MAKING APPROPRIATIONS FOR THE DEPARTMENT OF THE INTERIOR
AND RELATED AGENCIES FOR THE FISCAL YEAR ENDING SEPTEMBER
30, 1982

NOVEMBER 5, 1981.—Ordered to be printed

Mr. YATES, from the committee of conference,
submitted the following

CONFERENCE REPORT

[To accompany H.R. 4035]

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4035) making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1982, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 3, 5, 10, 15, 27, 29, 56, 66, 67, 80, 87, 91, 98, 110, 113, 120, 121, 128, 133, 137, 139, 141, and 142.

That the House recede from its disagreement to the amendments of the Senate numbered 7, 13, 18, 19, 26, 30, 34, 40, 42, 43, 44, 45, 46, 47, 49, 50, 51, 52, 54, 59, 60, 61, 65, 68, 70, 71, 72, 81, 82, 83, 84, 89, 90, 94, 96, 100, 102, 105, 109, 115, 116, 129, 138, 140, and 143, and agree to the same.

Amendment numbered 14:

That the House recede from its disagreement to the amendment of the Senate numbered 14, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$6,961,000; and the Senate agree to the same.

Amendment numbered 16:

That the House recede from its disagreement to the amendment of the Senate numbered 16, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$17,178,000; and the Senate agree to the same.

Amendment numbered 17:

That the House recede from its disagreement to the amendment of the Senate numbered 17, and agree to the same with an amendment, as follows:

In lieu of the sum named in said amendment insert \$6,000,000; and the Senate agree to the same.

Amendment numbered 23:

That the House recede from its disagreement to the amendment of the Senate numbered 23, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$12,888,000; and the Senate agree to the same.

Amendment numbered 24:

That the House recede from its disagreement to the amendment of the Senate numbered 24, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment amended to read as follows:

Urban Park and Recreation Fund

For supplemental grants to existing "innovation grants" made under authority of section 1003 of the Urban Park and Recreation Recovery Act of 1978 (title 10 of Public Law 95-625), \$8,000,000, to remain available until expended.; and the Senate agree to the same.

Amendment numbered 28:

That the House recede from its disagreement to the amendment of the Senate numbered 28, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$107,773,000; and the Senate agree to the same.

Amendment numbered 32:

That the House recede from its disagreement to the amendment of the Senate numbered 32, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$515,151,000; and the Senate agree to the same.

Amendment numbered 37:

That the House recede from its disagreement to the amendment of the Senate numbered 37, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$108,161,000; and the Senate agree to the same.

Amendment numbered 38:

That the House recede from its disagreement to the amendment of the Senate numbered 38, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$60,953,000; and the Senate agree to the same.

Amendment numbered 39:

That the House recede from its disagreement to the amendment of the Senate numbered 39, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert: \$106,335,000, of which \$16,000,000 shall be available to the Bureau of Mines to carry out research, demonstration, and reclamation projects authorized by section 403, Public Law 95-87, to be de-

rived from receipts of the Abandoned Mine Reclamation Fund; and the Senate agree to the same.

Amendment numbered 48:

That the House recede from its disagreement to the amendment of the Senate numbered 48, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$97,529,000; and the Senate agree to the same.

Amendment numbered 53:

That the House recede from its disagreement to the amendment of the Senate numbered 53, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$49,125,000; and the Senate agree to the same.

Amendment numbered 57:

That the House recede from its disagreement to the amendment of the Senate numbered 57, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$89,679,000; and the Senate agree to the same.

Amendment numbered 58:

That the House recede from its disagreement to the amendment of the Senate numbered 58, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$84,352,000; and the Senate agree to the same.

Amendment numbered 62:

That the House recede from its disagreement to the amendment of the Senate numbered 62, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$79,330,000; and the Senate agree to the same.

Amendment numbered 63:

That the House recede from its disagreement to the amendment of the Senate numbered 63, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$18,333,000; and the Senate agree to the same.

Amendment numbered 69:

That the House recede from its disagreement to the amendment of the Senate numbered 69, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert "111"; and the Senate agree to the same.

Amendment numbered 75:

That the House recede from its disagreement to the amendment of the Senate numbered 75, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$66,315,000; and the Senate agree to the same.

Amendment numbered 76:

That the House recede from its disagreement to the amendment of the Senate numbered 76, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$60,860,000; and the Senate agree to the same.

Amendment numbered 79:

That the House recede from its disagreement to the amendment of the Senate numbered 79, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$223,278,000; and the Senate agree to the same.

Amendment numbered 88:

That the House recede from its disagreement to the amendment of the Senate numbered 88, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$27,356,000; and the Senate agree to the same.

Amendment numbered 99:

That the House recede from its disagreement to the amendment of the Senate numbered 99, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$161,490,000; and the Senate agree to the same.

Amendment numbered 103:

That the House recede from its disagreement to the amendment of the Senate numbered 103, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$23,900,000; and the Senate agree to the same.

Amendment numbered 107:

That the House recede from its disagreement to the amendment of the Senate numbered 107, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$82,207,000; and the Senate agree to the same.

Amendment numbered 108:

That the House recede from its disagreement to the amendment of the Senate numbered 108, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$624,630,000; and the Senate agree to the same.

Amendment numbered 118:

That the House recede from its disagreement to the amendment of the Senate numbered 118, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$10,481,000; and the Senate agree to the same.

Amendment numbered 119:

That the House recede from its disagreement to the amendment of the Senate numbered 119, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$133,823,000; and the Senate agree to the same.

Amendment numbered 122:

That the House recede from its disagreement to the amendment of the Senate numbered 122, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$8,000,000; and the Senate agree to the same.

Amendment numbered 123:

That the House recede from its disagreement to the amendment of the Senate numbered 123, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$31,057,000*; and the Senate agree to the same.

Amendment numbered 124:

That the House recede from its disagreement to the amendment of the Senate numbered 124, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$3,850,000*; and the Senate agree to the same.

Amendment numbered 125:

That the House recede from its disagreement to the amendment of the Senate numbered 125, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$1,950,000*; and the Senate agree to the same.

Amendment numbered 126:

That the House recede from its disagreement to the amendment of the Senate numbered 126, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$119,000,000*; and the Senate agree to the same.

Amendment numbered 127:

That the House recede from its disagreement to the amendment of the Senate numbered 127, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$107,635,000*; and the Senate agree to the same.

Amendment numbered 130:

That the House recede from its disagreement to the amendment of the Senate numbered 130, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$106,000,000*; and the Senate agree to the same.

Amendment numbered 131:

That the House recede from its disagreement to the amendment of the Senate numbered 131, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$94,200,000*; and the Senate agree to the same.

Amendment numbered 132:

That the House recede from its disagreement to the amendment of the Senate numbered 132, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$11,800,000*; and the Senate agree to the same.

Amendment numbered 134:

That the House recede from its disagreement to the amendment of the Senate numbered 134, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *\$30,000,000*; and the Senate agree to the same.

Amendment numbered 135:

That the House recede from its disagreement to the amendment of the Senate numbered 135, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$21,600,000; and the Senate agree to the same.

Amendment numbered 136:

That the House recede from its disagreement to the amendment of the Senate numbered 136, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert \$12,000,000; and the Senate agree to the same.

The committee of conference report in disagreement amendments numbered 1, 2, 4, 6, 8, 9, 11, 12, 20, 21, 22, 25, 31, 33, 35, 36, 41, 55, 64, 73, 74, 77, 78, 85, 86, 92, 93, 95, 97, 101, 104, 106, 111, 112, 114, and 117.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4035), making appropriations for the Department of the Interior and Related Agencies for the fiscal year ending September 30, 1982, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

Amendment No. 1: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides that administrative expenses associated with the Oregon and California Grant Lands and Acquisition, Construction, and Maintenance appropriations may be funded in the Management of lands and resources appropriation.

Amendment No. 2: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment appropriating \$370,131,000 for management of lands and resources instead of \$295,789,000 as proposed by the House and \$367,631,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The net increase over the amount proposed by the Senate is a decrease of \$750,000 for wilderness review, an increase of \$750,000 for natural and cultural resources, and an increase of \$2,500,000 for cadastral survey.

The managers agree that the amount provided includes \$79,841,000 for general administration, including a reduction of \$101,000 for the Office of Congressional Liaison. The managers also agree that General Administration should be treated as a separate budget activity, and should be fully justified in the FY 1983 budget submission, including a full explanation of any proposed changes.

The managers are aware of the concern with the Federal Prison Industry backlog. The National Park Service has begun discussions with the FPI and is encouraged by the spirit of cooperation the FPI is showing. The Department is to ensure that the Fish and Wildlife Service, the BLM, the BIA, and the NPS work closely with the FPI to reduce the backlog. If better service does not result, the Committee will support legislative relief in fiscal year 1983.

The managers agree that \$356,000 is provided within available funds for operations in the Steese National Conservation Area and the White Mountain National Recreation Area in order to complete the necessary mineral inventory and processing plans of oper-

ation by December 1984. The managers also agree that an additional \$300,000 is provided within available funds for withdrawal reviews in Alaska.

Amendment No. 3: Appropriates \$12,720,000 for Acquisition, construction, and maintenance as proposed by the House instead of \$12,370,000 as proposed by the Senate.

Amendment No. 4: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment providing \$99,500,000 for the payments in lieu of taxes program instead of \$105,000,000 as proposed by the Senate. In lieu of the matter proposed by said amendment insert the following:

PAYMENTS IN LIEU OF TAXES

For expenses necessary to implement the Act of October 20, 1976 (31 U.S.C. 1601), \$99,500,000 of which not to exceed \$400,000 shall be available for administrative expenses: Provided, That this appropriation may be used to correct underpayments in the previous fiscal year to achieve equity among all qualified recipients.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 5: Restores House language stricken by the Senate which includes administrative expenses in the land acquisition account.

Amendment No. 6: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment appropriating \$3,137,000 for land acquisition instead of \$1,137,000 as proposed by the House and \$2,300,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The increase in the amount proposed by the House is \$2,000,000 to Yaquna Head ONA.

Amendment No. 7: Deletes separate General Administration appropriation proposed by the House.

Amendment No. 8: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which prohibits the use of funds provided in this Act to determine the suitability or nonsuitability for wilderness of lands withdrawn by Executive Order numbered 3767 of December 19, 1922.

OFFICE OF WATER RESEARCH AND TECHNOLOGY

Amendment No. 9: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken, amended to read as follows:

OFFICE OF WATER RESEARCH AND TECHNOLOGY

SALARIES AND EXPENSES

For expenses necessary in carrying out the provisions of the Water Research and Development Act of 1978 (Public Law 95-467) and provisions of Public Law 95-84, as amended (42 U.S.C. 1959-1959 i),

\$11,194,000, of which \$2,955,000 shall remain available for obligation until September 30, 1983.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The amendment provides \$11,194,000 for salaries and expenses instead of \$9,755,000 as proposed by the House. The net increase above the amount proposed by the House consists of an increase of \$6,210,000 for State water resource research institutes and decreases of \$950,000 for water reuse, \$600,000 for special projects, \$2,000,000 for saline water research and development, \$250,000 for technology transfer and \$971,000 for general program support.

The managers agree that the Department should undertake a serious review of the number of water research institutes, and expect the Department to submit a comprehensive plan for institute reorganization no later than February 15, 1982. A lesser number of strong, regional institutes appears to be preferable to the State-based, diffuse effort now in existence.

The managers also agree that industry should begin to assume the program for research and development in water reuse and saline water. The \$4,950,000 provided for these activities should be used to continue the highest priority projects already underway, and to provide for support for government facilities at Roswell, NM, and Wrightsville Beach, NC until they can be dismantled or turned over to industry or industry-university teams for further use. The managers expect the Department to submit a comprehensive plan for program and facility transition by February 15, 1982.

Amendment No. 10: Deletes Senate language which established an Office of Water Policy, including functions of the present Office of Water Research and Technology. The managers agree that funds for water policy, planning and coordination (\$1,400,000) and for general program support to such functions (\$442,000) will be made available in the departmental management account. Although the managers strongly support the effort to establish a coherent National water policy, they believe such functions should be part of the Office of the Secretary rather than an independent office.

UNITED STATES FISH AND WILDLIFE SERVICE

Amendment No. 11: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: including administrative expenses associated with the management of funds provided under the head "Construction and Anadromous Fish", and up to \$3,000,000 but not less than \$1,000,000 for high priority projects within the scope of the approved budget which shall be carried out by Youth Conservation Corps as if authorized by the Act of August 13, 1970, as amended by Public Law 93-408,

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The managers recognize the importance of the Youth Conservation Corps and accordingly provide up to \$3,000,000 but not less than \$1,000,000 within available funds to maintain a program. The Fish and Wildlife Service is encouraged to use the maximum amount made available.

Amendment No. 12: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment appropriating \$229,531,000 for resource management instead of \$207,235,000 as proposed by the House and \$219,328,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The net increase over the amount proposed by the House consists of the following increases and decreases: increases of \$400,000 for the Instream Flow Analysis Group, \$194,000 for animal damage control, \$707,000 for operation and maintenance of Corps of Engineers fish mitigation facilities operated by the U.S. Fish and Wildlife Service and the states of Idaho, Washington, and Oregon, and \$29,360,000 for a new general administration budget activity; and decreases of \$879,000 for environmental contaminant evaluation, \$1,487,000 for area-wide planning, \$500,000 for coal research and development, \$30,000 for the federal coal program, \$1,182,000 for water resource analysis, \$500,000 for migratory birds research, \$150,000 for mammal and nonmigratory birds research, \$125,000 for the recreational user fee program on refuges, \$150,000 for extension education programs, \$253,000 for management services, \$271,000 for refuge interpretation activities, \$1,050,000 for education assistance and recreation activities, \$700,000 for a fishery assistance grant to the State of Washington, and \$1,088,000 for fishery assistance to the State of Alaska. No funds are provided for operation of the National Aquarium. The stock of the aquarium is to be distributed to aquariums following normal surplus disposal procedures.

Within available funds, the Service is to provide an increase of \$456,000 above the 1981 level for acid rain research; \$327,000 for the Barren Ground Caribou study, and \$300,000 for the North Slope study for transfer to the Geological Survey. This will permit the Survey to discharge its duties as the lead agency in assessment of oil and gas exploration development and production on the Arctic Wildlife Refuge pursuant to Sec. 1002 of Public Law 96-487. There is no objection to initial development on new Alaska refuges while the refuge management plans are being prepared. The allowance for general administration includes increases over the House of \$116,000 for public affairs and \$36,000 for congressional and legislative affairs. The Service is to retain the general administration activity in this budget structure and to provide adequate justification of the base program and any increases or decreases.

The Managers agree that the Secretary should review the management structure of the Fish and Wildlife Service with special attention to the area offices. The results of the review should be available for the fiscal year 1983 hearings. The managers also agree the \$300,000 in fishery assistance to the State of Washington will be the last grant associated with the Boldt decision.

Amendment No. 13: Deletes House language that would have transferred the National Aquarium to the Smithsonian Institution.

Amendment No. 14: Appropriates \$6,961,000 for Construction and Anadromous fish instead of \$9,475,000 as proposed by the House and \$6,611,000 as proposed by the Senate. The increase of

\$350,000 over the amount proposed by the Senate is for the construction of 20 ponds at the Warm Springs NFH, GA.

The managers recommend that the Fish and Wildlife Service request a reprogramming to initiate construction of the Gainesville, FL, exotic fish research facility. If such a reprogramming request is not forthcoming, the managers will consider providing funds for the facility in a supplemental.

Amendment No. 15: Restores House language stricken by the Senate which includes administrative expenses in the land acquisition account.

Amendment No. 16: Appropriates \$17,178,000 for land acquisition instead of \$18,039,000 as proposed by the House and \$8,000,000 as proposed by the Senate. The net decrease under the amount proposed by the House consists of the following: an increase of \$850,000 for Yaqui Topminnow Habitat, AZ; and decreases of \$700,000 for San Francisco Bay NWR, CA, \$151,000 for Trustom Pond NWR, RI, and \$860,000 for emergency and inholding acquisition.

Amendment No. 17: Appropriates \$6,000,000 for the national wildlife refuge fund instead of \$7,000,000 as proposed by the Senate. This amount, with \$1,900,000 available in receipts from 1981, will provide a program of \$7,900,000.

Amendment No. 18: Deletes House language establishing a separate general administration appropriation for the U.S. Fish and Wildlife Service.

Amendment No. 19: Provides for an increase in the limitation for miscellaneous and emergency law enforcement activities from \$75,000 to \$100,000 as proposed by the Senate.

Amendment No. 20: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *including administrative expenses associated with the management of funds provided under the heads "Construction" and "John F. Kennedy Center for the Performing Arts", and up to \$3,000,000 but not less than \$1,000,000 for high priority projects within the scope of the approved budget which shall be carried out by Youth Conservation Corps as if authorized by the Act of August 13, 1970, as amended by Public Law 93-408,*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The managers recognize the importance of the Youth Conservation Corps and accordingly provide up to \$3,000,000 but not less than \$1,000,000 within available funds to maintain a program. The National Park Service is encouraged to use the maximum amount made available.

Amendment No. 21: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment appropriating \$534,252,000 for operation of the National Park system instead of \$527,606,000 as proposed by the House and \$530,982,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The net increase above the amount proposed by the House consists of the following: increases of \$50,000 for the Falls of Clyde and \$31,965,000 for a new general administration activity; and decreases of \$300,000 for concessions management, \$200,000 for Shakespeare in the Parks, \$100,000 for commemoration of the bicentennial anniversary of the Battle of Yorktown, \$23,219,000 for maintenance, \$150,000 for a Geological Survey study in Indiana Dunes, NL, and \$1,400,000 for general management plans.

Within available maintenance funds the following projects are funded: RT 209 in Delaware Water GAP NRA—\$1,700,000, headquarters security system in Indiana Dunes NL—\$500,000, nautical boundary markers for Fort Jefferson NM—\$228,000, road improvement in Denali NP—\$500,000, and equipment and maintenance for 15 miles of road from September to May in Bryce Canyon NP—\$267,000. The managers and the Secretary of Interior agree that the \$10,000,000 of health and safety maintenance projects in the House bill may be funded within available funds. In addition to the \$150,000 provided for the Geological Survey study \$150,000, within available funds, is also to be applied to the study.

The managers agree that the Service should review law enforcement needs in all Park units. If there is disproportionate activity at Buffalo National River the Service should reallocate personnel to meet that need. The managers also agree that the new parks in Alaska should continue to be funded at the 1981 level of \$4,700,000. The managers direct the Service to bring the parties involved with public access problems at Piscataway NP together to resolve the problem in a way that is satisfactory to all parties. The allowance for general administration includes increases above the House for public affairs of \$250,000 and \$250,000 for the office of legislative affairs. The Service is to continue this separate activity in fiscal year 1983 and to explain the base program as well as any increases or decreases.

Amendment No. 22: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides \$85,000 to the Town of Harpers Ferry, WV, for police force use.

Amendment No. 23: Appropriates \$12,888,000 for National Recreation and Preservation instead of \$13,088,000 as proposed by the House and \$12,688,000 as proposed by the Senate. The increase of \$200,000 over the amount proposed by the Senate is for grant administration. With this increase, \$2,400,000 will be available to administer the Historic Preservation Fund grants and the Urban Park and Recreation Fund.

The managers agree that none of the funds are to continue work related to the Ozette Village archeological dig.

Amendment No. 24: Appropriates \$8,000,000 for the Urban Park and Recreation Fund instead of \$10,000,000 as proposed by the House.

HISTORIC PRESERVATION FUND

Amendment No. 25: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides that \$1,500,000 of the \$26,500,000 appropriated in this bill shall be used

to reimburse nine states which did not receive their full survey and planning grants in fiscal year 1981.

The managers agree that in order to perform essential activities, Historic Preservation Fund grants will not be used for acquisition or development or be transferred to local governments. State grants are to be targeted at improving survey and planning systems as the focal point for reducing regulatory problems, assisting Federal agencies, and identifying opportunities for private investment.

The managers also agree that the amount to be made available to the National Trust for Historic Preservation shall be \$4,600,000 as proposed by the House instead of \$4,700,000 as proposed by the Senate.

Amendment No. 26: Appropriates \$88,721,000 for construction as proposed by the Senate instead of \$108,771,000 as proposed by the House. The net reduction below the House consists of the following increase and decreases:

Blue Ridge Parkway	+\$3,565,000
Repair Kutz Bridge	-3,900,000
Meridian Hill	-454,000
Gateway-Sandy Hook road rehabilitation	-1,965,000
Antietam-Piper barn.....	-422,000
George Rogers Clark NHS.....	-670,000
Guadalupe Mountains NP (trail system).....	-1,664,000
Paul Douglas Environmental Center, Indiana Dunes NL.....	-50,000
Slippage.....	-3,402,000
Jefferson National Expansion Memorial Arch-old courthouse	-2,266,000
Martin Van Buren NHS.....	-878,000
Perry's Memorial.....	-2,444,000
San Juan NHS-protective breakwater	-5,500,000
Total.....	20,050,000

The managers agree that planning for the Paul Douglas Environmental Center, the west access road, and the east unit transit terminal and information center projects at Indiana Dunes NL is to be done within available funds. The managers also agree that the Office of Construction Management should provide the Committees with a plan to assist the Service in management of the Service Construction program.

Amendment No. 27: Restores House language stricken by the Senate which includes administrative expenses in the land acquisition and State assistance account.

Amendment No. 28: Appropriates \$107,773,000 for land acquisition and state assistance instead of \$100,468,000 as proposed by the House and \$176,108,000 as proposed by the Senate. The net increase over the amount proposed by the House consists of the following: increases of \$6,150,000 for Big Cypress NP, FL, \$2,200,000 to Buffalo NR, AR, \$14,500,000 to Chattahoochee NRA, GA, \$1,000,000 to Lower St. Croix NSR, MN and WI, \$2,000,000 for New River Gorge NR, WV, \$500,000 to St. Croix NSR, MN and WI, and \$3,550,000 to Virgin Islands NP, VI; and decreases of \$2,200,000 to Appalachian Trail, \$3,000,000 for Biscayne NP, FL, \$5,395,000 for Santa Monica Mountains NRA, CA, \$2,000,000 to War in the Pacific NP, Guam, \$4,000,000 to deficiencies, \$4,000,000 to inholdings, and \$2,000,000 to Pinelands National Reserve, NJ.

Amendment No. 29: Deletes Senate language specifying that \$100,000,000 of the appropriation is available for payments to the

States and that an additional \$2,282,000 shall be available for administrative expenses related to payments to the States. No funds are provided for payments to the States and administrative expenses of \$4,564,000 are included to administer the existing State program.

Amendment No. 30: Deletes House language that would have established a separate account for administrative expenses of the National Park Service.

Amendment No. 31: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which prohibits the use of any National Park Service appropriations to phase out livestock grazing within Capital Reef NP, UT. The managers agree that the appropriate legislative committee should examine the situation and propose a permanent legislative solution.

GEOLOGICAL SURVEY

Amendment No. 32: Appropriates \$515,151,000 for surveys, investigations, and research instead of \$535,561,000 as proposed by the House and \$508,703,000 as proposed by the Senate. The increase over the amount proposed by the Senate consists of \$2,000,000 for volcano hazards, \$1,000,000 for world energy assessments, \$2,300,000 for regional aquifer system analysis, \$1,000,000 for improved instrumentation in the federal water program, and \$148,000 to non-energy mineral programs on Federal and Indian lands.

Although small reductions have been made in activity related to regulation and inspection of energy leases on Federal and Indian lands the managers agree that the provision of sufficient inspectors and the upgrading of royalty accounting systems involved in energy leasing to inhibit fraud and theft should be the Department's highest priorities and should not be affected by the reductions.

The managers expect the \$2 million provided above the Senate amount for the volcano hazards program will be used to monitor volcanos in the Cascades range other than Mount St. Helens.

The managers agree that no office within the Survey should sustain a disproportionate reduction as part of the agreed to \$7,216,000 general reduction in the agency.

The managers expect the Geological Survey to use \$3,000,000 for the acquisition and use of side looking airborne radar to collect data from areas considered of highest priority by the Survey, to be derived from funds contained in the fiscal year 1982 appropriation. The Survey is expected to move expeditiously to initiate this program, and to keep the Committees informed of the status of the program; including which of two commercially available technologies is used to collect data in each project initiated by the Survey, in what area such data will be collected, and the programs from which funds will be derived.

Amendment No. 33: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment providing that \$44,727,000 shall be available only for cooperation with States or municipalities for water resources investigations instead of \$45,596,000 as proposed by the House and \$46,946,000 as proposed by the Senate. The managers on the part of the Senate

will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 34: Appropriates \$2,288,000 for exploration of National Petroleum Reserve in Alaska as proposed by the Senate instead of \$2,600,000 as proposed by the House. The reduction of \$312,000 will be absorbed by unanticipated unobligated funds now available.

BUREAU OF MINES

Amendment No. 35: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment providing \$151,964,000 for mines and minerals instead of \$143,460,000 as proposed by the House and \$151,539,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The change from the amount proposed by the House is as follows: reductions of \$300,000 for mineral health and safety technology and \$900,000 from the \$1,400,000 provided by the House for a demonstration reclamation project in the Tri-State district of Kansas, Missouri, and Oklahoma; and increases of \$9,629,000 for the mineral institutes program and \$75,000 for public affairs.

The managers agree that within available funds \$336,000 is available for the Bureau of Mines to perform engineering and design work for a new facility at Bruceton, Pa.

The managers agree that the Department should undertake to reduce the number of mineral research institutes, and expect the Department to submit a comprehensive plan for institute consolidation no later than February 15, 1982. The managers expect that the program will be reduced in fiscal year 1983.

Amendment No. 36: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *of which \$9,629,000 shall be available to carry out the provisions of title III of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1221), and*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Within the amount made available from the Abandoned Mine Reclamation Fund, \$850,000 will be available for the Centralia, PA, fire.

Amendment No. 37: Provides that \$108,161,000 for mines and minerals shall remain available until expended instead of \$109,361,000 as proposed by the House and \$107,661,000 as proposed by the Senate. The increase over the Senate amount to remain available is \$500,000 for minerals environmental technology. The \$500,000 is for a demonstration reclamation project in the Tri-State district of Kansas, Missouri, and Oklahoma.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

Amendment No. 38: Appropriates \$60,953,000 for regulation and technology instead of \$66,033,000 as proposed by the House and

\$60,838,000 as proposed by the Senate. The increase over the amount proposed by the Senate restores \$115,000 of the reduction of \$230,000 from the state and Federal programs.

Amendment No. 39: Appropriates \$106,335,000 for the Abandoned Mine Reclamation Fund instead of \$115,227,000 as proposed by the House and \$105,335,000 as proposed by the Senate. The increase over the amount provided by the Senate is \$1,000,000 for the Rural Abandoned Mine Program. The managers agree that \$16,000,000 shall be transferred to the Bureau of Mines. Of this amount, \$850,000 is to be used for exploratory drilling and related work in Centralia, PA. The managers expect the Bureau of Mines and the Office of Surface Mining to give top priority to the lives and property of Centralia residents. The managers expect the Department to develop a workable plan to implement this directive and report back to the House and Senate Appropriations Committees on the proposed implementation of this plan within 30 days after enactment of this bill.

The managers agree that the Department should formulate a comprehensive plan to provide for the most effective system for delivery of abandoned mine reclamation services. The Department should report back to the House and Senate Committees on Appropriations no later than February 15, 1982.

Amendment No. 40: Deletes House language as proposed by the Senate. The managers are in agreement that funds appropriated to the Office of Surface Mining Reclamation and Enforcement may be used for administrative expenses for a program that includes the reorganization of its field organization. The managers agree further, however, that any reorganization plan shall not include the transfer of the OSM Western Technical Center at Denver, Colorado.

BUREAU OF INDIAN AFFAIRS

Amendment No. 41: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert the following: \$835,646,000, of which not to exceed \$4,000,000 shall be available for grants to the Navajo Community College, pursuant to 25 U.S.C. 640c-1, as amended, and

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The amendment appropriates \$835,646,000 instead of \$797,395,000 as proposed by the House and \$814,742,581 as proposed by the Senate.

The net increase over the amount proposed by the Senate consists of the following: increases of \$1,754,000 for Indian school equalization formula, \$348,000 for the Institute of American Indian Arts, \$998,619 for grants to new tribally-controlled community colleges, \$2,700,000 for housing, \$1,126,000 for the Office of Technical Assistance and Training, \$650,000 for road maintenance, \$3,450,000 for ADP procurement, \$3,500,000 for facilities management, \$4,545,000 for management and administration, and \$10,000,000 increase resulting from a reduction to the Indian moneys, proceeds of labor (IMPL) offset; and decreases of \$300,000 to Public Law 93-638 commitments, \$972,000 for Navajo Community College, \$2,000,000

for social services, \$138,000 for law enforcement, \$4,257,000 for employment assistance, \$500,000 for irrigation and power, and \$1,200 for rounding-off IMPL transfer amounts.

The managers are in agreement that the Indian school equalization formula includes a transfer of \$754,000 formerly budgeted under P.L. 93-638 commitments and \$1,000,000 budgeted under program management for P.L. 93-638 contracts. In the future, no P.L. 93-638 contract funds should be budgeted under school operations. The managers further agree that the amount provided for the Indian school equalization formula, \$158,466,000, will provide a base student value of approximately \$2,070, based on current estimates of student enrollment, and that no special programs, as enumerated in the FY 1982 January budget submission, are to be deleted. The managers further agree that the Bureau must complete work on its proposed educational standards, so that an adequate base for school funding can be determined in the future.

The managers agree that the reduction of \$2,900,000 in the Johnson-O'Malley program is to remove tribally-controlled contract schools from the program. The managers note that these schools are funded under the Indian school equalization formula, and are also eligible to receive grants under the Department of Education's Indian Education program.

The managers are in agreement on a limitation of \$4,000,000 for the Navajo Community College. The Bureau should take all necessary action, including initiating a periodic disbursement system, to ensure the College does not exceed this level of expenditure. The managers also agree that the \$4,000,000 increase in the social services program is to provide for general assistance payments for Alaska natives for a six-month period. This will allow time for the Alaska State legislature to appropriate state funds to provide these payments from that time on. If the Bureau finds that \$4,000,000 is not sufficient to provide the level of payments to eligible Alaska natives during this six-month period as required based on need, the managers agree that such payments may be made from the remainder of the Bureau's social services program until state funds become available, but not beyond April 1, 1982.

The managers are in agreement that the funds formerly budgeted under the Indian Action program, including the increases of \$4,600,000 to housing, \$4,450,000 to employment assistance, \$750,000 to road maintenance, \$1,400,000 to business enterprise development, \$500,000 to agriculture, \$323,000 to water resources, and \$300,000 to wildlife and parks, should be available in FY 1982 at the same location at which the Indian Action money would have been spent. In particular, the Sandia Pueblo, Coshatta tribe, and Fort Hall reservation should receive the same level of support as they received in fiscal year 1981. The Bureau should develop clear guidelines for the use of these funds, in line with the recent Inspector General's report, and in future years, should evaluate these programs for adherence to the guidelines for program effectiveness before renegotiating contracts with the same tribes. The additional \$2,700,000 provided for housing shall be used for priority projects under existing HIP guidelines.

The managers agree that within the funds provided for law enforcement, an additional \$70,000 is to be available to establish a

substation at Dunseith, North Dakota, and to improve law enforcement activities on the Standing Rock reservation.

The managers are in agreement that a total of \$57,705,000 is included for General Administration, including reductions of \$60,000 from the Office of Public Affairs, \$1,550,000 from general management, \$257,000 from the Office of the Commissioner, and \$4,000,000 from facilities management; and increases of \$2,853,000 formerly budgeted under the Construction appropriation, and \$1,692,000 formerly budgeted under the Road Construction appropriation. The managers also agree that General Administration should be treated as a separate budget activity and should be fully justified in the FY 1983 budget submission, including a full explanation of any proposed changes and also including funds budgeted for administration of education programs.

The managers direct that as part of the fiscal year 1983 budget submission, all non-essential activities currently conducted by the Office of Technical Assistance and Training be identified as areas of possible savings for future years.

The managers are in agreement that the Bureau may conduct a pilot project in each of the areas to determine the impact of the proposed consolidated grant program. Such a pilot grant program shall be implemented only with the concurrence of the affected tribe.

Amendment No. 42: Provides \$57,349,000 for higher education scholarships and assistance to public schools as proposed by the Senate instead of \$60,249,000 as proposed by the House.

Amendment No. 43: Inserts codification of the Act cited by the House, as proposed by the Senate.

Amendment No. 44: Adds a reference to the sections following 25 U.S.C. 450, as proposed by the Senate.

Amendment No. 45: Inserts codification of the public law cited by the House, as proposed by the Senate.

Amendment No. 46: Adds a reference to a previously cited Act, as proposed by the Senate.

Amendment No. 47: Deletes a statutory citation, as proposed by the Senate.

Amendment No. 48: Appropriates \$97,529,000 for construction instead of \$112,619,000 as proposed by the House and \$79,282,000 as proposed by the Senate. The net increase above the amount proposed by the Senate consists of the following: increases of \$200,000 for the Rosebud Sioux law enforcement facility, \$18,500,000 for the Ak Chin irrigation project, \$1,400,000 for other irrigation projects and \$1,000,000 for irrigation construction, engineering and supervision; and a decrease of \$2,853,000 for construction program management, transferred to the Operation of Indian programs appropriation.

The managers are in agreement that funds for the Black Mesa Day School cannot be provided until submission of the Navajo Day School Study by the Bureau, so that the proper size of the school can be determined. If this issue is resolved in a timely fashion, the managers agree that a request for supplemental funding in fiscal year 1982 will be carefully considered.

The managers are in agreement that a supplemental request for the Ak Chin irrigation project will also be carefully considered, if the project managers are able to maintain the original construction

schedule and additional funds in fiscal year 1982 are required to meet the January 1984 deadline for first water delivery.

The managers are concerned with the current method of funding for Indian irrigation projects. Beginning with the fiscal year 1983 budget submission, the Bureau is directed to submit a legislative package to the appropriate authorizing committees for any irrigation construction projects for which initial funding is being requested. A complete justification of the funding required for the projects should also be submitted to the Appropriations Committees as part of the budget submission. No funds will be provided for any projects for which an authorization request has not been submitted to the Congress, in time to allow appropriate consideration by the Committees involved.

Amendment No. 49: Inserts the name and statutory citation of 25 U.S.C. 13, as proposed by the Senate.

Amendment No. 50: Inserts parentheses and comma after Code reference cited by the House, as proposed by the Senate.

Amendment No. 51: Inserts a reference to the Act of May 26, 1928, as proposed by the Senate.

Amendment No. 52: Inserts parentheses and comma after Code reference, as proposed by the Senate.

Amendment No. 53: Appropriates \$49,125,000 for road construction instead of \$48,800,000 as proposed by the House and \$50,816,810 as proposed by the Senate. The increase over the amount proposed by the House is \$325,000 transferred from the Indian moneys, proceeds of labor (IMPL) fund.

The managers agree that the amount appropriated does not include \$1,300,000 for the Manila Creek Road on the Colville Indian Reservation, since the road is not the tribe's highest priority.

Amendment No. 54: Deletes separate General Administration appropriation proposed by the House.

Amendment No. 55: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *Provided further, That (except in the case of funds held in trust for Indian tribes or individuals) the funds available for expenditure under the "Indian moneys, proceeds of labor" accounts authorized by the Act of May 17, 1926 (Chap. 309, 44 Stat. 560; 25 U.S.C. 155); the Act of March 3, 1883 (22 Stat. 582) in the fifth paragraph under the heading "INDIAN AFFAIRS" (22 Stat. 590; 25 U.S.C. 155); and the Act of March 2, 1887 (24 Stat. 449) in the first paragraph under the heading "MISCELLANEOUS" (24 Stat. 463; 25 U.S.C. 155) may be expended until September 30, 1982, for any purpose for which funds are appropriated under the subheading "Operation of Indian Programs". On September 30, 1982, the balance of such accounts (except for the funds held in trust for Indian tribes or individuals, and not to exceed \$10,000,000 which shall be available until expended by eligible tribes for purposes approved by the Bureau of Indian Affairs) shall be deposited into miscellaneous receipts of the Treasury to offset outlays of the Bureau of Indian Affairs and thereafter no funds shall be deposited in such accounts other than funds held in trust for Indian tribes or individuals*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The managers are in agreement that the amounts remaining in the Indian moneys, proceeds of labor (IMPL) funds, which are for the use of Indian tribes at the locations where deposited, shall remain available until expended. This will allow the tribes at each location where such funds exist to submit proposals to the BIA for use of the funds, and for BIA to make such funds available when the proposals are approved.

The managers do not intend that any funds in the IMPL account representing special deposits on sales of assets (i.e., timber, mining leases, etc.) belonging to the tribes, shall be affected by this provision. The Bureau should take extra care to identify and protect such funds.

Amendment No. 56: Restores House language which continues restrictions on academic and residential programs at the Chilocco, Seneca, and Fort Sill boarding schools, Oklahoma, and Stewart boarding school, Nevada.

The managers agree that excess space at currently operating facilities, such as the Southwestern Indian Polytechnic Institute or Haskell Indian Junior College, may be utilized for residential or non-residential adult vocational programs.

TERRITORIAL AFFAIRS

Amendment No. 57: Appropriates \$89,679,000 for administration of territories instead of \$92,571,000 as proposed by the House and \$87,869,000 as proposed by the Senate. The net increase over the amount proposed by the Senate consists of the following: increases of \$135,000 for rehabilitation of the Guam crime lab, \$270,000 for the Guam parks and recreation buildings, \$180,000 for 4 replacement school buses for American Samoa, \$1,500,000 for power generation equipment and repair for American Samoa, \$1,000,000 for Virgin Islands hospital construction, and \$225,000 for Northern Marianas hospital architect and engineering work; and a decrease of \$1,500,000 for the Guam container yard expansion.

The managers' actions continue a 10% cost share for all construction activities in Guam, American Samoa and the Northern Marianas.

Because an Economic Development Administration (EDA) grant of \$1,500,000 has been received by Guam for its container yard expansion, the managers agree to apply the funds, originally proposed by the Senate for the container yard, to the power needs of American Samoa.

Amendment No. 58: Provides that \$84,352,000 remain available until expended instead of \$87,444,000 as proposed by the House and \$82,542,000 as proposed by the Senate. The net increase over the amount proposed by the Senate consists of the following: increases of \$405,000 for Guam construction projects, \$180,000 for replacement school buses for American Samoa, \$1,500,000 for power generation equipment to American Samoa, \$1,000,000 for Virgin Islands hospital construction, and \$225,000 for Northern Marianas hospital architect and engineering work; and a decrease of \$1,500,000 to the Guam container yard expansion.

Amendment No. 59: Deletes House language specifying that funds for the Northern Mariana Islands Federal Laws Commission remain available until expended.

Amendment No. 60: Provides \$5,327,000 for expenses of various organizations in administration of territories as proposed by the Senate instead of \$5,127,000 as proposed by the House. The additional \$200,000 is for the Northern Mariana Islands Federal Laws Commission. These funds are identified as annual funds rather than no-year funds as was the case in the House-passed bill.

Amendment No. 61: Identifies the Northern Mariana Islands Federal Laws Commission among the organizations receiving annual funds as proposed by the Senate.

Amendment No. 62: Appropriates \$79,330,000 for the Trust Territory of the Pacific Islands instead of \$78,830,000 as proposed by the House and \$79,561,000 as proposed by the Senate. The increase over the amount proposed by the House is \$500,000 for emergency public works construction projects in Palau.

The managers agree that funds for the College of Micronesia should be controlled by the Trust Territory Headquarters.

The managers also agree that the enhanced operations levels for Palau (\$468,000 over the budget), the Marshalls (\$468,000 over the budget) and the Federated States of Micronesia (\$2,342,000 over the budget) may be allocated by those entities to their highest priority areas.

OFFICE OF THE SOLICITOR

Amendment No. 63: Appropriates \$18,333,000 for salaries and expenses instead of \$17,000,000 as proposed by the House and \$19,667,000 as proposed by the Senate. The increase over the House level restores 22 staff years.

OFFICE OF THE SECRETARY

Amendment No. 64: Report in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment appropriating \$42,434,000 for departmental management instead of \$36,194,000 as proposed by the House and \$40,834,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The net increase over the amount proposed by the Senate consists of the following increase: \$300,000 for equal opportunity, \$1,400,000 for water policy, planning and coordination, and \$442,000 for program support of the Office of Water Policy; and decreases of \$58,000 for the executive secretariat, \$69,000 for congressional and legislative affairs, \$75,000 for field coordination, \$200,000 for public affairs, \$79,000 for administrative services, and \$61,000 for policy analysis.

Amendment No. 65: Provides \$5,000 for official reception and representation expenses as proposed by the Senate instead of \$2,500 as proposed by the House.

Amendment No. 66: Restores House language prohibiting the use of funds for development of four northern California off-shore basins in lease sale No. 53.

Amendment No. 67: Restores House language prohibiting changing the name of Mount McKinley to Mount Denali. The managers agree that this provision is for one year only.

Amendment No. 68: Deletes House language as proposed by the Senate. The managers expect to be informed of all details of a non-reimbursable nature currently made within the Department as well as all such details made in the future.

Amendment No. 69: Changes the section number to 111.

Amendment No. 70: Deletes House language relating to the Office of Aircraft Services as proposed by the Senate.

Amendment No. 71: Deletes House language relating to the Office of Aircraft Services as proposed by the Senate. The managers expect the Office of Aircraft Services to develop and maintain a program in the contiguous 48 states similar to that now conducted in the State of Alaska.

Amendment No. 72: Deletes language of the House relating to reorganizations not approved in an appropriations act as proposed by the Senate. The managers agree that the Committee's reprogramming guidelines, as stated in Senate Report 95-1063, and House Report 95-1251, are to be followed in proposed reorganizations. The managers agree that all agencies funded in this Act should review such guidelines and comply with them in the future.

Amendment No. 73: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows: In lieu of the matter proposed by said amendment, insert the following:

Sec. 112. Notwithstanding the provisions of section 6 of the Act of May 25, 1948 (62 Stat. 269, 273), appropriations of power revenues of the Flathead Irrigation Project on the Flathead Reservation, Montana, made pursuant to Section 3 of the Act of August 7, 1946 (60 Stat. 895) shall hereafter be available in an amount not exceeding 20 percent of the gross power revenues of said project for the preceding fiscal year, or \$750,000, whichever is greater, for improvements and extensions to the power system: Provided, That no appropriations shall be made in excess of the Flathead Irrigation power revenues on deposit with the Federal Government.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

TITLE II—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

Amendment No. 74: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment appropriating \$114,992,000 for forest research instead of \$109,722,000 as proposed by the House and \$103,168,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The increase over the amount proposed by the Senate consists of the following: \$10,590,000 for restoration of the base; \$634,000 for renewable resource evaluation; \$500,000 for

forest watershed management; and \$100,000 for forest recreation research.

Amendment No. 75: Appropriates \$66,315,000 for State and private forestry instead of \$68,715,000 as proposed by the House and \$63,935,000 as proposed by the Senate. The increase above the amount proposed by the Senate consists of the following: increases of \$1,800,000 for urban forestry assistance and \$580,000 for the Gifford Pinchot Institute.

Amendment No. 76: Provides that \$60,860,000 shall remain available for obligation until September 30, 1983, instead of \$63,260,000 as proposed by the House and \$59,060,000 as proposed by the Senate.

Amendment No. 77: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *including administrative expenses associated with the management of funds provided under the heads "Forest Research", "State and Private Forestry", "National Forest System", and "Construction and Land Acquisition", and up to \$3,000,000 but not less than \$1,000,000 for high priority projects within the scope of the approved budget which shall be carried out by Youth Conservation Corps as if authorized by the Act of August 13, 1970, as amended by Public Law 93-408,*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The managers recognize the importance of the Youth Conservation Corps and accordingly provide up to \$3,000,000 but not less than \$1,000,000 within available funds to maintain a program. The Forest Service is encouraged to use the maximum amount made available.

The managers agree that the Forest Service should review the House and Senate Appropriations Committee reprogramming guidelines, as stated in House Report 95-1251 and Senate Report 95-1063, and comply with them in the future.

Amendment No. 78: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment appropriating \$1,007,074,000 for national forest system instead of \$769,093,000 as proposed by the House and \$996,410,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The increase above the amount proposed by the Senate consists of the following: \$4,000,000 for forest fire protection; \$1,000,000 for trail maintenance; \$1,000,000 for reforestation and stand improvement; \$3,664,000 for recreation management; and \$1,000,000 for soil and water management.

The managers are in agreement that the amount provided includes \$248,572,000 for general administration, which includes the administrative expenses for all of the Forest Service appropriation accounts. The managers also agree that General Administration should be treated as a separate budget activity, and should be fully justified in the FY 1983 budget submission, including a full explanation of any proposed changes.

Amendment No. 79: Provides that \$223,278,000 shall remain available for obligation until September 30, 1983, instead of \$226,278,000 as proposed by the House and \$221,278,000 as proposed by the Senate.

Amendment No. 80: Deletes language proposed by the Senate that would have transferred funds for air-tanker services contracts from the forest fire protection budget activity to the fighting forest fires budget activity.

The managers agree that the Forest Service should provide more information as to the amount budgeted each year for contracts for air-tanker services. The Forest Service is directed to identify and justify this amount within the forest fire protection line in the fiscal year 1983 budget justification.

Amendment No. 81: Appropriates \$265,101,000 for Construction and Land Acquisition as proposed by the Senate instead of \$509,743,000 as proposed by the House. The managers agree that the reduction in recreation construction proposed by the Senate is to be taken from the lowest priority projects. Within the amount provided, \$100,000 is for recreation and road construction on the Mount Magazine Recreation Area in the Ozark NF and \$85,000 is to renovate the old Bickle fire tower in the Monongahela NF.

Amendment No. 82: Provides \$20,693,000 for construction and acquisition of buildings and other facilities from the Construction and Land Acquisition account as proposed by the Senate instead of \$22,793,000 as proposed by the House.

Amendment No. 83: Provides \$244,408,000 for construction of forest roads and trails by the Forest Service as proposed by the Senate instead of \$486,950,000 as proposed by the House.

Amendment No. 84: Deletes House language referring to construction and maintenance of forest roads by timber purchasers as proposed by the Senate.

Amendment No. 85: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides that \$1,485,000 be available for construction of the Bald Mountain Road in the Siskiyou National Forest.

The managers understand that this matter is currently under appeal, and agree that these funds will not be expended if, at the completion of the administrative appeals process, the appeal is sustained.

Amendment No. 86: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

: Provided further, That section 9 of the Forest and Rangeland Renewable Resources Planning Act of 1974 (Public Law 93-378 as amended), is amended by deleting all of the sentence after the word "benefits" and inserting in lieu thereof, the following:

"Provided, That limitations on the level of obligations for construction of forest roads by timber purchasers shall be established in annual appropriation acts"

: Provided further, That no more than \$242,542,000 shall be obligated for the construction of forest roads by timber purchasers

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The amendment of the Senate deletes the portion of section 9 of the Forest and Rangeland Renewable Resources Planning Act of 1974, as amended, requiring funds used by timber purchasers for road construction be counted in budget totals. The amendment also provides a limitation of \$242,542,000 on obligations for the construction of forest roads by timber purchasers. Limitations on obligations will also be included in future appropriation acts.

Amendment No. 87: Restores House language stricken by the Senate providing for administrative expenses in the Land Acquisition account.

Amendment No. 88: Appropriates \$27,356,000 for Land Acquisition instead of \$35,989,000 as proposed by the House and \$15,120,000 as proposed by the Senate. The net increase over the amount proposed by the Senate consists of the following: increases of \$3,989,000 for acquisition management; \$7,000,000 for the Lake Tahoe Basin; \$2,000 for Nicolet NF; \$500,000 for other high priority National Recreation Areas; \$500,000 for other high priority Wild and Scenic Rivers; \$1,570,000 for other high priority recreation composites; and decreases of \$200,000 for the Boundary Water Canoe Area; \$25,000 for the California Condor Habitat; \$1,000,000 for Eleven Point WSR; and \$100,000 for deficiencies and inholdings. The funds provided for the Middle Fork of the Salmon are for acquisition of easements only.

Amendment No. 89: Deletes Youth Conservation Corps account as proposed by the Senate. Up to \$3,000,000 is to be made available by the Fish and Wildlife Service, National Park Service and the Forest Service to continue a minimal program.

Amendment No. 90: Deletes separate General Administration account proposed by the House.

Amendment No. 91: Deletes Lake Tahoe Acquisition account which had been added by the Senate. Funds for this project are provided in the Land Acquisition account of the Forest Service.

Amendment No. 92: Appropriates \$7,500,000 for Rangeland improvements as proposed by the Senate instead of \$6,500,000 as proposed by the House.

DEPARTMENT OF ENERGY

Amendment No. 93: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides that the Great Plains Gasification Project remain under the jurisdiction of the Department of Energy and not be transferred to the Synthetic Fuels Corporation.

Funds for administering the project are available from unobligated balances in the alternative fuels production account.

Amendment No. 94: Deletes House language "(Including transfer of funds)" from the account title for fossil energy research and development.

Amendment No. 95: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert the following: *sections 302. (b), 302. (c), and 303. (c) of which are hereby repealed, \$431,100,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The amendment returns certain functions related to the leasing of Federal lands to the Department of the Interior.

The amendment also appropriates \$431,100,000 for fossil energy research and development instead of \$463,750,000 as proposed by the House and \$408,490,000 as proposed by the Senate. The net increase over the amount proposed by the Senate consists of the following: increases of \$3,000,000 for H-coal; \$7,860,000 for the BIGAS facility; \$2,000,000 for low BTU gasification projects; \$4,000,000 for pilot scale peat gasification at the HYGAS plant; \$9,000,000 for the Grimethorpe pressurized fluidized bed test facility; \$1,000,000 for western tight gas sands research and development; and \$2,000,000 for an anthracite fluidized bed facility in Wilkes-Barre, Pa.; and decreases of \$1,550,000 for the molten salt gasifier; \$2,000,000 for advanced research and supporting technology in materials and components; and \$2,700,000 for Geokinetics oil shale.

The managers expect the SRC-II pilot plant to be dismantled and decommissioned in an orderly manner and, if funds provided from the canceled SRC-II demonstration facility are not sufficient, to request additional funds for that purpose.

Additional funds are being provided for the H-coal program to encourage the Department and the facility contractors to jointly pursue the further operation of the facility with minimal Government funding. The managers agree that this is not a commitment to substantial future Government funding. Any new agreements on facility operation will be considered when they are completed and presented to Congress.

The managers expect that the \$2,000,000 reduction in indirect liquefaction will not be applied only to industrial projects but will also be applied to lower priority projects in the technology base activity conducted at Department of Energy facilities and laboratories.

The managers agree that within the amounts provided for low Btu gasification \$8,000,000 is for the Waltz Mill, Pa., project and the reduction will be applied to other projects in this activity.

The managers agree that a total of \$9,300,000 shall be available for research and development of atmospheric fluidized bed technology and that of this amount, \$2,100,000 is intended to initiate a program of research in advanced fluidized bed concepts. The advanced concepts program should comprehensively consider solicitation of new ideas from industry and other sources, design and construction of a fluidized bed combustion research facility if necessary, and bench scale testing of advanced concepts. The Department should begin the solicitation of proposals this fall and report back to the Committees on Appropriations of the House and Senate with an evaluation of the advanced concept proposals in time for the Committees to review it and consider additional appropriations for the programs in fiscal year 1983.

The reduction in budget authority for Pressurized Fluidized Bed (PFB) activity results from the allocation of \$10,500,000 of unobligated funds from the Component Test and Integration Unit (CTIU)

project to PFB activity. The managers agree that the International Energy Agency facility at Grimethorpe, England and the Curtiss-Wright pilot plant in New Jersey should continue at the levels included in the House-passed bill.

The managers agree with the Senate proposal to make \$1,000,000 available from mining R&D funds for operation at DOE's current Carbondale Mining Technology Center by Southern Illinois University.

In addition to the \$2,000,000 in new budget authority being provided, the managers agree that unobligated funds remaining from the CTIU project after transfer of \$10,500,000 to PFB projects (up to \$1,100,000) should be applied to the anthracite fluidized bed facility in Wilkes-Barre, Pa.

The managers expect the Department to retain the Office of Anthracite Coal as part of its overall fossil energy program, within available funds. The managers further expect the Department to report to the House and Senate Appropriations Committees within 90 days of the enactment of this Act on how they will implement anthracite programs.

Amendment No. 96: Deletes House language providing that \$400,000 for fossil energy research and development be derived from "Energy production, demonstration, and distribution", Department of Energy.

Amendment No. 97: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

FOSSIL ENERGY CONSTRUCTION

For necessary expenses in connection with the purchase and construction of fossil energy plants, including the acquisition of interests, including defeasible and equitable interests in any real property or any facility or for plant or facility acquisition or expansion, \$4,000,000, to remain available until expended: Provided, That funds deferred under this head in the Supplemental Appropriations and Rescission Act, 1981 (Public Law 97-12) and further deferred (D82-9) in the special message transmitted by the President to the Congress on October 1, 1981 under section 1013 of the Impoundment Control Act of 1974 (Public Law 93-344), shall be used for continuing design of the Solvent Refined Coal-I (SRC-I) demonstration facility (Project No. 78-2-d) and that deferral (D82-9) is hereby disapproved.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The amendment appropriates \$4,000,000 for fossil energy construction as proposed by the Senate. The amendment also disapproves the deferral of \$135,000,000 for the Solvent Refined Coal-I (SRC-I) demonstration facility.

The managers agree that the \$135,000,000 for SRC-I may be used to pay all expenses of the project except for normal operation of the Wilsonville, Alabama, pilot plant whether or not they are considered "operating expenses" or "construction expenses" according to Department of Energy accounting procedures.

The managers also agree that costs of dismantling and decommissioning the SRC-II pilot plant in Ft. Lewis, Washington, may be paid out of fund balances from the SRC-II demonstration plant not otherwise allocated.

Amendment No. 98: Appropriates \$222,023,000 for Naval petroleum and oil shale reserves as proposed by the House instead of \$222,463,000 as proposed by the Senate.

Amendment No. 99: Appropriates \$161,490,000 for energy conservation instead of \$203,890,000 as proposed by the House and \$130,340,000 as proposed by the Senate. The net decrease under the amount proposed by the House consists of the following: increases of \$3,500,000 for residential conservation service; \$1,000,000 for stirring engine research and development; \$25,000,000 for energy policy and conservation grants to States; and decreases of \$855,000 in building energy systems R&D; \$5,000,000 for BEPS demonstrations and residential/commercial retrofit; \$1,000,000 for analysis and technology transfer; \$1,100,000 for appliance standards; \$1,000,000 for buildings and community systems program direction; \$250,000 for industrial program direction; \$900,000 for vehicle systems; \$1,000,000 for alternative fuels utilization; \$100,000 for transportation program direction; \$5,000,000 for energy extension service; \$50,000,000 for schools and hospitals grants; \$465,000 for State and local program direction; \$830,000 for energy conversion and utilization technology; \$4,000,000 from the effect of increased transfer of SRC-II funds; and \$400,000 from the effect of increased transfer of energy production, demonstration, and distribution funds.

Deferred funds allocated by the Senate for residential conservation service are reduced by \$3,500,000 to \$3,500,000 and deferred funds for low-income weatherization are increased by \$3,500,000 to \$97,500,000. All other deferral allocations remain the same as in the Senate proposal.

The managers agree that the \$5,850,000 provided over the Senate amount for buildings systems is to be used for the development of voluntary energy performance guidelines for new residential and commercial buildings and for building energy sciences research and development.

The managers agree that the \$16,900,000 allowed for gas turbine engine development may be used for two major contractors if increased industrial cost-sharing allows this to be done on the same schedule and at the same approximate cost as one contractor would require based on current projections.

The managers also agree that \$1,000,000 are provided within amounts for low-income weatherization for the ACTION community energy project.

The managers agree that funds for urban waste should be used to phase out current contracts and that the Department should re-evaluate this program and reconstitute it into a more effective research and development program in future years.

Amendment No. 100: Provides that \$172,608,000 for energy conservation be derived from "Fossil energy construction", Department of Energy, as proposed by the Senate instead of \$168,608,000 as proposed by the House. The additional \$4,000,000 would be derived from unobligated balances previously appropriated from the Solvent Refined Coal II (SRC-II) project which has been cancelled.

Amendment No. 101: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate transferring \$400,000 from "Energy production, demonstration, and distribution", Department of Energy, to the energy conservation account.

Amendment No. 102: Provides that indebtedness guaranteed or committed to be guaranteed under section 10 of the Electric and Hybrid Vehicle Research, Development and Demonstration Act of 1976 shall not exceed \$16,000,000 as proposed by the Senate instead of \$21,500,000 as proposed by the House.

Amendment No. 103: Appropriates \$23,900,000 for Economic Regulation instead of \$32,000,000 as proposed by the House and \$17,100,000 as proposed by the Senate. The increase in new appropriations of \$6,800,000 over the Senate amount is for the compliance program.

The managers agree that the total fiscal year 1982 program for compliance is \$35,000,000. In addition to the \$6,800,000 appropriated in this bill, \$28,200,000 of the amount deferred in the Supplemental Appropriations and Rescission Act, 1981 (Public Law 97-12) shall also be available for the compliance program. The Office of Special Council is to receive \$22,500,000 and the Office of Enforcement \$12,500,000.

The managers agree that the balance of the \$38,200,000 deferred in Public Law 97-12 for Economic Regulation is to provide \$5,000,000 for the Federal coal conversion program and \$5,000,000 to make pay adjustments resulting from personnel changes.

The managers agree that the \$5,000,000 for the coal conversion program is for the completion of outstanding prohibition orders and for the processing of prohibition orders for additional plants for which utilities submit the necessary certification under section 301 of the Powerplant and Industrial Fuel Use Act. The program is to be maintained at no less than current staff levels along with funds for outside contractors necessary to help in expeditiously processing new prohibition orders. The managers agree that it is important to retain experienced personnel whose valuable expertise is crucial to the effectiveness of the program.

Amendment No. 104: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *: Provided further, That of the funds deferred under this head in the Supplemental Appropriations and Rescission Act, 1981 (Public Law 97-12), \$5,000,000 shall be available for the Federal coal conversion program, of which \$4,500,000 shall be available only for expenses in issuing prohibition orders under the Powerplant and Industrial Fuel Use Act and other related laws*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 105: Appropriates \$199,408,000 for the Strategic Petroleum Reserve as proposed by the Senate instead of \$3,383,408,000 as proposed by the House. The amendment removes funds for petroleum acquisition and transportation from this account. The action of the conferees on amendment No. 106 provides petroleum acquisition and transportation funds in an off-budget ac-

count in accordance with the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35).

Amendment No. 106: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

SPR Petroleum Account

The aggregate amount that may be obligated under section 167 of the Energy Policy and Conservation Act of 1975 (Public Law 94-163), as amended by the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35), for the acquisition and transportation of petroleum, and for other necessary expenses, is \$3,684,000,000, to remain available until expended.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This amendment provides \$3,684,000,000 for petroleum acquisition and transportation for the Strategic Petroleum Reserve in an off-budget account as proposed by the Senate instead of \$3,184,000,000 in an on-budget account as proposed by the House. Approximately 85 million barrels of oil can be purchased with the agreed to amount.

Amendment No. 107: Appropriates \$82,207,000 for the Energy Information Administration instead of \$84,986,000 as proposed by the House and \$79,851,000 as proposed by the Senate. The increase of \$2,356,000 over the amount proposed by the Senate provides for the continuation of the Financial Reporting System.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH SERVICES ADMINISTRATION

Amendment No. 108: Appropriates \$624,630,000 for Indian health services instead of \$629,484,000 as proposed by the House and \$606,905,000 as proposed by the Senate. The net decrease under the amount proposed by the House consists of the following: an increase of \$10,000,000, which reflects a reduction in the Medicare/Medicaid offset contained in the following amendment; and decreases of \$9,083,000 for community health representatives, \$1,290,000 for urban health projects, \$1,317,000 for Indian health manpower, \$1,164,000 for program management, and \$2,000,000 for the equity health care fund.

The managers are in agreement that the Indian Health Service should conduct a program evaluation of all existing alcoholism projects in order to redirect funds to those projects of greatest merit. The managers also agree that those tribes receiving equity funding be allowed to use such funding only for the purposes of improving the deficient programs which led to their being qualified to receive such funds. The Indian Health Service is further directed to submit a comprehensive report no later than February 1, 1982 detailing the methodologies used and the impact of redistributing base funds to support the equity program, including both the \$2,000,000 reduction to the equity fund, and the reallocation of the entire base program, as requested in the House report.

The managers agree that the total of \$6,000,000 provided for the Indian health manpower program includes funds to continue the four Masters in Public Health programs, as well as an increase of \$200,000 for the INMED program proposed by the Senate.

The managers further agree that contracts for all urban Indian health projects should be negotiated for six months only while all Phase II and III projects are evaluated. Any projects that are not found to be in compliance with the program regulations should be terminated, and the funds redirected to other urban projects.

The managers agree that the reduction in the Community Health Representatives program should be directed at those areas which have higher concentrations of health personnel in clinics or hospitals; or programs which have been evaluated and found to be less effective or not in compliance with program regulations. The Indian Health Service is directed to report to the Appropriations Committees the proportions of reduction which represent generalists and the proportion representing specialists.

Amendment No. 109: Provides that \$5,000,000 of the amounts collected under the authority of title IV of the Indian Health Care Improvement Act shall be used to offset appropriations for Indian Health Services as proposed by the Senate instead of \$15,000,000 as proposed by the House.

Amendment No. 110: Deletes language proposed by the Senate which would have provided leasing authority with respect to housing to be constructed at Chinle, Arizona, and Inscription House, Arizona.

Amendment No. 111: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: : *Provided further, That funding contained herein, and in any earlier appropriations Act, for scholarship programs under section 103 of the Indian Health Care Improvement Act and section 757 of the Public Health Service Act shall remain available for expenditure until September 30, 1983*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 112: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment appropriating \$49,117,000 for Indian Health facilities instead of \$46,739,000 as proposed by the House and \$46,617,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The increase above the amount proposed by the Senate is \$2,500,000 for sanitation facilities.

Amendment No. 113: Deletes proposed Senate language with regard to the Talihina Hospital and the Zuni-Ramah Health Service Unit.

Amendment No. 114: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides that employment funded by this Act shall not be subject to any person-

nel ceilings or other personnel restriction for permanent or other than permanent employment.

DEPARTMENT OF EDUCATION

Amendment No. 115: Provides \$57,250,000 for Part A of the Indian Education Act as proposed by the Senate instead of \$58,250,000 as proposed by the House.

Amendment No. 116: Appropriates \$81,096,000 for Indian education as proposed by the Senate instead of \$82,096,000 as proposed by the House.

Amendment No. 117: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur to the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: : *Provided, That no funds shall be obligated for expenses of the Office of the Director of Indian Education after March 1, 1982 until the Secretary of Education has submitted to the Congress his report and recommendations on the study and analysis of the definition of the term "Indian" as required by section 453 of the Indian Education Act (86 Stat. 345), as amended (20 U.S.C. 1221h)*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

NAVAJO AND HOPI INDIAN RELOCATION COMMISSION

Amendment No. 118: Appropriates \$10,481,000 for salaries and expenses instead of \$15,051,000 as proposed by the House and \$4,981,000 as proposed by the Senate. The increase above the amount proposed by the Senate consists of \$500,000 for the discretionary fund and \$5,000,000 for relocation operations.

The managers are in agreement that the Commission must revise its schedule of benefits to establish classes of benefits which will distinguish between those living on the Reservation who must relocate, and those who are living away from the Reservation. No relocation payments may be made to those classified as "temporarily away" from the Reservation until such classes of benefits have been instituted.

SMITHSONIAN INSTITUTION

Amendment No. 119: Appropriates \$133,823,000 for salaries and expenses instead of \$136,374,000 as proposed by the House and \$131,766,000 as proposed by the Senate. The net decrease below the House consists of an increase of \$36,000 for American and Folklife studies and the following reductions: Museum of Natural History—\$143,000 for the special exhibits gallery; \$64,000 for insect baseline studies, \$35,000 for research publications, \$300,000 for transfer of the National Systemics Laboratory; Tropical Research Institute—\$37,000 for research publications; \$50,000 for vehicle replacement; and \$54,000 for inflation; \$116,000 for Radiation Biology laboratory; \$185,000 for the Chesapeake Bay Center; \$400,000 for maintenance of the National Aquarium; \$174,000 for printing, supplies, and equipment of the National Museum of American History; \$75,000 for the National Museum of American Art; \$25,000 for the National Portrait Gallery; \$12,000 for restoration of a position at the Freer Gallery; \$42,000 for publications of the Museum of African

Art; \$143,000 for Smithsonian libraries; \$47,000 for the Traveling exhibition service; \$125,000 for major exhibitions; \$300,000 for the Native American program; and \$260,000 for administration.

The managers are concerned with the increased reliance of the Freer Gallery on Federal funding to support personnel costs and expect that no additional positions will be transferred from private to federal funding.

Amendment No. 120: Appropriates \$4,500,000 for Museum Programs and Related Research (special foreign currency program) as proposed by the House instead of \$5,250,000 as proposed by the Senate.

Amendment No. 121: Appropriates \$1,150,000 for Construction and Improvements, National Zoological Park as proposed by the House instead of \$1,650,000 as proposed by the Senate.

Amendment No. 122: Appropriates \$8,000,000 for restoration and renovation of buildings instead of \$8,500,000 as proposed by the House and \$7,000,000 as proposed by the Senate. The increase over the amount proposed by the Senate is to be used for necessary roof and structure work.

NATIONAL GALLERY OF ART

Amendment No. 123: Appropriates \$31,057,000 for salaries and expenses instead of \$31,777,000 as proposed by the House and \$30,067,000 as proposed by the Senate. The decrease under the amount proposed by the House consists of reductions of: \$165,000 for special exhibitions, \$75,000 for extension service, \$230,000 for supplies and materials, and \$250,000 for renovation of the West building.

The managers are concerned that the Gallery has used private funds to expand the scope of the West building renovation without adequate notification to the Appropriations Committees.

Amendment No. 124: Provides \$3,850,000 for repair, renovation, and restoration of the original West building instead of \$4,100,000 as proposed by the House and \$3,100,000 as proposed by the Senate.

Amendment No. 125: Appropriates \$1,950,000 for Salaries and Expenses, for the Woodrow Wilson International Center for Scholars instead of \$2,260,000 as proposed by the House, and \$1,903,000 as proposed by the Senate. The increase of \$47,000 over the amount proposed by the Senate provides for an increase of 4.8% in the fellowship stipends.

NATIONAL ENDOWMENT FOR THE ARTS

Amendment No. 126: Appropriates \$119,000,000 for salaries and expenses instead of \$125,000,000 as proposed by the House and \$89,300,000 as proposed by the Senate.

Amendment No. 127: Provides \$107,635,000 for program funds instead of \$113,635,000 as proposed by the House and \$79,035,000 as proposed by the Senate. The managers agree the funds should be allocated to programs as presented to the House Committee on Appropriations during hearings. This allocation was reviewed by and agreed to by the National Council on the Arts assuming a total appropriation of \$147,950,000.

Amendment No. 128: Provides \$11,365,000 for administrative expenses as proposed by the House instead of \$10,265,000 as proposed by the Senate.

Amendment No. 129: Appropriates \$30,000,000 for matching grants as proposed by the Senate instead of \$32,500,000 as proposed by the House. This provides \$15,000,000 for Treasury funds and \$15,000,000 for challenge grants. This too, reflects the review and approval of the National Council on the Arts.

NATIONAL FOUNDATION FOR THE HUMANITIES

Amendment No. 130: Appropriates \$106,000,000 for salaries and expenses instead of \$112,087,000 as proposed by the House and \$88,000,000 as proposed by the Senate.

Amendment No. 131: Provides \$94,200,000 for program funds instead of \$100,087,000 as proposed by the House and \$77,000,000 as proposed by the Senate. The managers agree the funds should be allocated to programs as presented to the House Committee on Appropriations during hearings on the assumption that a total of \$135,586,000 would be appropriated to the Endowment. This allocation was reviewed and approved by the National Council on the Humanities.

Amendment No. 132: Provides \$11,800,000 for administrative expenses instead of \$12,000,000 as proposed by the House and \$11,000,000 as proposed by the Senate.

Amendment No. 133: Deletes language proposed by the Senate requiring the Endowment to fund the cost of administering the Institute of Museum Services.

Amendment No. 134: Appropriates \$30,000,000 for matching grants instead of \$31,974,000 as proposed by the House and \$25,700,000 as proposed by the Senate. This provides \$8,400,000 for treasury funds and \$21,600,000 for challenge grants. This allocation was also approved by the National Council.

Amendment No. 135: Provides \$21,600,000 for challenge grants instead of \$22,950,000 as proposed by the House and \$15,600,000 as proposed by the Senate.

INSTITUTE OF MUSEUM SERVICES

Amendment No. 136: Appropriates \$12,000,000 for the Institute of Museum Services instead of \$14,420,000 as proposed by the House and \$8,400,000 as proposed by the Senate. The managers are in agreement that no funds are provided for assessment and accreditation grants or to initiate a program of multi-year grants. The Institute may, however, accept and fund applications from museums which have previously received IMS support.

Amendment No. 137: Provides a limitation on the compensation that may be paid to any employee of the Institute as proposed by the House.

NATIONAL CAPITAL PLANNING COMMISSION

Amendment No. 138: Appropriates \$2,361,000 for the National Capital Planning Commission as proposed by the Senate instead of \$2,371,000 as proposed by the House.

ARCHITECT OF THE CAPITOL

Amendment No. 139: Deletes Preservation of Area of Historical Significance account which was added by the Senate.

FEDERAL INSPECTOR FOR THE ALASKA GAS PIPELINE

Amendment No. 140: Provides that \$3,000 may be used for official reception and representation expenses as proposed by the Senate instead of \$1,500 as proposed by the House.

Amendment No. 141: Deletes language proposed by the Senate making \$1,000,000 available until September 30, 1983.

HOLOCAUST MEMORIAL COUNCIL

Amendment No. 142: Appropriates \$800,000 for Salaries and Expenses of the Holocaust Memorial Council as proposed by the House instead of \$770,000 as proposed by the Senate.

Amendment No. 143: Deletes language added by the House relating to timber exports. The managers agree that the amendment served merely to emphasize and restate the historical intent of the Congress, as reflected in the Senate language, and resulting long-standing Forest Service regulations regarding the practice of "indirect" or "third party substitution".

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 1982 recommended by the Committee of Conference, with comparisons to the fiscal year 1981 amount, the 1982 budget estimates, and the House and Senate bills for 1982 follow:

New budget (obligational) authority, fiscal year 1981	¹ \$7,629,048,000
Budget estimates considered by House, fiscal year 1982.....	¹ 7,341,468,000
House bill, fiscal year 1982.....	¹ 7,713,185,000 ✓
Budget estimates considered by Senate, fiscal year 1982.....	6,406,229,000
Senate bill, fiscal year 1982.....	7,353,456,391 ✓
Conference agreement, fiscal year 1982.....	7,541,651,000 ✓
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 1981.....	-87,397,000
Budget estimates of new (obligational) authority, considered by House, fiscal year 1982.....	+251,573,000 ✓
Budget estimates of new (obligational) authority, considered by Senate, fiscal year 1982.....	+1,135,422,000
House bill, fiscal year 1982.....	-171,534,000
Senate bill, fiscal year 1982.....	+188,194,609

¹ Excludes estimates which have been taken off-budget (Strategic Petroleum Reserve and Timber Purchaser Credit Road Construction).
