CONGRESSIONAL RECORD — HOUSE
H 7829

September 30, 1983

Ms. OAKAR. Mr. Speaker, Today I am introducing a resolution expressing the opposition of the United States to any partition of Lebanon. As the distinguished chairman of the Foreign Affairs Committee, Mr. ZABLOCKI, pointed out yesterday, the parliamen-
tary position in the House to pass the Senate version of the Lan-
on powers resolution which does not include the expression of our country's opposition to the partition of Lebanon.

The House and Senate have had extensive debate over the participation of our Armed Forces in the multinational peacekeeping force in Lebanon. It is important that the commitment of our forces to Lebanon include a statement of purpose for their deployment as well as consideration of the duration of their deployment. By expressing the opposition of the United States to the partition of Lebanon, we send a firm message to all the parties involved in the current conflict—the internal factions and to the occupiers—that we believe that Lebanon can survive with its national sovereignty and territorial integrity intact and that that would be a guiding one for our diplomatic efforts.

I thank the chairman of the Foreign Affairs Committee and the distinguished chairman of the Europe and Middle East Subcommittee, Mr. HAMN of New Hampshire, for sponsoring this joint resolution which expresses our country's continued commitment to Lebanon's existence as a sovereign and independent country. With that commitment, it is my firm belief that the leaders of Lebanon will find the wisdom and courage to reconcile their differences and return their country to prosperity and happiness.

Mr. ZABLOCKI. Mr. Speaker, one of the resultant results of the parliamen-
tary situation in the Senate is that the Senate version of the Lebanon war powers legislation was the loss of important language in the House resolution offered by the gentleman from Ohio (Ms. OAKAR). I deeply regret that unfortunate and unavoidable loss.

I am, therefore, particularly pleased to join now the gentile lady as a co-sponsor in a separate joint resolution which embodies the language in question. With this effort comes my pledge to have the Committee on Foreign Af-
fairs act promptly on the measure and bring it to the floor in the very near future.

The language in question warrants this added effort on all our parts because it expresses a fundamental imperative of U.S. policy toward Lebanon. It was especially appropriate that it be included in the war powers legislation on which we took final action yesterday. As you know, that legislation authorized the continued presence of U.S. Armed Forces in Lebanon for 18 months or less.

An abiding principle behind this U.S. support for Lebanon is that the United States is working to advance and protect the independence and terri-
torial integrity of Lebanon.

In effect, therefore, what the Congress was saying yesterday in approv-
ing the Lebanon bill was the very lan-
guage of Ms. OAKAR's amendment, that is, that the Congress is opposed to any partition of Lebanon and the annexation of its territory by any for-
gn country.

That message—that absolute and fundamental fact—is central to why the U.S. marines are in Lebanon in the first place. We are working to save Lebanon for Lebanon, not for any other country.

I am, therefore, especially pleased to support the gentile lady from Ohio in this effort at the same time that I once again express my regret that the Senate's action regretfully failed to do so.

FARMERS HOME ADMINISTRATION

(Staff of the Senate Committee on Agriculture and Forestry)

Mr. JONES of Tennessee asked and was given permission to extend his remarks at this point in the Record and to include extraneous matter.

Mr. JONES of Tennessee. Mr. Speaker, recently we saw an advertise-
m ent in a Michigan farm magazine which perfectly illustrates how much the ideals of our National Government have changed under the current ad-
m inistration. The editorial says:

This ad was placed by the Farmers Home Administration, an agency with a long tradition of helping farmers, of helping bring the Nation out of the Great Depression, of being a lender of last resort when farmers are in a desper-
ate situation.

Now that progressive and Idealistic tradition has been turned on its head, Farmers Home Administration is placing ads in order to hire auctioneers to sell farm lands on which its agency has foreclosed. This action illustrates outra-
geous insensitivity to what is happen-
ing in the farm economy. My col-
leagues in the House know farmers are being broken because the administration refused to deal with growing surpluses in 1981 and 1982, they are broke because we have had sky-high interest rates and rockbottom commodity prices. They are broke because our Government has frightened and challenged our international trading partners. Farmers are broke because the record number of unemployed Americans cannot afford to adequately feed their families.

For 3 years I have tried to get Farmers Home Administration to focus on saving farmers, not foreclosing on them. Obviously my efforts have not succeeded.

Instead of saving farmers, the ad-
m inistration hires more auctioneers. I truly wonder how we have come to this state of affairs.

(From the Michigan Farmers, Sept. 3, 1983)

SOLICITATION FOR AUCTIONEER SERVICES

The Farmers Home Administration, an agency of the U.S. Department of Agricul-
ture, must have the capability to sell Government-owned farm properties from auctioneers who have a real estate broker's license. The properties are located throughout the State of Michigan and vary in size and type of enterprise.

The Farmers Home Administration will select a predetermined number of auctioneers from those who submit proposals to assist in selling these properties. Those auctioneers interested in applying should contact the following office in write for selection criteria and necessary solicitation forms. Proposal packages may be obtained by September 30, 1983.

Joint Explanatory Statement of the Committee of Conference.

The managers on the part of the House and the Senate agree to the following in lieu of the disagreeing votes of the two Houses on the amendments to the Senate to the bill (H.R. 3363), making appropriations for the Department of the Interior and Related Agencies for the fiscal year ending September 30, 1984, and for other purposes, submit the following statement to the House and the Senate in explanation of the spirit of the action agreed upon by the managers and recommended in the accompanying conference report.

TITLED—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

Amendment No. 1: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate numbered 1, with an amendment appropriating $359,601,000 for the purchase of lands and resources instead of $348,852,000 as proposed by the House and $359,014,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The net increase above the amount provided by the House includes increases of $50,000,000 for environmental impact statement and $2,500,000 for energy-related rights of way activities, and $1,786,000 for the non-energy related rights of way land sales programs for the total asset management program level of $3,000,000; $1,000,000 for the non-energy related rights of way program of which $1,000,000 is for additional transportation maintenance activities; and decreases of $300,000 related to asset management budget and the Natural Resources Management, maintaining the fiscal year 1984 base level, and $3,100,000 for planning, maintaining the fiscal year 1984 base level. The managers agree that an amount is available to increase the rate of wild horse and burro removals to the Court approved agreement level in the Challis area. The managers also agree that the BLM and Forest Service and outfitters and guides fee schedule has been adequately researched and publicly debated and do not object to Section 305(a) of PLFMA for rehabilitation of damaged lands.

Amendment No. 8: Deletes language proposed by the Bureau that would have precluded the expenditure of range improvement funds until the grazing fee schedule had been implemented.

Amendment No. 9: Deletes language proposed by the House that would have prohibited the use of range improvement funds and the use of funds collected for the Alaska Natural Heritage Fund to provide for the management of an area designated as a National Historic Landmark.

Amendment No. 10: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which prohibits processing or issuing permits for hunting on certain lands in the Mark Twain National Forest.

UNITED STATES FISH AND WILDLIFE SERVICE

Amendment No. 11: Restores House language earmarking not less than $3,400,000 for nonwater quality programs in the scope of the approved budget to be carried out by the Youth Conservation Corps.

Amendment No. 12: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment appropriating $270,803,000 for Resource Management and Research instead of $269,530,000 as proposed by the House and $262,338,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The net increase above the amount proposed by the House includes increases of $1,460,000 for additional support (salaries, per diem, travel, etc.) and equipment for law enforcement personnel and $650,000 for the continued operation of animal damage research facilities by the Service for one additional year in support of Oregon and Oklahoma, Washington, $400,000 for construction of the Jones Hole NFH, $2,700,000 for Lower Snake River fishery mitigation programs for a period of 5 years, $190,000 for fishery law enforcement to aid in deterring illegal commercial operations involving Atlantic

The managers agree with regard to the Oregon and California grant lands account, that all costs related to management of the O&C lands should be funded from this account, whether existing or future Forest Service. BLM and the Forest Service should work together to ensure total scope, and justifications are reflected in this account. The managers agree to the justification for fiscal year 1985. Amendment No. 6: Provides no less than $10,000,000 for range improvements as proposed by the Senate.

Amendment No. 7: Deletes language proposed by the House that would have prevented the expenditure of range improvement funds until the grazing fee schedule had been implemented.

Amendment No. 8: Deletes language proposed by the House that would have prohibited the use of range improvement funds and the use of funds collected for the Alaska Natural Heritage Fund to provide for the management of an area designated as a National Historic Landmark.

Amendment No. 9: Deletes language proposed by the House regarding livestock reduction procedures.

Amendment No. 10: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which prohibits processing or issuing permits for hunting on certain lands in the Mark Twain National Forest.
and Pacific anadromous fish; $100,000 for Southern Selkirk Mountain Caribou recovery, and $100,000 for a replicative study by the Service to develop solutions to the significant nutrient and sediment problems affecting Bear Lake while ensuring that the NWR is not adversely affected; decreases of $175,000 for taste abatement; $75,000 for enforcement of the acid rain provisions; $28,000 for the Pacific North American Fish (PNF) Program; $400,000 for fishery research; $1,500,000 for fishery research; and $500,000 for endangered species listing activity; and $500,000 for endangered species grants to States.

The managers agree that a minimum of 202 law enforcement specialists along with an adequate training program are funded. Funds have been provided to continue operation of several hatcheries for one more year as follows:

Frankfort, Ky., Berkshire, Mass., Neoehol, Mo., Senecaville, Ohio, Tishomingo, Okla., Inks Dam, Tex., Uvalde, Tex., and Cheraw, S.C.

These hatcheries are expected to produce the 1983-1984 crop and to cease operation by September 30, 1984. If additional funds are needed in future years we will request them in a supplemental appropriation bill. The State of North Carolina has agreed to assume operation of Pisgah NPL. Funds included in that bill are adequate to provide one service employee to remain for fiscal year 1984 to assist in the transition and for rehabilitation of the facility. Funds for Laramy ($220,000) are for operation and transition to a research station for investigation of Federal problems. The $1,000,000 for fishery research includes $450,000 for the Western Salmonid Enhancement program. The Service is expected to use the total increase to accelerated research on fish tumor activity. The total account includes funds to continue salmonid enhancement projects, which are of dollars for full-time equivalents were budgeted. The Secretary is expected to get additional PTF ceiling to staff these programs in addition to the original 1984 ceilings so other ongoing programs will not be affected. The Service is requested to provide a study on the role the Service can fill in making students aware of the benefits provided by wildlife conservation. This study should be done in consultation with national and local educational organizations so that the Service will be used to supplement classroom activity. The managers have no objection to the proposed user fees for port inspection fees as long as the funds are used to supplement available funds rather than as a substitute for appropriations.

Amendment No. 13: Earnmarks $2,629,000 for Endangered Species Grants instead of $4,000,000 as proposed by the House.

Amendment No. 14: Earnmarks $3,729,000 for Lowry, South Dakota, instead of $1,029,000 provided by the House.

Amendment No. 15: Deletes Senate earmark of $292,000 for the Warm Springs National Fish Hatchery. Funds are provided in the Fish and Wildlife Service to continue operation of this hatchery.

Amendment No. 16: Reported in technical disagreement. The managers on the part of the House will offer a motion to recommit and concur in the amendment of the Senate with the following language: Restore the matter stricken by said amendment, amended to read as follows: $4,000,000, to remain available until expended for the acquisition of lands under the Anadromous Fish Conservation Act (16 U.S.C. 757a-757f), of which $500,000 shall be made available to the State of Idaho without regard to the Feder-
of Commerce Building in the District of Columbia. The additional funds for concessions, if approved, would support 15 additional FTEs to monitor concessions operations in the field. The amount provided to the Service includes $100,000 for additional exhibits at the National Park Theatre at the National Mall, $35,000 to assist the town of Harper's Ferry, W. Va., for police force use. The managers agreed that the Shore Region RR cars are restored and that the operating maintenance funds will be provided by the Service. The managers agree that $500,000 in management plan funds are available to study and identify climate change impacts on mineral interests in units of the Park Service where mining is not specifically authorized by law.

The conference agreement includes $100,000 for the National Park Service to assist Massachusetts and Rhode Island in the development of an implementation strategy for the future conservation, management, and use of the Blackstone River corridor and to study the corridor to determine its full historical significance and how it should be managed. The National Park System. A portion of the assistance should focus on, but not be limited to, the following criteria: (1) management plan, (2) preservation guidelines, and (3) canal restoration assistance. The managers expect the North Atlantic Regional Office to conduct this effort with the assistance of the Denver Service Center and the Mid-Atlantic Regional Office.

The managers do not agree with the proposal of the Service to close visitor transportation systems in 16 park areas. The Service has already transferred operation of the system in Yosemite without prior notification. The managers opposed the proposal. The managers expressed in the fiscal year 1983 bill was being ignored. The managers agree that reprogramming proposals to close or transfer control on a case-by-case basis will be considered. Even greater consideration must be given by the Service to recognize the special security and geographical circumstances that exist in certain areas. The Service is expected to maintain the fiscal year 1982 cycle maintenance funding level at the National Parks in fiscal year 1984. The managers have opposed the Service's proposal to proceed with a Mall structure proposed in 1986 without examining what circumstances had altered since then. Until the Senate was satisfied with the following questions, the Service is to permit no land disturbing activities in connection with that subject. The questions are:

First, what is the current level of demand and the current supply of food services and comfort facilities on the Mall, and including adjacent facilities such as the Pavilion in the Old Post Office Building, compared to the 1966 levels?

Second, what will be the nature of the concession's arrangement between GSI and the Park Service?

Third, what are the potential other uses for this space and how do those potential uses compare to the current need for food and comfort facilities?

Fourth, what is the overall need to update the 1966 master plan governing Mall development?

The managers agree that no funds are available for the coordinator of management plans and studies under ANILCA.

Amendment No. 26: Reported in technical disagreement. The managers on the part of the House propose to concur in the amendment of the Senate which provides $85,000 for the Harper's Ferry, West Virginia police force.

Amendment No. 27: Deletes language proposed by the Senate earmarking funds for the National Park Theatre.

Amendment No. 28: Deletes language proposed by the Washington Opera Society.

Amendment No. 29: Deletes language proposed by the Senate earmarking funds for the Mary McLeod Bethune National Historic Site.

Amendment No. 30: Reported in technical disagreement. The managers on the part of the House propose to concur in the amendment of the Senate which provides $100,000 for a study to determine the suitability of a site in East St. Louis, Illinois, for a museum of America culture and anthropology.

Amendment No. 31: Appropriates $10,377,000 for National Recreation and Preservation instead of $11,326,000 as proposed by the Senate and $8,978,000 as proposed by the House in the operation of the National Park System.

Amendment No. 32: Deletes language proposed by the Senate for the International Council of Monument and Sites rather than from within available funds.

Amendment No. 33: Appropriates for river conservation is for consultation, technical assistance, training, demonstration projects, and program development.

Amendment No. 34: Appropriates $6,000,000 for the Urban Park and Recreation Fund instead of $10,000,000 as proposed by the Senate. The amount included in the House is as follows: decreases of $750,000 for recreation programs and $335,000 for park facilities; and increases of $135,000 for the International Council of Monument and Sites rather than from within available funds.

Amendment No. 35: Appropriates $8,000,000 to the visitors facilities fund, as proposed by the Senate.

Amendment No. 36: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate and an amendment appropriating $44,037,000 for construction instead of $42,637,000 as proposed by the House and $26,555,000 as proposed by the Senate. The managers agree that this amount will move to concur in the amendment of the House to the amendment of the Senate.

The net increase above the House level coming from the Service is: $1,350,000 for planning the PDR Memorial; $250,000 for planning of the NPS conservancy labs at Harper's Ferry, W.VA.; $1,000,000 for a Corps of Engineers study of river bank problems at Natchez, Miss.; $50,000 for the Ninety-Six NHS; $2,100,000 for the Kenai Fjords NP bridge; $2,700,000 for the Voyagers VISITORS facility at the C&O Canal-Harpers Ferry road; $1,000,000 for the Harpers Ferry NP-Pedestrian access to C&O Canal; $1,046,000 for the Jean Lafitte NHP facility construction; $1,500,000 for the Glen-Canyon NRA-Halls Crossing, Bull Frog Ferry; $2,500,000 for the Gateway NRA Sandy, Hook Feeder beach and tunnels only; $200,000 for the Dinosaur National Monument, and the reconstruction of facilities at Crozier Field.

Amendment No. 37: Appropriates $26,500,000 for Historic Preservation as proposed by the Senate. The amount proposed by the Senate is $26,000,000.

Amendment No. 38: The managers have agreed to an increase in the amount of funds to be provided to the National Trust for Historic Preservation for the critical issues funds. The managers understand that by agreeing to this increase of $500,000, the National Trust will administer and expend $500,000 during the period of availability of the funds. Further, the managers understand that these funds will be further matched when distributed by the Trust.

The managers agree that better information concerning the administration of the historic preservation program and its impact on the country, states, and local communities would assist Congressional decision making in this area. The managers will establish an Information Collection Committee to include appropriate members of the state preservation activity, administrative support, the uses to which federal matching assistance is put, and the level of state and local financial support. The managers desire to receive all information available on the social and economic impacts of preservation programs and policies from grants-in-aid and tax incentive funding, in providing the requested information on the use and impact of the preservation development grants appropriated in the supplemental jobs appropriations act of 1985.

Amendment No. 39: Appropriates $5,800,000 to the visitors facilities fund, as proposed by the Senate.

The managers reaffirm the Senate report language authorizing the planning of the budget amendment outlining Discrete projects on which to spend concession receipts to repair and rehabilitate visitor facilities in the National Park Foundation.

The managers agree that these funds are subject to the normal reprogramming guidelines.

Amendment No. 40: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate and an amendment appropriating $44,037,000 for construction instead of $42,637,000 as proposed by the House and $26,555,000 as proposed by the Senate. The managers agree that this amount will move to concur in the amendment of the House to the amendment of the Senate.

The net increase above the House level coming from the Service is: $1,350,000 for planning the PDR Memorial; $250,000 for planning of the NPS conservancy labs at Harper's Ferry, W.VA.; $1,000,000 for a Corps of Engineers study of river bank problems at Natchez, Miss.; $50,000 for the Ninety-Six NHS; $2,100,000 for the Kenai Fjords NP bridge; $2,700,000 for the Voyagers VISITORS facility at the C&O Canal-Harpers Ferry road; $1,000,000 for the Harpers Ferry NP-Pedestrian access to C&O Canal; $1,046,000 for the Jean Lafitte NHP facility construction; $1,500,000 for the Glen-Canyon NRA-Halls Crossing, Bull Frog Ferry; $2,500,000 for the Gateway NRA Sandy, Hook Feeder beach and tunnels only; $200,000 for the Dinosaur National Monument, and the reconstruction of facilities at Crozier Field.
In agreeing to this recision, the managers remain committed to equally sharing the construction costs of this project.

The managers recollect the uncertainties and problems associated with major construction projects. The managers intend to provide funds in response to future requests, if necessary, to bring this project to fulfillment.
