TPPER CENTER SEMINARS

No noon seminar is scheduled for Tuesday, Sep 21. At noon, we will present the fourth video of the series "El Espejo Enterrado" El Precio de la Libertad.

BAMBI SEMINAR

On Thursday, Manuel Guariguata will give an informal seminar on BCI: "Resprouting and survival of damaged tree saplings" Those planning to attend should call Vielka Liao to arrange transportation.

PEOPLE

Arrivals

- Christopher George, Andrew Liebman, John Garrett and Peter Pilafian, Chedd-Angier Productions, Sep 18-24, to film Phil DeVries' work on ants, butterfly caterpillars and wasps interactions for a television series.
- James Nieh, short-term fellow, Cornell Univ., Sep 21-Dec 20, to work on the communication sounds of Melipona fasciata food recruitment and traffic control on BCI.
- Frederick Meinzer, Sugar Planters Association, and two German colleagues, Ulrich Zimmerman and Rainer Benkert, Sep 20-27, to continue work on the crane.
- Keiko Yamada, Mitsuhiro Imamori and Kenji Fujita, of Japan Television Workshop Co. Ltd., Sep 23-26, to meet various STRI researchers and visitors regarding possibilities of filming their research at future dates.

Departures

- Ira Rubinoff, STRI director, Sep 19-27, to Washington, DC, on official business.
- Richard Condit, scientific staff, Sep 20-23, to Washington, DC, to attend the CFS board meeting. Also attending will be George Anghez, STRI, Steve Hubbell, from Princeton University and Peter Ashton, Theodore Panayotou and James LaFrankie from Harvard University.
- Kyle Summers (center), STRI Postdoctoral Fellow, made a valuable donation to Pemasky of a colored picture guide of frogs at the Nusagandi Station in Kuna Yala. Forestry Technician Rutilio Paredes, Field Director of Pemasky, accepts the donation. Maria Morello, Visitor Services Office, STRI, was present at this event. This frog guide will be of great help to future researchers at Nusagandi • • • Kyle Summers (centro), Becario de Postgrado del STRI, hizo una valiosa donación a Pemasky de una guía de fotos para los anfibios que se encuentran en la Estación Nusagandi en Kuna Yala. El Técnico Forestal, Rutilio Paredes, Director de Campo de Pemasky, aceptó la donación. María Morello, Oficina de Visitantes del STRI, estuvo presente en el acto. Esta guía de las ranas será de mucha ayuda para futuros investigadores en Nusagandi.

- Elena Lombardo, assistant director for external affairs, Sep 18-25, to Washington, DC, on official business.
- Leonor Motta, executive officer, Sep 20-27, to Washington, DC, on official business, followed by a few days of leave.
- Donald Windsor, staff scientist, Sep 20-Oct 11, to Indianapolis on vacation.
- Jose Carlos Espino, dive officer, Sep 23-Oct 17, to attend various training courses and seminars in the United States and consult with dive officer at S.I. in Washington, DC.

The new photographic exhibition Wildflowers of Soberania National Park will open to the public starting Sep 22, from 1-5pm on Tuesday, Thursday and Friday. Special group guided visits should be arranged with the Office of Education, Tupper Center • • • La nueva exhibición fotográfica "Flores Silvestres del Parque Nacional Soberania" abrirá al público a partir del 22 de septiembre, de 1-5 pm los martes, jueves y viernes. Para visitas de grupos guiadas, favor llamar a la Oficina de Educación, Centro Tupper.
THINGS YOU SHOULD KNOW

At Tupper Center
Sep 22 Córdón Ecológico Meeting, 9-12am, Exhibit Hall. "El Espejo Enterrado" video, part IV, 12-1pm, Auditorium.
TREC Meeting, 1-3pm, Small Meeting Room.
Academic Board Meeting, 3-5pm, Small Meeting Room.

During Sep 23-25 both meeting rooms will be painted. Please do not schedule any activity for these days.

Delegation of Authority
Dr. Alan P. Smith will serve as Acting Director of the Smithsonian Tropical Research Institute from Sept. 19-27, 1992. All correspondence should be prepared for his signature as Acting Director.

From the SI Office of Planning and Budget
During the OPB's retrospective review of the recent process of preparing the FY 1994 Budget Request to the Office of Management and Budget, it was determined by staff that STRI deserves special recognition for the quality of the budget narrative submitted to our office. Of all the submissions, STRI's required the least amount of editing and staff work. In addition, it was lively and interesting reading. You and your staff are to be commended for your efforts. We made our deadline and it was in no small part due to the quality and timeliness of submissions from conscientious bureaus such as yours.

News from the Computer Specialist
Regarding Internet
By early October the Smithsonian will have joined Internet, the largest computer network in the world. The Internet is a collection of cooperating, interconnected networks that support international collaboration among thousands of organizations.

Throughout the U.S., Europe and elsewhere, there are many other networks accessible via Internet. Currently, more than four million Internet users from over 100 countries are accessing some 750,000 computers. The system today consists of networking facilities in educational and research institutions, businesses and government organizations worldwide.

Individuals who currently have access to the IBM 4381, several VAX computers, some LAN systems, and selected PCs will be able to access Internet. It is expected that all who need access will have it in the near future. STRI will be able to access Internet by January 1993, and once the system is implemented at STRI, training will be provided to users.

The benefits of Internet will vary with your needs and field of interest. Based on your level of interest, access to the network can help you enhance your knowledge and interests through the sharing of databases with others or by participating in appropriate "discussion groups." Numerous library catalogs and a growing number of electronics journals are accessible through Internet. Oceanic, for example, is a science database on Internet, created and maintained by the University of Delaware's College of Marine Studies.

CURSOS

OTS Courses
The Organization for Tropical Studies is offering a course in Tropical Biology: An Ecological Approach #93-1. The course will be conducted in Costa Rica. The tentative itinerary includes the cloud forest of Cerro de la Muerte, the Rara Avis Reserve, Corcovado National Park; Volcan Cacao and other sites. Please send applications to OTS, P.O. Box DM, Duke Station, Durham, NC 27706. Tel: (919) 684-5774. Deadline for receiving applications is Oct. 16, 1992. Announcement of selections will be Nov. 15, 1992. Course Fee: $1,000 OTS members' students and $3000 Non-OTS member students. Applications available at the Office of Education.

Applicants must be enrolled in, or accepted for, a graduate college program. Selection of participants is highly competitive; enrollment is limited to approximately 22 students. Preference is given to students enrolled in OTS consortium member institutions.

JOB OPPORTUNITIES

The Rockefeller University Seeks Applications for Positions in the Interface Between Field Biology and Neurobiology

The Rockefeller University is seeking to strengthen its program in the Neurosciences by hiring uncommonly bright, independent researchers in field and evolutionary biology, ethology and neuroethology. Tenure track positions are available at the Assistant Professor level. Applicants should have an interest in one or more of the following areas: ontogeny, learning, evolution, social systems and reproduction, animal communication, animal orientation, perception, animal cognition, aging, environmental physiology and stress, as they relate to natural history, behavior and brain function.

Applicants should send their C.V., one page description of their research interests, copies of up to three representative publications, and the names and addresses of three potential references to: Fernando Notebohm, Rockefeller University, Field Research Center, Tyrrel Road, RR2, Box 38B, Millbrook, NY 12545
Coordinador de Proyecto para CEASPA

CEASPA busca un(a) Coordinador(a) de un proyecto de promoción indígena en la Región Oriental del país. El objetivo principal del proyecto es la incorporación de los grupos indígenas al debate nacional sobre el uso de la tierra y los Recursos Naturales de la Región Oriental (Darién y parte de la provincia de Panamá y Kuna Yala).

Las funciones del(a) Coordinador(a) en la 1ra. etapa son los siguientes:
- Realizar un diagnóstico de la situación, incluyendo mapeo de infraestructura, recursos, condiciones de vida, ubicación dentro y fuera de la comarca.
- Hacer un inventario de grupos/organizaciones/instalaciones en el área.
- Elaborar el plan de promoción para la 2da. etapa.
- Establecer relaciones de trabajo con todos los grupos indígenas en el área y con grupos de apoyo. Características de la persona que se busca:
- Disposición mental y física para trabajar en condiciones de campo difíciles.
- Sensibilidad social.
- Responsabilidad y experiencia en supervisión.
- Capacidad de trabajar sólo(a).

Favor de entregar currículum en las oficinas del CEASPA lo antes posible, a más tardar el 25 de septiembre, y solicitar cita para entrevista. Dirección: Apartado 6-133, El Dorado, Panamá. Tel. 26-5326 • 26-6602

Vacante en CATIE

Centro Agronómico Tropical de Investigación y Enseñanza (CATIE), Turrialba, Costa Rica, requiere los servicios de:

Los interesados deberán enviar carta de solicitud, currículum vitae, copia de títulos certificados, historia salarial, nombres y

On Friday, Sep 11, Annette Aiello and Diomedes Quintero (center) formally presented their new book "Insects of Panama and Mesoamerica" to Ira Rubinoff and Celestino Arauz (right), vice-rector for research, University of Panama. El viernes 11 de septiembre, Annette Aiello y Diomedes Quintero (centro), hicieron presentación formal de su reciente libro "Insects of Panama and Mesoamerica" a Ira Rubinoff y a Celestino Arauz (derecha), Vicerrector de Investigación y Postgrado de la Universidad de Panamá.
