**Independent Offices—General Provisions**

Amendment No. 86—Purchase of passenger motor vehicles: Reported in disagreement.
Amendments Nos. 87 and 88—*Operating-differential* subsidies: Reported in disagreement. In connection with amendment No. 88, the conferees on the part of the House point out that for several years the committee has been urging that the monopoly which presently exists in connection with operating-differential subsidy shipping contracts be broken. The former Maritime Commission showed little inclination to break the monopoly and it is believed that the present Federal Maritime Board is favoring the monopoly. The present Maritime Board which has been in office during the past year, has approved long-term contracts covering a maximum of 379 voyages for 2 companies and there are contracts for a maximum number of 842 voyages pending for 10 companies that have not been renewed, all of which are for companies which have heretofore enjoyed long-term subsidy contracts. It is the understanding of the conferees that the Maritime Administration, both past and present, in renewing these long-term contracts have increased the minimum and the maximum number of voyages by the present holders of contracts, rather than decreasing them, to the exclusion of new applicants. The members of the conference committee insist that the number of voyages of the companies who enjoy and have enjoyed the benefits of subsidized operating-differential subsidy contracts since the inception of the law in 1937 be reduced so that other companies or individuals who have not enjoyed these benefits be permitted to do so. The managers on the part of the House will recommend that a flat limitation of 1,522 voyages be allowed. That number is in excess of the number of voyages approved in recent years by 88. These subsidized voyages have increased practically every year. The managers on the part of the House will recommend that 307 of the 1,522 voyages allowed be set aside for companies who have not participated heretofore in these subsidies. The conferees are of the opinion that it is grossly unfair for a monopoly to exist between 13 or 14 companies in this field and that the monopoly should be broken.

Amendments Nos. 89, 90, 91, and 92—*Salaries and expenses*: Appropriate $15,651,400 as proposed by the House, instead of $16,200,350 as proposed by the Senate; insert the provision of the Senate placing a limitation on funds available for personal services; authorize the purchase of two passenger motor vehicles as proposed by the Senate, instead of five as proposed by the House; and provide $8,029,400 for administrative expenses as proposed by the House, instead of $8,578,350 as proposed by the Senate.

Amendments Nos. 93, 94, 95, and 96—*Maritime training*: Appropriate $3,724,500 as proposed by the House, instead of $4,108,500 as proposed by the Senate; authorize the transfer of $69,300 as proposed by the House, instead of $77,000 as proposed by the Senate for use by the Public Health Service in connection with services rendered the Maritime Administration; authorize the purchase of two passenger motor vehicles as proposed by the Senate, instead of four as proposed by the House; and insert the words “and other trainees” as proposed by the Senate.

Amendment No. 99—National defense: Strikes out the provision of the House continuing the 1951 unexpended balance available for this purpose during the fiscal year 1952 and inserts the provision of the Senate in connection with this item.

**Title IV—Corporations**

Amendment No. 101—Nonadministrative expenses, Federal National Mortgage Association: Restores the provision of the House amended to clarify the type of expense to which the limitation shall apply.

Amendment No. 102—Prefabricated housing: Reported in disagreement.

Amendments Nos. 103 and 104—Federal Housing Administration: Authorize the use of $4,949,000 of funds available to the Administration for administrative expenses, instead of $4,824,000 as proposed by the House and $5,074,000 as proposed by the Senate; and restore the limitation of the House on nonadministrative expenses increased to $23,300,000, instead of $22,320,000 as provided in the House bill.
