DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES
APPROPRIATIONS BILL, 2002

JUNE 29, 2001.—Ordered to be printed

Mr. BYRD, from the Committee on Appropriations,
submitted the following

REPORT

[To accompany H.R. 2217]

The Committee on Appropriations to which was referred the bill (H.R. 2217) making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2002, and for other purposes, reports the same to the Senate with an amendment and recommends that the bill as amended do pass.

Amounts in new budget (obligational) authority, fiscal year 2002

Amount of bill passed by House	\$18,863,855,000
Amount of decrease by Senate	200,321,000
<hr/>	
Total of bill as reported to Senate	18,663,534,000
Estimates considered by House	18,072,635,000
Estimates considered by Senate	18,072,635,000
Above the budget estimate, 2002	590,899,000
Below appropriations, 2001 (including emer- gencies)	114,486,000

SUMMARY OF BILL

For this bill, estimates totaling \$18,072,635,000 in new obligational authority were considered by the Committee for the programs and activities of the agencies and bureaus of the Department of the Interior, except the Bureau of Reclamation, and the following related agencies:

Department of Agriculture:

Forest Service.

Department of Energy:

Clean coal technology.

Fossil energy research and development.

Naval petroleum and oil shale reserves.

Elk Hills School lands fund.

Energy conservation.

Economic regulation.

Strategic petroleum reserve.

SPR petroleum account.

Energy Information Administration.

Department of Health and Human Services:

Indian Health Service.

Office of Navajo and Hopi Indian Relocation.

Institute of American Indian and Alaska Native Culture and Arts Development.

Smithsonian Institution.

National Gallery of Art.

John F. Kennedy Center for the Performing Arts.

Woodrow Wilson International Center for Scholars.

National Foundation on the Arts and Humanities:

National Endowment for the Arts.

National Endowment for the Humanities.

Institute of Museum and Library Services.

Challenge America Arts Funds.

Commission of Fine Arts.

Advisory Council on Historic Preservation.

National Capital Planning Commission.

Holocaust Memorial Council.

Presidio Trust.

REVENUE GENERATED BY AGENCIES IN BILL

Oil and gas leasing and other mineral leasing activities, recreation and user fees, the timber and range programs, and oil production from the naval petroleum reserves are estimated to generate income to the Government of \$10,206,430,000 in fiscal year 2002. These estimated receipts, for agencies under the subcommittee's jurisdiction, are tabulated below:

Item	Fiscal year—		
	2000	2001	2002
Department of the Interior	\$8,996,349,000	\$11,080,199,000	\$9,579,875,000
Forest Service	474,947,000	634,331,000	619,731,000
Naval petroleum reserves	9,450,000	7,836,000	6,824,000
Total receipts	9,480,836,000	11,722,366,000	10,206,430,000

MAJOR CHANGES RECOMMENDED IN THE BILL

In an effort to honor congressional spending limitations, the Committee has developed substantial revisions to the budget estimate for the 2002 fiscal year.

A comparative summary of funding in the bill by agency is shown by agency or principal program in the following table:

(In thousands of dollars)

	Committee recommendation	Committee recommendation compared with budget estimate
Title I—Department of the Interior:		
Bureau of Land Management	1,859,084	+ 87,546
U.S. Fish and Wildlife Service	1,271,165	+ 179,900
National Park Service	2,294,741	- 222,950
United States Geological Survey	892,474	+ 79,098

Grand total, fiscal year 2001	18,663,534	+ 590,899

CONSERVATION SPENDING CATEGORY

Title VIII of the Interior and Related Agencies Appropriations Act, 2001, created a separate conservation spending category within the Budget Act. This bill includes \$1,320,000,000 for programs that fall within that category, an amount \$94,257,000 above the budget request. The distribution of these funds is shown in the table below.

[In thousands of dollars]

Subcategory/Appropriation account	Fiscal year 2002		
	President's budget	House recommendation	Senate recommendation
Federal, State and Other LWCF Programs:			
BLM Federal Land Acquisition	47,686	47,686	45,686

Total, Conservation Spending Category	1,225,743	1,320,000	1,320,000

¹ Reflects only funds recommended as part of Conservation Spending Category.

CLIMATE CHANGE RESEARCH

Several programs funded through this bill conduct science and technology research that are associated partly with global climate change. To the extent that the Committee has funded this work, it has done so based on each program's individual merits of contributing to issues associated with domestic energy production, national energy security, energy efficiency and cost savings, related environmental assessments, and general energy emission improvements. None of the funds provided in this bill are to be used to implement actions called for solely under the Kyoto protocol, prior to its ratification.

The Byrd-Hagel resolution passed in 1997 (S. Res. 98) remains the clearest statement of the will of the Senate with regard to the Kyoto protocol, and the Committee is committed to ensuring that the Administration not implement the Kyoto protocol without congressional consent. The Committee recognizes, however, that there are also longstanding energy research programs which have goals and objectives that, if met, could have positive effects on energy use and the environment. The Committee does not intend to preclude these programs from proceeding, provided they have been funded and approved by Congress.

To the extent future funding requests may be submitted which would increase funding for climate change activities prior to Senate consideration of the Kyoto protocol, the Administration must explain the components of the programs, their anticipated goals and objectives, the justification for any funding increases, a discussion of how success will be measured, and a clear definition of how

these programs are justified by goals and objectives independent of implementation of the Kyoto protocol.

COMMITTEE REPROGRAMMING GUIDELINES

The Committee's reprogramming guidelines were last published in the House and Senate reports accompanying the fiscal year 1998 Interior and Related Agencies Appropriations Act (H. Rep. 105-163, S. Rep. 105-56). While the Committee does not propose any changes to these guidelines, it does wish to make certain clarifications in an effort to prevent misunderstandings regarding the applicability of reprogramming procedures in certain situations.

Though a reprogramming is in part defined in the guidelines as a "reallocation of funds from one budget activity [or other applicable level of detail] to another," the guidelines also state that "any significant departure from the program described in the agency's budget justifications" shall be considered a reprogramming. This later portion of the definition encompasses the reallocation of funds within a budget activity, if such reallocation represents a "significant departure" from the description provided in the relevant budget justification. In this regard, the Committee would view as a "significant departure" any reallocation of funds within a budget activity for programs or contracts involving out-year mortgages that are not discussed in detail in the budget justification.

TITLE I—DEPARTMENT OF THE INTERIOR
 LAND AND WATER RESOURCES
 BUREAU OF LAND MANAGEMENT
 MANAGEMENT OF LAND AND RESOURCES

Appropriations, 2001	\$750,250,000
Budget estimate, 2002	760,312,000
House allowance	768,711,000
Committee recommendation	775,962,000

The Committee recommends an appropriation of \$775,962,000, an increase of \$15,650,000 above the budget estimate. A comparison of the Committee recommendations with the budget estimate is as follows:

	Budget estimate	Committee recommendation	Change
Land resources:			
Soil, water, and air management	\$33,469,000	\$33,787,000	+ \$318,000
Range management	69,197,000	71,859,000	+ 2,662,000
Forestry management	7,229,000	7,798,000	+ 569,000
Riparian management	22,806,000	23,015,000	+ 209,000
Cultural resources management	14,181,000	14,316,000	+ 135,000
Wild horse and burro management	29,665,000	29,862,000	+ 197,000
Subtotal, land resources	176,547,000	180,637,000	+ 4,090,000
Wildlife and fisheries management:			
Wildlife management	25,318,000	25,556,000	+ 238,000
Fisheries management	12,110,000	12,214,000	+ 104,000
Subtotal, wildlife and fisheries management	37,428,000	37,770,000	+ 342,000
Threatened and endangered species	21,618,000	21,804,000	+ 186,000
Recreation management:			
Wilderness management	16,932,000	17,093,000	+ 161,000
Recreation resource management	44,762,000	46,111,000	+ 1,349,000
Recreation operations (fees)	1,295,000	1,295,000
Subtotal, recreation management	62,989,000	64,499,000	+ 1,510,000
Energy and minerals:			
Oil and gas	72,564,000	72,809,000	+ 245,000
Coal management	8,828,000	8,902,000	+ 74,000
Other mineral resources	10,096,000	10,188,000	+ 92,000
Subtotal, energy and minerals	91,448,000	91,899,000	+ 411,000

	Budget estimate	Committee recommendation	Change
Alaska minerals	2,225,000	4,000,000	+ 1,775,000
Realty and ownership management:			
Alaska conveyance	34,838,000	35,128,000	+ 290,000
Cadastral survey	13,896,000	16,190,000	+ 2,294,000
Land and realty management	33,813,000	34,118,000	+ 305,000
Subtotal, realty and ownership management	82,547,000	85,436,000	+ 2,889,000
Resource protection and maintenance:			
Resource management planning	33,035,000	33,100,000	+ 65,000
Resource protection and law enforcement	11,547,000	11,666,000	+ 119,000
Hazardous materials management	16,709,000	16,870,000	+ 161,000
Subtotal, resource protection and maintenance	61,291,000	61,636,000	+ 345,000
Transportation and facilities maintenance:			
Operations	6,390,000	6,451,000	+ 61,000
Annual maintenance	30,310,000	31,230,000	+ 920,000
Deferred maintenance	12,917,000	12,917,000
Conservation (infrastructure improvement)	25,000,000	28,000,000	+ 3,000,000
Subtotal, transportation and facilities maintenance	74,617,000	78,598,000	+ 3,981,000
Land and resources information systems	19,756,000	19,756,000
Mining law administration:			
Administration	32,298,000	32,298,000
Offsetting fees	- 32,298,000	- 32,298,000
Subtotal, mining law administration
Work force and organizational support:			
Information systems operations	16,395,000	16,551,000	+ 156,000
Administrative support	49,766,000	49,731,000	- 35,000
Bureauwide fixed costs	63,645,000	63,645,000
Subtotal, work force and organization	129,806,000	129,927,000	+ 121,000
Total, management of lands and resources	760,312,000	775,962,000	+ 20,070,000

Land Resources.—The Committee recommends \$180,637,000 for land resources, which is an increase of \$4,090,000 above the budget request. Increases above the request include \$1,000,000 to continue work at the National Center for Ecologically-Based Noxious Weed Management at Montana State University and to expand the work of the Center with respect to treatments of burned over areas to prevent the spread of noxious weeds; \$1,000,000 for the Idaho State Department of Agriculture to provide coordination, facilitation, administrative support, and cost-share weed control project funding to Cooperative Weed Management Areas; \$500,000 for

management of the Headwaters Forest Reserve; and \$1,590,000 for fixed costs.

The Committee notes that the funding provided for land resources fully supports the budget request for noxious weed management of \$8,950,000. The projects funded above are over and above the request and should provide additional tools for the Bureau's efforts to manage the serious problem of invasive weed control across all ownerships.

The Committee is concerned that the Bureau retain its current level of support for the National Conservation Training Center, and directs that \$500,000 shall be used for this purpose and made available to NCTC within 60 days of enactment.

Wildlife and fisheries management.—The Committee recommends \$37,770,000 for wildlife and fisheries management, which is an increase of \$342,000 above the request. The increase is for fixed costs.

Threatened and Endangered Species.—The Committee recommends \$21,804,000 for threatened and endangered species management, which is an increase of \$186,000 above the request. The increase is for fixed costs.

Recreation management.—The Committee recommends \$64,499,000 for recreation management, which is an increase of \$1,510,000 above the request. Increases above the request are \$1,000,000 for the Undaunted Stewardship program which will allow local control over grants to protect historic sites along the historic Lewis and Clark Trail by implementation of best management practices, evaluation of easement alternatives, and a stewardship certification program, and \$510,000 for fixed costs.

Energy and minerals management including Alaska minerals.—The Committee has provided \$91,899,000 for energy and minerals management, which is an increase of \$411,000 above the request, and an increase of \$15,180,000 over the enacted level. Increases above the enacted level are \$2,200,000 for fixed costs, \$3,000,000 to address coalbed methane permitting backlog, \$700,000 to address the backlog of oil and gas permits in Utah, \$3,000,000 for leasing activities in the National Petroleum Reserve Alaska, \$3,000,000 to implement the Energy Policy and Conservation Act, \$350,000 for Indian trust activities, \$1,500,000 for oil and gas inspection and enforcement activities, \$1,150,000 for coal leasing activities, \$450,000 for mineral material sales, and \$50,000 for geothermal activities, and decreases of \$220,000 for management reforms.

The Committee has provided an additional \$4,000,000 for the Alaska minerals program, which is an increase of \$1,775,000 above the request. The increase is to continue work on preparation of an interagency geological database that was funded in fiscal year 2001.

Realty and ownership management.—The Committee recommends \$85,436,000 for realty and ownership management, which is an increase of \$2,889,000 above the budget request. Increases above the request are \$739,000 for fixed costs, \$300,000 for the State of Utah Automated Geographic Reference center for a total of \$600,000 to continue work on a centralized GIS database of wilderness inventories, \$350,000 for the Montana cadastral map-

ping project, and \$1,500,000 for a public lands survey and ownership database for the State of Alaska.

The Committee notes that the Eaker National Historic Landmark will soon be transferred from the United States Air Force to the Bureau of Land Management. Upon completion of the transfer, the Committee directs the Bureau to manage this site consistent with its status as a National Historic Landmark.

Resource protection and maintenance.—The Committee recommends \$61,636,000 for resource protection and maintenance, which is an increase of \$345,000 above the request. The entire amount of the increase is for fixed costs.

Transportation and facilities maintenance.—The Committee recommends \$78,598,000 for transportation and facilities maintenance, which is an increase of \$3,981,000 above the request. Increases above the request are \$481,000 for fixed costs, \$500,000 for maintenance of the Iditarod National Historic Trail, \$3,000,000 for infrastructure improvements for a total program level of \$28,000,000 to be derived from the conservation spending category.

Land and information systems.—The Committee recommends \$19,756,000 for land and information systems, which is equal to the request.

Mining law administration.—The Committee recommends \$32,298,000 for mining law administration, which is equal to the request. This activity is supported by an offsetting mining holding fee equal to the amount appropriated. The Committee has included bill language as proposed by the Administration to reauthorize the mining holding fee.

Workforce organization and support.—The Committee recommends \$129,927,000 for workforce organization and support, which is \$121,000 above the budget request. An increase of \$621,000 above the request has been provided for fixed costs. The Committee has reduced the request by \$500,000 to reflect the transfer of funds for conducting an external audit of the agency's financial information. These funds have been provided to the Inspector General who will arrange for audits of all the Bureaus within the Department.

General.—Within the funds provided for the management of lands and resources appropriation, the Bureau shall make available no less than \$300,000 to participate in the Southwest Strategy along with other Federal and State agencies. The Committee believes this Strategy can play an important part in restoring the cultural, economic and environmental quality of life in regions of the Southwestern United States.

Following concern prompting Congressional action last year, the Committee applauds the commitment by the Secretary of the Interior and the Secretary of Agriculture to consult with Congress prior to initiating any attempt to amend or revise the linear right-of-way rental fee schedule published on July 8, 1987 (43 CFR 2803.1 2(c)(1)(I)).

WILDLAND FIRE MANAGEMENT

Appropriations, 2001	\$424,577,000
Budget estimate, 2002	658,421,000
House allowance	700,806,000
Committee recommendation (including emergencies)	659,421,000

The Committee recommends a total appropriation of \$659,421,000 for wildland fire management activities, which is \$1,000,000 above the request.

The Committee recommendation includes full funding of the request for wildland fire preparedness in the amount of \$280,807,000, plus an additional \$1,000,000, including funding for the purchase of a hyperspectral and digital camera remote sensing system, to be allocated to the national center for landscape fire analysis at the University of Montana through the Joint Fire Science program.

The Committee has also provided \$367,614,000 for wildland fire operations, which is equal to the request. Of these funds, a total of \$70,000,000 has been designated as emergency appropriations, comprised of \$50,000,000 for wildfire suppression and \$20,000,000 for burned areas rehabilitation.

In addition, the Committee has also provided \$10,000,000 for the Rural Fire Assistance program, which is equal to the budget request.

The Committee notes that it has fully funded the budget request of \$186,190,000 for hazardous fuels reduction within the amounts provided. The Committee believes that reduction of fuel loads on public lands and in areas adjacent to communities in the wildland-urban interface is critical for protecting the health of the nation's resources and the safety of the public.

The Committee commends the Department for providing the Committee with detailed financial reports and action plans with respect to implementation of the National Fire Plan. The Committee expects this consultation to continue as the Department moves forward with the Fire Plan. The Department should also work diligently to complete the national long term fire strategy in consultation with the Governors of the States. The Committee believes that this strategy is crucial since it will address fire management across all ownerships.

CENTRAL HAZARDOUS MATERIALS FUND

Appropriations, 2001	\$9,978,000
Budget estimate, 2002	9,978,000
House allowance	9,978,000
Committee recommendation	9,978,000

The Committee recommends an appropriation of \$9,978,000 for the central hazardous materials fund, which is equal to the request.

CONSTRUCTION

Appropriations, 2001	\$16,823,000
Budget estimate, 2002	10,976,000
House allowance	11,076,000
Committee recommendation	12,976,000

The Committee recommends \$12,976,000 for construction, which is an increase of \$2,000,000 above the request. Increases above the request are \$2,000,000 for construction of the California Trail Interpretive Center in Elko County, Nevada. The Committee has provided \$2,900,000 for the Pompey's Pillar visitor center, and provided \$2,500,000 for the construction of the Fort Benton visitor center in Montana.

PAYMENTS IN LIEU OF TAXES

Appropriations, 2001	\$199,560,000
Budget estimate, 2002	150,000,000
House allowance	200,000,000
Committee recommendation	220,000,000

The Committee recommends \$220,000,000 for Payments in Lieu of Taxes, of which \$50,000,000 is from the conservation spending category. The amount provided is an increase of \$70,000,000 above the budget request.

LAND ACQUISITION

Appropriations, 2001	\$56,545,000
Budget estimate, 2002	47,686,000
House allowance	47,686,000
Committee recommendation	45,686,000

The Committee recommends an appropriation of \$45,686,000 for land acquisition, a decrease of \$2,000,000 below the budget estimate.

The following table shows the Committee's recommendations:

<i>Area and State</i>	<i>Committee Recommendation</i>
Auger Falls Tract (ID) (Twin River)	\$1,000,000
Axolotl Lakes (MT)	1,000,000
Beaver Creek NWSR/White Mountains National Recreation Area (AK)	300,000
California Wilderness (CA)	375,000
Cosumnes River Preserve (CA)	1,500,000
Continental Divide National Scenic Trail (WY)	320,000
El Malpais National Conservation Area (NM)	750,000
Garnet Ghost Town (MT)	2,000,000
Grande Ronde National Wild & Scenic River (OR/WA)	500,000
Gunnison ACEC (CO)	2,500,000
King Range National Conservation Area (CA)	2,500,000
La Cienega ACEC (NM)	641,000
Lewis and Clark National Historic Trail (ID)	1,000,000
Lower Salmon River ACEC (ID)	2,000,000
Otay Mountain/Kuchamaa HCP (CA)	3,500,000
Rio Grande National Wild and Scenic River (NM)	5,000,000
Sandy River (OR)	3,000,000
Santa Rosa and San Jacinto Mountains National Monument (CA)	1,500,000
Snake River Birds of Prey National Conservation Area (ID)	2,400,000
Soda Springs Hills (ID)	900,000
Upper Arkansas River Basin (CO)	1,500,000
Upper Snake/South Fork Snake River (ID)	3,000,000
West Eugene Wetlands (OR)	2,500,000
Subtotal acquisitions	39,686,000
Emergency/hardship/inholdings	1,500,000
Land Exchange Equalization Payments	500,000

<i>Area and State</i>	<i>Committee Recommendation</i>
Acquisition Management	4,000,000
Total	45,686,000

OREGON AND CALIFORNIA GRANT LANDS

Appropriations, 2001	\$104,038,000
Budget estimate, 2002	105,165,000
House allowance	105,165,000
Committee recommendation	106,061,000

The Committee recommends an appropriation of \$106,061,000, an increase of \$896,000 above the budget request. The increase is for fixed costs.

FOREST ECOSYSTEMS HEALTH AND RECOVERY (REVOLVING FUND, SPECIAL ACCOUNT)

The Committee has retained bill language clarifying that the Federal share of salvage receipts to be deposited into this account shall be those funds remaining after payments to counties.

RANGE IMPROVEMENTS

Appropriations, 2001	\$10,000,000
Budget estimate, 2002	10,000,000
House allowance	10,000,000
Committee recommendation	10,000,000

The Committee recommends an appropriation of \$10,000,000 for range improvements, the same as the budget estimate and the fiscal year 2001 enacted level.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

Appropriations, 2001	\$7,484,000
Budget estimate, 2002	8,000,000
House allowance	8,000,000
Committee recommendation	8,000,000

The Committee recommends an appropriation of \$8,000,000, the same as the budget estimate and \$516,000 above the fiscal year 2001 enacted level.

MISCELLANEOUS TRUST FUNDS

Appropriations, 2001	\$12,405,000
Budget estimate, 2002	11,000,000
House allowance	11,000,000
Committee recommendation	11,000,000

The Committee recommends an appropriation of \$11,000,000, the same as the budget estimate and the fiscal year 2001 enacted level.

FISH AND WILDLIFE AND PARKS

U.S. FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

Appropriations, 2001	\$800,330,000
Budget estimate, 2002	806,752,000
House allowance	839,852,000
Committee recommendation	845,714,000

The Committee recommends \$845,714,000 for resource management, \$38,962,000 above the budget estimate. Within this account, \$33,000,000 for infrastructure improvement and \$2,000,000 for the youth conservation corps are funded under the conservation spending category. Changes to the budget estimate are detailed below.

	Budget estimate	Committee recommendation	Change
Ecological services:			
Endangered species:			
Candidate conservation	\$7,220,000	\$7,720,000	+\$500,000
Listing	8,476,000	9,000,000	+ 524,000
Consultation	41,901,000	43,401,000	+ 1,500,000
Recovery	54,217,000	58,517,000	+ 4,300,000
Subtotal, endangered species	111,814,000	118,638,000	+ 6,824,000
Habitat conservation	76,209,000	82,109,000	+ 5,900,000
Environmental contaminants	10,470,000	10,470,000
Subtotal, ecological services	198,493,000	211,217,000	+ 12,274,000
Refuges and wildlife:			
Refuge operations and maintenance	314,664,000	318,664,000	+ 4,000,000
Salton Sea recovery	993,000	993,000
Migratory bird management	25,159,000	28,586,000	+ 3,427,000
Law enforcement operations	50,411,000	51,487,000	+ 1,076,000
Subtotal, refuges and wildlife	391,227,000	399,730,000	+ 3,608,773
Fisheries:			
Hatchery operations and maintenance	49,362,000	54,072,000	+ 4,710,000
Fish and wildlife management	43,617,000	50,997,000	+ 7,380,000
Subtotal, fisheries	92,979,000	105,069,000	+ 12,090,000
General administration:			
Central office administration	15,530,000	15,530,000
Regional office administration	24,792,000	24,792,000
Servicewide administrative support	53,370,000	58,015,000	+ 4,645,000
National Fish and Wildlife Foundation	6,705,000	7,705,000	+ 1,000,000
National Conservation Training Center	15,526,000	15,526,000
International affairs	8,130,000	8,130,000
Subtotal, general administration	124,053,000	129,698,000	+ 5,645,000
Total, resource management	806,752,000	845,714,000	+ 38,962,000

Ecological Services.—The Committee recommends \$211,217,000 for ecological services, an increase of \$12,724,000 above the budget estimate.

Within the ecological services activity, the Committee recommends an increase of \$6,824,000 for the endangered species program. The Committee recommends an increase of \$500,000 for candidate conservation to be forwarded to the Idaho Office of Species Conservation for the purpose of funding the Idaho Sage Grouse Management Plan established to prevent the listing of the sage grouse. The Committee recommends an increase of \$524,000 in listing general programs. The Committee recommends an increase of \$1,500,000 for consultation, of which \$500,000 is for the Central Valley and Southern California Habitat Conservation Plan, and \$1,000,000 in general programs to address the increasing demand for consultations. For recovery, the Committee recommends an increase of \$4,300,000, of which \$800,000 is to be forwarded to the Alaska Sealife Center for eider recovery, \$500,000 is to be forwarded to the Idaho Office of Species Conservation to finance conservation easements, water conservation practices and implementation of the State's strategy as approved and prioritized by the Bruneau Hot Springs Snail Conservation Committee, \$200,000 is for the wolf monitoring activities of the Nez Perce tribe in Idaho, \$500,000 is for recovery of the Preble's Meadow jumping mouse in Colorado, \$700,000 is for endangered fish recovery efforts in Upper Colorado, \$600,000 is for the recovery of Lahontan Cutthroat trout in Nevada, and \$1,000,000 is to address the backlog of recovery actions. The Peregrine Fund should be funded at \$400,000 in fiscal year 2002.

The Committee recommends an increase of \$5,900,000 for habitat conservation. Changes recommended for habitat conservation programs include an increase of \$4,550,000 for the Partners for Fish and Wildlife Program, of which \$250,000 is to be provided to the National Aquaculture Research Center in Stuttgart, Arkansas, to study the impact cormorants have on the fish population, \$550,000 is for Nutria eradication at the Blackwater NWR in Maryland, \$1,000,000 is for the Hawaii Endangered Species Act Community Conservation Plan, \$1,500,000 is for the Reno Biodiversity Research and Conservation Project, \$500,000 is for the Columbia River Estuary Research Program, \$400,000 shall be forwarded to the Montana Water Center for the Wild Fish Habitat Initiative, \$100,000 is to assist landowners with conservation efforts in areas surrounding the Aldo Leopold NWR in Wisconsin, and \$250,000 is provided to the Service to establish alternative habitat and food sources for terns in Idaho to reduce their population where salmon collect. In project planning, the Committee recommends an increase of \$250,000 for the Middle Rio Grande (Bosque) Research program, and a decrease of \$1,000,000 below the budget estimate for CALFED. The Committee also recommends \$1,500,000 for the Cook Inlet Aquaculture Association, and \$200,000 to be forwarded to the Regional Aquaculture Association for king salmon restoration, as well as a \$400,000 increase for general activities in coastal programs.

Refuges and wildlife.—The Committee recommends \$399,730,000 for refuges and wildlife, an increase of \$8,503,000 above the budget estimate.

The Committee notes that, within refuges and wildlife, \$29,000,000 has been funded out of the conservation spending category. Within that appropriation, \$25,000,000 is funded under infrastructure improvement for refuge maintenance, \$2,000,000 is funded under infrastructure improvement for law enforcement, and \$2,000,000 is funded through the youth conservation corps.

Changes recommended for refuge operations and maintenance include an increase of \$10,000,000 for refuge operations to continue “minimum staffing” implementation in recognition of the upcoming refuge system centennial. The Committee recommends a decrease in maintenance of \$6,000,000. Within the refuge operations and maintenance budget, \$50,000 will be provided to the Ohio River Islands NWR for one-time equipment replacement and \$799,000 will be provided to Canaan Valley NWR to address backlog maintenance needs.

The Committee understands that the Saddle Mountain NWR/Hanford Reach National Monument in Washington is experiencing serious staffing shortfalls as a result of increased size and must also proceed with planning processes in conjunction with a local advisory board. The Committee encourages the Service to fully consider the staffing and planning needs at this refuge/monument as part of the refuge operating needs system funding increase.

A total of \$993,000, the budget estimate, is recommended to continue the Salton Sea recovery program, contingent on matching funds from the State of California. The Committee does not object to including this program in the regular operations account in fiscal year 2003 and beyond.

In migratory bird management, the Committee recommends an increase of \$575,000 for reducing seabird bycatch in Alaska, \$1,000,000 is for Canada geese depredation, and \$1,852,000 over the budget estimate is provided to advance the North American Waterfowl Management Plans toward the fiscal year 2004 target funding levels outlined in the fiscal year 2001 statement of the managers that accompanied the conference report for that year. This funding amount is slightly higher than the House level. The Committee applauds the joint ventures’ ability to leverage dollars and, as such, considers that an increase for joint ventures bears merit. The Committee agrees to the following distribution of funds for joint ventures:

Joint Venture	Fiscal year 2001	Recommended fiscal year 2002	Target Level fiscal year 2004
Atlantic Coast	\$379,000	\$531,000	\$800,000
Lower Mississippi	501,000	605,000	750,000
Upper Mississippi	239,000	382,000	650,000
Prairie Pothole	1,182,000	1,310,000	1,400,000
Gulf Coast	339,000	470,000	700,000
Playa Lakes	225,000	387,000	700,000
Rainwater Basin	225,000	292,000	400,000
Intermountain West	239,000	492,000	1,000,000
Central Valley	359,000	438,000	550,000
Pacific Coast	239,000	397,000	700,000

Joint Venture	Fiscal year 2001	Recommended fiscal year 2002	Target Level fiscal year 2004
San Francisco Bay	225,000	282,000	370,000
Sonoran	225,000	292,000	400,000
Arctic Goose	140,000	221,000	370,000
Black Duck	110,000	197,000	370,000
Sea Duck	249,000	357,000	550,000
General Program Activities		71,000	
Administration	623,000	695,000	750,000
Total	5,499,000	7,419,000	10,460,000

An increase of \$76,000 is recommended for law enforcement maintenance to address needs at Canaan Valley NWR in West Virginia, and an additional \$1,000,000 is provided as a general increase for law enforcement operations.

Fisheries.—The Committee recommends an increase of \$4,710,000 for hatchery operations and maintenance, of which \$2,025,000 is for the Leadville NFH to implement alternative two of the environmental assessment to provide trout for stocking, \$2,000,000 is for the Washington State Hatchery Improvement Project, \$185,000 is for sewer replacement at White Sulphur Springs NFH, and \$500,000 is for unmet operational needs. An additional increase of \$7,380,000 is recommended for Fish and Wildlife Management, of which \$600,000 is for Atlantic salmon recovery, \$1,200,000 is for the Bering Sea Fisheries Association to conduct salmon research, \$2,000,000 is to reestablish the Chester Creek salmon run in Alaska, \$600,000 is for the Great Lakes fish restoration program, and \$1,000,000 is for the Wildlife Enhancement and Economic Development Program in Starkville, Mississippi. This program in Starkville is an initiative to develop and consolidate the infrastructure, multi-disciplinary expertise, and cooperative support to provide research-based information through an educational program targeted to assist private landowners and managers to develop and implement natural resource-based enterprises which can enable them to improve their income, sustain their natural resources, and maintain their quality of life for their families and the communities in which they live. Also within the increase for fish and wildlife management, \$100,000 is for Yukon River escapement monitoring, \$200,000 is for management studies at Yukon River, \$160,000 is for public education on the Yukon River salmon treaty, \$1,270,000 is for marine mammal protection in Alaska and \$250,000 is to combat whirling disease. With this increase, the Committee recommends a total of \$2,246,000 for the continuation of activities begun in fiscal year 1997 to combat whirling disease and related fish health issues. Within the amount provided, \$950,000 is for the National Partnership on the Management of Wild and Native Cold Water Fisheries, and \$1,296,000 is provided to continue the National Wild Fish Health Survey, expand whirling disease investigations, and recruit and train health professionals.

General Administration.—The Committee recommends an increase of \$5,645,000 for general administration, including \$1,500,000 for travel expenses and \$3,970,000 for unfunded pay costs. The Committee expects the Service to distribute these sums

to the appropriate budget activities and line items. The Committee recommends funding audit costs department-wide through the Office of the Inspector General; therefore, a decrease of \$825,000 is reflected in the Committee recommendation for general administration. An increase of \$1,000,000 is provided for the National Fish and Wildlife Foundation (NFWF). Within the increase provided for NFWF, \$500,000 is for a grant program to assist with on-the-ground recovery efforts of the Atlantic salmon in the Gulf of Maine.

Bill language.—The Committee did not include the language proposed in the budget request for listing.

CONSTRUCTION

Appropriations, 2001	\$62,877,000
Budget estimate, 2002	35,849,000
House allowance	48,849,000
Committee recommendation	55,526,000

The Committee recommends \$55,526,000 for construction, an increase of \$19,677,000 above the budget estimate.

The Committee agrees to the following distribution of funds:

[In thousands of dollars]

	Budget estimate	Committee recommendation	Change
Anahuac NWR, TX	330	330
Bear River NWR, UT	500	+ 500
Big Muddy NWR, MO	250	+ 250

	Subtotal, Nationwide Engineering Services	8,492	8,492
	Total, Construction	35,849	55,526 + 19,677

Within construction, under the Northwest Power Planning area line item, the Committee recommends \$5,000,000 pursuant to Public Law 106-502 for construction of fish screens, fish passage devices, and related features. This will be a significant resource to assist landowners to avoid taking listed species and to accelerate the schedule for resolving salmon passage problems.

LAND ACQUISITION

Appropriations, 2001	\$121,188,000
Budget estimate, 2002	164,401,000
House allowance	104,401,000
Committee recommendation	108,401,000

The Committee recommends \$108,401,000, \$56,000,000 below the budget request. The land acquisition program is funded through the conservation spending category.

The budget estimate includes two programs, the Landowner Incentive Program and Stewardship Grants, in the Service's Federal land acquisition account. The Committee recommends the establishment of these two new accounts in the Fish and Wildlife Service rather than funding those programs as part of Federal land acquisition.

The following table shows the Committee's recommendations:

<i>Area and State</i>	<i>Committee recommendation</i>
Aldo Leopold Waterfowl Protection Area (WI)	\$3,500,000
Back Bay NWR (VA)	3,900,000
Big Muddy NFWR (MO)	2,000,000
Boyer Chute NWR (NE)	1,500,000
Cahaba NWR (AL)	2,500,000
Canaan Valley NWR (WV)	7,800,000
Cape May NWR (NJ)	1,100,000
Cat Island NWR (LA)	5,000,000

Rhode Island National Wildlife Complex (RI)	1,000,000
Sacramento River NWR (CA)	1,100,000
San Diego NWR (CA)	4,600,000
San Joaquin River NWR (CA)	2,000,000
Silvio O. Conte NFWR	1,100,000
Southeast Louisiana NWR Complex (LA)	500,000
Togiak NWR (AK) (conservation easements)	3,000,000

<i>Area and State</i>	<i>Committee recommendation</i>
Waccamaw NWR (SC)	2,000,000
Western Montana Project (MT)	3,000,000
White Sulphur Springs National Fish Hatchery (WV)	150,000
<hr/>	
Subtotal Acquisitions	88,401,000
<hr/>	
Emergency/Hardships	2,000,000
Inholdings	2,000,000
Exchanges	1,000,000
Acquisition Management	15,000,000
<hr/>	
Total	108,401,000

The Committee is aware of concerns that the Fish and Wildlife Service real estate office is unable to process quickly pending requests from landowners to participate in the Dakota Tallgrass Prairie Project. The Committee urges the agency to provide additional staff resources to process requests and reduce any backlog.

Within the amount recommended for the Silvio O. Conte NFWR, \$350,000 is provided for the acquisition of conservation easements in New Hampshire in the Stewartson/Colebrook area.

Acquisition of the 19,000 acres of property adjacent to the Don Edwards National Wildlife Refuge represents a unique environmental opportunity to acquire and restore wetlands at the edge of San Francisco Bay where wetlands loss has been significant. Congress provided \$8,000,000 in fiscal year 2001 for the initial purchase of this property. The owner of the property is seeking \$300,000,000 for the land. The Committee believes this amount is excessive. If there were to be a reasonable offer, the Committee would consider adding future funding.

LANDOWNER INCENTIVE PROGRAM

Appropriations, 2001	
Budget estimate, 2002	
House allowance	\$50,000,000
Committee recommendation	50,000,000

The Committee recommends \$50,000,000 for the landowner incentive program. The Administration proposed this same amount as part of the land acquisition account. The Committee recommends funding it under this separate appropriations account to distinguish it from Federal land acquisition. This program is funded under the conservation spending category.

This new program will provide funds for matching, competitively awarded grants for technical and financial assistance for landowner incentive programs geared toward private landowners, and will include habitat protection and restoration for the management of federally listed, proposed or candidate species, or other at-risk species on private lands. Eligible grantees include the States, the District of Columbia, Indian Tribes, Puerto Rico, Guam, the U.S. Virgin Islands, the Northern Mariana Islands, and American Samoa.

STEWARDSHIP GRANTS

Appropriations, 2001	
Budget estimate, 2002	
House allowance	\$10,000,000
Committee recommendation	10,000,000

The Committee recommends \$10,000,000 for the stewardship grants program. The Administration proposed this same amount as part of the land acquisition account. The Committee recommends funding it under this separate appropriations account to distinguish it from Federal land acquisition. This program is funded under the conservation spending category.

This new program will provide grants and other assistance to individuals and groups engaged in private conservation efforts that benefit federally listed, proposed or candidate species, or other at-risk species.

COOPERATIVE ENDANGERED SPECIES CONSERVATION FUND

Appropriations, 2001	\$104,694,000
Budget estimate, 2002	54,694,000
House allowance	107,000,000
Committee recommendation	91,000,000

The Committee recommends \$91,000,000 for the cooperative endangered species conservation fund, an increase of \$36,306,000 above the budget request, of which \$1,235,000 is for Administration and \$35,071,000 is for habitat conservation plan land acquisition. This program is funded under the conservation spending category.

NATIONAL WILDLIFE REFUGE FUND

Appropriations, 2001	\$11,414,000
Budget estimate, 2002	11,414,000
House allowance	16,414,000
Committee recommendation	14,414,000

The Committee recommends \$14,414,000 for the National wildlife refuge fund, an increase of \$3,000,000 above the budget estimate provided for payments to counties.

NORTH AMERICAN WETLANDS CONSERVATION FUND

Appropriations, 2001	\$39,912,000
Budget estimate, 2002	14,912,000
House allowance	45,000,000
Committee recommendation	42,000,000

The Committee recommends \$42,000,000 for the North American wetlands conservation fund, an increase of \$27,088,000 above the budget estimate and an increase of \$2,088,000 above the fiscal year 2001 enacted level.

MULTINATIONAL SPECIES CONSERVATION FUND

Appropriations, 2001	\$3,243,000
Budget estimate, 2002	3,243,000
House allowance	4,000,000
Committee recommendation	4,000,000

The Committee recommends an appropriation of \$4,000,000 for the multinational species conservation fund, an increase of

\$757,000 above the budget estimate and an increase of \$757,000 above the fiscal year 2001 enacted level. Within the amounts provided, \$1,000,000 is included for African elephants, \$1,000,000 is for Asian elephants, \$1,000,000 is for rhinoceros and tiger conservation, and \$1,000,000 is for great ape conservation.

STATE WILDLIFE GRANTS FUND

(INCLUDING RECISSION)

Appropriations, 2001	\$49,890,000
Budget estimate, 2002	
House allowance	100,000,000
Committee recommendation	100,000,000

The Committee recommends \$100,000,000 for State wildlife grants, an increase of \$100,000,000 above the budget request. Additionally, the Committee recommends rescinding the \$49,890,000 in competitive State wildlife grants appropriated last fiscal year.

The fiscal year 2002 funds are to be distributed to States and territories through a formula that is based 30 percent on land area and 70 percent on population. Each State or eligible entity must have developed, or committed to develop by October 1, 2005, a comprehensive wildlife conservation plan that must be approved by the Secretary of the Interior or her designee. These plans are to address the conservation of each State's or eligible entity's broad range of wildlife.

Each State or eligible entity has 2 years to enter into specific grant agreements with the Service using fiscal year 2002 funding. If funds remain unobligated at the end of fiscal year 2003, the unobligated funds will be reapportioned to all States and eligible entities, together with any new appropriations provided in fiscal year 2004.

The method for the distribution of funds, and the conditions associated thereto, consolidate the previously appropriated allocation grant program and the competitive grant program into a single allocation formula. Under the new program, States are required to comply with the planning and cost sharing requirements of the former competitive grants program but are guaranteed an allocation based on the new formula described above. The Committee is concerned that these grants result in on-the-ground improvements for wildlife as soon as possible and has included a requirement that fiscal year 2002 funds be obligated within 2 fiscal years.

Not more than 3 percent of the appropriated amount may be used for Federal administration of the program. Administrative costs for each grantee should also be held to a minimum so that the maximum amount of funding is used for on-the-ground projects.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

Appropriations, 2001	\$1,386,190,000
Budget estimate, 2002	1,470,499,000
House allowance	1,480,336,000
Committee recommendation	1,473,128,000

The Committee recommends \$1,473,128,000 for Operation of the National Park System, an increase of \$86,938,000 above the fiscal year 2001 level and \$2,629,000 above the budget request. The increase above the current year level includes \$44,687,000 for fixed costs.

Within the amounts provided, the Committee expects the National Park Service to continue to provide at least \$500,000, the current level of support, for the National Conservation and Training Center and execute the payment within 60 days of enactment of this bill. Up to \$3,500,000 of the funds provided for park operations may be used for training new employees in the fundamental policies and procedures all employees must follow for the accomplishment of Service goals. The amount provided also recognizes the transfers of \$4,281,000 from the Visitor Services activity to the U.S. Park Police account, \$3,300,000 to a new account for Park Police annuity benefits, and \$650,000 to the Office of Inspector General for financial audits.

The following table shows the amounts recommended by the Committee as compared with the budget estimate:

	Budget estimate	Committee recommendation	Change
Park management:			
Resource stewardship	\$312,327,000	\$317,996,000	+ \$5,669,000
Visitor services	288,543,000	298,343,000	+ 9,800,000
Maintenance	477,197,000	480,701,000	+ 3,504,000
Park support	265,871,000	271,490,000	+ 5,619,000
Subtotal, park management	1,343,938,000	1,368,530,000	+ 24,592,000
External administrative costs	126,561,000	104,598,000	- 21,963,000
Total, Operation of the National Park System	1,470,499,000	1,473,128,000	+ 2,629,000

Further details regarding other program changes are described within each budget activity section.

Resource stewardship.—The Committee recommends \$317,996,000 for resource stewardship, an increase of \$31,039,000 above the fiscal year 2001 enacted level. The amount provided includes \$20,000,000 for the third year of the Natural Resource Challenge. The Committee supports National Park Service efforts to protect native species and natural habitats throughout the park system. Other increases include \$853,000 for Everglades restoration and research, \$1,200,000 to begin a new brucellosis monitoring program for bison at Yellowstone National Park, \$500,000 for cultural resources management, \$500,000 for Vanishing Treasurers, \$2,000,000 for park increases, and \$5,986,000 for fixed costs.

Visitor services.—The Committee recommends \$298,343,000 for visitor services, an increase of \$11,511,000 above the fiscal year 2001 enacted level. The increase amount includes \$1,067,000 for improving structural fire safety at National Park Service facilities, \$5,000,000 for park increases, and \$6,442,000 for uncontrollable costs. These increases are partially offset by a reduction of \$998,000 for one-time costs related to the Presidential Inaugural.

Maintenance.—The Committee recommends \$480,701,000 for maintenance, an increase of \$22,390,000 above the fiscal year 2001 enacted level. The increase consists of \$10,000,000 to address the deferred maintenance backlog in the repair and rehabilitation program in Facility Maintenance, \$2,000,000 for park operations, \$2,031,000 for facility and project management information systems, \$2,656,000 for facility condition assessments, \$475,000 for safety hazard removal at the New River Gorge National River, and \$10,217,000 for uncontrollable costs. These increases are partially offset by a decrease of \$4,989,000 for the one-time costs to transfer the Minuteman Missile National Historic Site from the Department of Defense. The Committee supports the requested realignment of \$2,994,000 for condition assessments. Of the amounts provided, \$250,000 is for the relocation of inholdings in the Minidoka Internment National Monument.

Park support.—The Committee recommends \$271,490,000 for park support, an increase of \$11,821,000 above the fiscal year 2001 enacted level. The amount provided includes increases of \$200,000 for wild and scenic partnership rivers and \$2,000,000 for the challenge cost-share program. This increase is provided for the challenge cost-share program for activities associated with the bicentennial of the Lewis and Clark expedition. The Committee is aware of the tremendous interest in projects related to the bicentennial, having reviewed a project inventory compiled by the National Lewis and Clark Bicentennial Council that includes over 315 projects with projected costs of \$350,000,000. The Committee has provided a limited amount to address the highest priority projects from this inventory, but the Committee must continue to give even higher priority to the missions and responsibilities of the Federal agencies funded in this bill. The funds provided should be awarded on a competitive basis for exhibits, interpretive or educational programs, resource preservation or other projects relating to the Lewis and Clark Trail. In selecting projects to be funded, the Service should emphasize cost-sharing, national significance, geographic distribution, and the degree to which projects will not result in undue ongoing operating costs to the Service or other Federal agencies. The Service should coordinate closely with the National Lewis and Clark Bicentennial Council to develop project selection criteria and work in accordance with the current interagency memorandum of understanding to ensure the participation of other Federal agencies. No single award shall be in excess of \$100,000.

External administrative costs.—The Committee recommends \$104,598,000 for external administrative costs, an increase of \$5,190,000 above the fiscal year 2001 enacted level. This increase is for fixed costs.

The Committee understands that the amount provided for park management includes funds to continue support for the National Underground Railroad Network to Freedom.

UNITED STATES PARK POLICE

Appropriations, 2001	\$77,876,000
Budget estimate, 2002	65,260,000
House allowance	65,260,000
Committee recommendation	66,106,000

The Committee recommends \$66,106,000 for the United States Park Police, a decrease of \$11,770,000 below the fiscal year 2001 enacted level. The decrease results from the establishment of a separate account for USPP retirement benefits. The amount provided includes \$5,013,000 for fixed cost increases and \$4,281,000 for an internal transfer from Operation of the National Park System. The increases are partially offset by \$2,401,000 in decreases for one-time costs related to Washington Monument security enhancements and the Presidential Inauguration.

CONTRIBUTION FOR ANNUITY BENEFITS

The Committee has included bill language under this heading which directs that the costs of the USPP pension plan be covered the same way as the U.S. Secret Service by establishing a permanent, indefinite account with payments made directly to the District of Columbia by the U.S. Treasury on an actual cost monthly basis. The cost associated with this legislative language is \$22,000,000 in fiscal year 2002.

NATIONAL RECREATION AND PRESERVATION

Appropriations, 2001	\$59,827,000
Budget estimate, 2002	48,039,000
House allowance	51,804,000
Committee recommendation	65,886,000

The Committee recommends an appropriation of \$65,886,000 for national recreation and preservation, an increase of \$6,059,000 above the fiscal year 2001 enacted level and an increase of \$17,847,000 to the budget request. A comparison of the Committee recommendation to the budget estimate follows:

	Budget estimate	Committee recommendation	Change
Recreation programs	\$549,000	\$555,000	+\$6,000
Natural programs	10,930,000	11,595,000	+ 665,000
Cultural programs	20,019,000	20,451,000	+ 432,000
International park affairs	1,718,000	1,732,000	+ 14,000
Environmental and compliance review	397,000	401,000	+ 4,000
Grant administration	1,582,000	1,605,000	+ 23,000
Heritage Partnership Programs:			
Commissions and grants	8,616,000	12,937,000	+ 4,321,000
Technical support	127,000	131,000	+ 4,000
Subtotal	8,743,000	13,068,000	+ 4,325,000
Statutory or contractual aid for other activities:			
Barnanoff Museum/Erskin House		250,000	+ 250,000
Bishop Museum's Falls of Clyde		300,000	+ 300,000
Brown Foundation	101,000		- 101,000
Chesapeake Bay Gateways	798,000	1,600,000	+ 802,000
Dayton Aviation Heritage Commission	47,000	299,000	+ 252,000
Denver Natural History and Science Museum ...		2,000,000	+ 2,000,000
Ice Age National Scientific Reserve	806,000	806,000	
Independence Mine		1,500,000	+ 1,500,000
Jamestown 2007		200,000	+ 200,000
Johnstown Area Heritage Association	49,000	49,000	
Lamprey River	200,000	500,000	+ 300,000

	Budget estimate	Committee recommendation	Change
Mandan On-a-Slant Village		750,000	+ 750,000
Martin Luther King, Jr. Center	528,000	528,000	
Morris Thompson Cultural and Visitor Center ...		750,000	+ 750,000
National Constitution Center		500,000	+ 500,000
Native Hawaiian culture and arts program	740,000	740,000	
New Orleans Jazz Commission	66,000	66,000	
Penn Center National Landmark		1,000,000	+ 1,000,000
Roosevelt Campobello International Park Commission	766,000	766,000	
Route 66 National Historic Highway		475,000	+ 475,000
St. Charles Interpretive Center		1,000,000	+ 1,000,000
Vancouver National Historic Reserve		400,000	+ 400,000
Vulcan monument		2,000,000	+ 2,000,000
Subtotal, statutory or contractual aid	4,101,000	16,479,000	+ 12,378,000
Total, National recreation and preservation ..	48,039,000	65,886,000	+ 17,847,000

Recreation programs.—The Committee recommends an increase of \$14,000 above the fiscal year 2001 enacted level for recreation programs. The increase provided is for fixed costs.

Natural programs.—The Committee recommends an increase of \$814,000 above the fiscal year 2001 enacted level for natural programs. The increase provided includes \$279,000 for fixed costs, \$200,000 for Rivers and Trails Studies, and \$335,000 for Rivers and Trails Conservation Assistance. Within funds provided for Rivers and Trails Conservation Assistance, \$250,000 is to establish a 740-mile Northern Forest Canoe Trail through the States of Vermont, New York, Maine, and New Hampshire. Within funds available for Rivers and Trails Studies, priority consideration should be given to a study of the Washington-Rochambeau National Historic Trail in Connecticut.

The Committee is aware of efforts to modify and extend a scenic road and trail along the Rio Grande River in Laredo, Texas. The Committee directs the Service to provide such technical and other assistance as is appropriate for these projects.

Cultural programs.—The Committee recommends a decrease of \$256,000 below the fiscal year 2001 enacted level for cultural programs. The amount provided includes \$393,000 for fixed costs. Funding is not continued in fiscal year 2002 for the Revolutionary War/War of 1812 study as the study will be concluded with funds appropriated in fiscal year 2001. Funding for the National Center for Preservation Training and Technology to design and implement a heritage education distance learning model will continue with \$250,000 in fiscal year 2002. One-time funding provided in fiscal year 2001 for Heritage Preservation, Incorporated and Gettysburg Technical Assistance are not continued.

International park affairs.—The Committee recommends an increase of \$30,000 above the fiscal year 2001 enacted level for international park affairs. The increase provided is for fixed costs.

Environmental and compliance review.—The Committee recommends an increase of \$9,000 above the fiscal year 2001 enacted

level for environmental and compliance review. The increase provided is for fixed costs.

Grant administration.—The Committee recommends an increase of \$51,000 above the fiscal year 2001 enacted level for grant administration. The amount provided is for fixed costs.

Heritage partnership programs.—The Committee recommends an increase of \$2,770,000 above the fiscal year 2001 enacted level for heritage partnership programs.

The Committee recommends the following distribution of funds:

<i>Project</i>	<i>Amount</i>
America's Agricultural Heritage Partnership	\$1,000,000
Augusta Canal National Heritage Area	492,000
Automobile National Heritage Area	500,000
Cache La Poudre River Corridor	50,000
Cane River National Heritage Area	650,000
Delaware and Lehigh National Heritage Corridor	423,000
Essex National Heritage Area	1,000,000
Hudson River Valley National Heritage Area	628,000
Illinois and Michigan Canal National Heritage Corridor	500,000
John H. Chafee Blackstone River Valley National Heritage Corridor	1,000,000
Lackawanna Heritage Area	354,000
National Coal Heritage Area	210,000
Ohio and Erie Canal National Heritage Corridor	1,000,000
Quinebaug and Shetucket Rivers Valley National Heritage Corridor	1,000,000
Rivers of Steel National Heritage Area	1,000,000
Schuylkill National Heritage Center	210,000
Shenandoah Valley Battlefields National Historic District	500,000
South Carolina National Heritage Corridor	1,000,000
Tennessee Civil War Heritage Area	210,000
Wheeling National Heritage Area	1,000,000
Yuma Crossing National Heritage Area	210,000
Subtotal, Commissions & Grants	12,937,000

Statutory or contractual aid.—The Committee recommends an increase of \$2,613,000 above the fiscal year 2001 enacted level for statutory or contractual aid. The distribution of funds is shown in the table at the beginning of this section.

URBAN PARKS AND RECREATION FUND

Appropriations, 2001	\$29,934,000
Budget estimate, 2002
House allowance	30,000,000
Committee recommendation	20,000,000

The Committee recommends \$20,000,000 for the urban parks and recreation fund, a decrease of \$10,000,000 from the fiscal year 2001 level.

HISTORIC PRESERVATION FUND

Appropriations, 2001	\$94,239,000
Budget estimate, 2002	67,055,000
House allowance	77,000,000
Committee recommendation	74,000,000

The Committee recommends \$74,000,000 for the historic preservation fund, an increase of \$6,945,000 above the budget request and a decrease of \$20,239,000 below the fiscal year 2001 enacted level. The amount provided includes \$39,000,000 in Grants in Aid to States, \$3,000,000 in Grants in Aid to Tribes, and \$30,000,000 for Save America's Treasures. An endowment of \$2,000,000 for the

National Trust for Historic Preservation to address maintenance needs at 20 National Trust Historic Sites is also included.

CONSTRUCTION

Appropriations, 2001	\$300,312,000
Budget estimate, 2002	339,802,000
House allowance	349,249,000
Committee recommendation	338,585,000

The Committee recommends \$338,585,000 for National Park Service construction, a decrease of \$1,217,000 below the budget estimate and an increase of \$38,273,000 above the fiscal year 2001 enacted level. Changes from the budget request are shown in the table below:

NATIONAL PARK SERVICE CONSTRUCTION

[In thousands of dollars]

Project	Budget Request	Committee recommendation
Acadia NP, ME (upgrade utilities and campgrounds)	4,972
Adams Family Memorial, DC (planning)	1,000
Apostle Islands NL, WI (utility systems)	796
Arches NP, UT (visitor center planning)	600
Assateague Island National Seashore, MD (upgrade water treatment plant)	400
Assateague Island National Seashore, MD (Coastal Barrier Island Education Center planning & design)	700
Big Cypress NP, FL (rehabilitate off-road vehicle trails)	5,000	2,500
Biscayne NP, FL (stabilization of Stiltsville structures)	2,000	1,000
Blue Ridge Parkway, NC (rehabilitate guardrails)	3,796	3,796
Boston NHP, MA (rehabilitate Bunker Hill monument)	3,751	3,751
Brown v. Board of Education NHS, KS (rehabilitate Monroe School)	2,475	2,475
Cane River Creole NHP, LA (Oakland Plantation stabilization and preservation)	1,983	1,983
Cape Cod NS, MA (Salt Pond visitor center completion)	710	710
Cape Cod NS, MA (Highlands Arts Center design and repairs)	1,000
Cape Hatteras NS, NC (complete lighthouse relocation project)	1,173	1,173
Chesapeake and Ohio Canal NHP, DC (preserve Georgetown waterfront masonry walls)	1,838
Chesapeake and Ohio Canal NHP, MD (stabilize Monocacy Aqueduct)	6,415	6,415
Colonial NHP, VA (preserve Poor Potter archaeological site)	718	718
Dayton Aviation NHP, OH (Huffman & west exhibits)	3,100
Denali NP&P, AK (entrance visitor facilities)	7,750
Downeast Heritage Center, ME	2,000
Ellis Island, NJ/NY (repair seawall)	2,000
Everglades NP, FL (modified water delivery system)	19,199	19,199
Everglades NP, FL (Flamingo wastewater system)	4,192	4,192
Fort McHenry NM & HS, MD (repair historic seawall)	1,480	1,480
Fort Washington Park, MD (repair masonry wall)	1,000	700
Franklin D. Roosevelt NHS, NY (construct FDR Library visitor center)	5,630	5,630
Gateway NRA, NY (complete Jacob Riis Park rehabilitation)	4,130	4,130
Gateway NRA, NJ (Sandy Hook access)	2,346	2,346
George Washington Memorial Parkway, MD (complete rehabilitation of Glen Echo facilities)	2,000	2,400
George Washington Memorial Parkway, VA (rehabilitate Arlington House, outbuildings and grounds)	2,154
Glacier NP, MT (Many Glacier Hotel emergency stabilization)	6,000	6,000

NATIONAL PARK SERVICE CONSTRUCTION—Continued

[In thousands of dollars]

Project	Budget Request	Committee recommendation
Glacier NP, MT (reconstruct Apgar District and Headquarters water system)	5,485	5,485
Glacier Bay NP&P, AK (construct maintenance support facility)	4,233
Glen Canyon NRA, UT (Wahweap sewage system)	5,138
Golden Gate NRA, CA (Immigration Museum study)	500
Golden Gate NRA, CA (Pier 2 seismic safety)	13,000	13,000
Grand Canyon NP, AZ (rehabilitate South Rim comfort stations)	987	987
Grand Portage NM, MN (heritage center)	4,640
Great Basin NP, NV (visitor learning center planning and design)	500
Great Smoky Mountains NP, TN (replace science facilities)	4,703	4,703
Great Smoky Mountains NP, TN (restore log cabins)	375
Harpers Ferry NHP, WV (restoration and rehabilitation of train station)	1,890
Hispanic Cultural Center, NM	1,800
Horace Albright Training Center, AZ (rehabilitate center)	6,876	6,876
Hot Springs NP, AR (rehabilitation)	2,741	2,741
Independence NHP, PA (replace walkways)	966	966
Independence NHP, PA (utilities and exhibits at 2nd Bank)	6,583	6,583
Jamestown 2007, VA (collections storage)	1,288
Jean Lafitte NHP, LA (rehabilitate Decatur House & Chalmette Battlefield)	500
John Day Fossil Beds NM, OR (construct paleontological center and rehabilitate headquarters)	8,421	8,421
John H. Chafee Blackstone River Valley NHA	1,000
Keweenaw NHP, MI (restore historic Union Building)	2,500	2,500
Keweenaw NHP, MI (renovation of Quincy smelter)	1,000
Klondike Goldrush NHP, AK (renovations and store restoration)	175
Lava Beds NM, CA (replace visitor center)	4,131	4,131
Lincoln Home NHS, IL (Miller House and Barn)	960
Lincoln Library, IL	5,000
Little Bighorn Battlefield NM National Indian Memorial, MT	2,300
Manassas National Battlefield Park, VA (stabilize historic structures)	1,436
Mesa Verde NP, CO (water systems)	4,037	4,037
Morris Thomson Visitor and Native Cultural Center, AK	1,500
National Capital Parks-Central, DC (complete Jefferson Memorial rehabilitation)	2,600	2,600
National Capital Parks-Central, DC (upgrade Ford's Theater and Peterson's House)	1,562	1,562
National Capital Parks-Central, DC (preserve Lincoln Memorial)	4,992	4,992
National Center for the American Revolution, PA (development concept planning)	350
New River Gorge NSR, WV (upgrade water system)	475
Office of the Director (partnership with National Park Foundation)	5,000
Olympic NP, WA (Elwha River restoration)	25,847	20,000
Oregon Caves NM, OR (replace quonset hut and headquarters building)	1,004
Palace of the Governors, NM (complete federal contribution to annex)	5,000
Petrified Forest NP, AZ (replace water line)	5,929	5,929
Point Reyes NS, CA (lighthouse access, utilities)	1,285	1,285
Puukohola Heiau NHS, HI (relocate maintenance facilities)	837	837
Redwood NP, CA (remove failing roads)	2,552	2,552
Saint Croix Island IHS, ME (provide basic facilities)	713
San Francisco Maritime NHP, CA (rehabilitate C.A. Thayer)	9,278	2,000
Sequoia NP, CA (complete restoration of Giant Forest)	1,480	1,480
Shiloh NMP, MS (complete construction of Corinth Civil War Interpretive Center)	3,062

NATIONAL PARK SERVICE CONSTRUCTION—Continued

[In thousands of dollars]

Project	Budget Request	Committee recommendation
Timucuan Preserve, FL (visitor access, signs and exhibits)		500
Tumacacori NHP, AZ (relocate maintenance and administrative facilities)	944	944
Tuskegee Airmen NHS, AL (Moton Field rehabilitation and restoration)		1,000
Ulysses S. Grant NHS, MO (restore historic structures)	7,117	7,117
Vancouver NHR, WA (Barracks repairs)		2,000
Vicksburg NMP, MS (Mint Spring stabilization)		920
White House, DC (structural and utility rehabilitation)	6,500	2,600
Wrangell St. Elias NP, AK (exhibits)		700
Yellowstone NP, WY (replace Norris water and wastewater treatment facilities)	2,008	2,008
Yellowstone NP, WY (replace deficient collections storage and build collections management facility)	7,224	7,224
Yellowstone NP, WY (rehabilitate Park headquarters building)	4,730	
Subtotal	246,597	250,143
Emergency and Unscheduled Projects	3,500	3,500
Housing Replacement	15,000	10,000
Dam Safety	2,700	2,700
Equipment Replacement	17,960	17,960
Construction Planning (10 percent)	16,250	16,250
Pre-design and Supplementary Services	9,150	9,150
Construction Program Management and Operations	17,405	17,642
General Management Planning	11,240	11,240
Subtotal	93,205	88,442
TOTAL, NPS Construction	339,802	338,585

The Committee provides \$1,000,000 for the planning and design, in cooperation with non-Federal partners, of a memorial commemorating President John Adams, Abigail Adams, and President John Quincy Adams for their significant contributions to the United States.

The Committee supports the efforts of the National Park Service and its partners to commemorate the centennial of flight, and we encourage the Dayton Aviation Heritage Commission and the First Flight Centennial Foundation in North Carolina to cooperate in making the one-hundredth anniversary of manned flight a national celebration.

The Committee is aware of the substandard employee housing provided at some units of the National Park System. The Committee therefore recommends a 100 percent increase to \$10,000,000 for housing replacement. Of the funds provided for construction planning, \$287,000 is for planning the restoration of the Bodie Island Lighthouse on Cape Hatteras National Seashore and \$200,000 is for the Chilkoot Trail at Klondike Gold Rush National Historic Park.

LAND AND WATER CONSERVATION FUND
(RESCISSION)

Appropriations, 2001	-\$30,000,000
Budget estimate, 2002	- 30,000,000
House allowance	- 30,000,000
Committee recommendation	- 30,000,000

The Committee recommends a rescission of \$30,000,000 in annual contract authority provided by 16 U.S.C. 460l-10a. This authority has not been used in recent years and there are no plans to use it in fiscal year 2002.

LAND ACQUISITION AND STATE ASSISTANCE

Appropriations, 2001	\$215,141,000
Budget estimate, 2002	557,036,000
House allowance	261,036,000
Committee recommendation	287,036,000

The Committee recommends \$287,036,000 for land acquisition and State assistance, an increase of \$71,895,000 above the enacted level and a reduction of \$270,000,000 below the budget request.

The following table shows the Committee recommendation:

<i>Area and State</i>	<i>Committee Recommendation</i>
Adams National Historic Park (MA)	\$2,000,000
Black Canyon of the Gunnison National Park (CO)	329,000
Brandywine Battlefield (PA)	1,500,000
Cape Cod National Seashore (MA)	2,000,000
Civil War Battlefields	11,000,000
Cumberland Gap National Historic Park (Fern Lake) (KY/VA)	1,000,000
Dayton Aviation Heritage National Historic Park (OH)	750,000
Denali National Park and Preserve (AK)	1,200,000
Ebey's Landing National Historic Reserve (WA)	1,000,000
Everglades: Grant to the State of Florida	15,000,000
Everglades: Modified Water Delivery Project	16,000,000
Fort Smith National Historic Site (AR/OK)	850,000
Fort Sumter National Monument (SC)	1,750,000
Fredericksburg and Spotsylvania County Battlefields Memorial National Military Park (VA)	2,000,000
Golden Gate National Recreation Area (CA)	1,000,000
Grand Teton National Park (WY) (Feuz conservation easements)	4,000,000
Great Sand Dunes Monument and Preserve (CO)	4,000,000
Guilford Courthouse National Military Park (NC)	800,000
Gulf Islands National Seashore (MS)	10,000,000
Hawaii Volcanoes National Park (HI)	7,000,000
Ice Age National Scenic Trail (WI)	3,500,000
Keweenaw National Historic Park (MI)	800,000
Lowell National Historic Park (MA)	857,000
New River Gorge National River (WV)	6,800,000
Nez Perce National Historical Park—Canoe Camp and Weippe Prairie (ID)	2,000,000
Point Reyes National Seashore (CA)	500,000
Puuhonua O Honaunau National Historic Park (HI)	500,000
Sand Creek Massacre National Historic Site (CO)	300,000
Shenandoah Valley battlefields National Historic District (VA)	500,000
Sleeping Bear Dunes National Lakeshore (MI)	1,100,000
Timucuan Ecological and Historic Preserve (FL)	1,500,000
Vicksburg National Military Park (MS) (Pemberton HQ)	500,000
Subtotal	100,036,000
Emergency/Hardships	4,000,000
Inholdings/Exchanges	5,000,000

<i>Area and State</i>	<i>Committee Recommendation</i>
Land Acquisition Administration	12,000,000
Total Federal	123,036,000
Stateside Grants	160,000,000
State Assistance Grant Administration	4,000,000
Subtotal, NPS State land acquisition	154,000,000
Total	287,036,000

The Committee has retained the current allocation formula for stateside grants.

The Committee recognizes the demonstrated accomplishment of the Civil War Battlefield Preservation program, and therefore recommends \$11,000,000 for this program similar to the appropriation provided in fiscal year 1999. The Committee expects at least a 1:1 cost-share for these funds. The Committee also expects this appropriation to be sufficient for such battlefield acquisition for the next 3 years.

The Committee has provided funds for the Grand Teton National Park. These funds are to be used to purchase conservation easements on the Feuz Ranch. The easements will provide critical habitat protection for this scenic entrance to the Grand Teton National Park as well as secure a ranching heritage.

The Committee recommends funds for the Timucuan Ecological & Historic Preserve with the understanding that the funds will be matched by the City of Jacksonville.

Funds included for Puuhonua O Honaunau National Historic Park and Vicksburg National Military Park are subject to authorization.

ENERGY AND MINERALS

U.S. GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

Appropriations, 2001	\$880,106,000
Budget estimate, 2002	813,376,000
House allowance	900,489,000
Committee recommendation	892,474,000

The Committee recommends an appropriation of \$892,474,000 for surveys, investigations, and research of the U.S. Geological Survey [USGS].

The following table provides a comparison of the Committee's fiscal year 2002 recommendations with the budget estimate:

	Budget estimate	Committee recommendation	Change
National mapping program:			
National data collection and integration	\$54,172,000	\$57,172,000	+ \$3,000,000
Earth science information management and delivery	33,382,000	35,382,000	+ 2,000,000
Geographic research and applications	36,114,000	37,212,000	+ 1,098,000

	Budget estimate	Committee recommendation	Change
Subtotal, national mapping program	123,668,000	129,766,000	+ 6,098,000
Geologic hazards, resources, and processes:			
Geologic hazards assessments	73,704,000	75,704,000	+ 2,000,000
Geologic landscape and coastal assessments ..	64,240,000	73,977,000	+ 9,737,000
Geologic resource assessments	75,859,000	79,855,000	+ 3,996,000
Subtotal, geologic hazards, resources, and processes	213,803,000	229,536,000	+ 15,733,000
Water resources investigations:			
Water resources assessment and research	65,123,000	93,723,000	+ 28,600,000
Water data collection and management	30,042,000	37,285,000	+ 7,243,000
Federal-State program	64,318,000	64,318,000
Water Resources Research Institutes	5,460,000	+ 5,460,000
Subtotal, water resources investigations	159,483,000	200,786,000	+ 41,303,000
Biological research:			
Biological research and monitoring	126,860,000	132,037,000	+ 5,177,000
Biological information management and delivery	8,432,000	18,417,000	+ 9,985,000
Cooperative research units	13,970,000	13,970,000
Subtotal, biological research	149,262,000	164,424,000	+ 15,162,000
Science support	81,266,000	81,266,000
Facilities	85,894,000	86,696,000	+ 802,000
Total, surveys, investigations, and research	813,376,000	892,474,000	+ 79,098,000

National mapping program.—The Committee recommends \$129,766,000 for the national mapping program, \$6,098,000 above the 2002 budget estimate and \$660,000 below the fiscal year 2001 level. Increases above the 2001 level include \$1,829,000 to meet additional fixed costs, and \$3,000,000 for the management and operations of land-observing satellites. Decreases include \$500,000 for the consolidation of earth science information centers, \$1,996,000 for internet access, and \$2,993,000 for high performance computing and communications in agreement with the budget estimate. The Committee has restored a proposed reduction of \$2,000,000 for the archive and delivery of satellite data at the EROS Data Center.

Geological hazards, resources, and processes.—The Committee recommends \$229,536,000 for the geologic hazards, resources, and processes activity, \$15,733,000 above the budget request and \$4,215,000 above the 2001 level, including increases above the 2001 level of \$3,761,000 for uncontrollable costs, \$2,000,000 for installation of volcano monitoring equipment in Shemya, a site critical for the National Missile Defense program, \$500,000 to continue coastal erosion studies in cooperation with North Carolina State agencies and universities, \$500,000 to begin geological investigations of land subsidence, sea-level rise and hurricane risk in southeast Louisiana, \$451,000 for geophysical mapping of Lake Mojave, and \$1,522,000 to assess and quantify the resource potential for coal

bed methane in rural Alaska. The Committee has accepted proposed decreases of \$500,000 for the central Great Lakes mapping project, \$998,000 for the coastal pilot project, \$499,000 for LIDAR technology in the Puget Sound region, \$1,000,000 for cooperative geologic mapping, and \$1,522,000 for the Alaska Minerals Information project. The Committee has restored \$4,987,000 for cooperative geologic mapping, maintaining \$500,000 to conduct projects that will complement the groundwater studies, \$299,000 to continue work in Lake Mead. The Committee has also maintained funding at the 2001 level to continue Yukon Flats geologic studies, \$250,000 for a cooperative agreement with the University of Hawaii-Hilo, \$2,000,000 for international mineral analysis, \$3,000,000 for monitoring activities at the Alaska Volcano Observatory, \$3,000,000 for global change research and \$1,000,000 for cooperative coastal erosion studies in South Carolina.

Water resources investigations.—The Committee recommends \$200,786,000 for water resources investigations, \$2,727,000 below the fiscal year 2001 level and \$41,303,000 above the 2002 budget request. Increases above the 2001 level include \$2,794,000 for fixed costs and \$200,000 for a study of extremophilic life in Berkeley Pit Lake to be undertaken in cooperation with Montana Tech. Decreases include \$3,596,000 to the National Water Quality Assessment (NAWQA) program, \$329,000 for completed work on a groundwater study in Southern Maryland, and \$1,796,000 for water information delivery. Within the Committee's overall recommendations, funds are designated for the following: \$484,000 for the Lake Champlain monitoring program, \$195,000 for continuation of a Noyes Slough, Alaska study, \$449,000 to monitor and protect water resources in the State of Hawaii, \$105,000 for completion of a Southern Maryland groundwater study, and \$325,000 for continuation of hydrological studies in the Methow Valley river system.

Biological research.—The Committee recommends \$164,424,000 for biological research, \$3,855,000 above the fiscal year 2001 level and \$15,162,000 above the 2002 budget request. Increases above the 2001 level include \$2,904,000 for fixed costs, \$400,000 for the Leetown Science Center to conduct molecular biology studies, \$300,000 for a study of the pallid sturgeon at the Columbia Environmental Research Center, \$250,000 for a study of diamondback terrapins in the Chesapeake Bay, and \$500,000 for the NBII node in Hawaii. A decrease of \$499,000 has been taken for a study of ballast water. Within funds provided, \$748,000 is included for continuation of the Mark Twain National Forest mining study in cooperation with the water resources activity and the Forest Service.

Science support.—The Committee recommends \$81,266,000 for science support activities, \$7,534,000 above the fiscal year 2001 level and the same as the 2002 budget estimate.

Facilities.—The Committee recommends \$86,696,000 for facilities, a decrease of \$1,645,000 from the fiscal year 2001 level and \$802,000 above the 2002 budget estimate. Increases to the 2001 level include \$7,480,000 in fixed costs and \$2,000,000 for construction of phase one of the proposed expansion to the National Fish Health Laboratory at the Leetown Science Center. Decreases include \$11,224,000 in technical adjustments and one-time supple-

mental funding, \$300,000 for planning and design work at the Leetown Science Center and \$499,000 for work at the Wellsboro Research Laboratory.

MINERALS MANAGEMENT SERVICE

ROYALTY AND OFFSHORE MINERALS MANAGEMENT

Appropriations, 2001	\$133,116,000
Budget estimate, 2002	149,368,000
House allowance	149,867,000
Committee recommendation	151,933,000

The Committee recommends an appropriation of \$151,933,000 for royalty and offshore minerals management, an increase of \$2,565,000 above the budget request. The Committee has provided \$10,727,000 for fixed cost increases. A comparison of the budget estimates and the Committee recommendations are shown in the following table:

	Budget estimate	Committee recommendation	Change
Outer Continental Shelf lands:			
Leasing and environmental program	\$38,573,000	\$38,772,000	+\$199,000
Resource evaluation	23,389,000	25,210,000	+1,821,000
Regulatory program	49,073,000	49,407,000	+334,000
Information management program	14,894,000	14,960,000	+66,000
Subtotal, Outer Continental Shelf lands	125,929,000	128,349,000	+2,420,000
Royalty management:			
Compliance	48,106,000	48,539,000	+433,000
Revenue and operations	35,223,000	35,467,000	+244,000
Indian allottee refunds	15,000	15,000
Subtotal, royalty management	83,344,000	84,021,000	+677,000
General administration:			
Executive direction	2,003,000	2,025,000	+22,000
Policy and management improvement	4,036,000	4,078,000	+42,000
Administrative operations	16,770,000	16,174,000	-596,000
General support services	20,016,000	20,016,000
Subtotal, general administration	42,825,000	42,293,000	-532,000
Use of receipts	-102,730,000	-102,730,000
Total, royalty and offshore minerals management	149,368,000	151,933,000	+2,565,000

Within the funds for resource evaluation, the Committee has provided \$800,000 for royalty and offshore minerals management for the Center for Marine Resources and Environmental Technology program to support exploration and sustainable development of seabed minerals. The Committee has also provided \$800,000 for the Marine Mineral Technology Center in Alaska to conduct assessments on potential gold reserves off the coast of Nome.

Within the funds provided for the regulatory program, \$1,400,000 shall be used to support operations and research activi-

ties of the Offshore Technology Research Center. The Committee has reduced the budget request for the Administrative operations activity by \$800,000. These funds were requested to conduct an external audit of the agency's financial information. The Committee has instead provided funds for external auditing of all the bureaus in the Department of the Interior directly to the Inspector General.

The Committee has continued bill language similar to language included in the fiscal year 2001 appropriations act under general provisions, Department of the Interior to prohibit the use of funds for Outer Continental Shelf leasing and development activities in certain areas. The Committee notes again, as it has in past fiscal years, that development activities outside of approved areas identified in the agency's 5-year Outer Continental Shelf development plan are not permitted under law.

The Committee understands that the process of projecting offsetting receipts 1 to 2 years into the future is, at best, an uncertain business. Recognizing this, the Committee has again given the Minerals Management Service the authority to utilize receipts accruing from rental rates in effect prior to August 5, 1993 to augment the primary sources of receipts should this be necessary to reach the operating levels intended by this Committee.

OIL SPILL RESEARCH

Appropriations, 2001	\$6,105,000
Budget estimate, 2002	6,105,000
House allowance	6,105,000
Committee recommendation	6,118,000

The Committee recommends an appropriation of \$6,118,000 for oil spill research, \$13,000 above the request. The increase is for fixed costs.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

Appropriations, 2001	\$100,854,000
Budget estimate, 2002	102,175,000
House allowance	103,175,000
Committee recommendation	102,419,000

The Committee recommends an appropriation of \$102,419,000 for regulation and technology, which is an increase of \$244,000 above the budget estimate. A comparison of the budget estimate and the Committee recommendation is as follows:

	Budget estimate	Committee recommendation	Change
Environmental restoration	\$160,000	\$161,000	+\$1,000
Environmental protection	76,741,000	76,911,000	+170,000
Technology development and transfer	12,151,000	12,222,000	+71,000
Financial management	477,000	481,000	+4,000
Executive direction	12,371,000	12,369,000	-2,000
Subtotal, regulation and technology	101,900,000	102,144,000	+244,000
Civil penalties	275,000	275,000	

	Budget estimate	Committee recommendation	Change
Total, regulation and technology	102,175,000	102,419,000	+ 244,000

The Committee has provided \$1,810,000 for fixed costs, an increase of \$344,000 above the request.

The Committee has reduced the request for the executive direction activity by \$100,000. The amount requested was for conducting an external audit of the agency's financial information. The Committee has instead provided funds for external auditing of all the bureaus in the Department of the Interior directly to the Inspector General.

ABANDONED MINE RECLAMATION FUND

(Definite, Trust Fund)

Appropriations, 2001	\$201,992,000
Budget estimate, 2002	166,783,000
House allowance	203,554,000
Committee recommendation	203,171,000

The Committee recommends \$203,171,000 for the abandoned mine reclamation fund, which is an increase above the budget estimate of \$36,388,000 and an increase of \$1,179,000 above the fiscal year 2001 enacted level. The Committee has included \$971,000 for fixed costs, an increase of \$187,000 above the request. A comparison of the Committee recommendation and the budget estimate is as follows:

	Budget estimate	Committee recommendation	Change
Environmental restoration	\$149,926,000	\$186,299,000	+ \$36,373,000
Technology development and transfer	4,136,000	4,149,000	+ 13,000
Financial management	6,070,000	6,114,000	+ 44,000
Executive direction	6,651,000	6,609,000	- 42,000
Total	166,783,000	203,171,000	+ 36,388,000

The Committee has included \$10,000,000 for the Appalachian clean streams initiative to address acid mine drainage problems.

The Committee remains concerned about the significant amount of high priority mine reclamation work that must be completed. Accordingly, the Committee has increased the budget request for the environmental restoration activity by \$36,373,000. The increase is comprised of \$35,000,000 for State grants and \$1,300,000 for Federal high priority reclamation projects. The remainder of the increase is for fixed costs.

The Committee has reduced the request for the executive direction activity by \$99,000. The amount requested was for conducting an external audit of the agency's financial information. The Committee has instead provided funds for external auditing of all the bureaus in the Department of the Interior directly to the Inspector General.

The Committee directs that from the \$1,600,000 minimum program State grant for Alaska, \$800,000 shall be used for restoration

and hazardous waste clean up at the Independence Mine in the Matanuska Susitna Borough. The Committee expects that the Office of Surface Mining will continue to collaborate with the Waste Management Education and Research Consortium (WERC) and the Bureau of Land Management in the technical characterization and remediation of abandoned mine sites throughout the United States.

Bill language.—As in prior years, the bill includes language related to the conduct of the abandoned mine land program. The Committee has included language that maintains the Federal emergency reclamation program and limits expenditures in any one State to 25 percent of the total appropriated for Federal and State-run emergency programs. Language also is included in the bill to permit States to use prior-year carryover funds from the emergency program without being subject to the 25-percent statutory limitation per State. The Committee also has recommended language in the bill which would fund minimum program State grants at \$1,600,000 per State as well as language which provides \$10,000,000 to be used for projects in the Appalachian clean streams initiative.

The Committee also has included language specific to the State of Maryland authorizing the State to set aside the greater of \$1,000,000 or 10 percent of the total of the grants made available to the State under title IV of the Surface Mining Control and Reclamation Act of 1977, subject to specific provisions identified in the bill language.

INDIAN AFFAIRS

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

Appropriations, 2001	\$1,737,378,000
Budget estimate, 2002	1,780,486,000
House allowance	1,790,781,000
Committee recommendation	1,804,322,000

The Committee recommends \$1,804,322,000 for fiscal year 2002 for the operation of Indian programs, an increase of \$65,743,000 above the fiscal year 2001 enacted level and \$23,835,000 above the budget estimate. The Committee recommends all requested transfers and full funding for fixed costs, which total \$24,101,000. Additionally, the Committee continues the commitment made over the past 2 fiscal years and recommends the full requested level of funding for school construction, school facilities improvement and repairs, law enforcement, school operations, and Indian trust programs. The following table provides a comparison of the budget estimate with the Committee recommendation:

[In thousands of dollars]

	Budget estimate	Committee recommendation	Change
TRIBAL BUDGET SYSTEM			
Tribal Priority Allocations:			
Tribal government	377,281	377,281
Human services	151,199	151,199

[In thousands of dollars]

	Budget estimate	Committee recommendation	Change
Education	50,036	50,036
Public safety and justice	1,417	1,417
Community development	39,784	39,784
Resources management	56,743	56,743
Trust services	49,205	53,205	+ 4,000
General administration	24,815	24,815
Subtotal, Tribal Priority Allocations	750,480	754,480	+ 4,000
Other Recurring Programs:			
Education:			
School operations:

Total, Operation of Indian Programs	1,780,486	1,804,322	+ 23,836

Tribal priority allocations.—The Committee recommends \$754,480,000 for tribal priority allocations (TPA), an increase of \$21,454,000 above the fiscal year 2001 enacted level and an increase of \$5,300,000 above the budget request, of which \$4,000,000, \$2,000,000 is for real estate services (trust services), and \$2,000,000 is to be used to address the probate backlog (trust services). Additionally, the Committee directs the Bureau to continue funding the Inchelium Public Ferry that connects remote sections of the Colville Indian Reservation to educational and health care services.

Other recurring programs.—The Committee recommends \$587,053,000 for other recurring programs, an increase of \$20,197,000 above the fiscal year 2001 enacted level and an increase of \$7,625,000 above the budget request. Increases above the request include \$2,000,000 for operating grants for Tribally Controlled Community Colleges, \$1,000,000 for the western Washington shellfish program (Boldt decision), \$3,541,000 for the Timber-Fish-Wildlife Project, \$454,000 for the bison program, and \$150,000 for evaluation and management of rare species by the Nez Perce Tribe.

Non-recurring programs.—The Committee recommends \$73,723,000 for non-recurring programs, an increase of \$2,531,000 above the fiscal year 2001 enacted level and an increase of \$5,951,000 above the budget request. Increases above the request include \$2,000,000 for the Distance Learning Project (community development), \$1,000,000 for a grant to the Cherion Foundation to expand physician assistant training opportunities (community development), \$500,000 for the Tribal Guiding Program (community development), \$450,000 to be used by the Uintah and Ouray Agency to reduce the oil and gas permitting backlog (resources management), \$1,355,000 for the Cheyenne River Sioux Tribe's Prairie Management Plan (resources management), and \$146,000 for im-

provements in trust services provided by the Alaska Legal Services program (trust services).

Central Office Operations.—The Committee recommends \$58,106,000 for central office operations, a \$370,000 increase above the fiscal year 2001 enacted level and fully commensurate with the budget request.

Regional Office Operations.—The Committee recommends \$62,679,000 for regional office operations, an increase of \$7,365,000 above the fiscal year 2001 enacted level and fully commensurate with the budget request.

Special programs and pooled overhead.—The Committee recommends \$268,281,000 for special programs and pooled overhead, an increase of \$13,826,000 above the fiscal year 2001 enacted level and an increase of \$6,259,000 above the budget request. Increases above the request include \$500,000 for the Indian Arts and Craft Board (of which \$250,000 is for enhancements to the Pomo Indian exhibits at the Grace Hudson Museum in Ukiah, CA, and \$250,000 is for the Alaska Market Access Program proposed by the State of Alaska), \$509,000 for the United Tribes Technical College, \$350,000 for the United Sioux Tribe Development Corporation, \$100,000 for the Ponca Tribe of Nebraska Economic Development Plan (community development), \$1,500,000 for the Crownpoint Institute of Technology, \$1,300,000 for development of an Alaska Native Aviation Training Program (community development), and \$1,000,000 in general administration/facilities management for GSA rentals, and \$1,000,000 for the Yuut Elitnauviat People's Learning Center to be used to address vocational training. Prior to the release of these funds for the learning center, a report regarding the initial plans for the learning center shall be provided to the Committee.

General.—The Shoshone Homeland Act enacted in the 106th Congress provided, among other things, that the Secretary of the Interior “may purchase from willing sellers the following parcels and appurtenant water rights separately, to be taken into trust for the Tribe: Lida Ranch, Nevada * * * or another parcel mutually agreed upon by the Secretary and the Tribe.” (Public Law 106-423, Section 5(d)). This legislation was supported by the Tribe, the National Park Service, the Bureau of Land Management and the Bureau of Indian Affairs. It was an outgrowth of a study mandated by Section 705(b) of the California Desert Protection Act enacted in 1994 (Public Law 103-433).

The Timbisha Shoshone Tribe, acting in conjunction with the Trust for Public Lands, has engaged for a survey of the Lida Ranch property that will meet the requirements and standards of the Federal Government. This survey will not be completed until this year. The Committee directs the Secretary to work with the Tribe to assist in securing the acquisition of this property, or another parcel mutually agreed upon by the Secretary and the Tribe, as required by the terms of Section 5(d) of Public Law 106-423 and to report to the Committee when the survey is completed.

CONSTRUCTION

Appropriations, 2001	\$356,618,000
Budget estimate, 2002	357,132,000
House allowance	357,132,000
Committee recommendation	360,132,000

The Committee recommends \$360,132,000 for construction, an increase of \$3,514,000 above the fiscal year 2001 enacted level and \$3,000,000 above the budget request. The following table provides a comparison of the budget estimate with the Committee recommendation:

[In thousands of dollars]

	Budget estimate	Committee recommendation	Change
Education	292,503	295,503	+ 3,000
Public safety and justice	5,541	5,541
Resources management	50,645	50,645
General administration	2,179	2,179
Construction management	6,264	6,264
Total, Construction	357,132	360,132	+ 3,000

The Committee's recommendation for education construction includes \$161,590,000 for Facilities Improvement and Repair, as well as \$130,799,000 for replacement school construction, an amount sufficient to address the needs of the next six schools on the Bureau's priority list. Those schools are: Wingate Elementary School (New Mexico), Palacca Day School (Arizona), Holbrook Dormitory (Arizona), Santa Fe Indian School (New Mexico), Ojibwa Indian School (North Dakota), and Paschal Sherman Indian School (Washington). With respect to the Ojibwa Indian School, the Committee is concerned that the Bureau may require school officials to complete a reservation-wide education Master Plan before allowing planning and construction on a new K-12 Ojibwa School to take place. The Committee believes that such a requirement would circumvent the BIA's own School Replacement Priority List and would unfairly delay construction of a new school. The Committee therefore directs the Bureau to proceed without making the education Master Plan a prerequisite for planning and construction of the K-12 Ojibwa School.

Within the amount provided for replacement school construction, the Committee recommends \$3,000,000 to continue the tribal school construction demonstration program that was established in fiscal year 2001. This program allows tribes to cost share 50 percent of the cost for replacement schools. Under this demonstration program, the Secretary is directed to give priority consideration to those tribes that are on the BIA priority list for construction of a replacement school.

INDIAN LAND AND WATER CLAIMS SETTLEMENTS AND MISCELLANEOUS
PAYMENTS TO INDIANS

Appropriations, 2001	\$37,443,000
Budget estimate, 2002	60,949,000
House allowance	60,949,000
Committee recommendation	60,949,000

The Committee recommends \$60,949,000 for Indian land and water claims settlements and miscellaneous payments to Indians, an increase of \$23,506,000 above the fiscal year 2001 enacted level and commensurate with the budget request. Funding is provided as follows:

[In thousands of dollars]

	Budget estimate	Committee recommendation	Change
White Earth Land Settlement Act (Admin)	625	625
Hoopla-Yurok settlement fund	250	250
Pyramid Lake water rights settlement	142	142
Truckee River operating agreement
Ute Indian water rights settlement	24,728	24,728
Aleutian-Pribilof (repairs)
Weber Dam
Rocky Boy's	7,950	7,950
Great Lakes fishing settlement	6,254	6,254
Shivwits Band Settlement	5,000	5,000
Santo Domingo Pueblo Settlement	2,000	2,000
Colorado Ute Settlement	8,000	8,000
Torres-Martinez Settlement	6,000	6,000
Total	60,949	60,949

INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

Appropriations, 2001	\$4,977,000
Budget estimate, 2002	4,986,000
House allowance	4,986,000
Committee recommendation	4,986,000

The Committee recommends \$4,986,000 for the Indian guaranteed loan program, an increase of \$9,000 over the fiscal year 2001 enacted level and commensurate with the budget request.

DEPARTMENTAL OFFICES

INSULAR AFFAIRS

ASSISTANCE TO TERRITORIES

Appropriations, 2001	\$75,366,000
Budget estimate, 2002	69,450,000
House allowance	72,289,000
Committee recommendation	76,450,000

The Committee recommends an appropriation of \$76,450,000, which is \$7,000,000 above the budget request. The amounts recommended by the Committee compared to the budget estimate are shown in the following table:

	Budget estimate	Committee recommendation	Change
Territorial assistance:			
Office of Insular Affairs	\$4,528,000	\$4,528,000
Technical assistance	7,461,000	14,461,000	+ \$7,000,000
Maintenance assistance fund	2,300,000	2,300,000
Brown tree snake	2,350,000	2,350,000
Insular management controls	1,491,000	1,491,000
Coral reef initiative	500,000	500,000
Subtotal, territorial assistance	18,630,000	25,630,000	+ 7,000,000
American Samoa: Operations grants	23,100,000	23,100,000
Northern Mariana Islands: Covenant grants	27,720,000	27,720,000
Total, assistance to territories	69,450,000	76,450,000	+ 7,000,000

Territorial assistance.—The Committee recommends \$25,630,000 for territorial assistance, which is \$7,000,000 above the request.

The increases above the request are \$2,000,000 for Virgin Islands emergency loan forgiveness, and \$5,000,000 for Impact of Compact aid to the State of Hawaii.

The Committee has provided a special allocation of \$2,000,000 for the Virgin Islands in order to cover the cost of cancellation of a previous emergency loan to the Territory that was used to recover from the economic impact from Hurricane Hugo. Under the terms of the Federal Credit Reform Act of 1990, as amended, agency action to forgive a borrower's repayment obligations on a direct loan constitutes a modification of such direct loan and requires an appropriation to cover the cost of such modification. In fiscal year 2001, the Virgin Islands Community Disaster Loan No. 841, made following Hurricane Hugo in 1989, was modified when a portion of the accrued interest on the loan was forgiven. The net present value of the loan to the United States, thereafter, was reestimated as provided by OMB Circular No. A-11. Following reestimate, the net present value of this loan does not now exceed \$3,500,000, and will not exceed such amount when the funds provided herein are made available. Of the amounts made available for technical assistance, up to \$2,000,000 shall be transferred to the Federal Emergency Management Agency (FEMA) to cover the cost of FEMA's forgiveness of the entire amount of the repayment obligation and for the cancellation of the Virgin Islands Community Disaster Loan No. 841 (Hurricane Hugo).

The Committee notes that the most recent report from the Department of the Interior states that the rate of migration from the freely associated states and the accompanying financial impacts on the State of Hawaii are increasing rapidly. Therefore, the Committee has provided an additional \$5,000,000 in technical assistance for Impact aid to the State of Hawaii. The Committee continues to believe that a permanent resolution to the issue of Impact aid should be addressed as part of the current negotiations on the renewal of the Compact of Free Association.

American Samoa operations grants/American Samoa construction.—The Committee recommends \$23,100,000 for operations grants to American Samoa, which is equal to the request.

CNMI/Covenant grants.—The Committee recommends \$27,720,000 for covenant grants. Included in this amount is \$11,000,000 for CNMI construction, \$4,580,000 for impact aid to Guam, \$500,000 for impact aid to CNMI, \$10,140,000 for American Samoa, and \$1,500,000 for the CNMI immigration, labor, and law enforcement initiative.

The Committee is aware that economic conditions in the CNMI have declined in recent years, in large part due to the financial problems in Asia. This has made it more difficult for the CNMI government to match Federal capital improvement funds with local funds. The Committee urges the Department of the Interior to re-evaluate the local match requirement to determine whether this requirement is still reasonable in light of the poor economic conditions in CNMI and to inform the Committee of its findings

COMPACT OF FREE ASSOCIATION

Appropriations, 2001	\$20,726,000
Budget estimate, 2002	23,245,000
House allowance	23,245,000
Committee recommendation	23,245,000

The Committee recommends \$23,245,000 for compact of free association, which is equal to the request. A comparison of the Committee recommendation to the budget estimate follows:

	Budget estimate	Committee recommendation	Change
Compact of free association—Federal services	\$7,354,000	\$7,354,000
Mandatory payments—Program grant assistance	14,500,000	14,500,000
Enewetak support	1,391,000	1,391,000
Total, compact of free association	23,245,000	23,245,000

Federal services assistance.—The Committee recommends \$7,354,000 for Federal services assistance, equal to the budget request.

Program grant assistance.—The Committee recommends \$14,500,000 for program grant assistance, equal to the budget request.

Enewetak support.—The Committee recommends \$1,391,000 for Enewetak support, equal to the budget request.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

Appropriations, 2001	\$64,178,000
Budget estimate, 2002	64,177,000
House allowance	55,177,000
Committee recommendation	67,541,000

The Committee recommends an appropriation of \$67,541,000 for salaries and expenses for departmental management, an increase of \$3,363,000 from the fiscal year 2001 enacted level. The increase is for fixed costs. A comparison of the Committee recommendation and the budget estimate follows:

	Budget estimate	Committee recommendation	Change
Departmental direction	\$12,241,000	\$12,764,000	+ \$523,000
Management and coordination	23,798,000	24,905,000	+ 1,107,000
Hearings and appeals	8,288,000	8,559,000	+ 271,000
Central services	18,963,000	20,425,000	+ 1,462,000
Bureau of Mines workers compensation/unemployment	888,000	888,000
Total	64,178,000	67,541,000	+ 3,363,000

The financial system critical for the operation of the Department, its eight bureaus, and multiple offices is in critical need of replacement. It is based on old, obsolete technology of the 1970's and 1980's and is inflexible and unadaptable to meet new management and reporting requirements. This system is not integrated with other related systems including procurement, property, payroll and other financially-based systems. Yet the Department is dependent on this system for collecting and tracking over \$13,000,000,000 in transactions annually.

The contractor for the Department's current financial system has announced it is replacing this antiquated, mainframe based system with a new application built on current technology, and is accordingly decreasing its support and maintenance for the old system used by Interior. The Department spends approximately \$22,000,000 annually to operate and maintain this system. The Committee urges Interior to develop a proposal for the fiscal year 2003 budget to address these concerns, to insure that Federal funds are accurately tracked and reported on a timely basis, and that managers have direct access to the financial information needed to make sound, informed decisions concerning the allocation of funds provided by this Committee.

The Committee directs the Department of the Interior to prepare and submit to the Committee a report on increasing the usage of the dollar coin in conjunction with the U.S. Mint.

OFFICE OF THE SOLICITOR

SALARIES AND EXPENSES

Appropriations, 2001	\$40,108,000
Budget estimate, 2002	42,207,000
House allowance	45,000,000
Committee recommendation	44,074,000

The Committee recommends an appropriation of \$44,074,000 for salaries and expenses of the Office of the Solicitor, an increase of \$3,966,000 over the fiscal year 2001 enacted level. The increase provided is for fixed costs.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

Appropriations, 2001	\$27,785,000
Budget estimate, 2002	30,490,000
House allowance	30,490,000
Committee recommendation	34,302,000

The Committee recommends an appropriation of \$34,302,000 for the Office of Inspector General, an increase of \$3,812,000 above the budget estimate and \$6,517,000 above the fiscal year 2001 enacted level. The amount provided includes increases over the current year level of \$1,870,000 for fixed costs, \$835,000 for program audits, and \$3,812,000 for contract financial audits of the Department and the departmental offices and bureaus funded in this bill.

Based on the results of a pilot audit of the 2000 National Park Service annual financial statement by an independent auditing firm, the Department has concluded that private firms can bring a great depth of expertise and resources to annual audits and that contracting out to these firms will free the Inspector General to focus audit resources on management and programmatic audits. The amount recommended by the Committee is for the completion in fiscal year 2002 of audits of 2001 annual financial statements and for initiation of audits of 2002 annual financial statements. If the amount recommended is insufficient to cover the full costs during fiscal year 2002 of these audits, the Department should notify the Committee of the additional amounts from bureau accounts necessary to complete the work.

OFFICE OF THE SPECIAL TRUSTEE FOR AMERICAN INDIANS

FEDERAL TRUST PROGRAMS

Appropriations, 2001	\$82,446,000
Budget estimate, 2002	99,224,000
House allowance	99,224,000
Committee recommendation	99,224,000

The Committee recommends an appropriation of \$99,224,000 for the Office of the Special Trustee for American Indians, which is the same level as the budget estimate and includes funds for an historical accounting. The Committee continues to recognize the dire need for the Federal Government to improve Indian trust management. The Committee fully supports the efforts of both the Office of Special Trustee and the Bureau of Indian Affairs to focus on trust reform. In addition to increases provided within the Bureau of Indian Affairs' budget, the Committee reflects its support for trust reform within the Office of Special Trustee's budget.

INDIAN LAND CONSOLIDATION PROJECT

Appropriations, 2001	\$8,980,000
Budget estimate, 2002	10,980,000
House allowance	10,980,000
Committee recommendation	10,980,000

The Committee recommends \$10,980,000 for Indian land consolidation, which is the same level as the budget estimate. The Committee recognizes that fractionated ownership of Indian allotted lands has become an ever expanding problem. When these lands are fractionated into smaller pieces, the Federal Government's administration and management costs increase. Additionally, multiple ownership leads to inefficiencies and ultimately reduce the economic value of the Indian owned land. Therefore, the increase provided for the land consolidation project will lead to a savings for both the Federal Government and the land owners in the future.

NATURAL RESOURCE DAMAGE ASSESSMENT AND RESTORATION

NATURAL RESOURCE DAMAGE ASSESSMENT FUND

Appropriations, 2001	\$5,391,000
Budget estimate, 2002	5,497,000
House allowance	5,497,000
Committee recommendation	5,872,000

The Committee recommends an appropriation of \$5,872,000 for natural resource damage assessments, an increase of \$481,000 from the fiscal year 2001 enacted level. An increase of \$106,000 is provided for fixed costs.

The Committee recognizes the need for consistent Federal assessment of natural resource damage incidents. The Committee therefore recommends \$375,000 for the development of a national data management system for natural resource damage incidents and restoration activities. Future operational costs are expected to be significantly lower than the development costs provided in this appropriation.

GENERAL PROVISIONS

DEPARTMENT OF THE INTERIOR

The Committee has included in "General Provisions, Department of the Interior" various legislative provisions affecting the Department of the Interior. Several of these provisions have been carried in previous years and others are proposed new this year. The provisions are:

SEC. 101. Provides Secretarial authority to transfer program funds for expenditures in cases of emergency when all other emergency funds are exhausted.

SEC. 102. Provides for expenditure or transfer of funds by the Secretary in the event of actual or potential emergencies including forest fires, range fires, earthquakes, floods, volcanic eruptions, storms, oilspills, grasshopper and Mormon cricket outbreaks, and surface mine reclamation emergencies.

SEC. 103. Provides for use of appropriated funds for operation of garages, shops, warehouses, and similar facilities.

SEC. 104. Provides for use of appropriated funds for contracts, rental cars and aircraft, certain library memberships, and certain telephone expenses.

SEC. 105. Provides for use of appropriated funds to purchase uniforms or to provide a uniform allowance.

SEC. 106. Provides that contracts issued for services and rentals with appropriated funds be in effect for a period not to exceed 12 months.

SECS. 107-110. Prohibits the use of funds provided in the act for certain offshore leasing and related activities pursuant to the revised 5-year plan for Outer Continental Shelf oil and gas leasing.

SEC. 111. Provides that advance payments under the Indian Self-Determination and Education Assistance Act may be (1) invested only in obligations of the United States, or in obligations or securities that are guaranteed or insured by the United States, or mutual (or other) funds registered with the Securities and Exchange Commission and which only invest in obligations of the United States

or securities that are guaranteed or insured by the United States; or (2) deposited only into accounts that are insured by an agency or instrumentality of the United States, or are fully collateralized to ensure protection of the funds, even in the event of a bank failure.

SEC. 112. Provides for the transfer of unobligated balances from the Bureau of Indian Affairs or the Office of the Special Trustee for American Indians for expenditure or transfer for Indian trust management activities.

SEC. 113. Provides for the renewal of grazing permits and leases that will expire on the same terms and conditions as contained in the expiring permits or until the Bureau of Land Management processes the permits. Inability on the part of the Federal Government to accomplish permit renewal procedural requirements should not prevent or interrupt ongoing grazing activities on public lands. This language is not intended to change any existing laws and the Committee supports the timely analysis of grazing activities using sound proven science.

SEC. 114. Allows the hiring of administrative law judges to address the Indian probate backlog.

SEC. 115. Permits the redistribution of tribal priority allocation and tribal base funds to alleviate funding inequities.

SEC. 116. Continues a provision requiring the allocation of Bureau of Indian Affairs postsecondary schools funds consistent with unmet needs.

SEC. 117. Provides for the protection of lands of the Huron Cemetery for religious and cultural uses and as a burial ground.

SEC. 118. Continues a provision that land and other reimbursement the Secretary may receive in the conveyance of the Twin Cities Research Center may be used for the benefit of the National Wildlife Refuge System in Minnesota and for activities authorized by Public Law 104-134.

SEC. 119. Continues a provision carried last year providing contract authority regarding transportation at Zion National Park in Utah.

SEC. 120. Authorizes the National Park Service to enter into a cooperative agreement with the Golden Gate National Parks Association to provide fee-based education, interpretive and visitor service functions within the Crissy Field and Fort Point areas of the Presidio.

SEC. 121. Allows the Bureau of Land Management to retain revenues derived from the sale of surplus seedlings.

SEC. 122. Continues a cost-shared tribal school construction program. This item is discussed in more detail under the Bureau of Indian Affairs construction account.

SEC. 123. Permits the sale of improvements and equipment at the White River Oil Shale Mine in Utah, and the retention and use of those funds by the Bureau of Land Management and the General Services Administration.

SEC. 124. Authorizes the Secretary of the Interior to use helicopters or motor vehicles to capture and transport horses and burros at the Sheldon and Hart National Wildlife Refuges.

SEC. 125. Provides limited authority for States to transfer funds between State allocations for the State assistance program and the

State wildlife grant program. Future budget justifications should display any amounts transferred by States between accounts in the prior fiscal year.

SEC. 126. Repeals section 819 of the Omnibus Indian Advancement Act of 2000 (Public Law 106-568). Section 819's sole purpose was to allow the Lytton Tribe to circumvent the regulatory approval procedures required by the Indian Gaming Regulatory Act of 1988 (IGRA) before newly acquired Indian lands could be use for gaming purposes.

SEC. 127. Renames Moore's Landing at the Cape Romain National Wildlife Refuge in South Carolina as "Garris Landing".

TITLE II—RELATED AGENCIES
DEPARTMENT OF AGRICULTURE
FOREST SERVICE

FOREST AND RANGELAND RESEARCH

Appropriations, 2001	\$229,111,000
Budget estimate, 2002	234,979,000
House allowance	236,979,000
Committee recommendation	242,822,000

The Committee recommends an appropriation of \$242,822,000, which is an increase of \$7,843,000 above the budget request.

Increases above the request are \$5,000,000 for the Forest Inventory and Analysis program to further the goal of reducing the cycle times for completing inventory work, \$475,000 for the Forests Products Laboratory to conduct research on salvaging lumber for use in low income housing construction, \$500,000 for the Center for Bottomlands Research for a total of \$3,470,000, and \$868,000 for fixed costs. The Committee recommends that the Northeastern States Research Cooperative, as authorized in Public Law 105-185, receive \$2,400,000, \$1,000,000 above the request, with \$1,200,000 for ecosystem research at the Hubbard Brook Project of the U.S. Forest Service Northeastern Research Station and \$1,200,000 for economic development, forest management, and forest product research at the Vermont George Aiken School of Natural Resources.

The Committee further directs that funding for Sitka lab shall be no less than the fiscal year 2001 level of \$1,130,000, and that within the total amounts provided for forest and rangeland research \$175,000 shall be allocated for research on applied forest management issues of critical importance in the hardwood region of Pennsylvania and adjoining states.

The Committee directs the Forest Service to not transfer or abolish job positions or functions of the former Intermountain Research Center, including the position of Assistant Station Director for Research, that were in existence as of the date of enactment.

STATE AND PRIVATE FORESTRY

Appropriations, 2001	\$271,854,000
Budget estimate, 2002	237,829,000
House allowance	277,771,000
Committee recommendation	287,331,000

The Committee recommends an appropriation of \$287,331,000, an increase of \$49,502,000 above the budget estimate.

The following table provides a comparison of the budget estimate with the Committee recommendations:

	Budget estimate	Committee recommendation	Change
Forest health management:			
Federal lands forest health management	\$41,304,000	\$41,573,000	+\$269,000
Cooperative lands forest health management ..	22,866,000	25,000,000	+2,134,000
Subtotal, forest health management	64,170,000	66,573,000	+2,403,000
Cooperative fire protection:			
State fire assistance	25,310,000	25,352,000	+42,000
Volunteer fire assistance	5,053,000	5,053,000	
Subtotal, cooperative fire protection	30,363,000	30,405,000	+42,000
Cooperative forestry:			
Forest stewardship	32,941,000	33,268,000	+327,000
Forest legacy program	30,079,000	65,000,000	+34,921,000
Urban and community forestry	31,804,000	36,000,000	+4,196,000
Economic action programs	28,819,000	35,945,000	+7,126,000
Pacific Northwest assistance programs	9,625,000	9,625,000	
Forest resource information and analysis	5,015,000	5,015,000	
Subtotal, cooperative forestry	138,283,000	184,853,000	+46,570,000
International forestry	5,013,000	5,500,000	+487,000
Total, State and private forestry	237,829,000	287,331,000	+49,502,000

Forest Health Management.—The Committee recommends \$66,573,000 for forest health management, which is \$2,403,000 above the budget request. The Committee has provided \$41,573,000, an increase of \$269,000, for Federal lands forest health management which is for fixed cost increases.

The Committee continues support of the cooperative effort between the State of Vermont and the University of Vermont for the Vermont forest monitoring cooperative, and has provided an increase of \$150,000 above the request for a total of \$300,000 for this effort.

Cooperative Fire Protection.—The Committee recommends \$30,405,000 for cooperative fire protection, which is \$42,000 above the budget estimate. The increase is for fixed costs. The Committee has provided \$25,352,000 for the state fire assistance program.

The Committee recommends \$5,053,000 for volunteer fire assistance, which is equal to the request.

The Committee has also provided an additional \$50,383,000 for state fire assistance and \$8,262,000 for volunteer fire assistance under the wildland fire management appropriation as part of the Committee's continuing commitment to implementation of the National Fire Plan.

Cooperative Forestry.—The Committee recommends \$184,853,000 for cooperative forestry, which is \$46,570,000 above the request.

The Committee has provided \$33,268,000 for the forest stewardship program which is \$327,000 above the request. Increases above the request are \$77,000 for fixed costs and \$250,000 for the Chesapeake Bay program for a total of \$750,000 to support forestry efforts in the Chesapeake Bay watershed.

The Committee has provided \$65,000,000 for the forest legacy program to be derived from the conservation spending category, which is \$34,921,000 above the budget estimate. Within the funds provided, the Committee has included \$710,000 for the Bar J Ranch project in Utah, \$9,000,000 for the Thompson and Fisher Rivers Conservation Easement in Montana, \$8,000,000 for phase II of the West Branch project in Maine, \$1,000,000 for the Treetops tract in the Mianus River watershed in Connecticut, \$3,000,000 for the Anderson-Tully Tract in Tennessee, \$1,800,000 for the Sunapee and Pillsbury State parks project in New Hampshire, \$6,000,000 divided equally for the Catawba-Wateree Forest Initiative and the Coastal Forest Ecosystem Restoration Initiative in South Carolina, \$750,000 for the Kimball Pond project in New Hampshire and \$5,000,000 for the Newark watershed project in New Jersey.

The Committee has provided \$36,000,000 for the urban and community forestry program also to be derived from the conservation spending category, which is \$4,196,000 above the budget request. Within the funds provided, the Committee has included \$50,000 for a partnership coordinator for the West Virginia urban and community forestry program, \$350,000 for a total of \$700,000 for the Chicago Wilderness program, and \$450,000 for the Cook County Forest Preserve to conduct environmental and technical work associated with the Preserve's forestry programs. The Committee is aware of two urban forestry programs in Illinois, a tree replanting effort led by the City of Chicago, Chicago Greenstreets, which includes trees damaged by the Asian Longhorned Beetle infestation, and an undergraduate academic program at DePaul University. The Committee encourages the Forest Service to continue to work with and help support these important urban forestry programs.

The Committee recommends \$35,945,000 for the economic action programs, which is \$7,126,000 above the budget request. The Committee has provided \$13,205,000 for the base programs as proposed in the request, which includes \$3,685,000 for economic recovery, \$4,900,000 for rural development, \$920,000 for Wood-In-Transportation, \$1,000,000 for Forest Products Conservation and Recycling, and \$2,700,000 for the Wood Education and Resource Center. The Committee directs that no less than \$2,500,000 of the funds provided for Rural Development Through Forestry shall be allocated to the Northeast-Midwest program and \$350,000 shall be provided to the Northern Rockies Heritage Center at Fort Missoula, Montana for basic repairs and restoration work. Increases above the base program levels of \$13,205,000 are \$1,000,000 for the Wood-In-Transportation program, \$3,000,000 for small diameter utilization at the Forest Products Laboratory, an increase of \$100,000 for the Hawaii forests and communities initiative for a total of \$200,000, \$500,000 for the Four Corners Sustainable Forestry Initiative in New Mexico, Arizona, Colorado and Utah for a total of \$1,000,000, \$2,000,000 to be made available by the Forest Service on a matching basis for the purchase and construction of kiln drying facilities in the State of Alaska, \$5,000,000 for Lake Tahoe erosion grants, \$500,000 for the Environmental Science and Public Policy Research Institute located in Idaho, \$1,000,000 to the University of Kentucky for abandoned mine land reforestation work, \$640,000 for a biomass energy pilot program to be implemented by Navajo County,

Arizona, \$1,500,000 for the Tillamook Forest Interpretive Center in Oregon, and \$2,500,000 to be advanced as a direct lump sum payment to Ketchikan Public Utilities (KPU) in order to clear a right-of-way for the Swan Lake-Lake Tyee Intertie.

The Committee has also included bill language to facilitate the transfer of an additional \$5,000,000 above the request for economic action programs to Kake Tribal Corporation to implement the Kake Tribal Corporation Land Transfer Act.

International Forestry.—The Committee recommends \$5,500,000 for the international forestry program, which is \$500,000 above the request. The Committee encourages continued focus of the program on efforts to protect the habitat of migratory birds and on invasive species control.

NATIONAL FOREST SYSTEM

Appropriations, 2001	\$1,297,832,000
Budget estimate, 2002	1,314,191,000
House allowance	1,320,445,000
Committee recommendation	1,324,491,000

The Committee recommends an appropriation of \$1,324,491,000, an increase of \$10,000,000 above the budget request.

The distribution of the Committee's recommendations are as follows:

	Budget estimate	Committee recommendation	Change
Land management planning	\$70,358,000	\$70,718,000	+\$360,000
Inventory and monitoring	173,816,000	173,953,000	+137,000
Recreation, heritage and wilderness	235,122,000	235,660,000	+538,000
Wildlife and fish habitat management	131,747,000	131,947,000	+200,000
Grazing management	34,570,000	34,775,000	+205,000
Forest products	266,340,000	266,340,000
Vegetation and watershed management	187,913,000	191,126,000	+3,213,000
Minerals and geology management	48,956,000	49,357,000	+401,000
Landownership Management	88,434,000	89,115,000	+681,000
Law enforcement operations	75,924,000	80,000,000	+4,076,000
Valles Caldera National Preserve	1,011,000	1,500,000	+489,000
Total, National Forest System	1,314,191,000	1,324,491,000	+10,300,000

Land Management Planning.—The Committee recommends \$244,671,000 for land management planning activities, including inventory and monitoring, an increase of \$497,000 over the budget estimate. The Committee has provided \$70,718,000 for land management planning, for national forest and grassland planning activities and \$173,953,000 for inventory and monitoring. The increase above the request is for fixed costs.

The Committee is aware that the recent settlement agreement relating to the Black Hills National Forest requires that the forest plan be revised to improve its protections for wildlife. However, it appears that the forest will lack adequate planning funding to complete Phase II of the amendment to the forest plan in a timely manner. Therefore, the Committee urges the Forest Service to en-

sure that adequate planning funds are available to complete Phase II expeditiously.

Recreation, heritage and wilderness.—The Committee recommends \$235,660,000 for recreation, heritage and wilderness, an increase of \$538,000 above the budget estimate. The increase above the request is for fixed costs.

Wildlife and fish habitat management.—The Committee recommends \$131,947,000 for wildlife and fish habitat management an increase of \$200,000 above the budget estimate. The increase above the request is for fixed costs. Within the funds provided, \$200,000 shall be allocated to efforts to protect and improve the river, streambanks and habitat areas of the Batten Kill River and \$600,000 shall be allocated to the State of Alaska for activities associated with wildlife habitat monitoring on the Tongass National Forest. Bill language has been included within the Administrative Provisions portion of the bill to facilitate the transfer of funds.

Grazing management.—The Committee recommends \$34,775,000 for grazing management \$205,000 above the budget estimate. The amount of the increase is for fixed costs.

Forest Products.—The Committee recommends \$266,340,000 for forest products, which is equal to the request. The Committee has continued bill language that has been included in prior years which permits funds provided for timber pipeline supply on the Tongass National Forest to be allocated between the Capital Improvement and Maintenance and the National Forest System appropriation.

The Committee expects the Forest Service to continue preparing and submitting its quarterly reports on the timber sales program. The Committee recommends that the Forest Service include an identification of the volumes offered, sold, and harvested categorized as net merchantable sawtimber in its quarterly reports.

Vegetation and watershed management.—The Committee recommends \$191,126,000 for vegetation and watershed management, an increase of \$3,213,000 above the budget estimate. Increases above the request are \$1,950,000 for various restoration efforts at Lake Tahoe, \$200,000 for noxious weed eradication efforts at the Dakota Prairie Grasslands, and \$500,000 for restoration efforts at the Headwaters Forest Preserve.

Of the additional amounts above the request provided for Lake Tahoe \$500,000 is for adaptive management activities, \$600,000 is for mechanical treatments and fuels reduction, \$250,000 is for wetland and riparian restoration, and \$600,000 is for urban lot management activities. With the increases provided by the Committee not less than \$5,850,000 is included within the National Forest System appropriation for work at Lake Tahoe which is authorized by the Lake Tahoe Restoration Act. To the extent that a change in the program of work necessitates movement of these funds to other line items within the National Forest System appropriation, the agency may reallocate funds within the appropriation upon notification and consultation with the Committee.

The Committee notes that it has also provided \$3,000,000 in the Capital Improvement and Maintenance appropriation, \$5,000,000 in the State and Private Forestry appropriation, and \$6,600,000 in the Land Acquisition appropriation for projects at Lake Tahoe. The Committee expects the Forest Service to work collaboratively with

State, Federal, and private groups in the area in order to maximize accomplishments on the ground.

Minerals and geology management.—The Committee recommends \$49,357,000 for minerals and geology management, which is an increase of \$401,000 above the budget estimate. The additional funds are for fixed cost increases.

Land ownership management.—The Committee recommends \$89,115,000 for land ownership management, which is an increase of \$681,000 above the budget estimate. The additional funds are for fixed cost increases.

Law enforcement operations.—The Committee recommends \$80,000,000 for law enforcement operations, which is \$4,076,000 above the request. Increases above the request are \$1,039,000 for fixed costs, \$250,000 for a total of \$750,000 for counterdrug operations on the Daniel Boone National Forest, and a general increase of \$3,076,000.

The Committee is especially concerned with law enforcement problems created by marijuana cultivation and the production of other controlled substances on Forest Service lands. The Committee is aware of the increase of drug related incidents on Forest Service lands including areas in Arkansas, California, Louisiana, Kentucky and Missouri, and supports increasing law enforcement capabilities to adequately address these problems. The agency should give special consideration to providing additional funds for law enforcement in these areas that have high incidents of drug activity.

The Committee also expects the agency to use the additional funds provided to enhance its utilization of cooperative law enforcement agreements in Louisiana and other States where these agreements provide a cost effective means to augment Forest Service law enforcement capability.

Valles Caldera.—The Committee has provided \$1,500,000 for the Valles Caldera Trust for management activities at the Baca Ranch, New Mexico. This is an increase of \$489,000 above the request. The increase is provided for additional management activities which will facilitate public access to the Ranch in a timely fashion.

Quincy Library Group.—The Committee recommends \$26,000,000 for the Quincy Library Group project, which is equal to the request. Funding for this project is included in both the national forest system and wildland fire management appropriations.

Land Between the Lakes NRA.—The Committee has included funding in various accounts such that not less than \$8,100,000 shall be used by the Forest Service for management of the Land Between the Lakes NRA (LBL). The Committee directs the Administration to use the Land Between the Lakes Protection Act Trust Fund for environmental education purposes only and not for offsetting normal operational expenses of the NRA. In recognition of the complexities surrounding transfer of LBL from the Tennessee Valley Authority (TVA) to the Forest Service, the Committee has provided bill language extending the Forest Service's ability to use procurement authorities similar to those used by TVA when it managed the site.

General.—The Committee is pleased that the agency is reviewing its policies with respect to amounts that are taken from field allo-

cations to fund the Washington Office and National Commitments. The agency should strive to reduce these charges so that more funds are available to field offices for on-the-ground work. The Committee expects that such charges be fully identified in the budget justification.

The Committee commends the agency's efforts to comply with a recent National Academy of Public Administration report by implementing a field based budget formulation process. The Committee understands that the agency intends to use this process to develop its program of work to be presented to the Committee for fiscal year 2003. The Committee directs the agency to provide a report no later than 60 days from enactment of this Act on its assessment of the new budget formulation process, what changes, if any, are planned and how the new process would affect the level of information provided to Congress in the budget presentation and appropriations cycle in future fiscal years.

Within the funds provided for the national forest system appropriation, the Forest Service shall make available no less than \$200,000 to participate in the Southwest Strategy along with other Federal and State agencies. The Committee believes this Strategy can play an important part in restoring the cultural, economic and environment quality of life in regions of the Southwestern United States.

WILDLAND FIRE MANAGEMENT

Appropriations, 2001	\$837,283,000
Budget estimate, 2002	1,280,349,000
House allowance	1,402,305,000
Committee recommendation	1,280,594,000

The Committee recommends a total appropriation of \$1,280,594,000 for wildland fire management activities, which is \$245,000 above the budget request.

The Committee recommendation includes full funding of the request for wildland fire preparedness in the amount of \$622,618,000. The Committee has also provided \$657,976,000 for wildland fire operations which is an increase of \$245,000 above the request. Within this amount, the Committee has fully funded the hazardous fuels reduction request of \$209,010,000. The Committee believes that reduction of fuel loads on the national forests and in areas adjacent to communities in the wildland-urban interface is critical for protecting the health of the nation's forests and protecting the health and safety of the public.

A total of \$165,000,000 has been designated as emergency appropriations, comprised of \$100,000,000 for wildfire suppression and \$65,000,000 for other fire operations activities. Of the funds provided for other fire operations, \$3,913,000 is for restoration and rehabilitation work, \$20,376,000 is for fire facilities, \$16,265 is for research and development, \$11,974,000 for forest health management, and \$12,472,000 for economic action programs.

The Committee has provided \$50,383,000 for State fire assistance and \$8,262,000 for volunteer fire assistance within the wildland fire management appropriation in addition to the amounts provided within the State and Private Forestry account as proposed in the request. The Committee continues its support for

efforts to reduce the fire danger caused by the spruce bark beetle infestation in Southcentral Alaska. Funding is provided at the fiscal year 2001 level of \$7,500,000 for fire mitigation and hazardous tree removal, with the amounts provided to be made available as direct lump sum payments to the Municipality of Anchorage for \$6,500,000 and to the Kenai Peninsula Borough for \$1,000,000.

Within the funds provided for the Joint Fire Science program, \$1,000,000 shall be allocated to the national center for landscape fire analysis at the University of Montana, instead of \$600,000 as proposed in the request. The Committee believes that this center will be an important part of the nation's firefighting resources, particularly with respect to the use of new technologies, such as satellite imaging.

The Committee commends the Forest Service for providing the Committee with detailed financial reports and action plans with respect to implementation of the National Fire Plan. The Committee expects this consultation to continue as the Department moves forward with the Fire Plan. The agency should also work diligently to complete the national long term fire strategy in consultation with the governors of the States. The Committee believes that this strategy is crucial since it will address fire management across all ownerships.

The Committee notes with increasing concern the ground fuels build up within the Giant Sequoia National Monument and along its boundary interface with the Tule River Indian Reservation. Current drought conditions raise the likelihood of a fire jeopardizing the monument and reservation. The Committee directs the Forest Service to assist the Tule River Tribal Reservation with its ground fuels mitigation program, the acquisition of appropriate fire suppression equipment, and the training of a tribal Hot Shot crew.

The Committee notes that the Forest Service has changed its accounting procedures concerning how fire preparedness resources charge base hours when assigned to suppression duties. There is concern that potential savings resulting from this change may be committed to other fire related programs without appropriate consultation. Accordingly, the Committee directs the Forest Service to provide a brief report to the Committee no later than January 1, 2002 which identifies the estimated savings that occurred in fiscal year 2001, and how such savings were distributed to other fire accounts.

The Committee has provided substantial additional resources for the fire program in fiscal year 2001 and in its recommendation for fiscal year 2002. The Committee expects that the agency will resolve the financial management problems which resulted in large expenditures being posted on the last day of the fiscal year. Accordingly, the Forest Service should continue with implementation of an automated fire business management system which will provide prompt reporting and posting of obligations and other related administrative information. Bill language has been included as requested by the Administration to liquidate the deficit caused by delayed posting of fire obligations in fiscal year 2000.

CAPITAL IMPROVEMENT AND MAINTENANCE

Appropriations, 2001	\$517,427,000
Budget estimate, 2002	523,727,000
House allowance	535,513,000
Committee recommendation	541,286,000

The Committee recommends \$541,286,000 for capital improvement and maintenance, which is an increase of \$17,559,000 above the budget estimate.

The Committee agrees to the following distribution of funds:

	Budget estimate	Committee recommendation	Change
Facilities	\$167,950,000	\$178,578,000	+\$10,628,000
Roads	237,891,000	242,211,000	+ 4,320,000
Trails	67,389,000	59,497,000	+ 2,611,000
Infrastructure improvement	50,497,000	61,000,000
Total, capital improvement and maintenance	523,727,000	541,286,000	+ 17,559,000

Facilities.—The Committee recommends \$178,578,000 for facilities maintenance and capital improvement, an increase of \$12,648,000 above the budget request. Increases above the request are \$300,000 for fixed costs, \$440,000 for upgrade and repair of sanitation and sewage facilities on the Monongahela National Forest in West Virginia, \$1,400,000 for the Franklin County Lake project in Mississippi, \$3,500,000 for the Institute of Pacific Island Forestry in Hawaii, \$650,000 for construction at the Mt. Tabor Work Center in Vermont, \$2,558,000 for design, planning and acquisition of land to carry out Public Law 106–329, \$330,000 for upgrades to the water supply system at the Tuckerman Ravine Administrative Site on the White Mountain National Forest in New Hampshire, \$100,000 for stabilization of a structure on the Francis Marion National Forest in South Carolina, \$350,000 for a feasibility study on upgrading the Mitchell Mill on the Ozark National Forest in Arkansas, \$1,000,000 for facilities improvements on the Wayne National Forest in Ohio, and \$2,000,000 for a visitor center in Cordova, Alaska.

Within the funds provided for facilities maintenance and capital improvement, \$1,102,000 shall be for campground rehabilitation, fabrication of interpretive exhibits, and related activities at the Winding Stair Mountain National Recreation and Wilderness Area in Oklahoma.

The Committee notes that Public Law 106–329 authorizes the Forest Service to sell certain administrative sites in the Black Hills National Forest in order to consolidate several ranger districts and provide more effective services to the public. In addition, Public Law 106–329 directs that the Rocky Mountain Research Station be co-located with one of the new offices. The Committee is aware of the deteriorated condition of the Rocky Mountain Research Station and a proposal to lease new office space for the station while new facilities are under construction. The Committee directs the Forest Service to ensure that no interim proposal to provide office space for the research station lead to a reduction in the station's ability to provide quality research to its users.

Roads.—The Committee recommends \$242,211,000 for road maintenance and capital improvement, an increase of \$4,320,000 above the request. Increases above the request are \$920,000 for the maintenance, upgrade, and stabilization of forest roads on the Monongahela National Forest in West Virginia, \$800,000 for a total amount of \$3,000,000 for retrofitting and road decommissioning in the Lake Tahoe Basin, \$2,000,000 for improvements to the Pike's Peak Highway to reduce erosion impacts on adjacent watersheds, and \$600,000 for the Franklin County Lake project in Mississippi.

Trails.—The Committee recommends \$59,497,000 for trail maintenance and capital improvement, a decrease of \$7,892,000 below the request.

Infrastructure improvement.—The Committee recommends \$61,000,000 for infrastructure improvements which is \$10,503,000 above the request.

LAND ACQUISITION

Appropriations, 2001	\$150,872,000
Budget estimate, 2002	130,877,000
House allowance	130,877,000
Committee recommendation	128,877,000

The Committee recommends \$128,877,000 for land acquisition, a decrease of \$21,995,000 below the enacted level and \$2,000,000 below the budget request. This program is funded under the conservation spending category.

The Committee recommends the following distribution of funds:

<i>Area and State</i>	<i>Committee Recommendation</i>
Allegheny NF (PA) (Allegheny Wild & Scenic Rivers)	\$220,000
Arapaho NF (CO) (Beaver Brook)	6,000,000
Beaverhead-Deerlodge NF (MT) (Watershed, RY Timber)	7,000,000
Chattahoochee NF (GA)	2,320,000
Chattooga W&SR/Watershed (GA/NC/TN/SC)	4,300,000
Chippewa & Superior NF (MN) (Minnesota Wilderness)	1,400,000
Cibola NF (NM) (La Madera)	3,000,000
Cleveland NF (CA) (Rutherford Ranch)	675,000
Columbia River Gorge NSA (OR/WA)	6,000,000
Dakota Prairie Grasslands (ND) (Griffin Ranch)	1,450,000
Daniel Boone NF (KY) (Red River Gorge)	2,037,000
Francis Marion NF (SC)	7,000,000
Gallatin NF (MT) (Greater Yellowstone Ecosystem)	1,000,000
Green Mountain NF (VT) (Purchase Areas)	1,250,000
Hoosier NF (IN) (Unique Areas)	2,000,000
I-90 Corridor/Plum Creek (WA)	4,000,000
Idaho Wilderness/Wild & Scenic Rivers (ID/MT) (Sulphur Creek Ranch)	3,200,000
Lake Tahoe Basin MU (CA) (High Meadows)	4,000,000
Lake Tahoe NF (CA) (Urban lots)	2,600,000
Lewis & Clark Nat'l Historic Trail (ID/MT)	1,500,000
Mark Twain NF (MO) (MO Ozark Mt. Streams & Rivers)	2,000,000
Midewin NTGP (IL)	500,000
Osceola NF (FL) (North Florida Wildlife Corridor)	1,000,000
Ouchita NF (AR) (Lake Winona)	1,500,000
Pacific Crest Trail (CA/WA/OR)	2,000,000
Pacific Northwest Streams (OR/WA)	6,500,000
Pisgah NF (NC) (Lake James)	3,000,000
Santa Fe NF (NM) (Santa Fe Watershed)	2,500,000
Sawtooth NRA (ID)	5,000,000
St. Francis NF (AR) (Stumpy Point, Anderson Tulley)	2,000,000
Sumter NF (SC) (Broad River Corridor)	1,500,000

<i>Area and State</i>	<i>Committee Recommendation</i>
Swan Valley Conservation Project (MT)	7,000,000
Tahoe NF (CA) North Fork American River	1,700,000
Tongass NF, Admiralty NM (AK) (Favorite Bay, Mental Health Lands)	5,625,000
Uncompahgre NF (CO) (Red Mountain)	4,600,000
White Mountain NF (NH) (Jericho Lake)	2,000,000
Wild & Scenic Rivers PNW (OR/WA)	2,000,000
 Subtotal	 111,377,000
 Wilderness Protection	 1,000,000
Critical Inholdings	2,000,000
Cash Equalization	1,500,000
Acquisition Management	13,000,000
 Total	 128,877,000

The Committee expects that monies for the Sawtooth National Recreation Area will be used for the sole purpose of purchasing conservation easements.

ACQUISITION OF LANDS FOR NATIONAL FORESTS, SPECIAL ACTS

Appropriations, 2001	\$1,067,000
Budget estimate, 2002	1,069,000
House allowance	1,069,000
Committee recommendation	1,069,000

The Committee recommends an appropriation of \$1,069,000, \$2,000 above the fiscal year 2001 enacted level. These funds are derived from receipts at certain forests.

ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

Appropriations, 2001	\$233,000
Budget estimate, 2002	234,000
House allowance	234,000
Committee recommendation	234,000

The Committee recommends an appropriation of \$234,000, \$1,000 above the fiscal year 2001 enacted level. This amount is derived from funds deposited by State, county, and municipal governments or public school authorities pursuant to the Act of December 4, 1967, as amended (16 U.S.C. 484a).

RANGE BETTERMENT FUND

(Special Fund, Indefinite)

Appropriations, 2001	\$3,293,000
Budget estimate, 2002	3,290,000
House allowance	3,290,000
Committee recommendation	3,290,000

The Committee recommends an appropriation of \$3,290,000, which is equal to the request. This amount is for range rehabilitation, protection, and improvement, and is derived from fees received for livestock grazing on National Forests pursuant to section 401(b)(1) of Public Law 94-579, as amended.

GIFTS, DONATIONS AND BEQUESTS FOR FOREST AND RANGELAND
RESEARCH

Appropriations, 2001	\$92,000
Budget estimate, 2002	92,000
House allowance	92,000
Committee recommendation	92,000

The Committee recommends an appropriation of \$92,000, the same as the budget estimate and the fiscal year 2001 enacted level. This amount is derived from the fund established under 16 U.S.C 1643(b).

MANAGEMENT OF NATIONAL FOREST LANDS FOR SUBSISTENCE USES
SUBSISTENCE MANAGEMENT, FOREST SERVICE

Appropriations, 2001	\$5,488,000
Budget estimate, 2002	5,488,000
House allowance	5,488,000
Committee recommendation	5,488,000

The Committee recommends \$5,488,000 for subsistence management of forest lands in the State of Alaska, which is the same as the budget request.

ADMINISTRATIVE PROVISIONS, FOREST SERVICE

The Committee has continued many of the same administrative provisions as provided in prior years.

Language is included which authorizes the Forest Service to provide funds to the National Forest Foundation to match up to \$2,250,000 in private contributions on a 1-for-1 basis for projects on National Forest System lands or related to Forest Service programs. The Committee has authorized up to \$400,000 of Federal funds provided, may be used for administrative expenses of the Foundation.

Language is included which provides funds for the National Fish and Wildlife Foundation in the amount of \$2,650,000 on a 1-for-1 matching basis with private contributions for projects on or benefiting National Forest System lands.

Language is included which specifies how the Forest Service must account for indirect expenses and how such expenses must be displayed in future budget proposals.

Language is included which allows the Forest Service to transfer appropriated funds to the Bureau of Land Management from the National Forest System account for work related to the management of wild horses and burros. The amount of funds transferred with this authority should be displayed in subsequent budget justifications.

Language is included which permits the Secretary of Agriculture to sell excess buildings and other facilities on the Green Mountain National Forest and to retain the revenues for maintenance and rehabilitation activities on the forest.

DEPARTMENT OF ENERGY

CLEAN COAL TECHNOLOGY

The United States depends on coal for 54 percent of its electric power generation. Natural gas use is expected to increase its current 14 percent share, but this gain is expected to be offset by declines in the contribution of nuclear power as aging reactors are retired. Solar energy contributes less than 2.5 percent of our present electric power consumption and growth in the use of solar technologies is generally constrained presently by their relatively high cost to generate power. Consequently, the Energy Information Administration projects that coal use will increase at least through the year 2020. This increased use means that coal will clearly continue to be a major contributor to our economy through the generation of inexpensive electric power.

Over the past 15 years, the Clean Coal Technology program has successfully demonstrated technologies to increase the efficiency of and reduce the emissions from coal-fired power plants and industrial facilities, to produce cleaner substitute fuels, and to expand the types of technologies available for the clean use of coal using fluidized-bed boilers and gasification technologies. Many of the technologies demonstrated are now commercially viable, and others form the basis for the Department's Fossil Energy research and development program.

In its fiscal year 2001 appropriation, the Committee provided funds to continue the Clean Coal Technology program and the Department of Energy is now in the process of reviewing various project solicitations. The Committee encourages the Department to continue this review with the goal of announcing project selections at the earliest possible date. The Committee directs the Secretary of Energy to consider a broad range of project proposals including, but not limited to, those that utilize lignite coal. For fiscal year 2002, the Committee has recommended the transfer of \$33,700,000 in previously appropriated Clean Coal Technology funds to the Fossil Energy Research and Development account to be used to support the Administration's Clean Coal Power Initiative, a much-needed follow on to the Clean Coal Technology program.

FOSSIL ENERGY RESEARCH AND DEVELOPMENT

(INCLUDING TRANSFER OF FUNDS)

Appropriations, 2001	\$432,464,000
Budget estimate, 2002	449,000,000
House allowance	579,000,000
Committee recommendation	570,390,000

The Committee recommends \$570,390,000 for fossil energy research and development. An additional \$33,700,000 is derived by transfer from the clean coal technology account and \$6,000,000 is derived from the use of prior year balances. The Committee's recommendation is \$137,926,000 above the fiscal year 2001 enacted level and \$124,090,000 above the budget request. The amounts recommended by the Committee as compared to the budget request are shown in the table below:

[In thousands of dollars]

	Budget estimate	Committee recommen- dation	Change
Clean coal power initiative	150,000	116,300	- 33,700
(By transfer from Clean Coal Technology)		(33,700)	(+ 33,700)
Total, Program level	150,000	150,000	
Coal and Power Systems:			
Central Systems:			
Innovations for existing plants	18,000	22,500	+ 4,500
Advanced Systems:			
Indirect fired cycle			
Integrated gasification combined cycle	35,000	43,000	+ 8,000
Advanced Combustion System (for- merly PFB)	8,000	11,000	+ 3,000
Turbines		20,500	+ 20,500
Subtotal, Advanced Systems	43,000	74,500	+ 31,500
Power plant improvement initiative (transfer from Clean Coal)			
Subtotal, Central Systems	61,000	97,000	+ 36,000
Distributed Generation Systems—Fuel Cells:			
Advanced research	1,000	4,000	+ 3,000
Fuel cell systems	11,500	13,500	+ 2,000
Vision 21-hybrids	11,500	13,500	+ 2,000
Innovative concepts	21,124	21,124	
Subtotal, Distributed Generation Sys- tems—Fuel Cells	45,124	52,124	+ 7,000
Sequestration R&D: Greenhouse gas control	20,677	32,177	+ 11,500
Fuels:			
Transportation fuels and chemicals	5,000	24,500	+ 19,500
Solid fuels and feedstocks	2,000	5,000	+ 3,000
Advanced fuels research		4,450	+ 4,450
Steelmaking feedstock			
Subtotal, Fuels	7,000	33,950	+ 26,950
Advanced Research:			
Coal utilization science	6,250	6,250	
Materials	7,000	8,000	+ 1,000
Technology crosscut	8,750	10,750	+ 2,000
University coal research	3,000	3,000	
HBCUs, education and training	1,000	1,000	
Subtotal, Advanced Research	26,000	29,000	+ 3,000
Subtotal, Coal and Power Systems	159,801	244,251	+ 84,450

(In thousands of dollars)

	Budget estimate	Committee recommendation	Change
Gas:			
Natural Gas Technologies:			
Exploration and production	9,350	17,350	+ 8,000
Gas hydrates	4,750	9,800	+ 5,050
Infrastructure	5,050	10,050	+ 5,000
Emerging processing technology applications	250	3,250	+ 3,000
Effective environmental protection	1,600	2,600	+ 1,000
Subtotal, Gas	21,000	43,050	+ 22,050
Petroleum—Oil Technology:			
Exploration and production supporting research	20,350	26,350	+ 6,000
Reservoir life extension/management	4,849	7,949	+ 3,100
Effective environmental protection	5,300	10,700	+ 5,400
Emerging processing technology applications			
Ultra clean fuels			
Use of SPR petroleum account			
Subtotal, Petroleum—Oil Technology	30,499	44,999	+ 14,500
Cooperative R&D		11,240	+ 11,240
Fossil energy environmental restoration	9,500	9,500	
Import/export authorization	1,000	2,400	+ 1,400
Headquarters program direction	14,700	18,700	+ 4,000
Energy Technology Center program direction	55,300	67,300	+ 12,000
General plant projects	2,000	13,450	+ 11,450
Advanced Metallurgical Processes: Advanced metallurgical processes	5,200	5,200	
Use of prior year balances		-6,000	- 6,000
Total, Fossil Energy Research and Development	449,000	570,390	+ 121,390

Coal and Power Systems.—Increases above the budget request include \$4,500,000 in central systems/innovations for existing plants, of which \$3,500,000 is for mercury control and PM 2.5 monitoring, and \$1,000,000 is for Vision 21. In central systems/advanced systems, increases include \$8,000,000 for IGCC programs, of which \$4,000,000 is for the Wilsonville facility, and \$4,000,000 is for Vision 21 (\$3,000,000 of which is for the ITM oxygen research); \$3,000,000 in advanced combustion systems (formerly called pressurized fluidized bed systems) for Vision 21; and \$20,500,000 in turbines, \$2,500,000 of which is for Vision 21, \$13,000,000 of which is for the next generation turbine program (including \$3,000,000 for ramgen technology), and \$5,000,000 of which is for syngas application in advanced turbine systems.

In distributed generation/fuel cells, there are increases above the request of \$3,000,000 for advanced research, \$2,000,000 of which is for the establishment of an electro-chemical engineering program; \$2,000,000 in fuel cell systems for molten carbonate research; and

\$2,000,000 for Vision 21/hybrids. In sequestration research and development, there is an increase of \$11,500,000, \$10,000,000 of which is for greenhouse gas control research and \$1,500,000 of which is for the carbon sequestration science focus area at the National Energy Technology Laboratory.

In fuels research/transportation fuels and chemicals, increases above the request include \$3,500,000 for continued research activities at the LaPorte, TX facility, and \$16,000,000 for the ultra clean fuels program, of which \$1,000,000 is for the clean diesel fuel program at the University of Alaska. Although not representing a change from the budget request level, the Committee expects \$3,700,000 of the \$3,950,000 made available for the F-T syngas ceramic membrane program to be used for ITM syngas activities conducted by APCI. In solid fuels and feedstocks, the Committee has provided an increase of \$3,000,000 for advanced separations for work conducted in conjunction with the Center for Advanced Separations Technology. In advanced fuels research, the Committee has included increases of \$2,000,000 for the C-1 chemistry program, \$500,000 for hydrogen economy enabling science, \$250,000 for molecular modeling, and \$1,700,000 for the advanced concepts program.

In advanced research, increases above the budget request total \$3,000,000, of which \$1,000,000 is for materials/materials research, and \$2,000,000 is for the computational Center of Excellence at the National Energy Technology Laboratory.

In natural gas technologies, increases in exploration and production include \$3,800,000 for advanced drilling, \$1,200,000 for coal-bed methane water filtration research, and \$3,000,000 for restoration of the national lab/industry partnerships. For gas hydrate research, there is an increase of \$5,050,000; for infrastructure, there are increases of \$1,000,000 in storage technology, and \$4,000,000 in infrastructure technology; for emerging processing technology, increases include \$3,000,000 for the coal mine methane program; and in effective environmental protection, \$1,000,000 is for technology development.

In oil technologies, increases above the budget request include \$6,000,000 for the national lab/industry partnerships; \$3,100,000 for the preferred upstream management practices program; and \$5,400,000 for effective environmental protection, of which \$300,000 is for program planning and analysis, \$500,000 is for regulation streamlining, \$2,227,000 is for risk management, and \$2,373,000 is for technology development.

In cooperative research and development, the Committee has included \$11,240,000 in increased funding to be allocated as follows: \$3,000,000 for the establishment of an Arctic Energy Technology Center, and \$8,240,000 to restore funding to WRI and UNDEERC. Of the amount provided for the Arctic Energy Technology Center, \$1,000,000 is to support Oxygen Transport Ceramic Membrane research activities.

Other changes to the budget request include an increase of \$1,400,000 to restore the import/export authorization program; an increase of \$16,000,000 to restore funding for program direction, of which \$12,000,000 is for the National Energy Technology Laboratory; and an increase of \$11,450,000 in plant and capital equipment

with bill language authorizing \$11,000,000 to be used for planning and design of the NETL infrastructure upgrade.

The Committee has included a provision in the bill that allows the National Energy Technology Laboratory to use a limited amount of its program direction funds to support non-fossil energy activities that complement the fossil energy mission.

ALTERNATIVE FUELS PRODUCTION

(RESCISSION)

Appropriations, 2001	-\$1,000,000
Budget estimate, 2002	- 2,000,000
House allowance	
Committee recommendation	- 2,000,000

The Committee recommends a rescission of \$2,000,000 in unobligated balances in this account, the same as the budget estimate.

NAVAL PETROLEUM AND OIL SHALE RESERVES

Appropriations, 2001	\$1,596,000
Budget estimate, 2002	17,371,000
House allowance	17,371,000
Committee recommendation	17,371,000

The Committee recommends \$17,371,000 for the Naval Petroleum and Oil Shale Reserves, the same as the budget request.

	Budget estimate	Committee recommendation	Change
Oil reserves:			
Naval Petroleum Reserves Nos. 1 and 2	\$5,144,000	\$5,144,000	
Naval Petroleum Reserve No. 3	7,235,000	7,235,000	
Program direction (headquarters)	9,992,000	9,992,000	
Naval oil shale reserves			
Use of prior year funds	- 5,000,000	- 5,000,000	
Rescission			
Total, naval petroleum and oil shale reserves	17,371,000	17,371,000	

ELK HILLS SCHOOL LANDS FUND

Appropriations, 2001	\$36,000,000
Budget estimate, 2001 (advance appropriation)	36,000,000
House allowance (by transfer)	(36,000,000)
Committee recommendation (advance appropriation)	36,000,000

The Committee recommends \$36,000,000 for the Elk Hills school lands fund, the same as the budget request and the fiscal year 2001 level. The Committee has not derived these funds by transfer as proposed by the House. These funds will become available on October 1, 2002.

ENERGY CONSERVATION

Appropriations, 2001	\$813,442,000
Budget estimate, 2002	755,805,000
House allowance	940,805,000
Committee recommendation	870,805,000

The amounts recommended by the Committee compared with the budget estimates by activity are shown in the following table:

[In thousands of dollars]

	Budget estimate	Committee recommendation	Change
Building Technology, State and Community Sector:			
Building research and standards:			
Technology roadmaps and competitive R&D ..	857	6,857	+ 6,000
Residential buildings integration	7,478	12,478	+ 5,000
Commercial buildings integration	2,510	4,510	+ 2,000
Equipment, materials and tools	21,547	38,547	+ 17,000
Subtotal, Building research and stand- ards	32,392	62,392	+ 30,000
Building Technology Assistance:			
Weatherization assistance and state energy programs	311,000	251,000	- 60,000
Community partnerships	8,488	18,788	+ 10,300
Energy star program	2,000	2,000
Subtotal, Building technology assistance ..	321,488	271,788	- 49,700
Cooperative programs with States	2,000	+ 2,000
Energy efficiency science initiative	4,000	+ 4,000
Management and planning	15,090	15,090
Subtotal, Building Technology, State and Com- munity Sector	368,970	355,270	- 13,700
Federal Energy Management Program:			
Program activities	8,900	8,900
Program direction	4,400	4,400
Subtotal, Federal Energy Management Pro- gram	13,300	13,300
Industry Sector:			
Industries of the future (specific)	46,424	72,624	+ 26,200
Industries of the future (crosscutting)	31,900	58,900	+ 27,000
Cooperative programs with States	2,000	+ 2,000
Energy efficiency science initiative	4,000	+ 4,000
Management and planning	9,400	9,400
Subtotal, Industry Sector	87,724	146,924	+ 59,200
Power Technologies:			
Distributed generation technologies development ...	45,896	61,896	+ 16,000
Management and planning	1,450	1,950	+ 500
Subtotal, Power Technologies	47,346	63,846	+ 16,500
Transportation:			
Vehicle technology R&D	126,422	155,122	+ 28,700
Fuels utilization R&D	20,908	25,908	+ 5,000
Materials technologies	30,293	40,293	+ 10,000
Technology deployment	9,860	13,160	+ 3,300
Cooperative programs with States	2,000	+ 2,000

(In thousands of dollars)

	Budget estimate	Committee recommendation	Change
Energy efficiency science initiative		4,000	+ 4,000
Management and planning	10,232	10,232
Subtotal, Transportation	197,715	250,715	+ 53,000
Policy and management	40,750	40,750
Use of Biomass Energy Development funds
Total, Energy Conservation	755,805	870,805	+ 115,000

The Committee recommends \$870,805,000 for energy conservation, an increase of \$115,000,000 above the budget request and \$57,362,000 above the fiscal year 2001 level. Changes to the budget request are detailed below.

In buildings research and standards, increases include \$6,000,000 for competitive research and development, \$5,000,000 for Building America in the residential buildings program, \$2,000,000 for commercial buildings integration, and \$17,000,000 for equipment materials and tools, of which \$2,000,000 is for lighting research and development (including hybrid lighting), \$3,000,000 is for space conditioning and refrigeration, \$500,000 is for appliances and emerging technologies, \$1,000,000 is for analysis tools and design strategies, \$4,000,000 is for lighting and appliance standards, and \$6,500,000 is for building envelope research, of which \$2,000,000 is for a competitive solicitation, \$3,000,000 is for windows research (including electrochromics) and \$1,500,000 is for other high priority building envelope technology.

In building technology assistance, there is an increase of \$10,300,000 for community energy programs, of which \$6,000,000 is for Rebuild America, \$2,000,000 is for information outreach, and \$2,300,000 is for training and assistance for State and Federal building energy codes.

Other increases for the buildings sector programs include \$2,000,000 to restore cooperative programs with the States, \$2,000,000 to restore the energy efficiency science initiative and \$2,000,000 for the Energy Star Program.

For industry sector research, increases include \$26,200,000 for industries of the future (specific) programs, of which \$4,000,000 is for steel, \$3,500,000 is for aluminum, \$2,000,000 is for metal casting, \$1,800,000 is for glass, \$7,000,000 is for chemicals, \$2,800,000 is for petroleum (to support small refinery projects), \$500,000 is for agriculture, \$3,000,000 is for mining, and \$1,600,000 is for supporting industries. For industries of the future (crosscutting), increases include \$6,000,000 for technical assistance/best practices and \$21,000,000 for enabling technology, of which \$7,000,000 is for materials research, \$1,000,000 is for combustion systems/boiler research, \$10,000,000 is for industrial gasification, and \$3,000,000 is to restore the sensors and controls program funding. Other increases include \$2,000,000 to restore cooperative programs with the States, \$2,000,000 to restore the energy efficiency science initiative, and \$2,000,000 for innovations and inventions.

The Committee is aware of work being done by Utah State University and industrial partners to develop value-added products and processes using renewable resources as production feedstocks. The Committee urges the Department to work with the University to integrate this expertise with the Industries of the Future program or other relevant programs.

For distributed generation technologies, there is an increase of \$16,500,000, including \$4,000,000 for microturbine technology, \$5,000,000 for reciprocating engine technology, \$3,000,000 for National Energy Technology Laboratory support and university research on reciprocating engines (through Fossil Energy), \$4,000,000 for systems integration, and \$500,000 for management and planning to provide for fixed costs and essential staffing.

For transportation sector research, there is net increase of \$28,700,000 for vehicle technology research and development, including a decrease of \$500,000 for the Graduate Automotive Technology Education program and increases of \$4,000,000 for hybrid/light and heavy vehicle propulsion, \$2,700,000 for hybrid/high power energy storage, \$3,500,000 for hybrid/advanced power electronics and the Department is directed to down select from 3 to 2 contracts, \$8,000,000 for combustion and emissions control, \$3,500,000 for heavy truck engine research and development and the Department is expected to fund at least two natural gas engine projects, \$3,500,000 for electric vehicle/advanced battery development, and \$4,000,000 for heavy vehicle systems optimization. The Committee expects the Department to focus its truck research on a broad array of options and not limit the program to diesel engine research.

Other transportation program increases include \$5,000,000 for fuels utilization, of which \$3,000,000 is for advanced petroleum based fuels for heavy trucks and lighter vehicles and \$2,000,000 is for alternative fuels for medium and heavy trucks; \$10,000,000 for materials technologies, of which \$1,000,000 is for automotive propulsion materials, \$8,000,000 is for lightweight materials technologies (including high strength/weight reduction materials) and \$1,000,000 is for the High Temperature Materials Laboratory; \$5,300,000 for technology deployment, of which \$5,000,000 is for the clean cities program and \$300,000 is for advanced vehicle competitions of the total amount provided for the clean cities program, \$2,000,000 is to help increase E-85 fueling capacity. There are also increases of \$2,000,000 to restore cooperative programs with the States and \$2,000,000 to restore the energy efficiency science initiative.

Finally, the Committee notes that, although it did not provide the full request in the weatherization assistance program, it has provided an increase of \$60,000,000 above the fiscal year 2001 level.

The Committee agrees to the following:

1. The cooperative programs with the States and the energy efficiency science initiative should be closely coordinated with the Fossil Energy Research and Development program to ensure that the highest priority research needs across both the Fossil Energy and Energy Conservation accounts are addressed. The cooperative pro-

grams with the States should also be coordinated with the Energy Information Administration.

2. Within the funds provided for building sector programs, the oil heat research program is to be continued at the fiscal year 2001 level.

3. The Department needs to do a better job of working with industry partners in developing and implementing long-term research plans and in requesting funding in budget submissions to support those plans. The Committee has been particularly concerned about the lack of commitment to the natural gas research plan, including natural gas vehicles, over the past few years and encourages the Department to work closely with industry on the plan. The increases provided above the budget request should be directed, in part, to that plan in close coordination with industry partners.

4. The controlled thermo-mechanical processing project in the industries of the future program should continue at the fiscal year 2001 level during fiscal year 2002.

5. The Department needs to provide a more detailed breakout of funding in the distributed generation technologies activity in future budgets. The Committee has agreed to provide flexibility for the first full year of funding for the program in order to take advantage of the most promising opportunities. However, the Committee expects that, in fiscal year 2003 and beyond, a more definitive justification with greater funding detail by subactivity will be incorporated in the budget requests.

6. Within the funds provided for distributed generation technologies, the Department should accelerate research and development on thermally activated technologies for packaged cooling, heat and power systems.

7. The Committee continues to be concerned that the Department of Energy has ignored the Committee's reprogramming procedures in the energy conservation area. In fiscal year 2001, nearly \$1,000,000 was realigned to increase the buildings sector management and planning activity and \$500,000 was used to fund the graduate automotive technology education program for which the Congress did not provide funding in fiscal year 2001. The Committee expects full compliance with the reprogramming guidelines by the Department in the future. The Committee will consider addressing this problem in statutory language if violations continue.

The Committee recognizes that experimental fuel cell vehicles, including buses and trucks, are already on the nation's roads, and that auto makers are scheduling the release of prototype fuel cell passenger cars in 2004. Because undetected hydrogen leaks pose a grave threat to public safety, it is imperative that the development of hydrogen detection systems be encouraged. The Committee encourages the Department of Energy to work with industry to facilitate the establishment of enabling safety technologies that are essential for public acceptance of effective and efficient alternatives to conventionally powered vehicles.

The Committee is aware of the efforts of Oak Ridge National Laboratory, in partnership with the Automotive Composites Consortium, to study the long-term durability of strong, lightweight automotive composite materials. The weight reductions made pos-

sible through use of such materials is crucial to meeting the goals of improved fuel economy, reduced emissions, and enhanced safety. While the Oak Ridge National Laboratory/Automotive Composites Consortium is currently focused on carbon composites only, the Committee urges the Department to include in its ongoing work, the study of new reinforcement technologies and a range of advanced engineering thermoplastics. Inclusion of these additional materials could expand materials options for the automotive industry as it strives to improve efficiency and safety.

ECONOMIC REGULATION

Appropriations, 2001	\$1,996,000
Budget estimate, 2002	1,996,000
House allowance	1,996,000
Committee recommendation	1,996,000

The economic regulation account funds the independent Office of Hearings and Appeals which is responsible for all of the Department's adjudication processes except those that are the responsibility of the Federal Energy Regulatory Commission. The amount funded by this Committee is for those activities specific to this bill: mainly those related to petroleum overcharge cases. All other activities are funded on a reimbursable basis from the other elements of the Department of Energy. Prior to fiscal year 1997, this account also funded the Economic Regulatory Administration.

The Committee recommends \$1,996,000 for economic regulation, equal to both the budget request and the fiscal year 2001 level. The Committee expects the Department to submit a plan by March 1, 2002, for phasing out direct funding for the Office of Hearings and Appeals from the Interior bill over the next three years. The Committee is concerned about the high cost of employees in this office and concerned that the casework, funded by the Interior and related agencies appropriation, has not been brought to a timely completion.

STRATEGIC PETROLEUM RESERVE

Appropriations, 2001	\$160,637,000
Budget estimate, 2002	169,009,000
House allowance	179,009,000
Committee recommendation	169,009,000

The Committee recommends \$169,009,000 for operation of the strategic petroleum reserve, an increase of \$8,372,000 above the fiscal year 2001 enacted level.

ENERGY INFORMATION ADMINISTRATION

Appropriations, 2001	\$75,509,000
Budget estimate, 2002	75,499,000
House allowance	78,499,000
Committee recommendation	75,499,000

The Committee recommends \$775,499,000 for the Energy Information Administration, a reduction of \$10,000 below the fiscal year 2001 enacted level.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE

INDIAN HEALTH SERVICES

Appropriations, 2001	\$2,265,663,000
Budget estimate, 2002	2,387,014,000
House allowance	2,390,014,000
Committee recommendation	2,388,614,000

The Committee recommends an appropriation of \$2,388,614,000 for Indian health services.

The amounts recommended by the Committee as compared to the budget estimate are shown in the following table:

	Budget estimate	Committee recommendation	Change
Clinical services:			
IHS and tribal health delivery:			
Hospital and health clinics programs	\$1,137,711,000	\$1,137,711,000
Dental health program	95,305,000	95,305,000
Mental health program	47,142,000	47,142,000
Alcohol and substance abuse program	135,005,000	135,005,000
Contract care	445,776,000	445,776,000
Subtotal, clinical services	1,860,939,000	1,860,939,000
Preventive health:			
Public health nursing	37,781,000	37,781,000
Health education	10,628,000	10,628,000
Community health representatives program	49,789,000	49,789,000
Immunization (Alaska)	1,526,000	1,526,000
Subtotal, preventive health	99,724,000	99,724,000
Urban health projects	29,947,000	30,947,000	+ \$1,000,000
Indian health professions	30,565,000	31,165,000	+ 600,000
Tribal management	2,406,000	2,406,000
Direct operations	65,323,000	65,323,000
Self-governance	9,876,000	9,876,000
Contract support costs	288,234,000	288,234,000
Medicare/Medicaid reimbursements: Hospital and clinic accreditation (est. collecting)	(499,985,000)	(499,985,000)
Total, Indian Health Services	2,387,014,000	2,388,614,000	+ 1,600,000

Increases above the budget estimate include \$50,000 for the InPsych program at the University of North Dakota, \$50,000 for the InPsych program at the University of Montana and \$500,000 for the InMed program at the University of North Dakota. In addition, the Committee has restored \$1,000,000 to the urban health activity to fund the dental program run by First Nations Community Health Sources in cooperation with the Southwest Indian Polytechnic Institute.

The Committee expects the Indian Health Service to continue the diabetes prevention and research activities centered at the National Diabetes Prevention Center in Gallup, New Mexico, and jointly funded by the Centers for Disease Control.

INDIAN HEALTH FACILITIES

Appropriations, 2001	\$363,103,000
Budget estimate, 2002	319,795,000
House allowance	369,795,000
Committee recommendation	362,854,000

The Committee has provided an appropriation of \$362,854,000 for Indian health facilities. The amounts recommended by the Committee as compared to the budget estimate are shown in the following table:

	Budget estimate	Committee recommendation	Change
Maintenance and improvement	\$45,331,000	\$45,331,000
Sanitation facilities	93,827,000	93,827,000
Construction of facilities	37,568,000	80,627,000	+ \$43,059,000
Facilities and environmental health support	126,775,000	126,775,000
Equipment	16,294,000	16,294,000
Total, Indian health facilities	319,795,000	362,854,000	+ 43,059,000

The Committee's distribution of health care facilities funding is as follows: \$27,827,000 for Fort Defiance, AZ hospital and staff quarters construction, \$15,000,000 for Winnebago, NE hospital construction, \$2,600,000 for Pinon, AZ clinic infrastructure, \$5,000,000 for Red Mesa, AZ clinic infrastructure, \$1,200,000 for Pawnee, OK clinic infrastructure, \$5,500,000 for St. Paul and Metlakatla clinic infrastructure, and \$1,500,000 for Sisseton, SD clinic design. In addition, the Committee has included \$5,000,000 for continued construction of Bethel, AK clinic staff quarters, \$5,000,000 for continuation of the joint venture program, \$10,000,000 for continuation of the small ambulatory grants program and \$2,000,000 for dental units, of which \$1,000,000 is designated for the AK SouthCentral Foundation to develop an adult dental clinic.

The Committee strongly encourages the Indian Health Service, from its Sanitation Facilities Construction program, to continue to fund at the highest level possible, construction of a new drinking water system for the Shoshone-Bannock Tribes of the Fort Hall Reservation in Idaho.

OTHER RELATED AGENCIES

OFFICE OF NAVAJO AND HOPI INDIAN RELOCATION

SALARIES AND EXPENSES

Appropriations, 2001	\$14,967,000
Budget estimate, 2002	15,148,000
House allowance	15,148,000
Committee recommendation	15,148,000

The Committee recommends an appropriation of \$15,148,000, which is \$181,000 above the fiscal year 2001 level and is the same as the budget estimate.

INSTITUTE OF AMERICAN INDIAN AND ALASKA NATIVE CULTURE AND ARTS DEVELOPMENT

PAYMENTS TO THE INSTITUTE

Appropriations, 2001	\$4,116,000
Budget estimate, 2002	4,490,000
House allowance	4,490,000
Committee recommendation	4,490,000

The Committee recommends an appropriation of \$4,490,000, which is \$374,000 above the fiscal year 2001 enacted level and is the same as below the budget estimate.

SMITHSONIAN INSTITUTION

SALARIES AND EXPENSES

Appropriations, 2001	\$386,902,000
Budget estimate, 2002	396,200,000
House allowance	396,200,000
Committee recommendation	401,192,000

The Committee recommends an appropriation of \$401,192,000 for salaries and expenses of the Smithsonian Institution. This amount is \$4,992,000 above the budget estimate and \$14,290,000 above the fiscal year 2001 level.

The following table provides a comparison of the budget estimate with the Committee recommendation:

	Budget estimate	Committee recommendation	Change
Museums and research institutes	\$204,107,000	\$209,874,000	+ \$5,767,000
Program support and outreach	44,136,000	37,082,000	- 7,054,000
Administration	36,144,000	42,065,000	+ 5,921,000
Facilities services	111,813,000	112,171,000	+ 358,000
Total	396,200,000	401,192,000	+ 4,992,000

The Committee's recommendation includes the following amounts above the fiscal year 2001 level: \$10,550,000 for pay and benefits increases, \$500,000 for expansion of the MOMS program operated by SITES, \$800,000 for security system modernization and maintenance, and \$6,000,000 for an information technology initiative. In addition to these increases, \$12,290,000 in proposed fiscal year 2001 reductions have been restored to the base. Within this total, an amount of \$1,399,000 has been retained to fund collections preparation and program planning for the National Air and Space Museum Udvar-Hazy Center. The Committee expects that utilities, communications and postage increases will be met within the funds that have been restored. Reductions to the current year enacted level include one-time costs of \$2,000,000 for the American presidency exhibit and \$200,000 for the east court project at the National Museum of Natural History, \$300,000 from major scientific

instrumentation, \$559,000 from the Museum Support Center, \$335,000 from the Finance and Administration units, \$75,000 from the Office of the Inspector General, and \$91,000 derived from consolidating functions of the Office of International Relations with the Under Secretary for Science.

The Committee has not included other proposals for reductions in its recommendations for a number of reasons. Several proposals are based upon a science initiative that will not be undertaken until a review by a blue-ribbon science commission is completed and approved by the Smithsonian's Board of Regents. The Committee asks that the Institution provide copies of the commission's report to the House and Senate Committees on Appropriations, as well as the relevant authorizing committees, once it is completed and consult with them on its implementation as appropriate. Until such time, the Committee expects that the Conservation Research Center in Front Royal, VA and the Smithsonian Center for Materials Research and Education in Suitland, MD, each proposed for closure in the budget estimate, remain open and funded in accordance with the Committee's recommendations. The Committee has not approved the Smithsonian's proposal for using Federal funds to support and expand programs supported currently with Trust funds. The Committee commends the Smithsonian for expanding its outreach activities, which serve to bring the Smithsonian's collections and expertise to communities around the country. It is the Committee's intention to continue to work with the Smithsonian to support these activities.

With regard to the funds proposed for redirection based on efficiencies, particularly those related to outsourcing, or savings based on reductions to the current work force, the Committee is reluctant to approve these proposals without greater detail than is currently available. Some of these proposals appear not to achieve overall savings but rather direct costs out to individual museums and programs that have operated for the most part without significant programmatic increases over the past several years. Further, the Committee is unclear as to how the proposed FTE reductions will be achieved when neither buyout nor early out authority exists currently and no costs are identified in conjunction with a potential reduction in force. The Committee will continue to review these proposals as more information becomes available in the weeks ahead.

Earlier in the month the Committee received a request from the Institution to reprogram existing funds in order to initiate its information technology initiative, which is estimated to cost approximately \$42,000,000 over the next several years. The Committee approves this reprogramming, but because of the size of the project requests that the Institution provide quarterly reports that summarize both its progress in implementing the new system and the costs attached to current work beginning in January 2002. Finally, the Committee has funded this project within the Administration activity, which includes the Office of Information Technology, instead of the information resources management pool where the funds had been requested. The Committee understands that a portion of the funds in this pool also will be used for the technology initiative.

In addition to the \$500,000 increase provided for SITES, the Committee has retained \$392,000 in proposed base reductions to the Outreach activity, which should also be directed to the SITES program. Similarly, a proposed reduction of \$281,000 within Administration for information technology contract services has been restored and should be directed to funding the new information technology initiative.

REPAIR, RESTORATION AND ALTERATION OF FACILITIES

Appropriations, 2001	\$57,473,000
Budget estimate, 2002	67,900,000
House allowance	67,900,000
Committee recommendation	67,900,000

The Committee recommends an appropriation of \$67,900,000 for the repair and restoration of facilities. This amount meets the budget request and provides an increase of \$10,427,000 for activities within this account.

CONSTRUCTION

Appropriations, 2001	\$9,479,000
Budget estimate, 2002	30,000,000
House allowance	30,000,000
Committee recommendation	25,000,000

The Committee recommends an appropriation of \$25,000,000 for construction of Smithsonian facilities. This amount will enable the Institution to move forward with planned contracts for construction of the National Museum of the American Indian in fiscal year 2002. The Committee strongly supports this project but is unable to meet the budget request of \$30,000,000 in full due to overall budget constraints. Should additional dollars become available later in the appropriations process, the Committee would hope to agree to the higher funding level in conference.

NATIONAL GALLERY OF ART

SALARIES AND EXPENSES

Appropriations, 2001	\$64,638,000
Budget estimate, 2002	66,229,000
House allowance	68,967,000
Committee recommendation	68,967,000

The Committee recommends an appropriation of \$68,967,000 for salaries and expenses at the National Gallery of Art. An amount of \$2,738,000 above the budget request is provided to restore base funding to the special exhibitions budget and meet fixed cost increases in full. The detail table at the back of the report displays the distribution of funds among the Gallery's activities.

REPAIR, RESTORATION, AND RENOVATION OF BUILDINGS

Appropriations, 2001	\$10,847,000
Budget estimate, 2002	14,220,000
House allowance	14,220,000
Committee recommendation	14,220,000

The Committee recommends an appropriation of \$14,220,000 for the repair, restoration, and renovation of buildings. This amount meets the budget estimate, and provides funding to continue Master Facilities Plan projects, as well as ongoing renovation and repair work.

JOHN F. KENNEDY CENTER FOR THE PERFORMING ARTS

OPERATIONS AND MAINTENANCE

Appropriations, 2001	\$13,969,000
Budget estimate, 2002	15,000,000
House allowance	15,000,000
Committee recommendation	15,000,000

The Committee recommends an appropriation of \$15,000,000 to meet the budget estimate for the operations and maintenance of the John F. Kennedy Center for the Performing Arts.

CONSTRUCTION

Appropriations, 2001	\$19,956,000
Budget estimate, 2002	19,000,000
House allowance	19,000,000
Committee recommendation	19,000,000

The Committee recommends an appropriation of \$19,000,000 for major construction and renovation projects of the Kennedy Center.

WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS

SALARIES AND EXPENSES

Appropriations, 2001	\$12,283,000
Budget estimate, 2002	7,796,000
House allowance	7,796,000
Committee recommendation	7,796,000

The Committee recommends an appropriation of \$7,796,000 for the Woodrow Wilson International Center for Scholars. The detail table at the back of the report displays the proposed distribution of funding for the center's activities in the coming fiscal year.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

Appropriations, 2001	\$97,785,000
Budget estimate, 2002	98,234,000
House allowance	98,234,000
Committee recommendation	98,234,000

The Committee recommends an appropriation of \$98,234,000 for grants and administration of the National Endowment for the Arts. In addition to the funding provided within this account, \$17,000,000 is provided through the Challenge America fund to support the endowment's outreach activities at both the Federal and State levels.

The following table provides a comparison of the budget estimate and the Committee recommendation:

	Budget estimate	Committee recommendation	Change
Grants: Direct grants	\$47,550,000	\$47,827,000	+\$277,000
State partnerships:			
State and regional	24,906,000	25,118,000	+ 212,000
Under-served set-aside	6,794,000	6,805,000	+ 11,000
Subtotal, State partnerships	31,700,000	31,923,000	+ 223,000
Subtotal, grants	79,250,000	79,750,000	+ 500,000
Program support	1,154,000	1,154,000
Administration	17,830,000	17,330,000	- 500,000
Total, grants and administration	98,234,000	98,234,000

Language in title III of the bill retains provisions from prior years regarding priority for rural and underserved communities; priority for grants that encourage public knowledge, education, understanding, and appreciation of the arts; restrictions regarding individual grants, subgranting, and seasonal support; a 15-percent cap on the total amount of grant funds directed to any one State; designation of a category for grants of national significance; and authority to solicit and invest funds.

NATIONAL ENDOWMENT FOR THE HUMANITIES

GRANTS AND ADMINISTRATION

Appropriations, 2001	\$104,373,000
Budget estimate, 2002	104,882,000
House allowance	107,882,000
Committee recommendation	109,882,000

The Committee recommends an appropriation of \$109,882,000 for grants and administration of the National Endowment for the Humanities an increase of \$5,000,000 above the budget estimate.

The following table provides a comparison of the budget estimate and the Committee recommendation:

	Budget estimate	Committee recommendation	Change
Grants:			
Federal/State partnership	\$30,593,000	\$32,093,000	+\$1,500,000
Office of Preservation	18,288,000	18,788,000	+ 500,000
Public Programs	12,560,000	13,560,000	+ 1,000,000
Research	12,519,000	13,519,000	+ 1,000,000
Education programs	12,075,000	13,075,000	+ 1,000,000
Program development	397,000	397,000
Subtotal, grants	86,432,000	91,432,000	+ 5,000,000
Administrative Areas: Administration	18,450,000	18,450,000
Total, grants and administration	104,882,000	109,882,000	+ 5,000,000

As in prior years, the Committee has included bill language providing the Endowment with the authority to solicit and invest funds.

MATCHING GRANTS

Appropriations, 2001	\$15,621,000
Budget estimate, 2002	15,622,000
House allowance	15,622,000
Committee recommendation	15,622,000

The Committee recommends an appropriation of \$15,622,000 for matching grants. Of this amount, \$10,436,000 is designated for Challenge grants, \$4,000,000 is for Treasury funds and \$1,186,000 is for regional humanities centers.

INSTITUTE OF MUSEUM AND LIBRARY SERVICES

OFFICE OF MUSEUM SERVICES

GRANTS AND ADMINISTRATION

Appropriations, 2001	\$24,852,000
Budget estimate, 2002	24,899,000
House allowance	26,899,000
Committee recommendation	26,899,000

The Committee recommends an appropriation of \$26,899,000 for the Office of Museum Services an increase of \$2,000,000 above the budget estimate. The detail table at the back of the report provides a display of funding by activity.

CHALLENGE AMERICA ARTS FUND

CHALLENGE AMERICA GRANTS

Appropriations, 2001	\$6,985,000
Budget estimate, 2002	6,985,000
House allowance	17,000,000
Committee recommendation	17,000,000

The Committee recommends an appropriation of \$17,000,000 for the Challenge America Arts Fund, an increase of \$10,015,000 above the fiscal year 2001 level and the 2002 budget estimate. The Fund is intended to support the outreach activities of the National Endowment for the Arts at both the federal and state levels.

COMMISSION OF FINE ARTS

SALARIES AND EXPENSES

Appropriations, 2001	\$1,076,000
Budget estimate, 2002	1,274,000
House allowance	1,274,000
Committee recommendation	1,174,000

The Committee recommends an appropriation of \$1,174,000 for the Commission of Fine Arts, a decrease of \$100,000 from the budget estimate. The Committee does not concur with the budget proposal that the Commission serve as a reviewing agency for grants that would be awarded competitively through the National Capital Arts and Cultural Affairs (NCACA) program, because the

Commission does not have the current capability to serve in this capacity. If the decision is made to change the current grant process for NCACA, the Committee suggests that other agencies, such as the D.C. Commission on the Arts and Humanities, might be more appropriate candidates to operate the program.

NATIONAL CAPITAL ARTS AND CULTURAL AFFAIRS

Appropriations, 2001	\$6,985,000
Budget estimate, 2002	7,000,000
House allowance	7,000,000
Committee recommendation	7,000,000

The Committee recommends an appropriation of \$7,000,000 for the National Capital Arts and Cultural Affairs Program. The Committee has not agreed to the proposal to change the method for distributing these funds and, therefore, expects the Commission of Fine Arts to administer the program in the same manner as it has in the past.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

Appropriations, 2001	\$3,182,000
Budget estimate, 2002	3,310,000
House allowance	3,400,000
Committee recommendation	3,310,000

The Committee recommends the President's request of \$3,310,000, an increase of \$128,000 above the fiscal year 2001 enacted level.

NATIONAL CAPITAL PLANNING COMMISSION

SALARIES AND EXPENSES

Appropriations, 2001	\$6,486,000
Budget estimate, 2002	7,253,000
House allowance	7,253,000
Committee recommendation	7,253,000

The Committee recommends an appropriation of \$7,253,000 for the National Capital Planning Commission. This amount is the same as the administration's budget estimate.

UNITED STATES HOLOCAUST MEMORIAL MUSEUM

HOLOCAUST MEMORIAL MUSEUM

Appropriations, 2001	\$34,363,000
Budget estimate, 2002	36,028,000
House allowance	36,028,000
Committee recommendation	36,028,000

The Committee recommends an appropriation of \$36,028,000 for the Holocaust Memorial Museum. Included in this amount is an increase of \$1,665,000 above fiscal year 2001 for anticipated fixed cost increases.

PRESIDIO TRUST

PRESIDIO TRUST FUND

Appropriations, 2001	\$33,327,000
Budget estimate, 2002	22,427,000
House allowance	22,427,000
Committee recommendation	23,125,000

The Committee recommends \$23,125,000 for the Presidio Trust, a decrease of \$10,202,000 from the fiscal year 2001 enacted level.

TITLE III—GENERAL PROVISIONS

The Committee has recommended inclusion of several general provisions in the bill including the following:

SEC. 301. Provides that contracts which provide consulting services be a matter of public record and available for public review, except where otherwise provided by law.

SEC. 302. Provides a restriction on noncompetitive bidding in the Shawnee National Forest, IL.

SEC. 303. Provides that appropriations available in the bill shall not be used to produce literature or otherwise promote public support of a legislative proposal on which legislative action is not complete.

SEC. 304. Provides that appropriations made available in this bill will not remain available beyond the current fiscal year unless otherwise provided.

SEC. 305. Provides that appropriations made available in this bill cannot be used to provide a cook, chauffeur, or other personal servants.

SEC. 306. Provides for restrictions on departmental assessments unless approved by the Committees on Appropriations.

SEC. 307. Limits the actions of the Forest Service and the Bureau of Land Management with regard to the sale of giant sequoia trees to a manner consistent with such sales as were conducted in fiscal year 2000.

SEC. 308. Prohibits the National Park Service from implementing a concession contract which permits or requires the removal of the underground lunchroom at Carlsbad Caverns National Park.

SEC. 309. Prohibits the use of funds appropriated in the bill to demolish the bridge between Jersey City, NJ, and Ellis Island or to prevent the pedestrian use of such bridge when it is made known that such use is consistent with generally accepted safety standards.

SEC. 310. Retains mining patent moratorium carried in previous years.

SEC. 311. Provides that funds appropriated to the Bureau of Indian Affairs and the Indian Health Service for contract support costs for fiscal years 1994 through 2001 are the total amounts available except that, for the Bureau of Indian Affairs, tribes and tribal organizations may use their tribal priority allocations for unmet indirect costs of ongoing contracts, grants, self-governance compacts, or annual funding agreements.

SEC. 312. Includes language allowing competition for watershed restoration projects through the "Jobs in the Woods" component of the President's forest plan for the Pacific Northwest or for the "Jobs in the Woods" program for Alaska to be limited to individuals and entities in historically timber-dependent areas covered by the plan.

SEC. 313. Includes language requiring prior approval by the Appropriations Committees before commencing planning, design, or construction of any project funded with recreational fee demonstration moneys when the estimated total project cost is greater than \$500,000.

SEC. 314. Prohibits the use of funds for posting clothing optional signs at Cape Canaveral NS, FL.

SEC. 315. Includes language defining the grantmaking capabilities and responsibilities of the National Endowment of the Arts. Grants to individuals may be made only for literature fellowships, national heritage fellowships, or American jazz masters fellowships. The Chairperson of the Endowment will establish procedures to ensure that grants made, except those to a State or local arts agency, will not be used to make a further grant to any other organization or individual to conduct activity independent of the direct grant recipient. Grants for seasonal support may not be awarded unless the application is specific to the contents of the season.

SEC. 316. Includes language allowing the National Endowment for the Arts and the National Endowment for the Humanities to raise funds and receive gifts, to deposit such in an interest-bearing account for the appropriate Endowment, and to use such to further the functions of the respective Endowments in accordance with the specified intent of the donors.

SEC. 317. Provides language for awarding financial assistance to underserved populations under the National Foundation on the Arts and the Humanities Act of 1965. With funds appropriated to carry out section 5 of the act, the chairman will establish a category of national significance grants. With the exception of this grant category, the chairman will not make grants exceeding 15 percent, in the aggregate, of such funds to any single State.

SEC. 318. Prohibits the use of appropriations to fund any activities associated with the issuance of the 5-year program under the Forest and Rangeland Renewable Resources Planning Act. Strategic planning activities carried out for that act should now be completed as part of the agency's compliance with the Government Performance and Results Act, Public Law 103-62.

SEC. 319. Prohibits the use of funds to support Government-wide administrative functions unless they are justified in the budget process and approved by the House and Senate Appropriations Committees.

SEC. 320. Prohibits the use of funds to make improvements to Pennsylvania Avenue in front of the White House without Committee approval.

SEC. 321. Provides additional authority to use the roads and trails funds for priority forest health related management. The Committee recognizes that there is a serious backlog in important road, trail and bridge work throughout the national forest system just as there is a serious backlog in needed management related to forest health.

SEC. 322. Limits the use of funds that may be used to operate telephone answering machines during core business hours unless an option is provided that enables callers to reach promptly an individual on-duty at that agency.

SEC. 323. Addresses timber sales involving Alaska western red cedar. This provision is the same as section 328 of the Fiscal Year 2001 Interior Appropriations Act, which deals with export of certain western red cedar timber from Alaska. Mills which process western red cedar in the Pacific Northwest have an insufficient supply of western red cedar, and the national forest in southeast Alaska sometimes has a surplus. This provision continues a program by which Alaska's surplus western red cedar is made available preferentially to U.S. domestic mills outside Alaska, prior to export abroad.

SEC. 324. Prohibits the use of funds to propose or issue rules, regulations, decrees, or orders to implement the Kyoto Protocol prior to Senate confirmation.

SEC. 325. Provides that the Forest Service in consultation with the Department of Labor shall modify concessions contracts so that they fall within the exemption from the Service Contract Act. Concessions contracts which cannot be so modified may be offered as a service contract.

SEC. 326. Provides that the Forest Service may not inappropriately use the Recreation Fee Demonstration program to supplant existing recreation concessions on the national forests.

SEC. 327. Authorizes the Forest Service to expand the number of stewardship and end results contracts. These projects are in addition to the projects authorized in Public Law 106-291.

SEC. 328. Provides that any regulations or policies issued by the Departments of the Interior or Agriculture regarding recovery of costs for processing authorizations to occupy and use Federal lands shall reflect the principle that no charge shall be made for a service when the identification of the beneficiary is obscure, and the service can be considered primarily as benefitting the general public.

SEC. 329. The Committee has included language in the bill authorizing the Secretary of Agriculture to limit competition for fire and fuel treatment and watershed restoration contracts in the Giant Sequoia National Monument and the Sequoia National Forest. The purpose of this language is to give priority consideration to dislocated workers in Tulare, Kern and Fresno counties. By providing this authority to the Secretary, the Committee in no way implies its approval or disapproval of the process by which the Monument was established, nor does the grant of this authority in any way address the legality of the President's use of his powers under the Antiquities Act in this instance.

SEC. 330. Directs the Forest Service to extend the special use permit held by Montana State University—Billings for the Sioux-Charlie Cabin in Montana for a period of 50 years. At the end of the 50-year term public comments shall be solicited to determine whether another extension is in the public interest.

SEC. 331. Extends the ability of the Forest Service to enter into watershed restoration and enhancement agreements as authorized in sec. 323 of Public Law 105-277.

SEC. 332. Extends the authorities provided in sec. 551(c) of the Land Between the Lakes Protection Act of 1998 through 2004.

SEC. 333. Provides that residents living within the boundaries of the White Mountain National Forest are exempt from certain user fees.

LIMITATIONS AND LEGISLATIVE PROVISIONS

COMPLIANCE WITH PARAGRAPH 7, RULE XVI OF THE STANDING RULES OF THE SENATE

Rule XVI, paragraph 7 requires that every report on a general appropriation bill filed by the Committee must identify each recommended amendment which proposes an item of appropriation which is not made to carry out the provisions of an existing law, a treaty stipulation, or an act or resolution previously passed by the Senate during that session.

Those items are as follows:

- Sums provided to the Bureau of Land Management to inventory, manage, and improve rangelands for domestic livestock grazing pursuant to Public Law 95-514, the Public Rangeland Improvement Act of 1978.
- \$208,638,000 for the endangered species program, U.S. Fish and Wildlife Service.
- \$460,000 for the Yukon River Restoration and Enhancement Fund, U.S. Fish and Wildlife Service, pursuant to the Fisheries Act of 1995.
- Sums provided to the Fish and Wildlife Service for the conservation and protection of marine mammals pursuant to Public Law 103-238, the Marine Mammal Protection Act Amendments of 1994.
- \$484,000 for the Lake Champlain resource conservation program, U.S. Geological Survey, pursuant to the Great Lakes Critical Programs Act of 1990.
- \$2,250,000 for start-up and matching funds for projects of the National Forest Foundation, U.S. Forest Service.
- Sums provided to the Department of Energy for the integration of fuel cells with hydrogen production systems pursuant to the Hydrogen Future Act of 1996.
- Sums provided to the Department of Energy for various programs authorized in Public Law 102-486, Energy Policy Act of 1992.
- \$80,495,000 for economic regulation and the Energy Information Administration, Department of Energy, pursuant to the Omnibus Budget Reconciliation Act of 1981.
- \$15,148,000 for the Office of Navajo and Hopi Relocation.
- \$115,234,000 for the National Endowment for the Arts.
- \$125,504,000 for the National Endowment for the Humanities.

COMPLIANCE WITH PARAGRAPH 7(C), RULE XXVI, OF THE STANDING RULES OF THE SENATE

Pursuant to paragraph 7(c) of rule XXVI, the Committee ordered reported H.R. 2217, the Interior and Related Agencies Appropriations bill, 2002, subject to amendment and subject to its budget al-

locations, by a recorded vote of 26–0, a quorum being present. The vote was as follows:

Yeas	Nays
Chairman Byrd	
Mr. Inouye	
Mr. Hollings	
Mr. Leahy	
Mr. Harkin	
Ms. Mikulski	
Mr. Reid	
Mr. Kohl	
Mrs. Murray	
Mr. Dorgan	
Mrs. Feinstein	
Mr. Durbin	
Mr. Stevens	
Mr. Cochran	
Mr. Specter	
Mr. Domenici	
Mr. Bond	
Mr. McConnell	
Mr. Burns	
Mr. Shelby	
Mr. Gregg	
Mr. Bennett	
Mr. Campbell	
Mr. Craig	
Mrs. Hutchison	
Mr. Kyl	

COMPLIANCE WITH PARAGRAPH 12, RULE XXVI OF THE STANDING RULES OF THE SENATE

Paragraph 12 of rule XXVI requires that a Committee report on a bill or joint resolution repealing or amending any statute or part of any statute include “(a) the text of the statute or part thereof which is proposed to be repealed; and (b) a comparative print of that part of the bill or joint resolution making the amendment and of the statute or part thereof proposed to be amended, showing by stricken-through type and italics, parallel columns, or other appropriate typographical devices the omissions and insertions which would be made by the bill or joint resolution if enacted in the form recommended by the committee.”

In compliance with this rule, the following changes in existing law proposed to be made by the bill are shown as follows: existing law to be omitted is enclosed in black brackets; new matter is printed in italic; and existing law in which no change is proposed is shown in roman.

TITLE 16—CONSERVATION

* * * * *

CHAPTER 79—NATIONAL PARK SERVICE MANAGEMENT

* * * * *

**SUBCHAPTER III—NATIONAL PARK SERVICE CONCESSIONS
MANAGEMENT**

* * * * *

§ 5961. Special rule for transportation contracting services

(a) In general

Notwithstanding any other provision of law, a service contract entered into by the Secretary for the provision solely of transportation services in a unit of the National Park System shall be no more than 10 years in length, including a base period of 5 years and annual extensions for an additional 5-year period based on satisfactory performance and approval by the Secretary.

(b) Obligation of funds

Notwithstanding any other provision of law, with respect to a service contract for the provision solely of transportation services at Zion National Park, the Secretary may obligate the expenditure of fees received in fiscal year [2001] 2002 under section 5981 of this title before the fees are received.

* * * * *

TITLE 30—MINERAL LANDS AND MINING

* * * * *

**CHAPTER 2—MINERAL LANDS AND REGULATIONS IN
GENERAL**

* * * * *

§ 28f. Fee

(a) CLAIM MAINTENANCE FEE.—[The holder of each unpatented mining claim, mill or tunnel site, located pursuant to the Mining Laws of the United States, whether located before or after the enactment of this Act, shall pay the Secretary of the Interior, on or before September 1, of each year for years 1999 through 2001, a claim fee of \$100 per claim site.] *The holder of each unpatented mining claim, mill, or tunnel site, located pursuant to the mining laws of the United States, whether located before, on or after enactment of this Act, shall pay to the Secretary of the Interior, on or before September 1, 2002, a claim maintenance fee of \$100 per claim or site.*

* * * * *

§ 28g. Location fee

* * * * *

Notwithstanding any other provision of law, for every unpatented mining claim, mill or tunnel site located after August 10, 1993, [and before September 30 2001] and before September 30, 2006, pursuant to the mining laws of the United States, the locator shall, at the time the location notice is recorded with the Bureau of Land

Management, pay to the Secretary of the Interior a location fee, in addition to the claim maintenance fee required by section 28f of this title, of \$25.00 per claim.

* * * * *

TITLE 31—MONEY AND FINANCE

* * * * *

SUBTITLE V—GENERAL ASSISTANCE ADMINISTRATION

* * * * *

CHAPTER 69—PAYMENT FOR ENTITLEMENT LAND

* * * * *

§ 6906. Authorization of appropriations

(a) *IN GENERAL.*—Necessary amounts may be appropriated to the Secretary of the Interior to carry out this chapter. Amounts are available only as provided in appropriation laws.

(b) *LOCAL EXEMPTIONS FROM DEMONSTRATION PROGRAM FEES.*—

(1) *IN GENERAL.*—Each unit of general local government that lies in whole or in part within the White Mountain National Forest and persons residing within the boundaries of that unit of general local government shall be exempt during that fiscal year from any requirement to pay a Demonstration Program Fee (parking permit or passport) imposed by the Secretary of Agriculture for access to the Forest.

(2) *ADMINISTRATION.*—The Secretary of Agriculture shall establish a method of identifying persons who are exempt from paying user fees under paragraph (1). This method may include valid form of identification including a drivers license.

* * * * *

LAND BETWEEN THE LAKES PROTECTION ACT OF 1998

* * * * *

SEC. 551. (a) * * *

* * * * *

(c) *TRANSITION.*—Until September 30, [2002] 2004, the Secretary of Agriculture may expend amounts appropriated or otherwise made available to carry out this title in a manner consistent with the authorities exercised by the Tennessee Valley Authority, before the transfer of the Recreation Area to the administrative jurisdiction of the Secretary, regarding procurement of property, services, supplies, and equipment.
