Departmental Office
Salaries and Expenses

Amendment No. 1: Makes available not less than $4,964,000 for the Office of Foreign Assets Control—Council of $2,224,000 as proposed by the House and $2,444,000 as proposed by the Senate.

Distribution of Foreign Iraqi Assets

The conference notes that the Department of Treasury’s decision to deny payment fromblocked accounts to any company that supplied goods to Iraq or otherwise performed the contractual obligations before the invasion based on letters of credit issued by Iraqi banks and advised by U.S. financial institutions. The report notes that Treasury, through its Office of Foreign Assets Control, has promulgated Iraqi Sanctions Regulations that allow U.S. financial institutions to collect from blocked Iraqi accounts the interest of credit that the U.S. financial institutions earned or continue. The conference urges the Secretary of Treasury to consider extending this ruling to other U.S. companies besides financial institutions that have a right to payment based on letters of credit rather for goods shipped to Iraq or contracts entered into prior to the invasion.

Accordingly, the conference urges Treasury to promptly execute the possibility of issuing licenses that permit payment from blocked accounts to U.S. companies, including their domestic and international subsidiaries, based on letters of credit issued by Iraqi banks and advised by U.S. financial institutions where the U.S. company that is the beneficiary of the letter of credit shipped the goods provided in the letter of credit or otherwise performed its contractual obligations prior to August 2, 1990.
of the United States Code is amended—

at the end of paragraph (6), and

and may insert after the end thereof the following new paragraph:

as to transfer the Secretary of the Treasury from the Department of the Treasury as the Secretary of the Treasury shall be available in the Department of the Treasury for the Federal law enforcement related purposes described in Subsection (a) by inserting after the first sentence the following sentence: "The Attorney General shall transfer from the Treasury to the Secretary of the Treasury for deposit in the General Fund of the Treasury, in accordance with the degree of participation of the Department of the Treasury in the law enforcement activities of the Federal government, the amounts transferred to the General Fund, and the Secretary shall transfer to the Secretary of the Treasury in accordance with the provisions of title 31 of the United States Code, the funds transferred to the General Fund.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF
CONFERENCE

The managers on the part of the House and Senate at the con-
ference on the disagreeing votes of the two Houses on the amend-
ments of the Senate to the bill (H.R. 5488) making appropriations
for the Treasury Department, the United States Postal Service, the
Executive Office of the President, and certain Independent Agen-
cies for the fiscal year ending September 30, 1993, and for other
purposes, submit the following joint statement to the House and
Senate in explanation of the effect of the action agreed upon by the
managers and recommended in the accompanying conference report:

TITLE I—DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES

SALARIES AND EXPENSES

Amendment No. 1: Makes available not less than $3,064,000 for
the Office of Foreign Assets Control instead of $2,522,000 as pro-
aposed by the House and $3,546,000 as proposed by the Senate.

DISTRIBUTION OF FROZEN IRAQI ASSETS

The conferees question the Department of Treasury’s decision
to deny payment from blocked accounts to U.S. companies that
shipped goods to Iraq or otherwise performed their contractual ob-
ligations before the invasion based on letters of credit issued by
Iraqi banks and advised by U.S. financial institutions. The confere-
ees note that Treasury, through its Office of Foreign Assets Con-
trol, has promulgated Iraqi Sanctions Regulations that allow U.S.
financial institutions to collect from blocked Iraqi accounts for let-
ters of credit that the U.S. financial institutions issued or con-
firmed. The conferees urge the Secretary of Treasury to consider
extending this ruling to other U.S. companies besides financial in-
stitutions that have a right to payment based on letters of credit
either for goods shipped to Iraq or contracts otherwise performed
prior to the invasion.

Accordingly, the conferees instruct Treasury to promptly ex-
amine the possibility of issuing licenses that permit payment from
blocked accounts to U.S. companies, including their domestic and
international subsidiaries, based on letters of credit issued by Iraqi
banks and advised by U.S. financial institutions where the U.S.
company that is the beneficiary of the letter of credit shipped the
goods as provided in the letter of credit or otherwise performed its
contractual obligations prior to August 2, 1990.

(37)
The conferees recognize that Treasury is still resolving the issue of the treatment of the remaining frozen Iraqi assets. The conferees understand that Treasury is formulating legislation to establish a method of assessing claims and fairly distributing the remaining assets. The conferees direct the Department of Treasury to submit this legislation to the appropriate authorizing committees no later than February 3, 1993.

Amendment No. 2: Allows 48 full-time equivalent positions for the Office of Foreign Assets Control instead of 40 as proposed by the House and 55 as proposed by the Senate.

Amendment No. 3: Makes available $1,925,000 for systems modernization requirements instead of $1,971,000 as proposed by the House and $1,879,000 as proposed by the Senate.

Amendment No. 4: Makes available $490,000 for repairs and improvements to the Main Treasury Building and Annex as proposed by the Senate instead of $320,000 as proposed by the House.

Amendment No. 5: Appropriates $71,202,000 for salaries and expenses instead of $68,238,000 as proposed by the House and $71,702,000 as proposed by the Senate.

INTERNATIONAL AFFAIRS

Amendment No. 6: Makes available $727,000 for systems modernization requirements instead of $942,000 as proposed by the House and $512,000 as proposed by the Senate.

Amendment No. 7: Appropriates $33,408,000 for International Affairs instead of $33,325,000 as proposed by the House and $33,492,000 as proposed by the Senate.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

Amendment No. 8: Appropriates $29,147,000 for salaries and expenses instead of $31,459,000 as proposed by the House and $29,367,000 as proposed by the Senate. The amendment also provides up to $1,300,000 for the Inspectors General Auditor Training Institute as proposed by the House.

FINANCIAL CRIMES ENFORCEMENT NETWORK

SALARIES AND EXPENSES

Amendment No. 9: Appropriates $18,342,000 for salaries and expenses as proposed by the Senate instead of $19,087,000 as proposed by the House.

FEDERAL LAW ENFORCEMENT TRAINING CENTER

SALARIES AND EXPENSES

Amendment No. 10: Appropriates $47,158,000 for salaries and expenses instead of $41,236,000 as proposed by the House and $48,538,000 as proposed by the Senate. The amendment also restores language proposed by the House which directs the Federal Law Enforcement Training Center (FLETC) to provide short term medical services for students undergoing training at the Center.
The conferees have provided an additional $4,222,000 for salaries and expenses of the FLETC in fiscal year 1993. These additional funds should be used as follows: $1,844,000 for basic training expenses; $1,630,000 for 21 additional FTEs to meet instruction demands; $498,000 for operational support for the Marana, Arizona satellite facility; and $250,000 for a new training program on gang prevention and education. The conferees expect FLETC to coordinate any training program on gang prevention with the Phoenix Police Department and the Bureau of Alcohol, Tobacco and Firearms prior to initiating such training at the southern Arizona satellite facility.

**Medical Care**

The conferees are agreed that the FLETC should provide short-term, primary medical services for students during their training. This medical care should be limited to first-aid and emergency medical services.

**Coordination With Department of Justice**

The conferees are committed to providing law enforcement training in the most efficient and cost-effective manner possible. The conferees do not support the relocation of Justice Department agencies’ law enforcement training from FLETC, without the prior approval of the House and Senate Appropriations Committees.

In addition, the conferees understand that FLETC has various advanced, foreign, and State/local training courses and is expanding a number of specialized training facilities which may be of use to the Federal Bureau of Investigation and the Drug Enforcement Agency. The conferees encourage the Department of Justice to work with the Treasury Department and FLETC to broaden cooperation and coordination in a manner which can benefit the training of all law enforcement agencies.

**Reimbursements for Training**

FLETC has historically received reimbursements under the Economy Act for expenses of basic training which exceed amounts appropriated by the Congress, and for expenses of advanced training. It is the intent of the conferees that the FLETC continue to receive reimbursement for these costs, in order to respond to the critical needs for law enforcement training of Federal agencies.

The conferees expect that the funding provided in fiscal year 1993 will continue the operations initiated by this Achilles Task Force.

YOUTH GANG INTERVENTION PROGRAMS

The conferees direct the Bureau of Alcohol, Tobacco and Firearms to make $1,600,000, divided equally, available to establish youth gang intervention programs in Albuquerque, New Mexico, and Honolulu, Hawaii, respectively, patterned after the successful pilot program it initiated in fiscal year 1992.

The conferees direct that these offices be staffed, funded, housed, and equipped in a manner consistent with other BATF Divisional Offices, and that staffing charts and implementation plans, to include the geographic area covered by each Division, be submitted to the Committees on Appropriations of the House and Senate within 90 days of the enactment of this Act.

The conferees are providing an additional $10,500,000 for the hiring, training, and equipping of an additional 300 full-time inspector positions during the last six months of fiscal year 1993. The conferees expect these positions to be allocated to meet the unfunded staffing requirements Customs has identified at the following new and expanded ports of entry: Los Indios, TX, 21 FTEs; Columbia, TX, 19 FTEs; Brownsville, TX, 10 FTEs; Rio Grande City, TX, 3 FTEs; El Paso, TX, 12 FTEs; Santa Teresa, NM, 17 FTEs; Douglas, AZ, 5 FTEs; Naco, AZ, 5 FTEs; and Nogales, AZ, 10 FTEs. The remaining positions shall be allocated to the highest priority Southwest land border ports requiring increased inspection staffing.

CUSTOMS ENFORCEMENT INTERNATIONAL OPERATIONS

The conferees are concerned that Customs enforcement operations in Central and South America are critically understaffed. Every indication is that the case load available in the Central and South American countries is unique and that the Customs Service must recognize this need. As a result, the conferees direct the Commissioner of Customs to fill the current agent position in the Montevideo, Uruguay office as a first priority. In addition, the Commissioner is directed to provide the Committees of Appropriations with yearly staffing reports for all overseas Customs Enforcement operations, including a justification statement when establishing a new or expanded overseas Enforcement office. The initial report shall be submitted to both Committees on Appropriations within 90 days of enactment of this Act. The conferees further direct the Customs Service to consider overseas Enforcement operations in the preparation of its agent allocation model which has been requested but not yet received.

The present training center facilities were constructed in 1974 by renovating stables and barns that existed on the property in Shenandoah National Park. Completion of the expansion program will allow the Customs Service to provide training year round with reduced costs, increase the quality of a highly effective program, and continue to support other federal, state, and local law enforcement agencies.

BUREAU OF ENGRAVING AND PRINTING HIRING PRACTICES

The conferees are concerned over hiring practices of the Bureau of Engraving and Printing and the differences that exist between the Washington, D.C. plant and the Fort Worth, Texas plant. In Washington, positions have been filled with temporary employees that have recently been targeted for reductions, whereas in Fort Worth, permanent employees have been hired into apprenticeship positions. The conferees are concerned that temporary journey level plate printers in Washington are not being given the right to apply for the permanent positions in Texas. The conferees direct the Bureau to ensure that existing temporary employees in Washington be given the option of transferring, being detailed or applying for hire for permanent positions in Fort Worth for which they are qualified.

Amendment No. 46: Modifies language proposed by the House and stricken by the Senate on collection and use of efficiency savings in the Internal Revenue Service.

Amendment No. 47: Inserts section number.

Amendment No. 48: Inserts section number.

Amendment No. 49: Inserts section number.

Amendment No. 50: Inserts Senate language which makes a technical change to this provision which authorizes the transfer of funds.
Amendment No. 51: Inserts section number.

Amendment No. 52: Deletes a provision proposed by the Senate which would have established line authority in the Criminal Investigation Division to the Assistant Commissioner for Criminal Investigation.

**CRIMINAL INVESTIGATION DIVISION LINE AUTHORITY**

The conferees are concerned that the Criminal Investigation Division (CID) of the Internal Revenue Service (IRS) has not been given the resources, authority, and attention it deserves.

Therefore the conferees direct the Department of the Treasury to conduct a study of CID management and report its findings and recommendations to the Committees on Appropriations of the House and Senate within nine months of the date of enactment of this legislation. The study committee should include among others, the Assistant Secretary for Management, the Assistant Secretary for Enforcement, the Commissioner of the Internal Revenue Service, the Commissioner of the Customs Service, the Assistant Commissioner of IRS for CID, and a representative from the U.S. Attorneys and the Office for National Drug Control Policy.

However, for fiscal year 1993, the conferees direct the Internal Revenue Service to develop and implement a plan for consistent and continued growth for CI resources to deal with tax, white collar crime, and money laundering responsibilities; Administratively Uncontrollable Overtime (AUO) for agents and all levels of CI managers nationwide, comparable to other Federal law enforcement agencies. Further, the conferees urge IRS to develop and implement a national policy regarding the use of firearms and enforcement vehicles; to allow CI special agents to initiate and participate in wiretaps under Title 31, U.S.C. and Title 18, U.S.C. money laundering investigations, and regarding policy and coordination of national and international cases by the Assistant Commissioner of CID.

The Department of the Treasury shall undertake a review of management positions in CI to determine which positions qualify for Senior Executive Service rank, and review the current IRS SES program which allows the placement of CI managers in nonenforcement positions.

Additionally, the Assistant IRS Commissioner for CI should be given authority to transfer resources as needed within and without the various districts and headquarters offices to meet enforcement needs of CI and to fill critical positions which become vacant. The Assistant Commissioner of CI shall be the deciding official in the selection of CI Division chiefs and top level CI management positions at the field and headquarters level.

Amendment No. 53: Modifies a provision proposed by the Senate which prohibits the Department of the Treasury from “direct billing” any of its bureaus for the postage costs of another Treasury bureau except under certain circumstances and adding, “without the advance approval of the House and Senate Committees on Appropriations.”

This amendment also adds a new section which authorizes the Secretary of Treasury to transfer all obligated and unobligated bal-
ances in the construction of the Mint facilities and expansion and improvements accounts in prior appropriations acts to the account for salaries and expenses. Such transferred balances shall be used for expansion and improvements and shall be available until expended.

This amendment also adds a new section which changes the cap on United States Customs Service employees overtime pay from $30,000 to $25,000.

TITLE II—U.S. POSTAL SERVICE

HANDICAPPED ACCESSIBILITY OF THE HAGERSTOWN POST OFFICE

The main post office building in Hagerstown, Maryland, the County seat of Washington County, is not handicapped accessible. This Post Office is the one that offers unique services to area residents including services to April 15th tax filers, but its services are not all available to handicapped individuals since they are denied access to the lobby of the building.

This Post Office is located in the downtown area of Hagerstown, a location that is a particularly desirable residential area for individuals with physical handicaps due to the immediate availability of many community services which would otherwise be difficult for them to access. The need to make special arrangements to get transportation to other post office buildings in the area places an undue burden on disabled individuals.

The Hagerstown Post Office, constructed in 1935 and added to in 1964, has been determined by the Postal Service to be of historical significance. Under the Postal Service’s own minimum requirements for accessibility to historic buildings, contained in Standards for Facility Accessibility by the Physically Handicapped (Section 4.1.7(2)), the Postal Service must make at least one accessible entrance to the building. This is possible for this building by constructing a ramp parallel to the street in front of the building, but the Postal Service has repeatedly declined to take action on this.

In keeping with the intent of the Architectural Barriers Act as amended in 1976, that all public buildings be handicapped accessible, the conferees urge the Postal Service to make the main post office building in Hagerstown, Maryland, handicapped accessible by no later than September 30, 1993.

NEW YORK POSTAL DATA CENTER

The conferees have learned that the Postal Service announced its intention to close down the New York Postal Data Center early next year. The conferees feel that before this facility is closed, the Postal Service should justify this closure and requires the Postal Service to provide such justification within 60 days of enactment of this Act. This justification should include relocation costs, lease arrangements, alternatives to closure, other affected Centers, personnel considerations, and any projected cost savings.

LONDON, KENTUCKY, POST OFFICE

The conferees are extremely concerned about a Post Office proposal to transfer the mail sorting and processing operations from
the London Post Office in Kentucky to Lexington, Kentucky. The London postal facility is a state-of-the-art facility, designed to process over 275,000 outgoing pieces of mail daily from southeastern Kentucky.

The facility employs over 70 people, and the conferees are extremely concerned that the transfer of mail to Lexington would cause significant job loss in an area that is already economically depressed.

The conferees are opposed to the Post Office moving its mail sorting operation to Lexington, and urges the Postal Service to continue full operations for sorting mail for southeastern Kentucky at the London postal facility.

**GENERAL MAIL FACILITY, WESTCHESTER COUNTY, NY**

The conferees direct the U.S. Postal Service to fulfill its agreement with Westchester County to reimburse the county the sum of $400,000 as agreed between Westchester County and the Postal Service when the agreement was reached to build the postal facility in Westchester County.

**TITLE III—EXECUTIVE OFFICE OF THE PRESIDENT**

**Office of Administration**

Salaries and Expenses

Amendment No. 61: Modifies language proposed by the Senate to appropriate $235,000 for salaries and expenses instead of $247,000 as proposed by the Senate. The House did not provide any appropriation for this account.

Justification Request

The conferees are concerned about an unnecessary and wasteful duplication of efforts between the National Critical Materials Council and other agencies of the federal government engaged in materials-related policy activities. The House, in fact, had acted to eliminate funding for the Council entirely. Therefore, the conferees direct the Administration to submit to the Committees on Appropriations of the House and Senate, with its budget submission for fiscal year 1994, its justification for maintaining the Council in addition to the other agencies engaged in materials-related policy activities, explicitly identifying those functions and responsibilities of the Council which cannot reasonably be carried out by such other agencies. Unless an extremely strong case is made to support continuation of the Council, the conferees expect funding for the Council to be eliminated in fiscal year 1994.

National Security Council

Salaries and Expenses

Amendment No. 62: Appropriates $6,118,000 for salaries and expenses as proposed by the Senate instead of $5,971,000 as proposed by the House.

The OMB has not responded to the Committee’s direction.

The conferees understand that the response has been prepared by OMB but has not been cleared by the White House for reporting to the Committee.

The conferees agree that the report which has been prepared in response to the House report language shall be submitted to the Committees on Appropriations of the House and Senate within 15 days of enactment of this Act.

The conferees are agreed that the full-time equivalent positions for ONDCP shall be 112 instead of 130 as proposed by the House and 100 as proposed by the Senate.

Amendment No. 66: Makes available $86,000,000 for High Intensity Drug Trafficking Areas as proposed by the Senate instead of $50,000,000 as proposed by the House.

Amendment No. 67: Deletes language proposed by the House and inserts language proposed by the Senate. This language mandates the transfer of $36,000,000 to State and local drug control entities for activities which are consistent with the approved strategy for each High Intensity Drug Trafficking Area (HIDTA); limits funds for the Southwest Border HIDTA to those activities approved by the Joint Command Group of Operation Alliance and the Assist-

**Special Forfeiture Fund**

*(INCLUDING TRANSFER OF FUNDS)*

Amendment No. 70: Deletes language proposed by the House and modifies language proposed by the Senate. This amendment provides $75,742,000 for activities authorized by Public Law 100–690 to be derived from deposits in the Special Forfeiture Fund instead of $60,251,000 as proposed by the House and $82,542,000 as proposed by the Senate.

**Substance Abuse and Mental Health Services (ADAMHA/SAMSA) Transfer**

Because of the emergency situation that currently exists in San Francisco, the conferees agreed to earmark $4,700,000 of the funds made available under transfer to ADAMHA/SAMSA to the San Francisco Department of Public Health only for substance abuse treatment programs to reduce waiting lists and lessen the threat of HIV transmission.

**Unanticipated Needs**

Amendment No. 71: Appropriates $1,000,000 for unanticipated needs as proposed by the Senate instead of $800,000 as proposed by the House.

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

SALARIES AND EXPENSES

Amendment No. 75: Appropriates $1,653,000 for salaries and expenses and changes the name of the appropriation as proposed by the House instead of $1,653,000 and no name change as proposed by the Senate.

Amendment No. 79: Establishes a limitation of $626,312,000 for construction instead of $684,952,000 as proposed by the House and $670,377,000 as proposed by the Senate.

Amendment No. 80: Deletes language proposed by the House and modifies language proposed by the Senate which provides funding related to the construction of certain buildings and facilities.
SCRANTON, PENNSYLVANIA, GENERAL MAIL FACILITY

The conferees are aware of the Postal Service's current plans to expand the Scranton, Pennsylvania General Mail Facility by not less than 30,000 square feet. This sorely needed expansion will accommodate automation equipment as well as improve the mail operations in northeastern Pennsylvania. The conferees have included $3,000,000 to accommodate this expansion. Finally, the conferees direct the Postal Service not to move any postal service operations from Scranton.

NEWARK, NEW JERSEY, PARKING FACILITY

The conferees have provided $9,000,000 for a new parking facility for Federal office space requirements in the City of Newark, New Jersey. The conferees expect that GSA will be provided parking spaces without charge for Federal needs proportionate to its share of contributions towards the cost of this project.

LONDON, KENTUCKY, U.S. FEDERAL COURTS

The conferees urge GSA to complete the study of the space requirements and construction of a new building for the U.S. Federal Courts in London, Kentucky and the additional space requirements for several federal agencies in the London, Kentucky area. GSA has indicated that the project for all of the agencies' needs in London could be accomplished under the prospectus threshold. Therefore, the conferees urge GSA to move expeditiously with this project.

BOSTON, MASSACHUSETTS, COURTHOUSE

The conferees have agreed to provide an additional $20,000,000 to permit design and construction of a 500,000 occupiable square foot Courthouse in Boston, Massachusetts to accommodate the long-term requirements of the U.S. Courts. Although the initial concept was for a 400,000 occupiable square foot facility, the Courts have identified the need for an additional 100,000 square feet to provide for their 30 year requirements. The conferees direct the General Services Administration to construct the larger facility. The conferees understand that the construction contract for this project is scheduled for award in the Spring of 1994. If additional funds which the conferees understand may total $19,000,000, are needed for construction of the larger Courthouse, the conferees direct that either a reprogramming request be submitted to Congress for approval or that the additional funds be requested as a construction line item in the fiscal year 1994 President's Budget.

RENO, NEVADA, FEDERAL BUILDING/COURTHOUSE

The conferees are in agreement that this project scope should include the total amount of $37,489,000 for construction of a new Federal Building/Courthouse for Reno, Nevada. This is the amount required to construct a building as planned and approved by the General Services Administration and the U.S. Courts. For contrac-
tual purposes, it is not necessary to fully fund this project at this
time.

**Brooklyn, New York, Courthouse**

The conferees intend that the funds provided to the General Services Administration be used to continue the design and precon-struction activities related to the construction of a new United States Courthouse facility in Brooklyn, New York. The project will require a substantial renovation of the current United States Post Office building at Cadman Plaza to turn it into a Court facility. It is the conferees' intent that any renovation plans be consistent with the historic character of the Post Office building and shall not include major additions to the current Post Office structure. It is the further intent of the conferees that in developing plans for this project, the General Services Administration shall fully utilize space available in the current Emanuel Celler Federal Building and the current United States Courthouse.

**International Cultural and Trade Center**

None of these funds may be used to move or facilitate the movement into the Federal Triangle Building of any federal agency, or unit thereof, whose mission is inconsistent with the provisions of Public Law 100–113. The General Services Administration shall submit a housing plan, as required by Public Law 100–113, to the Senate Committee on Environment and Public Works and the House Committee on Public Works and Transportation by March 1, 1993, which provides for the inclusion of federal agencies, or units thereof, in this facility which have trade or culture as their mission.

Amendment No. 81: Modifies language proposed by the House and stricken by the Senate which provides $5,000,000 for the acquisition, lease, construction, and equipping of a flexplace work telecommuting center in southern Maryland, the Eastern Shore of Maryland, and in northwestern Virginia.

**Hagerstown, Maryland, Telecommuting Center**

The conferees are aware that the General Services Administration and the Office of Personnel Management have been working on developing a telecommuting center in Hagerstown, Maryland. The conferees are very pleased with the work done to date on the Hagerstown facility and direct GSA and OPM to continue these efforts within the funds provided and open this facility as soon as possible.

Amendment No. 82: Deletes language proposed by the Senate.

**Food and Drug Administration Facilities**

The Senate included bill language directing GSA to acquire land for the construction of consolidated facilities for the Food and Drug Administration's Center for Biologics Evaluation and Research (CBER), Center for Devices and Radiological Health (CDRH), and Center for Drug Evaluation and Research (CDER) in Montgomery County, Maryland, and for the Center for Veterinary Medicine
(CVM) and the Center for Food Safety and Applied Nutrition (CFSAN) in Prince George's County, Maryland. Following the adoption of that language by the Senate Appropriations Committee, the Office of Management and Budget sent to Congress on July 29, 1992 a plan to meet FDA's housing needs.

Based upon agreements reached with the Administration, the conferees have deleted the Senate language from the bill. The conferees note that OMB has made the following commitment:

If government-owned land has not been identified fully to accommodate the needs identified in the July 29 plan for CDRH and CDER by October 27, 1992, 90 days after the plan was presented to you, GSA will proceed with solicitations to purchase private land in Montgomery County. Similarly, if government-owned land has not been identified by October 27, 1992, to accommodate CBER's needs identified in the July 29 plan, GSA will proceed with solicitations to lease space and/or purchase private land in Montgomery County.

As the plan stated, the remainder of the funds for this project will be provided in 1994 and 1995. While only the President can commit to include funding in a future budget, it is our intention to seek at least partial further funding of the plan as part of the 1994 budget.

The conferees have further been assured by OMB that, if existing federal land cannot be identified to accommodate CDRH and CDER, no less than 129 acres will be purchased in Montgomery County to house these two centers, and that an amount adequate to meet the needs of CBER will be purchased in Montgomery County, if CBER's needs cannot be accommodated in part or in whole on existing federal land or leased space. GSA shall work with FDA, Prince George's County Government and the U.S. Department of Agriculture in preparing a plan for consolidating CVM and consolidating CFSAN, using government-owned land, leased space, or a combination thereof.

Amendment No. 83: Restores language proposed by the House which directs the Secretary of Commerce to provide permanent easements, as agreed between the Department and the City of Boulder, Colorado.

Amendment No. 84: Inserts language proposed by the Senate which rescinds funds appropriated for the Department of Transportation headquarters site.

Amendment No. 85: Establishes a limitation of $594,066,000 for repairs and alterations as proposed by the Senate instead of $583,255,000 as proposed by the House.

Amendment No. 86: Modifies a provision proposed by the House and stricken by the Senate regarding Capital Improvements of the United States Mexico Border facilities.

EL PASO PORTS OF ENTRY PROJECTS

The conferees have agreed to a general provision which requires the General Services Administration to provide up to $1,500,000 for a hazardous materials containment facility at the
Bridge of the Americas and up to $1,500,000 for a hazardous materials containment facility at Ysleta/Zaragosa from funds already made available for facilities at these two ports. The conferees have also provided $7,500,000 for site acquisition and construction at Ysleta/Zaragosa, its availability for obligation contingent upon receipt of a report from GSA and the appropriate Federal inspection agencies, by no later than June 1, 1993, recommending the need for these projects.

In approving these amounts, the conferees fully expect GSA to plan, design, and construct hazardous materials containment facilities at both Bridge of the Americas and Ysleta/Zaragosa that will meet current and future requirements at these ports of entry. The conferees expect that no less than $700,000 shall be made available for each of the hazardous materials containment facilities in order to accommodate the expected increase in Federal inspection agency requirements in the future.

With regard to the site acquisition and construction funding approved by the conferees, the conferees fully expect GSA and the Federal inspection agencies to include input from State and local officials and from the border trade and enforcement community in the report to be submitted to the Committees on Appropriations of the House and Senate. The conferees also fully expect GSA to obtain significant input from the local and regional officials of the Federal inspection agencies that will be assisting in the preparation of this report. The conferees further expect the analysis by GSA, the Federal inspection agencies, and the border officials to give the site acquisition and construction proposal every possible consideration for future needs.

Southwest Border Station Capital Improvement Program

The conferees note that both the House and Senate have included language in their respective reports that call for a long-term analysis of the capital improvement requirements for border stations and other facilities along the United States-Mexico border. The House Report (102–618) includes a directive to General Services Administration (GSA), in cooperation with Customs and other Federal inspection agencies, to coordinate a 5-year plan to identify and implement a Southwest Border Station Capital Improvement Program.

The conferees agree that the GSA, in cooperation with U.S. Customs; the other Federal border inspection agencies; and the Department of State, with direct input from affected border community representatives, including state and local officials; private industry; and the border trade community, shall coordinate a five-year plan which identifies and implements another Southwest Border Station Capital Improvement Program to begin in fiscal year 1994. The conferees further agree that such a plan shall include an estimate of costs of each facility and identify milestones to achieve the completion of the projects. The conferees expect the Plan to be completed and submitted to the Committees on Appropriations of the House and Senate by no later than April 1, 1993.
Amendment No. 87: Establishes a limitation of $273,300,000 for minor repairs and alterations instead of $256,489,000 as proposed by the House and $280,800,000 as proposed by the Senate.

Amendment No. 88: Establishes a limitation of $1,130,871,000 for real property operations instead of $1,170,000,000 as proposed by the House and $1,073,363,000 as proposed by the Senate.

Amendment No. 89: Establishes a limitation of $179,930,000 for design and construction services as proposed by the Senate instead of $195,930,000 as proposed by the House.

National Science Foundation

During these difficult fiscal times when conserving all our resources is crucial, the conferees are concerned by the National Science Foundation's continued resistance to its planned relocation. Congress appropriated $7,000,000 in fiscal year 1992 for this relocation to a site selected by the General Services Administration (GSA) and accepted by the Foundation. A failure by the Foundation to utilize these and other resources available to it for this move will result in unnecessary costs to the Foundation, the GSA, and the taxpayers; such a failure would be unacceptable and could jeopardize resources available to the Foundation in the future.

Amendment No. 90: Deletes House language listing buildings which may proceed without an approved prospectus and inserts Senate language which provides that projects listed in this Act may proceed without approved prospectuses.

Amendment No. 91: Establishes a total limitation on the Federal Buildings Fund of $4,717,251,000 instead of $4,820,209,000 as proposed by the House and $4,713,808,000 as proposed by the Senate.

Federal Supply Service

Operating Expenses

Amendment No. 92: Appropriates $56,144,000 for operating expenses instead of $56,070,000 as proposed by the House and $56,217,000 as proposed by the Senate.

Security Standards for Containers, Vaults, or Locks

The conferees are concerned about any attempt to weaken security standards for containers, vaults, or locks. The conferees direct that material of a top secret, secret, or confidential nature should be stored in containers and with self-powered locks that meet existing General Services Administration (GSA), federal government wide standards. The conferees direct that GSA not alter the authority or composition of the Interagency Advisory Committee on Security Equipment (IACSE) or otherwise undermine existing directives for current GSA, federal government wide, standards for physical security equipment established by the IACSE on or before March 31, 1993.
GENERAL MANAGEMENT AND ADMINISTRATION

SALARIES AND EXPENSES

Amendment No. 93: Appropriates $34,000,000 for salaries and expenses instead of $31,155,000 as proposed by the House and $34,747,000 as proposed by the Senate.

PATENT AND TRADEMARK OFFICE RENTAL RATES

Last year, the General Services Administration (GSA) was directed to conduct a reappraisal of the 1992 rental rates to be assessed to the Patent and Trademark Office (PTO) for space leased in Crystal City, Arlington, Virginia. As a result of the reappraisal, rent rates charged PTO were adjusted downward by $4,800,000.

The conferees fully expect the 1992 appraisal to establish the base rate from which annual adjustments will be made during the remaining four years of the five year rent cycle, and expect that any increases will be made in accordance with the existing law regarding the appraisal of Federal space.

Amendment No. 94: Deletes language proposed by the House which would have included mandated funding for major equipment acquisitions and systems development projects.

INFORMATION RESOURCES MANAGEMENT SERVICE

OPERATING EXPENSES

Amendment No. 95: Appropriates $46,419,000 for operating expenses instead of $45,787,000 as proposed by the House and $47,051,000 as proposed by the Senate.

EXPENSES, PRESIDENTIAL TRANSITION

Amendment No. 97: Restores language proposed by the House and stricken by the Senate which provides $5,000,000 for expenses of Presidential Transition.

An appropriation of $5,000,000 is provided for expenses of a Presidential Transition pursuant to the Presidential Transition Act of 1963, as amended, in the event it should occur as a result of the 1992 Presidential election. It is recognized that in providing suitable office space for the transition there will be no charge against the appropriation for any Federally-provided space if such space is available.

GENERAL SERVICES ADMINISTRATION

GENERAL PROVISIONS

Amendment No. 107: Inserts a provision proposed by the Senate which requires the Administrator of General Services to reprogram $3,000,000 for modification of the pavilion at the Foley Square Federal Building in New York and to undertake other activities with respect to the Negro burial ground.

This amendment also inserts a new provision which authorizes the Administrator of General Services to proceed with the design and construction of a courthouse in Boston, Massachusetts.

This amendment also inserts a new provision which authorizes the Administrator of General Services to enter into an interagency agreement with the Postal Service for a Federal office building in Philadelphia, Pennsylvania. The conferences are agreed that the terms and conditions of this section shall not take effect without the advance approval of the House Committee on Public Works and Transportation and the Senate Committee on Environment and Public Works.

This amendment also inserts a new provision which names the Laboratory at the Centers for Disease Control in Atlanta, Georgia for Congressman Edward R. Roybal of California.
This amendment also inserts a new provision which names the Campus at the Centers for Disease Control in Atlanta, Georgia for Congressman Edward R. Roybal of California.

This amendment also inserts a new provision which names a Federal Building in Long Beach, California for Congressman Glenn M. Anderson of California.

Amendment No. 110: Appropriates $8,265,000 for salaries and expenses as proposed by the House instead of $8,365,000 as proposed by the Senate.

OFFICE OF PERSONNEL MANAGEMENT

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

This amendment also modifies language proposed by the Senate which provides funds for the establishment of health promotion and disease prevention.

CONCERN OVER PROPOSALS TO REDUCE FEDERAL PAY

The conferees are very concerned over proposals by the President to reduce the pay of certain Federal employees by five percent. In most cases, legislation would be required to accomplish such a reduction. For certain Federal employees, however, the President has the unilateral ability to accomplish such a reduction in pay. Whereas the conferees hold that it is certainly the President’s right to seek legislation to accomplish this end, the conferees do not believe it is appropriate to single out selective groups for such reductions in pay through unilateral action by the Executive Branch. The conferees had intended to include in this Bill language which would suspend the authority to reduce pay without legislative action. The conferees have been assured by the Administration, however, that no such unilateral reduction in pay or benefits
shall occur either in this fiscal year or in the coming fiscal year and that any reductions would only occur as a result of legislation passed by the Congress and signed by the President. Based upon this commitment by the President, the conferees have not included legislation in this year's conference report.

PALMER CHIROPRACTIC UNIVERSITY

The conferees concur with the language contained in Senate Report 102-353 regarding a collaborative study by the Consortium for Chiropractic Research, Palmer Chiropractic University and the Office of Personnel Management to examine how chiropractic medicine might be able to reduce the prevalence and cost of lower back dysfunction among Federal employees within the Federal Employees Health Benefits Program.

Amendment No. 112: Makes available $86,032,000 for administrative expenses instead of $87,032,000 as proposed by the House and $83,039,000 as proposed by the Senate.

Amendment No. 113: Deletes language proposed by the House which would have provided $1,012,000 for establishment of a toll-free telephone line.

BOYERS, PENNSYLVANIA, RETIREMENT INFORMATION OFFICE

The conferees direct the OPM to provide up to $1,000,000 in the Office of Personnel Management's Retirement and Insurance Group account and direct OPM to use funds to open a Retirement Information Office at its Operations Center in Boyers, Pennsylvania. This is the amount identified by OPM as necessary to establish this office. According to OPM estimates, the establishment of this center would double the agency's existing capacity to respond to telephone inquiries from Federal retirees and their survivors.

Amendment No. 114: Makes available $616,000 for the National Advisory Council on the Public Service as proposed by the Senate instead of $270,000 as proposed by the House.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

Amendment No. 115: Appropriates $4,227,000 for salaries and expenses as proposed by the Senate instead of $4,528,000 as proposed by the House.

Amendment No. 116: Makes available $6,500,000 for administrative expenses instead of $6,956,000 as proposed by the House and $6,105,000 as proposed by the Senate.

MERIT SYSTEMS PROTECTION BOARD

(INCLUDING TRANSFER OF FUNDS)

Amendment No. 118: Appropriates $7,952,000 for salaries and expenses instead of $7,949,000 as proposed by the House and $7,962,000 as proposed by the Senate.

FEDERAL LABOR RELATIONS AUTHORITY

SALARIES AND EXPENSES

Amendment No. 119: Appropriates $21,647,000 for salaries and expenses instead of $21,637,000 as proposed by the House and $21,657,000 as proposed by the Senate.

U.S. TAX COURT

SALARIES AND EXPENSES

Amendment No. 120: Appropriates $32,435,000 for salaries and expenses as proposed by the House instead of $33,500,000 as proposed by the Senate.

The conferees have taken this action because the Senate has already confirmed the appointment of new judges for the Tax Court. However, the conferees remain concerned about the increasing number of judges and the decreasing number of backlog cases. It does not seem reasonable to nominate new judges when the backlog of cases is decreasing. Therefore, the conferees agree that the Tax Court shall, with its fiscal year 1994 budget request, provide the Committees on Appropriations of the House and Senate, an analysis on the number of backlog cases and the complexity of those cases.

TITLE V—GENERAL PROVISIONS

This Act

Amendment No. 150: Modifies a provision proposed by the Senate which prohibits the Office of Personnel Management from using funds to prepare, promulgate, or implement any regulations relating to the Combined Federal Campaign without the inclusion of a brochure which lists and provides options on certain international agencies.
Amendment No. 151: Inserts section number.
Amendment No. 152: Inserts a provision proposed by the Senate which changes a location designation.
Amendment No. 153: Restores a provision proposed by the House and stricken by the Senate which requires certification of closed captioned commercials by Presidential and Vice Presidential candidates before receiving funds from the Federal Election Commission.
Amendment No. 154: Restores a provision proposed by the House and stricken by the Senate which increases penalties for transporting, importing, and failing to mark goods made with forced labor.
Amendment No. 155: Deletes a provision proposed by the House which provided that none of the funds made available could be used to fund the Council on Competitiveness or any successor organization.

It is the position of the conferees that under the Administrative Procedures Act comments from all concerned parties pertaining to pending regulatory actions of the federal government are to be made available for public review; that the Council on Competitiveness has intervened in the regulatory process without authority from Congress, and refuses to disclose comments and communications it considers affecting such regulatory actions, or the facts and evidence upon which its interventions are based; and that the Council’s refusal to cooperate with congressional committees conducting legitimate inquiries into its activities impedes the responsibilities of the Congress to oversee the expenditure of public funds.

Further, it is the position of the conferees that: (1) The Council, when it determines to undertake substantial revision of a pending regulatory action, should establish a public docket for each regulatory action it seeks to revise, which shall be made available to the public and be available for copying; and promptly include in the public docket and transmit to the head of the agency conducting the regulatory action each communication concerning any regulatory action of an agency that occurs between the Council and any person who is not an employee of the Council, other than the
President or the Vice President; (2) each substantive written revision in a regulatory action which is made or proposed by an employee of the Council should be submitted by the head of the Council in writing to the head of the agency conducting the regulatory action, with a statement of the reasons for such change or proposed change; (3) the term "Council" is intended to include the Council on Competitiveness or such other similar reviewing agency established within the Executive Office of the President.

Amendment No. 156: Modifies a provision proposed by the Senate which concerns Secret Service protection for former Presidents and their families.

The conferees are concerned about the costs to the American taxpayer of providing Secret Service protection in perpetuity to former Presidents, their families, and spouses of deceased former Presidents. In fiscal year 1993, estimated costs for this protection are expected to reach $15,000,000 and will increase beyond this amount if there is a new President in the White House in 1993. The conferees are convinced that there are many viable alternatives to the current protection which could be provided which will ensure a commensurate level of security for former Presidents and their families at much lower costs to the taxpayer. In August of 1985, former President Nixon dropped his Secret Service protection for a private security contractor. The former President estimates that his entire security costs this year will be in the range of $120,000. President Nixon estimates that as a result, he has saved the Federal Treasury $21,000,000 to date. However, the Executive branch has not shown any interest in pursuing cost-effective changes to the current protection program. In some cases, the conferees have been informed that former Presidents are not even aware of the costs of their protection by the agency. Therefore, the conferees have included a provision in the bill which requires the Director of the Secret Service to meet with each former President and the spouses of deceased former Presidents to explain its costs for each protective detail, the threat assessments for each protegee, identify and discuss feasible less-costly alternatives with these proteges, and provide the Committees on Appropriations of the House and Senate with a confidential briefing on the results of the meetings. The conferees expect these meetings to be concluded by no later than April 15, 1993 and briefings provided to the members should be completed by no later than June 1, 1993.

Amendment No. 157: Inserts a provision proposed by the Senate which authorizes modifications to the Federal employees health benefits program to clarify coverage for self-referrals for individuals enrolled in certain health membership plans.

Amendment No. 158: Inserts a provision proposed by the Senate which prohibits proposed Internal Revenue Service moves of certain employees in New York.

Amendment No. 159: Deletes a provision proposed by the Senate which reduces funding for a variety of accounts. This amendment also reduces the amount appropriated to the Postal Service for revenue forgone to $121,912,000. The conferees realize that the provision for revenue forgone appropriations is only an interim measure and that permanent legislative reform is needed. Any permanent legislative reform of the revenue forgone appro-
priations authorization must be fair to the Postal Service, require all mailers, both for-profit and non-profit, to assume a fair and reasonable share of the Postal Service's institutional costs and reflect the social benefits of non-profit organizations.

TITLE VI—GENERAL PROVISIONS DEPARTMENTS, AGENCIES, AND CORPORATIONS

Amendment No. 160: Inserts language proposed by the Senate which clarifies the meaning of the word "office".

Amendment No. 161: Modifies a provision proposed by the House and stricken by the Senate which concerns the FTS2000 use and procurement.

The conferees have agreed to continue the language carried in this Act for several years mandating the use of FTS2000 for the procurement of any product or service that is subject to the provisions of Public Law 89-306, under conditions set forth therein.

The conferees are also agreed that the President should issue an Executive Order to that effect.

Amendment Nos. 162-163: Inserts section numbers.

Amendment No. 164: Changes section number as proposed by the Senate.

Amendment Nos. 165-166: Inserts section numbers.

Amendment No. 168: Deletes the word "the" proposed by the House.

Amendment No. 169: Deletes language proposed by the House and stricken by the Senate which concerns a resolution of the House and inserts Senate language.

Amendment No. 170: Inserts language proposed by the Senate which includes the "United States Senate", in the proposed resolution.

Amendment No. 171: Deletes a provision proposed by the House and stricken by the Senate which expressed a Sense of the House Resolution that it is inappropriate for the Postal Service to provide customers with free trips to Barcelona, Spain, during the 1992 Summer Olympics.

Amendment No. 172: Deletes a provision proposed by the House and stricken by the Senate which would have limited funds available for any certificate of label approved which authorized the use of the name, "Crazy Horse". This is addressed in amendment number 179.

Amendment No. 173: Modifies a provision proposed by the Senate which concerns violations of the Trading with the Enemy Act.

Amendment No. 174: Modifies a provision proposed by the Senate which concerns penalties under the International Emergency Economic Powers Act.

Amendment No. 175: Deletes a provision proposed by the Senate which would have authorized law enforcement authority for special agents of the Office of Foreign Assets Control.
Amendment No. 176: Modifies a provision proposed by the Senate which is intended to promote recycling of toner cartridges and Government purchases of recycled cartridges. With the growing use of laser printers and photocopy machines throughout the government, an increasingly large number of nonbiodegradable toner cartridges are used and discarded by the Government. The conferees have received reports that millions of cubic feet of plastic toner cartridges are scrapped and thrown into landfills each year. However, industry has developed methods for recycling and remanufacturing these cartridges so that they may be reused and print thousands of additional pages. These recycled cartridges are priced substantially below the market prices for new cartridges.

The General Services Administration has authorized the use of recycled toner cartridges and included the recycled products as part of the Federal supply schedule. This section is intended to take an additional step by establishing a preference for the purchase of recycled cartridges in executive branch acquisitions.

Under this provision, all executive branch agencies shall purchase recycled toner cartridges to meet needs for laser printers, copiers, and microphotographic printers unless one of two exceptions apply. If the contracting officer determines after adequate market research that none, or an insufficient quantity of recycled cartridges is available to meet its minimum needs, new cartridges may be purchased. With this exception the conferees recognize that there may be some printer or copier application for which there is not an existing recycled cartridge technology. In such cases, the agency will have to purchase new manufactured cartridges.

The second exception which could apply to the recycled cartridges preference is based on price. If the contracting officer determines that the price or life cycle cost offered for the recycled cartridge suitable for the Government’s needs is higher than the lowest priced newly manufactured cartridge which meets the Government’s needs, the preference will not apply. For purposes of this exception, the contracting officer’s determination shall be made on the basis of the proposals received for the particular cartridge procurement.

The conferees also recognize in some cases, the only available recycled cartridges may not meet generally accepted industry standards for quality. It is not the intent of this provision to promote the acquisition of substandard quality products. Therefore, the legislation restricts the preference to only those recycled cartridge products manufactured in the United States by a small business which has been evaluated by an independent laboratory (such as Torrey Pines Research or Underwriters Laboratory) and certified to meet generally accepted industry standards. Such evaluation would involve testing recycled cartridge products for printer quality performance, long-term wear resistant and other functional characteristics as well as inspection of the vendor’s facilities and manufacturing process to assure conformance to industry standards.

The conferees also recognized that in some cases, newly manufactured toner cartridges are bundled into the initial acquisitions of printers and copiers. This provision is not intended to apply to the inclusion of newly manufactured cartridges included with a printer
or copier as part of an initial purchase package. However, this provision is intended to apply to all subsequent purchases of toner cartridges for use on printers and copiers.

The conferees emphasize to all agencies that because of this recycling effort, empty toner cartridges do have value and must be returned for recycling purposes. Methods for collecting and returning the cartridges to be remanufactured should be provided by the vendor conducting the recycling.

Amendment No. 177: Modifies a provision proposed by the Senate which directs the Secretary of Agriculture to implement a program to protect Hawaii from the introduction of prohibited plants and pests sent through the mail.

This provision would require that a program be instituted to identify pests entering Hawaii through the mails.

During the 100th Congress, legislation was enacted to prevent the dissemination of pests through the mails. Under the current program, mail leaving Hawaii can be examined, but mail bound for Hawaii is not. This section of the bill would turn the existing one-way inspection into a two-way program.

The Postal Service and the Department of Agriculture are to carry out the inspection program using amounts appropriated or otherwise available to the agencies. The conferees intend that the volume of mail bound for Hawaii inspected under the new program be proportionate to the volume of Hawaii mail bound for the mainland that was inspected during the period in calendar year 1990 that the P.L. 100–574 program commenced, after any differences in incoming and outgoing mail volumes are taken into account.

Amendment No. 178: Inserts a provision proposed by the Senate which prohibits the use of funds for the relocation of a Department of Justice office in Arizona.

Amendment No. 179: Inserts a provision proposed by the Senate which directs the Bureau of Alcohol, Tobacco, and Firearms to deny any application for certificate of label approval which authorizes the use of the name “Crazy Horse”. The amendment makes an exception for those labels which have been permanently affixed or were ordered on or before September 15, 1992.

Amendment No. 180: Modifies a provision proposed by the Senate which authorizes the Administrator of the General Services to enter into a contract with the Greater Orlando Aviation Authority under certain circumstances with prior Congressional approval.

Amendment No. 181: Modifies a provision proposed by the Senate which establishes the “Social Security Notch Fairness Investigatory Commission Act of 1992”.

This amendment also inserts a new provision which authorizes the utilization of Beltsville Agricultural Research Center land for the construction of Wetlands mitigation projects under certain conditions.

This amendment also inserts a new provision which addresses the U.S. Customs Service pilot pre-clearance program in Aruba.

This amendment also inserts a new provision which establishes in the Department of the Treasury an asset forfeiture fund to be administered by the Secretary of the Treasury. The Fund is patterned after the Department of Justice Assets Forfeiture Fund (28 U.S.C. 524(c)) and the Customs Forfeiture Fund (19 U.S.C. 1613 b).
The Fund shall be available to the Secretary of the Treasury to pay or reimburse certain costs and expenses related to seizures and forfeitures that occur pursuant to the Department of the Treasury's law enforcement activities. Participating Treasury law enforcement organizations include the United States Customs Service, United States Secret Service, the Internal Revenue Service (IRS) (except pursuant to sections 7301 or 7302 of the Internal Revenue Code), the Bureau of Alcohol, Tobacco and Firearms (BATF), the Financial Crimes Enforcement Network, and the Federal Law Enforcement Training Center. In addition, the United States Coast Guard would participate in the Treasury Forfeiture Fund just as it now participates in the Customs Forfeiture Fund.

Currently, under 19 U.S.C. 1613b, the proceeds from assets seized and forfeited from investigations by Customs Service officials are deposited into the Customs Forfeiture Fund. For all other Department of the Treasury law enforcement bureaus, proceeds from seized and forfeited assets are deposited into the Department of Justice Assets Forfeiture Fund, 28 U.S.C. 524(c), or into the general fund of the United States Treasury. Under current law, any transfers made from the Department of Justice Fund to the Department of the Treasury law enforcement bureaus, except for the Customs Service and except for uncapped, nondiscriminatory expenses, are made at the discretion of the Department of Justice, subject to certain statutory restrictions.

Just as the Customs Service and the Department of Justice currently have a permanent indefinite appropriation to pay certain costs related to seizure and forfeiture, the Treasury Fund will be available for similar expenses with the same fiscal limitations. Moreover, most of the authorized uses of the Fund exist in substance for the Customs Forfeiture Fund and the Department of Justice Assets Forfeiture Fund and are merely extended to the other bureaus and offices that will participate in the Treasury Fund. Where examples of authorized uses are listed, the lists are non-exclusive.

The language also contains technical and conforming amendments to the Department of Justice Assets Forfeiture Fund to ensure that the authorized uses of both forfeiture funds are substantially identical.

The conferees believe that the establishment of the Treasury Forfeiture Fund will provide the Secretary of the Treasury with the tools and mechanisms necessary to manage properly the law enforcement activities under the Treasury Secretary's jurisdiction. The conferees are convinced that this language, which consolidates all forfeiture and seizure activities Treasury Department law enforcement organizations are responsible for under a single and appropriate chain of command within the Department of the Treasury, will result in increased efficiencies and improved accountability.
