GENERAL PROVISIONS

SEC. 301. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 302. Except where specifically increased or decreased elsewhere in this Act, the restrictions contained within appropriations, or provisions affecting appropriations or other funds, available during the fiscal year 1984, limiting the amount which may be expended for personal services, or for purposes involving personal services, or amounts which may be transferred between appropriations or authorizations available for or involving such services, are hereby increased to the extent necessary to meet increased pay costs authorized by or pursuant to law.

SEC. 303. None of the funds made available to the United States Postal Service under this Act or any other Act may be used to restructure employee compensation practices as in effect under the most recently effective collective bargaining agreement under section 1206 of title 39, United States Code, except in accordance with the results of procedures set forth in section 1207 of such title.

SEC. 305. (a) The Congress finds and declares that—

(1) the competing credit demands by State and local governments, agriculture, business, and consumers, aggravated by massive Federal debt financing and increasing credit demands by foreign governments, continue to cause serious economic disruption in rural America;

(2) the United States has a vital interest in protecting the economic health of American farmers;

(3) the American farmer has been caught in an unprecedented credit squeeze;

(4) monetary and fiscal policies have substantially caused real interest rates to remain at two or three times historic levels of such rates;

(5) high real interest rates have dramatically increased the value of the dollar to the detriment of farmers who devote at least one out of three acres of land to production for export;

(6) the average value of an acre of farm land fell this year for the third year in a row, the longest sustained decline since the Great Depression;

(7) the total amount of debt owed by American farmers is \$203,800,000,000;

(8) last year Brazil, Mexico, Argentina, and Venezuela held \$260,000,000,000 in external debt and the interest payments on these loans alone totaled more than \$20,000,000,000;

(9) the Governments of Brazil, Mexico, Argentina, and Venezuela have been successful in securing postponements in debt and principal repayments, favorable renegotiations, new loan guarantees, and other special arrangements through private negotiations, assistance from the United States Government, and the International Monetary Fund; and

(10) American farmers have been unsuccessful in obtaining as favorable special treatment from private banks or the Federal Government.

(b) It is therefore the sense of the Congress that—

(1) the President, in cooperation with the Board of Governors of the Federal Reserve System, should exercise appropriate authority to assure that an adequate flow of credit be available

to American farmers at reasonable rates and that American farmers be treated no less favorably than foreign borrowers with comparable levels of risk, and

(2) the President, in cooperation with the Board of Governors of the Federal Reserve System, should take noninflationary actions necessary to reduce interest rates which are currently at levels abnormally above the historic real cost of money.

SEC. 307. Upon the enactment of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1985, the first proviso under the heading "Legal Services Corporation, Payment to the Legal Services Corporation", in title II of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1985, is amended to read as follows: "*Provided*, That the funds appropriated in this paragraph shall be expended in accordance with the provisions under the heading 'Legal Services Corporation, Payment to the Legal Services Corporation' contained in Public Law 98-166 except that 'fiscal year 1984', wherever it appears in such provisions, shall be construed as 'fiscal year 1985', 'fiscal year 1983', wherever it appears in such provisions, shall be construed as 'fiscal year 1984'; 'January 1, 1984' shall be construed as 'January 1, 1985'; '\$6.50' shall be construed as '\$7.61'; and '\$13' shall be construed as '\$13.57'; and shall not be denied to any grantee or contractor which received funding from the Corporation in fiscal year 1984 as a result of activities which during fiscal year 1984 have been found by an independent hearing officer appointed by the President of the Corporation not to constitute grounds for a denial of refunding:"

Exports.

SEC. 308. (a) The Congress finds that—

(1) the export of American poultry meat products has reduced our Nation's annual trade deficit by over \$275,000,000 but has declined for two straight years;

(2) an even more drastic decline in the exports of American shell eggs has occurred over the same period of time and many foreign markets have been completely lost;

(3) the decline of such exports is largely a result of the use of unfair trade subsidies for poultry and egg exports by countries of the European Economic Community and Brazil;

(4) the United States has been engaged for almost three years in negotiations with such countries to end the use of such subsidies but has been unable to make substantial progress in ending such subsidies; and

(5) further negotiations to end the use of such subsidies are expected to be held in October 1984.

(b) It is the sense of the Congress that—

(1) the President should use all practicable means to necessitate an end to the use of unfair trade subsidies for poultry and egg exports by countries of the European Economic Community and Brazil in order to permit American producers to compete more fairly in international markets and to avoid the imposition of such subsidies by the United States; and

(2) the President should use all of the authorities available, including the Commodity Credit Corporation, to move United States agricultural products in world trade at competitive prices.

SEC. 309. The Secretary of Commerce is directed to submit, within thirty days of the date of enactment of this Act, to the appropriate committees of the Congress a report specifying a proposal to meet the funding obligations of the Fishermen's Guarantee Fund.
