SEC. 1211. Section 3679 of the Revised Statutes, as amended (31 U. S. C. 663), is hereby further amended to read as follows:

"Sec. 3679. (a) No officer or employee of the United States shall make or authorize an expenditure from or create or authorize an obligation under any appropriation or fund in excess of the amount
available therein; nor shall any such officer or employee involve the Government in any contract or other obligation, for the payment of money for any purpose, in advance of appropriations made for such purpose, unless such contract or obligation is authorized by law.

"(b) No officer or employee of the United States shall accept voluntary service for the United States or employ personal service in excess of that authorized by law, except in cases of emergency involving the safety of human life or the protection of property.

"(c) (1) Except as otherwise provided in this section, all appropriations or funds available for obligation for a definite period of time shall be so apportioned as to prevent obligation or expenditure thereof in a manner which would indicate a necessity for deficiency or supplemental appropriations for such period; and all appropriations or funds not limited to a definite period of time, and all authorizations to create obligations by contract in advance of appropriations, shall be so apportioned as to achieve the most effective and economical use thereof. As used hereafter in this section, the term ‘appropriation’ means appropriations, funds, and authorizations to create obligations by contract in advance of appropriations.

"(2) In apportioning any appropriation, reserves may be established to provide for contingencies, or to effect savings whenever savings are made possible by or through changes in requirements, greater efficiency of operations, or other developments subsequent to the date on which such appropriation was made available. Whenever it is determined by an officer designated in subsection (d) of this section to make apportionments and reapportionments that any amount so reserved will not be required to carry out the purposes of the appropriation concerned, he shall recommend the rescission of such amount in the manner provided in the Budget and Accounting Act, 1921, for estimates of appropriations.

"(3) Any appropriation subject to apportionment shall be distributed by months, calendar quarters, operating seasons, or other time periods, or by activities, functions, projects, or objects, or by a combination thereof, as may be deemed appropriate by the officers designated in subsection (d) of this section to make apportionments and reapportionments. Except as otherwise specified by the officer making the apportionment, amounts so apportioned shall remain available for obligation, in accordance with the terms of the appropriation, on a cumulative basis unless reapportioned.

"(4) Apportionments shall be reviewed at least four times each year by the officers designated in subsection (d) of this section to make apportionments and reapportionments, and such reapportionments made or such reserves established, modified, or released as may be necessary to further the effective use of the appropriation concerned, in accordance with the purposes stated in paragraph (1) of this subsection.

"(d) (1) Any appropriation available to the legislative branch, the judiciary, or the District of Columbia, which is required to be apportioned under subsection (c) of this section, shall be apportioned or reapportioned in writing by the officer having administrative control of such appropriation. Each such appropriation shall be apportioned not later than thirty days before the beginning of the fiscal year for which the appropriation is available, or not more than thirty
days after approval of the Act by which the appropriation is made available, whichever is later.

"(2) Any appropriation available to an agency, which is required to be apportioned under subsection (c) of this section, shall be apportioned or reapportioned in writing by the Director of the Bureau of the Budget. The head of each agency to which any such appropriation is available shall submit to the Bureau of the Budget information, in such form and manner and at such time or times as the Director may prescribe, as may be required for the apportionment of such appropriation. Such information shall be submitted not later than forty days before the beginning of any fiscal year for which the appropriation is available, or not more than fifteen days after approval of the Act by which such appropriation is made available, whichever is later. The Director of the Bureau of the Budget shall apportion each such appropriation and shall notify the agency concerned of his action not later than twenty days before the beginning of the fiscal year for which the appropriation is available, or not more than thirty days after the approval of the Act by which such appropriation is made available, whichever is later. When used in this section, the term 'agency' means any executive department, agency, commission, authority, administration, board, or other independent establishment in the executive branch of the Government, including any corporation wholly or partly owned by the United States which is an instrumentality of the United States. Nothing in this subsection shall be so construed as to interfere with the initiation, operation, and administration of agricultural price support programs and no funds (other than funds for administrative expenses) available for price support, surplus removal, and available under Section 32 of the Act of August 24, 1935, as amended (7 U. S. C. 612 (c)), with respect to agricultural commodities shall be subject to apportionment pursuant to this section. The provisions of this section shall not apply to any corporation which obtains funds for making loans, other than paid in capital funds, without legal liability on the part of the United States.

"(c) (1) No apportionment or reapportionment which, in the judgment of the officer making such apportionment or reapportionment, would indicate a necessity for a deficiency or supplemental estimate shall be made except upon a determination by such officer that such action is required because of (A) any laws enacted subsequent to the transmission to the Congress of the estimates for an appropriation which require expenditures beyond administrative control; or (B) emergencies involving the safety of human life, the protection of property, or the immediate welfare of individuals in cases where an appropriation has been made to enable the United States to make payment of, or contributions toward, sums which are required to be paid to individuals either in specific amounts fixed by law or in accordance with formulae prescribed by law.

"(2) In each case of an apportionment or a reapportionment which, in the judgment of the officer making such apportionment or reapportionment, would indicate a necessity for a deficiency or supplemental estimate, such officer shall immediately submit a detailed report of the facts of the case to the Congress. In transmitting any deficiency or supplemental estimates required on account of any such apportionment or reapportionment, reference shall be made to such report.
“(f) (1) The officers designated in subsection (d) of this section to make apportionments and reapportionments may exempt from apportionments trust funds and working funds expenditures from which have no significant effect on the financial operations of the Government, working capital and revolving funds established for intragovernmental operations, receipts from industrial and power operations available under law and any appropriation made specifically for—

“(1) interest on, or retirement of, the public debt;
“(2) payment of claims, judgments, refunds, and draw-backs;
“(3) any item determined by the President to be of a confidential nature;
“(4) payment under private relief Acts or other laws requiring payments to designated payees in the total amount of such appropriation;
“(5) grants to the States under title I, IV, or X of the Social Security Act, or under any other public assistance title in such Act.

“(2) The provisions of subsection (c) of this section shall not apply to appropriations to the Senate or House of Representatives or to any Member, committee, Office (including the office of the Architect of the Capitol), officer, or employee thereof.

“(g) Any appropriation which is apportioned or reapportioned pursuant to this section may be divided and subdivided administratively within the limits of such apportionments or reapportionments. The officer having administrative control of any such appropriation available to the legislative branch, the judiciary, or the District of Columbia, and the head of each agency, subject to the approval of the Director of the Bureau of the Budget, shall prescribe, by regulation, a system of administrative control (not inconsistent with any accounting procedures prescribed by or pursuant to law) which shall be designed to (A) restrict obligations or expenditures against each appropriation to the amount of apportionments or reapportionments made for each such appropriation, and (B) enable such officer or agency head to fix responsibility for the creation of any obligation or the making of any expenditure in excess of an apportionment or reapportionment.

“(h) No officer or employee of the United States shall authorize or create any obligation or make any expenditure (A) in excess of an apportionment or reapportionment, or (B) in excess of the amount permitted by regulations prescribed pursuant to subsection (g) of this section.

“(i) (1) In addition to any penalty or liability under other law, any officer or employee of the United States who shall violate subsection (a), (b), or (h) of this section shall be subjected to appropriate administrative discipline, including, when circumstances warrant, suspension from duty without pay or removal from office; and any officer or employee of the United States who shall knowingly and willfully violate subsection (a), (b), or (h) of this section shall, upon conviction, be fined not more than $5,000 or imprisoned for not more than two years, or both.

“(2) In the case of a violation of subsection (a), (b), or (h) of this section by an officer or employee of an agency, or of the District
of Columbia, the head of the agency concerned or the Commissioners of the District of Columbia, shall immediately report to the President, through the Director of the Bureau of the Budget, and to the Congress all pertinent facts together with a statement of the action taken thereon."

Sec. 1212. No part of the funds of, or available for expenditure by any corporation or agency included in this Act, including the government of the District of Columbia, shall be available to pay for annual leave accumulated by any civilian officer or employee during the calendar year 1950 and unused at the close of business on June 30, 1951: Provided, That this section shall not apply to officers and employees whose post of duty is outside the continental United States: And provided further, That this section shall not apply with respect to the payment of compensation for accumulated annual leave in the case of officers or employees who leave their civilian positions for the purpose of entering upon active military or naval service in the Armed Forces of the United States.

Sec. 1213. Notwithstanding the provisions of section 6 of the Act of August 24, 1912 (37 Stat. 555), or the provisions of any other law, the Secretary of State may, in his absolute discretion, during the current fiscal year, terminate the employment of any officer or employee of the Department of State or of the Foreign Service of the United States whenever he shall deem such termination necessary or advisable in the interests of the United States.

Notwithstanding the provisions of section 6 of the Act of August 24, 1912 (37 Stat. 555), or the provisions of any other law, the Secretary of Commerce may, in his absolute discretion, during the current fiscal year, terminate the employment of any officer or employee of the Department of Commerce whenever he shall deem such termination necessary or advisable in the best interests of the United States.

Sec. 1214. Appropriations, reappropriations, contract authorizations and reauthorizations made by this Act for departments and agencies in the executive branch of the government shall, without impairing national defense, be reduced in the amount of not less than $550,000,000 through the apportionment procedure provided for in Section 1211 of this Act.

Sec. 1215. No payment shall be made from appropriations in this Act to any officer on the retired lists of the Regular Army, Regular Navy, Regular Marine Corps, Regular Air Force, Regular Coast Guard, Coast and Geodetic Survey, and Public Health Service for a period of two years after retirement who for himself or for others is engaged in the selling of or contracting for the sale of or negotiating for the sale of to any agency of the Department of Defense, the Coast Guard, the Coast and Geodetic Survey, and the Public Health Service any supplies or war materials.
