WATER AND WASTE DISPOSAL GRANTS

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The conference agreement provides for a rescission of \$10,000,000 in water and waste disposal grant funds instead of a rescission of \$50,000,000 as proposed by the Senate.

RURAL DEVELOPMENT PLANNING GRANTS

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The conference agreement provides for a rescission of \$1,000,000 for rural development planning grants instead of a rescission of \$2,000,000 as proposed by the Senate.

SOIL CONSERVATION SERVICE

Conservation Operations

Amendment No. 8: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which provides that funds for Conservation Operations are . . . "to remain available until September 30, 1981".

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

In consideration of the unique nature of the Mt. St. Helens situation, the conferees have agreed to fund up to 90 percent of these emergency measures on a one-time basis.

(Rescission)

Amendment No. 10: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

FOOD AND NUTRITION SERVICE

Child Nutrition Programs

Amendment No. 12: Provides \$312,400,000 under this heading as proposed by the House instead of \$302,400,000 as proposed by the Senate. The conferees recognize that adjustments may be required in the accounting for these programs. Any such adjustment will have no effect on the number of meals served or on the federal reimbursement obligation.

Amendment No. 13: Deletes House language providing for a transfer of up to \$10,000,000 to the Special Milk Program and restores House language providing for a transfer of up to \$243,000,000 to the Food Stamp Program, instead of a transfer of up to \$27,000,000 to that program as proposed by the Senate.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The Senate amendment would restrict Federal payments under this program to five cents per half-pint of milk. The conference agreement is substantially the same as the Senate proposal, deleting only the phrase "or any other Act".

The conference agreement brings the bill in line with the changes reported by the authorizing committees for the Special Milk Program.

The additional funds were made available for transfer as a result of the House accepting the deletion of two C-9B aircraft as proposed by the Senate. The Managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 34: Reported in technical disagreement. The Managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment transferring \$8,400,000 from "Research, development, test and evaluation, Navy, 1980/1981" as proposed by the House which was deleted by the Senate and will also transfer \$15,000,000 from "Operation and Maintenance, Navy Reserve, 1980" instead of \$30,000,000 as proposed by the Senate. The House did not propose to transfer any funds from "Operation and Maintenance, Navy Reserve, 1980". The conferees agreed to proceed with the overhaul of one Navy Reserve Destroyer instead of two as contained in the original Fiscal Year 1980 Defense Appropriation Act. The Managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The text of the amendment is as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

\$8,400,000 shall be derived by transfer from "Research, development, test and evaluation, Navy 1980/1981"; and \$15,000,000 shall be derived by transfer from "Operation and Maintenance, Navy Reserve, 1980"

Funds appropriated in this paragraph shall be available solely for reimbursement to State and local governments for fiscal years 1980 and 1981 for cash and medical assistance and social services costs related to Cuban/Haitian entrants (status pending) only to the extent that such assistance shall become authorized under the Immigration and Nationality Act, the Refugee Act of 1980 or the International Security Act of 1980.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The Conferees have agreed to delete the language included in the House bill which prohibits assistance to persons convicted of a felony or to prostitutes. The Conferees have further agreed that of the \$100 million appropriated in this bill \$50 million shall be for fiscal year 1981 costs and shall not become available until October 1, 1980. The funds appropriated are to be used to reimburse State and local governments for the cost of cash assistance, medical assistance and social services provided to aliens who have recently arrived in South Florida from Cuba and Haiti. The availability of these funds is conditional on the enactment of legislation which will authorize refugee type reimbursements for persons classified as "Cuban/Haitian entrants (status pending)." Legislation dealing with this issue is currently in conference. The conference substitute recognizes estimating differences between the Houses, and thus allows appropriated funds to be applied to costs incurred in either 1980 or 1981, but does not preclude further appropriations for anticipated 1981 costs.

The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate exempting fiscal year 1980 disaster related travel from limitation and providing the President with authority to relocate certain families residing near the Love Canal in New York State.

Considerable attention has been focused on the problems resulting from toxic pollution at the Love Canal site in New York. In 1978 and in 1980 the President declared the area an emergency, making available a broad range of Federal assistance. The language proposed by the Senate and agreed to by the conferees acknowledges that the Love Canal situation, due to its severity, may require extraordinary measures to resolve. By permitting relocation for families living near Love Canal, the conferees are enabling the President, if he so chooses, to provide special relief to families adversely affected by the chemical wastes.

The Committee of Conference recognizes that substantive legislation is urgently required to define the responsibilities of the Federal Emergency Management Agency and other government organizations in response to future toxic pollutant crises. The conferees believe that a clear delineation between an emergency response and victim compensation is essential. The conferees note that certain provisions of superfund legislation under Congressional consideration would authorize payment for compensable damages to real or personal property resulting from hazardous waste pollution. The potential problems resulting from chemical and hazard waste sites demand such a considered, comprehensive approach.

- (1) \$525 million to the Secretary of Agriculture, of which up to \$50 million could be used by the Secretary of Energy for Subtitle A; and
- (2) \$525 million to the Secretary of Energy for Subtitle A; and
- (3) \$220 million to the Secretary of Energy for Subtitle B, municipal waste.

The Senate allocated the remaining \$17.5 billion for Title I programs including the interim Defense Production Act authorities.

The House had no corresponding provision in the Supplemental appropriation, but had proposed an interim program in the Committee reported bill for FY 1981. That bill allotted \$3 billion for Defense Production Act authorities, but in the Department of Energy, not in the reverse account in the Department of the Treasury as provided by the Senate Supplemental. It also provided \$100 million for feasibility studies, \$900 million for cooperative agreements, and \$10 million for DOE administration, also not provided for by the Senate.

The intentions of both the House and Senate are basically the same: To establish a capability in this nation to produce significant quantities of alternative (or synthetic) fuels in the least amount of time. In the long run the Corporation formed by the Energy Security Act just enacted will play the major government role in alternative fuels. However, there is also a need to continue interim initiatives until the Corporation is operational, and to provide also for near term biomass opportunities. The Conference agreement addresses all these important initiatives while allowing needed review of synthetic fuels activities.

The substance of the agreement is as follows:

Within Department of Energy

1. \$3 billion is immediately available to carry out interim Defense Production Act activities as authorized by S. 932. This interim authority along with \$2 billion provided in P.L. 96-126 for the Federal Nonnuclear Research and Development Act of 1974, as amended, allows a large, aggressive program. The managers expect the Department to issue solicitations as quickly as possible to use these funds and maintain current momentum in the program.

2. \$100 million is provided for feasibility studies at no more than \$10 million each, to continue programs begun in the FY 1980 appropriation.

3. \$200 million is provided for cooperative agreements of no more than \$25 million each, to continue programs begun in the FY 1980 appropriation.

4. Provision is made to allow proposals which are not funded in this program to be accepted by the Synthetic Fuels Corporation as valid proposals.

5. Projects funded under this program shall be transferred to the Corporation, to the extent they are eligible, by majority vote of the Corporation.

6. Alternative fuels definitions are expanded to include direct burning of urban waste and heavy oil.

Within the Department of the Treasury

1. \$18.8 billion is provided to carry out the provisions of Title I (\$17.5 billion) and Title II (\$1.3 billion) of S. 932.

2. Up to \$5.3 billion of the amount provided will be transferred from amounts appropriated to the Department of Energy if not committed or conditionally committed, as provided by the Senate originally, by June 30, 1981. The managers expect that by that time, the Corporation will be operational and the interim program can be transferred.

3. Of the funds provided for Title I, the Synthetic Fuels Corporation:

a. \$6 billion shall be immediately available for obligation.

b. Up to \$5.3 billion as previously mentioned is available for transfer on June 30, 1981.

c. \$6,212,000,000 shall be available for obligation after June 30, 1982. The managers agree that this provision allows significant review of Corporation activities without inhibiting its operations.

4. Of the funds provided for Title II, biomass activities:

a. \$525 million is available to the Secretary of Agriculture for Subtitle A.

b. \$525 million is available to the Secretary of Energy for Subtitle A.

c. \$220 million is available to the Secretary of Energy for Subtitle B, municipal waste.

These amounts are those provided by the Senate to begin an aggressive near-term biomass and alcohol fuels program.

With the provision of those funds, the managers believe the significant progress begun in the past year will continue and synthetic fuels goals established by Congress can be achieved.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Amendment No. 132: Deletes language proposed by the Senate transferring \$1,000,000,000 from the "Solar and Conservation Reserves" to initiate, in the Department of Housing and Urban Development, the Solar Energy and Energy Conservation Bank. The managers are in agreement that transfers from the reserve be made in the regular appropriation process.

DEPARTMENT OF ENERGY

Amendment No. 133: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment appropriating \$4,000,000 for fossil energy research and development instead of \$17,300,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The increase over the amount proposed by the House is \$4 million for magnetohydrodynamics (MHD) facilities development and testing. The managers are in agreement that this supplemental appropriation for MHD is an advance of fiscal year 1981 moneys. A corresponding reduction will be made in this program in fiscal year 1981.

The disallowance of \$6,500,000 budgeted for demonstration of coal oil mixtures in no way implies any lack of support for this program. There is substantial commercial commitment to this concept and federal support for production of coal oil mixtures is available under the alternative fuels production program.

Amendment No. 134: Rescinds \$17,600,000 for fossil energy research and development as proposed by the Senate instead of \$22,000,000 as proposed by the House. Reprogramming of \$6,000,000 for a W. R. Grace coal-to-gasoline project is approved.

Amendment No. 135: Appropriates \$2,600,000 for energy conservation as proposed by the Senate instead of \$4,751,000 as proposed by the House. The amount provided includes \$1,100,000 for administration of the schools and health care institution grant program and \$1,500,000 for emergency energy conservation planning.

Amendment No. 136: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment providing for rescission of \$10,000,000 for energy conservation instead of \$172,000,000 as proposed by the Senate and \$23,000,000 as proposed by the House. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The amount rescinded includes \$7,000,000 of energy impact assistance funds and \$3,000,000 from electric and hybrid vehicles.

Amendment No. 137: Deletes language proposed by Senate to specify rescission in energy conservation of \$60,000,000 from the appropriation made available for grants to schools and health care facilities and \$5,000,000 from appropriations made available for conservation grants for local government buildings.

Amendment No. 138: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment deferring \$1,000,000 of the energy conservation appropriation for electric and hybrid vehicles. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 139: Rescinds \$2,000,000,000 from the strategic petroleum reserve as proposed by the Senate instead of \$800,000,000 as proposed by the House. This rescission has no effect on fiscal year 1980 spending because the funds were not planned for obligation or outlay before the funds are to lapse on December 31, 1980. This rescission leaves a balance of \$2.1 billion for oil purchases, and the managers remain committed to the principle of filling the Reserve as soon as possible.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Services Administration

Amendment No. 140: Deletes language proposed by the House deferring \$6,000,000 for Indian health facilities.

FEDERAL INSPECTOR FOR THE ALASKA GAS PIPELINE

Amendment No. 141: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate rescinding \$2,700,000 for permitting and enforcement as proposed by the Senate because of schedule slippages.

CHAPTER IX—DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION

Employment and Training Assistance

Amendment No. 142: Deletes language proposed by the House which would have disapproved part of a deferral instituted by the President under the Impoundment Control Act.

Advances to the Unemployment Trust Fund and Other Funds

Amendment No. 143: Appropriates \$1,841,000,000 as proposed by the House, instead of \$1,441,000,000 as proposed by the Senate.

Amendment No. 144: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the Senate amendment which authorizes the Department to borrow from the subsequent year's appropriation for "Federal unemployment benefits and allowances" anytime after August 1, 1980.

Amendment No. 145: Restores language proposed by the House which makes \$400 million for trade adjustment benefits available on October 1, 1980.

HEALTH SERVICES ADMINISTRATION

Health Services

Amendment No. 146: Appropriates \$2,400,000 instead of \$5,125,000 as proposed by the Senate.

The Conferees have agreed to a supplemental of \$2.4 million for the National Health Service Corps to support a field strength of not to exceed 2,060 positions. While willing to consider this as an emergency measure because of the many scholarship recipients and volunteers to whom the government has already made commitments, it is imperative that the Department initiate actions immediately to avoid a similar emergency next year. The Department must recognize that the Congress does not intend to let the number of scholarship recipients becoming available for service drive the appropriations for the Corps. The Conferees are agreed that, despite a lower ceiling, the Department should continue its active recruitment of volunteers for the Corps in 1981. These volunteers are more likely to establish a private practice in a shortage area after completing a period of Federal service and they should not be turned down in order to guarantee the placement of a less enthusiastic scholarship recipient. The Conferees expect that at least 300 physician volunteers will be recruited during the 1980-81 recruitment season. It is clear that the placement of scholarship recipients and volunteers in 1981 will be a difficult job within current budgetary limits. Many tools are available to the Department to address this problem. They include significantly expanded use of the private practice option for scholarship recipients and an increase in the number of previously funded Corps sites going independent. Unfortunately authorizations for the Corps in 1981 have not yet passed either the House or Senate. This means that the Corps will almost certainly have to be funded under a Continuing Resolution for the bulk of next year. The Department must recognize, therefore, that the ability to place both volunteers and scholarship recipients in 1981 will rest almost solely on its success in developing these alternative placement strategies.

The Conferees are further agreed that the \$7,824,000 provided in Title II for the increased pay cost at the Health Services Administration in 1980 includes \$1,175,000 for the Corps.

Amendment No. 147: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the amendment of the Senate which appropriates \$36,000,000 for health services programs related to the recent arrival of Cuban and Haitian aliens in the United States. Funds are available for the provision of Health care to Cubans and Haitians at processing centers and for contract medical care at hospitals near centers while these immigrants remain in Federal custody. In addition, this appropriation will provide for new and expanded community health and mental health centers in areas with high concentrations of Cubans and Haitians and for reimbursement to various Department of Health and Human Services accounts for administrative costs incurred while processing the new arrivals.

Amendment No. 148: Rescinds \$18,500,000 instead of \$16,000,000 as proposed by the House and \$21,000,000 as proposed by the Senate. The Conferees are agreed that funding for the emergency medical services program should be reduced by \$7,500,000 instead of \$5 million as proposed by the House and \$10,000,000 as proposed by the Senate.

CENTER FOR DISEASE CONTROL

Preventive Health Services

Amendment No. 149: Appropriates \$600,000 as proposed by the Senate. The House bill contained no funds for this purpose.

HEALTH RESOURCES ADMINISTRATION

Health Resources

(Rescission)

Amendment No. 150: Rescinds \$19,300,000 instead of \$9,300,000 as proposed by the House, and \$50,800,000, as proposed by the Senate. In addition to the amounts rescinded by the House the total rescission includes \$10,000,000 from funds appropriated for capitation grants to schools of the health professions.

ASSISTANT SECRETARY FOR HEALTH

Salaries and Expenses

Amendment No. 151: Rescinds \$18,500,000 as proposed by the Senate, instead of \$14,000,000 as proposed by the House.

HEALTH CARE FINANCING ADMINISTRATION

Grants to States for Medicaid

Amendment No. 152: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the Senate amendment amended to read as follows:

to reimburse State or local expenditures made prior to October 1, 1977 unless a request for reimbursement had been officially transmitted to the Federal government by the State within two years after the fiscal year in which the expenditure occurred.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. This language provides that no payment shall be made from fiscal year 1980 Medicaid appropriations to reimburse State or local expenditures prior to October 1, 1977 unless a State had submitted an official claim for reimbursement within two years after the fiscal year in which the expenditure occurred.

Amendment No. 153: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the

amendment of the Senate which rescinds \$30,000,000 for funds appropriated for Grants to States for Medicaid under Public Law 96-123, the Fiscal Year 1980 Continuing Resolution.

ASSISTANT SECRETARY FOR HUMAN DEVELOPMENT SERVICES

Grants to States for Social and Child Welfare Services

Amendment No. 154: Appropriates \$225,750,000 as proposed by the Senate instead of \$231,750,000 as proposed by the House.

Amendment No. 155: Reported in technical disagreement. The managers on the part of House will move to recede and concur in the amendment of the Senate amended to read as follows:

Provided further, That notwithstanding any other provision of law, not to exceed \$75,000,000 shall be used for training activities under this heading for fiscal year 1980.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

DEPARTMENTAL MANAGEMENT

Refugee Assistance

Amendment No. 156: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the amendment of the Senate which appropriates \$516,900,000 for refugee assistance. This amount includes \$416,900,000 which was originally appropriated in the fiscal year 1980 Continuing Resolution, Public Law 96-123, which is reappropriated in this bill under the authority of the new Refugee Act of 1980. The Senate amendment also provides that \$23,168,000 of funds for educational assistance for children shall remain available until March 31, 1981. The effect of the Senate language is to make a total of \$100,000,000 of additional funds available for refugee programs which is \$81,000 less than requested by the President and the same amount provided by the House.

DEPARTMENT OF EDUCATION

Elementary and Secondary Education

(Rescission)

Amendment No. 157: Restores rescission of \$15,000,000 for Title I, part A, section 116 as proposed by the House, and rescinds \$100,000,000 for Title I, part A, section 117 instead of \$35,000,000 as proposed by the House and \$200,000,000 as proposed by the Senate.

The Conferees urge the authorizing committees to act quickly on technical amendments to clarify State eligibility requirements for Title I incentive grants. Further, in accepting the rescission, the conferees do not intend this action to indicate lack of support for this program. The fiscal 1981 budget request for Title I Incentive Grants will receive serious consideration.

Amendment No. 158: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the Senate amendment amended to read as follows:

and \$14,750,000 of the amount appropriated for the purposes of part B of the Headstart-Follow Through Act

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 160: Deletes language proposed by the Senate.

School Assistance in Federally Affected Areas

(Supplemental)

Amendment No. 161: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the amendment of the Senate which appropriates \$20,000,000 for disaster assistance under section 7 of Public Law 81-874 (impact aid), and authorizes the use of other available balances under this heading for the purpose of providing disaster assistance.

Emergency School Aid

(Rescission)

Amendment No. 162: Rescinds \$21,052,000 instead of \$20,104,000 as proposed by the House, and \$22,000,000 as proposed by the Senate. The Conferees are agreed that the rescission includes \$11,000,000 for grants to school districts, \$3,750,000 for special programs and projects, and \$6,302,000 for magnet schools, pairing, and neutral site schools.

Under Special Programs and Projects, first priority will be given to Category I and II school districts and to school districts receiving late court orders.

Amendment No. 163: Deletes appropriation of \$22,000,000 and earmarking of \$3,000,000 proposed by the Senate.

Occupational, Vocational, and Adult Education

Amendment No. 164: Deletes rescission of \$24,817,000 proposed by the House.

(Supplemental)

CHAPTER X—LEGISLATIVE BRANCH

Senate

Amendments Nos. 174 through 189: Reported in technical disagreement. Inasmuch as these amendments relate solely to the Senate and in accord with long practice, under which each body determines its own housekeeping requirements and the other concurs without intervention, the managers on the part of the House will offer motions to recede and concur in the Senate amendments Nos. 174 through 189.

CHAPTER XI—MILITARY CONSTRUCTION

The conferees agree that establishment of facilities to support rapid deployment of U.S. forces to the Indian Ocean and to provide fleet support for U.S. naval forces in the region are important to assure the security of the Free World's oil supply and to maintain stability in the region. Both the House and Senate expressed reservations about the lack of overall planning and the capability to construct military support facilities in an area where very little construction has taken place. Both committees were concerned about the absence of signed country-to-country agreements in those countries where activity was proposed.

These concerns remain, although a great deal has been accomplished since the Department of Defense first made these proposals to the Congress. Because of these improvements, the conferees agree that funding in the following amounts should be provided:

| Item | DOD request | House | Senate | Conference |
|---|-------------------|-------------------|-------------------|-------------------|
| Planning and design: | | | | |
| Army..... | \$4,300,000 | \$1,000,000 | 0 | \$1,000,000 |
| Navy..... | 19,000,000 | 11,000,000 | 0 | 14,000,000 |
| Air Force..... | 24,700,000 | 4,000,000 | 0 | 7,000,000 |
| Military construction, planning and design..... | 0 | 0 | \$25,000,000 | 0 |
| Subtotal..... | 48,000,000 | 16,000,000 | 25,000,000 | 22,000,000 |
| Construction: Diego Garcia: | | | | |
| Dredging..... | 4,300,000 | 4,300,000 | 0 | 0 |
| Other construction..... | 19,200,000 | 0 | 10,800,000 | 7,500,000 |
| Subtotal..... | 23,500,000 | 4,300,000 | 10,800,000 | 7,500,000 |
| Total..... | 71,500,000 | 20,300,000 | 35,800,000 | 29,500,000 |

These funds are to be used first for concept planning and then for specific facility designs. The Department is to submit concept plans to the Committees as soon as available, but not later than February 1, 1981. Emphasis in planning shall be on Indian Ocean and Lajes Air Base facilities. Construction activity at Diego Garcia shall be divided between that necessary to provide fleet support and that needed for rapid reinforcement capability. No funds are available until signed country-to-country agreement are provided to the House and Senate Appropriations Committees.

The conferees are agreed that the NATO allies and Japan must share in the responsibility for paying the enormous costs of the expanded Indian Ocean activities. For this reason, a portion of the funds used to finance this construction program shall be derived from the NATO infrastructure program. The Department is to provide evidence to the Committees during testimony on the fiscal year 1982 budget that consultation has occurred through the infrastructure arena to accomplish cost sharing among the allies.

The conferees direct that a number of sources of funding be used, as indicated in the tables below :

| Source of funds | DOD | House | Senate | Conference |
|---|--------------|--------------|--------------|-------------|
| New appropriations | 0 | 0 | \$15,800,000 | \$9,500,000 |
| NATO infrastructure | 0 | \$20,300,000 | 5,000,000 | 5,000,000 |
| High energy laser facility | 0 | 0 | 3,000,000 | 3,000,000 |
| Culebra weapons range | 0 | 0 | 12,000,000 | 12,000,000 |
| Shipbuilding and conversion, Navy | \$71,500,000 | 0 | 0 | 0 |
| Total | 71,500,000 | 20,300,000 | 35,800,000 | 29,500,000 |

American Preference in Indian Ocean Construction.—Both the House and the Senate included report language to give American firms preference in the awarding of construction contracts in the Indian Ocean/Persian Gulf area. However, the House and Senate used different criteria for determining how this preference should be established.

The conferees support the need for American preference and feel that it is the responsibility of the Department of Defense to prepare a detailed program for assuring that American firms be given preference for construction contracting. The conferees feel that this plan should follow the general guidelines of both House and Senate reports and include the following major elements: (1) A prequalification procedure for U.S. contractors that assures competition; (2) a requirement that firms use U.S. personnel, material, and equipment where appropriate; and (3) the use of joint ventures to satisfy existing agreements.

Emergency Construction Funds.—The conferees agree that a notification procedure is necessary prior to the use of the Secretary of Defense's emergency construction authority and concur in the Senate proposal that the nature of the emergency be included in the notification. The conferees agree, further, that no reprogramming will be required when the Department uses funds specifically appropriated for the emergency construction program, but that the customary reprogramming requirements will apply where funds are being used from other programs or projects.

MILITARY CONSTRUCTION, ARMY

Amendment No. 190: Provides \$1,000,000 by transfer as proposed by the House.

MILITARY CONSTRUCTION, NAVY

Amendment No. 191: Restores "transfer" language deleted by the Senate.

Amendment No. 192: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment providing \$21,500,000, instead of \$15,300,000 as proposed by the House and \$10,800,000 as proposed by the Senate. The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 193: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment with an amendment, as follows:

of which \$12,000,000 shall be derived by transfer from funds appropriated for the Culebra Weapons Range by Public Law 93-194 (87 Stat. 766),

: Provided, That the limitation on the amount available for study, planning, design, architect and engineer services is increased by \$14,000,000.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 195: Deletes rescission proposed by the House.

MILITARY CONSTRUCTION, AIR FORCE

Amendment No. 196: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment with an amendment, as follows:

MILITARY CONSTRUCTION, AIR FORCE

(Transfer of Funds)

For an additional amount for "Military construction, Air Force, 1980/1984", \$7,000,000, of which \$4,000,000 shall be derived by transfer from funds provided for NATO infrastructure "Military construction Defense Agencies, 1980/1984"; and \$3,000,000 from funds appropriated for the high energy laser research facility at White Sands, New Mexico, to remain available until September 30, 1984: Provided, That the limitation on the amount available for study, planning design, architect and engineer services is increased by \$7,000,000.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

MILITARY CONSTRUCTION, PLANNING AND DESIGN

Amendment No. 197 : Deletes section proposed by the Senate.

Missions to Internal Organizations

Amendment No. 200 : Appropriates \$418,000 as proposed by the Senate instead of \$130,000 as proposed by the House.

Amendment No. 201 : Deletes amendment of the Senate which would have increased by \$5,000,000 the limit on travel and transportation imposed on the Department of State through Section 112 of P.L. 96-86, which reduced the amounts that could be obligated for travel and transportation in the Executive Branch by \$500,000,000 from the amounts proposed in the fiscal year 1980 budget, as amended and supplemented.

The conferees are agreed that the submission of the request to increase the limit on obligations for travel and transportation for the Department of State constitutes the authority to increase the limit on such obligations.

DEPARTMENT OF JUSTICE

Legal Activities

Amendment No. 202 : Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates \$825,000 of which \$745,000 shall be derived by transfer from the Office of Justice Assistance, Research and Statistics, "Law enforcement assistance".

The conferees are agreed that the \$745,000 to be transferred from law Enforcement Assistance are to be derived from unobligated balances available for Crime Prevention programs.

FEDERAL HIGHWAY ADMINISTRATION

The conferees are cognizant of the pending application involving the Arrowhead bridge between Superior, Wisconsin and Duluth, Minnesota and direct the attention of the Federal Highway Administration to this project.

The conferees are aware that at least nine states have brought suits challenging the President's deferral of Federal-aid highway obligational authority as well as the method chosen by the Federal Highway Administration to allocate the remaining fiscal year 1980 obliga-

tional authority among the States. The conferees are also aware that in some of these suits, district courts have issued orders declaring the deferral and/or the allocation formula illegal and ordering the Secretary of Transportation to take certain actions. It is the intent of the conferees that this legislation, in setting a new statutory obligational ceiling for fiscal year 1980 and in providing a statutory distribution formula, act to moot all aspects of the pending litigation, including any efforts to hold the Secretary in contempt of court. The conferees believe that this is essential because of the negative impact that compliance with the terms of those orders would have upon the operation of the allocation formula established by this legislation and upon the entire Federal-aid highway program. Therefore, "amounts not obligated on the date of enactment of this Act" shall be determined on the basis of actual obligations, without regard to set-asides or other court orders.

Amendment No. 240: Establishes August 15, 1980, as the date for redistribution of unobligated Federal-aid highways funds instead of August 1, 1980, as proposed by the Senate and August 25, 1980, as proposed by the House. In making this redistribution the conferees direct that particular attention be given to those States which are substantially below their apportioned percentages.

Amendment No. 241: Increases contract authority for emergency relief to \$350,000,000 instead of \$200,000,000 as proposed by the House and \$375,000,000 as proposed by the Senate. The increase above the amount proposed by the House includes not to exceed \$125,000,000 for highways in the states of Washington, Oregon, and Idaho affected by the eruptions of the Mount St. Helens volcano. In addition to the projects specified in the House and Senate Committee reports, priority should also be given to state route 163 in Baldwin County, Alabama and state route 182 in Mobile County, Alabama.

FEDERAL RAILROAD ADMINISTRATION

Amendment No. 242: Restores language proposed by the House appropriating \$68,100,000 for rail labor assistance and terminating the windfall employee protection payments which have been paid to certain Conrail employees. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate making funds appropriated to the National Railroad Passenger Corporation for capital improvements available only as such funds are required to make payments to vendors for capital equipment deliveries and services delivered during the balance of fiscal year 1980.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 245: Appropriate \$330,000,000 for urban discretionary grants instead of \$300,000,000 as proposed by the Senate and \$400,000,000 as proposed by the House. The conference agreement includes \$150,000,000 for buses and bus related facilities, \$110,000,000 for rail modernizations and system extensions, and \$70,000,000 for new systems construction. The conferees expect that, to the extent possible, UMTA will meet the existing new systems full funding agreements.

Amendment No. 246: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment which reads as follows:

This disapproval shall be effective upon the enactment into law of this bill.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The disapproval of the proposed Interstate transfer grant deferral will make available an additional \$166,245,273 in fiscal year 1980. The conferees direct that these funds be allocated as follows:

| | |
|----------------------------|--------------|
| Boston, Mass..... | \$10,000,000 |
| Chicago, Ill..... | 47,000,000 |
| New York, N.Y..... | 32,000,000 |
| Philadelphia, Pa..... | 30,000,000 |
| Portland, Oreg..... | 18,000,000 |
| Other eligible cities..... | 29,245,273 |

Transportation Research and Development

Amendment No. 247: Restores House language and limits obligations for certain transportation research and development programs to 95 per centum of the estimated fiscal year 1980 obligations instead of 90 per centum as proposed by the House. The Conferees, of course, expect that in administering this limitation the Secretary will, to the greatest extent possible, exempt high priority safety related research projects.

In lieu of the matter stricken by said amendment insert:

Sec. 303. Notwithstanding any other provision of law, the number of career appointees in any agency paid performance awards during fiscal year 1980 under 5 U.S.C. 5384, or any comparable personnel system established on or after October 13, 1978, may not exceed 25 percent of the number of Senior Executive Service or comparable personnel system positions in any such agency.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The Conferees are agreed that no more than 25 percent of the number of Senior Executive Service positions, or positions under similar personnel systems, in any agency may receive performance awards. In agreeing to this limit, the Conferees are concerned with the reports that an excessive number of SES employees are being designated to receive bonuses, and that the bonuses are being used in lieu of salary increases which are being denied to all other senior appointed and elected officials of the government.

The Conferees wish to draw attention to potential abuses in the bonus award system and direct that the General Accounting Office in cooperation with the Office of Personnel Management do a thorough study of bonus system payments, and report the findings to the authorizing and appropriations committees. If it is found that SES or SES-type payments are being made on the basis of personal or political favoritism or if it is found that SES or SES-type payments are being made on a rotational basis, the Conferees agree that all SES or SES-type payments shall be suspended until such abuses are cleared up.

The Director of the Office of Management and Budget is directed to allocate this rescission total among the departments and agencies of the Federal Government and report back to the House and Senate Committees on Appropriations within 30 days following the date of the enactment of this Act as to the allocation made: Provided further, That no allocation shall exceed 25 percent of said amount.

(b) With respect to the provisions of the Treasury, Postal Service, and General Government Appropriations Act, 1980, under the heading General Services Administration, Federal Buildings Fund, Limitations on Availability of Revenue, the aggregate amount made available from the revenues and collections deposited into the Federal Buildings Fund pursuant to section 210(f) of the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 4901(f)), for the purposes set forth in the provisions contained under such heading is reduced by \$15,000,000, which reduction shall apply specifically to the limitation on rental of space under clause (4) of such provisions.

The conferees are agreed that this amendment expresses the sense of the Senate that any future legislation to restrict the use of tax-exempt State and local bonds issued to provide mortgages for housing would be effective only after January 1, 1981. The conferees on the part of the Senate emphasize that their conference action on this matter does not diminish the resolve of the Senate as expressed by Amendment No. 344.
