disaster Relief

The conferees propose a supplemental appropriation for fiscal year 1995 of $3,350,000,000, a decrease of $2,010,000,000 below the House level and an increase of $1,450,000,000 above the Senate level. In his February 6, 1995 messages, the President requested $6,700,000,000 for disaster relief activities. When these additional 1995 funds are added to those funds provided in the Disaster Relief Contingency Fund, which becomes available for obligation on October 1, 1995, the conferees have met the President's request.

The conferees agree that the additional funds made available in fiscal year 1995 are more than sufficient to meet ongoing and anticipated disaster relief requirements well into fiscal year 1996, including the most recent disaster operations resulting from extraordinary rains and hail during May 1995 in Louisiana, as well as numerous other declared disasters in some 40 states.

While the conferees remain committed to adequately fund necessary disaster assistance, the mounting cost and number of declared disasters remains a difficult question which must be addressed. The conferees are further concerned that FEMA disaster assistance policies need to be applied fairly and consistently to all regions hit by disasters. Specific questions have been raised regarding FEMA policies for those disasters occurring as a result of or directly attributable to a previously identified preexisting condition. The conferees thus direct FEMA to report to Congress within 90 days of passage of this Act on, 1) its current policies in this regard; 2) how these policies were applied in making eligibility determinations in Lead, South Dakota and Ventura, California; and 3) its recommendations for appropriate policy changes in this area.
Disaster Relief Emergency Contingency Fund

The conferees propose a supplemental appropriation of $3,350,000,000 for a disaster relief emergency contingency fund, an increase of $3,350,000,000 above the level proposed by the House and a decrease of $1,450,000,000 below the level proposed by the Senate. This contingency fund will be available beginning October 1, 1995, and is provided once the President has made a specific request for a specific amount, and designates such amount as an emergency requirement pursuant to law. The conferees believe such a contingency fund will make it possible to continue mandated disaster relief requirements, such as ongoing obligations associated with the 1994 Northridge earthquake, while at the same time ensuring adequate Congressional oversight of these funds.

National Flood Insurance Fund

The conferees have proposed a transfer of $331,000 for administrative costs from the flood insurance fund to the “Salaries and Expenses” appropriation, and a transfer of $5,000,000 from the flood insurance fund to the “Emergency Management Planning and Assistance” appropriation. The House had included no such transfers in its bill while the Senate had proposed both items as requested in the President’s February 6, 1995 messages. The conferees agree that these funds are needed to enable the Agency to initiate flood mitigation activities authorized by the National Flood Insurance Reform Act of 1994.

CORPORATIONS

FEDERAL DEPOSIT INSURANCE CORPORATION

BANK ENTERPRISE ACT

Provides $36,000,000 for eligible activities authorized under the Bank Enterprise Act (BEA) of 1991. The Senate’s proposed rescission of $88,000,000 from the Community Development Financial Institutions Fund Account would have left approximately $36,000,000 to implement this new agency. Instead of creating a new agency such as CDFI, the conferees agree to accomplish the same goal of promoting community-based financial institutions through the incentive program authorized under the BEA. Under the original fiscal year 1995 appropriation of $125,000,000, approximately one-third would have been available for this same incentive program. The Chairman of the FDIC is granted authority to operate this activity as authorized by the BEA.

DEPARTMENT OF VETERANS AFFAIRS

VETERANS HEALTH ADMINISTRATION

Medical Care

Inserts language rescinding $50,000,000 of fiscal year 1995 medical care funds and exempting such funds from any restrictions on personnel compensation and benefits expenditures, instead of language rescinding $50,000,000 from medical care, reducing the
funds earmarked for the equipment and land and structures object classifications by $20,000,000, and decreasing the funds restricted for personnel compensation and benefits by $30,000,000 as proposed by the Senate. The rescission is consistent with the Department’s latest estimate of savings in fiscal year 1995 salary costs. The VA’s fiscal year 1996 budget justifications estimated that $30,000,000 of the fiscal year 1995 appropriation restricted to salary costs would not be utilized for such purposes. The VA now estimates that $50,000,000 will be saved. The conferees have agreed to language that exempts all fiscal year 1995 medical care funds from personnel compensation and benefits restrictions in the event that salary savings are more than $50,000,000.

DEPARTMENTAL ADMINISTRATION

Construction, Major Projects

Rescinds $31,000,000 of major construction funds, instead of $50,000,000 as proposed by the Senate. The conferees agree that the rescission is to be taken from excess funds in the working reserve, and have reduced the amount proposed by the Senate based on the VA’s latest estimate of available savings.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT HOUSING PROGRAMS

NATIONAL HOMEOWNERSHIP TRUST DEMONSTRATION PROGRAM

Rescinds $50,000,000 as proposed by the House and Senate.

Annual Contributions for Assisted Housing

Rescinds $5,031,400,000 from annual contributions for assisted housing, instead of $5,733,400,000 as proposed by the House and $3,721,289,000 as proposed by the Senate, including:

- $700,600,000 from the development or acquisition cost of public housing from fiscal year 1995 and prior year unobligated balances, including $80,000,000 from public housing for Indian families;
- $1,956,000,000 from rental assistance under the Section 8 existing housing certificate program and the housing voucher program, of which, $100,000,000 shall be from new programs and $350,000,000 from pension fund rental assistance as provided in Public Law 103–327. The remaining funding level will allow $300,000,000 for the Secretary’s Economic Development Initiative, and in addition, public housing relocation and replacement needs, litigation settlements or court orders, amendments to continue assistance for participating families, and the implementation of “mixed population” plans for developments housing primarily elderly residents;
- $815,000,000 from the modernization of existing public housing projects pursuant to section 14 of the United States Housing Act of 1937, including $100,000,000 to eliminate funding for the Choice in Management initiative, as proposed by the Administration. If there are situations where housing authorities already have placed funds under contract which are now to be rescinded, the Department may use its authority
under the current modernization statute (section 14(k)(1)) to provide funding for emergencies which must be repaid from future modernization allocations;
$22,000,000 from unobligated balances of special purpose grants;
$148,300,000 from funds earmarked for Loan Management Set-asides (LMSA);
$15,000,000 from Family Unification as proposed by the Administration;
$30,000,000 from housing opportunities for persons with AIDS (HOPWA) program, allowing program funding to match the President's FY 1995 request of $156,000,000;
$34,200,000 from amounts reserved for lease adjustments as proposed by the Administration;
$39,000,000 from recaptures as proposed by the Administration;
$70,000,000 from Section 8 counseling;
$50,000,000 from amounts set-aside for service coordinators, including Sections 674/675/676 and FSS funding;
$66,000,000 earmarked for Family Investment Centers;
$85,300,000 from the lead-based paint abatement program.
The Administration proposed rescinding $80,000,000 from such funds; and
$1,000,000,000 from unspecified balances for incremental units, including unreserved and unobligated program amounts totaling $3,477,600,000, remaining Section 8 rental assistance totaling over $400,000,000, and miscellaneous recaptures of previously obligated funds, such as $1,506,600,000 available from public housing development funds. The Secretary is required to provide to the appropriate appropriations subcommittees of the House and Senate a detailed operating plan within 30 days of enactment to implement this reduction.
The conferees strongly support immediate changes in the Department's program policies to focus the use of available resources on activities which will yield a more efficient and competitive inventory of Federally subsidized low-income housing. Such measures include aggressive efforts to demolish failed housing developments and to provide local housing authorities greater flexibility to facilitate improvements in public housing. The conference agreement also focuses rescissions on funding activities such as new incremental units which, if obligated, would exacerbate budgetary shortfalls over the next several years.
The conference agreement provides a deferral of $405,900,000 of preservation funds until September 30, 1995 to allow authorizing committees ample time to reformulate this program. The House proposed rescinding $465,100,000 from the program activity while the President's budget request had proposed rescinding $150,000,000.
The conference agreement deletes a provision in the Senate-passed language which would have mandated continued processing of certain applications which met specific statutory deadlines. The conferees agree that the Department should have greater discretion in continuing such processing. It is the expectation of the conferees, however, that processing should not be suspended in cases where
such an action would jeopardize on-going efforts to preserve these affordable housing units, particularly in cases where purchases by non-profits or by resident organizations are being developed.

Assistance for the Renewal of Expiring Section and Subsidy Contracts

Rescinds $1,177,000,000 of rental assistance for the renewal of expiring Section 8 subsidy contracts. The Senate had proposed the rescission of $1,050,000,000 from the Annual Contributions for Assisted Housing account and directed the Secretary to use excess Section 8 reserves of public housing authorities to make up this shortfall. The House proposed no rescission. In order to renew all expiring Section 8 subsidy contracts in fiscal year 1995, the conferees agree to shorten approximately one-half of fiscal year 1995 renewal contracts to two-year terms instead of three. In addition, the Secretary is directed to use an estimated $427,000,000 of Section 8 excess project reserves to fund remaining Section 8 contract renewal needs.

Payments for Operation of Low-Income Housing Projects

Rescinds no funding from this account as proposed by the Senate. The House had proposed a rescission of $404,000,000 from this program activity to bring it down to the President's request for fiscal year 1995. The conferees acknowledge the difficulty of implementing a reduction in this account mid-year, but also note that future reductions for this program activity are likely. Housing authorities, through more efficient management and implementation of upcoming reauthorization deregulation, must work diligently to prepare for possible lower funding levels in fiscal year 1996.

Severely Distressed Public Housing

Rescinds no funding from this account as proposed by the Senate. The House had proposed rescinding $523,000,000 from this account. While these funds are permitted to go forward, the conferees note that it is possible that this activity may not be funded in fiscal year 1996. Also, approximately three-fourths of the House rescission amount had been obligated by the time of conference and was unavailable for rescission.

Drug Elimination Grants for Low-Income Housing

Rescinds no funding from this account as proposed by the Senate. The House had proposed rescinding $32,000,000 from this program activity to return it to the fiscal year 1994 funding level of $265,000,000.

Youthbuild Program

Rescinds $10,000,000 from the Youthbuild program. The House had proposed rescinding $38,000,000 to return program activity to last year's funding level of $40,000,000 while the Senate had proposed no rescission.
Housing Counseling Assistance

Rescinds $38,000,000 as proposed by the House and Senate, returning this program activity to its fiscal year 1994 funding level of $12,000,000.

Flexible Subsidy Fund

Rescinds $8,000,000 as proposed by the House. The Senate had proposed no rescission for this program activity.

NEHEMIAH HOUSING OPPORTUNITIES FUND

Rescinds $10,500,000 of remaining unobligated balances from the Nehemiah Housing Opportunities Fund. The House had proposed rescinding $19,000,000 and the Senate $17,700,000 from this account.

HOMELESS ASSISTANCE

HOMELESS ASSISTANCE GRANTS

Defers the availability of $297,000,000 of homeless assistance grants until September 30, 1995 as proposed by the House. The Senate did not propose a similar provision. The remaining appropriation of $823,000,000 available for all of fiscal year 1995 would match the fiscal year 1994 program funding level.

COMMUNITY PLANNING AND DEVELOPMENT

COMMUNITY DEVELOPMENT GRANTS

Rescinds no funds from this account as proposed by the Senate. The House had proposed a rescission of $349,200,000 from this program activity.

ADMINISTRATIVE PROVISIONS

The conference agreement includes modifications proposed by the Senate to the public housing modernization program to permit greater flexibility in the use of these funds. For example, in places like Dallas, Houston, and Louisville, Federal modernization funds can help pay the cost of demolition of public housing that is beyond repair. This is the case in Houston, where the costs of demolishing Allen Parkway Village can be shifted from the city to the local PHA. The conferees agree to several technical changes that clarify that modernization funds are to be used only for public housing or the public housing portion of jointly-administered housing.

Both the House- and the Senate-passed bills included provisions to eliminate one-for-one replacement requirements for public housing demolition or disposition applications approved prior to September 30, 1995. The conferees agree to the Senate language amended to exclude housing required to be replaced because of a court order or litigation settlement. The House language included this provision. The Department is urged to approve as quickly as possible qualified applications for demolition or disposition.

The conferees agree to the Senate proposal allow public housing authorities to reuse certain recaptured Section 8 rental assistance. The House bill contained no comparable provision.
INDEPENDENT AGENCIES

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

SALARIES AND EXPENSES

Rescinds $500,000, as proposed by both the House and the Senate. This rescission terminates the Board before members have sworn the oath of office and prior to expenditure of any funds, and is consistent with the rescission and termination proposal made by the President in the February 6, 1995 messages.

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS FUND

PROGRAM ACCOUNT

Rescinds $124,000,000 from this account as proposed by the House. The Senate has proposed a rescission of $88,000,000. In order to limit the growth of government and achieve the same goals, the conferees agree to provide $36,000,000 to the Federal Deposit Insurance Corporation to implement Bank Enterprise Act (BEA) incentives to promote community-based financial institutions.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

NATIONAL AND COMMUNITY SERVICE PROGRAMS OPERATING EXPENSES

Rescinds $210,000,000 of National and Community Service Programs Operating Expenses funds, instead of $416,110,000 as proposed by the House and $105,000,000 as proposed by the Senate. This action will permit the Corporation to maintain the fiscal year 1994 funding level of $365,000,000 in the current fiscal year. The conferees have agreed to add language to prohibit the remaining fiscal year 1995 appropriation from being used for national awards to Federal agencies. This action is taken to increase program participation by traditional private voluntary organizations such as the Girl Scouts, the American Red Cross, and the Future Farmers of America.

ENVIRONMENTAL PROTECTION AGENCY

RESEARCH AND DEVELOPMENT

The conferees propose to rescind $14,635,000 of fiscal year 1995 appropriations, the same as proposed by the House and $5,000,000 more than that proposed by the Senate. In addition to the $3,635,000 proposed in the President's February 6, 1995 messages for academic training ($1,000,000), neurotoxicity research ($700,000), health effects research ($600,000), and procurement savings ($1,335,000), the conferees have proposed to rescind $6,000,000 of funds appropriated in fiscal year 1995 for the Environmental Monitoring and Assessment Program and $5,000,000 of unspecified reductions. The conferees expect the Agency to submit specific proposals, in a format consistent with normal
reprogramming procedures, of where these unspecified reductions will occur within the research and development account.

**ABATEMENT, CONTROL, AND COMPLIANCE**

The conferees propose to rescind $9,806,805 of fiscal year 1995 appropriations, an increase of $5,000,000 over the level proposed by the House and the same as proposed by the Senate. In addition to the rescissions of $3,141,805 for termination of the Clean Lakes program and $1,665,000 for procurement savings as proposed in the President's February 6, 1995 messages, the conferees have proposed to rescind $5,000,000 from the Agency's "green" programs. The conferees agree that budget constraints require reduced spending in this area, and further agree that the agency should strongly consider the phase-out of those "green" programs, such as the "energy star buildings" program, which are essentially identical to programs already offered by private enterprise or by other Federal or State agencies.

Bill language has been included which stipulates that the Agency will not be required to site a supercomputer in the Bay City, Michigan vicinity as is required by current law.

**BUILDINGS AND FACILITIES**

The conferees propose to rescind $83,000,000 of prior year appropriations, an increase of $58,000,000 over the level proposed by the House, and the same as proposed by the Senate. These funds are derived from appropriations made in fiscal years 1992 and 1993 for the EPA Center for Ecology Research and Training, a new laboratory which would add to the Agency's existing 39 such facilities. This proposed rescission will terminate further activities associated with the lab's development before significant sums are expended. The conferees note that sufficient funds remain in the buildings and facilities account to cover expected necessary "close-out" costs associated with the lab site, and direct the Agency to provide the House and Senate Appropriations Committees a specific plan and schedule for such close-out within 60 days of passage of this Act.

**HAZARDOUS SUBSTANCE SUPERFUND**

The conferees propose to rescind $100,000,000 of fiscal year 1995 appropriations, an increase of $100,000,000 above the level proposed by the House and the same as proposed by the Senate. The conferees agree that while this proposed rescission is not expected to severely disrupt the program, it nevertheless will slow current program activities somewhat while the Congress works on reauthorizing and perhaps restructuring this expired program.

**WATER INFRASTRUCTURE/STATE REVOLVING FUNDS**

The conferees propose to rescind $1,302,200,000 of fiscal year 1995 and prior year appropriations, a decrease of $1,000,000 from the level proposed by the House and an increase of $60,105,000 above the level proposed by the Senate. Of the proposed $1,302,200,000 rescission, $1,299,000,000 had been appropriated in fiscal years 1994 and 1995 for distribution upon enactment of a safe drinking water state revolving fund. While this rescission
should not be interpreted as opposition to the creation of such an SRF, the conferees acknowledge that fiscal realities make it difficult to provide large sums for programs which await authorization.

The remaining $3,200,000 rescission is derived from funds appropriated in fiscal year 1995 for specific wastewater infrastructure improvements, and has been recommended for rescission in the President’s February 6, 1995 messages.

**ADMINISTRATIVE PROVISIONS**

The conferees adopted language included in the Senate bill which prevents the Agency from requiring that States adopt a centralized inspection and maintenance facility as part of their state implementation plan under the Clean Air Act, although the states retain the flexibility to adopt such a program should they desire.

The conferees adopted identical language included in both the House and Senate bills which provides that no funds can be expended by the Environmental Protection Agency to impose or enforce any requirement that a State implement a trip reduction plan as part of their state implementation plan. Additional new language which stipulates that Section 304 of the Clean Air Act (regarding citizen suits) does not apply in cases where States choose not to implement such a trip reduction plan was also adopted by the conferees.

The conferees adopted language contained in the Senate bill which prevents EPA from adding new sites to the National Priorities List during the balance of fiscal year 1995, unless such new site is specifically requested for listing by the Governor of the affected State, or unless Superfund legislation is reauthorized prior to the end of the fiscal year.

The conferees carefully considered a provision to impose a moratorium on EPA Clean Air Act deadlines for state attainment plans and permitting programs and considered mandating full credit for decentralized inspection and maintenance programs. This legislation was deferred pending a review of EPA’s actions in reviewing and approving applications by states for up to 100 percent credit where such states have submitted evidence of an effective test-and-repair program. The conferees strongly agree that EPA should defer imposition of sanctions against any state which is preparing, or has submitted an application to EPA for up to 100 percent compliance credit for their test-and-repair inspection and maintenance program. The conferees agree that a demonstration for up to 100 percent compliance credit may be submitted by a state with their SIP revision, and that such demonstration may require two years or two full cycles to complete. EPA should exercise flexibility in reviewing and approving each state’s plan in this regard.

EPA should seriously consider abandoning an inflexible standard that test-and-repair facilities are 50 percent as effective as test-only facilities and should grant test-and-repair programs the credit, up to 100 percent, based on scientific evidence and/or data that supports the determination of additional credits.

The conferees note that EPA issued regulations in November 1992 stating that in order to get more than 50 percent credit for a test-and-repair program, the state would have to demonstrate ac-
tual operating data that its program was more effective. States should be prepared to provide such data.

In complying with the prohibition on use of funds for disapproval of a state implementation plan, the conferees agree that it would apply only in the case where only a 50 percent discount was applied by the agency, and not at any other percentage discount which the Agency may apply or if the state implementation plan was not in compliance with law on a basis other than inspection and maintenance.

The conferees further agree that should EPA fail to demonstrate flexibility and reasonableness in responding to such state applications, further legislation will be enacted by Congress.

No language was included regarding the Agency's responsibilities for the California Federal Implementation Plan as the matter was resolved earlier in Public Law 104-6.

The conferees agree to impose no rescission in the area of academics. The conferees agree that the recent expansion of NASA funded educational programs, that expand opportunities and enhance diversity in the NASA sponsored research and education community—especially for the minority institutions and for socially and economically disadvantaged and disabled students, historically underrepresented in the Agency's research and education programs—are meritorious and should be supported. The conferees, however, note that such rapid and cumulative growth through incrementally funded, multi-year commitments will be very difficult to sustain during a period when overall NASA funding and employment will be reduced. NASA should undertake a review of all academic programs which includes revisions of its multi-year program plan in anticipation of such funding constraints with careful attention to the balance between the proportion of NASA's dollars received by minority institutions of higher education and other institutions of higher education.

CONSTRUCTION OF FACILITIES

The conferees agree to a rescission of $34,000,000 in prior years appropriations for construction of facilities instead of $27,000,000 as proposed by the House and $76,000,000 as proposed by the Senate. The conference agreement includes rescission of $27,000,000 which was appropriated in fiscal year 1993 for construction of a facility for the Consortium for International Earth Science Information Network. In addition, the conference agree-
ment includes rescission of $7,000,000 which was appropriated in prior years for construction of a Rocket Engine Test Facility at the Lewis Research Center.

MISSION SUPPORT

The conferees agree to rescind $32,000,000 of fiscal year 1995 funding instead of $1,000,000 as proposed by the House and $6,000,000 as proposed by the Senate. The conference agreement includes rescission of $1,000,000 for administrative aircraft, $10,000,000 for salaries and expenses (ROS), and $21,000,000 for salaries and expenses savings.

SPACE FLIGHT, CONTROL AND DATA COMMUNICATIONS

The conferees agree to rescind $20,000,000 from funds made available for the replacement orbiter for the Challenger. The President had proposed a rescission of $10,000,000 in his message of May 2, 1995. After this rescission, $23,448,844 will remain for this purpose.

ADMINISTRATIVE PROVISIONS

Clear Lake Development Facility

The conferees agree to include an administrative provision which will enable the National Aeronautics and Space Administration to exercise an option to purchase the Clear Lake Development Facility, as modified for use as a Neutral Buoyancy Laboratory. The facility is currently being leased by NASA. It is the intention of the conferees that the cost of the facility as modified by the current owner (or contractor) and delivered completely modified to NASA, will be no more than $35,000,000.

Yellow Creek Facility, Mississippi

The federal government has a long history of involvement in Yellow Creek, located near Iuka, Mississippi. The site, originally purchased by the Tennessee Valley Authority for use as a nuclear energy plant, was subsequently transferred to NASA after the nuclear energy plant's cancellation. NASA intended to use Yellow Creek to build the Advanced Solid Rocket Motor (ASRM) and, after its cancellation, instead committed to use the site to build nozzles for the Redesigned Solid Rocket Motor (RSRM). On May 2, 1995, due to its current budgetary constraints, NASA terminated the RSRM nozzle production effort at Yellow Creek. The bill language included by the conferees on the transfer of the NASA Yellow Creek facility reflects the most recent commitment made by the NASA Administrator to the Governor of the State of Mississippi. The major investment by the State of Mississippi in facilities and infrastructure to support Yellow Creek, in excess of $100,000,000, is a key factor in NASA's agreement to turn the site over to the State of Mississippi. The main elements of the agreement reached between NASA and the State of Mississippi, which the conferees expect to be adhered to by the two parties, are as follows:

The Yellow Creek facility will be turned over to the appropriate agency of the State of Mississippi within 30 days of en-
actment of this Act. All of the NASA property on Yellow Creek which the State of Mississippi requires to facilitate the transfer of the site transfers with the site to the State, subject to the following exceptions anticipated by the conferees:

(1) Any property assigned to a NASA facility other than Yellow Creek prior to May 2, 1995, but located at Yellow Creek, will be returned to its assigned facility;

(2) Only those contracts for the sale of NASA property at Yellow Creek signed by both parties prior to May 2, 1995 shall be executed;

(3) Those items deemed to be in the “national security interest” of the federal government shall be retained by NASA. The national security clause shall be narrowly construed and shall apply only in a limited manner, consistent with established criteria relating to national security interests. This clause shall not be used to circumvent the intent of this Act, which is to transfer the site and all of its property, except as otherwise noted, to the State of Mississippi; and

(4) Other items of interest to NASA may be retained by NASA with the consent of the State of Mississippi.

It is the expectation of the conferees that all other NASA personal property will transfer to the State of Mississippi. The conferees further expect facilities on the site not subject to the above provisions, such as the environmental lab, to be left as is.

Any environmental remediation of Yellow Creek necessary as a result of the activities of governmental agencies, such as NASA, or quasi-governmental agencies, such as the Tennessee Valley Authority, will be the responsibility of the federal agency or quasi-federal agency, including any successors and interests.

Within thirty days of enactment of this Act, $10,000,000 will be transferred from NASA to the appropriate agency of the State of Mississippi.

The site’s environmental permits will become the property of the State of Mississippi. NASA will provide all necessary assistance in transferring these permits to the State of Mississippi.

FDIC AFFORDABLE HOUSING PROGRAM

Rescinds $11,281,034 from the FDIC Affordable Housing program as proposed by the House and Senate.
The managers have included bill language (section 2001) that directs the appropriate Secretary to prepare, advertise, offer, and award salvage timber sale contracts utilizing emergency processes and procedures provided in the bill.

The managers, in order to establish their expectation of performance have included salvage timber sale volume requirements in this statement. The managers have not included volume requirements directly in bill language but expect the Secretary concerned to reduce backlogged salvage volume and award additional salvage sale contracts to the maximum extend feasible. However, the managers underscore their intent that the salvage volume levels are not merely aspirational; each Secretary is expected to meet the volume levels specified herein.

The managers, in cooperation with the authorizing committees of jurisdiction, have agreed to monitor the USDA and BLM progress toward meeting the salvage levels set out herein. The committees of jurisdiction will carefully assess the reports to determine whether or not the agencies have met the salvage levels set forward in the statement of the managers. Depending on performance, the need for volume targets will be reevaluated in future appropriations bills, beginning in FY 1996.

**Forest Health**

The managers note that the emergency forest health situation from fire, insect infestation and disease has approached epidemic levels. As a result, the backlog of dead and dying trees in National Forests and other public lands is substantial.

In part, the severe risk of permanent damage to forest land necessitates removal of dead, dying, and salvage trees before greater damage occurs—including second phase fires which burn hotter and destroy land and streams. Once removal of salvage trees occurs, reforestation is required by the emergency salvage provision. Reforestation will facilitate regrowth of healthy forests that are less prone to fire damage, insect infestation, and disease.

Much of this salvage volume must be removed within one year or less for the timber of retain maximum economic value, and to prevent future disasters from fire that can permanently damage forest land, eradicate wildlife, and ruin aquatic habitat. Therefore, the managers have included bill language to provide all necessary tools to expedite environmental processes, streamline, administrative procedures, expedite judicial review, and give maximum flexibility to the Secretary concerned in order to provide salvage timber for jobs, to improve forest health, and prevent future forest fires.

The managers expect the agencies to implement available flexibility to achieve maximum returns and that agency personnel expeditiously process the environmental documentation needed to finalize emergency timber sales.
The managers have carefully reviewed the materials submitted by the Departments concerning the capability of the Forest Service and Bureau of Land Management to respond to the emergency nature of the forest health situation. For the Forest Service, the documents submitted indicate that the total merchantable salvage volume (dead and dying trees) in national forests exceeds 18.25 BBF. The Forest Service identified 12.68 BBF of volume which is economically operable during the next two years, while still complying with basic forest land stewardship protection measures.

Of particular interest in the Forest Service's assessment that 6.75 BBF of volume could be available during the next three years using the expedited procedures of this section, without violating the substantive requirements of existing environmental laws. This volume estimate was developed by Forest Service line managers and biologists. The Forest Service reports that there is a significant margin of error (+/-25%) in these estimates, and it is reasonable to expect that the volumes may increase somewhat as on-the-ground implementation gets underway. Given the margin of error in the estimates, it appears the Forest Service could meet the salvage volumes in the House bill without sacrificing the substantive objectives of all environmental laws. The Senate bill contained no sale volumes.

The managers extended the provisions of this section through FY 1997, effectively making the program's duration 2.5 years. Based on the capability statements by the Forest Service and similar representatives by the Bureau of Land Management, the managers expect that the procedures of this section will expedite the implementation of existing programmed salvage volumes and allow the Secretary of Agriculture to prepare, advertise, offer, and award contracts for an additional increment of salvage volume as follows: FY 1995—750 million board feet; FY 1996—1.5 billion board feet; FY 1997—1.5 billion board feet. These programmed levels for the Forest Service are contained in the attachment to the April 25, 1995, letter to the Chairman of the House Resources Committee. Similarly, the managers expect an emergency timber salvage program from the Secretary of the Interior as follows: FY 1995—115 million board feet; FY 1996—115 million board feet; FY 1997—115 million board feet. These numbers are within the range of achievement in an environmentally sound program. Each Secretary may exceed these salvage levels if field conditions demonstrate additional salvage opportunities.

The managers have directed periodic reporting on the agencies' progress in implementing the procedures of this section in order to reassess their expectation concerning achievement of specified salvage volumes and agency performance. The managers expect that the committees of jurisdiction will remain actively involved in the monitoring of the emergency salvage program.

Process

The managers intend that as the environmental processes are completed for individual sales, the Secretary concerned may choose
among the completed combined documents to determine how sales should go forward.

The bill language provides a process for judicial review of emergency salvage sales by the Federal District Courts. The managers provided this mechanism for legitimate concerns with agency actions. Automatic stays for 45 days are required pending the final decision on review of the record by the district court within that time period. Due to the exigency of the emergency salvage situation administrative appeals are waived.

For emergency timber salvage sales, Option 9, and sales in Section 318 areas, the bill contains language which deems sufficient the documentation on which the sales are based, and significantly expedites legal actions and virtually eliminates dilatory legal challenges. Environmental documentation, analysis, testimony, and studies concerning each of these areas are exhaustive and the sufficiency language is provided so that sales can proceed.

The managers are aware of the high cost, time, and personnel commitment needed to mark salvage trees individually. The managers also recognize the requirement for federal agencies to designate timber authorized for cutting. Federal agencies are directed to determine the extent to which the use of designation by description is practical and are further directed to use the most effective method of designation to prepare salvage timber sales.

The emergency salvage provision clearly prohibits harvesting in National Wilderness Preservation System lands, roadless areas designated by Congress for wilderness study, and roadless areas recommended for wilderness designation in the most recent land management plan. Lands not specifically protected by the provision include prohibitions such as agency initiatives, timber sale screens, interim guidelines, settlement agreements, the CASPO Report, riparian areas covered by other initiatives, and any other area where the agencies restrict timber harvesting on their own accord.

The bill also allows all salvage sales proposals in development on the date of enactment of this Act to be immediately brought into conformity with this, the emergency salvage provision.

Reporting

The bill language directs the agencies to prepare a report by August 30, 1995, detailing the steps the agency is taking, and intends to take, to meet salvage timber sale volumes. The report shall also include a statement of the intention of the Secretary concerned with respect to the salvage volumes specified herein.

The managers will carefully review the Administration's implementation of the salvage program, and, if found to be inadequate, will employ such actions as deemed necessary. Such actions might include, but are not limited to, reallocation within budget categories or other prioritizations to be determined by the Congress.

Option 9

The managers have retained bill language added by the Senate that provides the Forest Service and Bureau of Land Management the authority to expedite timber sales allowed under the President's forest plan for the Pacific Northwest, commonly known as
option 9. The managers are concerned that the administration has not made the necessary efforts to fulfill the commitment it made to the people of the region to achieve an annual harvest level of 1.1 billion board feet and have included bill language to assist the administration in this effort.

On December 21, 1994, the Federal District Court issued an opinion upholding option 9 as valid under all present environmental laws. The managers wish to make clear that the bill language does not independently validate option 9 and does not restrict pending or future challenges.

The managers have added bill language to eliminate the need for an additional environmental impact statement in order to speed up the issuance of a final 4(d) rule, which will provide expedited relief to thousands of nonfederal landowners in the region. The managers understand that the Secretary of the Interior is extending the comment period on the proposed Section 4(d) rule, and expect the Secretary to review carefully the extensive Special Emphasis Areas in Washington to assure regulatory relief for nonfederal lands, particularly in light of new owl population data on the Olympic Peninsula. As provided in bill language, the managers have agreed that no environmental impact statement will be required for the Section 4(d) rule notwithstanding the outcome of pending litigation over Option 9. Finally, nothing in this provision is intended to prejudice the outcome of pending litigation over Endangered Species Act Section 9 prohibitions.

**Released Timber Sales**

The bill releases all timber sales which were offered for sale beginning in fiscal year 1990 to the date of enactment which are located in any unit of the National Forest System or District of the Bureau of Land Management within the geographic area encompassed by Section 318 of the Fiscal Year 1990 Interior and Related Agencies Appropriations Act. Included are all sales offered, awarded, or unawarded, whether or not bids have subsequently been rejected by the offering agency, with no change in original terms, volumes, or bid prices. The sales will go forward regardless of whether the bid bond from the high bidder has been returned, provided it is resubmitted before the harvesting begins. The harvest of many of these sales was assumed under the President's Pacific Northwest forest plan, but their release has been held up in part by extended subsequent review by the U.S. Fish and Wildlife Service. The only limitation on release of these sales is in the case of any threatened or endangered bird species with a known nesting site in a sale unit. In this case, the Secretary must provide a substitute volume under the terms of subsection (k)(3).

**FUNDS AVAILABILITY**

The conference agreement retains a Senate provision (section 2002) restricting funds availability to the current fiscal year unless otherwise stated. The House bill contained no similar provision.
DOWNWARD ADJUSTMENTS IN DISCRETIONARY SPENDING LIMITS

The conferees agree to include a provision (section 2003) included in both the House and Senate bills that would reduce the discretionary spending limits by the savings resulting from this act for the fiscal years 1995 through 1998. The House bill also included an additional provision that would have made additional projected reductions by assuming that similar savings would be enacted in each of the next three fiscal years. The conferees recommend that spending limit adjustments for actions projected for the future should be made in appropriate legislative vehicles such as reconciliation bills. Also, the House bill included provisions that would appropriate the savings from the bill to a deficit reduction fund. By including the provision dealing with spending limit adjustments and the prohibition on the use of savings to offset tax cuts mentioned below, the intent of these House provisions is accommodated.

PROHIBITION ON USE OF SAVINGS TO OFFSET DEFICIT INCREASES RESULTING FROM DIRECT SPENDING OR RECEIPTS LEGISLATION

The conference agreement includes a provision (section 2004) included in both the House and Senate versions of the bill that would preclude the savings in this bill from being used for any tax reductions or other similar direct spending or receipts legislation.

NATIONAL KOREAN WAR VETERANS ARMISTICE DAY

The conference agreement inserts language (section 2005), not contained in the House or Senate bill, which designates July 27 of each year, until the year 2003, as “National Korean War Veterans Armistice Day”.

ASSISTANCE TO ILLEGAL IMMIGRANTS

The conference agreement includes an amended House provision (section 2006) that prohibits any individual who is not lawfully in the United States from receiving any direct benefit or assistance from funds in the bill except for emergency assistance. The conference agreement expands the provision to include direction that agencies should take reasonable steps in determining the lawful status of individuals seeking assistance. Also, a nondiscrimination clause has been added. The Senate bill did not include any provision on this subject.

This provision is essentially the same provision that was included in the initial emergency supplemental appropriations act that provided relief from the earthquake that hit the Los Angeles area in 1994 (Public Law 103–211). The conferees understand that this provision was implemented for that bill in a manner that did not delay non-emergency assistance to appropriate recipients. The conferees agree that this should be the situation for this bill.

SENSE OF THE SENATE REGARDING TAX AVOIDANCE

The conference agreement deletes a Senate provision that expressed the sense of the Senate that Congress should act as quickly
as possible to preclude persons from avoiding taxes by relinquishing their citizenship. The House bill contained no similar provision.

FEDERAL ADMINISTRATIVE AND TRAVEL EXPENSES

The conference agreement deletes two Senate provisions that would have rescinded $342,500,000 for administrative and travel activities. The conferees agree that it is more appropriate to make rescissions in the regular accounts rather than making across the board rescissions.

IMPACT OF LEGISLATION ON CHILDREN

The conference agreement deletes a sense of the Congress provision included in the Senate version of the bill that Congress should not adopt any legislation that would increase the number of children who are hungry or homeless. The House bill contained no similar provision.

TITLE III
EMERGENCY SUPPLEMENTAL APPROPRIATIONS

ANTI-TERRORISM INITIATIVES

OKLAHOMA CITY RECOVERY

Chapter I

DEPARTMENTS OF COMMERCE, JUSTICE, AND STATE, THE JUDICIARY, AND RELATED AGENCIES

After House and Senate consideration of this bill, the Administration requested emergency supplemental appropriations of $71,455,000 for the Department of Justice and $10,400,000 for the Judiciary to address urgent needs arising from the Oklahoma City bombing and for enhanced anti-terrorism efforts. The conference agreement provides an emergency supplemental appropriation of $113,360,000 for the Department of Justice and $16,640,000 for the Judiciary for these purposes, an increase of $48,145,000. These funds are designated by the Congress as emergency requirements pursuant to section 251(b)(2)(D)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended and amounts above the supplemental request are available as emergency spending only to the extent that the President also designates these funds as emergency requirements.

The conference agreement provides funding through fiscal year 1996 for the full anticipated costs of expenses related to the investigation and prosecution of persons responsible for the bombing as well as the full cost of funding new personnel for enhanced counterterrorism efforts. The conference agreement also provides for a more flexible mechanism for the Attorney General to reimburse Department of Justice law enforcement agencies and State and local expenses related to the Oklahoma City bombing by appropriating funds requested for these expenses to a new Counterterrorism Fund.
While awaiting the Administration's 1996 budget amendment, the conferees have attempted to anticipate and fully fund the requirements for enhanced counterterrorism activities in both 1995 and 1996. To the extent that the supplemental does not fully anticipate the total needs, the conferees expect that the Administration will forward the additional requirements expeditiously.

DEPARTMENT OF JUSTICE
GENERAL ADMINISTRATION

Counterterrorism Fund

The conferees have established a new Fund within this appropriation account, under the control and direction of the Attorney General, to: (1) cover the extraordinary and contingency type costs that have been incurred and are expected to occur as a result of the Oklahoma City bombing and (2) to cover costs related to any potential or actual future domestic or international terrorism event. The conference agreement provides an appropriation of $34,220,000 for this account which will remain available until expended.

The conferees intend that the funds provided through the Counterterrorism Fund will be used to reestablish or rebuild offices or facilities of the Department of Justice that are destroyed or damaged as the result of a domestic or international terrorism event. For example, the Oklahoma Resident Office of the Drug Enforcement Administration was destroyed in the bombing of the Alfred P. Murrah Building. In addition, funds are provided for a threat assessment of all Federal office buildings.

The conference agreement allows for the payment of expenses of an extraordinary nature of Department of Justice agencies engaged in, or providing support to, countering, investigating, or prosecuting domestic or international terrorism. Therefore, funds are available to reimburse the Federal Bureau of Investigation, the United States Attorneys and the United States Marshals Service for expenses incurred in connection with the Oklahoma City bombing and may be used for further expenses related to this incident. Funds are also available to reimburse the Office of Justice Programs Justice Assistance account for Emergency Assistance payments to qualifying State or local law enforcement agencies.

The conference agreement allows this Fund to be used for the payment of rewards as outlined under language included in the General Provisions for the Department of Justice contained in this Act.

Because there may be necessary expenses that arise in such events that are not known at the present time, the conference agreement allows the Attorney General to make the determination on a case by case basis of such necessary expenses which may be covered by funds appropriated to this account. The Attorney General may also use these funds to engage in planning, and the execution of such plans, related to upcoming significant events which offer the potential of being targeted by domestic or international terrorists.
The conferees expect the Attorney General to notify the Committees on Appropriations of the House of Representatives and the Senate prior to the obligation of funds from this account, with the exception of the $10,555,000 requested by the Administration for anticipated 1995 costs of the Department of Justice related to the Oklahoma City bombing. The conferees understand the urgency of meeting these requirements and the need to reimburse these agencies for these expenses in a timely manner. To the extent that these expenses deviate from those requested by the Administration in the supplemental, the conferees expect the Attorney General to report any differences to the Committees on Appropriations of both the House and the Senate.

LEGAL ACTIVITIES

Salaries and Expenses, United States Attorneys

The conference agreement provides a $2,000,000 supplemental appropriation for the United States Attorneys. The amounts provided will remain available until expended and will provide for the establishment of a specialized team of attorneys for terrorism prosecution. The funds provided will support the full cost of hiring an additional 8 Assistant United States Attorneys and 4 support personnel.

The conference agreement also provides additional funds, as requested by the Administration, to support extraordinary expenses being incurred by the United States Attorneys from the establishment of a Command Center in Oklahoma City to support the investigation of persons involved in the Oklahoma bombing and future expenses related to the prosecution and trial of those arrested. The conferees intend that funds for these activities for the United States Attorneys will be provided under the newly established Counterterrorism Fund.

FEDERAL BUREAU OF INVESTIGATION

Salaries and Expenses

The conference agreement provides a $77,140,000 supplemental appropriation for the Federal Bureau of Investigation, to remain available until expended, for additional personnel and equipment to support expanded investigations of domestic and international terrorism activities.

The conference agreement provides $1,905,000 for the full cost of hiring 25 intelligence analysts to establish a Domestic Counterterrorism Center to coordinate and centralize Federal, State, and local law enforcement efforts in response to major terrorist incidents and as a clearinghouse for all domestic and international terrorism information and intelligence.

In addition the conferees have provided $12,875,000 for the full cost of hiring 31 additional engineering and technical staff to support research and development of new techniques to replace existing intercept capabilities that are ineffective when used in an advanced digital communications environment and to enhance law enforcement capabilities to perform court-authorized voice and data interceptions.
The conferees provide $10,000,000 to modernize the FBI's Strategic Information Operations Center to provide the capability of addressing multiple sites and incidents concurrently and to support the centralized coordination of law enforcement for major incidents such as the Oklahoma City bombing.

The conference agreement provides $37,660,000 for the full cost of hiring 190 surveillance specialists and 143 support personnel, in lieu of one month's funding for 231 surveillance specialists and 169 support personnel. In addition, $8,700,000 is provided for the full cost of hiring 38 tactical operations staff and for equipment for enhanced counter-terrorism operations. Also provided is $5,000,000 to replace and upgrade laboratory equipment and provide Emergency Response Teams with proper equipment and tools for the collection and processing of crime scene evidence. The conferees also provided $1,000,000 for the development of an automated database to collect and analyze information regarding hostage/barricade situations.

The conference agreement does not include $5,600,000 for the design of three new facilities—a new FBI laboratory, a new National Law Enforcement Technical Support Center, and a new training facility—due to the need to assess the purpose and the long-term costs of these facilities in the regular appropriations process.

The conference agreement also provides additional funds, as requested by the Administration, to support extraordinary expenses being incurred by the Federal Bureau of Investigation to support the investigation of persons involved in the Oklahoma City bombing and the payment of rewards in connection with this investigation. The conferees intend that funds for these activities and future expenses of the Federal Bureau of Investigation related to this incident will be provided under the newly established Counterterrorism Fund.

General Provisions

Section 3001 of the conference agreement includes language that allows the Attorney General to provide a reward, up to a maximum of $2,000,000, to individuals assisting in the investigation and prosecution of terrorists. The Attorney General is currently limited to a maximum reward payment of $500,000.

Section 3002 of the conference agreement provides that funds made available in this Act are subject to the standard reprogramming procedures set forth in Section 605 of Public Law 103–317.

THE JUDICIARY

COURTS OF APPEALS, DISTRICT COURTS, AND OTHER JUDICIAL SERVICES

Court Security

The conference agreement includes a supplemental appropriation of $16,640,000 for the Federal Judiciary's Court Security account compared to the Administration's request of $10,400,000. The amount provided will remain available until expended to cover the
costs of enhanced security of judges and support personnel in response to the potential increased threat resulting from the recent bombing of the Federal building in Oklahoma City. The amount is provided as follows:

—$12,620,000 to cover the full costs of hiring an additional 250 new court security officers (CSOs) for existing court locations which currently have none and at locations which are currently below accepted standards. The Judiciary had requested funds to hire 400 CSOs for existing space, but the conferees felt that no more than 250 could be brought on so late in the fiscal year. The remainder of this request will be considered in the context of the fiscal year 1996 appropriations process.

—$2,120,000 for the full costs of hiring an additional 40 CSOs to operate and monitor new weapons/explosives screening equipment and x-ray machines for fifteen existing judiciary locations where no security equipment is currently in place.

—$4,900,000 for new and replacement security equipment, including upgrading equipment at existing facilities and purchase of x-ray machines and magnetometers for fifteen facilities which currently have no security equipment.

The amounts provided assume the reprogramming of $3,000,000 in available balances in this account as proposed in the Judiciary’s supplemental request.

The conferees have not included the $2,000,000 requested for vehicle barriers to be placed at the entrance to parking garages at 50 metropolitan court facilities around the country. The conferees understand that the actual costs of placing these barriers at the 50 locations may be greater than the $2,000,000 requested and urge the Judiciary to work with the General Services Administration to identify the necessary resources for this proposal in the fiscal year 1996 budget.

Chapter II

DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES

Salaries and Expenses

As part of the Administration’s supplemental request, $300,000 was included to hire 10 new employees to assist in oversight of the Department’s anti-terrorism efforts. The conferees deny this request.

BUREAU OF ALCOHOL, TOBACCO AND FIREARMS

Salaries and Expenses

The conferees agree to provide $34,823,000, $18,616,000 above the $16,207,000 requested by the Administration, in order to offset immediate expenses associated with the aftermath and investigation of the Oklahoma City bombing, security upgrades in headquarters and field offices, and the enhancement of certain counter-terrorism capabilities.
The conferees provide $4,723,000 of the $4,923,000 requested to cover overtime, travel, communications and equipment associated with reestablishing ATF offices in Oklahoma City and to cover investigative expenses. The conferees deny the $200,000 request for the replacement of all basic office equipment and furniture lost in the explosion since these costs will be borne by the General Services Administration.

The conferees provide $3,000,000 to improve security in field offices, the same amount requested by the President.

The conferees agree to provide $7,000,000 for costs associated with the relocation of ATF headquarters, of which up to $300,000 may be used to provide temporary improvements to ATF's current headquarters, as needed.

The conferees provide $3,000,000 to fund the personnel costs of four new permanent National Response Teams (NRT), $3,300,000 for mobile response equipment and additional laboratory personnel, and $1,800,000 for additional intelligence analysts and explosives inspectors.

The conferees further note that ATF lacks sufficient resources to purchase certain critical pieces of equipment or to make other investments needed to effectively and efficiently pursue its mission. For that reason, the conferees agree to provide $12,000,000 to fund a number of items requested in the President's FY 1996 budget request: purchase of electronic surveillance equipment, weapons, protective gear and investigative vehicles; improvement of financial management information systems; and development of ATF's Integrated Collection System. These funds may also be used for costs associated with the relocation of the ATF laboratory.

FEDERAL LAW ENFORCEMENT TRAINING CENTER

Salaries and Expenses

The conferees agree to provide $1,100,000 and additional personnel as requested for the Federal Law Enforcement Training Center to enhance the anti-terrorism training component of basic courses, increase the number and quality of advanced training courses in anti-terrorism tactics, provide additional equipment for such training and train personnel.

UNITED STATES SECRET SERVICE

Salaries and Expenses

The conferees agree to provide $6,675,000 for the Secret Service, $2,800,000 above the amount requested by the President. The conferees have provided the additional funds for expenses related to the completion of the White House Access Control System ($1,800,000) and the purchase of Remote Delivery Site Equipment ($1,000,000).

UNITED STATES CUSTOMS SERVICE

Salaries and Expenses

The conferees agree to provide $1,100,000 of the $1,200,000 requested to relocate Customs offices, pay for temporary duty re-
placements, over the costs of permanent change of station moves and replacement vehicles, and purchase certain office equipment. The conferees deny the $200,000 request for the replacement of all basic office equipment and furniture lost in the explosion since these costs will be borne by the General Services Administration.

INTERNAL REVENUE SERVICE
Administration and Management

As part of the Administration's supplemental request, $1,000,000 was included to cover expenses for overtime, travel and supplies related to the investigation of the bombing. The conferees deny this request and instead have diverted these funds to the Secret Service for the purchase of additional White House security systems.

FINANCIAL CRIMES ENFORCEMENT NETWORK

Salaries and Expenses

The conferees have denied the President's request of $300,000 in emergency appropriations for the Financial Crimes Enforcement Network (FinCEN) and instead have diverted these funds to the Secret Service for the purchase of additional White House Security systems. The conferees note that any additional work accomplished by FinCEN as part of the Oklahoma City investigation should be done within existing resources.

INDEPENDENT AGENCY
GENERAL SERVICES ADMINISTRATION

FEDERAL BUILDINGS FUND

Alfred P. Murrah Federal Building

The conferees have included a provision which provides additional funding related to the Alfred P. Murrah Federal Building in Oklahoma City, Oklahoma. The conferees, in response to the special needs created by the April 19, 1995, terrorist bombing attack at the Murrah Federal Building, have added $40,400,000 for expenses of real property management and related activities. This includes: planning, design, construction, demolition, restoration, repairs, alterations, acquisition, installment acquisition payments, rental of space, buildings operations, maintenance, protection, moving of governmental agencies and other activities.

The recommendation also provides that, in carrying out the foregoing activities, the Administrator of General Services may exchange, sell, lease, donate, or otherwise dispose of the site of the Murrah building to the State of Oklahoma, to Oklahoma City, or any political subdivision or agency of the State or city, and that such disposal shall not be subject to the Public Buildings Act of 1959, the Federal Property and Administrative Services Act of 1949, or any other Federal law establishing requirements or procedures for disposing of Federal property.

In recommending waivers of these laws, the conferees are responding to the extraordinary circumstances created by this tragic...
destruction of life and property and the realization that the work of replacement and recovery should not be unnecessarily encumbered by otherwise applicable provisions of law. Nevertheless, the conferees recommend the use of this waiver authority by the Administrator, at his discretion. This authority should only be used when circumstances dictate the clear necessity to do so. It is not intended that use of existing authority be precluded where consistent with and appropriate to serving the needs and purposes of this disposal action.

The conferees have also included a provision requiring prospectus approval of any major repair, alteration, lease, or construction project if the need for such a prospectus meets the requirements of the Public Buildings Act.

EMERGENCY REQUIREMENTS

As part of the Administration's supplemental request, a total of $26,400,000 was included for emergency requirements. The conferees agree with the request as follows:
Demolition/debris removal of the Alfred P. Murrah Federal Building ...... $2,300,000
Repair of other federal buildings ...................................................... 3,300,000
Replacement leases, furniture, and equipment .................................. 8,300,000

FEDERAL EMERGENCY MANAGEMENT AGENCY

Salaries and Expenses

The conferees propose a supplemental appropriation for fiscal year 1995 of $3,523,000. This amount, not included in either the House or Senate bills, was requested by the President in his May 2, 1995 message to address urgent needs arising from the bombing of the Alfred P. Murrah Federal Building in Oklahoma City, Oklahoma. This amount will assist in providing additional security personnel as well as enhanced physical protection at all Agency field offices. Additionally, funds will be available for staff training and awareness of the terrorist threat and enhanced security management systems, for additional training and exercises associated with
the Federal Response Plan, and for modifying and expanding the Federal Response Plan.

Emergency Management Planning and Assistance

The conferees propose a supplemental appropriation for fiscal year 1995 of $3,477,000. This amount, not included in either the House or Senate bills, was requested by the President in his May 2, 1995 message to address urgent needs arising from the bombing of the Alfred P. Murrah Federal Building in Oklahoma City, Oklahoma. This amount will provide for the development of new plans and procedures for an efficient response to a terrorist event under the Federal Response Plan, as well as for increased training and exercises associated with such a response for State and local emergency personnel.

CITATION

The conference agreement amends the Senate citation of the bill to reflect the inclusion of emergency supplemental appropriations for the anti-terrorism initiatives and for the recovery assistance for the tragedy that occurred at Oklahoma City. The House bill did not contain a citation.

The conferees agreement amends the title of the bill to be compatible with the amended enacting clause and citation.
